

### S. And G. Gambler Called To Hearing

MIAMI, Aug. 4—(AP)—M. James Lewis, a member of the S. and G. Gambling Syndicate at Miami Beach, has been summoned to a Washington hearing of the Kefauver Senate Crime Investigating Committee. It was reported today.

His brother, Leo, office manager for the syndicate, also was served with an order to appear and bring the syndicate's records with him.

The Miami Herald and the Daily News told how Lewis was served with a subpoena by a Kefauver committee investigator after a footrace across a weedgrown vacant lot. Lewis stumbled, and was handed the paper as he lay on the ground.

### Legal Notice

IN THE CIRCUIT COURT OF THE NINTH JUDICIAL CIRCUIT OF FLORIDA, IN AND FOR SEMINOLE COUNTY, IN CHANCERY, NO. 1480.

HESSIE MAUD BALE, as Executrix of the Estate of Marie French, deceased.

Plaintiff,

vs.

GRACE MARIL EDWARDS and J. THOMAS EDWARDS, her husband.

Defendants.

FORECLOSURE OF MORTGAGE NOTICE OF SPECIAL MASTER'S SALE.

NOTICE IS HEREBY GIVEN THAT I, Douglas Stenstrom, as Special Master in Chancery, under and by virtue of a final decree of foreclosure and sale entered in the above entitled cause on the 4th day of August, A. D. 1949, will offer for sale and sell to the highest and best bidder for cash the following described property known as "FIELD DIETZ GRILL," located on U. S. Federal Highway No. 17-92, situated being and being in Seminole County, Florida, 12-0-11.

Beginning at the Northeast corner of Section 15, Township 21 South, Range 30 East, 5th South 100 feet thence North 89 degrees 27 minutes West, 23.25 feet to a Concrete Monument on the right-of-way line of U. S. Highway Route 17 and 82 thence with the line of said highway, North 37 degrees 37 minutes East, 12.5 feet to an iron pipe thence leaving said highway, south 55 degrees 32 minutes East, 174.1 feet to the place of beginning.

at the front door of the Seminole County Court House in the City of Sanford, Florida, on the 11th day of September, A. D. 1950, at 10 o'clock legal hours, said sale to satisfy said decree. Terms cash, but check to pay for deed.

This 4th day of August, A. D. 1950.

DONALD SYLVESTER, As Special Master in Chancery.

### MARCH OF EVENTS

No Full-Scale Offensive In Korea Until Spring? Depend on South Koreans For Token Support Only

WASHINGTON—The Korean war has mushroomed into such gigantic proportions in so short a time that the military leadership does not now expect to get a full-scale offensive under way until spring.

They fear that the American divisions now in Korea will be badly battered before substantial aid reaches them, and that months will pass before ground forces of overwhelming power can be built up through Korea's only deep-water port of Pusan.

The days when military experts thought that air and naval support alone would enable the South Koreans to win seem to Pentagon observers to have receded into the almost forgotten past.

No reliance now is placed in the South Korean army for anything more than inspirational and token support. Guerrilla activity supported by the South Korean population may prove to be one of the United States Army's greatest problems.

Most significant of recent developments have been reports of guerrilla activity in eight areas behind the American lines. These areas cut a cross rail and highway communication lines feeding United States troops.

A high Army spokesman dismissed the guerrillas as "easy to deal with," but history from America's Civil war onward suggests that guerrillas have never been easy to deal with, even when they were few in number.

WORST FEAR—The President, the Cabinet and military leaders worry about one thing above all others in these days of worrisome events. The prime fear is that an American vessel, especially a troopship, will be sunk by a submarine.

Logically, such an attack could come only from a Soviet undersea raider, and without doubt that would mean World War III—all out.

Military experts do not think the Kremlin would order such an act, but they are apprehensive lest some trigger-happy Red submarine commander take the fateful step.

American leaders know that an all out war would be just that. Korean Communist massacres of United States troops are a grim indication of what could happen in another world war. The enemy would not bother taking prisoners, either civilian or military.

It is known that Russian submarines are in Korean waters in some force, according to American troop movements. The Pentagon and White House fervently hope the Reds will confine their activities to scouting.

DOCTOR DRAFT—Congress expects to take up soon legislation to get more doctors into the armed services.

Military lawmakers warn that as the size of America's fighting force increases, more doctors and dentists will be needed.

Chairman Millard Tydings (D), Maryland, of the Senate armed services committee, said this is one of the issues on which his group contemplates action. Tydings told a reporter:

"I am sure that the Army in particular must be in a very serious situation (in regard to doctors) at this very moment. I would assume that they have had to send substantial numbers of doctors, dentists and nurses to support the Korean operations."

"They were already very short in these categories and I would assume that the problem of providing additional medical and dental personnel is going to be extremely difficult."

ATLANTIC PACT LONDON, Aug. 4—(AP)—Deputies of the 12 Atlantic Pact nations agreed today to urge their governments to boost their armed forces as quickly as possible.

Legal Notice IN THE COURT OF THE COUNTY JUDGE, SEMINOLE COUNTY, FLORIDA, IN PROBATE, IN RE: ESTATE OF SAULIE JACOB, Deceased.

TO ALL CREDITORS AND PERSONS HAVING CLAIMS OR DEMANDS AGAINST SAID ESTATE: You are hereby notified and required to present any claim and demands which you, or either of you, may have against the estate of SAULIE JACOB, deceased, late of said County, in the County Judge of Seminole County, Florida, at his office in the court house of said County at Sanford, Florida, within eight calendar months from the date of the first publication of this notice. Each claim or demand shall be in writing, and shall state the place of residence and post office address of the claimant and shall be sworn to by the claimant, agent, or attorney, and any such claim or demand not so filed shall be void.

VERLIE MAE SLATER, As administrator of the Estate of Saulie Jacob, deceased.

### Korean War

(Continued From Page One) to the whole American position in Korea—was at the southern end of the line. It was there that the Reds were bringing up their reinforcements and shoving steadily to try to smash off Pusan.

Besides the American counter-attack that had rocked the invaders momentarily back on their heels, there was another encouraging factor on that front:

MacArthur's headquarters said that 45 enemy tanks, which it previously had reported advancing toward Chinju from the north, had proved to be burned-out hulks, abandoned after earlier American blows.

American and South Korean lines above Chinju now are east of the winding Nakdong. But the extreme southern forces are south of the big stream and west of its delta, which is just outside of Pusan.

A Tokyo headquarters spokesman reported the North Koreans were pouring tank and infantry reinforcements to the southern battle sector.

He said Red soldiers were coming into battle as recruits from Korean settlements in Soviet-dominated Manchuria. Many are Japanese trained and veterans of the Chinese Communist wars.

Allied planes kept a sharp watch for troop trains bearing down from the north. Some rail-borne reinforcements sneaked out of Chongjin, in North Korea, under a smoke-screen covering the marshalling yard.

Into this battle the 25th put all it had after a quick shift from the Kumsong area, to the north. The battered 24th was sent to another unidentified front when the 25th took over with expected Marine and other reinforcements.

The reinforcements were troops of the U. S. First Marines, the Second Infantry Division and the Fifth Regimental Combat Team from Hawaii. The Marines have 47-1/2 ton Pershing tanks, super-lazookas and flame-throwers.

While the battle raged in the south against the hinterland of Pusan, South Korean troops protecting the northern flank pulled back to the village of Pian, some 18 miles from Hamchang. They took up positions along the Nakdong's river side.

Red patrols probed without let-up at the South Korean lines and kept American outposts farther

### Price Controls

(Continued From Page One) per cent above the level of June 15—was denounced yesterday by President Truman. He called it an invitation for a five percent rise.

The House threw it out on a standing vote of 172 to 161 on which the members were not recorded by name. The idea had been tentatively approved yesterday 159 to 128.

The action left before the House a controls bill providing only standby allocation and priorities powers for the President, authority to requisition war-needed materials, to grant production loans and to curb credits.

This bill, however, was subject south busy along the river front. U. S. Eighth Army headquarters in Korea said all Red patrols that had managed to cross the Nakdong River in the initial probing had been wiped out or dispersed.

### STOMACH ULCERS

H. K. Ring, D. C.

Headache, vomiting, nausea, faintness, foul breath, heartburn and very severe pain after eating are symptoms of this condition.

A healthy stomach never has ulcers. Something has been wrong with the stomach lining for a varying length of time preceding such a condition. There can be many influencing conditions, leading, to ulcers such as an extreme nervous condition, over indulgence in drink, etc.

However, the basic incoordination of that stomach lining comes from inability of nerves supplying the stomach to deliver the vital energy from the brain as nature intended. This interference occurs in the spinal column when a vertebra has become subluxated.

When a chiropractor adjusts and removes this interference to nerve transmission the forces of the body will again work to return health to the stomach lining.

When a chiropractor adjusts and removes this interference to nerve transmission the forces of the body will again work to return health to the stomach lining.

When a chiropractor adjusts and removes this interference to nerve transmission the forces of the body will again work to return health to the stomach lining.

When a chiropractor adjusts and removes this interference to nerve transmission the forces of the body will again work to return health to the stomach lining.

### to amendment to add wage-price controls.

The junking of the mandatory bill climaxed four days of House maneuvering in this order:

The Banking Committee sent to the House floor a bill providing only the limited controls Mr. Truman had asked—not including wage-price powers.

With Congress clamoring for some sort of wage-price controls, Democratic leaders offered a substitute providing power for Mr. Truman to slap ceilings on prices and wages, and ration goods, when and if he thinks those steps are needed.

By adoption of amendments, the House proceeded to rewrite the substitute. It voted for mandatory price-wage controls, limited all control powers to eight months, added a "Buy American" clause, and forbade controls on commodity market speculation.

The result was something completely unacceptable to the Truman Administration.

