

## CIO Official Says Labor Leaders Are Much Too Powerful

WASHINGTON, Feb. 19 (AP)—A CIO official said "there is considerable truth" in the statement that "labor leaders are too powerful and rank and file workers too subservient."

"There is similar truth in the assertion that political bosses, likewise, often have too much power," Kermit Eby, the CIO's research and education director, told a Senate Labor Subcommittee. He added:

"The remedy, furthermore, in both cases is the same—an educated membership or electorate stimulated to take their rightful part in the organizations of which they are members."

Eby and CIO President Philip Murray both urged passage of a bill to set up a government education program for workers.

Murray, in a statement read to the subcommittee, said labor needs education to keep up with management in collective bargaining.

"Management has more and more turned to our universities and colleges to employ trained industrial relations specialists as its representatives," he said.

"Across the bargaining table however they meet with men and women who often have gained knowledge and leadership only through the school of experience."

### Dimitrov Testifies

(Continued from page 7) gan criticizing the United States and Britain, Russia's wartime allies.

He said a Russian representative in Bulgaria told him: "The end of the conflict with Germany means the beginning of another with the western plutocrats. No victory will have been won by us until the heads of the British and American imperialism have been smashed."

Therefore, Dimitrov said, this country is the top target for the Reds.

Dimitrov is a 49-year-old doctor who headed the anti-Communist Bulgarian Agrarian Party before he had to flee his country. He left because Communists had gained control in Bulgaria and he was afraid they would kill him.

Dimitrov told of being arrested in 1945, escaping from the Communists and being sheltered for three months at the home of "the courageous and valiant Mr. Maynard Barnes," then U. S. political representative in Sofia.

Finally, he said, he flew to Italy in Barnes' plane and then came to this country early in 1946.

He said the Communists intend to take over the countries of Europe and the Middle East and build them into an "iron wall" against American and Britain.

The idea, he said, is to protect Russia so that this chief base of Bolshevism can prepare for future war.

## Advice Given By Marshall On China Aid

Row Develops In Congress Over Whether To Call MacArthur Back For Testimony

WASHINGTON, Feb. 20 (AP)—The proposed China aid program has touched off a behind-the-scenes row in Congress over whether General Douglas MacArthur should be called home to give his advice about it.

It cropped out today while Secretary of State Marshall was before the House Foreign Affairs Committee discussing the \$570,000,000 aid proposal.

Chairman Eaton (R-N.J.) asked Marshall how to go about bringing MacArthur back from Tokyo. Marshall said he didn't know. He said such a request might be made to President Truman, maybe to Secretary of Army Royall.

On the side, a committee member told a reporter there is something about MacArthur's appearance. He said there is a definite split, with several Democrats strongly opposed to calling in the General, and a majority of Republicans equally as strong for hearing MacArthur. Eaton was described as doubtful of the advisability of summoning the Supreme Allied Commander in Japan.

Sen. Lawrence Smith (R-Wis.) on the other hand said he definitely is for it.

## Cabinet Abandons Communist Party In Slovak Election

PRAGUE, Feb. 20 (AP)—The Czechoslovak cabinet today abandoned its previous position and decided to support the Communist Party in the Slovak election.

The trump card was played last night by the Social Democratic Party whose balance of power support hitherto has given the Communists the margin they needed to enact steps in their long range program.

The Social Democrats drafted a declaration of independence from the Communist Party and the Slovak Democrats on broad issues where Communist domination threatened.

How soon retaliation would come and what form it would take was the big question as the cabinet met. Some predicted the Communists would back down in their move to purge the security police of non-Communist officers. The Social Democrat decision was taken after President Edouard Benes had conferred with his right wing leaders and with the Communist Premier on Communist in the anti-Communist press today.

## Georgia Congress To Boycott Demo Dinner

WASHINGTON, Feb. 20 (AP)—Georgia's congressmen will be conspicuous by their absence from the Democratic Jefferson-Jackson Day Dinner at Atlanta March 9—unless there is a changing of minds.

It is conceded within the delegation that there's about as much chance of the Stone Mountain monument walking off as there is of a single member's changing his mind.

Reason: The dinner has Democratic Party factions led by Gov. M. E. Thompson and former Gov. Herman Talmadge another chance to call each other names. They've taken full advantage of it, as usual.

Thompson's faction, currently recognized by the Democratic National Committee, is sponsoring the money-raising dinner. Talmadge's faction is boycotting it.

No Georgia senator or representative wants to get caught in the cross-fire.

## GRAIN NATIONS WASHINGTON, Feb. 20 (AP)—A bill to ration grain to wheat makers through Oct. 31 advanced a step in the Senate today.

The Banking Committee approved the measure unanimously. It made no change in the bill's original 4 to 0 by a subcommittee yesterday.

The bill provides that the liquor industry should be allotted no less than 2,500,000 bushels of grain a month. Each plant would receive at least 6,000 bushels a month.

