## A mother's thoughts

Atomic bombs darken our skies... radioactive fallout threatens unborn generations... there is strife, unrest, even war in many parts of the world! How can we face the future with confidence when humanity stands at the very brink of destruction?  
There is only one way: to be courageous and steadfast, and trust in the wisdom and mercy of God!  
This little girl, my own daughter, does not know what troubles my heart. She is not afraid of tomorrow... not yet! Through the Church she will learn the ways of the Lord and how to live a truly Christian life. Through prayer may God help me set an example for my daughter... teaching me to put my trust, yes, my very life into His hands, no matter what the future might have in store for us!

## Billion Dollar Spending Bill Near Complete

**TALLAHASSEE (UPI)**—A House-Senate conference committee completed work today on a \$1.1 billion general appropriations bill. This is \$7 million more than even the general Senate-approved measure included and the drafters said it can easily be financed without new taxes.

**TALLAHASSEE (UPI)**—House and Senate conferees went back to work today in the marathon tug-of-war to iron out the differences in the billion-dollar general appropriations bill.

The sessions are being held behind closed and locked doors, and none of the legislators is talking except in general terms.

Two husky pages are guarding each side of the hearing room door, with the keys hanging from the keyhole and anyone who approaches is told "you can't go in" and a warning hand reaches for the key. House chairman J. J. Griffin, Jr., of Osceola, said before work resumed at 8:30 a.m. he is optimistic of finishing today.

"Things are going smoothly," he said. "This is a very cooperative group, but there are a few rough spots."

**OPTIMISTIC**  
Sen. Ed Price, Bradenton, was even more optimistic. He said there was a chance of finishing the negotiating job early today.

The group met from 10 a.m. Sunday until midnight with two hours off for meals. Sen. Wilson Carraway, Tallahassee cut short a weekend junket to Key West, flying back to attend the conference.

The bills the two houses passed independently are only a few million dollars apart in money—but the differences in what the money goes for is much greater.

Both houses must pass the identical bill for it to become law.

**FINAL BILL**  
The final bill recommended by the 10-member conference committee probably will be taken up by the full Legislature.

It always has been done this way, although it is not mandatory.

If one or both houses don't like the compromise, the committee can be ordered to go back and try again, or the presiding officers could name a new committee.

The final measure, if tradition is followed, will be in the vicinity of the Senate bill—\$1,093 billion rather than the less general House version of \$1.09 billion. It could go even higher if the conferees recommend it.

One big difference in the two bills is in school textbook funds.

The Senate put in \$12.7 million and the House only \$10 million.

## Beauty Queen Believed Dead

**OCEAN CITY, Md. (UPI)**—Nancy Caroline Tyler, the one-time beauty queen who became a key figure in the Bobby Baker case, was missing and presumed dead today in the crash of a small plane in the Atlantic about 100 yards offshore from Baker's luxury motel.

**Man Commits Suicide In Jail**  
Johnny Lee Lane, 21, of R.R. 2, Sanford, who was being held in the county jail hospital ward, committed suicide shortly before noon today. He was reported early this afternoon by Sheriff J. L. Hobbs.

Lane, facing three charges of breaking and entering and also an incompetency hearing, Hobbs said, hanged himself with a bed sheet. He was pronounced dead on arrival at Semole Memorial Hospital.

## news... BRIEFS

**Pope Receives**  
**VATICAN CITY (UPI)**—Pope Paul VI today received in private audience Rev. Theodore Foley, the American superior general of the Passionist Fathers, and members of the Orders General Curia.

**Shoreline Survey Launched**  
**WASHINGTON (UPI)**—Commerce announced a survey underwritten by the state and federal governments has been started in Lee and Collier Counties to determine more accurately the seaward boundaries of the state.

The first phase—or pilot program—is at a cost of \$188,000. The federal government is paying two-thirds and the state the rest.

The program aims to determine the ownership of coastal and offshore lands. The study is a result of a request made last year by former Gov. Farris Bryant, who was in office at the time.

Bryant made the request following a report from a committee of the Florida Internal Improvement Fund (IFF), which said it was "impossible to estimate the value of the sovereign waters lying off our shores" because of the lack of a detailed survey.

"TRAFFIC HAZARD" is the term applied to this DAR marker on the site of old Fort Mellen (sic) at Mellonville Avenue and Second Street. City Commission will be asked to decide tonight.

## DAR To Protest Marker Change

A request to remove the granite monument at the corner of Mellonville Avenue and Second Street which marks the site of old Fort Mellen (original spelling) will be considered by Sanford City Commissioners at City Hall at 8 p.m. tonight.

Dr. A. W. Epps Jr. has termed the marker a traffic hazard that obscures the line of vision and requested that it be removed. The marker was erected by the Sallie Harrison Chapter of the Daughters of the American Revolution. The inscription on the face of the monument reads:

"Site of Fort Mellen, formerly Camp Fanning, where on February 8, 1836, during one of the fiercest battles of the Seminole Wars, Captain (Charles) Mellen, commandant, was killed in an attack of 400 braves led by King Philip and Coacoochee. Erected by the Sallie Harrison Chapter, DAR."

In memory of the heroic commandant, the fort was renamed "Fort Mellen" and Sanford originally was called "Mellenville." Somewhere, through the years, the spelling was changed to "Mellonville" and the name of the city later changed and named after Gen. Henry Shelden Sanford, who was responsible primarily for settling and colonizing the area.

"We certainly will protest any such move to do away with this historic marker. We do not agree that it is a hazard," Mrs. R. E. True, president of the DAR, said today.

She said that a delegation from her organization will be present at the City Commission meeting tonight.

## Oviedoan Slain, Three Men Held

Three Titusville men have been charged in the fatal shooting Saturday of Moses Jackson, 45, and the wounding of Ander James Cashe, 49, both of Oviedo, it was learned here today.

The Brevard County trio was identified as George Reed Scobie, 28, Charles Cirack, 20, and Richard White, 21.

The trio claim they gave the ride "partly for kicks" and partly for robbery. The fatal shot was fired when Jackson resisted as a gun was pulled on him in a palmetto thicket near the old Titusville-Sanford Road, about 300 yards from the main highway.

**Shoreline Survey Launched**  
**WASHINGTON (UPI)**—Commerce announced a survey underwritten by the state and federal governments has been started in Lee and Collier Counties to determine more accurately the seaward boundaries of the state.

The first phase—or pilot program—is at a cost of \$188,000. The federal government is paying two-thirds and the state the rest.

## Allies Step Up War Against N. Viet Nam

**SAIGON (UPI)**—Waves of American and South Vietnamese fighter-bombers stepped up the air war against North Viet Nam today with a series of round-the-clock raids against transportation targets in Communist territory.

On the ground, Communist guerrillas killed one U. S. adviser and wounded two others Sunday in what was described as an "intense engagement" 25 miles northwest of Saigon.

Two other American soldiers were wounded in a nearby related action and another was slightly hurt in a separate action about 65 miles northwest of here.

A U. S. military spokesman also reported that Viet Cong troops "continued harassing activities" Sunday night in the Hai Yen region of An Xuyen Province, about 100 miles south of Saigon.

Hai Yen is the headquarters of the famed "Sea Swallows," a guerilla unit commanded by the "fighting father," Roman Catholic Rev. Nguyen Lac Hoa.

Early today, guerrillas over-ran an outpost at Ai Sonan, about 45 miles southwest of Saigon.

Thirteen government soldiers were killed, seven wounded and four were missing.

An American military spokesman said 72 South Vietnamese planes rained 50 tons of bombs on five Communist bridges, knocking out spans on four of them.

The strikes followed a night-long string of aerial assaults by 28 jets and prop-driven planes from the carriers Coral Sea and Midway.

## 21 Teenagers Learn Hard Way

**FORT LAUDERDALE (UPI)**—Twenty-one teenagers were released from jail in time for school today after they served 24 hours to learn to leave the drinking up to grownups.