So today's vote tossed out the amended substitute and left the House back where it started—with the Banking Committee's bill.

The House began then to deal with proposed changes in the committee bill.

First, Rep. Crawford (R-Mich.) wanted to change the policy declaration. He didn't like assertions that the bill's powers were needed for this country's support of the United Nations and mutual defense. His attempt to change the language was defeated on a standing vote of 131 to 91.

The House next slapped down a proposal by Rep. Hoffman (R-Mich.) that the Secretaries of Defense, Commerce and the Treasury be required to establish fair average prices on all materials and services as a guide to federal and local agencies for enforcing fair prices.

A standing vote of 112 to 46 approved an amendment by Rep. Rogers (D-Fla.) to make boarders subject to a year in prison and a \$10,000 fine.

Rogers said the provision was similar to one passed by Congress in 1917 and upheld by the courts.

It forbids the holding of more than "reasonable requirements" of "necessaries" and defines them as "foods, feeds, wearing apparel, automobile tires, containers primarily designed or intended for containing foods, feeds or fertilizers; fuel including fuel oil and natural gas; fertilizer and fertilizer ingredients; tools, utensils, implements, machinery, and equipment required for the actual production of the above-named articles and materials; and any other articles and materials the equitable distribution of which the President shall find and shall by proclamation declare to be essential to carry out the purposes of this act."

*First of the Fine Cars in Value*

## Even Wiser than He Seems

PLAINLY, here travels a man wise in the ways of fine motorcars.

You know that, by the four Ventiports and the rich sweep of chrome which mark his car as a ROADMASTER.

You know it, should you trail him on the highway, by the smooth lift of the big Fireball power plant at his toe's command, by the obvious levelness of the ride he enjoys, the swift ease with which Dynaflow Drive solves his traffic problems.

What is not so plain from what you see is that here also is a man very wise in what today's dollar should buy!

For this man has all that a fine-car owner can ask for—brilliant performance, a ride without equal for gentle softness, finger-easy handling, abundant room all around him, styling that is easily the most distinguished on the highway.

Yet he paid considerably less than comparable merit costs elsewhere.

He found fewer extra charges in his delivered price, with such things as Dynaflow Drive, foam rubber cushions, windshield washers, electric clock, even non-glare rear-view mirror included in the price.

If you know fine cars, it won't take fifteen minutes behind a ROADMASTER wheel to see that here is one of the finest.

If you have inquired about prices, a single glance at the delivered figures establishes this as the big buy of the field.

Why not make both checks—especially since your Buick dealer will be glad to arrange a trial run in a ROADMASTER any time you care to call on him?

Only BUICK has Dynaflow Drive\* and with it goes HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New V-363 engine in SUPER models.) • NEW-PATTERN STYLING, with MULTI-GUARD fender, taper-through fenders, "double bubble" taillights • WIDE-ANGLE VISIBILITY, close-up road view both forward and back • TRAFFIC-HANDY SIZE, less over-all length for easier parking and maneuvering, short turning radius • EXTRA-WIDE SEATS cradled between the axles • SOFT BUICK RIDE, from all-coil springing, Safety-Ride rim, low-pressure tires, ride-steadying torque-tube • WIDE ARRAY OF MODELS with Body by Fisher.

\*Standard on ROADMASTER, optional on extra cost on Super and SPECIAL models.

YOUR KEY TO GREATER VALUE

# Buick Roadmaster

with Dynaflow Drive

Four-Way Powerbrake—This rugged head and (1) into the axle nuts, (2) covers on repair and overhaul bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and parking easier.

## Senate Nears Agreement On Price Control

### Banking Committee Nears Completion Of Work On Home Front Mobilization

WASHINGTON, Aug. 7.—(AP)—The Marine Corps announced today it will mobilize all of its 40,000 volunteer reserves. A Marine spokesman said the initial call is going out to approximately 50,000 officers and men who will report for active duty between Aug. 15 and Oct. 31. The Marine Corps said it also is calling up additional organized units of its Air Reserve.

WASHINGTON, Aug. 7.—(AP)—Senate Banking Committee members today predicted completion by nightfall of a home front mobilization bill giving President Truman free hand to invoke wage-price-restricting controls.

The committee worked for three and a half hours behind closed doors. When the group recessed for lunch, Chairman Maybank (D-SC) and Senator Sparkman (D-Ala) reported considerable progress.

"We are going to stay at it, even tonight if necessary, until we have finished the bill," Maybank said.

The Senate tentatively plans to start debating the bill Wednesday. Last Friday the committee approved the general principle of letting Mr. Truman put wage-price controls in effect.

## State Jaycees To Be Addressed By George Smathers

ORLANDO, Aug. 7.—(AP)—Rep. George Smathers will be featured guest and principal speaker at the three-day summer conference of Florida Jaycees here next Saturday. Bill James, Orlando Junior Chamber of Commerce president, announced yesterday.

The young Democratic nominee for the U. S. Senate will arrive in Orlando Saturday on his first return visit to the city since he defeated Senator Claude Pepper to win the primary in May.

Smathers will speak at 8 P. M. at a banquet in the Coliseum, which will be open to Jaycees and their guests.

The actual state conference will get underway here Friday at 4:30 P. M. when a city "day back party" begins at the old R-29 hangar, Pine Castle Air Base. It will be followed by a luncheon dinner and dance. More than 600 Jaycees and their wives are expected to be in Orlando for the weekend.

Angelbilt and San Juan Hotels will be joint convention headquarters. Ed Kirkland is general chairman for the affair.

Orlando Jaycees Vives Club is planning a series of social events for wives of Jaycees at the convention in addition to the big banquet-dance. These include a luncheon and fashion show Saturday at the Angelbilt Skyroom, an afternoon of bridge and canasta at the San Juan and a breakfast Sunday morning.

Important issues confronting Florida Jaycees will be taken up Saturday afternoon and Sunday morning with State Rep. J. Stanley Odham, Florida Jaycee president, presiding.

## Recreation Program Of City Under Way

The new City Recreation program got under way this morning at 9:30 o'clock at the Municipal Pool where 30 boys and girls registered for a beginners swimming class directed by Mrs. Pat Angles. The instruction will begin tomorrow morning.

This instruction is sponsored by the Seminole Chapter, American Red Cross. An adult class was due for instruction at 10:30 o'clock.

Among the boys and girls who registered were Dottie Williams, Bobby Williams, Marchetta, Campbell, Angie Stewart, Ruth Carlton, David Watkins, Harrison Smith, Michael Smith, Dorothy McAlexander, Margaret Elizabeth Hardy, Billy Brown, James Sherry Lee, Diane Allison, Thomas Brown, Joe Wilks, Roger Rynn, Marcia Loeckel, Ann Davis, and Loucheell, Ann Davis.

Other swimming students were Redford Alchena, Joyce Benton, Annette Roper, Billy Vincent, Donnie Vincent, Joan Wilkie, Joan Wilkie and Marlin Salter.

## Trygve Lie Says UN Could Meet On 24 Hours Notice In Emergency

LAKE SUCCESS, Aug. 7.—(AP)—Trygve Lie said today the U. N. General Assembly could meet on 24 hours notice in case of an emergency such as a new aggression.

The Secretary General told a weekly news conference he would not hesitate to call the 59-nation Assembly at such time.

He said the present rules provide for a 14-day period of notice to the Assembly members, but that he believed he had the authority to set aside the rules in an emergency.

Some delegates have suggested the Assembly meet in special session if the Soviet Union ties up the Security Council by using its veto powers.

Soviet Deputy Foreign Minister Jakob A. Malik, president of the Council this month, threatened last week to use the veto if the Council refused to invite the Communist North Koreans to take part in debate on the Korean War. He cannot use the veto, however, to halt U. N. military decisions already taken.

Earlier, Lie said a bold and energetic act of statesmanship is needed to resume negotiations on world problems and to halt further deterioration toward a Third World War.

He gave this view in his 100-page annual report to the Assembly which meets in regular session at Flushing Meadows, New York City, Sept. 19.

Lie was asked about demands in some quarters that the U. N. declare the Soviet Union the aggressor in the Korean War.

"I really think still that the Soviet Union wants peace," Lie replied. "I will not go further into details on conditions. I still believe all leaders of the nations of the world want peace. As for aggression against the Korean Republic, my information is that the Korean Republic was attacked by North Korean divisions."

Lie was asked about the use of Soviet material by the Communist North. He replied that the U. N. does not know when it was delivered to the North Korean troops, and that is a point for the U. N. Commission on Korea to investigate.

Lie repeated statements that he would make at a news conference here yesterday.

## Plans Are Prepared For Deland Hospital

DELAND, Aug. 7.—(AP)—Working drawings and specifications for Deland's proposed 50-bed general hospital are now being drawn by G. Medwin Peck, local architect, and are scheduled for release to contractors for bids about the first of the year. J. E. Pollard, general manager of the Hart Fish Terminal Trust, announced yesterday.

Pollard emphasizes that the Fish Trust doesn't want to make any promises as to when the hospital will be completed. The new seven and possible building material shortages might slow the start of construction considerably.

The hospital, which the state plans to locate on the site of the old College Arms Hotel, will be of masonry construction and a large portion of the building will be air-conditioned. The latest modern equipment will be installed throughout, Pollard said.

The hospital site has already been cleared and graded to the approximate level of the proposed building.

The hospital has taken shape as a visible dream in the form of a small-scale model which was built by Exhibit Builders Inc. under Peck's supervision. It is laid out on an angle with the hospital entrance facing New York Avenue. The plan includes an administrative and staff lounge, operating and medical wing, maternity wing, and three wings for outpatients. Also there will be a parking lot on the west side of the hospital.

