DAVIS CLOSES CAMPAIN WEST OF RIVER

Democratic Campaign In Middle West To Begin With Speech In Chicago Tonight

Des Moines Speech
Davis Stresses Tax
Cut and New Tariff

BOARD JOHN DAVIS SPEAKS

Sept. 18.—The
present campaign west of the
Mississippi river ended when
W. Davis today turned the
middle west to open
campaign there before re-
turning to the East. After
Chicago speech tonight he
will go to Gary, Ind., tomor-
row night and thence to South
and Fort Wayne.

Further tax reduction and a
reduction of existing tariffs
in a manner to avoid jeop-
ardizing the stability and the
security that are essential
to the transaction of business were
stressed here Wednesday night by
W. Davis in an address in his
honor of Republicanism.

making these promises, Mr.
Davis vigorously assailed the exist-
ing tariff laws and attacked Presi-
dent Coolidge for what he described
as "coolidge" claiming credit for
tax relief given by "the Demo-
cratic tax bill" passed by the last
administration opposed at every
step.

Direct Variance.

Contrasting what he said were
the guiding principles of the two
parties in the handling of matters
of tariff and taxation the Demo-
cratic presidential nominee declared
that "Democratic theory is a
minimum of revenue with a
maximum of subsidy."

Mr. Davis declared for
a minimum of revenue with a
maximum of subsidy. He
stated that the Republican doc-
trine is a maximum of revenue with
a minimum of subsidy.

Mr. Davis declared for

Communists Try To Mob French Premier

PARIS, Sept. 18.—Premier
Herriot narrowly escaped in-
jury in Marseilles last night
when Communists swinging
clubs and sticks and shouting
"Amnesty," made a determined
effort to surround and mob the
premier in Rue Cannobiere, the
main thoroughfare, members of
his party disclosed today upon
his arrival here.

FAMOUS CHINESE CITY BOMBED BY CHANG'S PLANES

Shanghai City on Eastern Extremity of Chinese Wall Is Attacked by Airplanes Sent Out By Gen. Chang

TIENSIN, China, Sept. 18.—
Shanghai City, 30,000, contain-
ing the famous barrier gate of the
eastern extremity of the Chinese
wall separating the Chihli province
in which Peking is located was
bombed today by airplanes from
the headquarters of General Chang
Tao Lin at Mukden.

Two days and a night of con-
tinuous stubborn resistance by the
Chekiang soldiers defending Shang-
hai against the onslaught of troops
from Kiangsu province were fol-
lowed late Tuesday night by a lull
in the fighting. Despite the heavy
attacks, the positions of the two
armies were reported virtually un-
changed.

SHANGHAI, Sept. 18.—Two
days and a night of continuous
stubborn resistance by the Che-
kiang soldiers defending Shanghai
against the onslaught of troops
from Kiangsu province were fol-
lowed late Tuesday night by a lull
in the fighting. Despite the heavy
attacks, the positions of the two
armies were reported virtually un-
changed.

Early Wednesday morning rein-
forcements were being rushed
from the Chekiang headquarters at
Langwha, six miles south of here,
to relieve the worn-out men at the
front, while on the battle line ev-
erything possible was being done
to strengthen the defenders' line.

Shortly after the firing ceased,
the leaders in the different sectors
—at Liuhou, on the coast northwest
of the city; at Hwangto, on the
Shanghai-Nanking railway to the
west, and at Kiangling, between the
other two points—were ordered to
headquarters at Langwha for a
conference. At this hour (3 a.
m.) the conference was still in
session.

Troops Clash

PEKING, Sept. 18.—The second
reported clash between the Chihli
troops of Wu Pei Fu and the Man-
churians of Chang Tso-Lin took
place Wednesday at Wanchiating,
six miles north of Shanghai and
the Chihli border.

The brush between the troops of
the two armies was said here not
to have been serious.

Withdrawn Troops

Canton, Sept. 18.—Dr. Sun Yat-
sen, south China leader, has with-
drawn his troops from a part of
the East river district in the east-
ern portion of Kwangtung prov-
ince. Gen. Chen Ching-Ming, the
Kwangtung military leader, who
long has been menacing Sun's po-
sition in this part of the province,
has occupied the evacuated terri-
tory.

The evacuation is part of Sun's
plan to concentrate his forces at
Shichow in northern Kwangtung
in support of Chekiang's war
against Kiangsu and the central
government at Peking. Sun is di-
viding his time between Canton
and Shichow supervising the con-
centration.

WORLD FLIERS MAKING HOP TO ST. JOSEPH NOW

Leave For 450 Mile Flight Under Ideal Weather Conditions; Last Reported Were Flying Over Missouri

Chicago To Omaha An Uneventful Hop

Airplanes Landed in Omaha
An Hour and a Half Before
They Had Been Expected

OREGON, Mo., Sept. 18.—The
fliers passed at 12 o'clock, which is
30 miles from St. Joseph.

OMAHA, Neb., Sept. 18.—An-
other 440 miles of their world en-
circling flight checked off by the
uneventful four and three quarters
hours jump from Chicago to
Omaha Wednesday, the army
world fliers rested last night for
the 450 mile trip Thursday. If
weather permits to St. Joseph, Mo.,
and Muskogee, Okla.

Plan Early Start

The six airmen, Lieut. Lowell
H. Smith, pilot of the Chicago and
his mechanic, Lieut. Leslie P. Ar-
gold, Lieut. Erik Nelson, pilot of
the New Orleans, and his me-
chanic, Lieut. John Harding, and
Lieut. Leigh Wade with his me-
chanic, Lieut. Henry G. Ogden in
the Boston II, retired early to be
at the field in time to have their
planes ready to depart at 9 o'clock,
central standard time.

The landing at Jarvis O'Fall Field
was made at 12:55 afternoon, about
an hour and a half before it was
expected. As a result the crowd
was not so large at the grounds.
Today's Program

Tomorrow's flying program in-
cludes a stop of one hour at St.
Joseph, 335 miles south of Omaha
on the Missouri river, and a contin-
uance to Muskogee, after a
slight deviation to pass over Kan-
sas City, Mo.

The planes will stay at Musko-
gee overnight and resume the
flight to Dallas, Texas, Friday.

