Bible Verse For Today

THE ACQUISITIVE INSTINCT:
How we are tempted to
acquire more than we need.

They say that the world is
filled with people who are
not satisfied with what they
have.

Why should we go to the
lengths of killing in order to
acquire more?

It was a banker who said
that the world is filled with
people who are not satisfied
with what they have.

When Mussolini took power
in Italy, he said that he was
going to give the Italian
people what they needed.

A reader writes that he
is tired of hearing about
the details of the war.

Over in England, they are
talking about the possibility
of a new world war.

President Roosevelt has
said that he is going to
take the necessary steps to
bring about a new world
order.

The Associated Press has
said that the world is
filled with people who are
not satisfied with what they
have.

A Kansas City man has
written a letter to the
editor of the Palm Beach
Post-Opinion.

Henry Reed says that the
world is filled with people
who are not satisfied with
what they have.

It doesn't take long to
see that the world is
filled with people who are
not satisfied with what they
have.

Tax-Exemption

One of the best features of the various tax proposals which Congress is now considering, is one offered by the Administration which would do away with the issuance of tax-exempt securities. President Roosevelt at his press conference the other day condemned this practice and pointed out that 58 of the richest people in the United States pay no tax on 37 percent of their income because of their investments in tax-exempt government bonds.

In a measure this may account for the fact that a man like J. P. Morgan, who is reputedly one of the richest men in the world, was able to avoid any income tax payments whatever, and a Congressional investigation into his affairs was able to disclose no infractions of the law. Mr. Morgan may have had a large part of his fortune invested in tax-exempt bonds, which together with allowance for losses on other investments, account for his having to pay no tax.

That this is not a fair method of taxation is fairly obvious. Here is a man who buys a lot and erects a building on it, investing, say, a hundred thousand dollars in the community and contributing vastly to its growth and development. He may be able to rent that building for ten thousand a year, but his ad valorem taxes to city, county and state, are probably seven thousand a year, and then he has to pay an income tax to the federal government on the remaining three thousand.

Another man, who also has a hundred thousand dollars to invest, puts it away in Liberty bonds, contributing nothing to the progress and development of his community, but who is able to secure as to his principle, assured of regular interest payments of four percent, netting four thousand dollars a year, and having to pay no income tax upon it. It seems that he should be just as much obligated to pay taxes to the support of the government, which is his only source of income, as anyone.

It is reasonable which the government might expect from the present tax-exempt securities is insignificant. It is estimated that the total amount of tax-exempt securities outstanding is about 18 billion of which about 10 billion are local bonds which are exempt from the general government, but the federal government is estimated to receive from taxing the interest on the remaining 8 billion approximately 75 million dollars.

The chief attraction of the present tax-exempt securities is the fact that they were not tax-exempt cities. The national government itself would not be so likely to pay the interest on the bonds and high interest rates would be paid upon excessive amounts of bonds.

How Much Should Your Ads Cost?

Advertising in modern business is a necessary part of the commercial life. The cost of advertising is a factor in the success or failure of a business. It is important to know how much your ads should cost.

SANFORD TWENTY YEARS AGO

WASHINGTON, Aug. 2.—Twenty years ago today, the United States was a different place. The country was still recovering from the effects of the Civil War. The economy was struggling, and the government was trying to rebuild the nation.

CHILD LABOR WITHOUT CODES

By MRS. FRANKLIN D. ROOSEVELT

All except the voluntary child labor is regulated, the regulations apply to only a partial list of occupations chiefly in trade and industry. Street trades are usually unregulated as also are domestic service and agricultural work.

We still have pending a child labor amendment of the Constitution which has been accepted in a number of states, rejected in many, and then later accepted in a few which had previously rejected it. The arguments have been heated; diverse points of view have been presented, and a few groups have been actively opposed to the amendment.

One hundred thousand children are approximately left unprotected as a result of the existing child labor codes. So much has been made of the protection which these codes give the children, that we have forgotten the children who are unprotected.

There are the large numbers of children who are not covered by the child labor laws. They are the children who are working in the streets, in the homes, and in the fields. They are the children who are not protected by any laws.

Even in states where child labor is regulated, the regulations apply to only a partial list of occupations. Street trades are usually unregulated as also are domestic service and agricultural work.

Even in states where child labor is regulated, the regulations apply to only a partial list of occupations. Street trades are usually unregulated as also are domestic service and agricultural work.