## SANFORD'S NEWEST CELERY PACKING PLANT

Workers are shown at the new Grapeville Avenue plant of American Fruit Growers Inc. on the west side which was recently completed and put into operation. Workers in the foreground are stacking the washed and packed celery. From there it will go on belt lines to the pre-cooler and to refrigerator cars. The crates for packing are shown on overhead racks to where they roll from an overhead station. On the other side of the building is a like scene of packing activity.

## Fruit Growers Operating New Packing House

Opening Of New Plant Increases Facilities To Process Large Local Crops

The American Fruit Growers Inc., prominent growers and shippers in Seminole County for 25 years and one of the largest distributors of fruits and vegetables in the United States, recently started operations at their new packing house on Grapeville Avenue, west of the city.

There has been much favorable comment during the past few weeks by visiting celery growers and others of Sanford concerning the new packing house and processing plant, which is well equipped not only because it offers added facilities for proper processing of the local 4,000 to 4,000 car celery crop, but also is a "healthening" expression of confidence in the future of the vegetable industry of this section.

The plant was built by the "Blue Goose" concern after a thorough study of processing plants of this kind in Florida and other parts of the country. Before competing the plans, H. C. Hetzel, district manager for the company, made a trip to the Pacific Coast for a careful survey of vegetable packing houses, especially those in California.

The main building is a double quonset, 220 by 60 feet in size. This type of steel construction, developed during the war, is admirably adapted for the purpose. According to Mr. Hetzel, it gives a new look to the vegetable processing business, providing adequate space and light some times lacking in older plants.

In another 60 by 40 foot quonset east of the main building, the celery crates are stored and assembled. An overhead conveyor brings the made up wire bound crates to the packers in the main building. Fluorescent lighting throughout gives day light conditions for night work which is usually necessary during the shipping season.

Labor saving devices and installations to handle the vegetable crop more carefully are interesting features of the plant. The celery after having been brought from the field and into the plant in hand trucks is dropped in water (Continued on Page Two)

## New Trial Denied In Dollison Case

Judge Millard Smith today denied a motion made by Fred R. Wilson as attorney for Mr. and Mrs. T. M. Dollison for a new trial in the case of Frank Russell vs. T. M. Dollison and Ellen M. Dollison his wife and on motion of Geo. A. Speer, Jr. entered a final judgment in favor of Mr. Russell.

Last week a Circuit Court jury rendered a verdict in favor of Mr. Russell in an action of ejectment growing out of a dispute over the ownership of an acre and a quarter of land on the Orlando Highway and the dwelling located on it. Mr. Russell and the Dollisons both contended that they owned this property and built the house.

## Patterpad Plant Is Damaged By Fire

A small amount of damage to the Patterpad Plant, makers of pads and panties for babies, resulted from fire that broke out at the plant shortly after 1:00 o'clock yesterday afternoon. It was reported by Fire Chief M. N. Cleveland.

Much cotton is used in the manufacture of the products, and it is believed that static electricity caused the fire, he declared. Most of the fire had been put out by chemical extinguishers at the plant by the time the Fire Department arrived, he said.

## FIREMAN KILLED PORTSMOUTH, O., Feb. 20 (AP)—The steamship "Powhatan Arrow" of the Norfolk & Western Railroad jumped the track today, killing a fireman and seriously injuring the engineer.

The railroad's office here said that so far as it knew no passengers were injured.

The accident occurred at Genett's Creek, near Franklin Furnace, 15 miles east of here.

The fireman killed was Robert F. Maiden, 57, of Portsmouth.

The Den Mothers and the Advisory Board of the Cub Scouts met tonight at 7:30 in the Methodist Annex to discuss plans for a covered dish supper and jamboree to be given for the Cub Scouts and their parents at the South Side Primary school next Friday. It was announced by Robert Reilly today. Members of the Board and all mothers are urged to attend.

## Truman Declares Russian Refusals Create Problems

Threatened City Snug Behind Levee

GREENWOOD, Miss., Feb. 20 (AP)—Snug behind an ever-rising levee, Greenwood today escaped the crest of a flood wave which has inundated 100,000 acres of Mississippi bottom and timberland. Sandbags have been packed in at danger points throughout the town and National Guardsmen are patrolling the levees to spot any breaks. A predicted crest of 40 feet here Saturday will threaten the town that had a 1945 record high water mark. Relief preparations are well under way.

## South's Solons Declare War On Truman Program

Resolution Adopted Pledging Co-operation Against Bill

WASHINGTON, Feb. 20 (AP)—About 50 Democratic congressmen from 11 Southern states formally declared war today on President Truman's civil rights program.

They met and adopted a resolution pledging "cooperation" with Southern governors opposing the President's program for anti-lynch, anti-poll tax and anti-segregation legislation.