Their arrival over Omaha today
was marked by the blowing of fac-
tory and shop whistles. Crowds
stood in the streets, others watched
and waved from building tops, and
school children were permitted to
step out for a look at the passing
"globe-grinders."

Lieut. Smith indicated that the
flight was one of the smoothest
and easiest experiences in the
world flight so far as flying con-
ditions were concerned.

After passing over Davenport,
Iowa, and then Des Moines, the
air mail lane to Omaha was fol-
lowed without incident, he said.

It Was Harding's Homecoming!

The 'round-the-world fliers were home when they touched American soil. But the real homecoming for Lieut. Harding didn't come until the planes stopped at McCook Field, Dayton, O., on their way westward on the final leg of their globe-grinding trip. His mother (right) and his sweetheart, Idelle Reussen-zehn, were in the front lines to welcome him back.

Postmaster Hall Requests People Take Exceptional Care Addressing Mail to Insure Quick, Sure Delivery

Millions of Letters and Other Pieces of Mail Delayed or Sent to Dead Letter Office During Every Year

"Because of carelessness in ad-
dressing and preparing matter for
mailing, or failure of sender to
place his name and address on it,
millions of letters and other pieces
of mail are delayed or sent to the
dead letter office," declared Post-
master J. E. Hall in a representa-
tion of The Herald recently.

"If the figures were shown in
this double handling," he said, "the
cost would be surprising. The de-
partment urgently requests the
public to exercise the greatest
possible care to see that mail is
correctly and sufficiently address-
ed in order to assure prompt and
certain delivery, thereby relieving
the postal service of much unnecessary
expense and thus increasing its ef-
ficiency."

He asks that people "write
plainly the name of the person ad-
dressed, street and number, num-
ber of rural route or post office
box, and the name of the post
office and the state in full. When
the name of a state is abbreviated,
frequently Va. and Pa., Md. and
Ind., Colo. and Calif., Miss. and
Minn., and many others are con-
fused and mail misrouted, as in
many instances post office names are
repeated in several different states."

The word "general delivery,"
Mr. Hall stated, should not be
used as a part of the address ex-
cept when the addressee has no
permanent address and it is known
that he calls at the general deliv-
ery. Directions for transmittal,
delivery, forwarding, or return of
mail, he said, are deemed a part of
the address.

When the mails are brought
from the trains to the local office,
the postmaster revealed, the
pouches are placed on the tables
and emptied. Then the process of
separation begins. First, he said,
the registers are checked, special
delivery letters are sorted out, and
then the ordinary letters are stack-
ed in the table for the primary
distribution. Eight separations are
made at the primary tables by the
distributing clerks, he stated, to
the city carriers, rural carriers,
general delivery, forwarding and
post office boxes, the last named
being separated in 11 case sections.

Of these separations, he said,
one is a pigeon hole for improperly
directed letters into which letters
thrown. Mr. Hall asks that the
public remember that a carrier
gets only what is thrown into his
pouch.

AIR RACES.

DAYTON, O., Sept. 18.—One
hundred and seventy-eight entries
have been made for the interna-
tional air races here Oct. 2, 3 and 4,
it was announced today.

NAVY MATTERS CALLED WILBUR TO WASHINGTON

President Coolidge Explains Urgent Message Sent Navy Secretary in California

WASHINGTON, Sept. 18.—Presi-
dent Coolidge formally made it
known Wednesday that he called
Secretary Wilbur here from Cali-
fornia "to consult him on im-
portant matters of purely domes-
tic concern."

Persistent speculation and in-
quiries at the White House since the
president's message was sent to
the navy head Monday night,
brought forth today an official
statement that the president had
heard any criticism of any speeches
made on the coast by Secretary
Wilbur and any comments concern-
ing them other than that they had
been very helpful.

Mr. Coolidge has shown some
interest in the political situation in
California, conferring over the
week-end with Chester Rowell,
publisher of the state, who re-
ported that, though some local dif-
ficulties were in sight, the national
ticket appeared secure.

The president received only a few
visitors today, giving some at-
tention to the address he will deliver
here Sunday afternoon before the
Holy Name Society convention.

Thursday Mr. Coolidge will re-
view the marines returning to
Quantico, Va., from their annual
summer encampment near Freder-
ick, Md. The marines will parade
through the White House grounds.

Contestants Still Work Under High Schedule Of Votes

As the second period of The Her-
ald's big subscription campaign
gets well started contestants are
increasing their efforts to secure
a lead over other workers while the
vote schedule continues high.

In the realization that again on
September 27 the voting power of
subscriptions will take another big
drop, leaders in the campaign are
determined to get every possible
vote to their credit by the end of
the second period a week from this
coming Saturday.

The great reduction in votes
came as a surprise to many of the
contestants who had expected just
a slight change. But now they are
taking every precaution against the
second cut being so great and are
urging their friends to support
them now rather than during the
last few days of the campaign.

UNITED STATES INQUIRES AS TO EXTENT OF ENGLAND'S SEA AUTHORITY UNDER NEW PACT

Conference Told U. S. Opposed to Policing Seas Not Controlled by Arbitration Court

Probes Power Of Arbitration Pact

Anxiety is Felt After England's Offer To Use Navy as Police

GENEVA, Sept. 18.—Wash-
ington is making inquiries
through the American embas-
sies at London and Paris as to
how much authority England
is to have on the sea under
the arbitration pact.

Geneva learns that America
let it be understood it would
not view with a friendly eye
the giving to any nation the right
to police the seas without control
being exercised by an arbitration
court.

Navy Would Defend League.
American anxiety is directed at
the offer made Sept. 11 by Sir
Ceil Hurst, legal adviser to the
British foreign office, in which
Britain was represented as willing
to place her navy at the disposal
of the league providing that no
prize cases arising in the sea patrol
service should be subject to appli-
cation. Britain's contribution to
league efforts to maintain re-
storation peace, it was said, would
be largely in the sea where she
would inevitably run counter to
the shipping interests of neutral
nations. League members supplying
land forces would not be subject
to this embarrassment. There-
fore, Sir Ceil argued, Britain's
peculiar service on the sea should
be safeguarded by immunity from
the interference of prize courts ex-
cept within the British admiralty.
In support of this claim it was
pointed out that Britain might be
halted before the world court in
matters arising out of the British
navy's defense of the league.