The 21 spent Mother's Day in jail on order of City Judge Arnold Grevol, who told the teenagers in court Saturday they should not have been drinking in the first place, much less in public.

## Club Burglarized

## Peacekeeping Force Aim Of OAS Members

**SANTO DOMINGO, Dominican Republic (UPI)**—Rebel forces today were under an ultimatum to surrender and face no punishment or be annihilated by troops loyal to the new U. S.-supported military-civilian junta.

The five-man junta, headed by Maj. Gen. Antonio Imbert Barrera, "retired" eight top-ranking officers from the Dominican Republic's armed forces in a move to win public support of the new regime.

Imbert urged the rebels, believed led by "provisional president" Col. Francisco Caamaño Dreno, to lay down their arms peacefully. He said they would be well-treated and given safe conduct out of the country.

If they refuse, Imbert declared, his forces would launch an offensive to capture the rebel-held section of Santo Domingo.

"We are delaying all we can," he said. "We want to do the best we can without shedding more blood."

**13 YANKS DEAD**  
Thirteen Americans have been killed and 76 wounded since forces loyal to exiled President Juan Bosch began the revolt April 24.

Late Sunday, three American Navy men were released unharmed by the rebels. They had been captured Friday afternoon but were turned over to U. S. officials after negotiations with local Peace Corps director Robert Satin.

A U. S. Marine was wounded Sunday by sniper fire. He was the only American casualty during the day. Some 21,000 U. S. Marines, Army paratroopers and Navy men are on duty here.

## Peacekeepers

**WASHINGTON (UPI)**—The Organization of American States (OAS) met today to work out the details of its inter-American peacekeeping force for the revolt-torn Dominican Republic.

Thus far no Latin American nation has officially made available any troops for the hemisphere force although a few countries have promised to do so.

Diplomats expected that troops for the force might come from Brazil, Venezuela, Costa Rica, Argentina, Colombia and Paraguay.

Central American nations have been talking about the possibility of sending a joint contingent to represent all five of them.

## R. T. Thomas Seen As New Fire Chief

**By Barry Lawes**  
Asst. Fire Chief Reynolds T. Thomas, 37, very likely will be named by the City Commission tonight to succeed Fire Chief Mack Cleveland Sr., who has announced his retirement.

Thomas was expected to be named as acting chief, effective May 16, pending Cleveland's full retirement on Oct. 1.

The Florida-born Thomas moved to Sanford in 1928 and joined the Sanford Fire Department on Jan. 1, 1929, immediately after reaching the eligibility age of 21. He was named assistant chief in 1937.

"I was always interested in fire department work," Thomas explains. "I once tried to join the Jacksonville fire department, but I was too young. I just had to wait until I became 21."

The biggest piece of equipment in service for the fire department when Thomas joined in 1929 was the Brockway ladder truck now displayed in the Elks' playground downtown. The only other two fire trucks at that time, however, are still in service although they are used only in extreme emergencies.

Thomas recalls the "largest fire since I've been with the department" was in 1937 when the old Farmer's State Market burned. That was on the same site as the present market.

However, one of the most stubborn blazes the department has fought, Thomas says, was several years before when the old Wins-Lovett (now Winn-Dixie) grocery warehouse on French Avenue was engulfed in flames.

"It was fully involved when discovered," Thomas remembers, "and it was one stubborn blaze. One end of the block-long building was sold storage and insulated with several layers of cork. We'd get the flames out, only to have to come back in a few hours because it was burning again, because of that cork. It was three days before we really had that blaze out and could safely turn our backs on it."

Twelve years ago, Thomas received his most serious injury while on duty. That occurred in Oviedo, during a blaze at the Wheeler Fertilizer plant. An explosion rocked the plant, and when Thomas regained consciousness he had an injured hip and broken left foot.

"But I was back on duty within six weeks," he said. "I've worked under a mighty good man," Thomas says, in speaking of the retiring Cleveland. "I can assure the commission and the people of Sanford that I will do everything in my power to maintain the proper record of the department. I only hope we can continue the low fire losses the department has today. We have one of the lowest records in the state, you know."

Thomas and his wife, Maude, live at 203 Maple Avenue. Their son, Ray, is employed by J. C. Penney Company.

# U. S. Envoy Boycotts Red VE-Day Fete

MOSCOW (UPI)—The Soviet Union trumpeted out a giant intercontinental missile Sunday and boasted it could deliver a "fantastic" nuclear warhead to any point on earth.

The big rocket was unveiled at a Moscow military parade celebrating the 20th anniversary of VE-Day. Hours later, the Soviets announced the use of a multi-stage rocket to send a new scientific probe streaking towards the moon.

U. S. Ambassador Foy D. Kohler and most other Western diplomats boycotted the parade in Red Square.

Of the NATO envoys assigned to Paris, only the French and Turkish ambassadors turned out to hear Soviet Defense Minister Rodion

## Deltona Sales Top \$13 Million In Early 1965

NEW YORK, N.Y. — (Sp) — Real estate sales by the Deltona Corporation topped \$13 million in the first four months of 1965 compared with less than \$5 million in the same period a year ago, Frank E. Mackle Jr., president, told shareholders at the company's annual meeting.

Mackle pointed out that the record 1965 volume included the sales of homes and homesites both at Deltona, the company's 15,000-acre planned community across Lake Monroe from Sanford, Fla., and at Marco Island, the 10,824-acre "resort and leisure living community on Florida's Gulf Coast, which the Deltona Corporation is developing for its 50 per cent-owned affiliate, Marco Island Development Corporation.

Shareholders re-elected the entire board of directors: Nell E. Bahr, vice president; Lewis B. Carr, Julius E. Davis, James A. Doyle, Harold M. Lane Sr., Elliott J. Mackle, executive vice president; Frank E. Mackle Jr., president; Robert F. Mackle, secretary-secretary, and Norman K. Winston, chairman.

Malinovsky lash the United States for "hideous crimes" in Viet Nam.

The burly defense chief also accused the United States of concluding a "shameful deal" with West Germany aimed at Bonn's nuclear armament. He warned that the Soviet Union would "rebuff" any aggressor and restated Kremlin determination to give "necessary aid" to North Viet Nam.

The May 9 victory commemoration began when three smart - stepping veterans marched across Moscow's historic hub carrying the flaming banner they planted on the Reichstag 20 years ago.

Malinovsky recalled that just a month after that symbolic act of victory, scores of Nazi banners were thrown in anger at the foot of the Lenin mausoleum.

But on this May 9 the accent was not on spiteful vindication so much as strength — sleek, mighty, scientific strength contained in the startling display of rocketry.

Uncovered for the world to note and remember: —The 120-foot, pale green, "Breshnev Blockbuster" — roughly like American's Titan-88. Commentators said it was similar to the 1.6 million

pound thrust rockets which orbited Vostok and Voskhod—spacehips with a payload of up to six tons. Experts speculated such a rocket might carry a warhead of some 50 megatons or so.

—The three-stage "Little Sister"—similar to America's 50-foot Minuteman. Powered by cheap and "reliable" solid fuel, and launchable from underground silos, according to official reports.

—The "Iron Maiden" middle range rocket cloaked in a sheath, mounted atop a dark, tracked vehicle.

—A new anti-tank weapon, capable of firing six missiles, guided by radio signals.

—A medium low-silhouette tank. Identified as the T-62.

LUNA FIVE MOSCOW (UPI) — Luna Five, the Soviet Union's new-

est moon probe, streaked through space today on an unspecified mission.

Experts said the rocket could involve either close-up picture taking or an attempted soft landing.

The official Tass news agency announced the launching of the moon shot Sunday but gave few details. The rocket is expected to reach the vicinity of the moon on Wednesday.

If Luna Five does achieve a soft landing, it would steal yet another march from the United States in the race to land a man on the moon.

American space scientists are planning an automated lunar exploration with the Surveyor Project before attempting any manned landings.

Tass said only that Luna Five was equipped with vari-

ous types of scientific equipment which was "functioning normally."

