

## THREE NATIONS REACH FINAL AGREEMENT

## BRYAN WILL BE DELEGATE FOR FLORIDA

### BRYAN FAVORS DRY MAN FOR PRESIDENTIAL CANDIDATE PREFERABLY FROM SOUTH

BUT DRY WHETHER FROM THE NORTH OR FROM THE SOUTH

### GIVES REASONS

Will Be Candidate For Delegate From Florida To The Convention

(By The Associated Press) A dry Democratic candidate for president, preferably from the South, is the desire of William Jennings Bryan, as indicated Thursday in an interview at Villa Serena, his Miami home, to which he returned Wednesday after a two-months' absence.

At the same time Mr. Bryan announced that he will positively be a candidate for delegate from Florida to the national Democratic convention.

"Is it true, as announced, you will be a candidate for delegate to the next national convention?" Mr. Bryan was asked.

"Yes," he replied, "I am as deeply interested in politics as I ever was and the next national convention is going to be a very important assemblage. I don't know how I could explain my absence from the convention, except on the ground of indifference or inability to secure a place on the delegation. I would be ashamed to confess indifference and I have no reason to doubt the willingness of the Democrats to send me. Florida has supported me for the presidency three times and it stands for reforms which I have advocated. For instance, Florida is dry; we have a dry governor, two dry senators, four dry congressmen and a dry legislature.

"Why should I assume that the state desires a wet president? I'm for a dry Democratic candidate—preferably from the South. But it is more important that he shall be dry than that he shall be from the South."

"You are opposed to Senator Underwood. Is it because he is wet?" Mr. Bryan was asked.

"That is one reason," he answered. "He is not only wet, but he is the wettest wet in our party, as proved by his past record. He opposed the Webb-Kenyon law, which was passed over the veto of former President Taft. He opposed the 18th amendment, which received more than two-thirds of the votes of both houses. He opposed the Volstead law, which also received two-thirds of the votes of both houses. And he opposed the anti-beer bill when it passed the senate 59 to 22. He led the fight against the law that made the District of Columbia dry and went to Alabama to oppose ratification of the 18th amendment, but was unsuccessful. Alabama elected a legislature over two-thirds in favor of ratification.

"Senator Underwood is watter than Gov. Smith of New York. Gov. Smith hesitated about signing a bill repealing the enforcement law, after the bill had passed the Democratic senate and Republican house, whereas, Senator Underwood was fighting for the veto in a dry state. A wet man in a dry state is presumably watter than a wet man in a wet state.

"Just now retirement is the issue. The government has recently been in conference with President Coolidge on this subject. Each one pledged the other loyal support.

"Why should Mr. Underwood have the audacity to seek the presidency with such a record and at such a time? Simply because the vets have picked him out as their choice." Mr. Bryan then declared this to be only half of his objection to the Alabama senator. He called him a reactionary and "a parasite" of the Democratic party.

### GERMAN MARKS TAKE BIG TOLL FROM AMERICA

Between Five Hundred And Seven Hundred Millions Lost

(By The Associated Press) NEW YORK, Nov. 5.—Between \$500,000,000 and \$750,000,000, have been lost by American investors through the collapse of the German mark, the New York Tribune stated today. English investors lost about \$500,000,000 and other nations a like amount. Frank H. Sison, vice president of the Guaranty Trust Company said he knew no parallel to such a wiping out of a nation's currency.

### MUSICAL COMEDY AT HIGH SCHOOL TOMORROW NIGHT

Mrs. and Mr. Polytick Promise Five Fine Entertainments

Mrs. and Mr. Polly Tickk a musical comedy will be presented Tuesday night at the school auditorium at 8:15. It is a hit of the season and will be the best play ever given by local talent. The play is supposed to be in 1975. There is a good plot throughout the entire play with plenty of comedy and good musical numbers. It is under the capable direction of Miss Lily W. Henderson, who is with the Wayne P. Sowell Lyceum Co., of Atlanta, Ga. She has been rehearsing the cast day and night and they are now ready to present a finished production.

### CAST OF CHARACTERS

Accompanist—Miss Anna Mason.

### AMERICANS HAVE THEIR HANDS ON THE PLOW SAYS HERRICK SPEECH IN FRANCE YESTERDAY

American Ambassador Says We Are Willing To Go Through

(By The Associated Press) NAVARIN FARM, CHAMPAGNE, France, Nov. 4.—"We have put our hands to the plow and we are willing to run the furrow through," said Myron T. Herrick, the American ambassador, discussing American participation in European affairs during a speech today at the dedication of a monument to the Americans and French who fell in the Campagne district during the world war. "Whether we like it or not," Mr. Herrick added, "our lot now is cast in with the other nations to a very considerable extent."