Understanding During War.

The price of Britain's taking
security and search cases individ-
ually before an admiralty court
was the cause of the British-
American misunderstandings dur-
ing the war, and was the leading
question of the notes sent to the
British government by Washing-
ton prior to American entrance in
the war.

No present protest, either di-
rectly or indirectly, is reported
from Washington, but that the
American government is beginning
to make known its wishes against
an uncontrolled sea policeman is
a matter of discussion in the de-
legations. There is no definite in-
formation beyond the American in-
quiries through the London, Paris
and other embassies.

It is realized at Geneva that
there is opportunity here to build
the basis of peace which may carry
the world into the new era in the
Pacific. Forstalling apprehension
in Washington, the British and
Japanese have voiced reserve on
question of seizure of merchant
vessels of a power outside the
league, notably the United
States. Whether America is in or
out the league proposes to have us
on its side.

In the question of the policing of
the seas the pact is being carefully
drawn to prevent it appearing to
be a means of boxing America in
between British propping on the
Atlantic and the Japanese in the
Pacific. Forstalling apprehension
in Washington, the British and
Japanese have voiced reserve on
question of seizure of merchant
vessels of a power outside the
league, notably the United
States. Whether America is in or
out the league proposes to have us
on its side.

Bones Found Recall Disappearance in 1916

CHATTANOOGA, Tenn., Sept.
18.—The Hamilton county grand
jury today will begin its investi-
gation of the disappearance of
Miss Augusta Hoffman, modiste,
in 1916 following the discovery of
a few weeks ago of a human skele-
ton under the house occupied by W. H.
Bennett and wife at the time of
Miss Hoffman's disappearance. The
Bennetts are now living at
Rome, Ga., and are under arrest
charged with slaying the woman.

Charles Dawes Leaves For Dakota Campaign

EVANSTON, Ill., Sept. 18.—
Prepared to explain Republican
pledges on the farm question to
farmers of the spring wheat belt
of the northwest, Charles G.
Dawes, Republican vice-presiden-
tial nominee, will leave tonight for
Sioux Falls, S. D.

BEACHAM RETURNS ILL

ORLANDO, Sept. 18.—Brazton
Beacham, war-time tax adminis-
trator for Florida, recently left un-
der the care of Philadelphia physi-
cians is today en route back here
lying in an unconscious state, his
family was advised.

City Bond Issue Is Endorsed by Junior Chamber Commerce

At its luncheon at the Bell Cafe
this noon the Junior Chamber of
Commerce went on record as un-
animously favoring the proposed city
bond issue, the election for which
will be held on next Monday, Sept.
22. Chairman G. W. Spencer, Jr.,
requested that all members of the
organization do everything in their
power to secure a majority in favor
of the project.

The issue will embrace bonds to-
talling a sum of \$225,000 which in-
cludes \$105,000 for sewerage,
\$100,000 for the paving of streets
around city property, \$50,000 for
the erection of a new municipal jail
and \$10,000 for the purchase and
improvement and upkeep of a mu-
nicipal cemetery.

The great need and importance
of passing favorably upon this
bond issue at the present time was
brought out by Mr. Spencer, who
urged that every member of the
junior trade body stand behind the
question, push it forward, and for
those who can, to vote for it when
the time comes.

There were no committee reports
and Kenneth B. Hait, athletic di-
rector of the Sanford High School
which is just beginning. Mr.
Hait stated that he was well
pleased with the co-operation he is
receiving in conjunction with high
school athletics and that he is sure
that the school will have a good
year in that line.

He further stated that he was
rather surprised to find that an as-
sistant coach of such merit as
Hugh Weichel had been secured
through the efforts of the junior
chamber and that he feels sure
that together they will turn out a
high school team this fall of which
Sanford may well be proud.

Business In Northern States Very Good In General Way, Says McLaulin

"Although business conditions in
the northern section of the coun-
try are very good at present, that
of my particular line is far below
the average," declared H. McLag-
hlin to a representative of The Her-
ald this morning.

Mr. McLaglin has just returned
from a combined business and
pleasure trip to New York City and
a number of the larger northern
cities and states that it will prob-
ably interest the people of Sanford
to know that the glass and colored
glass wares are fast becoming the
best sellers in the large jewelry
and glass wares stores of the United
States.

Many jewelers, he said, are leav-
ing the business to become owners
or proprietors of gift shop estab-
lishments. This, he stated, is be-
cause of the slack in the jewelry
business during the past several
years. He pointed out that where
other businesses have grown and
the prices have advanced, the jew-
elry business has been practically
on the standstill. It is known, he
added, that the people buy most
of their precious stones and expen-
sive jewelry in the north and con-
sequently buy very few articles of
that nature while they are in this
state.

Mr. McLaglin made the trip in
his car with Mrs. McLaglin and

Sanford seriously Needs a New Jail

The present method of caring for city prisoners is inhuman. With nothing but bars separating the colored from the white, with no proper place to put women prisoners, the city jail is improperly fitted to care for those who are law violators.

Poorly ventilated, and badly located in a congested section of the city the jail is badly in need of immediate attention. That person is unfortunate who must be confined in any jail. He is doubly unfortunate if he must be confined in Sanford's jail.

Plans are being Prepared

For the erection at the rear of the new municipal building at the Lake front of a modern and up-to-date jail building with separate compartments for white and colored prisoners and for a separate section for women occupants as well as for delinquent children.

It is the plan to provide room in the new building for the police department, and on the second floor to locate the new municipal court room. Built along architectural lines which will make it show up well from the Lake the new building will be so located as to be a distinct asset to the city.

Money Must be Provided

In the bond issue to be voted Monday provision has been made for the necessary finances to pay for the construction of the new jail, in cooperation with the county authorities. The total cost will be in the neighborhood of \$75,000.

The new jail will solve the problem for years to come and will be another advanced step for the city to take.

There is no better time to give the city a jail than now. Building costs will never be cheaper. From a financial standpoint it is the right thing to do.

From a moral standpoint it is the only thing to do.

From a humane standpoint it must be done.

**On Monday an Important Bond Issue will be Decided Upon
Will you be among the majority voting for better conditions?**

French Cabinet To Be Charged With Abetting Principles Of Bolshevism

PARIS, Sept. 18.—Whether the right of free speech ought to be interpreted liberally enough to permit extremists to preach civil war is a question that will be debated in parliament when the Chamber of Deputies convenes after the summer vacation.