Yugoslavian Unity Being Rebuilt By Hapsburg Rumors

Military Circles Are Taking Restoration Talks Seriously

By WADE WERNER

VIENNA, Aug. 2.—(AP)—Just the rumors of a Hapsburg restoration in Austria are doing a lot toward rebuilding national unity in Yugoslavia, according to information from Belgrade reaching foreign legations here.

Military circles in Yugoslavia are said to be taking seriously rumors of an Austro-Italian agreement whereby Otto of Hapsburg would be put on the throne, with reconstructions of Italy's troops along the Austrian border emphasizing the attitude of Mussolini toward the restoration.

It is estimated that only swift mobilization and a show of determination by Yugoslavia could nip such a restoration in the bud. Military leaders in Belgrade are reported to be backing the new Yugoslav government's program of national unity through reconstruction.

The sudden announcement of an Austro-Italian agreement would be a disaster for Yugoslavia. It would mean the end of the country's independence and the restoration of the Hapsburg dynasty.

The sudden announcement of an Austro-Italian agreement would be a disaster for Yugoslavia. It would mean the end of the country's independence and the restoration of the Hapsburg dynasty.

The sudden announcement of an Austro-Italian agreement would be a disaster for Yugoslavia. It would mean the end of the country's independence and the restoration of the Hapsburg dynasty.

King Alexander's dictatorship and now minister of war — are trying to build a regime which could count on voluntary co-operation in time of emergency from the hitherto discontented groups.

The general contention is that if Yugoslavia should present a picture of internal political strife, forces seeking a favorable moment for restoration of the Hapsburgs would be encouraged to ignore the oft-repeated warnings of Yugoslav statesmen that "any attempt to restore the Hapsburgs means blood."

Victor Herbert, the late Austrian composer, was born in Vienna, Austria, in 1891. He was a composer and a pianist. He died in 1933.

Old 'Calico Ball' Music, Movies To Of 1873 Proves To Be Available On Pacific Air Ships

Have Been Real 75 Reservations Have Been Made Already On Flight To China

NEW YORK, Aug. 2.—(AP)—One of the bravest gestures of the Old South—the "Calico Ball" in Birmingham, New York's eye, 1873—thought to live only in fiction was discovered very alive in the memory of an eye witness here recently.

The discovery came about through the publication last fall of Khema Gelders Sterne's book for older girls, "The Calico Ball." The book finally came to the notice of Mrs. J. D. Beale, who lives in New York's East Fifties.

Mrs. Beale recalls that the ball was in celebration of the completion of Lin's Ferry, which was a "large" two-story bank building which seemed much too imposing for the small, scattered village which then was Birmingham.

How would you like to have THESE HOURS for yourself, everyday?

Dinner must be ready at 6 P. M. But it isn't necessary to stay at home and regulate the oven or watch the pot if you cook electrically. It is really modern magic the way electric ranges start and stop while you are miles away. The timer and heat control do all the watching without a thought or worry from you. And that isn't all electric cook-

ery can do for you. It will save pot scouring because it is sootless and smokeless. It will save vitamins because meats shrink

less and fresh vegetables can be cooked with little or no water. It is safe because matches are not needed and baby's mischievous fingers can turn switches to their heart's delight without the loss of anything but heat. It saves time because preparing the food is the only cooking time you use.

Ask us to prove to you why electric cookery is cleaner, faster, cooler and more modern than any other cooking method

Pals Beat Hawks While Saints Drop Tars By Nine To 1

GAINESVILLE, Aug. 2.—Palatka coasted Gainesville, 3 to 2, here yesterday, taking advantage of Joe Sparkman's wildness...

It became a hot case on which discipline in thousands of community kitchens might depend. The house judge went to higher authorities for support, and found it. Mrs. X and Mrs. Z were summoned to criminal court and sentenced to a year's work in factories.

In community houses each family has its separate room or apartment. Moscow regulations allow 11 square feet of living space per person so a husband and wife may lay claim to a fair sized room.

Each family has its individual table shelf and stove in the joint kitchen. Ten or fifteen housewives may be found in there at once, cooking family dinners.

The prepared meals are taken in the family abode for consumption. After dinner a few changes are made and the room becomes in turn a parlor and finally a bed-chamber.

to tally all of their runs. Hefflinger, Axala - hurler, was rapped for eight hits, those of which came in the eighth inning without a score, as Bryan was called out at the plate with the tying run on a questionable decision.

In the other North Florida League contest, St. Augustine walloped the Jacksonville Tars, 9 to 1, in the Ancient City to maintain their standing one and a half games behind the leading Azaleas.