Rep. Comer, of Mississippi, chairman of the group, said a resolution of opposition to the President's program was adopted unanimously.

The Southerners met behind closed doors of the House Banking Committee room.

Those states were represented: Georgia, Florida, Alabama, Tennessee, Mississippi, Arkansas, Texas, Louisiana, North Carolina, South Carolina and Virginia.

But not the entire membership of each delegation was present. For example, only Rep. Smith was there from Virginia.

The group authorized Colmer to appoint a committee representing each state to "cooperate" with the Southern governors.

For themselves, the congressmen pledged to "oppose to the furthest extent of any such legislation" that proposed by the President.

Their resolution also urged, and respectfully but firmly cautioned, leaders of the Democratic Party "against putting into its platform that which would seriously jeopardize its success in the South, where it has been nourished and sustained throughout its existence."

Declared "either one or all" of the President's proposals "would constitute an invasion of the sovereignty of the states and would most unfortunately interrupt the progress being made by the several states in the adjustment of difficult and troublesome problems naturally arising from inter-racial differences."

Colmer told newsmen there was "free discussion of the whole subject" during the meeting, which lasted almost two hours.

The delegation elected Rep. Harris of Arkansas as its secretary.

Among those who did not attend the meeting was Sam Rayburn of Texas, House Democratic leader.

## Sanford Kiwanis Club Receives High Rating for Year's Program

By WILLARD CONNOLLY  
The Sanford Kiwanis Club has received a high rating by placing second in the Orange Division of the Florida District for its achievements during the year, 1947. It was reported today by J. Martin Stinecoper, secretary of the club. Lester Tharp was president and Ralph A. Smith was secretary during 1947. Frank Lamson is now president.

The Division consists of clubs with 51 to 75 members, and is composed of 25 Florida cities of which some of the larger are: Clearwater, Coral Gables, Daytona Beach, Ft. Myers, Ft. Pierce, Lake City, Miami Beach, Ocala, Plant City, St. Augustine, Sanford and Winter Haven.

Eustis placed first in the division. Nearby cities such as Mt. Dora, Leesburg, Tavares and Winter Park are among the 24 cities in this Kiwanis division.

Mr. Stinecoper was recently informed by C. Harold Martine, Kiwanis governor of the Florida district, that the Florida district

## President Persists In Strengthening U.N. As Corner- Stone Of Peace

WASHINGTON, Feb. 20 (AP)—President Truman's call for the common man to rally for political battle against "the privileged few" was branded by the GOP high command today as a bid for Henry Wallace's support.

Carroll Reece, Republican national chairman, said in a statement that Mr. Truman's address to a Jefferson Jackson dinner here last night "should have been set to music under the title 'Old Henry, Won't You Please Come Back?'"

## South's Solons Declare War On Truman Program

Resolution Adopted Pledging Co-operation Against Bill

WASHINGTON, Feb. 20 (AP)—President Truman said today Russia's refusal to carry out United Nations decisions has raised a "disturbing" new problem.

But despite the failure of the Soviet Union and its satellites to cooperate, "the United Nations is making headway," the chief executive told Congress. He added "The strengthening of the United Nations continues to be a cornerstone of the foreign policy of the United States."

Mr. Truman outlined his views in a 359-page report on the work of the world agency during 1947. The report had been given first to the President by Secretary of State Marshall.

Marshall said "The record offers no basis for complacency," but also "no basis for pessimism."

"Some of the accomplishments noted in the report," the cabinet officer wrote, "were made despite the intransigence of a numerically small minority which has extended to a refusal to carry out certain major recommendations."

## Lion's Club Plans Junior Ball League At Luncheon Meet

Plans for the Lion's Club's "Junior Baseball League" were today discussed at the meeting at the Tourist Center. Richard Davis presided.

It was announced that the season will begin in April, according to Harry Robison, the league's president in the past, will again comprise four teams of boys. The Lions are trying to get another local civic organization to sponsor another similar league, he stated.

Fred Ganas was appointed as head of a committee to decide on the nature of a fund party or outing.

Eugene F. Paulson, visitor speaker from Liberty, Mo., and "club" chairman, of Boy Scouts activity of the Lions Club of that city, told of promotion of a recreation center in Liberty among youth. He said that he was impressed with the local club's Junior Baseball activities, as briefly outlined by Vice-president Deas and would present the idea to his home club. Another visitor was G. L. Esterline, buyer of the Kroger Grocery Company of Chicago, Ill.

Jesse C. Lodge, Wallace Phillips and Robert LeFils were introduced as Lions by Dick Elsbetter. Clyde Ramsey added the offer touch of warning against the "dime collecting" Tail Twister.

## NO NEGLIGENCE A coroner's jury, summoned by County Judge R. W. Ware at the request of State Attorney Murray Overstreet to investigate circumstances attending the death in an automobile accident last November of John Frances Platt, gave a decision that there was no criminal negligence in connection with the accident, which occurred on the Orlando Highway. It was reported by Judge Ware's office.

