West Allies Charge Russia With Threat To Peace In Debate

Vishinsky Attends Both Sessions Of Meeting To Discuss Problems Of Berlin

PARIS, Oct. 6 (AP)—American, British and French U.N. Security Council leaders met today to hammer out a resolution calling for a return to the Berlin blockade, a British official reported. Their formal meeting was also to decide whether the West's end-of-the-blockade resolution would be a joint one in the name of the United States, Britain and France, or separate ones, the source said.

By LOUIS NEVIN
PARIS, Oct. 6 (AP)—The United States, Britain and France in turn charged before the United Nations Security Council today that Russia is endangering world peace by blocking Berlin.

Russian Deputy Foreign Minister Andrei Vishinsky, who announced yesterday a Soviet boycott of the debate, sat silently in both sessions. He was at times interested, rapidly jotting notes. At other times he appeared grim or bored.

The old prosecutor gave no hint whether he would join the debate at some later session. He contended yesterday there is no blockade; that the Security Council is incompetent to settle the matter; and that only the foreign ministers' council can solve German problems until a peace treaty is written.

Philip C. Jessup, a Columbia University professor, led the West's assault by declaring the United States has made every effort to agree with Russia and "remove the threat in the Pacific which has been created by the Soviet Union and which, until it ceases to be a danger, remains a threat to the peace of the world."

Job Shuffling Is Completed By Gay In State Office

TALLAHASSEE, Oct. 6 (AP)—State Comptroller C. M. Gay today announced a general reorganization of his office with staff jobs shuffled and machines assigned to fill some man vacancies.

"It will give us more efficiency for what we're spending," he said. Reorganization of the staff which collects state taxes and keeps books on public funds has been gradual over the past several months but reassignment of top departmental jobs has just been completed.

Gay said there haven't been many dismissals from the payroll, although he has followed a general policy of not replacing men and women who resigned or retired unless they were in vital spots.

One major change was turning over to a battery of business machines the job of a dozen men who once had audited all state checks by hand.

Gay said by full use of automatic equipment and elimination of duplicate work, his office has been able to cut the state's percentage increase in volume of business (Continued on Page 2)

Celery Fed Jayvees Race Mainland Tonight

The Seminole High School Celery Fed Junior basketball team is scheduled to meet the Central High "B" squad in Daytona Beach tonight. It was announced last night by Coach Fred Gooden.

The game was set for 8 p.m. but the game will be played tonight, he declared.

PT. MYERS MAYOR
FORT MYERS, Oct. 6 (AP)—Ezra Gooden, mayor of Fort Myers, today announced that he had been elected to a second term as mayor.

BODY RETURNED
ATLANTA, Oct. 6 (AP)—The body of Capt. Colin A. May, of Madison, Wis., who died in World War II, was today returned to his home in the Atlanta General Hospital.

Soviets Claim 200 Persons Possession Of B-25 Bombers Are Killed In Tehran Quake

Thousands Are Injured In Tremor; Meshed Mosque Is Partially Damaged

TEHRAN, IRAN, Oct. 6 (AP)—Two hundred persons were killed and thousands were injured by an earthquake last night, a dispatch from Meshed said today. Damage was reported great. The dispatch said parts of the famous Meshed mosque called Goharhad collapsed.

Meshed is the capital of Khorasan province, in Eastern Iran. A walled and Holy City, Meshed lies on a fertile plain about 100 miles northeast of Tehran. It contains the superb mausoleum of the Imam Riza, which is visited annually by about 100,000 pilgrims. Commercially, it is an important regional trade center.

(Strong earth tremors were reported from various observatories last night. The West Branch, Engle, observatory reported severe shocks, centered in the area of Northern Iran, continuing for three hours. Fordham University in New York placed what it called a six square of a quake 6,400 miles from New York. Fordham said the quake seemed far heavier than the one which took 3,238 lives at Fukui, Japan, last June.)

The American Military Government announced approval of regulations for new Berlin city elections, scheduled next month.

The city council has scheduled elections on Nov. 14 but the Russians have prevented necessary preparations in their sector of the city.

This would make it depend on the Russians whether Berlin would have a city-wide election this year, as planned in the municipal consultation.

The city council has scheduled elections on Nov. 14 but the Russians have prevented necessary preparations in their sector of the city.

Seminole Teachers Fight Amendment On School Bonds

Opposition to a proposed state amendment that would govern the issuance of school bonds was voiced by members of the Seminole County Teachers Club at a meeting at the Junior High School on Monday evening, and Supl. T. W. Lawton commended the teachers for taking this stand.

Rebecca Stevens, public relations chairman announced today. Paul Mikler presided.

The teachers, she said, also opposed taking of a half cent from the gasoline tax for school use, which would deprive the schools of \$7,000,000 of estimated revenue. It was reported that the State is behind on its retirement fund for teachers and the group favored asking that this be remedied.

The resignation of Mrs. H. V. Grantham as secretary was accepted and Miss Barbara Rupprecht was appointed to the post.

The Club appointed a number of committees: W. T. Milwee was named as chairman of the Legislative Committee and Mrs. Lucy Smith as a member. Miss Ethel Riser, Mrs. W. E. Smith, H. Rumbley and Mrs. G. Krattzer were named as members of the Social Committee. Herman E. Morris was appointed as membership chairman, Miss Stevens as Public Relations chairman, Mrs. F. C. Winn as chairman of the Play Day committee, and B. O. (Continued on Page 2)

U. S. Civilian Pay Reaches \$500,000,000

WASHINGTON, Oct. 6 (AP)—Senator Byrd (D-Va.) reported today that the government's civilian payroll costs more than \$500,000,000 a month and was still climbing in August.

Byrd, chairman of the Joint Congressional Committee on Governmental Economy, said the civilian payroll cost more than \$100,000,000 in August, an increase of 12.2 percent July.

Byrd said the increase was due to the first eight months of the year was an average of \$10 a day.

BEAST INJURES CORPSE
SANBORN, Oct. 6 (AP)—An elderly couple was injured Saturday when a specimen of a bear was released from a cage at the Sanborn Zoo.

LEGION ANNIVERSARY
The 40th anniversary of the founding of the American Legion was celebrated today in Sanford.

Boston Blanks Cleveland 1 To 0 To Take Opening Contest Of World Series

Braves Are Allowed Only Two Hits By Tribe's Bob Feller; Sam Harts Felner; Sam Harts Felner

BRAVES FIELD, Boston, Oct. 6 (AP)—Johnny Sain bunted the ball 10 World Series shutout since 1924 today when he blanked Cleveland's Bob Feller, to give the Boston Braves the opening game of the best-of-seven series before some 9,000 fans.

Sain, the rubber armed right-hander with the fancy curve ball, outpitched the great Feller who allowed only two hits in a heart-breaking loss. The Indians got four singles off Sain, a 24-game winner in the regular season.

Lenny Holmes, the Braves' chunky little right fielder, drove home the only run on this chilly afternoon with a single past third baseman Phil Masi in the last of the eighth.

It was the first one to nothing game since Al Nold of the New York Giants shut out Joe Bush and the New York Yankees in 1921.

WORLD SERIES
CLEVELAND (A.L.) won from BOSTON (N.L.) 1-0 in the first game of the series.

FIRST INNING
Indians
Sain's fast pitch to leadoff batter Mitchell was a ball. Mitchell fouled to left center.

Bob Feller pitched a three and two pitch and lofted an easy fly to M. McCormack in dead center. McCormack fouled out to Rickert over the left field boxes.

Indians
Holmes lined to Doby in left center. Doby sent a blow bouncer to Robinson who barely beat the runner to the bag. Hiding into foul for the putout. Torgerson was called out on strikes.

SECOND INNING
Indians
Gordon looked out a third strike. With the count two and two, Feller singled over Elliott's head for the first hit of the game.

Feller pitched to Holmes and Feller pitched to Doby in left center. Doby was called out on strikes.

THIRD INNING
Indians
Elliott failed to hold Hegon's sharp grounder and was charged with an error as the runner reached first safely.