McKinney, Saint hurler, in addition to holding the Tars to seven hits and one run, smashed out a homer himself with two mates aboard in the second inning. Scores by innings:

Thompson Convicted Of Fiendish Murder

PROJIA, Ill., Aug. 2.—(AP)—Geralt Thompson, 26, was convicted Wednesday of the murder of Mildred Hallmark, 19. The Circuit Court jury fixed his punishment at death in the electric chair.

It took a jury in Circuit Court from 4:45 P. M. (Central Standard Time) until 8:35 P. M. to reach an agreement on the penalty, although a verdict was reached earlier on the young toolmaker's guilt.

Thompson, 4, St. Louis 1; New York 3; Chicago 3; Washington 3; St. Paul 3; New York Philadelphia, not voted.

Welfare Fund Found Without Cash

Welfare Reports That Legislature Failed To Make Provision Needed

DAVENSVILLE, Aug. 3.—(AP)—Conrad Van Hyning, emergency relief administrator, said the recent legislature had not appropriated \$100,000 a year, as provided, to finance the work of the state's new welfare board.

Legislature intended to provide the money," he said, "but the fact was so well known that everybody thought it would be followed through."

There was no provision for the fund in the legislature's bill as it was understood it would be administered by the welfare commissioner. He said the legislature discovered it only a week ago.

He and Chester B. Florida works progress administrator, would go to Washington to see the welfare administrator, to work of the Florida board with federal funds.

The welfare law was enacted in Tallahassee, the Legislature by the federal government would consider it a contribution to the recovery and it would continue to draw funds to Florida.

DAVENSVILLE, Aug. 3.—(AP)—The welfare board which obtained approval to save their homes, said today that the delinquent repayment and threats of dire consequences if the home loan corporation foreclosed.

It also reported that the growers of HOLC loans were boasting they do not ever to repay.

It was disclosed as the packing down, published showing that up to July the proceedings had started in 45 states and set of Columbia against owners in default.

CONTRACT AWARDED

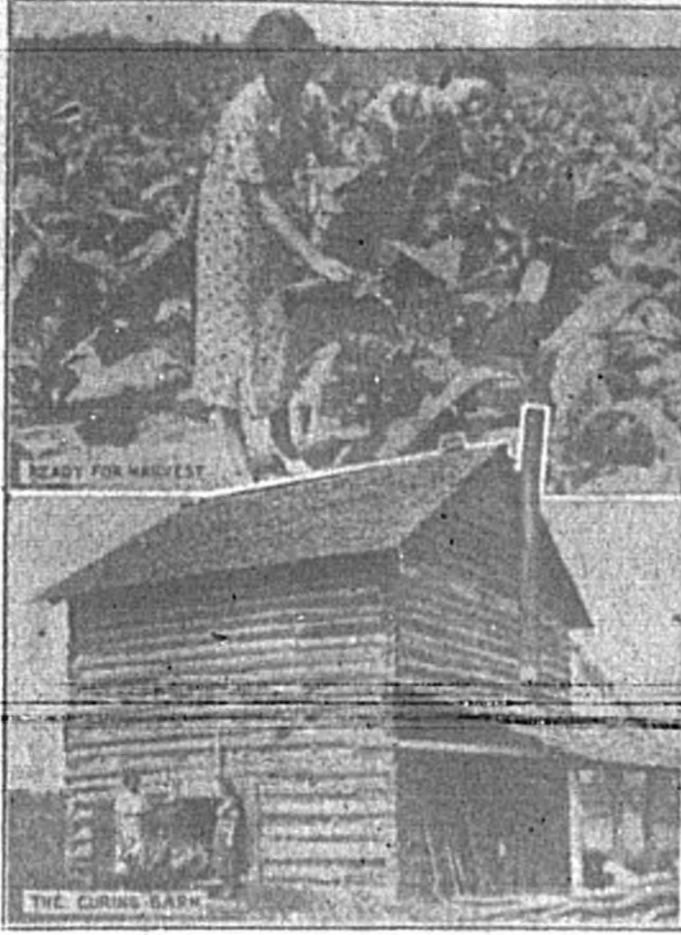

DAVENSVILLE, Aug. 3.—(AP)—The contract for the construction of the Panama Canal lock in the Colon, Panama, was awarded yesterday by the United States engineer's office.

SHIPPING NEWS

The Port of Central Florida, reported daily by the Seminole Chamber of Commerce arrivals and departures of ships.