### Oviedo Tax

Work has started on the re-paving of the Oviedo-Geneva Road, which developed holes in the surfacing after being resurfaced last year. The volunteer department quickly put out a fire in the garage of Mrs. Maude Coates. Mr. Lingo, whose insurance and real estate office is located in the Lee Building, revealed that he had been a resident of the town for 31 years, and that for 25 years he had served Nelson and Company in various capacities including that of vice-president, secretary and treasurer. He decided to retire from active work about a year ago, he said, but his retirement period was very short. He had left the Nelson Company office and proceeded on the street and had not gotten very far before he was met by civic leaders who prevailed upon him to serve as town clerk. He added that he had then accepted the office, and had taken over the real estate and insurance work. Mr. Lingo owns a number of citrus groves in the Oviedo-Chuluota section. He is very fond of fishing as a sport.

City expenses include street lighting and cleaning, maintenance of a policeman, and payment of rent for City Hall privileges in the C. S. Lee Building, said Mr. Lingo. Home building, which has been active during the past year in Oviedo, has slackened off during the past two weeks as far as building permits are concerned, he stated. The Nelson Company garage is now about complete. It has metal siding and a concrete floor. Howard Hunt is building a new metal sided garage, 50 by 80 feet in size on the Winter Park Road. He does repair work for automobiles, trucks and farm machinery.

Population of Oviedo is now about 1,800, said Mr. Lingo, as compared with 1,119 in 1945 when the census was taken. Of the present population 1,000 are negroes and about 800 are whites, he said. Many negro workers are required in connection with the packing and growing industries.

### WORDS CAN'T DEFEND A CHILD'S CROSS EYES!

It is pitiful when a handicapped child's only reply to playmates' taunts and ridicule must be "sticks and stones may break my bones, but words will never hurt me." Other children's cruel "words" do hurt... but there is a perfect defense available... THE RECONSTRUCTION METHOD... rightens most cases in one day. Insure your loved ones, or a friend's child, the right to a happy childhood. Add their names to the list of over 7,000 persons whose cross eyes have been corrected by this safe, professional method.

Hourly contacts by means of modern teletype machines make this method of concentrated selling economical and efficient, Mr. Hietzel pointed out. An interesting feature of this modern sales program is the daily three or four way conference on the teletype machines between the various shipping offices. This, he stated, provides up to the minute market quotations and description of the produce being shipped so that all offices are adequately informed about the whole shipping and selling program.

During the past few weeks, said Mr. Hietzel, the new plant has had many visitors from Sanford and other parts of Florida and other states. The visitors are impressed not only by the methods being used to pack vegetables, but also by the beauty and neatness of the nearby celery fields.

The plant is served by the Atlantic Coast Line Railroad, and is located conveniently for trucking. The Quonset construction was by the A. D. Flint Industries of Orlando.

After the celery goes through the pre-cooling bath, it travels between lines of refrigerator cars on a sheltered conveyor belt 300 feet long and is diverted off this belt into the cars. The large pre-cooling tank is of concrete refrig. with steel and topped with ammonia coils over which drips 32 degree water, has a capacity of 600 to 700 crates an hour and reduces the temperature of the celery to nearly freezing. Quickly loaded into the refrigerator cars, this method provides means of placing celery in crisp, fresh, attractive condition in any of the markets throughout the country.

An interesting means of getting rid of waste or stripped celery is the conveyor belt under the floor level and under the main conveyor line where the packing and stripping is done. The waste celery is then conveyed up an inclined belt and into a hopper from which it can be dropped into trucks. Dairy men of the district find it profitable to feed this celery to cattle.

From 80 to 100 workers are regularly employed at the packing plant, which is managed by Fred Ford, assisted by Watson Wallhite and W. J. Morrison. S. C. Dickerson is the engineer in charge of the pre-cooling plant. Other members of the American Fruit Growers force in Sanford are Mrs. Edna Adams, A. D. Abrams, R. E. Herndon and A. D. Holsayer. Roy Kelly and W. L. Harrison are the farmers for the company and have charge of their extensive operations in this county.

The company also maintains shipping and packing house facilities at Belle Glade and St. Petersburg in Dade county. The selling of the immense quantity of vegetables which originate from these shipping districts is centered in the sales office at Fort Pierce.

### BISHOPS EXECUTED

VATICAN CITY, Feb. 20.—(AP)—Vatican sources said today two Roman Catholic bishops have been executed in Albania, and a third has been sentenced to 20 years in prison.

The executed bishops were named as Magr. Francis C. Jini, Bishop of Leshja (Alessio) and Magr. George Vioja, Bishop of Sappa. Sentenced to prison was Magr. Nicola Vincenzo Prenushi, Bishop of Durezzi (Durrës). All were Albanians.