Feller missed two attempts to bunt, then struck out swinging at a high one. Mitchell fouled to Elliott who made the catch in back of the third base coaches' box. Hegon took advantage of Sain's slow windup and stole second, sliding in ahead of Salkeld's (Continued on Page 2)

Sanford Citizens Urged To Attend Safety Meeting

Highway Patrol To Present Report On City Saturday P.M.

Sat. C. W. Keith of the State Highway Patrol will present the 1947 Safety Report of Sanford as prepared by the National Safety Council, at a meeting to be held Saturday afternoon at 2:00 o'clock at the City Hall.

The report is a written analysis of the National Safety Contest, which the City entered, and includes data concerning Sanford's traffic control and accident prevention program, and a comparison with the programs of other cities of similar size and characteristics.

Sanford had two traffic deaths, or 20 deaths per 100,000 as compared to an average population (Continued on Page 2)

New York Hears Thurmond Flay 2 Old Parties

Dulles, Dewey Meet To Discuss International Affairs

NEW YORK, Oct. 6 (AP)—Governor J. Strom Thurmond of South Carolina told New Yorkers that "If we need a federal law for murder by lynchers, you need a federal law for murder by gangsters."

The States Rights Candidate for President, in a speech prepared for a meeting of the Overseas Press Club, argued against the Civil Rights program and declared:

"Neither the people of New York nor those of South Carolina approve murder. Lynching is murder, just as gangster killing is murder. We had one lynching in (Continued on Page 2)

Ganas Announces His Candidacy For City Commission

B. F. Ganas, refrigeration service man, today qualified to run for the office of city commissioner in Group No. 1 to succeed R. A. Williams.

In 1931 Mr. Ganas was married to Miss Margaret Spitzer, daughter of Mr. and Mrs. H. H. Spitzer. They live at 207 East Fifth Street.

Mr. Ganas is a member of the American Legion, of the Oddfellows and is a member of the board of directors of the Jaycees. He attends the First Baptist Church. His business, the Ganas Refrigeration Service, is located at 207 East Fifth Street.

Mr. Ganas declared: "I believe that the future progress of the City of Sanford lies with each of us as citizens to do what we can to make a better city. I am offering myself as a candidate for the City Commission because I feel that I am qualified by experience and training to faithfully serve the citizens of this community."

The report reveals that in 1947 Sanford had two traffic deaths, or 20 deaths per 100,000 as compared to an average population (Continued on Page 2)

State Farm Prices Drop In September

ORLANDO, Oct. 6 (Special)—The index of prices as of Sept. 15 received by farmers for commercial truck crops stood at 150 which was 22 points lower than in mid-August, and 39 points below a year ago, according to information obtained today by the Florida Farm Bureau through its Washington office.

The Bureau said that declines were reported for carrots, cauliflower, onions, green peppers, spinach, tomatoes, lima beans, cabbage, cantaloupes, eggplant and watermelons for the period ending Sept. 15. Prices of beans and lettuce were up and no change was shown for celery.

NEGRO VOTE LEAGUE
CLEARWATER, Oct. 6 (AP)—Charles Phillips, president of the Clearwater negro voters league, today advised the group had severed its connection with the statewide non-partisan Progressive Voters League.

Phillips charged the state group with "certain practices" with which the local group could not cooperate. He declined to elaborate.

JAPS STAYED ON ONIONS
OSAKA, Japan, Oct. 6 (AP)—Instead of putting onions in their stewed onions, Japanese are going to get stewed onions.

Onions which are onion brandy and onion oil will go on sale at Christmas. The onions are promised to be of high quality and without the usual amount of water.

Navy Produces Information On Its New 65,000 Ton Carrier

WASHINGTON, Oct. 6 (AP)—The Navy produced an additional peek today at what its new 65,000-ton aircraft carrier will look like.

The vessel, which will cost an estimated \$124,000,000 and take four years to build, is scheduled for keel laying late this year or early next at Newport News, Va.

Richard Fields' Sentence Affirmed By Supreme Court

Tallahassee, Oct. 6 (AP)—The State Supreme Court today affirmed the seven year sentence of Richard Fields, negro, charged in Seminole County with assault to commit murder against Deputy Sheriff Charles Beck, who was killed by Fields' wife.

The court said that it was immaterial whether the deputy sheriff was about to make a lawful arrest, but affirmed that the evidence was sufficient to show that Fields was the aggressor and made the assault accompanied with threats that he would kill the deputy. M. S. McGregor of Deland was attorney for Fields. Assistant Attorney General Ernest Welch represented the State.

The attack on Deputy Beck took place a year and a half ago. Fields was tried in Circuit Court and sentenced to serve seven years at the Federal Prison Farm at Tallahassee, to serve one year.

Fields is still in the County Jail. (Continued on Page 2)

Navy Produces Information On Its New 65,000 Ton Carrier

WASHINGTON, Oct. 6 (AP)—The Navy produced an additional peek today at what its new 65,000-ton aircraft carrier will look like.

The vessel, which will cost an estimated \$124,000,000 and take four years to build, is scheduled for keel laying late this year or early next at Newport News, Va.

Designated the CVA-58, the super carrier will have a flush deck, with flag and navigation bridges on telescopic shafts on the side.

Elevators to bring planes on deck will be located along the sides of the 1,000-foot flight deck, with a larger elevator far aft.

The CVA-58 will have four catapults—two on the bow and two on each side—instead of the two on present carriers. The faster catapults will permit faster launching of planes.

The Navy said the new carrier should be operating in the Atlantic with over 100,000 pounds in weight. Admiral Louis E. Denfeld, chief of naval operations, said Congressmen during discussion of the carrier "that it would be the largest ship ever built."

The new carrier, like several of the navy's latest warships, will be built through the Panama Canal. She will be 180 feet wide at the bow and 190 feet wide at the stern.

Hurricane Does Little Damage In Southern Florida

Tornadoes Demolish 27 Homes In State; 1 Dies, 6 Are Hurt

MIAMI, Oct. 6 (AP)—A tropical hurricane whirled northward in the Atlantic early today after lashing Florida's coast with torrential rain and winds that reached 90 miles an hour in gusts.

At least six persons were injured in the greater Miami area but no deaths were reported. Twenty seven houses were demolished in three tornadoes spawned by the Caribbean-born storm.

The hurricane scored a "bullseye" on Miami and Fort Lauderdale as the center of the great swirling mass passed directly over the lush water playground area before it swept out to sea near Pompano.

The Red Cross and other agencies reported only minor wind and water damage. More than 10,000 persons were housed in bomb shelters in the greater Miami area during the hours the storm lashed the city with driving rain and sustained winds of 78 miles an hour.

Lowest barometer reading was 29.92 at Miami International Airport (Continued on Page 2)

High School Band Gives Concert At Kiwanis Luncheon

Kiwanites were today entertained at the Tourist Center by the Seminole High School Band led by B. E. Hink. The 14 players made an attractive appearance with their red coats. The program was given under the direction of Edward F. Lane and John Kinder.

The program included the opening and closing music, "March of the Bands," "The Boogie Woogie," "Tribute to the Seminoles," a popular ballad type of number, "Seminoles of the Hills," and two novelty numbers, "Charlotte Harbor Stomp" and "Shoutin' from Tomb." The latter number gave the able troupe a chance to render some novelty efforts.

The band consisted of 14 members, including 10 clarinets, eight saxophones, one bassoon, the brass section had eight trumpets, five trombones, four alto horns, one baritone horn and one euphonium. There were two flute players. The drum section (Continued on Page 2)

Worst Of Polio Is Over For Huff Family

BERFIELD, Ill., Oct. 6 (AP)—Michael Huff, five, was home with his five brothers and sisters today, and the worst of the multiple attack on the children seemed over.

All six youngsters were stricken during a 10-day period in early September. Three of the cases were very light. But Michael, Elizabeth, one, and Edwige Jr., seven, were more severely affected.