But according to usual Soviet practice, the Kremlin withheld specifics apparently until scientists were sure the mission was a success.

The Tass announcement did not say whether Luna Five carried camera equipment for close up photographs. The vehicle weighs 3,427.2 pounds, Tass said.

### Herlong Thanks Classes For Poll Results

By Jane Caselberry  
The Civic classes at South Seminole Junior High School have received a letter from Congressman A. S. Herlong thanking them for conducting a poll on pending legislation before Congress and informing him of the results.

The students recently discussed the questions included in the questionnaire which Rep. Herlong mailed to his constituents concerning matters to come up during this session.

Three items which received their overwhelming approval were tax deductions for college tuition; an amendment to allow voluntary Bible reading and prayer in public schools, and foreign aid only to non-Communist nations.

Benjamin Franklin was the 15th child in a family of 17.

## All In Same Boat

Now that it's over, the last thing most people want to think about is the income tax. Not for another year, at least, unless we are among those who must make payment on an estimated return.

But the pain of it all is quickly forgotten. After a while, we may even be able to congratulate ourselves on practicing one of the highest virtues of, and indispensable necessities for, a self-governing society—voluntary taxation for the general good.

We may miss the money and may disagree with a lot of the things they do with it in Washington, but at least we know that everyone in the country is in the same boat and pulling his fair load—and more.

Why, think of the poor millionaire, who must part with something like 90 per cent of his income.

Or must he? The startling fact is that some fortunate people with incomes in the hundreds of thousands or millions pay a smaller percentage in taxes than do factory workers or school teachers. In one year, there were 17 millionaires who paid not one cent in income tax.

Reciting these disturbing inequities in a recent article in the New York Times Magazine, Democratic Sen. Albert Gore of Tennessee explains that there is nothing illegal about it; it is the way the tax laws are written.

Those as has keeps—in a variety of ways: because of a maze of technicalities, through exemptions and

accounting procedures, by investing in stock options and tax-free municipal bonds, residing abroad, setting up phony foundations, to name a few.

"Tax loopholes," says Gore, "are often made quite innocently, but once the rich and powerful seize upon a loosely drawn section of the law, it becomes most difficult to change it."

According to Gore, the oil and gas lobby, zealously guarding the depletion allowance that lets it write off 27½ per cent of its income even before it earns it, is the biggest obstacle to tax reform—"the most diabolical influence at work in the nation's capital."

No worth-while tax reform is possible, he maintains, until the power of this lobby is broken. Fairness in the law will not be possible until Congress and the Treasury and the President are courageous and determined enough to battle for it.

And that will not come about, he says, until an informed and indignant public of big-paying little taxpayers demands it.

### Thought For Today

Besides that, they learn to be idlers, gadding about from house to house, and not only idlers but gossips and busybodies, saying what they should not. — Timothy 5:13.

When men speak ill of thee, so live that nobody will believe them. — Plato, philosopher of ancient Greece.

## Political Notebook

WASHINGTON (NEA) — Military air research seems to be pointing the way to commercial freight planes so cheap to operate they'd give ships, railroads and trucks a fat run for a goodly chunk of longhaul shipping.

An engine now being developed promises to save 40 per cent in fuel costs on subsonic flights. Laminar flow control (in which the air moves through slots in the wings in a way that helps buoy the airplane aloft with less fuel consumption) promises to yield substantial increases in range.

New materials make possible reduced structural weight.

Combining these new concepts, military researchers

foresee aircraft with 6,000 to 8,000-mile range and 100,000-pound payloads.

These subsonic transports could offer 600-mile-an-hour passenger service at one-third to one-half today's prices and freight haulage at comparable savings. Travelers in a hurry would use supersonic planes at premium fares.

Such economical-to-operate subsonic planes could revolutionize the distribution of goods in the United States, in international commerce and in much of the industrial world.

Efficiency would be increased with automated navigation, enabling "blind landings" in all weather conditions. Built-in ramps on the

planes would permit trucks to provide roll-on, roll-off loading. Standard truck, train and ship containers would fit in their "holds."

Flights would be controlled by computers tied in with satellite navigation, traffic control and weather-forecasting systems.

These air freighter systems could move commercial goods directly from manufacturing centers to retail distribution networks, eliminating shipping to and re-shipping from a myriad of national and worldwide regional warehouses.

A good share of today's costly, time-consuming handling and re-handling would be unnecessary.

By maintaining central stocks of goods quickly accessible to air terminals, industry could reduce sharply the amount of goods (inventory) it now keeps scattered throughout the country and the world in these regional warehouses and distribution pipelines.

The Air Force, using aircraft for high-value logistic and maintenance items such as aircraft engine spares, has cut the cost of spare parts stockpile in half, saving around \$800 million. Air Force men say this has been done with today's planes and that they've barely scratched the surface in savings.

These developments would, by reducing inventories, partially eliminate one important factor in the overexpansion, recession cycles that have plagued industry in the past.

The centralization of industrial management would be accentuated.

Industry would more and more tend to cluster around those cities which built consistent, efficient air terminals.

Technical men see the beginnings of these revolutionary air freight systems within 10 or so years.

Dr. Crane's

## Worry Clinic

Polly in shedding tears of chagrin and remorse because she listened to the pressure glib salesmanship of a selfish teenager. He didn't love her, though he protested he did. That is typical male sales talk to anesthetize a girl's conscience.

CASE V-485: Polly G., aged 17, is in trouble. "Dr. Crane," she spoke tearfully, "I was dating a boy in our high school.

"We had gone steady ever since we were sophomores. "And I loved him for he was a handsome athlete and president of our senior class.

"But a few weeks ago he began to make demands on me for premarital liberties. "I refused, saying such things were wrong before a couple were married.

"But he told me I was just old-fashioned and my parents were out-of-date. "Besides, he said since we were going steady, we were just the same as married, so why not go the limit.

"Well, Dr. Crane, he finally got his way. But now I am pregnant and haven't told my mother as yet. I can probably

finish high school and get my diploma.

"But he doesn't say anything about our getting married. In fact, he tells me we are too young for marriage, since he must go on to college.

"So what am I to do? I am an unhappy I wish I could die!"

Polly's case is duplicated literally thousands of times every year among our American high school students!

It shows one of the many dangers of "going steady," so beware!

When teenagers are in high school you should play the field.

Date several members of the opposite sex. For that gives you a wider range of experience concerning human nature.

"But, Dr. Crane," some girls protest, "then I might not have a date for the Prom or other class events. "If I go steady, however, I can always be sure of an escort."

"Well, that is the "Easu" philosophy where you sell out your future for an immediate reward (meat of pottage).

Marriage is supposed to be a 50-year adventure that is full of fun and happiness, mixed with occasional quarrels and discord, for no good marriage is always placid and untroubled.

But in a good marriage, your basic love for each other and respect will cause you to listen to the other person's arguments.

Remember, a 50-year contract like marriage is not a trivial matter, so be sure you select wisely.

The first cause of divorce is improper selection! Be sure you obtain A-1, first class matrimonial merchandise, for you will pay full price.

Women are usually noted for being good bargain hunters as regards department store merchandise, so use equal shrewdness before marriage.

That means, don't accept shoddy, secondhand or "used" matrimonial merchandise when you can obtain quality stuff!

It takes courage to play the field, for that policy may often leave a girl without a date for an occasional school dance or party.

But no dance or party is important enough to jeopardize a 50-year happy marriage! And it is actually old-fashioned to submit to premarital sexual affairs, for that was the rule in olden days. See tomorrow's followup!

Lyle C. Wilson Says:

## Bad Money vs Good

Sir Thomas Gresham was an English financier who gave his name to Gresham's law of economics. Most briefly, this law may be stated that:

Bad money drives good money out of circulation.

More formally, Gresham's law is that when good and bad money are simultaneously in circulation, the bad money will continue in circulation whereas the good money will be hoarded or melted down for bullion.