Central government a "breathing space" while the Chinese try to work out their own problems. The House was not in session today, but the Senate was prepared to begin debating a rent control extension bill.

Present rent controls expire Feb. 29. The Senate is considering a measure which would extend them 14 months, with several important changes in present regulations. But because of the short time available, it appeared likely that the House Banking Committee's plan for a one-month stop-gap extension would prevail.

Senators Flinders (R-VT) and Bricker (R-Ohio) predicted that today. The House is expected to vote on the one-month bill next week.

Rep. Jarman (D-Ala) told Marshall a question of calling MacArthur arose while the committee was considering only the European Recovery Program. Evidently Jarman said the idea was to get MacArthur's advice on that.

So he asked the Secretary when MacArthur last saw service in Europe. Marshall tilted back in his chair and thought a moment. "I think he visited Europe," he replied, "while he was Chief of Staff. That would be about somewhere in the five years that lead up to 1935."

Marshall said the Chinese have other resources of gold and foreign exchange totalling \$274,000,000 which they could use to buy military supplies. He explained that the economic assistance was designed to give the hard-pressed

## Monthly Grants To Dependent Child Are Reduced

Reduction in the amount of funds available for monthly grants of aid to dependent children was announced today by District Welfare Board No. 12 comprising Orange, Volusia, Osceola, Seminole and Brevard counties, following receipt of a directive from the State Welfare Board. It was announced by George I. Fullerton, chairman, Mrs. Roy Holler attended the meeting from Sanford.

Effective Feb. 27 when monthly grants are mailed to recipients the new policy stipulates that hereafter grants may not exceed \$21 for the first child in a family, \$15 for the second child and \$12 for each other child with a maximum of \$39 as the most that may be paid a month to any family group.

Necessity for making this adjustment was made clear by the State Welfare Board with the announcement that applications for aid have more than doubled over last year because of the higher cost of living and the money remaining from the appropriations of the 1947 legislature must be spent more widely if the board is to carry out its responsibility of recognizing all needy eligible families.

Funds for the aid to dependent children program as well as other activities of the State Welfare Board are derived from the state taxes on racing and beverages.

Figures in the District Welfare Board office here reveal that in January by county the following number of families received aid to dependent children in the following amounts: Brevard, 315 families, \$8,850.00; Orange, 305 families, \$5,505.00; Osceola, 129 families, \$5,005.25; Seminole, 297 families, \$13,055.00; Volusia, 458 families, \$18,375.00.

## HIMLE VERSE FOR TODAY

WE ARE IMPAID BY OUR  
OWN FOLLY.—Pr. 20:9: As a  
thorn grew up into the hands of  
a drunkard, so is a parable in the  
mouth of fools.

There is less meat in the United  
States than at any time since  
1939, says the Department of Agri-  
culture, and more demand for  
it. Don't expect the price of  
steaks to go down much any time  
soon.

J. A. Murray, continuing his  
swing around the state for the  
Tampa Tribune, reports Duval  
county lining up solidly behind  
Fuller Warren and lists an im-  
posing array of Jacksonville po-  
litical talent now working for  
him. "He already has corralled,"  
says Murray, "more than any  
candidate has a right to expect  
of the town's political wheel-  
horses."

Secretary of State Marshall has  
bluntly warned Russia that "the  
United States will not stand idly  
by and let Greece fall victim to  
Communism." A noble aspiration.  
But are we prepared to use atom  
bombs to keep the Communists  
out, or must we keep on fighting  
with love and kisses? It is silly  
to send a policeman into danger-  
ous places after we have taken his  
gun away from him.

The fuel oil shortage, we are  
told, is due to the increased con-  
sumption of fuel oil since the war  
ended. That is a likely explanation  
for, as they are with everything  
else, people are undoubtedly burn-  
ing up more oil and gas now than  
they did during the war. Yet it  
is hard to believe that they can  
be using more than was used by  
all our battleships, cargo ships,  
tanks, trucks, and airplanes during  
the war.

The other day, we told you of  
the mother and daughter who  
differed over the wisdom of a  
girl so young attending the junior  
prom. Today's news is about a  
36-year-old mother and her 17-  
year-old daughter who married  
two young sailors, age 21 and 32,  
in a double ceremony. The four  
of them have taken an apartment  
together in Rodeo, Calif. where  
presumably they will live happily  
ever afterward. That is indeed  
stranger than fiction.

Southern Democrats may ask  
for the vice presidential place on  
the national ticket as a salvo for  
their feelings which have been  
hurt by President Truman's denun-  
ciation of Southern principles and  
traditions, according to the At-  
lanta Constitution. It hardly seems  
likely that Truman will yield even  
on this little point as he will need  
all the votes he can get and the  
best way to get them is to give  
the Vice Presidency to a doubt-  
ful state. But even if the South  
were accorded this signal honor,  
we can think of no place of great  
obscure and less influence than the  
Vice Presidency.