The opposition to M. Herriot's government will endeavor, in this discussion, to rally to it a considerable number of deputies now supporting the cabinet, but who the enemies of subversive agitation. The question will arise on the interpretation of M. Bonafous of the Seine et Oise department, this deputy will demand of the government an explanation of the action of the Ministry of Public Works in placing 15 special trains at the disposal of Communists who met recently in the suburb of Garches, where the doctrine of civil war was preached openly by several orators, including a Communist member of the German Reichstag.

The adversaries of the government will take the view that official tolerance of such manifestations is outright encouragement of Bolshevism.

Prelate Says Large Number Stumble Over Scripture Miracles

LONDON, Sept. 18.—"The conflict between science and religion is still far from being reconciled," said Very Rev. W. R. Inge, the "gloomy Dean of St. Paul's," in his presidential address at the Conference of Modern Churches, Oxford.

"It is an open sore," continued Dean Inge, "that poisons the spiritual life of the civilized world. It is difficult for a man to accept orthodox Christianity, as it is presented by the churches, without treachery to his scientific conscience.

"The injury thus inflicted upon religion can hardly be measured. The result is that intellectual honesty is largely drained out of the church and public opinion within it does not reflect either the best knowledge or the most candid temper of the community.

"The question of miracles is for many the meaning of the conflict between religion and science."

Motor Buses to Soon Move Moscow Crowds

MOSCOW, Sept. 18.—Moscow, which from time immemorial has depended upon the horse-drawn carriage and the conventional trolley car for its transportation, will soon have its own motor buses. Eight combusters of the London type will make their appearance shortly, and it is the intention of the municipal authorities eventually to secure sufficient additional vehicles to establish connection with suburban districts. This will do much, the officials say, to relieve the fearful congestion on trolley cars and trains, and will also encourage part of the population to move to the suburbs.

Dutch Learn English From The Americans

AMSTERDAM, Sept. 18.—The American tourists have found the reason for the quaint island of Marken in the Zuider Zee. There is one of the few communities in Holland where the native dress has not given way to standardized clothes. Huge balloon trousers for the men, and gay pink, blue and yellow waists, full petticoats and white caps for the women still are worn in Marken.

The little folks dress just as do their elders. The picturesque of the place, maintained with an eye to business, have drawn so many American visitors that not a few of the natives speak English without an accent.

Oriental Smokers Of Opium To Be Rationed

SINGAPORE, Sept. 18.—The use of prepared opium in Malay has diminished in recent years, and its eventual elimination depends on individual control, says the report of a committee appointed to inquire into the matter. It is stated that registration of smokers should be given an exhaustive trial leading up to a rationing system.

The committee expresses gratification "in finding that the disease is not so desperate as to demand desperate remedies," and adds that precipitate suppression affords no solution and would introduce complications in the ultimate eradication of the habit.

Palm Beach Building Takes a Large Spurt

PALM BEACH, Sept. 18.—Building operations in Palm Beach took a big spurt, it is shown, when the first twelve days of September saw more building construction than for the entire month last year. Work sanctioned by D. W. Sanderson, building inspector, for the first dozen days this month total \$245,475. For the entire month of September last year, the aggregate was \$244,550, Mr. Sanderson's figures show.

Liquor Sellers Pay Dearly at Palatka

PALATKA, Sept. 18.—Those convicted for selling liquor here, pay dearly for the privilege as is evidenced by the sentencing of L. E. McCrae by Judge Calhoun to six months at hard labor. John Hinson, who pleaded guilty to the same charge recently, received the same sentence at the hands of Judge Calhoun. The alternative of a cash fine was not afforded the convicted men.

Sarasota Will Have Municipal Band Shell

SARASOTA, Sept. 18.—Sarasota is to have a thoroughly modern municipal band shell and will be used by the band of a famous circus in giving winter concerts here this season. A contract has been let for its immediate construction. It will be of concrete, with a thirty foot stage, on one side of which is to be installed an illuminated tablet, announcing each number to be rendered by the band or orchestra.

Machine Guns Are To Fight Liquor Traffic

JACKSONVILLE, Sept. 17.—Machine guns are to be used to combat the liquor situation in Florida, H. L. Duncan, chief of the divisional prohibition forces, announced. Following receipt of a letter from Washington stating the guns were available, Mr. Duncan ordered one to test its practicality. In recent instances agents have been fired on while raiding stills, the moonshiners, running good their escape through wooded thickets usually found around a swamp. Chief Duncan explained, and with the arrival of the machine gun, he doesn't think many will escape. The guns use 300 shots a minute and can be swept over an area.

Announcement

I have just returned from New York and am now prepared to give my patrons more thorough and efficient service.

I cordially solicit any new patronage and can assure them they will be pleased with my work.

Outsiders Are Now Being Barred From Shipyards of Navy

WASHINGTON, Sept. 18.—The United States navy has at last come around to the policy generally observed by European nations of strict secrecy concerning the implements of national defense. The custom of a hundred years is being set aside in the case of the new mine laying submarines for which \$6,150,000 has been appropriated. Beyond the fact that her plans call for width of beam, speed and cruising radius beyond anything known in that type, details of the new submersible are jealously guarded.

No nation among the signatories to the Washington arms convention permits inspection of its navy yards in which construction is in progress upon vessels not covered by that agreement. Heretofore but slight restraint has been imposed by the United States.

Both England and Japan are known to have made great strides in their newest auxiliaries, the British submarine, the SX-1 having aroused especial comment, although not the slightest detail is known generally of her capabilities. In the case of Japan, it has been said officially that the United States government is ignorant of the potentialities comprised in her newest cruisers and destroyer leaders.

Motor Curfew Law Is Apt To Be Invoked

PALM BEACH, Sept. 17.—A curfew law may be invoked against motor cars parked at the curb in the business section after midnight, according to the city commissioners. Interference with the work of the motorized street sweeper, by night-driving autos, is causing the city commissioners to invest the street sweeper, both the machine and the man, with powers above that of the ordinary "white wing." The man will be empowered to make arrests, and the machine will be equipped with a siren for calling owners of the parked cars to remove their vehicles from the path of the sweeper.