The Negro emergence as a powerful force at the polls invites consideration whether Gresham's law of economics might also be applicable to politics. For example:

Would a massive infusion of Negro voters into theretofore white southern primaries cause white electors to cut their party moorings and go elsewhere? This question does not imply that Negro votes or Negro electors are bad. But the question does recognize the likelihood that a massive intrusion of Negro bloc voters into a Mississippi or Alabama primary, for example, could encounter considerable resentment. Resistance would be unlawful.

For frustrated southerners one alternative would be to accept newly enfranchised Negroes as a balance of power authority in the Democratic party. The other alternative must be for white electors to take their political business elsewhere. As for the balance of power potential of the southern Negro, the population figures are conclusive.

In the 11 southern states the number of whites of voting age is approximately 20 million and Negroes of voting age about 5 million. The average percentage and participation in elections unquestionably will increase through enforcement of the pending voting rights bill. The elements of a Negro balance of power position are amply evident in the South.

As of now on the basis of re-

cent presidential elections, the American Negro is a political Democrat. Masses of white southern voters already have deserted the Democratic party in presidential politics. This is a trend likely to extend to local politics. President Johnson lost Alabama, Georgia, Louisiana, Mississippi and South Carolina in 1964. Bloc Negro voting enabled LBJ to win Florida and Virginia which had not gone Democratic since 1948.

The gravel will foul the political gear box when the infusion of Negro votes massively affects Democratic primaries to nominate local and congressional candidates. It is not unreasonable to believe that southern whites will seek means to nominate for local office free of massive Negro influence. They cannot exclude Negroes from primary polling.

There could be a mass flight of southern whites to the Republican party. The whites could assume that the Negroes would not follow them or, in any event, would not follow immediately. There could be super-organization a mong white politicians to limit the number of primary contestants so that there would be no op-

portunity for Negroes to exercise a balance of power authority in the polling. It is obvious that the minority of Negro electors could not prevail in a primary over the majority of white electors if the whites had agreed on a single entry or, even, on a primary contest between two or three acceptable candidates. Such organization is hard to come by. It never can long continue. On the other hand, the Republican party always will be available to welcome white refugees from Negro penetration of local Democratic politics.

Out of all of this could come in the South a respectable two-party system. That would be a great boon to the republic.

# \$200,000 Apartment Building Planned

By Donna Estes  
Request of Mrs. A. L. Bridges, of Altamonte Springs, to rezone the back part of her property on Altamonte Avenue, facing Lake Adelaide, from R1AA to R3 to permit construction of a garden type apartment building was approved by a vote of 3-1 following public hearing of the Town Council.

The "no" vote was registered by Councilman Keith Nixon, who explained that he would like plans in more detail before going on record in favor of the proposed construction.

Mrs. Bridges stated that she plans to construct a two-story building and that a loan for \$200,000 already has been approved contingent on the rezoning.

The board voted to instruct the town attorney to amend the zoning ordinance and to correct the zoning map to reflect the change.

Also at public hearing, request of Ross L. Williams was approved to permit construction of a porch at his home on Forrest Avenue which, although conforming with property set back restrictions, does not allow the established frontage lines of adjoining buildings.

Resolution was adopted finalizing the vacating of right of way on Florida Boulevard running southeast from Lake Street.

The board voted the purchase of new equipment for the fire department in the amount of \$1,180.00 at the recommendation of Councilman and Fire Marshal Bob Sewell. Purchases will include six pairs of boots, six fire coats, two double female adapters, one male adapter, a three-beam light with battery, a 3,000 watt generator with lights and cord, and three additional fire extinguishers.

Harold Radcliffe, city engineer, was authorized to write a letter to Dr. James Hickman outlining the exact costs of paving and draining Second Street which he previously has requested. Mayor Lawrence Swafford again stated the town policy that necessary funds amounting to two-thirds of the project costs must be paid by property owners with the remaining one-third coming from town funds.

It was decided to deny request of William Flenois to approve plat of Spring Lake Manor until drainage problems can be worked out and the written request to erect a neon sign on the town right of way advertising Sanford-Orlando Kennel Club also was denied.

# Cincinnati 'Pinches' Bucs For 5-3 Bruising

OVIEDO HURLER JIM COURIER beats out throw to first in third inning of regional playoff with Zephyrhills Friday at John Courier field in Oviedo. Zephyrhills proved too much for Oviedo, copping a 4-2 decision and securing berth in state tournament to be held this week.

By George C. Langford  
UPI Sports Writer

Dick Sisler has developed a serious penchant for pinching—and it hurts.

Just ask the Pittsburgh Pirates, who are black and blue after Sisler's Cincinnati Reds literally pinched a 5-3 victory from them Sunday.

The Cincinnati manager successfully employed five pinch-runners in the ninth inning against the Pirates as the Reds rallied for three runs to move into second place, two games behind Los Angeles.

And why shouldn't Sisler summon his bench in an emergency? Cincinnati pinch-hitters are batting .545 this month with six hits in 11 appearances.

Deron Johnson began the ninth with a single. Chico Ruiz, the first of a long line of Reds pinchers, ran for Johnson, advanced to second when Pirate hurler Al McBean hit pinch-hitter Gordy Coleman with a pitch and scored on pinch-hitter Johnny Edward's single.

After Leo Cardenas walked, Bob Veste relieved McBean and pinch swinger Frank Robinson promptly delivered a two-run single to score the decisive runs.

San Francisco ended Los Angeles' five-game victory streak by whipping the Dodgers and Sandy Koufax, 6-3, Philadelphia defeated St. Louis 4-2, Houston beat Chicago 11-5 then lost the second game 7-1, and Milwaukee split with New York, winning 8-2 before dropping a 5-4 decision.

Minnesota stopped Chicago 6-1, Washington shocked New York 5-4, Baltimore swept two from Detroit 7-1 and 5-4 in 12 innings, Cleveland took a pair from Boston 9-4 and 10-7 and Los Angeles topped Kansas City 5-3 in American League action.

## Elks Shut Out CPO Nine, 10-0

Elks moved up to third place in the Junior League Friday by winning their second straight shutout, this time 10-0 over CPO behind the four-hit pitching of Cecil Simpson.

Simpson struck out six and did not allow a walk in recording his second victory of the season.

Eddie Hitchcock, David Soper and Billy Miller took hitting honors for Elks. Hitchcock was cited for an outstanding play at shortstop, making a driving catch to rob Mike Stubbins of a base hit.

First place Rotary remained on the inside track to the first half pennant in the Junior League by downing Kiwanis, 6-1, scoring all six runs in the fifth inning. The winners managed but two hits, a third inning single by Billy Higginbotham and a fifth inning single by Rick Galloway but made good use of four errors by Kiwanis in the big fifth

inning to take the win. Matt Morgan accounted for the only Kiwanis run by homering in the first inning. Larry Rowland and Edgar Jobs also had base hits for the losers.

The winning pitcher was Bobby Powell. He struck out nine and walked two. The win left Rotary with a 14 game lead, with only two weeks left in the first half.

In the Little Leagues, Navy came from behind to whip

Sanford Atlantic, 10-8. Louis Doudy was the winning hurler. Lance Felegir with a home run, Scott Harris with three-for-three and Andy Nichols with a sixth inning triple, were top hitters for Navy.

Navy trailed by one run going into the last inning but came through with three clutch runs to pick up the win.

Hunt Lincoln-Mercury evened out their season record at four and four by edging Quality Mobile Homes, 6-4.

## Oviedo Loses Regional Playoff

By Marshall Lago  
Herald Sports Writer

The Oviedo Lions fell to defeat Friday when Zephyrhills took a 4-2 decision in 10 innings at John Courier Field in Oviedo. The victory gave Zephyrhills the regional championship and a berth in the state tournament which gets underway next week.