## Jewish Leader

NEW CITY, Aug. 7.—(Special)—Rabbi Sidney M. Levy, of the Ahavath Chesed Congregation of Jacksonville, has accepted the responsibility of serving the religious needs of the Jewish personnel at the Patricia, 415 Park Lane at Banana River, according to an announcement released today by Dr. Solomon B. Frenkel, of Pittsburgh, Pa., chairman of the Division of Religious Activities of the National Jewish Welfare Board.

HEAVIEST UNITED STATES ARMOR in action on Korean front. This M-26 tank (The General Pershing) blasts away at the Communist-infiltrated equipment in South Korea. These "Persings" mount a 90-mm. gun, compared to the 85-mm. of the Red tanks. (Telephoto News Photo from International)

## Marion Harmon Miami Gambling Tells Rotary Of Highway Hazards

MIAMI, Aug. 7.—(AP)—Four members of the U. S. and G. Gambling Association of Miami Beach, then attorney, and William H. Johnston, Florida state track owner, have been subpoenaed to appear before the state highway commission to testify about the hazards of highway safety.

The hearing is to start Wednesday at 10 A. M. in Washington, D. C., according to the Miami Daily News edition.

## Funeral Services Held Sunday For M. J. Meeks, 65

Funeral services for M. J. "Major" Meeks, 65, who died Friday night at a local hospital, following a sudden illness, were held Sunday morning at 10:00 o'clock at the First Baptist Church, officiating pastor, Rev. W. P. Brooks, Jr. of Jacksonville. Burial was in Oak Lawn Cemetery, Jacksonville.

Mr. Meeks was the agent here for the Fruit Growers Express by which he had been employed for the past 26 years, and was widely known in the community as a reliable and frugal citizen. His estimates of celery acreage and production were used yearly by the Fruit Growers Express.

## Plans Are Made To Expand Activities Of Local Realtors

Plans were made for expanding the Sanford Real Estate Board and officers for the coming year were nominated at a meeting of the group held in the office of Fred Bender, local realtor, Friday afternoon. It was voted to change the name of the organization to the Seminole County Board of Realtors and to invite all realtors and brokers in the county to affiliate.

Subject tentatively to a meeting of the enlarged and expanded association, the following were nominated as officers: president, Raymond M. Ball; vice president, Fred Bender; secretary and treasurer, (Continued on Page 8)

## Miss Betty Lou Partin Wins First Prize At B.&P.W. Beauty Contest

Miss Betty Lou Partin, 16 year old Seminole High School senior, won first prize in the "Miss Sanford 1950" beauty contest staged at the Ritz Theater Friday night by the Sanford Business and Professional Women's Club.

Before an enthusiastic audience that jammed the theater to capacity, Miss Partin was crowned beauty queen by Herman E. Morris, master of ceremonies, and was given a wrist watch donated by William Kader, jeweler.

The second prize, a three day vacation at the Princess Isabella Hotel, Daytona Beach, was won by Miss Frances Moore. Third prize, a bathing suit donated by Yowella, went to Miss Martha English. Peggy Howell won the fourth prize, luggage presented by the Sanford Jewelry and Luggage Co. Penny Hutchison got fifth prize, a cosmetic kit, donated by Roumilia and Anderson.

The judges were Helen Bennett, past president of the Orlando Business and Professional Women's Club; Lloyd Hoover Gallagher, Orlando landscape architect and Joe McMullen, head football coach at Stetson University. Mrs. Marvin Milam provided prize accommodations as the contestants appeared one by one on the stage. First in evening gown and then in bathing suit.

Participating in the contest were the Misses Margaret Ansel, Ella Mae, Novella Davis, Barbara Gill, Martha English,

## France Plans Rearmament Against Reds

### Proposal Would Give Her 15 New Divisions And Set Up Unified Command

PARIS, Aug. 7.—(AP)—France got ready today for a three-year rearmament program to help guard against Communist aggression and called on Britain and the United States to station "a substantial number of divisions" in continental Europe.

This she joined the vanguard of European countries who have announced step up spending for defense, with the aid of American arms and money.

The government announced today that France will spend the equivalent of \$7,710,000,000 on rearmament in 1950. It proposed an immediate increase in military spending from 2,000,000,000 francs (\$31,000,000,000) to 5,000,000,000 francs (\$74,200,000,000) next year. This would divert an estimated 8.2 per cent of the national income to defense costs, and the three-year program is expected to take at least 10 percent of the total income. But this stepped up program will cost that much less.

The statement said the program will give the French Army 15 new divisions. It also proposed a unified command of all units of the Western World now deployed against possible Communist attack, and suggested a pool of financial resources to make it effective.

France was the fourth to reply to President Truman's recent request to Atlantic Pact nations as to what they would do about rearmament in view of the present world situation.

Britain, Denmark and Norway have made similar announcements. The British are ready to spend \$2,520,000,000 on defense over the next three years with American help.

Denmark plans to spend 400,000,000 kroner (about \$7,000,000) in the next two years. Norway has an army of 35,125,000 men for defense. Her 1950 military budget equals some \$1,200,000,000.

Calling for unified defense, the French government points out that this considerable effort on the human, industrial and financial plane would be useless if it is not coordinated.

## National Guard Back From Camp In Good Condition

Fifty-nine tired men of Company I, 124th Infantry arrived home Sunday morning at 11:00 o'clock from Ft. Jackson, S. C., happy in the realization that in two weeks of intensive training that they had been transformed from "greenhorns" into soldiers, as their commander, Capt. David Gatchel expressed it.

He had high praise for his men, pointing out that Company I did not go unnoticed during the grueling three days of sham battle practice in which they participated in the battalion comprising approximately 130 men from Central Florida under the command of Lt. Col. Clyde Travelstead of Orlando.

"I did not lose the services of a single man due to illness," said Capt. Gatchel proudly. He added (Continued on Page 8)

# Four Mile Advance Is Made By Marines And Doughboys In Korea

## Naktong River Battle Imminent

AS U. S. AND SOUTH KOREAN troops continued to consolidate their positions behind the Naktong River, the remaining Communist forces made a delaying counter-attack against the 24th Infantry Division (14,000 men) and the 5th Marine Regiment (10,000 men) in the Naktong River valley. The U. S. 24th Division held about 20,000 American and South Korean troops engaged in a long battle along the Naktong River to face 100,000 Communist troops. (Special Press)

## Marion Harmon Miami Gambling Tells Rotary Of Highway Hazards

MIAMI, Aug. 7.—(AP)—Four members of the U. S. and G. Gambling Association of Miami Beach, then attorney, and William H. Johnston, Florida state track owner, have been subpoenaed to appear before the state highway commission to testify about the hazards of highway safety.

The hearing is to start Wednesday at 10 A. M. in Washington, D. C., according to the Miami Daily News edition.

## Funeral Services Held Sunday For M. J. Meeks, 65

Funeral services for M. J. "Major" Meeks, 65, who died Friday night at a local hospital, following a sudden illness, were held Sunday morning at 10:00 o'clock at the First Baptist Church, officiating pastor, Rev. W. P. Brooks, Jr. of Jacksonville. Burial was in Oak Lawn Cemetery, Jacksonville.

Mr. Meeks was the agent here for the Fruit Growers Express by which he had been employed for the past 26 years, and was widely known in the community as a reliable and frugal citizen. His estimates of celery acreage and production were used yearly by the Fruit Growers Express.

## Plans Are Made To Expand Activities Of Local Realtors

Plans were made for expanding the Sanford Real Estate Board and officers for the coming year were nominated at a meeting of the group held in the office of Fred Bender, local realtor, Friday afternoon. It was voted to change the name of the organization to the Seminole County Board of Realtors and to invite all realtors and brokers in the county to affiliate.

Subject tentatively to a meeting of the enlarged and expanded association, the following were nominated as officers: president, Raymond M. Ball; vice president, Fred Bender; secretary and treasurer, (Continued on Page 8)

## Plans Are Prepared For Deland Hospital

DELAND, Aug. 7.—(AP)—Working drawings and specifications for Deland's proposed 50-bed general hospital are now being drawn by G. Medwin Peck, local architect, and are scheduled for release to contractors for bids about the first of the year. J. E. Pollard, general manager of the Hart Fish Terminal Trust, announced yesterday.

Pollard emphasizes that the Fish Trust doesn't want to make any promises as to when the hospital will be completed. The new seven and possible building material shortages might slow the start of construction considerably.

The hospital, which the state plans to locate on the site of the old College Arms Hotel, will be of masonry construction and a large portion of the building will be air-conditioned. The latest modern equipment will be installed throughout, Pollard said.

The hospital site has already been cleared and graded to the approximate level of the proposed building.

The hospital has taken shape as a visible dream in the form of a small-scale model which was built by Exhibit Builders Inc. under Peck's supervision. It is laid out on an angle with the hospital entrance facing New York Avenue. The plan includes an administrative and staff lounge, operating and medical wing, maternity wing, and three wings for outpatients. Also there will be a parking lot on the west side of the hospital.

## Sanford Weather

High yesterday, 91.  
Low this morning, 70.  
Total rain, August, 1.09 inches.  
Normal August rainfall, 7.10 inches.  
Tides today, low at 8:16 A. M.  
high at 2:56 P. M.

## THE WEATHER

FLORIDA—Fair through Tuesday except for scattered thunder-showers south portion. Little temperature change. Winds extreme south portion, gentle to moderate north and northeast winds elsewhere through Tuesday.

## Marines Delayed As Tank Wreck Interupts Traffic On Area's Only Road

TOKYO, Tuesday, Aug. 8.—(AP)—American Marines and doughboys blasted forward an estimated four miles to the southernmost front in Korea Monday in their first offensive of the six-week-old war.

The three-pronged American attack which began Monday was continuing today in a slow-difficult battle against a withering barrage of North Korean artillery and mortar fire.

A bottleneck that blocked the Marines' Chon Pung tanks at the outset early Monday just west of Chongju apparently had been broken.