GEORGIA JUBILANT AS TOBACCO GOES ON AUCTION BLOCK

Here's a pictorial story of Georgia's 1935 tobacco crop, the first to go to the auction block in this country. The tobacco is shown first in a field where Dolly Mitchell and Eleanor Kelley of Tifton inspect the ripened leaf that soon will be on its way to the warehouse to go under the auctioneer's hammer.

Next, a load of the golden leaf comes from a field near Tifton, with Eleanor Kelley and Helen Smith riding the cart. The tobacco is then taken to a curing house, as demonstrated by Dolly Mitchell and Katherine Parker.

Tifton girls and, at last, the leaf is packed in hampers and ready for the auction, as shown by Helen Duncan, Caroline Williams and Kate Wisenbaker at Valdosta.

Fifteen youth Georgia were exhibited as the 1935 crop, estimated at \$60,000,000 to \$65,000,000 pounds, was placed on sale. Opening sales brought an average of 26 to 28 cents per pound, as compared with last year's average of 18 7/8 cents. (Associated Press Photos)

1,138,000 Persons Are On New Deal's Monthly Pay-Roll

WASHINGTON, Aug. 3.—(AP)—The New Deal's payroll has reached an all-time high. It was revealed yesterday in government employment figures issued by the civil service commission listing the 1,138,000 civil employees, including 427,329 members of the Civilian Conservation Corps.

This is approximately double the number of government workers at the time President Roosevelt took office. It is more than 200,000 greater than the number of workers employed by the government at the time of the armistice—817,760.

The commission's report on Feb. 28, 1933—the last under President Hoover—showed the total number of civil workers to be 562,487. The CCC's only claim, running up the number of employees is the postal service, which hires 228,000 persons.

Police Chief's Slayer Hung By Lynchers

Confessed Robber Is Taken From Jail In California By Mob Of 50 Masked Men

YREKA, Calif., Aug. 2.—(AP)—A mob of 25 to 30 masked men dragged C. L. Johnson, 24, from the county jail here and lynched him for the slaying of Police Chief F. R. Daw of Dunsmuir, Calif.

A lone deputy sheriff on duty at the jail was kidnaped, and a bystander was held prisoner until after Johnson, a white man, was hanged from a pine tree near here.

Johnson was fully dressed except for his shoes when sheriff's officers cut him down two hours after the hanging.

Johnson confessed robbery near Reno, Nev., and Klamath Falls, Ore., was taken from his cell exactly 12 hours after the funeral of the police chief he is accused of killing Monday.

Johnson was brought here earlier in the week when Lynch, California, deputy sheriff, took him into the county and set him free, barefooted.

The mob then ransacked the jail until it found the keys to the cell and took Johnson away.

Johnson had denied killing the police chief who was shot to death when he stopped two robbery suspects.

Johnson said his companion who escaped fired the shot. He said this man was Robert Miller, 30. Johnson was captured ten hours after the shooting.

Selassie Willing To Accept League Proposal Of Peace

Ethiopian Emperor Ready To Meet If Duce Face To Face To Settle Dispute

ADDIS ABABA, Aug. 3.—(AP)—Emperor Haile Selassie announced "I have instructed my delegate to Geneva to accept the League's proposals," designed to settle the quarrel with Italy.

As the Emperor signified his agreement to the formula for a renewed arbitration of his dispute with Benito Mussolini, he stated that Emperor Selassie is ready to meet Mussolini face to face and his native fighters.

Earlier, the foreign office said, the Emperor is ready to meet Mussolini face to face on neutral soil to settle the dispute.

The three-point agreement by France, Italy and Great Britain calls for a resumption of the arbitration proceedings which began down with a deadlocked Italian-Ethiopian commission in the Netherlands recently.

A fifth and neutral member will be added to the commission to seek a peaceful settlement of the whole dispute.

Emperor Haile Selassie's aim to revive the League of Nations and to put the League of Nations Council last night with Italian acceptance of a three-point program advanced by Great Britain and France which forestalls League intervention for at least another month.

Italy has not yet accepted the plan but has made formal proposals for settling the League and making the Emperor's offer.

Mussolini accepted all but the most important point—a time limit for League intervention.

Crosser Railroad Pension Bill Gets House Body Okey

Committee Seeks To Build Relief System For Employees

WASHINGTON, Aug. 3.—(AP)—The House Interstate Commerce Committee sought yesterday to build a temporary railroad pension system in place of the one that was wrecked by a Supreme Court decision recently.