The baby and Michael were hospitalized. Edwige was kept in bed at home. Last week, the youngest child was brought home.

"And now, Michael is back, and we're all together again," said Mrs. Edgar Huff, mother of the children. "We are prepared for a long period of recovery, but we are surprised at the rapid progress of Michael and Edwige. We worry about the baby, though, because it's harder to be certain about her improvement."

KAWAKITA SENTENCED
LOS ANGELES, Oct. 6 (AP)—California-born Tomoya Kawakita, convicted of committing brutalities against American war prisoners while he was an interpreter at Japan's infamous camp Oyeama, is under sentence of death for treason.

Federal Judge William Mathes yesterday sentenced the 28-year-old native to die in the gas chamber.

SPANISH VETS
Col. Theodore Roosevelt Camp No. 13, United Spanish War Veterans, will meet at the Legion Club Sunday afternoon at 8 p.m. C. O. Priest, commander, announced today. He urged that all members attend.

Sanford Citizens Urged To Attend Safety Meeting

Highway Patrol To Present Report On City Saturday P.M.

Sat. C. W. Keith of the State Highway Patrol will present the 1947 Safety Report of Sanford as prepared by the National Safety Council, at a meeting to be held Saturday afternoon at 2:00 o'clock at the City Hall.

The report is a written analysis of the National Safety Contest, which the City entered, and includes data concerning Sanford's traffic control and accident prevention program, and a comparison with the programs of other cities of similar size and characteristics.

Sanford had two traffic deaths, or 20 deaths per 100,000 as compared to an average population (Continued on Page 2)

WEDNESDAY OCT. 6, 1938
 BIBLE VERSE TODAY
 Be careful to whom and what
 you give dominion of your
 thoughts and heart and deeds.
 Gen. 1:28: Let them have dominion.

Governor Thurmond says that
 when Secretary Royal seeks to com-
 pare Roosevelt with Truman it is
 like comparing a mountain to a
 mole-hill.

Harold Ickes is back on President
 Truman's calling list after not
 speaking to him for two years.
 But that leaves him, exactly where
 he was before as far as we are
 concerned.

"The two great dangers facing
 America today," says Senator
 Pepper, ignoring the Berlin crisis
 and the Communist invasion, "are
 the threat of another depression
 and the growing stranglehold of
 monopolies upon small business."
 And that after 15 years of the
 New Deal.

A small group of young negroes
 booted Governor Thurmond in North
 Carolina the other day following
 a political speech. Such disrespect
 is not characteristic of the average
 negro. We must be careful not to
 let a few who have been victimized
 by stupid propagandists prejudice
 us against them all.

The State Department seems to
 be abandoning its policy of re-
 turning good for evil in connection
 with its dealings with Russia. Now
 that the Soviet government has
 restricted all American diplomatic
 representatives in Russia to the
 narrow confines of the Moscow city
 limits, the State Department is
 considering a plan to limit the travel
 of Russians in this country to the
 area of Washington. We might
 also try buzzing a few buildings in
 the Soviet sector of Berlin.

"Asia's frontier is upon the
 Elbe," says former British Prime
 Minister Winston Churchill, who,
 if he is not the only man in the
 world who sees the truth, seems
 to be the only one unafraid to tell
 it, reminding one that it was
 former British Prime Minister Stanley
 Baldwin who once warned Britain
 that England's frontier is upon the
 Rhine" and brought down upon his
 head storms of criticism from short-
 sighted individuals who could not
 see then what was obvious to men
 of clearer vision. We wonder now if
 Churchill will be crucified for
 again trying to warn Britain before
 it is too late.

With another hurricane moving
 up from the South and Lake Mon-
 roe already overflowing its banks,
 we are moved to wonder what would
 happen in this fair city of ours if
 a hurricane ever moved in on us
 from the west while the lake was
 at its present depth. A hurricane
 coming from the west would pro-
 duce winds from the south, which
 would blow all the water in the
 lake over to the Enterprise side.
 After the lull at the center of the
 hurricane, the wind would then
 shift and come from the north
 blowing all the water back to the
 Sanford side. We wonder if our
 overhead would stand up under
 such a pounding and how far up
 Park Avenue the water would
 travel.

Believing that most Sanford
 people are more interested in the
 World Series than they are in any
 other news that we can give them,
 the Herald plans to keep its wire
 news until after the ball games this
 week and publish complete play-
 by-play reports. Inasmuch as these
 games will not be over until about
 10 o'clock, and as someone
 in Cleveland or Boston will have to
 tell the story of the game, some-
 one else will transmit it by telegraph.
 Somebody here has to tell the
 somebody else to get it into
 a typewriter machine, then
 somebody has to read proof on it,
 somebody has to set type, somebody
 has to make up the paper, and
 somebody has to deliver it to the
 carrier.

The Right To Express Opinions

All well-conducted newspapers—and this is one, its motto is hope—try to give both sides of public questions. Although the newspaper may adopt an editorial policy opposed by a good many of its readers, its columns are always open to these readers, so that they may express their own views.

Letters are received in every newspaper office which end with a sentence like this: "I dare you to print this letter," or "I know you won't print this letter, because it disagrees with what you have been saying."

Editors may groan aloud when such communications come to hand, but try to make allowances for limitations of human nature and the fallibility of the human mind. People who make garbled reports of something they hear in a radio broadcast must be the same kind of persons who have all sorts of peculiar ideas about the way newspapers are edited—that is, honest newspapers that try to meet their responsibilities to the public.

A newspaper is not worth its salt, if it is not an honest newspaper, if it closes its columns to any and all expressions of opinion that do not coincide with its own beliefs and policies. Newspapers ought to be the first to recognize—as most of them do—that it is just as important to protect the right of Joe Doakes to say what he thinks within reason and subject to libel laws, as it is to insist upon freedom of the press.

The first amendment to the Constitution of the United States applies alike to newspapers and to the people who read newspapers.—Beaumont (Texas) Enterprise

Humphrey Versus Ball

If the Democrats of the South could vote in Minnesota, they would rightfully vote for the Republican candidate, Senator Ball, against the Democratic nominee, Mayor Humphrey, of Minneapolis—not because of any party distinction, but because it was the glib-talking, South-hating Humphrey who led the fight in the Philadelphia convention to humiliate and insult the South.

Humphrey was mainly responsible for the convention's adoption of the Truman civil rights program and the rejection of a states rights plank in the party platform. In this leadership, he made a bitter speech to the convention in which he vehemently denounced the Democrats of the South and virtually told them to get out of the convention—that the party didn't need or want them any more. He said that Truman and the men associated with him would enforce a "new emancipation proclamation" in the South, giving the Negroes the ascendancy in this section.

That line of talk naturally incensed all true Southern Democrats and many Southerners who are not Democrats. That's why throughout the South the hope is felt and expressed that the voters of Minnesota will beat the nominal Democrat, Humphrey and elect the Republican, Ball. Because his inherent Southern instincts have been stifled by the gift of the vice-presidential nomination, Senator Barkley made a speech in Minnesota urging support for that arch-enemy of the South, the venomous Humphrey.—Tampa Tribune.

Attractions Of Latin

Latin in its day was a live language, and the ancient Romans who spoke it were real people. Few high school students of Latin appreciate this; and who is to blame? Julius Caesar, Miss Lenore Geweke of the University of Chicago is voicing this idea, which a good many friends of Latin have had for years but have not done anything about.

How is Latin taught in school? First comes a long series of grammatical lessons with exercises, tedious occupation if ever there was any. Then students learn to read Caesar's account of his campaigns in Gaul. These are dry, unadorned reports with hardly any personal touches and nothing enlivening. A few weeks spent on them may be useful, especially if they are treated as history and not merely as grammar. But it is almost impossible to keep up interest in them for a year, most of which might far better be spent on Ovid and other Latin writers.

Then there is Virgil, one of the world's great poets, whose story of the flight of Aeneas from burning Troy, his romance with Dido, the Carthagian queen, and his battles in Italy to win a kingdom and a bride, make up some of the best reading in the world. Why not read Virgil, and encourage Latin students to continue the language? Miss Geweke thinks so, and is trying to round up other teachers to support her.

