Other big winners circle with 101 firsts. It is in the place position that Agustin has caught: Agustin has place finishers.

The last game of the season will be played February 19 in Longwood when the Trips seeks at the last time that occurred.

The last game of the season will be played Febru

from the bank and landed a nine pound bass on a live shiner a few days ago. The next day she repeated with one a little bit larger. Darlene and husband Tom, report that both bass and bream have been biting extremely well, with the bass mostly on live bait and the bream on worms and doughballs. A few shad have been hitting in this area but specks haven't started yet. Bobby Halls landed a string of six bass from 414 to 714 pounds in the lake this week and one of the motel visitors caught an eight pound catfish from the shore on Sunday morning. In addition to boats, bait and beverages, this camp offers trailer hookups and campsites for tents and other types of camping. For

non-campers, a motel is also on the premises. Bill Vincent, Herald photographer, fished the limestore quarries in the vicinity of Lady Lake, Florida a few days past, landing 75 specks and some rainbow bream. Bill said that this is a species of bream which has been introduced into this country from South America and is doing well here. Sounds interg and we will get some more information on this,

On the East Coast, Wayne Brady of the Fishin' Hole Tackie Shop in Daytone, had word of snook hitting in the Tomoka Basin, which is right at the Tomoka State Park, Some fine fishing is available in this part of the coastal area, long with excellent camping facilities, Snook, channel bass, and the usual assortment of pan fish can be taken here as well as trout.

River and drum and whiting are doing well on the ocean piers. Cyril Butner, local postman, fished the surf about one mile

north of the old Coast Guard station last Tuesday and really hit the jackpot. A 32 pound channel bass took up about 25 minutes of his time, but Cyril still had a few minutes in which he beached nine nice bluefish. He was fishing a low tide and found a good slough within easy easting distance from the shore, Dr. Charles Hardwicke tried the West Coast around Crystal River last week. Rock bass made up the lergest part of his

catch with a few trout taken also.

On the Central Piorida coast, kinglish are striking near Pt.. Pierce, but seas have been too rough for salifishing for several days. The kings have been hitting close in—three to six miles offshore. Reports on the salifish indicated that some cool breezes from the Northwest were needed to stimulate fishing. After this weekend, they should be jumping in the boat, Around Pt. Pierce, which is noted for its winter time sailfish angling, an unusual thing occurs. Schools of small silver minnows appear and the salls circle them, feeding on the edges of the schools of ing the balt," and when it happens, the sails go on a feeding spree, fishermen head for the blue water of the Atlantic and salifish fever runs high-LET'S GO FISHING!

a easily met.

LONGWOOD-Further consideration of the controversial C. A. Hobbs development of 833 rental apartments and 266 patio homes on 85 acres surrounding Fairy Lake will be halted at next week's meeting of the City Council. Dick Crenshaw, newly elected member of the Council, told The Herald Tuesday night, following a work session

of the Council, that he will make a motion at next Thursday night's meeting to return plans for the development to the builder. Crenshaw said basis for returning the plans are that the builder has filed no official request with the

city for either annexation or a change in zoning. In addition, Crenshaw said the developer's verbal request for multiple family zoning does not meet with his approval and the city currently has no planned unit development zoning designation. The new councilman added that a significant number of the residents of the city have announced to him

opposition of the plan. Crenshaw said, in his view as well, the ratio of rental apartments to homes is out of "thumbs down" on the Hobbs development. Councilman E. E. Williamson stated his opposition the first time the matter was brought before Council, New councilman William Klosky in last week's meeting said he would

this adds up to the majority of Council. Citizen opposition was based on the possible pollution to the lake because of the large development, increased traffic and costs of providing city services to