Official sources at the front told AP correspondent Tom Lambert last night that earlier difficulties in that area now had been smoothed out and the American attack was proceeding.

The block had occurred when Red artillery knocked out the lead tank. Blockading the only road, Lambert reported the Marines had suffered their first casualties of the war but gave no details.

He said both the 5th Marine Regiment and the 24th Infantry Division had been ordered to move forward. The 5th Marine Regiment and the 24th Infantry Division had moved four miles advance at unspecified places.

One battalion of the 5th regimental combat team was cut off, Lambert said, but Army and Marine elements were being sent to relieve it. They were supplied with ammunition and food by air drops.

No late reports were available on the third element in the American offensive, the 24th Infantry Division.

It was the first American offensive after five bitter weeks of defensive retreat.

About 2,000 Americans and some South Korean commando units were thrown into the attack. They clashed head-on with the (Continued on Page 8)

## Harriman Flies To Korean War Front For Observations

TOKYO, Aug. 7.—(AP)—Dean Acheson's special assistant, George F. Harriman, flew to the Korean front today on an American transport plane to observe the fighting.

On the return to Japan, Mr. Acheson said in a brief statement that Harriman's mission was to observe the fighting and report on the situation.

Harriman visited a battalion command post close to the front lines, while American soldiers fought an intense battle.

"Slightly ahead of me," he said, "I saw a North Korean soldier who had been captured by our troops. He was a very brave and intelligent man."

Harriman visited a battalion command post close to the front lines, while American soldiers fought an intense battle.

"Slightly ahead of me," he said, "I saw a North Korean soldier who had been captured by our troops. He was a very brave and intelligent man."

Harriman also visited U. S. Eighth Army Front Headquarters and conferred with the commander, Lt. Gen. Walton H. Walker.

The Harriman party returned to Tokyo's Haneda Airport at 8:35 P. M. in General MacArthur's plane, the Bataan.

The plane took Harriman to Korea early today. News of the flight to the war front was widely held for security reasons until after the presidential race had (Continued on Page 8)

TODAY'S BIBLE VERSE

Need multiplex, good or bad; no it's better to see good need; What's over a man's worth, that shall he also reap.—Gal. 6:7

Dr. Nance says that the only thing we can rely on in this present crisis is marksmanship. To Dr. Nance we reply, in the words of Winston Churchill, surely no fellow-traveler, "The flame of Christ, an ethics is still our highest guide."

It troubles with so many people these days is that they don't have any sense of humor. But they better get one fast, because we doubt if anybody who doesn't have a sense of humor is going to be able to make it through the next decade.

By the way, do you remember that 10 years ago we hadn't yet got into the war with Germany and Japan. Ten years from now we may have polished off Russia and have another problem on our hands. How to get the poor starving Russians back on their feet.

Paul Robeson, noted Negro Communist singer, is indignant because his passport has been cancelled, writes Secretary of State Acheson demanding to know why. Robeson should be happy that he is still free to write the State Department. In Russia they put people like him in concentration camps, or stand them before firing squads.

Prison sentences are said to be favored in Congress for hoarders and black marketeers. That is tough. It seems strange that a man should be jailed for buying more sugar than he wants. But it seems strange that he should want more than he can use. Sometimes a person runs amok and shoots people. He has to be restrained. Some go mad in another way and buy more than their share. They too have to be restrained.

It sounded strangely like an ultimatum from Russia when Soviet Delegate Jakob Malik told the Security Council last Friday that the real issue before the United Nations is peace or war, either the United States must get out of Korea, either Communist China must be officially recognized or there will be war. In typically gangster fashion, Malik has said, "Get out, or else." Or else what? The sad part about it is that we must let Russia beat us to the draw. There must be a second Pearl Harbor. And this one may not be so easy to recover from.

"There but for the grace of God go I," said the Bishop of London, and he could have been thinking about Alcoholics Anonymous if what Dr. John C. Almack, professor of education at Stanford University, says is true. Dr. Almack insists that America will soon become a nation of "Alcoholics Anonymous" since 50 percent of all high school and college students are liquor drinkers and an increasing number of 13 and 14-year olds in junior high schools are developing the habit. But if they are to continue drinking, let us hope that eventually they become "Alcoholics Anonymous", and not incurable drunkards.

Congratulations to Sheriff Mero on the outcome of his hearing last week before Governor Warren. Mero has done a good job in checking up gambling in Seminole County. He may not have stamped it out 100 percent, but he has driven it to cover. You no longer find punchboards and slot machines all over town, you don't have saloons coming into your office to sell you "Cuba" tickets, you don't find that subject the sole topic of conversation on First Street. Conditions have improved in Seminole County under Mero. Meanwhile, in Orlando, Volusia county, Dade, Hillsborough and Duval, organized gambling has been allowed to flourish to attract the tourists. It is a competition for the tourists, and it is a competition for the tourists.

First Principles of Democracy

AP columnist Dewitt MacKenzie has written in this paper that the recent conduct of the King of Belgium prior to his agreement to abdicate caused him to wonder "whether the King of the Belgians had forgotten that the day is passed when kings rule by divine right." He proceeds to state that a constitutional monarch rules by will of the people and therefore King Leopold was quite right to submit to the popular will and relinquish his throne.

Mr. MacKenzie has missed the single most important act of the whole Belgian crisis. This is that the majority of Belgian voters recorded themselves by referendum last spring as favorable to the return of the King. Leopold made no claim to rule by divine right. On the contrary, he claimed his throne because it was offered to him by the majority of the electorate of his country. His right to rule is based on a basic democratic premise which Mr. MacKenzie claims should force him to abdicate.

This fact puts the whole Belgian crisis in an entirely new light, and it derives from this a considerably greater significance than were it simply the old story of a vigorous and modern people throwing off the irritating yoke of an outworn monarchy. What has happened in Belgium is that the first principle of democracy, which Jefferson called the "absolute acquiescence in the will of the majority," has been compromised to political expediency. Because a large and vociferous minority objected strenuously and threatened revolution, the will of the majority has been thwarted.

Mr. MacKenzie, had he seen the Belgian crisis in its true light, would probably have highly disapproved of this thwarting of the popular will. We, on the contrary, believe that the Belgian crisis and its solution demonstrate a great advance in Western democratic thought. The Jeffersonian principle, which Mr. MacKenzie venerates and which would have led inevitably to an attempt to keep Leopold on his throne and probably to a revolt by the anti-Leopold Wallons and the weakening of Western Europe's defense against the Soviet, is one of the weakest points in democratic theory.

The doctrine of inflexible majority rule originated with the ancient principle that might makes right. Somehow men conceived that there was a certain virtue in numbers, probably because 51 strong men with clubs could conquer 49 strong men with clubs. The doctrine developed that it was divinely appointed that the most should rule. Many elements of our own government, like the Supreme Court and the Senate, stand against this principle, but again and again those who do not fully understand the nature of freedom have attacked these institutions as not corresponding to this supposedly cardinal principle of democratic government.

In compromising their demands for Leopold's return the leaders of the pro-Leopold Belgian majority have demonstrated great restraint and a considerably greater understanding of how free governments work than it is given to most majorities to possess. They have recognized that it is foolish to insist on the "absolute acquiescence in the will of the majority" when the minority will take up arms rather than acquiesce. They have recognized that the fundamental tenet of free government is not any doctrinaire insistence on some particular means of determining public policy, but rather a willingness to compromise, to conciliate, to reach a solution which will not leave any large dissatisfied segment among the people.

This way lies a peaceful and happy democratic state. The other method brings only discord and civil war. Red China has made little effort to conceal her ambitions. As one of her aims she has announced that Tibet is to be taken back into the Chinese fold, from which it escaped at the time of the revolution of 1911. However, that is rather mild as compared with some other projects. One hot spot, which will try the whole China-Russia program in Asia, is British controlled Malaya. This is one of the world's richest countries, rubber and tin being its chief assets. One third of all the globe's natural rubber (an essential in modern war) comes from there, and one half of the tin.

Moreover, Malaya not only is a great prize economically but militarily. The British point out that if the Reds could gain control of Malaya they would neutralize Singapore, Britain's great naval and air base at the tip of the peninsula.

A salient fact in this situation is that of some 6,000,000 people in Malaya, 2,615,000 are Chinese. A large proportion of them were born in Malaya, but naturally the danger of their being oriented to outside loyalties has increased with the communization of neighboring China.

The China-Russia partnership is taking full advantage of this situation and is working overtime to pull Malaya into the Red fold. This is being done partly by the usual fifth-column methods, but the British say Chinese terrorists are playing a big role, many of them coming from outside Malaya. The threat of Communism in that country, it is added, is one of coercion rather than conviction. There are numerous other danger spots—mainly Indo-China, where major warfare is developing rapidly—a fact which increases the gravity of the most regarding Peiping's intentions.

Should Korea come under control of the Russo-Chinese brotherhood, that big peninsula would with Formosa, form powerful pincers which could be used against the Japanese islands. Red China has made little effort to conceal her ambitions. As one of her aims she has announced that Tibet is to be taken back into the Chinese fold, from which it escaped at the time of the revolution of 1911. However, that is rather mild as compared with some other projects. One hot spot, which will try the whole China-Russia program in Asia, is British controlled Malaya. Moreover, Malaya not only is a great prize economically but militarily. The British point out that if the Reds could gain control of Malaya they would neutralize Singapore, Britain's great naval and air base at the tip of the peninsula.

THE WORLD TODAY

By DEWITT MACKENZIE, AP Foreign Affairs Analyst

Should Washington decide to revise the policy of no arms aid to the Chinese Nationalists on Formosa, that would fit a widespread Western belief that Red China must be restrained from aggressive adventures.