For that matter some Latin text-books recognize the human side of the ancient Romans, and put in for reading matter ghost stories, notices of athletic events and other light reading, all of which can be found in ancient writers. People who know the educational value of Latin will applaud these text-book writers, and Miss Geweke with them.

About A Man—Our Neighbor
 Leeburg Commercial

Most of us are not as conscious today as we will be within a few weeks that November is election month. In another month, the campaigns of candidates for office will reach torrid fever pitch. Here and there, what has started out as a mere or less decent effort to influence voters will descend to a "free for all." Democrats, Republicans, States' Rights, Social Progressives and Independents alike Tom Watson will be pitted against one another and against the field.

When that time comes The Leeburg Commercial may be strangely mute on things political. Not that we could not honestly present the views of the majority of those within our sphere of activity and to do just that and nothing more should be the job of a newspaper politically—but because we recognize the futility of argument or logic upon those whose emotions have been aroused. It is as useless to hope, by reasoning, to convert a stirred-up propagandist of one political party to the tenets of another party as it is to hope to argue the members of one religious denomination into joining another.

Even now, our political philosophy can be summed up briefly: America is always and will always be secure—if, as and when every voter casts his ballot for the man or woman whom their consciences may well best represent—the true American—the best of the American citizenry.

So, before we get all heated up about necessary laws, we want to give you a cross section of the opinion of the majority of our citizens of a "normal" type. It is a normal citizen's view of the political situation.

So, before we get all heated up about necessary laws, we want to give you a cross section of the opinion of the majority of our citizens of a "normal" type. It is a normal citizen's view of the political situation.

THE WORLD TODAY
 By DeWitt MacKENNEN
 AP Foreign Affairs Analyst

The long-suffering United Nations Security Council heard an argument in Paris to end all arguments when Soviet Deputy Foreign Minister Vishinsky took the floor and, with a perfectly straight face, declared that there is no Soviet blockade of Berlin.

A few members of the council smiled wryly at the audacity of this claim. Mr. Vishinsky has a very agile mind, as befits the recognized fact by both sides for months until the other day when Marshal Sokolovsky, Russian commander in Germany, made the same crack about there being no blockade.

Vishinsky was, of course, fighting to keep the Security Council from consideration of the charges by the Western Powers that the blockade is a menace to world peace.

The deputy foreign minister argued that the issue would be sent to the Big Four Council of Foreign Ministers. This in its turn was another astonishing proposal, in view of the fact that the Council of Foreign Ministers has long been rendered impotent by Soviet obstruction. Obviously, the Russians are stalling for time.

Well, it's easy to understand the anxiety of the Bolsheviks to keep the U.N. from passing judgment on the charge of aggression. They have no intention of abandoning their cold war, but they can have no desire to be branded as aggressors by a majority of the world's nations. Russia was booted out of the League of Nations in 1939 for aggression against little Finland, and it didn't boost Muscovite stock any.

So Vishinsky fought to escape the ignominy of this brand, and the United States battled with equal vigor to get a council hearing of the charges. Philip C. Jessup, speaking for America, charged Russia with systematically violating international agreements by "continuous use of force or threat of force against the United States, the United Kingdom and France."

"If the Soviet Union wants peace," he declared, "let it resort to the United Nations."

But Russia is not the possibility that Russia and her satellites would walk out of the United Nations if the Soviet Union were branded as an aggressor, though the Reds would be loath to abandon an organization which is so useful to them. Anyway, the democracies seem determined to risk a split in the peace organization in order to get a showdown.

As a matter of fact, there are many observers who feel that such a division might be a good thing. The democracies would at least get a chance to state their constructive work, whereas thus far the Bolsheviks have hamstrung the U.N., while using it as a propaganda sounding-board for themselves.

But, says someone, that means "two worlds" instead of one. The answer to this is that, irrespective of the U.N., we already have two worlds—the Communist bloc and the democratic bloc. Communism and democracy never can be welded into "one world."

They just don't mix, and the United Nations can't make them mix.

Newsboy Gains Experience
 Bethlehem (Wis.) Globe Times

It is generally agreed that any boy who carries or manages a newspaper route gains experience that is of value to him in later life. It is true, of course, that not all boys who attempt the job are successful at it, just as it is true that not all adults are successful at their chosen work.

But the number of men in the community who testify to their newsboy experience and training is something startling. Over a period of time doctors, dentists, ministers, businessmen, school teachers, lawyers and others have said it was an experience they are glad to have.

"It taught me something about people," said one physician recently. "And believe me, I met all kinds on my route. Particularly illuminating were the denials of the big city in which I had my experience. They 'stuck me for plenty.' Yet it must be said to the credit of many that they didn't understand the system under which the paper operated. When they wouldn't pay their bill, they thought they were merely 'sticking' the newspaper corporation—which somehow or other they thought was all right. Instead, they were 'sticking me.'"

And a dentist said "My brother and I carried 173 papers and split the pay evenly. It was hard on shoes, but good for us otherwise. . . . And you'd be surprised who gave the biggest tips—and the littlest—at Christmas time!"

Newspapers and newspapermen might feel a natural delicacy in discussing an issue in which there is a degree of self-interest were it not for the long and honorable record of the "paper route" as a beneficial introduction to work-a-day life. But no apology is in order. Carrying a newspaper route is not an intrinsic child labor for a boy. It is not 10 hours a day in the cotton fields, or eight hours a day picking tomatoes, or eight hours a day tending a machine in some mill.

It is, instead, anywhere from half an hour to an hour and a half—depending on the size of the route—in the afternoon sunlight.

A newspaper or destroy it so that it will not be printed.

WAT—An impression on special heavy cardboard or other material of a photo engraving or of type.

RM—The place at which copy-readers work. Also, collectively, the copy-readers who work for a particular newspaper or department.

SLOT—The place where a chief copy-reader works. Also the position of chief copy-reader. This "job is in the slot."

SLUG—Brid line placed on copy for identification.

WIRE SERVICE—An agency that supplies wire news to a number of newspapers.

20—The end of 20 signifies that a story or text has been completed. Some it is often used for editing time, death, retirement, etc.

Newsmen Have Own Special Words To Describe Their Work

AP NEWSFEATURES—Newsmen, like those in other fields, have their own words to describe their work. Since printing long has been essential to news, printers and newsmen often share use of special terms. Here are some of them.

BANNER, SCREAMER, HARBON, BULL LINE—A large headline extending across the top of a page.

BEAT OR SCOOP—An important story or picture obtained exclusively for one paper or news service. "Beat" also designates the combined permanent assignments of a reporter.

BREAK—The point at which a story is continued on another page. Also, the center fold on page one.

CAPTION—The headline over a picture. Also sometimes used to mean "outlines."

COLUMN—A recurrent feature usually written by one person, subject and often written by one person.

COPY—Stories, pictures and other material prepared for use in a newspaper.

COVER—To report an event or situation.

COPYREADER—A subordinate editor who handles the physical preparation of copy for the printers.

CUT—A photo engraving from which newsprint is printed. Also to which newsprint is printed.

CUTLINES—The printer's term used with pictures or copy for the size.

HEAD—A headline, usually set in large type over the story.

JURY—To determine a story or another page.

ROLL—To remove an item, a portion of an item or picture from circulation.

Need Of Good Roads Told By Association

TALLAHASSEE, Oct. 6 (PNS)—As one of the many reasons for supporting Good Roads Amendment No. 1 on Nov. 2, the Florida Roads Association stressed that good highways are vital to the extensive operation of school buses in all parts of the state.

Most people do not realize how important surfaced roads are to Florida school children, who need regular and safe transportation to this association says. School bus routes criss-cross each county of the state. Unfortunately, 40% of these routes are unsurfaced, which means more breakdowns and higher transportation costs. Surfacted roads, on the other hand, mean safe, economical and regular transportation for school children.