It submitted a favorable report on the Crosser railroad pension bill, adding an amendment requested by President Roosevelt for a special investigating committee to study permanent legislation and make recommendations to Congress by Jan. 1, 1936.

The old Railroad Retirement Act which the Crosser bill seeks to supplant, required that railroads contribute four percent of their total payrolls and that employees pay two percent of their wages into a retirement fund.

The Crosser bill sets a plan for the same proportional contributions, but leaves to a companion bill, which must originate in the Senate, the details of the plan.

Soviet Fliers Speeding To U. S. Via North Pole

Daring Aviators Are Attempting Non-Stop Flight Across The Top Of The World

MOSCOW, Aug. 3.—(AP)—A Soviet polar plane, carrying three daring aviators on a non-stop flight across the top of the world toward San Francisco, headed across Barents Sea today.

The plane radioed it was heading out over 8,291 mile stretch of water and polar ice and into a zone of continuous polar daylight.

At least reports Pilot Sigismund Levoniyev was averaging about 100 miles an hour. We will continue to report as needed.

Doctor Tells Why Cigarette Smoking Seems Energizing

TORONTO, Aug. 3.—(AP)—The sense of relief from fatigue and hunger that may follow the smoking of a cigarette, W. J. McCormick, M. D., reports in the American Journal of Hygiene, is caused by the body's effort to fight off nicotine.

The mechanism as shown by other scientists is that the nicotine in the smoke acts on the sympathetic nervous system, which then causes the adrenal glands to release into the blood of some of the adrenalin stored in the liver and pancreas.

Adrenalin is a form of sugar. It is the muscle fuel burned by the body in action. The extra shot of it in the blood causes the sensation of well being.

Dr. McCormick's experiment to learn whether this form of energy release ought to be regarded as a good thing for a person.

He points out that eating gives a similar sense of well being, due to carbohydrates from the food passing into the body in the form of sugar. But he says there is the difference that the food energy is extra, taken from the outside, while the tobacco-containing extracts it from the body's storehouses.

CITY BRIEFS

Local weather yesterday: High 95, low 74. Barometer reading at noon today, 30.00 and steady.

Times at the beaches tomorrow: High at 10:43 A. M. and 10:46 P. M., low at 1:14 A. M. and 4:42 P. M.

The weather outlook: Generally fair tonight and Sunday.

The City Reflector offers congratulations to Mr. and Mrs. E. E. Shipp (nee Eleanor Staff) on their fourth, and Mr. and Mrs. W. E. Satcher (nee Maude Estabrook) on their 17th wedding anniversary, to be celebrated tomorrow.

Congratulations also are offered Mr. and Mrs. E. H. Cullum on their 27th, Mr. and Mrs. Monte Harriett (nee Balle Wright) on their second, and Mr. and Mrs. J. C. Ashton (nee Susan Fay) of Glendale, Calif. on their sixth wedding anniversary, to be celebrated Monday.

Many happy returns are offered Miss Doris Garrett, Miss Roberta Murrell, E. O. Chase, Jr. and others who will celebrate birthday anniversaries tomorrow, and to George Thurston and others who will celebrate anniversaries Monday.

Because John Meier, Sr., is leaving on an early start on a vacation trip beginning Monday, the August meeting of the Board of County Commissioners will begin at 9:00 o'clock Monday morning at the Court House instead of 10:00 o'clock. O. P. Herndon, clerk of court, will be making his first appearance in his official capacity, but it was indicated that little more than routine matters will be presented.

Henry Witt, Jr., third vice-president of the Sanford Junior Chamber of Commerce, will preside at the regular meeting of the organization at the Vesper Hotel Monday night at 8:00 o'clock.

Elmer Banks, while, was fined \$5 and cost upon his arraignment before Judge J. F. Sherrill late yesterday on a charge of being drunk.

Salt water grouper were being caught by the hundreds by fishermen along the bulkhead this week, it was reported by persons who seem unable to explain the appearance of a salt water fish this far up the St. Johns River.

The grouper average about five inches in length, and about two dozen are required for what might be called a "meal" for feeding.

Substantial improvements and enlargements were being made at Sanford Municipal Zoo this week, with Parks Superintendent James Moughton directing the work. The bird flight cage has been rebuilt with new cypress poles and all wire is now in first class condition. The deer run has been enlarged almost double its old size, while a new cage, to be used in housing some of the baby animals recently born, also has been erected. It is believed that the zoo will be ready for the season.