We may hear more relative to that point when W. Averell Harriman, President Truman's new special assistant on foreign affairs, returns from consultation with General MacArthur in Tokyo. Harriman has instructions to discuss the whole far eastern political situation with the General. Communist China, despite her huge size and population of half a billion has given plenty of evidence that she has ambitions for extending her dominion and influence. Moreover, as a hand and glove partner of Russia, she is the fulcrum which Moscow may well attempt to use to pry loose other Asiatic countries, one at a time.

Approve of such possibilities, John Osborne, senior correspondent for Life Magazine in the Far East, makes pertinent comment. After visiting Manila, Hong Kong, Formosa and Tokyo, he reports that the most interesting point of general agreement is this: "The Chinese Communists are committed to the conquest, by any necessary means, of all Asia. They are so dedicated, of course, in behalf of and by the will of the Soviet Union. But they also are committed to their own interest. For quite apart from Moscow's direction and material aid, Chinese Communism has a right and a momentum of its own."

So far as concerns Formosa—last stand of Generalissimo Chiang Kai-Shek's Nationalist government—both Moscow and Peiping want it. Peiping claims it as Chinese territory, and Russia desires control because of the big island's great value as a naval and military base.

Should Korea come under control of the Russo-Chinese brotherhood, that big peninsula would with Formosa, form powerful pincers which could be used against the Japanese islands.

Red China has made little effort to conceal her ambitions. As one of her aims she has announced that Tibet is to be taken back into the Chinese fold, from which it escaped at the time of the revolution of 1911. However, that is rather mild as compared with some other projects. One hot spot, which will try the whole China-Russia program in Asia, is British controlled Malaya. Sanford Forum

Editor Sanford Herald Sanford, Fla.

Sanford has many outstanding personalities, but perhaps the most prominent of them all are two young men to whom we take off our hats.

Our youthful looking judge who has used such wisdom on the bench that any older judge would be considered very satisfactory. Also his timely advice to juveniles as well as older people. I'm sure any judge or public servant who has done as much can't have his past record without regrets.

I must apologize for my own lack of knowledge of Judge Stenstrom's qualities when he was elected to that honored position, for I like others, considered him too young. But his service has proved otherwise.

Then we are proud of Rep. J. Bradley Ouhm. Very few young men of our knowing would have stood for the right in the face of ramifications such as he has been subjected to for exposing vice. His quality also has proved him to be fearless. Knowing that most kings are glad to see a young man that has the will and the intestinal fortitude to come back with a second punch and more, after being embarrassed by those who are dabbling in such acts.

More power to our two young men of Sanford, this coming from a line of family ministers. Rev. B. Miller, Paul D. Miller, and Robert (Bob) Miller, Miller Farms.

Asthma

W. V. Pitting Touchton Drug Co.

Asthma generally begins in childhood or early adulthood. One third of the known cases are children below ten years of age. It is a comparatively rare disease in the aged, statistics show that among persons over sixty only one per cent have asthma.

Of the two types of asthma, the allergy type is the easiest to diagnose and control. Usually if the patient is able to avoid contact with those things to which he is allergic, his condition is greatly improved. Non-allergic asthma presents a different problem for the physician.

All health problems require the expert services of a doctor assisted by a competent pharmacist. This is the basis of a wide of medical advancement, cooperation in this matter each week. Copyright

# Hollywood Stars Pour Into Del Mar In Summer For Races And Swimming

By BOB MYERS  
(For BOB THOMAS)

DEL MAR, Calif., Aug. 7.—(AP)—At this time each summer this little hamlet by the sea wakes up and finds it practically a suburb of Hollywood, peopled by many famous, odd and unusual characters from the movie capital 100 miles to the north.

The seasonal influx of celebrities comes here to vacation and bet on the horses at the Del Mar Race Track.

They vacation by morning, strolling about the beaches and private swimming pools, basking in the sun, and you haven't seen anything yet until you see Al Johnson or Chico Marx in shorts.

Or, for that matter, Betty Grable, if you care for a contrast. Having the freckled, athletic cast each afternoon in trying to pick a winner, the pace is uncommonly leisurely and slow; matching, as it does, the quaint Del Mar telephone system. It takes longer to get room service at Del Mar than it does to pick a winner at the track, and there have been instances where visitors left without consummating a deal in either department. Conscience Joe Frisco, they say was one.

Del Mar is used to the famous folk, however, and can thank or curse a man named Bing Crosby for the situation. He introduced Del Mar to the stars, and vice versa, for better or worse.

The first meeting was nearly 15 years ago, when Del Bing started his golf tournaments down here. The nation's leading golfers competed, and after a fashion, so did his cronies from Hollywood.

The nearby Rancho Santa Fe course, in fact, still bears the scars where Bob, Betty and his Ozark golfing methods. Bob and his jokes on the unsuspecting Hope regularly practiced his golf galleries, and the native swears there are some trees and thickets bordering one fairway that have never regrown where Johnny Weissmuller blazed a masher trail.

Mrs. J. P. Macaure, 406 Race Street, New Orleans, La., can't imagine a person who is sick and run-down set taking HADACOL. She says she continually sings the praises of HADACOL to all her friends. Mrs. Macaure was suffering from deficiencies of Vitamins B1, B2, Nicotin, and Iron, which HADACOL contains.

Here is Mrs. Macaure's own statement: "I have taken at least 5 bottles of HADACOL. Before I took HADACOL, I was very nervous and my family was affected, too, because I was so irritable. I tried many things to relieve my system of this nervous condition but they gave me hardly any relief at all. Then my doctor suggested I take HADACOL and I started taking it immediately. After the second bottle I felt like I had had all the troubles of the world off my shoulders. My nerves are now as steady as steel. My family thinks HADACOL is wonderful because my disposition is 100% better and I am not the least bit irritable. That's because I always have a bottle of HADACOL on the kitchen shelf. It's the most superior product on the market."

Give HADACOL a Chance. To help you, if your system lacks these essential elements, you, too, will be amazed at the wonderful results HADACOL can bring you, as it has to thousands and thousands of other fine folks who suffered a deficiency of Vitamins B1, B2, Nicotin, and Iron, which HADACOL contains. HADACOL helps build up the hemoglobin content of your blood (when iron is needed) to carry the essential Vitamins and Minerals to every organ and every part of your body—the heart, liver, kidneys and lungs, even to the eyes, hair and nails.

HADACOL is that wonderful new preparation—premiere blessed relief for your indigestion, stomach disturbances (gas, heartburn, sour "risings" after meals), for normal growth in children, as well as that general run-down condition, and aches and pains of neuritis, if your system lacks Vitamins B1, B2, Iron, and Nicotin.

HADACOL is being recommended by many doctors. HADACOL is so amazingly successful because if your system lacks Vitamins B1, B2, Iron and Nicotin it acts directly to relieve this deficiency—the real cause of your trouble. That's the kind of product you want—the kind you should start taking immediately.

Only One Genuine HADACOL. Don't go through life suffering such fiendish torture from your stomach or aches and pains of neuritis when relief is so close at hand as the nearest drugstore for sufferers from these deficiencies. Buy HADACOL only by Trial size bottles only \$1.25. Large bottles \$3.95. Refuse all imitations. HADACOL is the genuine HADACOL.

one afternoon searching for a lost ball.

Then about 11 years ago the race track was built and Crosby became president. Pat O'Brien was his vice president, and tourists entering the gates were often dumbfounded when they were greeted personally by both Bing and O'Brien.

Neither Crosby nor O'Brien ever detained them too long from getting to the pari-mutuel windows, of course, and the same thoughtful policy exists today.

Crosby is no longer connected here but he left many fond memories, and a happy little son entitled, "Where the Turf Meets the Surf Down at Old Del Mar."

Bing's recording of this is still played over the loudspeaker on state occasions, and on occasions of late he made a live rendition which will be tendered, plus 100 verses of unexpurgated quality, by the track's young publicity chief, Eddie Reed.

Mr. Reed makes up in enthusiasm what he lacks in Crosby styling. And for that matter, the aforementioned Johnson and Marx make up at the letting window what they may lack in bathing trunks.

Del Mar and the race track appreciate such matters, and also Miss Grable.

## National Guard

(Continued From Page One) that when over-fatigued men fell out, the rest picked them up and carried them. Various compliments by "high brass" were received by the Company.

The Company, led by Captain Gatchel and Lieut. John Sauls, embarked on the troop train pullmans for Ft. Jackson on July 22, arriving on the following morning at 9:30 o'clock at Ft. Jackson.

They found the camp all prepared, tents set up and food made ready for them by an advanced detachment under the command of Sgt. Le Cecil Jones.

In the entire tent area of the camp was the 48th Division, 7,500 men comprising all of the Georgia National Guard and a part of the Florida National Guard, or about 1,800 men.

Getting set up in camp and practice on the firing ranges occupied the attention of the men during the first week, said Capt. Gatchel. Instruction was given in the use of many weapons including M1 rifles, M2 machine guns, M1 carbines, M1 pistols, M1 automatic rifles, 45 calibre pistols and M-1 rifles.

During the latter part of the week preparation was made for bivouac, and pulling out of the bivouac, and setting up pup tents in the sham battle area. Squads were organized and platoons and companies were instructed for the new set up.

On Monday morning, July 31, Company I in full field pack, joined the battalion for a four mile march. At this point they were taken in trucks 30 miles to the bivouac area, 50 miles from the main post and a wooded area. A simulated attack followed the next day, with portions of the unit providing realistic but futile defense in the form of blown up bridges, etc. Unpleasant in the battle game, "tagged casualties for the medic."

On the third day of the activities the units dug in to defend against "counter attack." At nightfall they were out on new tactics and maneuvers including a six mile march in full pack. Some ate, and some "tried to eat" at 3:00 A. M., then caught two hours of sleep before the "dawn attack."

This came at 5:00 A. M. when they "hit the enemy" entrenched on a hill, scoring a big victory.