Long Journey Made By Goat on Side Car

GREELEY, Colo., Sept. 18.—Motor tourists no longer give up all the comforts of their homes when they travel through the west.

One party of travelers from North Dakota, which passed through Greeley recently, had a milk goat harnessed in what the animal seemed to regard as a comfortable position on the running board of their car. Members of the party explained they were accustomed to goat's milk, and that they saw no reason for going without it because they were traveling.

The goat was so tied to the car that it could not leavely even with the automobile in motion.

GRIFFSWALD, Germany, Sept. 18.—A recent quiet meeting here developed into the noisiest and roughest event ever held in this town. It was an anti-war meeting and the chief speaker was Hertz Barbusse, one of the best known pacifists of France. Barbusse started to speak in French, to which students of the university of this city objected so violently that a general riot followed. Many benches were cracked during the attack, and Barbusse had to be rescued by the police and guarded until he left town.

Holland Seeks To Remove Mistaken Ideas of Kingdom For U. S. Museum

AMSTERDAM, Sept. 18.—Antiquated ideas about Holland that prevail abroad, and often move the present generation of Dutch people to mild resentment, have at last been tracked to their origin. A learned society which has made a thorough investigation into the current geographical text books and manuals used in elementary and secondary schools in all civilized countries of the world, has published a report which discloses that most of them are about 100 years behind the times.

Horse drawn canal barges, for instance, are still given as the popular mode of locomotion in Holland, and while references to cows and windmills are plentiful, the books are silent on the development of modern Dutch dairy farming and other industries of the country. In one instance, a text book drew a picture of Dutch conditions as they existed 300 years ago.

The society in question has appointed a committee to remedy this state of things by vigorous efforts abroad to bring knowledge about present-day Holland somewhat more up to date.

Miss Catherine Byrd, who has been spending a week at Daytona Beach, is expected in Sanford this afternoon to be the guest of Mrs. R. F. Whitner, Jr.

Swarming Rodents Of Lapland Filmed For U. S. Museum

GOTHENBURG, Sept. 17.—American scientists just taken the first film ever obtained of the migration of lemmings, mole-like animals, one of the most unique phenomena of the animal world.

D. Clyde E. Fisher, a curator of the American Museum of Natural History, and Carveth Wells, now here from a recent trip to Lapland, say that a curious and absolutely unique film is that of the lemmings. These rodents seem to multiply in teeming numbers at irregular intervals and are now more multitudinous than they have been for 15 years. A wanderer above the tree line in the Lapland mountains may suddenly see the ground covered by them for miles. They come by the millions; swimming rivers and climbing over mountain ridges. Then either for lack of food or in conflict with natural enemies, they perish in masses.

The Americans declared that they had missed nothing of natural interest in Lapland. They even took special films of the mosquitoes.

Miss Margaret Sheppard, of Miami, with the American Red Cross, is spending several days in Sanford the guest of the Valdez Hotel.

Confidence Game Gets Swede Woman In Jail

TAMPA, Sept. 18.—Hilja Warner, comely Swedish woman, is in jail here as the result of an alleged confidence game she has been working, according to authorities. Hilja was arrested at Port Richey on complaint of persons who sent her railroad fare to Miami, which she used for domestic. The alleged scheme Hilja is said to have worked was to pocket the transportation money, failing to show up for the position.

Where Can You Find Finer Streets?

Sanford has a system of asphalt paved streets to be found in few other cities this size in the country. As a result of the extensive paving program recently carried on, this city has been given added impetus in its rapid growth.

Property values all over the city have been greatly enhanced on account of the good streets that have been constructed. The residential sections of the city are building up quickly and the city is spreading out at a faster rate than ever before. It is the paved streets which is causing much of the rapid growth now being experienced here.

It was necessary to pave around city property.

While paving the streets it was necessary to pave around the property owned by the city. The paving had to be done right. The streets had to be constructed around all public property and the city had to advance the money to do so.

The large paving program adopted two years ago did not include financial provision for the paving laid in front of public parks, schools and city property. The city has wisely gone ahead, however, and laid the paving. Now it must be paid for.

Provision made in present bond issue.

The sum of \$100,000 has been provided to defray the expenses of this paving as well as to provide a fund for the opening of additional new streets in the near future, which will be necessary on account of the unexpected growth in population and the congestion now found in the business district.

It is an item which must be taken care of.

**On Monday an Important Bond Issue will be Decided Upon
Will you be among the majority voting for better conditions?**

In The World of Sport

GENE SARAZEN IS DETHRONED IN GOLF PLAY

After Holding Professional Championship for 2 Years, Hope is Lost in the Second Round of Play Wednesday; New King of Sport Annsured; Cruikshank Is Defeated

FRENCH LICK, Ind., Sept. 18.—There will be a new champion of the national professional golfers this year, for Gene Sarazen of New York, titleholder two years, was dethroned in the second round of match play here Wednesday by a young professional from Lima, O., Larry Nabholz, a sturdy golfer, who outplayed the champion much of the way.

Another surprise was the spectacular defeat of Bob Cruikshank of New York, the golfer running up for the national open title to Bobby Jones. Cruikshank had shot splendid golf all during the tournament and Wednesday had led his opponent, Ray Derr of Philadelphia all the way, finally gaining an advantage of four up and five to play. It was then that the tally out from the Quaker City finally asserted himself with brilliancy after having held on doggedly for 81 holes. Bobby continued to play par golf but Derr reeled off a birdie four and four threes in a row, one of the threes being an eagle and two birdies to square the match on the 36th green.

Going into the extra hole both played well on the green and it looked like a half in par four until Bobby, evidently perturbed by the terrific change in his fortunes, released a short putt and the match.

This was the only match to reach the final green and one contest became one-sided that it ended on the 27th green where Jim Barnes of New York, formerly national open titleholder, had gained a lead of ten up on Eddie Towne of Ben Avon, Pennsylvania.

Walter Hagen of New York, British open champion, threatened for a time to furnish another surprise as Al Watrouse held him even for 18 holes.

Hagen Thursday will play John Farrell of New York who fought an uphill but successful match with Willie Mac Farlane of New York, 8 and 1.