The latest figures available indicate there are 1,521 school buses in Florida. The elementary, junior high and senior high school students using these buses amount to 100,857, a large portion of the total school enrollment in the state. These buses cover 88,740 miles a day, nearly three times the distance around the earth. During the school year these buses travel 12,373,200 miles. The operating expense for 1940-47 was \$2,528,886.67.

New surfaced roads would greatly lower transportation costs as well as lessen the possibility of accidents. Within a very short time, a large number of new buses have had to be purchased throughout the state, because the buses took such a beating from the poor roads that they could not be kept in operation.

A recent survey revealed that a bus will tend to last at least 30% longer when used only on surfaced roads. Gasoline, oil, tire and other maintenance cost is correspondingly cheaper.

A cubic mile of warm or hot air may hold as much as 40,000 tons of potential rain, snow or hail.

Sheep may die from a disease skin to pneumonia if exposed to cloudy or rainy weather for several days after being shorn.

Seminole Gridders Go Through Lenthy Scrimmage Session

George Dague And Ray Dunbar Named Captains For Tilt With DeLand Friday

By ARTHUR BECKWITH, JR. Herald Sports Editor

Coach Carl Kettles sent his squad of Seminole High School Gridders through a lengthy scrimmage session yesterday afternoon to sharpen the attack for the game with DeLand Bulldogs to be played here Friday evening.

Both offensive and defensive formations were given careful consideration by the Sanford mentor. The Bulldogs work from a single wing, therefore, we will have to change our defensive play entirely from the one we used last week against the Florida Panthers, who ran mainly from the "T" formation.

Kettles announced yesterday afternoon that Ray Dunbar, blocking back, and George Dague, center, would be the captains for the East Florida Conference game Friday evening.

"Unless something happens between now and game time Friday, the squad will be at full strength to meet Coach Bruce Martin's team," Kettles said.

Following the hour long scrimmage drill, Assistant Coach Fred Ganna and Otto Mooney sent the Seminole charges to the playing field for a series of wing splits for conditioning. "The fellows seem to be in pretty fair condition," Kettles declared.

Gator Home Game Tickets Available At U. Of F. Office

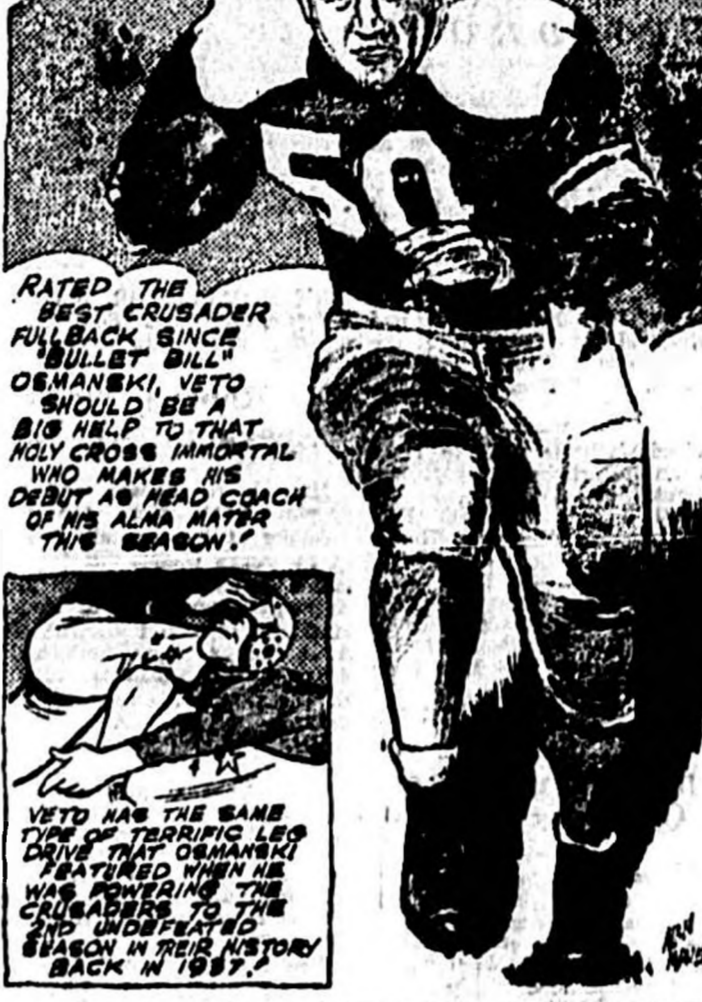

GAINESVILLE, Oct. 6.—(Special)—Here are the official facts on the tickets available for the University of Florida's remaining "home" football games with Auburn, Rollins, Georgia and Miami. The breakdown was announced today by Percy Beard, general manager of athletics.

McCarthy To Stay Skipper Of Sox, Says Joe Cronin

BOSTON, Oct. 6. (AP)—General Manager Joe Cronin today quashed rumors that Joe McCarthy is on his way out as Boston Red Sox manager.

CRUSADER CRUSHER - - - By Alan Mayer

"VIOLENT VETO KISSELL," HOLY CROSS, FULLBACK.

RATED THE BEST CRUSADER FULLBACK SINCE "BULLY BILL" O'BANNEKI, VETO SHOULD BE A BIG HELP TO THAT HOLY CROSS IMMORTAL WHO MAKES HIS DEBUT AS HEAD COACH OF HIS ALMA MATER THIS SEASON.

VETO HAS THE SAME TYPE OF TERRIFIC LEG DRIVE THAT O'BANNEKI POSSESSED. HE WAS POWERING THE CRUSADERS TO THE 1937 NATIONAL CHAMPIONSHIP BACK IN 1937.

Florida Gators Are Given Edge To Trim Auburn In Tampa Saturday

TAMPA, Oct. 6. (AP)—Football fans in these parts are just about agreed on one thing—the Auburn-Florida game here Saturday night should be a wide-open affair.

The edge, if any, in the Southeastern Conference battle appears to be in favor of Florida's Gators. A poll of loop coaches some months ago forecast Auburn as the last place finisher in the circuit with Florida only one notch higher.

The struggle to stay out of the cellar is expected to produce a serial battle between Florida's Doug Eiden and Auburn's Travis Tidwell. In addition, the Gators' running attack which showed signs of clicking against Tulsa last week is expected to gain momentum against the plainness.

Auburn's probable starting lineup: Erskine Russell, left Mass Aubrey, left; Bob Cannon, left; Earl Hedrick, right; Ralph Pyburn, right; John Williams, right; Russ Inman, right; Tommie Gray, right; Jimmy Kynes, center; Fletcher Groves, right; Cliff Sutton, right; Joe Hawkins, right; John Cow or Griffin, right; Russell Godwin, left.

About 47 per cent of U. S. families have savings deposits, a survey has found.

Some farmers cover vegetable plants with paper bags to protect them against damage from frost.

Georgia Bulldogs Tighten Belt For Kentucky Invasion

ATHENS, Ga., Oct. 6. (Special)—Battered by an overwhelmingly superior North Carolina team, the Georgia Bulldogs have tightened their belts another notch and settled down to prepare for the invasion of the Kentucky Wildcats this Saturday.

Following the hour long scrimmage drill, Assistant Coach Fred Ganna and Otto Mooney sent the Seminole charges to the playing field for a series of wing splits for conditioning. "The fellows seem to be in pretty fair condition," Kettles declared.

Gustafson Wings Hurricanes Into Four Tough Games

MIAMI, Oct. 6. (Special)—Andy Gustafson, the man who gave up the assured security of an assistantship to Earl Blaik on the Army football coaching staff to gamble on the future as head coach at the University of Miami, now wings his Hurricanes into four tough games.

Gustafson has already worked a minor miracle in changing Miami from the single wing to the T and, although the material available is not well adapted to the T and is in this in some spots, the Hurricanes have Rollins its worst beating it has suffered from a Miami team since 1936.

