POINT OUT FACTS-You-having an intelligent mind and can analyze them for profit.

Pioneers in thousands of towns have made money. In each new town development the Doubting Thomases have predicted that it would never amount to anything. Then these same Doubting Thomases come right along, after the development has made enormous profits for the pioneer investors, stating the fact that they had the opportunity to buy and make a profit, too; but that they did not have sense enough. The wise investor buys property ahead of great developments and looks into the future for large profits.

Figure it all out for yourself. Where there is so much smoke there must be some fire.

The Orlando East Coast road connects the East and West Coasts at the heart of this great peninsula. Thus Bithlo, the commercial center of "East Orange," and Desota, Journalista, Cocoa and Melbourne Beaches, the finest beaches on the Florida Coast. Anyone who believes in the future development of Florida must realize the fortunes that will be made by the pioneer investors in these developments.

Town developments are not new. Just think how many towns have been developed in this America since Columbus landed. How foolish it would be to think that other towns would not develop!

There are many sound reasons for the development of Bithlo and we would like to have an opportunity of pointing out some of these to you, after which you will be in position to judge our investment offering for your-

WYORK POLICE Women Police Will EVERT TRUE AN CAREFULLY Guard Convention From Adventurers

NEW YORK, May 22 .- One of the many problems New York's police force will face during the Democratic convention next month will be to rid the city of characters known in police vernacular as "crashers" and "mashers." This task has been assigned to Captain Mary Hamilton, director of the feminine bluecoats. A crasher is person, male or female, who craves excitement, company and entertainment and, not having the funds or the connections necessary for a legitimate satisfaction of the craving becomes addicted to politic 'sponging."

The chronic crasher and masher, according to Captain Hamilton are always seen at large public functions, political demonstrations banquets theatrical first-nights, big a restricted area during the funerals, and exhibits and society weddings.