Zephyrhills scored two runs in the first and Oviedo one in the first and third and the ballgame was scoreless from then till the top of the tenth. Brent Blessing grounded to third with two men on. A passed ball, on Oviedo's part, allowed the two runs to come in and give the visitors the margin they needed to win. Jimmy Courier was the loser, allowing Zephyrhills five hits. He walked one and fanned 16 for the losers. Larry Chauncey was the winner, striking out 10 and

walking three. Oviedo outbit the Bulldogs nine to five, but the Lions left 10 men stranded which proved fatal in the finish.

Thus Oviedo ends the 1965 baseball season with a total of 10 wins and four losses.

## Hargis Hurls Altamonte Senators To 6-3 Win Over Sunland Yankees

By Jim Bacchus  
Herald Sports Writer

Mike Hargis hurled the Altamonte Senators to a 6-3 victory over the Sunland Yankees in Senior League Play at Casselberry on Saturday, despite a long homerun by Sunland catcher Tom Bryan. In other Senior League games on Saturday, Reese Griffin fired a two-hitter for the Altamonte Twins to defeat the Bear Lake Pirates, 4-2, and the Longwood Braves downed Lake Mary 6-1, behind the superb pitching of Tom Austin.

On Friday night, Casselberry whipped North Orlando, 13-5, with Brent Helms getting the mound decision. Bear Lake won their first game of the season on Thursday, beating Longwood, 10-4 behind some timely hitting and the fine pitching of Bruce Gruesbeck.

In Little League play, Clint Gorree hurled Bear Lake to a 9-5 victory over the Altamonte Twins on Saturday. In other Saturday games, Longwood's Ronnie O'Neal downed Lake Mary, 5-1, and David Rice pitched Sunland to a 9-2 victory over the Altamonte Senators.

Harry Cote hurled Casselberry to a 9-2 victory over North Orlando on Friday evening, and Longwood won, 7-2, over Bear Lake. Ricky Smith was winning pitcher in the contest.

## Kathy Whitworth Cops Ladies PGA

SHREVEPORT, La. (UPI) — Kathy Whitworth said she "played real well the whole week" shooting three 70's to collect top money Sunday in the Kiwanis Club \$8,500 Ladies PGA golf tournament.

Miss Whitworth, of San Antonio, Tex., finished the 54 holes with a 210, five strokes ahead of her nearest competitor. Current leading money winner on the ladies' tour, she added \$1,275 to her winnings.

Patty Berg of Minneapolis, Minn., totaled 215 with rounds of 71-71-73. Miss Berg, who drew much of the gallery support as their "favorite" following a golfing clinic she participated in at the start of the journey received \$1,035.

Back another stroke was Ruth Jessen of Bonhill, Calif., who shot 71-73-72—216 to collect \$650 in prize money.

## New Shot Put World Mark Set

COLLEGE STATION, Tex. (UPI) — Randy Matson, who "didn't expect to throw too well" had his niche in history today among the men who cracked the 17-foot pole vault.

The Texas A&M sophomore, who is 20 and still growing at 6-foot-0 and 260 pounds, pushed the world record in the shot put to 70 feet, seven inches last Saturday in the Southeastern Conference track and field meet.

# Tennis Star Buchholz Denies He's 'Has-Been' At Age Of 24

NEW YORK (NEA)—Earl Buchholz came out of St. Louis a few years ago labeled the best American tennis player since Jack Kramer. So everywhere he traveled, the treatment was the same—best restaurants, plush hotels, dates with deeply tanned Newport debutantes and advice from the fatherly amateur officials.

Then, at age 20, Earl Buchholz pulled a shocker. He turned pro. In the closed world of amateur tennis this was like Benedict Arnold paying a return visit to West Point. "I was just being honest with myself," Buchholz said. "I wanted to be the best tennis player in the world, and I wanted to find out if I had

the talent. If I found I didn't, I would have quit. The only place to accomplish this was among the professionals. "Besides, amateur tennis spoils you. I didn't want that. They give you everything when you're an amateur. I had seen too many amateurs who couldn't adjust themselves to everyday life when their careers had ended be-

cause they were too used to having everything done for them. "The pros aren't like that. Here you're playing for your living against guys you travel with and live with every day. But they won't tell you what you're doing wrong or help you correct a mistake. People don't realize how competitive

this game is. Why I remember losing two points in 1963 that cost me \$7,000. "Naturally, it was discouraging at the beginning. It seemed as though I was getting beat every night. I was very nervous. I didn't know what to call guys like Pancho Gonzales and Pancho Segura. I wanted to call them 'sir.' Just a few years before I had been a ball boy for them. "It's like everything else, though, it just takes time to adapt. The pro game is a lot faster than the amateurs, and the players hit much harder.

They move a lot better, too. "But I'm doing all right now. I made about \$25,000 last year out of the tour and my game is getting stronger. I still have No. 1 as my goal. "About the only discouraging thing now is the way the pros are treated. I think there is a place in tennis for us. "But there is too much bickering. The administrators always are quick to point out they are volunteers doing it for the love of the game. Well, if they love the game why can't Pancho Gonzales,

Lew Hoad, Ken Rosewall and Rod Laver play at Wimbledon and Forest Hills? "Having the pros has to help the game, not hurt it. "I've never missed the publicity I might have gotten as an amateur, but I do mind being thought of as a 24-year-old 'has-been' simply because pro tennis doesn't get the exposure the amateurs do. "The fact that I turned professional so early has made me a much better player than

I would have been as an amateur." To classify Earl Buchholz footer is just an honest young man as one of those angry young men.

## Knudson Holds Colonial Lead

FORT WORTH, Tex. (UPI)—Near-sighted George Knudson nursed a one-stroke lead in today's rain-delayed final round of the \$100,000 Colonial National Invitation golf tournament, hoping for a wire-to-wire victory worth 15 notches on the pro fiscal list. For the 27-year-old Canadian who wears glasses because he couldn't see "two feet beyond the tip of my nose, if I didn't," could pick up \$20,000 with first place

and would soar from 18th to third in the season's earnings. Knudson had started out in fine fashion Sunday to protect his slender lead over challengers Bruce Crampton and Tony Lema when lightning and torrents of rain forcing postponement of the final round until today. He had parred the first two holes, which was as far as he got before the siren's wail called the players off the course, in much the same

steadily stroking that had marked his 68-71-70—209 thus far. So did Australia's Crampton, who packed a 71-68-71—210 into the final round. But Lema had started out par-bogey and fallen off the pace from his 71-69-70—210 for 54 holes. Juan Rodriguez and Doug Sanders, who finished the three-quarters pole three strokes back at 212 with Al Gelberger, Don January, Gardner Dickinson and Julius Boros had picked up first hole birdies and had caught Lema in third place.

## Liston To Train For Title Bout In Presence Of Trial Judges

POLAND SPRING, Maine (UPI)—Former heavyweight boxing champion Sonny Liston may break out in a rash when he discovers he will train for his coming title fight with Cassius Clay in the presence of 220 trial judges.

Liston, who is no stranger to a courtroom, is scheduled to fight Cassius Clay for the heavyweight crown on May 25 in Lewiston, 10 miles away. Saul Feldman, owner of the Poland Spring Hotels, said Sunday that Liston will move his training camp to the Poland Spring resort Tuesday afternoon.

## Qualifications For Indy 500 Start Saturday

INDIANAPOLIS, Ind. (UPI)—With only five days of practice remaining before the start of qualifications for the annual Memorial Day 500-mile auto race it appears as if Scotland's Jimmy Clark is aiming at the pole position for the second straight race. Clark continued to lead all drivers at the speedway here Sunday with a 158.8 miles per hour unofficial speed over the 2 1/2-mile oval. It was the fastest day of the year thus far, with four drivers topping the 150 mark and 19 in all getting onto the track.

# Woman's Club Presents Film To School System

The General Business, Civic and Fine Arts Departments of the Sanford Woman's Club recently combined for a luncheon meeting.

Magnolia and greenery adorned the mantle with a large basket on the stage arranged with magnolias. The dining tables, arranged in a V-shape, were centered with gardenias and fern with a magnificent arrangement of roses in a footed container centering the speaker's table. All of the lovely flowers were from the garden of Mrs. Ira Southward.