The big ex-Pittsburgh football player is leaning heavily upon sophomore in his lineup, already building for the coming year. Two sophomore quarterbacks, Jack Del Helle, of Philadelphia, and Dave McDonald, of Coral Gables, shown signs of the passing skill which can give Miami force a lot of trouble this fall. In addition, sophomore, Clive Shrader, Miami tugged a touchdown pass to Bob Campbell.

Campbell, a junior, is the spark plug of this team. Weighing only 160, he is a terrific competitor. In addition to a 43 yard touchdown gallop after taking a pass, Campbell galloped 18 yards from scrimmage, scoring another touchdown in the meanwhile and he intercepted one pass and picked up 48 yards on two kick returns.

Gustafson is employing offensive and defensive lines to get the most out of his material. Two centers take over on defense, one generally replacing the fullback backer up.

Georgians Stress Defense In Practice

ATHENS, Oct. 6. (AP)—Coach Wally Butts stressed line play as the University of Georgia Bulldogs got down to serious business in preparation for the tussle with Kentucky Saturday.

The Bulldogs passed up their regular Tuesday scrimmage at the line men "knocked heads" in a lengthy blocking and tackling session. Line Coach J. D. Whitworth hoped that the extra time spent on fundamentals would pay off against the Wildcats.

While the line was paired off in one end of the field, Coach Butts put his backs through a long drill on pass defense.

FSU Seminoles Hold Final Rough Drill

TALLAHASSEE, Oct. 6. (AP)—The Seminoles of Florida State University went through a final rough drill this afternoon before tapering off for their opening football game of the season here Saturday against Cumberland University.

Head Coach Don Veller sent his squad of 55 through a long pass defense drill yesterday afternoon and worked on his own offense today.

Wayne Houston, 205-pound tackle, and Joe Marcus, 83-pound center, both of whom played for Findlay College at Findlay, Ohio, last year, have been impressive in early season drills and are expected to be in the starting line-up against Cumberland.

Cowell Eyes Stetson Squad For Linemen

DELAND, Oct. 6. (Special)—More strength in the middle of the Stetson Hatter line is the task facing Head Coach Brady Cowell here at 8 p.m. Saturday.

After the Mississippi game which the Hatters dropped by a 14 point margin, Cowell agreed to return to Clemons Tom Parrin, the Miami stalwart, who this year was converted from center to quarterback. Parrin started the Mississippi game calling signals and played a creditable game in the backfield.

But the need for experience in the line was so evident, that the change back to center for Parrin was decided upon.

QUONZALES PLAYS AGAIN SAN FRANCISCO, Oct. 6. (AP)—Richard (Pancho) Gonzales, seeking a grand slam of American outdoor tennis championships, meets George Gossler, of Berkeley, Calif., in the first of today's feature matches of the national hard court tennis championships.

Law and clay court titles, yesterday defeated Norm Babulak 6-1, 6-3, and Buddy Beale, 6-2, 6-0. Both victims are from San Francisco.

Frank Lane Will Be Chicago Sox Head

CHICAGO, Oct. 6. (AP)—The Cubs' organization is expected to continue its organizational house cleaning of the last-place White Sox by appointing Frank Lane, American Association president, as general manager.

Source close to the club's front office said official announcement will be made Thursday or Friday that Lane has succeeded Leslie M. O'Connor, Charles Comiskey II, 22-year-old secretary of the White Sox and only grandson of the club's founder, "the old Roman," is ticketed for vice president under the new deal.

Ted Williams Cops American Loop Title

CHICAGO, Oct. 6. (AP)—Ted Williams, counting one hit, a single, in four trips during the Boston-Cleveland playoff, took his second straight American League batting crown with .309.

Cleveland's Lou Boudreau was second with .355 after gaining three points in the dramatic extra game with four for four. Williams lost one point.

ST. PAUL WINS TIT ST. PAUL, Oct. 6. (AP)—A superb performance by Pat McGlothin, who whipped Montreal 4-0 in the Little World Series opener, was the talk of the town today as St. Paul and the Royal prepared for their second encounter at 8:30 P.M.

McGlothin threw fivehit ball in last night's game. He was never in serious trouble, and only twice did Montreal have two men on base at the same time.

DERBY WINNER ARRIVES NEW YORK, Oct. 6. (AP)—The Aga Khan's Irish Derby winner, Natoh, is scheduled to arrive by air next Tuesday for the \$100,000 Empire City International gold cup race at Belmont Park Oct. 16.

The grey colt has been named to face America's three-year-old champion, Citation, and a field of international stars in the event.

BARONS HOLD EDGE FORT WORTH, Tex., Oct. 6. (AP)—The Birmingham Barons of the Southern Association held a two game sweep one lead over Fort Worth of the Texas League after last night's 6-4 victory in the Dixie Series.

6 U. N. Councillors Want Reds To Lift Blockade Of Berlin

Neutrals Say First Step In Easing Crisis Is For Reds To Make Decisive Move

PARIS, Oct. 7 (AP)—Six members of the United Nations Security Council not involved in the Berlin crisis were reported today solidly in favor of raising the Soviet blockade.

An authoritative source said that was the first reaction of the six countries at a caucus yesterday after the United States, Britain and France presented their charges against Russia to the full council. The western powers charged that the Berlin blockade threatens world peace.

Thus far, the source said, no resolution has been prepared, but the six "neutral" members feel the first requirement in easing the crisis is for the Russians to lift the blockade.

The neutrals on the council are China, Syria, Belgium, Colombia, Argentina and Canada. The Soviet Ukraine is siding with Russia against hearing the case in the Security Council.

As the council marked time until its next meeting, the United States, Britain and France considered drafting a formal proposal that the council call on Russia to raise the Berlin blockade. Informal sources predicted the council's next meeting would be Saturday morning.

Russia urged that the United Nations Atomic Energy Commission scrap its two and a half years of work and "let in breath of fresh air."

Soviet Delegate Jacob A. Malik told the U. N. assembly's political committee that the Atomic Commission, composed of members of the 12 Atomic Security Councils, should again "begin from the beginning."

Robeson, Negro Is Boomed As State Department Head

SAVANNAH, Ga., Oct. 7 (AP)—For the sake of world peace, says the Progressive Party candidate for secretary of Georgia, the negro singer Paul Robeson should be secretary of state.

James Barfoot, the gubernatorial candidate, last night addressed a party rally at the Negro Masonic Temple, attended by a sprinkling of white persons in the audience of about 500.

With Robeson sitting nearby, Barfoot, a former teacher at the University of Georgia, declared: "I would like to see Paul Robeson secretary of state. No two nations of the world would go to war if he were."

The rally was not interrupted by police, who Tuesday night stopped a meeting in the city auditorium, at which the noted negro singer was to appear, when sponsors declined to abide by the city's segregation law. Police officials explained that since last night's meeting was in a private building.

Navy Goes To Rescue Of Barges, Tugboat

KEY WEST, Oct. 7 (AP)—A Navy vessel today went to the aid of two barges and a tugboat found aground near Big Pine Key in the Florida Keys. The crew of the boats was not alerted, but the Coast Guard said it has probably made its way to the overseas highway before the hurricane.

The 58 Grand Haven, a 2,500-ton barge which carries automobile parts from Palm Beach to Key West, freed herself after being aground on French Reef about three miles off Tavernier during the night.

Drop In Meat Prices Gets Down To Where It Counts—At Retail Stores

CHICAGO, Oct. 7 (AP)—The drop in hog and meat prices was getting down today to where it counts for most people—at the retail butcher shop.

Many stores throughout the country slashed pork prices for the coming week-end, a direct result of the sudden outpouring of pigs from the country. The oft-mentioned but never very apparent "consumer resistance" was post-poked in some quarters as a cause of the decline.

And it was in pork, much more than in beef or lamb, that butchers were posting the lower figures. While retail outlets were cutting prices, the hog market's steady slump came to at least a 10-cent drop from 10 cents a pound in the week-end. Prices for hogs were posted at 10 cents a pound, a 10-cent drop from 11 cents a pound in the week-end.