This done, they marched three miles back to the bivouac camp, then entrucked for Ft. Jackson. Thursday was a period of welcome rest, and gave time to clean up weapons and equipment. The entire division paraded on Friday and was reviewed by the governors of Florida, Georgia and South Carolina and top brass including Major General Russell, 48th Infantry Division commander; Brigadier General J. C. Hutchison, assistant commander of the division; Major General Mark Lance, adjutant general of the State of Florida and other military leaders.

France Rearms (Continued From Page One) there were not stationed on the continent of Europe sufficient land and aerial forces to assure the maintenance of peace.

"These forces, to be constituted rapidly, cannot result from a single effort by the continental powers. This sentiment is particularly lively in the minds of the French, who have unhappy memories of the unhappy events of 1940 (when Germany invaded France), and who today note the consequences of initial insufficient of

## Plans Are Made

(Continued From Page One) sure, John Brown. President Bill has called another meeting for Friday, Aug. 11, at 2:00 o'clock in the offices of Mr. Bender to which all brokers and address members of the association, have been asked to attend for the purpose of electing officers, and to propose information concerning a proposed program of broker and salesmen orientation, public information, legislative action, professional ethics, and other important services.

President Raymond Bell summarized the program of the Seminole County Board of Realtors, as follows:

"The expert services of an experienced Realtor have been increasingly necessary since the beginning of the second world war when regulations governing the sale, rental and taxation of real estate have made it a difficult and costly business. The modern broker must be professionally able to serve his clients with the very latest information governing property rights, income tax factors, zoning regulations, development costs, building construction codes and many other factors.

"He has become a professional man whose services are as important as those of the physician, lawyer and banker. Because of these, the Seminole County Board of Realtors has been required to develop a practical program for the benefit of members, through modern education, and to permit extension of a better service to buyers and sellers of real estate. It is our purpose to carry this information to the consuming public and to train salesmen in the highest professional standards of the modern Realtor.

Pointing out that state and federal legislation affecting the realty ownership has introduced many new problems in financing, home buying and renting, Mr. Bell said: "We plan to coordinate our work program with that of the Florida Association of Realtors and the National Association of Realtors."

Guests of the Seminole County Realtors who attended the meeting were President S. Merle Healey of the Florida Association of Realtors, and Robert J. Lancaft of Orlando. Mr. Lancaft is the former director of the speakers' bureau of the Realtors Washington Committee, National Association of Real Estate Boards, Washington, D. C., and the director of the

## Harriman Flies

(Continued From Page One) returned to Tokyo. Harriman went to the American embassy. He said he would leave Tokyo tomorrow but did not disclose his next destination.

In Pusan, informed sources disclosed reports that Harriman would visit Taipei, seat of the Chinese Nationalist Government.

In addition to Walker, Harriman said he talked in Korea with President Sherman Hays and John M. Moore, U. S. ambassador to Korea.

## SO LITTLE TIME

WABWICK, Eng., Aug. 7.—(AP)—Anthony Eden declared today that the danger to peace is very great indeed.

The former foreign secretary, who once resigned his cabinet post as a protest against appeasement, asserted in a speech here that "time is not on our side" in the developing tension between Russia and the West.

## AID TO VIET NAM

SINGAPORE, Aug. 7.—(AP)—John Melby, State Department official heading the American Military Survey Mission to Southeast Asia, said today he has called for more aid to Washington for military aid to Indochina.

Melby and his 18-man group arrived today from Saigon. They will stay a week, then go to Rangoon.

Melby declined to say how much American military aid he had recommended for the Vietnamese and French to help them in their fight with Communist Ho Chi Minh's rebel forces.

## AS THE CROW FLIES

DANBURY, Conn., Aug. 7.—(AP)—Richard H. Crowe, New York banker, said today he has called for a federal correctional institution to be set up in a jail world.

He had served 13 months of a three-year sentence, which made him eligible for parole.

Crowe was formerly assistant manager of the Broadway office of the National City Bank of New York. He disappeared in March 1949, with \$885,560 in cash and securities.

American Institute of Real Estate, Washington, has been appointed by the Florida Realtors to assist local boards in their program.

## Korean War

(Continued From Page One) crack North Korean sixth division. It is backed by the Red first division. The two total around 15,000 men.

The offensive had been under way only a short time when B-29s came in less than six days out of the United States, plastered Pyongyang, North Korean capital, and the industrial city of Wonsan with 540 tons of bombs. This was the biggest single blow dealt thus far by the B-29s.

In the latest official field report Monday on the new allied offensive a U. S. Eighth Army communiqué released at 8:35 P. M. (5:35 A. M. EST) said:

"The attack launched this morning by the 25th Division and the Marine brigade advanced about 2,000 yards today on a broad front. Strong resistance was met with U. S. forces inflicting heavy casualties on the enemy."

The Reds, getting ready for a thrust of their own toward Pusan, 25 miles east of the kickoff place for the United Nations drive, hit the American right flank hard.

On the northern front the Communists began a new offensive south of Yecion, the Eighth Army command post. Allied South Koreans were engaged in severe fighting there.

The log American push plowed into two North Korean divisions in the rugged coastal country of the southern sector. The attack was made from the village of Kusan, 35 air miles west of Pusan, the main U. S. seaport on the southeastern tip of the peninsula.

The blow was punched out by the Army's 25th and fifth regimental combat teams, the Fifth Marine reinforced regiment of the First Marine Division and some South Korean commando units.

The United Nations offensive force had more than 6,000 men in it.

The Americans hit the Reds a triple blow to start the offensive. First a curtain of steel was laid down by artillery for 20 minutes. Next fighter planes strafed and rocketed the North Korean Communist lines.

Then the infantrymen leaped out of their foxholes and took out the enemy.

Carrier-based planes supported land planes in the air attack on the Reds, who were caught just before trying to jump off on a counter-attack of their own.

The offensive began at 6:30 A. M. (3:30 P. M. EST Sunday). The attacking U. N. troops lunged from the east and southwest toward the main road between

## Senate Bill

(Continued From Page One) controls and rationing into effect if and when he saw fit. That is the sort of plan the President has said he would accept.

Today, Sparkman said, the committee buckled down to the job of actually writing a bill.

The sections tentatively approved at the Committee's first session today provide, Sparkman said, for:

1. Encouragement of voluntary action by business, labor, agriculture and consumers designed to keep the wage, price and supply situation in hand without mandatory controls.

2. Selective use of wage and price controls in the case of specific commodities—for example meat or lumber. The Committee made no final decision as to whether price controls in those cases would be only at pre-retail levels, or would include the retail level.

3. General wage, price and rationing controls. The section dealing with that authority says:

"There was still an outside chance that wage and price controls and rationing authority only be dropped temporarily and handled in a separate bill.

The House fight over controls already has slowed up other major legislation.

A compromise bill broadening the Social Security program and hiking Social Security payroll taxes now is slated for a House vote Thursday. It had been scheduled for last week.

Filing up in the House Appropriations Committee is a bill carrying an extra \$11,500,000,000 in defense funds, \$4,000,000,000 for foreign military aid and miscellaneous items. The Committee

asked whether the return of the Security Council would be for the better, Lie said he liked to think that it would be but that it is premature to say anything about results to be gained.

Chingam and Red-head Chinju, 55 miles west of Pusan Chinju, now a rebel city, has been the springboard for frequent Red thrusts at Pusan.

General MacArthur's headquarters in Tokyo said the attack was progressing on schedule. It was called an offensive—not a counter-attack. The U. N. forces Monday were about 15 miles east of Chinju.

## Miami S&G

(Continued From Page One) confirmation of the subpoena from Senator Kefauver, who said the hearing will be public.

Those called to Washington are S. and G. partners Sam Cohen, Jules Leavitt, Harold Salvey and Eddie Rosenbaum, and their attorney Ben Cohen, in addition to Johnston.

Johnston is owner of the Miami Beach Kennel Club and three other Florida dog tracks. It was testified in a Kefauver Committee hearing in Miami in Mid-July that Johnston, Lou Wolfson of Jacksonville, and C. V. Griffin of Howland Hills each contributed \$154,000 to the 1948 political campaign of Governor Fuller Warren.

The action today came close behind the seizure of S. and G. books, keeping records by clips for use in a grand jury probe of an alleged conspiracy to violate Florida's Gambling laws.

U. N. REPORT TOKYO, Aug. 7.—(AP)—The United Nations Commission on Korea yesterday denounced North Korean aggression and promised punishment.

"Aggression is an international crime subject to international repressive action and punishment," also is working up a bill to cancel some of the non-defense appropriations already voted in a general appropriations bill. The measure passed the Senate last week.

Members have all but abandoned hope for early adjournment. They are talking now about a long recess starting late this month and running well beyond Labor Day.

The Senate was not in session today but hopes to start debate soon on the controls bill. Also in the works this week is Senate action on four Presidential appointees to high federal office. There is strong opposition to all four: Martin Hutchinson of Virginia to be a Federal Trade Commissioner, Neil Andrews to be a federal judge in Georgia, Carroll Switzer to be a federal judge in Iowa and Frank E. Hook of Michigan to be a member of the Motor Carrier Claims Commission.

Lie opened his conference with a statement on assistance offered in response to his plea of July 14 to 52 U. S. members. He said he had received replies from 41 countries and that the offer of forces is increasing. He also called attention to offers of economic assistance and said they are important.

Lie was asked if a letter from Malik asking for faster translation into Russian of documents for the coming General Assembly meant the Russians would attend the Assembly. He said it might be an indication but added that French and Spanish translations also are being requested by delegates using those languages and observed it seemed everyone wanted faster documents.