The hostesses were Mrs. H. Wade Rucker, chairman, and Mrs. Al Hunt, Mrs. Ira Southward, Mrs. H. K. Horton and Mrs. John F. Wilson.

Greeting the guests at the door were Mrs. Fred Harris Sr., Mrs. H. H. Fortner, Mrs. William Reynolds, Mrs. W. L. Merritt and Mrs. H. W. Rucker.

Mrs. Ben Wade introduced Mrs. Gerald Covington, who

played a Tri-ette on the piano, which the Fine Arts Department arranged.

Mrs. Charles Swinney introduced Herold Heckenbach, principal of Pinecrest School, whom the members thanked for setting up a schedule in reviewing the film, "Riddle of a Friendly Stranger."

Mrs. Swinney then introduced R. T. Milwee, Superintendent of Public Instruction, who

spoke on educational activities in the county, presenting statistics on school drop-outs and illiteracy. He thanked the Woman's Club for the film, "Riddle of a Friendly Stranger," and pointed out benefits from the film.

Mrs. W. L. Merritt, president, presided over the business session, with various reports given.

Guests at the luncheon were Mrs. J. R. Minchew, mother of Mrs. M. E. Smith, Mrs. Floyd E. Hunt, Mrs. James H. Wade and Mrs. Albert Rolf, Mrs. M. E. Smith, second vice president, reported two new members, Mrs. Ruth Gallagher and Mrs. Lee Wheeler Jr.

The annual May Breakfast will be held Wednesday, May 12, at 9 a.m. For reservations phone Mrs. Roy Tillis or Mrs. C. M. Flowers. Bridge and canasta will follow the breakfast with all club women and guests invited to attend.

At the meeting the Fine Arts Department elected Mrs. Donald Flamm, vice chairman and Mrs. Charles Thomas, secretary.

On arrival the group was served ice cream and cake. The president, Mrs. C. M. Flowers, presided with Mrs. Marguerite Paul giving the devotion.

Routine reports were given and Mrs. Flowers and Mrs. I. J. Boyette contributed to the birthday bank.

Mrs. Estridge reported on the success of the recent class project with proceeds benefiting the Church Building Fund.

Miss Aline Chapman read resolutions in memory of the late Mrs. Thomas Sullivan, which were composed by Miss Chapman, Mrs. Virginia Anderson and Mrs. Lucy Courler.

The class missionary, Mrs. Hans Aurbakken, was sent a lovely birthday gift May 14 with a card signed by the group.

## Luncheon Fetes Miss Susan Perkins

Mrs. Donald Jones of Sanford and Mrs. Lester Guthrie of Pompano Beach were co-hostesses recently to a graduation luncheon and swimming party honoring Miss Susan Perkins, who will graduate in June from Seminole High School.

The luncheon was served on the patio surrounding the pool and later the guests enjoyed swimming and sun bathing.

The hostesses presented Susan with a white carnation corsage and a hair dryer for use when she attends Florida State University this fall.

Miss Linda Perkins, the honoree's sister, and Judy Wilson assisted the hostesses in serving.

Attending the delightful luncheon were Mrs. Brack Perkins, mother of the honoree.

guest, and Janie White, Susan Echols, Angela Hurt, Pat Piercy, Carol Torres, Elaine MacGuire, Linda Spencer, Linda Robson, Donna Collins and Melanie Williams.

MRS. DONALD JONES AND MRS. LESTER GUTHRIE were recent co-hostesses to a luncheon and swimming party honoring Susan Perkins, a member of the 1965 graduation class of Seminole High School. Among the guests were from the left, Elaine Echols, Susan Piercy, Carol Torres, Donna Collins, Susan Perkins, honor guest, Pat McGuire, Linda Robson and Angela Hurt.

## Fashionettes

With vacations just around the corner, use Napoleon's campaign rule of living off the National Council of Men's Fashions. Take along basic clothes, but fill in with colorful local accessories such as native shirts and slacks, strawhats, casual footwear and rain or sun repellent items.

Those zippers once meant for heavy duty now form decorative closings for all sorts of summer sportswear. These industrial zippers, with bold brass pulls, long have been used for luggage, tents and such. Now they close pockets, jackets, pants and skirt plaques. Sometimes it seems there is more zipper than garment.

## Miss Treva Arnette Feted At Lovely Bridal Shower

Miss Treva Elizabeth Arnette, bride-elect of Chester Guy Matthews, was guest of honor at a lovely miscellaneous shower given by Mrs. L. A. Gaskins of 208 Woodmere Boulevard.

Honored for the shower were Mrs. L. A. Gaskins and co-hostess was Mrs. Nell Alcott. Mrs. Alcott was in charge of the games enjoyed by the honoree and guest.

The table was covered with a beautiful lace tablecloth, decorated with blue hearts centered with silver wedding bells. A bouquet of white mums was the centerpiece. Mrs. Gaskins served cake, frosted white, decorated with pink hearts and a bride doll, with an inscription of "Best Wishes" made with silver balls and fruit punch, coffee, mixed nuts and after-dinner mints to the honoree and guests.

## DAV Auxiliary Elects Officers Tomorrow Night

The Disabled American Veterans Auxiliary, Unit No. 30, will meet Tuesday, May 11, at 7:30 p.m. at the Chapter Home on Highway 17-82.

Election of officers will be held and all members are urged to attend and lend their support.

Other than the hostess and co-hostess, the guests were Mrs. John H. Arnette Jr., mother of the bride-elect, Mrs. Ben P. Burke, Mrs. Gail Smith, Mrs. Raymond Bennett, Mrs. Leonard Keitt, Mrs. Mary Dycher, Mrs. John Gail Smith, Mrs. Jack Benton, Mrs. T. A. Rivers, Mrs. Paulette White, Mrs. Harriet Mison, Mrs. Wilma Oglesby, Mrs. Harold Walker, Mrs. James H. Hamey, Miss JoEllen Walker and Miss Joanne Arnette.

## Miss Linda Truluck Engaged

Sgt. Maj. and Mrs. James Truluck of Sanford, announce the engagement and ap-

proaching marriage of their daughter, Miss Linda Sue Truluck, to Michael Ferri Lo-

Piano, son of Mrs. Pauline LoPiano and the late Michael J. LoPiano, of Miami.

MISS LINDA SUE TRULUCK

The lovely bride-elect was born in Parris Island, S. C., and attended Winter Haven High School. She is a graduate of the University of South Florida with a major in English Literature.

Her fiancé was graduated from North Miami High School and the University of South Florida, majoring in Sociology.

The wedding will be solemnized at Holy Cross Episcopal Church, Saturday, June 26, at 2:30 p.m.

## Wayne Poucher Will Address Oviedo Club

Members of the Oviedo Woman's Club will be privileged to hear Wayne Poucher speak at the luncheon meeting Friday, May 14.

Poucher is the originator and daily commentator of "Life Line."

This is the final meeting of the year and all members are urged to come and bring a covered dish for the luncheon.

Members are also reminded that dues must be paid in May for the coming year.

## Marchetta Dorminey Named 'Girl Of Year' By Zeta Xi

Zeta Xi Chapter of Beta Sigma Phi met recently at the home of Mrs. Pat Beers.

The Social Committee reported an excellent observance of Founders Day on May 1 at the Orchid House in DeLand. At the luncheon Marchetta Dorminey was presented with a trophy as "The Girl of the Year."

She was chosen by her sorority sisters for outstanding services performed during the year.

As the sorority is drawing to a close, the members are planning a final party at the home of Betty Hurlburt. This will be a covered dish supper with the members and their husbands portraying beatniks and dancing will follow.

Jan Cara presented a program on "The Arts," reviewing some of the aspects of drama, art, music and the crafts. The members displayed their talents in the various fields of arts, crafts and hobbies.

