Missile Base Will Be Built In Wvoming

WASHINGTON (UP)-Atlas Intercontinental ballistic missiles apparently will be pointed squarely at Russia from a huge new missile base to be built in Wyoming. The Defense Department announced late Thursday the 65 million dollar base will be built at Francis E. Warren Air Force Base

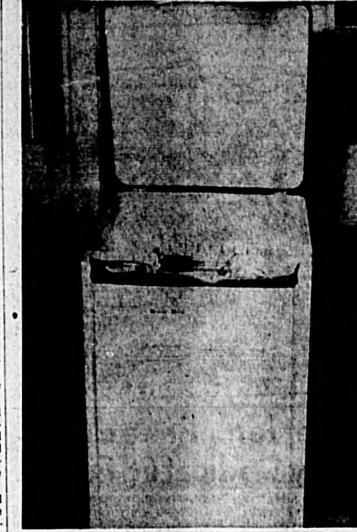

near Cheyenne. The Pentagon said construction would begin "during the middle part" of next year. The base presumably would be ready about the time the United States has the Atlas fully perfected and rolling off

The missile is undergoing tests at the Cana maveral, Fla., testing center now.

The Pentagon did not announce the exact purpose of the new 'missile site." But observers gathered from the wording of the announcement it was intended as a base for the 5,500-mile range Atlas.

The Warren site apparently will be fully equipped for the launching of the big missiles which could streak across the top of the world to land a nuclear payload on Russian targets in 30 minutes in case

The Defense Department said that 4,000 to 5,000 men would be nedd "to oprate the missile facility." It added that Air training Put bread dough inside a large Command schools now located at plastic bag to rise. There has never been a scientific achievement, not even the proposed scheduled trip to the moon, that can match the dreams, the wishes, and the actual accomplishments of "Old St. Nick."

Studies and research will, no doubt, be continued—and possibly some tests wil take place—even during the Thanksgiving season and then into the real Christmas season that will follow for about four weeks. But most of them, perhaps, will more or less be conducted behind closed doors, so to speak, until the marvelous revelations of Santa are taken care of.

There are men who have studied and fought Communism for two or three decades, yet do not know everything about Communism. But sometimes people with fixed minds who may never have read a basic book on the subject will shout and drown out a reflect-

Is Russia changing? Unquestionably, yes. But how? Change does not mean liberalization. Wish-fulfillment thinking on Communism is just as dangerous as rigid thinking la sterile. The next time you complain about the high price of hamburg and black-eyed peas, be thankful you don't "eat like a horse." Seminole Squa d Meets Rival Bulldogs To morrow Night.

The victorious Sanford Seminoles travel to DeLand tomorrow night in an effort to defeat their arch rivals—the Buildogs. The Seminoles, sporting a 6-1-1 record, and one of the best defenses in the line we have two fine effective ends in Gerald Jones state, gives them a very good op-portunity to add another number to the six. THE CARD OF THANKS

Very often a Card of Thanks in The Sanford Herald meets a need which is difficult to fill in any other way. Not only is it a gracious expression of gratitude to those who have sent floral tributes but also courteously acknowledges the services and kindnesses of the many to whom a personal note of thanks cannot well be mailed.

Newspaper Cards of Thanks are accepted as socially currect. Emily Post, the noted authority on etiquetie, feels they serve many

There is no prescribed form for a Card of Thanks. It can be as brief or as detailed as you desire. When the occasion comes you will find a sympathetically understanding member of our staff to

THE "IN MEMORIUM" NOTICE It is the custom of many families in this country to commemorate a bereavement by an "in Memorium" notice in newspaper classified columns. They find a real solace therein. Preparation of selection of a suitable verse brings back to them tender, pleasant recollections. As Eliza Cook, the English poet has so beautifully

on the heart." Most frequently an in Memorium is inserted on the anniver-sary of death. However, other dates, which it is felt are appro-priate or meaningful are also selected. The birthday of the de-parted, the wedding anniversary, Memorial Day, even Christmas are among other significant occasions chosen.

if you are healtant to express your tender thoughts in poetic form, you may avail yourself of the Herald's collection of original verses. These express in poetic beauty the emotions of the heart-strings. Among them are verses appropriate to any circumstance.

Cards of Thanks and in Memorium notices, due to the fact they may run to considerable length, are billed at \$1.00 per column inch.

It is said that the feast of Bapism, or the day of the Saviour's birth observed on Jan. 6th, was used to separate the natural birth day from the thought that in His baptism, the Saviour was reborn through the Holy Spirit.

Hosiery Important Fashion Accessory

Nylon hoslery, now in an array of exciting shades, is receiving attention as an important fashion accessory. Stockings color-keyed to the costume have become as es-sential as the right shade of shoes or gloves.

New hosiery tones have just a hit of color. Misty blues, for ex-ample, blend perfectly with the palette of bright to dark blues in new-season ensembles.

For the brilliant jewel tones in evening fashions-ruby red, emerald green, sapphire, topaz, and gold-stockings that faintly echo these colors look exactly right, especially when worn with shoes dyed to match the gown.