Russians Drop Several Bombs Near Berlin

Incident May Have Been Part Of Manuevers To Be Held Over Soviet's Zone

BERLIN, Oct. 7 (AP)—Kurt Fischer, chief of the Soviet zone interior ministry, said today the Communists are building a heavily armed and specially trained police force of 100,000 men in the Russian occupation zone of Germany. The task of the huge force, Fischer wrote, will be "not only to combat criminal elements, but to protect the zone against Fascist and reactionary attacks."

By RICHARD KANISCHKE
BERLIN, Oct. 7 (AP)—British fliers engaged in the Berlin airlift said today they had seen Russian planes drop live bombs in the Soviet occupation zone about 12 miles northwest of Berlin.

There is a possibility the reported incident might have been part of large-scale Russian air war maneuvers announced for today over the Soviet zone, Berlin and Allied air corridors, including bomber flights.

U. S. representatives at the Four-Power Berlin Air Safety Center said the air activity announced by the Russians appeared to be the largest since the U. S. and Britain began using the air corridors to supply Soviet-Blockaded Berlin.

The Russians warned the Western Powers they plan extensive gunnery drills and parachute jumping, as well as flying drills in the zone.

Flood Control Is Sought For State By Rep. Smathers

WASHINGTON, Oct. 7 (AP)—The Budget Bureau was asked today by Rep. Smathers (D-Fla.) to include in its recommendations to Congress next year a \$10,000,000 allotment for flood control work in Florida.

The Bureau now is preparing the budget for the fiscal year starting next July 1. Its recommendations will be submitted to Congress in January.

"These recent events emphasize and stress the importance of immediate remedial action," Smathers wrote.

First work under the proposed program would be to protect the lower eastern coast of Florida. Smathers told a reporter, and to control the level of Lake Okechobee.

The long range program provides that Florida shall put up \$29,000,000 toward the cost.

PEPPER PREDICTION
TALLAHASSEE, Oct. 7 (AP)—Sen. Claude Pepper (D-Fla.) today forecast a Democratic victory in November, though adding "I wouldn't predict any big majority in the electoral college."

Pepper declared his Republican campaign to "slipping," and said he thinks the Democrats "still have a good chance."

Reports To Dewey

U. S. DELEGATE TO U. N. party in Paris, John Foster Dulles, foreign policy adviser to Gov. Dewey, talks with reporters after his arrival at LaGuardia Field, N. Y., from Europe.

Questioned about the Republican Presidential campaign, Dulles said the newsmen that "it couldn't look better."

He said prices went "up, up and up" although Senator Taft (R-Ohio) and "some of the economic realists" when price controls went off.

Mr. Truman said that the Democrats, if elected, "will work on that Taft-Hartley bill in your interests."

Two Are Killed In Pennsylvania Railroad Wreck

Probe Of Crash Of Buckeye Limited Continues By FBI

PITTSBURGH, Oct. 7 (AP)—One hundred workmen and four wreck trains today cleared away wreckage in suburban Bellevue where a huge rock slide yesterday caused the wreck of a fast Chicago-bound Pennsylvania Railroad train. Two crewmen were killed and 12 passengers and trainmen were injured.

The dead were J. G. Lightburn, engineer, and R. G. Romblek, a fireman, both of Crestline, O. The two were members of the crew of the second of two locomotives pulling the Fort Pitt Express west bound in Chicago.

The engineer of the first engine, E. W. Shank, 54, of Beaver, Pa., said "We had no chance to avoid crashing that rock. We had just rounded a curve and there was

PRINCE GEORGE, B. C., Oct. 7 (AP)—Louise McComas, 13, testified yesterday that Gustave Weigner subjected her to incestuous relations after her father was shot to death, but later amended the statement to say he never molested her in any way.

Dayton Salesman Goes On Trial For Canadian Slaying

PRINCE GEORGE, B. C., Oct. 7 (AP)—Louise McComas, 13, testified yesterday that Gustave Weigner subjected her to incestuous relations after her father was shot to death, but later amended the statement to say he never molested her in any way.

Weigner, 24, a Dayton, Ohio, salesman, is on trial for the murder of John McComas, 52, also of Dayton on a remote section of the Alaska highway last Aug. 6.

In a statement given police and read to the jury, Weigner said he took \$125 and a .22 caliber rifle from McComas as pay for transporting him and his daughter to Alaska, where the girl was to be sent to school. He said he shot McComas accidentally while squirrel hunting. The body was found later with an arm missing and the wolves.

Green-eyed Louise first said Weigner emerged from brushland along the highway and mistreated her.

"It was then Weigner told me I have shot your father," she testified.

Newweek Predicts GOP Win In November

NEW YORK, Oct. 7 (AP)—Newsweek Magazine says 80 of the nation's leading political writers unanimously predict victory for Republican presidential nominee Thomas E. Dewey.

The magazine reports in its current issue the following results of a poll of 80 writers: Average forecasts—Dewey, 270 electoral votes; President Truman, 115; State Rights candidate Governor J. Strom Thurmond, 90.

The Republicans will retain narrow control of the Senate and increase their majority in the House. The average of the prediction for the Senate gives the GOP 60 seats and the Democrats 40.

Average estimate on the popular vote for Progressive Party candidate Henry Wallace is 2,778,700.

Truman Flays GOP For Blow Against OPA

President Says Higher Prices Don't Hurt Republicans; McKeller Explains

ABOARD TRUMAN CAMPAIGN TRAIN, Oct. 7 (AP)—President Truman declared today that the Republican opposition is "afraid" to reply to his campaign criticism.

"They dare not answer me," he said.

Mr. Truman told a transcribed crowd at Bridgeport, Pa., that it "didn't hurt" Senator Taft (R-Ohio) and "some of the economic realists" when price controls went off.

He said prices went "up, up and up" although Senator Taft had promised they would "level off" without controls.

Mr. Truman said that the Democrats, if elected, "will work on that Taft-Hartley bill in your interests."

"If you send a Republican Congress," he added, "they will take the rest of your liberties away from you."

Without mentioning Governor Thomas E. Dewey by name, Mr. Truman said of Republican candidates: "They dare not answer me. They are afraid to get on the issues. They talk about home and mother, what a nice country it is. You can't trust 'em," he continued.

White Announces His Candidacy For City Commission

O. E. White, a salesman for the Acker Parts and Equipment Co., qualified this morning to run for the office of City Commissioner in Group No. 2 to succeed Len R. Lecher, who was announced by Gordon White, city deputy clerk.

White will be opposed in Group 2 by W. H. Stouffer. Born in Fredericksburg, New Brunswick Province in Canada, Mr. White served for three years as a lieutenant in the Motor Transport Division of the Canadian Army during World War I. He suffered a leg wound from a bomb explosion during the fighting in Belgium, and was hospitalized overseas and in Canada for 19 months.

Soon after his release from the hospital he decided to come to Florida for health reasons, and for seven years was in business in St. Dun, where the Legion Post made him an honorary member of the American Legion.

He came to Sanford 18 years ago. For eight years he operated the Kiwanis Club.

Pilot Whales Go To Florida Beach To Die

CRESCENT BEACH, Oct. 7 (AP)—Forty-four pilot whales swam out of a rough ocean and lay today in an apparent mass suicide.

Most of the mammals, which ranged in size from 7 to 14 feet, died quickly as they were rolled over the sand by the rough surf. A few remained alive and efforts were made to drag them back into the water.

Curators at nearby Marineland Oceanarium said that several times in the past, whales have beached themselves along the Florida coast in unexplained "harem" fashion.

When they were towed back into the water, they swam heading into shore again. Today's crop came aground in two schools. One group contained 23 and the other which hit shore a few hundred yards away, comprised 21.

PATRICIA PARDONED

HAVANA, Cuba, Oct. 7 (AP)—Patricia Schmitt, the American dancer who killed her married lover in Havana Harbor last year, was released from prison today. She was pardoned after serving less than 18 months of a 15-year sentence.

NO SINUSITIS

PHILADELPHIA, Oct. 7 (AP)—At least 75 per cent of all patients who appear for treatment of sinusitis do not have the ailment at all, says Dr. G. Calvin Fox, professor of laryngology at Jefferson Medical College.