About to be published is a new  
book on Florida by Dr. A. J.  
Hanna and Kathryn Abbey Hanna  
of Rollins College. Those who  
have read Dr. Hanna's "Flight  
Into Oblivion" and "A Prince in  
Their Midst," or Mrs. Hanna's  
scholarly history of Florida await  
with interest "Lake Okechobee:  
Wellspring of the Everglades,"  
which tells not only the dramatic  
story of the struggle to save this  
fertile area from floods and fires,  
but also something of the people  
who live there, such dramatic  
characters as John Ashley who  
terrorized the whole East Coast  
for more than 20 years and  
"The Queen of the Everglades"  
who swallowed a bottle of Lysol  
when she was accused of selling  
bootleg liquor.

## Protesting Women

W. Holden White writes from London that Sir Stafford  
Cripps, chancellor of the exchequer, and Food Minister  
Strachey are two of the bravest men in the world. Each  
faced an audience of women recently to discuss England's  
economic situation.

The Conservative party has been drawing the women  
away from the party in power lately, and the fact that the  
Laborites are feeling the strain accounts for these two at-  
tempts to stem the tide. Sir Stafford Cripps spoke to a  
press conference of 300 newspaper women, expounding the  
principles and the necessities back of the austerity pro-  
gram, and asked for the women's support. He asked for  
questions, and these women, woman-like, came right back  
with the personal application of his high-sounding general  
principles. Samples were even produced of spoiled jam and  
aged fish purchased on ration points.

Mr. Strachey went before 700 women in his own con-  
stituency and asked for support of his food program. One  
woman cried "You promised us a golden age of plenty, of  
freedom, of happiness, of labor-saving, and a high standard  
of living!" No one could quiet the loud chorus of protest  
against the government and the meeting adjourned in dis-  
order.

The feminine mind has a strong inclination to seek  
the shortest distance between two points. If they have been  
promised "a golden age," they are bound to expect some  
shine and glitter. The Labor government, lavish with its  
promises, now has to eat its words, in lack of better food.

## Baker St. Irregulars

Sherlock Holmes, who never lived, is still alive. Though  
Conan Doyle, his creator, has been dead for years and no  
more authorized stories can be hoped for, devotees of  
Holmes are banding together to study the tales, and ex-  
change expressions of enjoyment.

The organization calls itself "The Baker Street Irregu-  
lars." Holmes' nickname for the street urchins whom he  
occasionally used for errands or spying. Individual branches  
take their names from the different stories. Thus the par-  
ent chapter in Chicago, choosing the title of Holmes' most  
famous adventure, has the name, "The Speckled Band."  
Another group styles itself "The Five Orange Pips." The  
youngest chapter, just formed in Cleveland, is "The Creep-  
ing Men."

They have plenty to talk about: discrepancies in the  
chronology, whether Dr. Watson was married twice and to  
whom, speculations about Holmes' landlady, the long-suffering  
Mrs. Hudson. Enough material has been produced to  
fill a magazine, "The Baker Street Journal."

The irregulars are having a good time. They may even  
contribute to history. Historians will doubtless be interest-  
ed if they prove the theory advanced by one enthusiastic  
Irregular that Prof. Moriarty, the fiendish villain whom  
Holmes defeated, reappeared as Hitler.

The Chinese have a great love of peonies, lotus, plum blossoms and chrysanthemums, she said, stressing

Madam Liu declared that flowers are closely woven into the lives and thoughts of the Chinese people. At the start of the silk worm season the women comb their hair and decorate their headresses with fresh flowers in the hope that the cocoons will be as lovely as the hair arrangement. She closed her talk with the singing of a short Chinese melody.

At the conclusion of the program Mrs. Epps thanked her for appearing and for her very interesting talk. The meeting was closed with the singing of the "Star Spangled Banner" by Mrs. Ginn.

## Seminole Hi By ROBBY PARK

Sponsored by the Jaycees there will be an election of county officials in the 7, 8, 9, 10, 11, and 12th grades in Seminole County Schools. The students must have registered Friday to be eligible to vote or run for an office. Monday will be the date the candidates will announce the office they seek. The campaign speeches will be held Wednesday with the voting Friday. From the way the talk was running at school there will be an awful lot of competition.

Another unique event, the student at Seminole High are looking forward to, is a big Sadie Hawkins Day Friday, Feb. 27. The students planned to elect a Daisy Mae and a Little Sister from the senior class. Friday, 20, morning along with other acts a quaint Dogpatch contest from the student body. The entire program is planned by the Student Council and the students have pledged unanimous support for the occasion.

Marrying Sam will surely keep busy before he can get his patchers at 10 a. m. Various Clubs will sponsor dances for the carnival while the student council has planned many contests for the occasion. Among them are the hog-calling contest, the pillow fight over the shoulder, the tug of war, and the groundhog contest.