The Pledge Ritual was held and Betty Hurlburt and Rena Foster are now pledges of the Chapter.

Officers installed, who will preside at the next meeting were president, Eleanor Butler; vice president, Dora Lee Russell; recording secretary,

Flo Winsa; corresponding secretary, Jan Cara; treasurer, Grace Marie Stinecipher, and director, Mrs. Melba Bach.

Members attending were Marchetta Dorminey, Dora Lee Russell, Pat Beers, Flo Winsa, Jan Cara, Eleanor Butler, Kilty Corley, Rena Foster, Betty Hurlburt, Kathy Downer, Flora Msa Wells, Grace Marie Stinecipher and Mrs. Melba Bach.

**TUESDAY, MAY 11, 1965**  
**GENERAL TENDENCIES:**

Most everyone is in a mood to try to be more co-operative with all with whom they come in contact. Get in the stream of this benign influence and let others see that you are willing to co-ordinate your efforts with theirs toward having a far more successful termination to your joint undertakings. Seek culture.

**ARIES** (Mar. 21 to Apr. 19) Now you comprehend the viewpoints and suggestions of partners and can reach a whole new accord. After working things out properly, celebrate together tonight. Be generous.

**TAURUS** (Apr. 20 to May 20) Quickly get into all those duties before you and finish them efficiently and you will not be bothered with them any more. Give them that artistic touch. Show you are a fine artisan at your trade.

**GEMINI** (May 21 to June 21) Getting into amusements that truly please good friends can also be very profitable. Be devoted with mate and see the fine response you get. Make plans for the future that are delightful.

**MOON CHILDREN** (June 22 to July 21) Being affectionate with family is only right and you certainly can make home conditions far more harmonious. Think along line of long-term success. Begin adding to your assets, reduce liabilities.

**LEO** (July 22 to Aug. 21) Concentrate upon what you can do to increase happiness between yourself and associates. They cooperate quickly. A particular favor to a higher up will bring the right result.

**VIRGO** (Aug. 22 to Sept. 22) Co-ordinating your efforts in matters of finance with partners can surely bring far better income now. See that your surroundings are immaculate. This also adds to their value.

**LIBRA** (Sept. 23 to Oct. 22) Since you are feeling in top-notch condition, this is the day to spread cheer around you. Attain business aims. Then off tonight to get what you desire in a social way.

**SCORPIO** (Oct. 23 to Nov. 21) Be certain to use your strong mind for garnering the information you should have from others. Get financial support you need. Then assist those in dire trouble.

**MAGITTARIUS** (Nov. 22 to Dec. 21) The best way to get ahead is to join efforts with right persons instead of trying to go it alone. Society requires this today. Find the right new partners.

# LBJ Urges \$1.75 Billion Tax Cut

**AROUND THE CLOCK**

Cdr. Wallace L. Russell, RVAH-5 commanding officer, says his men got most their news of the Viet Nam war from the Stars & Stripes. RVAH-5 has just returned from "the front." (R. E. Porter spent three years with the Army newspaper, Stars & Stripes, during WW II and reports it was not uncommon for combat GIs to tell they learned where they were (at the front) by reading it in the military paper.)

You can take a driver's test on television. But don't count on the Florida Highway Patrol to accept the results.

The National Drivers' Test will be telecast live by CBS May 24. Even if it doesn't count it will give you a chance to develop new and sharpen old driving skills. An estimated 30 million Americans will participate in the test, according to the National Safety Council.

Sanford civilians are being urged to attend a reunion of Reconnaissance Heavy Attack Wing personnel in Norfolk June 12.

Capt. G. S. Blake is urging all Wing officers, past and present and civilians to be on hand for the occasion at Virginia Beach.

"If I could be notified of the civilians in sufficient advance it would be possible to house them and assure their expenses will be held to a minimum while here," Captain Blake writes.

**HOW'S - THAT - AGAIN DEBIT:** "We bet you've never seen a clock like this one. This isn't strange... nobody else has either." That's the lead paragraph of an article about a new space clock in the Sunday supplement of our sister newspaper at Orlando. It infers the clock doesn't exist. But dig this last sentence of the article: The clock is for sale at Rutland's in Orlando.

You could tell it was Mother's Day Sunday. Just about every woman we saw from the youngest to the eldest was wearing a corsage. In addition we saw many baskets of flowers and potted plants in autos passing by. It was a flowery day.

Although everyone agrees that the Fort Mellen monument at the corner of Second Street and Mellonville Avenue has been there a long time, Clock Winders were unable to find anyone who could say when it was erected. Even a search of the library records failed to reveal the date. Best guess was some time in the 1920s. Anyone know the answer?

A representative of the Social Security Administration will be at the City Commission Room in Sanford Wednesday from 9:30 a.m. to 12:30 p.m.

## \$1.1 Billion Budget OK'd

### Gov. Burns' Road Scheme Passes Test

TALLAHASSEE (UPI) — A record-shattering \$1,100,493,367 general appropriations bill "compromise" rolled out of a House-Senate conference committee today with unanimous approval.

The so-called compromise, as predicted, includes just about everything that both houses had put into their separate versions.

The Senate, which had voted the most liberal expenditures, won most of the points—because of an unexpected new estimate that the state would have \$13 million more than anticipated from present tax sources in the next biennium.

The conference bill, which is to be acted on by the full House on Wednesday and the Senate Thursday, contains the generous eight per cent across the board pay raises for state employees, and increases even above this amount for the Governor, Cabinet, the judiciary and other top state officials.

It includes a salary raise for the Governor to \$27,500 and puts the Cabinet and Supreme Court justices at \$24,000.

The Senate also won the day in leaving in the bill waterway development funds of up to \$2.7 million that could be used to buy right-of-way for the cross-state barge canal.

The house had written in a provision that none of the funds could be used for the canal.

The Governor's \$300 million road bond program without its first test in the Legislature today with flying colors.

The bill sailed out of the Senate constitutional amendments committee with unanimous approval, 11-0, including two Senators who earlier had declined to put their names on the measure as co-sponsors.

The bill received the support of Sen. John Mathews Jr., of Jacksonville, and B. C. Pearce, of East Palatka, after a number of amendments, agreed to previously by Gov. Haydon Burns as additional safeguards, were approved in a committee substitute.

The unanimous approval followed a 90-minute public hearing at which only one opponent showed up.

The House roads committee held a similar hearing, but delayed a final vote until Thursday.

The Senate is expected to take the measure up for floor action later this week.

### Ox Fibre Firm Merger Unveiled

Ox Fibre Brush Company, with a plant located at Benson Junction just across Lake Monroe in Volusia County, has merged with Prophylactic Brush Company in a multi-million-dollar transaction.

The joint announcement was made by F. W. Weitzel, Frederick, Md., president of Ox Fibre, and Philip Singleton, Florence, Mass., president of Prophylactic.

The Ox Fibre plant at Benson Junction employs 75, and has an economic impact on the area totaling one-quarter million dollars annually.

Ox Fibre originally located its plant in Sanford 80 years ago on the site now occupied by the American Legion. It moved briefly to Jacksonville, but soon relocated in Benson Junction in 1926.

Under terms of the merger, Ox Fibre will retain its name. James A. Wright, of Sanford, general manager of the Florida plant, said today the plant will continue under its present operation. "We are pleased with the transaction," he said, "and we feel it will materially enhance our competitive position."

### Vote Machine Purchase Eyed By Seminole

Seminole County is expected to purchase 20 additional voting machines by July 1 to meet demands of the growing population.

John Womack, of the Shoup Voting Machine Company, appeared before the County Commission this morning to outline possible purchase of the new machines.

Womack urged the board to buy the machines before July 1 as the price of the voting devices will be increased \$75 each at that time.

Womack said the machines can be delivered by September if ordered by July 1.

Chairman John H. Alexander, of the board of commissioners, said purchase of the new machines would be made necessary by the expected increase in precincts from 23 to 33, based on new population figures.