World Series Evened By Cleveland's 4 To 1 Victory Over Boston

UMW Convention Votes To Honor Lewis' Birthday

Miners' Leader Also Appears Due For Big Boost In Pay

PONTIAC, Mich., Oct. 7 (AP)—Wayne county Prosecutor James N. McNally said today he would ask a warrant charging Carl Bolton, 39, and two unidentified persons with the attempt on the life of Walter P. Reuther last Apr. 20. McNally said he would request two John Doe warrants, all charging assault with intent to kill.

CINCINNATI, Oct. 7 (AP)—The United Mine Workers' convention today unanimously adopted a resolution to make John L. Lewis' birthday Feb. 12 a national holiday in the coal industry.

The resolution honored a movement started several years ago within the union to make Lewis' birthday a national holiday.

The anthracite agreement, covering about 80,000 Pennsylvania hard coal miners, already has provision for that observance.

The miners' leader also appears due to get a boost in pay. Several resolutions have been introduced to increase his salary from \$25,000 to as much as \$75,000. The resolution which seems to be favored would fix the constitutional pay of

Sanford Kiwanians To Attend District Conclave In Tampa

The Kiwanis Club of Sanford will be represented at the 1948 convention of the Florida Kiwanis District to be held Oct. 10 to 12 at Tampa. Club President Frank Lamson announced today.

Delegates from the Sanford club will include Mr. Lamson, W. A. Morrison and Martin Stimpson.

More than 45 clubs in the district which embraces a membership of 5,000 business and professional leaders, are expected to send delegates to the three-day meeting, Mr. Lamson said.

The speaking program will feature the appearance of George W. Kirk, prominent St. Petersburg, attorney, John R. Wright, Lakeland, real estate executive, both members of the board of Kiwanis International, and Roy Fullerton, Hollywood editorial writer for the Kiwanis Magazine.

G. Harold Martin, Fort Lauderdale attorney and governor of the Florida Kiwanis District, will preside at the convention, which will highlight committee conferences, a discussion of plans for the coming year, and election of officers.

Kirk, who will represent Kiwanis International at the convention, has served as probate court clerk in St. Petersburg.

VIRGINIA GETS SNOW

STAUNTON, Va., Oct. 7 (AP)—The first snow of the season in Virginia, about two inches, fell on snowy mountain in Highland County yesterday.

Kiwanis Leader

GEORGE W. KIRK

George W. Kirk will represent Kiwanis International at the Florida Kiwanis District convention to be held in Tampa Oct. 10 to 12.

Mr. Kirk is a member of the board of Kiwanis International. He is a former probate judge from St. Petersburg, Mo.

Seven Men Held For Gang Killing Of Pete Del Pozzo

NEW YORK, Oct. 7 (AP)—Seven men were held in high bail yesterday in connection with the gang slaying of Pete Del Pozzo in Brooklyn street on Tuesday.

Del Pozzo's death is blamed by police on a feud growing out of a \$400 race track bet on which they said the slain man walked.

The 32-year-old victim, known as "Baltimore Joe," died in his mother's arms after being cut down by five bullets.

Police Inspector Howard C. O'Leary announced the arrest of Frank Martella, 24, and Thomas Signorino, 27, both of Brooklyn, on charges of Del Pozzo's slaying.

Del Pozzo was described by police as a petty gambler and bookmaker, and Signorino as his bodyguard.

O'Leary said a feud between Del Pozzo and Martella developed over the \$400 track bet, and that

LAW CHALLENGED

TALLAHASSEE, Oct. 7 (AP)—The new law providing a direct way for Floridians to vote for any one of four presidential candidates was challenged in court here today.

Reuben Klein, Miami weekly newspaper publisher, asked Leon county Circuit Judge W. May Walker to restrain Secretary of State R. A. Gray from setting up in November general election machinery in accordance with the new law.

World Mission Assembly Hears Problems Facing Christianity

By JAMES E. WALTERS
COLUMBUS, O., Oct. 7 (AP)—Christianity must push forward with a positive program to meet world needs or it will be moved more and more to the sidelines, a leading missionary figure asserted today.

"Christians must either serve the needs of all God's men better than the Communists or else be prepared to yield ground to them," said Dr. Ralph E. Diefenderfer of New York.

Diefenderfer, executive secretary of the Methodist Church's foreign missions division, is the man who conceived the idea of a world mission assembly by every major protestant denomination. His speech opened second-day activities at the assembly, largest Protestant gathering in 23 years and the first joint appeal by protestant churches for support of a related missionary program.

"Either we are going to be before us today," Diefenderfer said in a prepared address, "or we are going to be moved to the sidelines since other forces and agencies are coming forward with positive programs to meet the world's needs."

"The Soviet idea," he warned, "is the one that speaks directly to the problems of Asia, speaks to the hungry and landless, the debt-ridden and the oppressed."

The Christian church, Diefenderfer continued, must "see to it that the deeper needs of men are met."

39,633 Fans Watch Lemon Best Spahn; Manager Boudreau Is Star Of Contest

BRAVES FIELD, Boston, Oct. 7 (AP)—Bob Lemon squared the World Series for Cleveland today by setting down the Boston Braves with eight hits for a 4-1 victory in the second game of the best-of-seven classic before 39,633 fans.

Manager Lou Boudreau, who went hitless in Johnny Sain's opening victory, led the Indians with a sparkling day afield and at bat. He double started a two-run Southpaw spurge in the fourth on the drive home the third run off Southpaw Warren Spahn in the fifth. He started one double play, was in the middle of another, made a fine catch of a pop fly in short center and picked a man off second.

Lemon, accomplishing what his more famous pitching mate, Bobby Feller, failed to do, came through with a series win in his first start, because the Indians were able to handle Spahn, Lemon, a 20-game winner in the regular season, struck out five men and walked three.

The converted infielder who failed the Indians twice in the final weeks of the season mistily tying the Series record for chances by a pitcher. He handled 10 chances—3 putouts and 7 assists—one last than Nick Altrock did for the Chicago White Sox back in 1906.

Cloud-flecked skies that leaked a few drops of rain in the morning greeted early arrivals at today's second World Series game with the opener still a subject for debate.

There was more heated discussion in baseball circles over the set of Associated Press pictures on yesterday's disputed pickup play on Phil Masi than there was on the Boston Braves' chances of making it two straight over the Cleveland Indians.

Masi, called afe when he slid back into second base in the eighth inning after a sharp tag from Pileter Bob Feller to Manager Lou Boudreau, with two out, later scored the single run by which the Braves won, 1-0.

Commissioner A. H. Chandler said the decision was entirely up to National League Umpire Bill Stewart, and that "He called it the way he saw it."

The commissioner said the case had not been referred to him, and earlier President Bill Veech of the Cleveland Indians declared no protest was contemplated, nor even possible under the rules.

It appeared that nothing could be done, one way or the other, about the call on Masi.

He was safe, then and he's still safe today. The run still counts and the Braves still own the ball game, on Johnny Sain's four-hit shutout.

The play on Masi, a pinch runner for Bill Salkoff, was the key to the opener when Feller lost a heart-breaking two-hitter. There were two out with him on first and second at the time. The score was 0-0.

Umpire Stewart, in perfect position to make the call according to the pictures, ruled Masi had slid safely back to second. Boudreau put up an argument.

Press box observers, however, were divided in their opinion about the play, even after they saw the photographs.

Some claimed the difficult angle made it impossible to tell whether Boudreau actually had tagged Masi before he got back. Others claimed Boudreau knocked off Masi's bat with the force of his swing and had him caught by a foot.

After the ball game, Feller said, "It looks like I caught two napping—Masi and Stewart."

National League Umpire Bill Stewart, who made the disputed second base call, said, "I was in a perfect position to call the play. It was only a decision," he declared.

"I've made millions of these call decisions," Stewart said. "Why I've made about 100 like that (holding two of his fingers two)