Derr, by defeating Cruikshank, won the right to contest the third round Thursday with Al Espinosa, the sole Chicago contender remaining. Espinosa had little difficulty Wednesday in overcoming Francis Gallet of New York 4 and 3.

Nabholz as a result of his ability to eliminate the champion, brought himself face to face with another Latin golfer, Henry Cuell, of New York who defeated Dan Williams, of New York, only by a fine display of golf in the final nine holes 4 and 2.

Barnes will play Emmett French of Youngstown, Ohio, who had considerable difficulty in disposing of Mortie Dutra of Aberdeen, Washington, 3 and 1.

Derr, in overhauling Cruikshank, shot a 67 on the last 18 holes, five strokes under par and equalling the match record for the course set by Henry Cuell Tuesday.

Open Polo Play To Begin On Saturday

NEW YORK, Sept. 18.—Eight teams, whose lineups include international stars of the United States, Great Britain and the Argentine, will compete for the American open polo championship. The playing schedule has not been completed but the tournament is expected to start Saturday when the Midwick Club of Los Angeles, holders of the national junior title, play the Hurricanes, a crack combination led by Louis Lacey, Anglo-Argentine star of the British team which lost the deciding match to America Tuesday for the international challenge cup.

This game also is slated as the third attraction of the international series, but the winner will qualify for one of the semi-finals of the open championship. It was to have been played today but has been postponed because of wet grounds.

FOOTBALL HOPES OF HIGH SCHOOL SOARING UPWARD

Beginning to Appear That Sanford Will Have Rather a Heavy Aggregation: 230 Pound Guard Again on Job

By BILL CANN
Sanford High's football hopes rose another notch yesterday afternoon when several more candidates appeared upon the field of action and new uniforms were issued. It is beginning to look as if, contrary to first thoughts, that the Celery Field will have a rather heavy aggregation after all. According to Coach Wheeler, who is whipping the line into shape, prospects are great for a weighty front of defense.

At the first practice several robust youngsters showed a desire for backfield work but evidently that work didn't please them as they are now hard fighters on the line where they are needed. Whitfield, Sanford High's 230 pound "baby" who is right there with the goods when it comes to playing guard, is back again and made his appearance Monday afternoon.

Monday Line Coach Wheeler put his young proteges through a stiff afternoon of form work in blocking and charging. It was remarkable how many of the new men caught on to the work. It will not be long until a line will be had that can stand against the best.

In the backfield, Coach Haid handled his men on running, punting and broken field punning. Tackling was practiced to a small extent. Not much can be done in this line until the dummy is erected. Many were heard to say that they felt that they could hit anything with their bare shoulders and literally "tear it to pieces." According to the mentor, this remains to be seen, and will be tested in the next few days. Incidentally, broken shoulders may be counted.

Usually, in a crowd of candidates this large there are found several "quitters," but although practice is a week and half old, none have been reported yet. Eligibility will be stressed very much this season and before any member of the eleven will be allowed to participate in a game, he must be fully qualified in all subjects and requirements, and according to members of the school faculty, this rule will be rigidly enforced.

At present there are several out for the team who are ineligible but who seem to think that they are of such importance that any regulation will be violated in order to allow them to play. However, Sanford High intends to have clean athletics this year and to live up to the rules of the Florida High School Athletic Association. To do so, these young fellows of such certainty will be surely disappointed when Oct. 4, which is the date for the first game, arrive.

YANKEES TAKE TWO AND AGAIN TIE FOR LEAD

In Second Game Five Pitchers of Browns Are Routed For Fifteen Hits; Browns Hit Hard Also; Senators Trim Indians 3 to 2 in Johnson's Thirteenth Straight Victory

ST. LOUIS, Sept. 18.—New York took both games from the Browns Wednesday, 7 to 3, and 8 to 7, thus tying Washington again for the lead in the American League. The second game was a heavy hitting contest, in which the Yankees slugged five Brown pitchers for fifteen hits, including two doubles by Bush and Tapp's triple, a home run by Ward with two men on base in the third inning. Davis who was hurling for the Browns had pitched good ball up to that time.

The Browns collected 13 hits, including two doubles by Tobin and Jacobson and a home run by Jacobson in the seventh inning with two men on bases. Bush who started on the mound for the Yankees was batted out of the box in the seventh and relieved by Herbert Pennek who held the Browns safe for the rest of the game. The first contest started as a hurling duel between Urban Shocker and Waite Hoyt. For five innings both sides went scoreless. Then the Yankees forced three runs over in the sixth while the Browns fell short one of this number in their half. The Yankees added two more in each the eighth and ninth. St. Louis put its final run over in the last inning.

First Game: R H E
New York 000 003 022 7 9 1
St. Louis 000 002 001 3 12 3
Hoyt and Hoffman; Shocker and Severed.
Second Game: R H E
New York 000 200 000 8 15 0
St. Louis 020 029 300 7 13 0
Bush, Pennek and Hoffman; Bengough, Davis, Pratt, Danforth, Vangilder, Evans and Saverid.
Washington 3; Cleveland 2.
CLEVELAND, Sept. 18.—Washington made it two straight from Cleveland Wednesday, Walter Johnson holding the Indians to 7 hits and winning a pitching duel from Sherrod Smith, 3 to 2. A wild throw by catcher Walters in the 7th inning to catch Ruel off first, enabled Ruel to make third, from where he scored the winning run on McNally's single.

Washington scored two runs in the sixth on an infield single by Judge, base on balls to Harris and Goshie, an error by Burns and a sacrifice fly by Binette.
A single by Summa and a double by McNally gave Cleveland a run in the first inning, while a single by Janterson, bunts by Summa and McNally and a force out gave the Indians their other in the third.

It was Walter Johnson's thirteenth straight victory. He fanned six men, increasing his strike-out record for the season to 149 and his all time record to 3,215.
Same Race. Washington right fielder Wednesday hit his 24th consecutive game, a season record in the American League.

The score: R H E
Washington 000 002 100 3 8 0
Cleveland 101 000 000 2 7 3
Johnson and Ruel; Smith and L. Sewell, Walters.
Philadelphia 9, Detroit 8.
DETROIT, Sept. 18.—A ninth inning rally that drove Whitehall from the box and netted four runs before Daus could stop it, gave Philadelphia a 9 to 8 victory over Detroit Wednesday. Ty Cobb, by making three hits, two of which were for three bases, brought his total number for the season to 197. He needs only three more in the nine games remaining to be played to best the record he holds jointly with Willie Keeler of having made 200 or more hits in eight seasons.