"This will give us 350 voters per machine while the law permits up to 600," Alexander said. "This puts us in a good position on voting machines."

Mrs. Camilla Bruce, supervisor of registration, said the lease - purchase agreement with Shoup calls for \$1,823 expenditure per machine.

### 11 Local Bills Introduced By Rep. Joe Davis

TALLAHASSEE (Special)—Eleven local bills affecting Seminole County have been introduced in the Florida Legislature, Rep. S. Joseph Davis Jr. said today.

Included in the package is a bill that would increase the compensation of the Seminole County School Board members from \$900 to \$1,500 a year.

Davis said that the bill was designed to bring Seminole County up to a state level.

"Our board members are the lowest paid in the whole state," Davis declared.

Also included in the list of legislation is the so-called "Motorboat Control Law." It would provide that boats be equipped with mufflers, underwater exhausts or other devices to deaden sound. It also would prohibit the operation of any craft on lakes and rivers in a reckless manner or while under the influence of alcoholic beverages.

Along the same line, a bill has been introduced in the House to authorize the county to acquire land and to construct public ramps, landing areas and facilities.

Another bill would give the County Commission authority to establish county administrative facilities elsewhere besides the courthouse. These would be, in effect, court-house annexes.

The County Commission also would be authorized to appropriate \$50,000 for the support of community projects, such as the chamber of commerce. This represents an increase of \$25,000 over the figure now allowed.

Other measures introduced: 1. A bill creating a charter for the Town of Casselberry. A referendum would be required.

2. A bill authorizing the county to give, lease or sell equipment to volunteer fire fighting units.

3. A bill authorizing the county to purchase foodstuffs from the State Department of Corrections.

4. A bill (amendment) relating to water and sewage requirements of developers. Developers would be required to put up cash or a bond to insure water and sewage facilities.

5. Allow county officers to receive per diem allowances prescribed by general law.

6. A law standardizing fees and compensation for justices of the peace. A flat fee of \$7 would be set for each criminal action instituted in a JP court.

### Apopka Driver Hurt In Crash

Mrs. Jessie Anderson Boudreaux, 1209 Alton Drive, Apopka, was seriously injured this morning when her late model car was demolished by a huge truck at the intersection of First Street and French Avenue.

Mrs. Boudreaux was admitted to Seminole Memorial Hospital with fractured ribs, internal injuries and multiple cuts and bruises.

## Occupational Tax Pondered

By Paul Hrookahira

An occupational license ordinance under which business and professional people would have to pay from \$1 to \$500 yearly, was given a first reading by the Casselberry Board of Aldermen Monday night.

However, action on the ordinance was postponed for 30 days to give citizens an opportunity to voice objections.

The proposed ordinance sets penalties for those who fail to obtain licenses and provides for a license inspector to enforce it.

License fees would range from \$1 for a toothbrush to \$500 for fortune tellers, palmists and "divine healers." Virtually every business and occupation is covered.

An application for a package beer permit for a bait and tackle shop on U. S. 17-92 was rejected by a 3-1 vote.

Gilbert H. Goodpaster was the applicant.

A recommendation that a section along the west side of U.S. 17-92 across from Seminole Plaza be annexed was tabled pending the submission of a plat or drawing of the area.

Action on accepting plats for the second and fourth additions to Lake Kathryn subdivision ran into a snag when councilmen and Hibbard Casselberry, the developer, got into a hassle over street paving and lighting other parts of the subdivision.

Chairman Arthur Logo told Casselberry that if he would apply by the city Ordinance 63 "we can work closer together."

Attorney Kenneth McIntosh said to his knowledge no sur-

ety bond, required under Ordinance 63, had ever been posted by Casselberry.

The ordinance spells out regulations by which developers must provide streets, sidewalks, lights, drainage, etc.

### LBJ To Discuss World Situation

WASHINGTON (UPI) — The White House said today President Johnson will make a speech on the international situation at 11 a. m. EDT Thursday. His remarks will be available for live television - radio coverage.

The Chief Executive made a similar appraisal of the international situation nine days ago, when he placed much of the blame for fighting in the Dominican Republic on Cuban-trained Communists.

## 'Strong Man' Reneges

SANTO DOMINGO (UPI) — Brig. Gen. Elias Wesslin Y. Wesslin, the government "strong man," complicated the already-confused Dominican situation early today by refusing to resign.

A U. S. Embassy spokesman said Wesslin is "reconsidering" the resignation which the embassy had reported earlier.

Col. Francisco Casmano De no, the rebel leader who is angling for recognition as "constitutional president," had cited Wesslin's resignation as one of a number of conditions for possible negotiations with Maj. Gen. Antonio Imbert Barrera's military-civilian junta.

"We did understand from an official source that he (Wesslin) was going to resign at approximately 4 p. m. Monday," the embassy spokesman said early today. "We now understand he is reconsidering his decision. The question of his resignation is a matter between General Imbert and General Wesslin."

Meanwhile, rebel attacks on U. S. positions continued despite their repeated agreements to cease fire.

A U. S. military spokesman said heavy rebel fire killed at least one U. S. paratrooper and wounded six late Monday, increasing total American casualties to 15 combat dead and 85 wounded in a week of sporadic fighting.

Casmano estimated Monday that U. S. Marines and paratroopers have killed 40 to 50 rebels and wounded 80 to 100.

Reliable military sources said 116 Vietnamese soldiers were killed or missing in the Hau Nghia slaughter and another 78 were wounded. Most of the missing were believed to have been killed.

gun battle in a U. S. Army mess hall.

Airborne reinforcements and American planes repulsed the guerrillas in a massive counter-attack.

Incomplete casualty reports said 15 Vietnamese soldiers were killed and 37 wounded when a large Viet Cong force stormed through Song Be, the capital of mountainous Phouc Long Province 75 miles north-east of Saigon.

The battle came on the heels of a massacre of Vietnamese troops by guerrillas in Hau Nghia Province just outside of Saigon Monday.

## Consumers To Benefit

WASHINGTON (UPI) — The Johnson administration is putting the finishing touches on a \$1.75 billion list of excise taxes it will ask Congress to cut, effective July 1. The measure could go to the legislators as early as next week.

Chances are excellent that Congress also will be asked to schedule additional excise reductions totaling as much as \$800 million for next January, to offset bigger Social Security taxes.

This second round will apply primarily to automobiles and telephone calls, which are not to be included in the administration's recommendation for July, officials said.

And Congress probably will be asked to phase out the auto and phone taxes completely over the next five years. This would whittle excises by an additional \$2.5 billion and bring the entire series of cuts to about \$5 billion.

INFORMS NEWSMEN Treasury Secretary Henry H. Fowler told newsmen at a meeting with President Johnson.

White House and Treasury officials still are arguing about details of the tax message. But they indicated Johnson will ask Congress to repeal excises on the following items this July:

Jewelry, furs, cosmetics, luggage, handbags, wallets, admissions, club dues and initiation fees, safe deposit boxes, juke boxes, bowling alleys, billiard and pool tables, and playing cards. These taxes bear directly on consumers.

In addition, Johnson is expected to ask for repeal of a number of "manufacturers' excises, which are charged to business and industry but passed along to consumers. These are:

LIST OF EXCISES Industrial gasoline and lubricating oils, household appliances, light bulbs, radio and television sets, phonographs and records, musical instruments, refrigerators, quick-freeze units, air-conditioners, business and store machines, cameras and other photographic equipment, matches, sporting goods (except fishing rods, reels, etc.), pistols and revolvers, fountain and ballpoint pens and mechanical pencils.

The excise levies on new passenger cars, \$1.8 billion, and on phone calls, \$1.1 billion, are too big to be fitted into the \$1.75 billion package.

But some reduction probably will be included for certain auto parts and for telegrams sources said.

No cuts will be recommended for alcohol or tobacco, which some people think should be taxed in order to discourage their use.

Nor will the administration place the excises on gasoline, tires and other highway-user items on the congressional chopping block, since these revenues are earmarked for road construction.
