### Panic Of Spectators Follows Knife Fight Between Negro And Resenting White Fan

### Shot From Pistol Increases Fright

### Scream Of "Fire" Adds To Stampedee Ending In Injured Through

CHICAGO, Mar. 26. (INS)—Approximately 100 persons were being treated today for injuries sustained in a riot and panic during the Jackie Fields-Jack Thompson boxing show at the Coliseum last night. Upwards of 9,000 spectators were packed in the old gray-stone building.

Thirty of the more seriously injured were rushed to nearby hospitals, most of these suffering fractured limbs from the crush of the mob. Others were badly hurt when they leaped off from the balcony. A few were pushed through rear windows. One of the more women present was seriously injured when trampled.

Feeling aroused over the mixed bout it blamed for the trouble, Thompson is a negro, Fields a white man. In the eighth round, after Thompson had taken a lot of punishment, a negro fan and a white sitting beside him in the southeast balcony, exchanged compliments.

Two long keen blades flashed in the light and the crowd (fig) was on. When another spectator in the crowded gallery produced a gun, the stampede started. Other hoodlums in the vicinity of the brawl, started, added to the confusion by drawing guns. As the balcony fans stormed the aisles, someone screamed "fire."

Spectators in other sections of the crowd fled, not knowing the cause of the confusions and then hearing the sickening cry of "fire" bolted madly for exits. But they could not go far, packed in as they were. The crash of chairs and the screams of terrified men and women turned the jammed coliseum into a frenzied mass of fear-stricken humanity.

Women in ring-side seats were tossed into the ring by their escorts. Others near the ring climbed through the ropes while some tried to duck under the arena.

## BAR IS AGAINST MOVEMENT TO ABOLISH COURT

### Lawyers Will Invite Two Legislators To Meet With Them For Discussion Of Issue

### Herring Is Lone Foe Of Tribunal

### Speakers Deny Excessive Cost Of Court; Laud Its Efficiency

The Seminole County Bar Association yesterday expressed its opposition to the proposal to abolish the County Court. The action was taken in the form of a resolution which was adopted at a meeting held at the home of George G. Herring, who stated that he opposed the proposal, and that he would not support it.

In an effort to reach agreement on the matter, the bar association will invite two legislators to meet with them for discussion of the issue. The speakers will deny the excessive cost of the court and laud its efficiency.

The need for a tribunal with jurisdiction extending between the Justice of Peace Court and the Circuit Court was emphasized by several attorneys, who said the handling of a large number of cases, both civil and criminal, had been greatly facilitated. Administration of the law was declared to have become more efficient and more complete and at the same time the rights and interests of persons coming into the court had been preserved.

With a County Court in operation, one speaker said long delays in civil matters, involving more than \$500, had been avoided, and that the County had been saved the expense of taking care of prisoners over a long period awaiting trial in the Circuit Court.

# AN ARMY OF FRIENDLY INVADERS..

*seeking sunshine, health and happiness in FLORIDA!*

**D**EDICATED by President Coolidge, the Singing Tower at Mountain Lake, Edward Bok's gift to Florida and the nation, is symbolical of many things. It is, in one sense, a tower of faith from which we can view the present and future of this commonwealth.

In medieval times it was known as Carillon Tower . . . North France, Belgium and the Netherlands were dotted with them . . . points of observation over many miles of countrysides. Sentinels watched for flooding dykes, invaders and other unusual movements. Gradually the horn, used to sound warnings, was replaced by bells; and through hundreds of years of development, attended by the artistic urge of great musicians, the Singing Tower has reached its present stage.

In the spirit of traditional service, let's stand in the pinnacle of this tower and observe as did the sentinels in olden days. Look again, the invaders are encamped all about! Ring out the bells!

These friendly invaders belong to the mighty army of sunshine-seekers . . . growing in numbers each year. There is President Coolidge, President-elect Hoover, Thomas A. Edison, Henry Ford, John D. Rockefeller, Harvey Firestone, Edward Bok, industrial leaders, international figures, statesmen, bankers, artists, authors and thousands of others from the pages of Who's Who, and hundreds of thousands of others who trek to America's sun parlor in search of the common desires of mankind.

The presence of these men in Florida, year after year, is significant. The world is at their disposal of travel, and with this privilege at their command they are as regular as the seasons in their visit to Florida.

If other places had the same things to offer that Florida does, and they have not, this state has one factor in its favor nothing can change . . . its accessibility to the rest of the United States. Railroads, highways, waterways and airways make us next day neighbors to over sixty million people. One day they struggle through snow and ice . . . the next bask in sunshine!

Again look . . . rich green acres stretching away on all sides . . . richest and most productive soil in the world . . . thriving industries and contented workmen . . . forests, mines and streams cheerfully giving up their wealth . . . tan-faced children strolling beneath palms and moss-draped oaks on their way to school . . . opportunity, golden and abounding, riding the crest of countless mornings—

Ring out the bells—invaders are swarming, development is