The score: R H E
Philadelphia 010 002 114 9 14 0
Detroit 001 020 221 8 18 2
Grey, Harris Baumgartner and Perkins; Whitehall, Daus and Woodall.

Tunney Is Slightly Favorite In Even Battle With Greb

OLYMPIA ARENA, CLEVELAND, O., Sept. 18.—Gene Tunney, American right heavyweight champion, and Harry Greb, world's middleweight champion, fought ten rounds on fairly even terms here Wednesday night, according to a majority of newspaper experts at the ringside.

Tunney, punching more accurately and effectively, possibly was entitled the shade in the opinion of the experts. Greb fought his characteristic battle, bounding around the ring like a rubber ball and throwing punches from every angle. Tunney centered his attack on the middleweight champion's body, punishing him with right and left hooks at close quarters. He made Greb break half a dozen times with right smashes under the heart, robbing the Pittsburgher of speed.

Although they fought a furious pace neither was damaged. Tunney left the ring with only a slight cut on the forehead as a result of coming into contact with Greb's head in the clinches.

This was their fourth engagement, Tunney having twice defeated Greb after losing to the middleweight title holder the first time. Greb conceded about ten points to the light-heavy weight champion. He scaled about 166 pounds while Tunney's weight was near 175.

NATIONAL IDLE ACCOUNT RAIN; DETROIT LOSBS

Yankees Have Edge on Senators in Experience of a Gruelling Race to the End

NEW YORK, Sept. 18.—While rain kept all National League clubs idle Wednesday the Yankees again went into the lead for first place in the American League with Washington by taking two games from St. Louis while the Senators won one from Cleveland. Detroit lost to Philadelphia and is six games behind.

Chicago 3, Boston 2.
CHICAGO, Sept. 18.—The White Sox emerged from the cellar Wednesday when they launched an heavy assault against Ferguson and defeated Boston, 3 to 2. Ferguson had one bad inning when the Red Sox scored twice. His support was better than Ferguson's, the work of Davis, Columbus and the Association shortstop who reported Wednesday, being the outstanding feature.

The score: R H E
Boston 002 000 100 2 10 1
Chicago 000 000 003 3 6 1
Ferguson, Ross and Heving; Robertson and Crouse.

MEMPHIS CHICKS CLINCH 1924 RAG IN THE SOUTHERN

Dan McGrew Pitches Club to Victory Over Nashville For Last Game Needed to Win Association Honors

MEMPHIS, Tenn., Sept. 18.—Memphis Chicks clinched the 1924 championship for the Southern Association when they defeated Nashville 6 to 3 here Wednesday.

Each club has four more games to play. Should Atlanta win all of its remaining games and Memphis should lose all, the Chicks would still have a lead of half a game.

Counting Wednesday's victory, the Memphis club won a total of 192 games and has lost 48, a percentage of 680. Atlanta, a serious challenger for first place for several weeks, has won 97 games and lost 35 for a percentage of .647.

MEMPHIS, Sept. 18.—Dan McGrew pitched Memphis to a 6 to 3 victory over Nashville Wednesday. The big Tribesmen held the Vols to four scattered hits, all singles, while his teammates battered Morgan for nine safeties, including four doubles and a triple.

The score: R H E
Nashville 00 100 100—3 4 4
Memphis 200 120 01x—6 9 1
Morgan and Mackey; McGrew and Yaryan.

BIRMINGHAM, Ala., Sept. 18.—Birmingham, which has been in a losing streak, was defeated again Wednesday by Atlanta 13 to 7. Two Baron pitchers were unable to stop the hard hitting Crackers.

The score: R H E
Atlanta 200 172 001—13 14 1
Birmingham 110 210 002—7 12 2
Peterson and Mahoney; Calrk, S. Good and Spencer.

As a result of the enforced idleness the Giants continue to lead the Robins by one and one half games and Pittsburgh by two and one half. Double headers will be played by the three contesting teams today, but Pittsburgh, who postponed battle with Philadelphia Wednesday cannot be played off, definitely lost the opportunity to pick up a half game on its rivals.

The standing of contending clubs:

New York	84	59	.587	11
Detroit	79	66	.545	9

TY COBB STANDS CHANCE TO BREAK ANOTHER RECORD

With Nine More Games to Play He Stands at Threshold of Setting New Record in Number Hits, Losing One

DETROIT, Sept. 18.—With nine games remaining to be played by the Detroit Tigers, Ty Cobb stands on the threshold of establishing another record and also is in danger of losing one.

If he makes three more safe hits in the remaining games to be played his season's total of safe hits will be 200, bettering the record he now holds jointly with Willie Keeler, of making 200 safeties in eight seasons.

At the same time he probably will lose the record he holds jointly with George Sisler, of the St. Louis Browns, for the highest individual major league batting average for a season, (.420), Rogers Hornsby having an average higher than that figure Wednesday.

Cobb, in the 2,695 games in which he has played since entering the major leagues in 1915, has smashed more records than any other man who ever wore a baseball uniform.

He has made 100 or more runs in nine years—an American league record. His figure for 1924 now stands at 102 runs, bringing the number of years to ten for a new high mark.

He has been at bat 9,903 times, scored 1,208 runs, made 3,652 safe hits and batted 3,000 or better for 19 consecutive seasons—all of which are records. The figures include Wednesday's game.

Other records Cobb is re-establishing this season are the highest individual life-time batting average for a major leaguer; the record of the most games played in the league; the most years leading a major league in batting—12; the most singles; the most triples; the most extra base hits; the most extra bases on hits; the highest total of bases.

DATA FURNISHED

TALLAHASSEE, Sept. 17.—Data is being furnished by the local Chamber of Commerce to the American Automobile Association for their Florida historical map, that the map may be supplied as a standard of history in schools and libraries.

WEAK EYES

Are made strong by Leonard's Eye Lotion. Inflammation is cured without pain in one day. No other eye remedy so pure and healing. Keeps the eyes in working trim. It makes strong eyes. At all druggists.