## C. L. PERSONS

## Truman Asks For Tighter Anti-Spy Law

### Proposal Held Try At Stopping GOP Sponsored Mundt-Nixon Measure

WASHINGTON, Aug. 8.—(AP)—The House today postponed until at least tomorrow further debate on an economic controls bill while its Banking Committee worked on a compromise. Speaker Mayburn told newsmen he hoped that the House would be in a position to resume consideration of the bill tomorrow. It already has spent almost a week on controls legislation without making any substantial progress.

WASHINGTON, Aug. 8.—(AP)—President Truman asked Congress today for a tighter espionage law and a new law requiring aliens to report where they are and what they are doing.

Mr. Truman said additional anti-sabotage and security legislation is needed because Communist imperialism seeks to "weaken and overthrow free nations by working within their borders."

So he recommended that Congress:

1. Remedy "defects" in present laws governing espionage, the registration of foreign agents and the security of national defense installations.
2. Give the Attorney General power to require aliens to report their whereabouts and activities at regular intervals.

In a 3500 word message to the lawmakers, Mr. Truman asked them to be wary of any action limiting personal liberty. But he said the Bill of Rights must be intended "to prevent the government from maintaining our nation's integrity against subversion or attack."

## Glen Taylor Seeks Renomination For Idaho Senate Seat

BOISE, Idaho, Aug. 8.—(AP)—A terrific campaign featuring the renomination attempt of Senator Glen H. Taylor (D-Idaho) and record 69 candidates is expected to draw a heavy Idaho primary vote today.

Taylor, who returned to the Democratic fold after running for vice president on the Progressive Party ticket with Henry A. Wallace in 1948, has faced bitter attacks from Republicans and some members of his own party.

He has been accused of keeping company with Communist front organizations—but has denied the charges.

The ex-cowboy singer's chief opposition is expected from U.S. Senator D. Worth Clark, whom Taylor defeated in 1944 in one of the most closely-contested elections in Idaho history. Taylor won that time by 2100 votes.

The third aspirant for the Democratic nomination for the six-year Senate term is Rep. Compton I. White of Clark county.

White of Clark county is expected to be the Republican nomination for the six-year Senate seat are Governor C. A. Robins; Rep. John E. Sanborn of Hagerman and Herman Walker of Yayette.

OMAHA, Neb., Aug. 8.—(AP)—A light turnout of voters was expected in Nebraska's primary election today despite help from the weather.

Not even promised fair skies and comfortable temperatures appeared likely to make up for the absence of vote-provoking issues.

Election day found three of the state's four congressmen, all bidding renomination, away in Washington. Only Republican Rep. A. L. Miller, opposed by Hammond (Continued on Page Three)

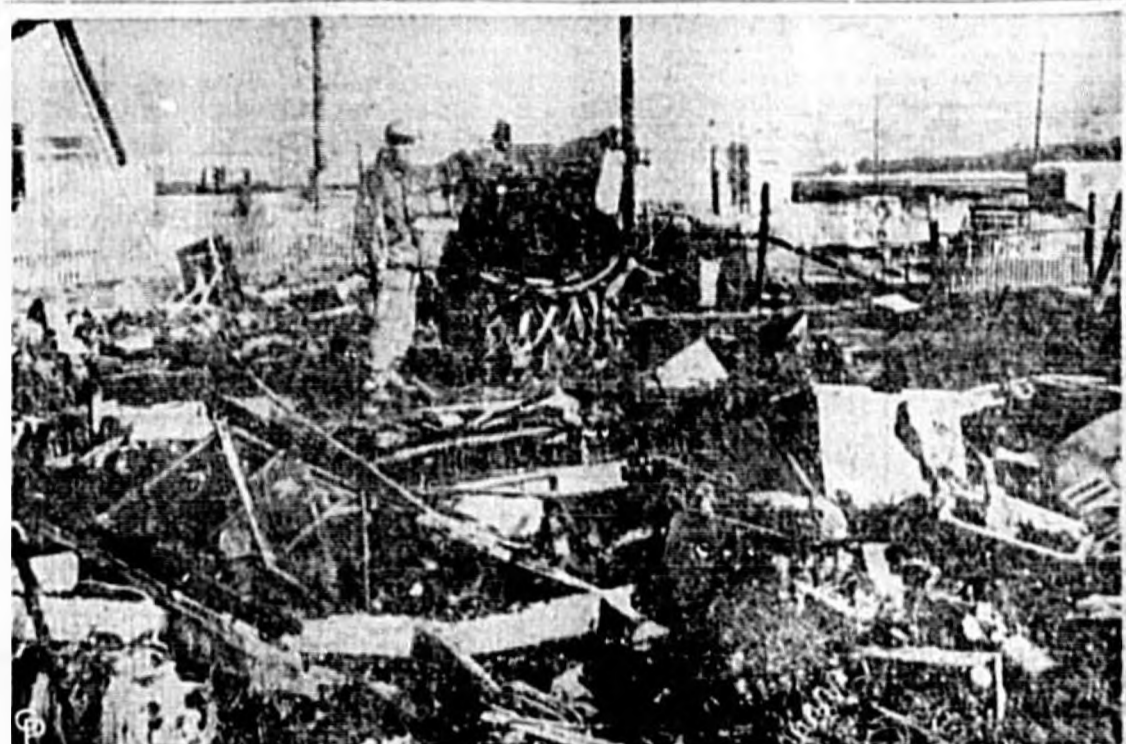

**MUNICIPAL GRANT**  
ATLANTIC CITY, N. J., Aug. 8.—(AP)—State investigators completed a two-year study of Atlantic City municipal finances yesterday and said the results called for action by the attorney general.

Their report, submitted in state superior court, said 18 illegal acts on the part of city officials had been noted. It listed five city officials as having benefited from municipal transactions and recommended that the attorney general of New Jersey do something about it.

**LEGION CONVENTION**  
TALLAHASSEE, Aug. 8.—(AP)—The State Citizens League, headed by 660,000 to help bring the 1951 National American Legion Convention to Florida.

The league was set up against the emergency fund, but has released \$1,500,000 in advertising in newspapers, trade papers and possibly some radio and television during the coming season.

## 17 Die In B-29 Crash-Explosion

Standing beside one of the fire-scoured motors of the bomb-laden B-29 Superfortress that crashed and exploded in Fairfield-Suisun, Calif. Air Base, Corp. Burchhardt Hufnagle surveys the wreckage littered field. At least 17 persons died and 60 were hospitalized after the big aircraft, carrying 8000 gallons of gasoline and a bomb cargo, crashed up a mile from the end of the runway. The explosion set fire to sections of a trailer camp and shattered others. Some can be seen in the background here. Many of the injured were residents of the camp. Among the dead was 17-year-old Robert F. Travis, commander of the Northern California Air Force Base (International Staffphoto)

## Fire Protection Is Discussed By Seminole Board

### Need For Improving Old Lake Mary Road Told By Residents

Provision for fire protection in Seminole County, and improvement of the old road paralleling the ACL tracks from the County Club road to Lake Mary, were the main topics of discussion at the meeting of the County Commission this morning.

Randall Chase, chairman of the County Fire Protection Committee and E. L. Mulpus, district forester of the Florida Board of Forestry, pointed out the need for fighting destructive forest fires and fires in homes in rural areas where fire fighting facilities are not available.

County Commission Chairman J. F. McCreland and other commissioners agreed to the need of fire protection, and stated that if the majority of land owners of forest and acreage throughout the county would sign a petition asking such protection, the matter could be placed on the bracket for approval by citizens in the November general election.

Mr. Mulpus pointed out that this fire protection could be given by the Forestry Department for about \$4,000 a year. He said that such action on fire protection is asked by a number of local organizations including the Sanford Woman's Club, the Sally Harrison chapter of the I. O. O. F., the County Federation of Women's Clubs, the Seminole Sportsmen Association and the Audubon Society.

A delegation of Lake Mary citizens headed by Raymond H. Ball, local realtor, and C. F. Beasington, president of the Lake Mary Chamber of Commerce, urged that action be taken to improve and have the original route to Lake Mary from Sanford, a three mile stretch running parallel to the ACL tracks, and terminating at the County Club road.

Mr. Ball, the spokesman of the group, pointed out that the railroad is now building its new short cut to Sand's siding from a point near the cemetery, necessitating changes in the route of the old road, and suggested that now might be a good time to improve it. (Continued on Page Three)

**STILL AT LARGE**  
TALLAHASSEE, Aug. 8.—(AP)—The United States Marshal today issued warrants for the arrest of the criminal inmate ward at the State Hospital to carry cures.

Eight inmates of the ward escaped early Sunday morning after they broke through a thin wall and unlocked the main entrance door with a home-made key. The guard on duty at the time immediately resigned. Five of the eight still are at large.

**CITRUS ADVERTISING**  
LAKELAND, Aug. 8.—(AP)—The Advertising Committee of the Florida Citrus Commission today voted unanimously to turn the commission over to J. Walter Thompson Advertising Agency.

This action would cost Ben and Bowles, New York agency which has held the account for seven years.

The account is expected to involve \$1,500,000 in advertising in newspapers, trade papers and possibly some radio and television during the coming season.

## MacArthur Urges Peace Treaty As Best Jap Defense

### WASHINGTON, Aug. 8.—(AP)—Douglas MacArthur said today it is doubtful that the U.S. Armed Forces could accept Japan as a full partner in the Pacific.

In a cable to Magnuson, MacArthur said the first and logical step in providing for the security of Japan lies in "the early conclusion and consummation of a Japanese peace treaty."

Magnuson proposed in a bill introduced last week to permit the enlistment of Japanese war veterans in the American armed forces at half pay and with no citizenship or veterans benefits.

The Washington senator said this would provide additional manpower for the Korean fighting, restoring some American troops now on occupation duties. He asked MacArthur's opinion of the move.

MacArthur replied in a message made public by Magnuson that "the evident underlying purpose of the move is to have in mind of bolstering the security of Japan and thereby strengthening resistance to totalitarian Communism throughout the world has my heartfelt understanding and sympathy."