It will certainly become one of the unparalleled events of the year and nothing less than an earthquake could disrupt the spirits of the students and unless a good rainstorm comes it will be a day to remember.

Rev. McKimble delivered to the student body Thursday morning in assembly at the request of Mr. Morris, a repetition of his sermon Sunday on "Way I and against the 'Laziness' Business". Certainly every student in the auditorium benefited from the talk.

Another highlight of a busy week was the band trip planned by the Latin Club and L. H. V. for the students. Sixty of the band members were taken before the usual last minute rush and needless to say there were probably more students than places.

Herby Stenstrom and Bobby Pullin, accompanied by Dr. Root, attended the Key Club district convention Wednesday night at Forts and will report on the meeting at the Key Club's luncheon Tuesday.

On pressed wood panels and on walls all over the school there are appearing numerous chalk and pencil lines outlining murals in the making. Last look around and you are bound to see two or three in progress and to see what the finished product will look like, stop in the Key Club room and take a look at a finished one in there.

From what I hear Eminentville, a very dramatic young lady from the local stage who specializes in death or near death scenes, has been on quite a thing lately. Where is the end point now?

## GI Bill Cut

(Continued from Page One)  
budget message to Congress last month.

Today's Budget Bureau report was sent to Chairman Rogers (R-Mass.) of the House Veterans Affairs Committee.

"Among 'certain weaknesses and deficiencies' in the veteran training program, it listed these:

1. More than 90 percent of all GI flight training "has no occupational purpose" and has "no appreciable value" for national defense, although it costs \$275,000 a year for the 118,400 enrolled.

2. Schools offering "social and ballroom dancing to the 'several thousand' veterans enrolled at a cost of more than \$400 each "have frankly stressed" in many instances "the recreational or social aspects." An advertisement was cited "in a few magic hours" to make veterans "the darling of the stage."

3. A survey of photography training courses showed them to have "no value for truly vocational purposes." In one city where job opportunities in the field were "virtually non-existent," 280 veterans crowded available courses.

4. The chance of an eventual job in music for veterans now taking their first lessons "appears to be remote in most cases."

5. There are other courses of "feted" which do not appear to be in accordance with the purpose of the act. As an example the report cited a correspondence course in "applied housewifery."

The report acknowledged that courses in flight training, dancing and the like "are worthwhile if pursued by students who have a reasonable chance of qualifying for vocations related to them."

It added, however, that "in fairness to the veterans" some way to separate recreational training as necessary vocational training is necessary.

No total cost figures were cited but the report said the training for fun "is adding more than \$200,000 a year to the cost of veterans' educational and training activities."

## South's Demos File Protest With McGrath

**Southern Governors Demand Democratic Party Withdraw Civil Rights Measure**

WASHINGTON, Feb. 23 (AP)—Four southern governors demanded today that President Truman call back from Congress his request for anti-lynching, anti-poll tax and other civil rights legislation.

They called also for a return to the two-thirds rule of nominating the Democratic presidential candidate. This rule, scrapped in 1936, required a majority of two-thirds of the voting delegates to choose the party's nominee.

The four governors laid their demands before Democratic National Chairman J. Howard McGrath in a closed session at party headquarters.

They handed him a typed list of six questions.

McGrath was called upon flatly to use his influence "to have the highly controversial civil rights legislation which tends to drive our people withdrawn from consideration by the Congress."

The four governors were J. Strom Thurmond of South Carolina, H. V. Rouse of North Carolina, Ben T. Laney of Arkansas and Beaufort H. Jester of Texas.

McGrath asked for a closed meeting. Thurmond told reporters the governors preferred an open session, but they bowed to McGrath's wishes.

COLUMBIA, S. C., Feb. 23 (AP)—Withdrawal from the national Democratic Party in protest over President Truman's civil rights program was recommended today by two South Carolina county Democratic executive committees.

## Miami Herald Reporter Describes Sanford As Growing Resort City

By STEPHEN TRUMBULL  
Miami Herald Staff Writer

Sanford—Always a pushover for any tourist attraction showing visitors the real Florida instead of the honky-tonks and juke joints, your loving correspondent came here to try a new boat trip down an historic old water trail.

The boat trip, down the St. Johns River that was a main thoroughfare when Florida visitors wore Spanish amour instead of sports coats, is a dandy. And in taking it your correspondent discovered that this clean little river bank city that long preferred celery raising to tourist catering now is in the midst of a change of heart.

Currently they're out after the tourists with just about everything but steel traps. The boat trip, for one, is a new deal. A modernistic tourist information center has been erected on the lawn of the free municipal zoo, where all arrivals get the red carpet treatment, free orange juice, listings of rooms fitting every purse, and just about everything but a shoeshine.