English Lead Roofs Not Repaired Often

LONDON, Sept. 18.—The leaden roofs of some of England's old churches, a heritage from medieval times, occasionally have to be melted down, rolled over and then replaced. The lead itself is indestructible, but it has been found that at the end of every 200 years the metal should be recast to give the best results as a roofing material.

The lead on the famous dome of St. Paul's, however, has not been melted down since it was placed in position in 1710.

Boxer Indemnity Be Used For

TSINGTAO, Shantung, Sept. 18.—There is a on foot to secure the Boxer indemnity for the ment of a university in Suitable buildings for it tion already have been made by the municipal ation. They are the 'spasubstantial' Bismarck monument to the solidi manerice of German eb Dr. Jacob Gould Schu American minister at Pe recent visit to Tsingtau.

Big Improvement at little cost With Sheetrock

ITS wonderful what you can do for a little money when you remodel with Sheetrock the fireproof wallboard.

Big rooms can be partitioned off into extra rooms, unfinished additions walled and ceiled, attics and basements turned into valuable space.

Sheetrock makes solid, tight-jointed and fireproof walls and ceilings. It is pure gypsum cast in sheets—and unlike wood, paper or pulp, it is non-warping, vermin-proof, sound-proof and lasting.

Just nail the Sheetrock to the joists or studs and decorate as you please, with paint, paper or Textone, The Sheetrock Decorator. Made only by the United States Gypsum Company.

Ask your lumber or building material dealer for sample and prices.

UNITED STATES GYPSUM COMPANY

Takes Pleasure in Announcing the Opening of a Modern

Beauty Shop

ON THE THIRD FLOOR

In Charge of Mrs. Ethelyn Sherman

New and modern equipment has been installed and every service will be accomplished by experts who use the most approved methods.

- Manicuring
- Facials
- Shampooing
- Scalp Treatment
- Marcel Waving
- Permanent Waving
- Hair Dyeing

Mrs. Sherman and her assistant, Mrs. Hinzman, have studied beauty culture in the best schools and taken instruction from famous beauty specialists.

A Gabriel permanent waving machine and Feliz-Coune waving tub have been installed, assuring all the latest improvements.

All forms of beauty treatment will be given and the well known Burnham brand of cosmetics will be used and handled for sale.

Appointments may be made personally or by phone (2096) Beauty Parlor in advance if desired. You will enjoy the convenience of a visit while down town shopping.

BOBBER JIM'S SHOP

ENLARGED

In connection with the new Beauty Parlor is "Bobber Jim's" shop, enlarged and furnished with new equipment.

Bobber Jim has made himself famous for his special attention children and his ability to give the latest bob or shingle in the most proved fashion.

His shop is now equipped with four chairs and three expert barbers are in attendance. School girls, boys and little folks promptly served.

Daily Fashion Hint

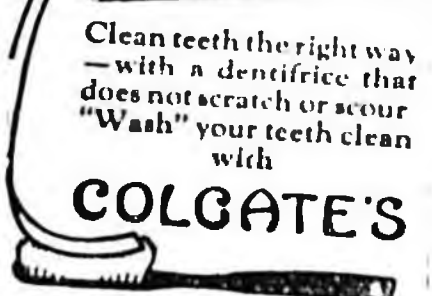

FLOORS AND SCARFS

The ideal of the Simplicity emphasis in today's fashions finds expression in the frocks pictured. Scarves play an important part in the plan of these models. To the left, a scarf of contrasting color and texture is worn over the shoulders. The scarf has the trimming, and has the ends gathered into tassels of monkey fur. Silk tassels may be substituted for the fur if preferred. Medium size requires 3 1/2 yards 36 inch plan and 2 1/2 yards figure 1 material. The scarf for the right is of medium sheer flannel, the blouse and scarf being stitched with silk thread. The scarf is attached to a cascade belt and belt in small plaits. Buttons from the blouse where it opens down the front, slightly to the left side. Medium size requires 5 yards 42 inch material.

First Model: Figure 1 Review Dress No. 2205. Sizes, 34 to 46 inches bust and 36 to 40 inches length. Price, 35 cents.

Second Model: Blouse No. 2201. Sizes, 34 to 44 inches bust and 16 to 24 inches length. Price, 30 cents.

Skirt No. 1649. Sizes, 34 to 50 inches bust. Price, 35 cents.

Clean teeth the right way — with a dentifrice that does not scratch or scour "Wash" your teeth clean with **COLGATE'S**

Rooms For Rent

FOR RENT—Housekeeping rooms, equipped with water, lights and gas. Apply 300 French Avenue.

FOR RENT—Two unfurnished rooms at 505 Myrtle Avenue. Call 328-W.

FOR RENT—Rooms. Wouldn't you be able to use the money secured by renting that vacant room now going to waste? There are many persons looking for places to stay. Help take care of them and not only make money but assist in keeping people in Sanford. Phone 148 and give your ad over the telephone. Use The Herald for quick service.

FOR RENT—3 rooms for light housekeeping, corner of Elm Ave. and 3rd St., 217. Phone 437-W.

FOR WORKING MEN

The most of workers get out of sorts when the liver fails to act. They feel languid, half sick "blue" and discouraged and think they are getting lazy. Neglect of these symptoms might result in a sick spell, therefore the sensible course is to take a dose or two of Helmine. It is just the medicine needed to purify the system and restore the vim and ambition of health. Price 6c. Sold by Union Pharmacy.

Daily Fashion Hint

DEFLECTING THE PARIS MODE

Interesting youthful Paris fashions in versatile ways are these frocks, both in color and in style. The first is a double-breasted frock with a double collar, the sleeves, as an example for the collar, and for pockets at the waistline. The lower edge of the skirt may be hemstitched if preferred. Medium size requires 2 1/2 yards 36 inch and 1 1/2 yards 36 inch material. To connect the second model, which is made to develop in other materials. Without the collar and buttons it could be effectively re-planned in gingham or chambray. Medium size requires 2 1/2 yards 36 inch material and 10 yards of material for ribbon.

First Model: Figure 1 Review Dress No. 1691. Sizes, 6 to 14 inches. Price, 30 cents.

Second Model: Girls' and Juniors' Dress No. 2171. Sizes, 14 to 19 years. Price, 30 cents.

Houses For Rent

FOR RENT—Four room house, garage, modern improvements. West First Street. Mrs. Annie Philp.