"Whether your actual proposal is feasible at this time, however, is more doubtful," the General said. "This is largely due to the fact that no peace treaty has yet been consummated for Japan and consequently it is under international control."

"It would seem to me that the first and logical step in the matter would be in the consummation of a peace treaty wherein the security of Japan could be fully provided."

"Until such action is accomplished, a unilateral approach to the problem by the United States and as you suggest would be of doubtful feasibility."

**REWARD OFFERED FOR CEMETERY THIEVES**  
Local florists today announced an offer of a reward of \$100 for information that will lead to the arrest and conviction of any person or persons caught stealing flowers from the local cemetery.

Florists making this announcement include J. R. McNell, A. R. Houseller, A. P. Ramsey, and J. H. Stewart.

This action is the result of numerous complaints lately of flowers being stolen from graves in the cemetery. A caretaker is employed at the cemetery during both day and night but he is unable to watch the entire area all the time.

**CHARITTY TAX**  
TALLAHASSEE, Aug. 8.—(AP)—The nickel-a-package Florida cigarette tax produced \$1,415,897 in June, Beverage Director Lewis M. Schott reported today.

Incorporated cities and towns will get \$1,057,941 from collections within their limits, and the State Tuberculosis Board will receive \$355,956.

## A-Bomb Manager Quits With Blast At Chairman Dean

### WASHINGTON, Aug. 8.—(AP)—Carroll L. Wilson quit today as general manager of the Atomic Energy Commission with a blast at AEC Chairman Gordon Dean.

Wilson followed up with a statement saying he lacked a proper degree of confidence in Dean.

He said there has been a trend toward the Commission's assuming a more direct role in the management of the atomic program.

He said he fears this will result in "a underdone, slow moving administration machine which is incapable of giving the country the kind of direction needed to maintain and increase our leadership in the atomic field."

Dean only recently was appointed chairman of the five-member Commission and confirmed by the Senate.

In his letter of resignation to the President, Wilson did not say what he said were "compelling" reasons behind his decision to quit his \$15,000-a-year job.

His duties have been to carry out policies and administrative functions assigned by the Commission.

But in his statement Wilson made it perfectly clear why he was quitting.

He said the relationship of the general manager and chairman of the AEC is "an intimate and personal one" and must be marked by a very high degree of confidence.

"If the program is to be administered effectively by a general manager, an executive officer," Wilson said.

"I regret that I do not have the degree of confidence in the chairman of the Commission which I believe it is essential that I should have."

**REWARD OFFERED FOR CEMETERY THIEVES**  
Local florists today announced an offer of a reward of \$100 for information that will lead to the arrest and conviction of any person or persons caught stealing flowers from the local cemetery.

Florists making this announcement include J. R. McNell, A. R. Houseller, A. P. Ramsey, and J. H. Stewart.

## Reds Accuse Americans Of Inhumanity

### Western Delegates Expecting Soviet Veto Of S. Korean Representative

LAKELAND, Aug. 8.—(AP)—The United Nations Security Council went into session today to act on the Korean question, with Russia, Jakob A. Malik, presenting a long telegram from the North Korean chairman of the United States anti-inhuman attacks on civilians.

The telegram was from Pak Hen Sun, minister for foreign affairs of North Korea, it said.

"The American Air Force is engaging in heinous attacks on unfortified Korean towns and in actual centers where there were no military bases and no air military objectives, destroying houses and killing people without a need over their heads, are destroying church, hospital and other cultural institutions, they are slaughtering peaceful inhabitants, old people, women and children and destroying their property."

The telegram said more than 4,000 persons had been killed or injured at Wonsan and that Seoul had about 7,000 casualties.

About 30 minutes were required for reading and translation of the telegram.

Russia was favorably disposed to the Western delegations expected far to strike back with their own acts.

After the North Korean telegram was read, Malik announced a resolution for the Council, at the Commission on Korea. The Commission reported it was receiving further reports of Communist atrocities against wounded and captured American soldiers.

Malik's motion was a request for the Council to order the United States to stop its attacks on North Korea. The Council did not feel it obligatory to carry out a Council resolution of June 25 to assist a representative of South Korea to take part in discussions.

Whether the Council would vote today or later in the week remained to be seen. If Russia followed last week's pattern, however, a far more procedural schedule might be set for the future.

The delegates had before them two proposals, one offered by the United States and one by the Soviet Union. When the Council adopted the U. S. proposal, it was a 7-2 vote with the Soviet Union and the Chinese abstaining.

The Soviet proposal provided: (1) That the Council invite Red China and Red Korea to take part in U. N. Korean discussions and (2) That the Council call for an immediate end of hostilities in Korea and order the withdrawal of United States and other foreign troops from Korea.

The U. S. proposal contained and calls upon all countries to use their influence to end the fighting or at least to keep it from spreading.

**VETS AGENT**  
Tom Dean, representative of the Veterans Administration, will be at the office of E. H. Boyle Thursday July 1300 clock in order to advise veterans and dependents on veterans affairs.

Dr. Julian N. Tolar, physician and surgeon, who on Oct. 1 will have practiced medicine in Sanford for the past 33 years, said today that he was much interested recently to read in the Herald how Dr. J. N. Robson drove in his house and buggy to attend to the births of many of Sanford's residents.

"When I started practice in Taylor county," said Dr. Tolar, "I couldn't even afford a horse and buggy, but the lumber company who employed I served, loaned me a mule."

"Hiding through the woods one night on my way to a home, where there was a sick child the mule stopped dead and I looked down and there was a big rattlesnake coiled right in the middle of the road. I pulled around it and went to the home. It was about 1:00 o'clock in the morning when I came back and the mule stopped again in the same place and there the snake still was. Again I pulled around it and went on."

Dr. Tolar, whose father was in the turpentine business, came to Sanford when he was one year old in 1881. As a boy he worked in the Phillips Drug Store where Boumillat and Anderson's is now located, also in Nowland's Pharmacy.

### France To Receive Two Warships Through U. S. Arms Aid Program

WASHINGTON, Aug. 8.—(AP)—The United States today announced that it will provide two warships to France through the U. S. Arms Aid Program.

The two vessels are the USS Haddock (SS-311) and the USS Gato (SS-315). They will be transferred to the French Navy under the terms of the Mutual Defense Assistance Act.

The Haddock is a fleet ocean submarine and the Gato is a fleet ballistic missile submarine. They will be the first of a series of warships to be transferred to France under the program.

The program is designed to provide military and economic aid to friendly nations. It is one of the most important parts of the U. S. foreign policy.

The transfer of the warships is a significant step in the U. S. effort to strengthen the defense capabilities of France and other NATO members.

The program has provided billions of dollars in aid to more than 40 countries. It has helped to build up the economies and militaries of many of these nations.

The U. S. government is committed to providing continued support to these nations. This is essential for the maintenance of peace and stability in the world.

The transfer of the warships is a testament to the strength of the U. S. military and its willingness to share that strength with its allies.

The program is a key element of the U. S. strategy to contain Communism and to promote democracy around the world.

## Three Battles Rage Along Front, At Taegu, In South And Extreme North

MIAMI, Aug. 8.—(AP)—The military observer for the United States today reported that the Communist North Koreans had broken through American defense lines and in other sectors had systematically driven back American counterattacks.

The report said the North Koreans continue to push relentlessly forward in the crucial sector, quoting Washington columnist Drew Pearson as having exposed "faked" figures, the article accused General MacArthur of understating the American losses of men and equipment.

## 3 Court Elisors Seize Gambling Books In Miami

### Senate Hearing Will Begin Tomorrow On Warren's Campaign

MIAMI, Aug. 8.—(AP)—Court-appointed Elisors made another seizure today as the state grand jury pushed its investigation of alleged conspiracy by public officials to evade the gambling laws.

The warrant issued by Circuit Judge Stanley Milledge also named as parties to the action Jack Friedman, Charlie Wall, Merrill V. (Marty) Yarbrough, Motty Richmond, Clifford J. Spikes and others allegedly connected with the so-called Miami syndicate.

The Elisors seized the records of a company outside the office of Charles B. Costar, a certified public accountant in the East National Bank building. They had just been returned to the accountant by Ralph W. Mills, an investigator for the Kefauver Senate Crime Investigation Committee.

Three of the Elisors were the same who seized records of the Miami Beach Saturday. They were George H. Harvey, grand jury investigator, Daniel P. Sullivan, investigating director of the Crime Commission of Greater Miami, and Floyd Miner, a private detective.

Col. Jack R. Younger, president of the Crime Commission, did not take part today because he was in Washington concerning the Kefauver committee.

The warrant issued by Judge Milledge and the grand jury was engaged in an investigation to determine the sheriff of Dade county, the police of the peace of the district and other officials are engaged in a conspiracy to violate state gambling laws.

It further stated that the serving of the warrant was not in compliance with the sheriff or other enforcement agencies because they refused to execute it.

**HIGHWAY PATROL**  
TALLAHASSEE, Aug. 8.—(AP)—Promotion of Capt. J. Wallace Smith to the previously unfilled position of major in the Florida Highway Patrol was announced today.

At the same time, Patrol Director H. N. Kirkman announced promotion of Mack G. Britt of Escambia to the rank of major today.

**HEAVY RAINFALL**  
MIAMI, Aug. 8.—(AP)—A spectacular early morning thunderstorm poured 1.65 inches of rain on this area in four hours today.

A heavy barrage of lightning caused some damage. Flooded streets delayed hundreds of persons on their way to work. No injuries were reported.

**SAFETY RULES**  
TAMPA, Aug. 8.—(AP)—Proposed railway safety rules will mean "anti-industrial expansion" in this state, declared Harold Colson, executive vice president of the Florida Chamber of Commerce today.