This greeting service, along with a lot of other innovations here, is the work of the Junior Chamber of Commerce. It's hard to figure how one organization could get its fingers into so many new pies until you learn that it's headed up by young Bradley Odham.

## School Head Says GI Training Not All It Is Supposed To Be

By DAVID TAYLOR MARKE

ATLANTIC CITY, N. J., Feb. 23 (AP)—Charles C. Rinz, superintendent of schools of Jamestown, N. Y., told the American Association of School Administrators today that education the GI way is not all it's supposed to be.

Rinz, discussing the "implications of the armed services program," in a prepared address, said:

"While I recognize that the armed forces did a remarkable job of training upwards of ten million men for armed combat, my experience causes me to believe that its contribution to civilian public education has been greatly exaggerated in the minds of the public."

Rep. Walter H. Judd (R-Minn.) told the association last night that there still will be "two great armed camps with the success of the Marshall Plan."

Russia and her satellites will be on one side, and on the other will be the United States, 16 countries of Europe, Canada, Australia, and a few others, he said.

Judd, a member of the House Foreign Affairs Committee, said world balance of power rests with the 1,250,000,000 people of Asia.

The shortage of qualified elementary school teachers was recognized as the principal problem of education in the United States by those attending the convention. They include chief state school officers, teachers college presidents and education association leaders.

Dr. Ralph McDonald, executive secretary of the National Education Association's Commission on teacher education and professional standards, said "If we permit this condition to continue, it is nothing less than educational suicide for the United States."

Results of a study released yesterday showed only 10,000 elementary school teachers will be graduated from 75 per cent of the nation's colleges this year.

Rinz, in his discussion of audiovisual aids, said they were used with great success by the Armed Forces, but added:

"I was impressed by the great cost of production, the amount of manpower and equipment the army used for maintaining and running this program and with all the frequent ineptitude with which these expensive visual aids were used."

The armed services training programs in civilian colleges "did a great deal of good for the individuals concerned, but many just went back to their units and never utilized their special training," he said.

Rinz said the Army failed to use enough trained educators. "The Armed Forces, I judge, did not have a very high regard for educators and used as few as they could," he declared.

Many lessons may be learned (Continued on Page Six)

## Cubans Slain In Fracas Of Campus Rivals

**Authorities Attribute Shooting To Fight For Control Of University Federation**

HAVANA, Feb. 23 (AP)—Manolo Castro, 38, inspector general of Cuban sports, and a companion were killed last night in a shooting police blamed on rivalry between political groups on the campus of the University of Havana.

The second victim was Carlos Puchol, identified by police as a member of a Dominican Expeditionary Force. Two other persons were seriously wounded.

Police said several men carrying pistols had fired into a group in which Castro and Puchol were talking with friends. The police detained Gustavo Ortiz, 29, who they said had thrown away a pistol and three cartridge magazines during a foot chase after the shooting.

Ortiz was quoted as saying he had not shot anybody but had fired into the air when he thought others were shooting toward him. The authorities attributed the shooting to a battle for control of the Havana University students' federation. The federation takes an active part in political affairs, emphasized now by the approaching presidential elections of June 1.

Castro was a former president of the federation. He was under (Continued on Page Six)

## 6 Perish In Fire As Flames Consume 16 Room Residence

CAMBRIDGE, Mass., Feb. 23 (AP)—Six persons in one family died early today when flames swept their 16-room house on fashionable Brewster Street.

Police identified the dead as: Alan Gregg, 49, a Harvard graduate of 1915; his wife, Ann, 49, and their four children—Susan, 9, H. Alan, Jr., 8; Peter, 3, and Thomas, 10 months old.

The only one to escape as flames raged through the rambling three-story wooden house was the family maid, Edna Roper, 29. She was injured critically, firemen said, when she apparently toppled through a second-story window in trying to open it.

At least a dozen firemen and the department's fire chaplain, the Rev. Thomas Tierney, were overcome attempting to rescue the trapped family.

The whole inside of the house was a roaring inferno before the firemen got there, Deputy Chief Henry Kilfoyle said.

"The fire started on the first floor," he said, "and went up a stairway to the third floor."

"By the time we got there, the whole house was enveloped in flames. We had to enter through a second-floor window."

All six members of the Gregg family were found burned to death in their second-floor bedrooms—indicating, he said, they had no chance even to try to get out.

## Ellis M. Howard, 75 Died This Morning

Ellis Maddux Howard, 75, died at 10:00 o'clock this morning in the local hospital, following an illness of one week.

Born in Monticello, Ga., Dec. 18, 1872, Mr. Howard had been a resident of Sanford for 37 years. He lived in Floral Heights.

He is survived by the widow, Mrs. Annie Montgomery Howard; three daughters, Mrs. Jack Hickman and Mrs. E. B. Stowe, both of Sanford, and Mrs. M. Evans of St. Augustine; 10 grandchildren and 12 great-grandchildren.