America's entry into the war, the ambassador said, was prompted by idealism and sentiment for France, but also by "plain common-sense business and for the right." For high motives to be effective in results they "must be founded on sound economics," he continued.

"The situation in Europe at this minute concerns America as profoundly though far less tragically than did the affairs of 1914 to 1917," the ambassador declared. "Our continued well-being depends largely upon the settlement of Europe's affairs and efforts for the exercise of the same common sense and business judgment as actuated America in joining the war."

"If we were to stand aloof from what we call this 'European mess' when it is apparent the balance can not be redressed without our help," the ambassador continued, "then why did we come into the war in 1917? Were we mistaken then? Were the government and the people wrong in the almost unanimous decision to act? I answer No. No such disgraceful verdict upon this case will ever be rendered by the American people. We have put our hands to the plow and we are willing to run the furrow through, for we now know if the present problems is not solved, and justly and quickly solved, then truly America will have fought in the war in vain."

Mr. Herrick said the United States had been forced into the war after three years of deliberation "by what we believed to be our own best interests, backed by moral indignation."

And now the same forces were "calling on us to aid in redressing the balance of the world."

"Can it be accomplished without us?" asked Mr. Herrick, who continued, "the logic of events is stronger than any man's wishes and the vital concerns of a country take precedence over the personal preference of their statesmen or its individual citizens."

"Because of the things we fought for, because of the things we hoped for, because of the things our men died for—whether we like it or not, our lot is now cast in with the other nations to a very considerable extent. This whole question rises far and away above the clamor and strife of partisan politics, and whosoever seeks to use it for political advantage nullifies the memory of the dead we come here to honor."

Frank Chance will not manage the Boston Red Sox next year. Yes, they have no chance.

### AMERICA, THE WORLD'S ONLY HOPE

Subject of Talk Before Scrap Iron Class By A. Raffeld

I appreciate keenly the honor of being chosen again to address you. It is really a pleasure and a privilege to assist in the magnificent work of this inspiring Sunday School. Only last week the splendid spirit of this wonderful body of men was demonstrated by a generous response to a call of charity.

My subject today is one of great importance, and in order to impress it more upon your memory I shall turn back the sacred leaves of the book of books—the Bible—and find there a similar circumstance to our present world situation.

There is a strange and almost insignificant statement in the Bible with reference to Noah that immediately after his emerging from the ark he planted a vineyard, drank of the wine and became drunk. The world destroyed before his eyes. We are eager to see him begin to build the new world of peace, happiness and honor, yet see he forgets the flood that raged for forty days; he forgets the loss of

(Continued on Page Six)

### NEW PROPOSAL ON THE SHOALS TO BE SOLD

Chairman Mad Wants Question Disposed Of In Congress

(By The Associated Press) WASHINGTON, D. C., Nov. 5.—Outlines of the new proposal for disposition of Muscle Shoals project contemplating duplication of Gorgas Steam Plant recently sold to the Alabama Power Company and its inclusion in the properties was presented to President Coolidge by Chairman Madden of the House Appropriations committee. Mr. Madden, it is understood is to have the proposed Muscle Shoals question be disposed of by Congress early in the forthcoming session and the president is understood to have approved the proposal. Mr. Madden expressed relief that Henry Ford would submit a revised offer for the property under this plan.

Frank Chance will not manage the Boston Red Sox next year. Yes, they have no chance.

### GOV. WALTON TOOK THE MONEY FROM CITIZENS

For Permitting Appropriation For School To Stand

OKLAHOMA CITY, Nov. 5.—Val Garner, formerly citizen of Tonkawa, Oklahoma appeared before the house investigating committee of Oklahoma legislature yesterday and testified in corroboration of charge that governor Walton received \$6,000 from citizens of Tonkawa for permitting appropriations for Tonkawa preparatory school to stand, committee members said today. Garner is said to have testified he delivered the money to an employee of the highway department that afternoon and Walton approved appropriation.

### U. S. COURT UPHOLDS ACTION K. K. K. DENIAL

Injunction Restraining Magazine From Publishing Exposure

NEW YORK, Nov. 5.—United States circuit court of appeals upheld action of Federal Judge Winslow in denying Ku Klux Klan injunction restraining International Magazine Co., from publishing in Hearst International an alleged exposure of Klan in articles written by Norman Haggood.

### ARMISTICE DAY CELEBRATION WILL BE BEPLETER IN DETAILS FOR WRETFUL PROGRAM

Parades, Athletic Contests, Football, Dances and Big Time All Day Long

The features of Armistice Day will be the Veteran's Parade, the football game between Miami High School and Sanford High School, big display of fireworks and dance in the evening.

The dance will be the greatest gathering in years as it will be held on the new asphalt Palmetto avenue at the Clyde Docks where the famous Fort Pitt Orchestra of Rochester, N. Y., will furnish the music. The day will be replete in every way in amusements and everyone that comes to Sanford will be assured of a good time. Orlando post will come here for the day and the Sanford band will furnish the music for all the parades and other events.

### GREAT BRITAIN, ITALY, BELGIUM HAVE REACHED ACCORD FAVORING FULL REPARATIONS

### SEPARATISTS HAVE BEGUN NEW MOVEMENT

To Control Bavarian Palatinate But French Tak Hand

(By The Associated Press) BERLIN, Nov. 5.—Separatists have begun movement to control Bavarian palatinate. A large band entered Kaiserslautern last night and attacked the town hall. They were repulsed but then occupied one of the government buildings and newspaper office. Early this morning the French police were clearing the streets.

### MUNICIPAL FIELD TO BE DEDICATED ARMISTICE DAY

Southern Athletics Will Meet, Rollins at Opening—Project Result of Public Effort

Armistice Day Monday, November 12th, will be memorable in the history of Winter Park and Rollins College. On that day Rollins will clash with Southern on the new municipal athletic field. The plan conceived and the field, the stands, fence and bleachers completed within a period of six weeks, the project stands as a monument to the determination and enthusiasm of Winter Park business men and residents whose interest lay in the college and its athletic achievement.

Five weeks ago at a session of the Business Men's Club the idea of erecting a stadium for athletic contests was discussed. Two prominent citizens, namely Messrs. Shepherd and Fuller offered in consideration of merely the payment of taxes, the lease of a large tract of land on the Orlando-Winter Park highway. The offer was accepted and the next morning another crew of men were out raising funds for the erection of the fence and stands and the finishing off of the field. By nightfall the success of the project was assured.

New the fence is built, the grounds have been improved and workers are busily engaged in preparing for the entrance.

The stands will be stucco, with wooden benches, stolidly built and with a seating capacity of 1000 persons. Parking space for automobiles at the opposite sides of the field will make room for an additional 1000 while there will be standing room for an unlimited number. There will be no dearth of space within the enclosure. The entrance to the field will be an attractive arch of cement facing on the Dixie Highway, with gates large enough to take care of the auto traffic. The entire project will be finished in time for the Rollins-Southern game.

Southern is entirely worthy to be the team to christen the new field and there is little doubt that the game will be one long o be remembered, and the grid warriors of old Rollins will have their hands full to pull a decisive victory over the Lakeland aggregation.

Another dream has been realized for the college and for the town and too much credit cannot be given to the men whose fighting spirit and loyalty has been responsible for the building of the Winter Park Field.—Winter Park Herald.

### INQUIRY BY AN EXPERT COMMITTEE AND AGREE WITH U. S.

### OPPOSE STAND

For Restricted Inquiry Only Taken By France Formerly

(By The Associated Press) WASHINGTON, Nov. 5.—The state department today indicated that Great Britain, Italy and Belgium have reached accord favoring free and full reparations inquiry by an expert committee. In effect the position of these three governments as understood here coincides with that taken by the United States and opposes stand for restricted inquiry only taken by France. This new alignment of allied nations appeared to stimulate hope that France eventually would, too, accept the unexpected program.

### BRIVE, France, Nov. 5.—Premier Poincare, speaking at the unveiling of a monument to the war dead at Brive yesterday again defined his position as regards German reparations. He did not show the slightest variation in his speech from his previous declarations.

The premier said the experts committee of the reparations commission must not be allowed to become the indirect means of raising the question of the amount of Germany's debt, nor must France be despoiled of her guarantees prior to the total payment of reparations.

France, M. Poincare declared, would remain within the framework of the treaty "before, during and after" the work of the experts' committee.

### City Planning Architect Will Address Citizens Court House Tues Night

On the Subject of What Sanford Needs in Planning and Zoning

Sanford is fortunate in having George Pfeiffer of Lemon City here to look over the city and to tell them tomorrow night at the Court House what his city needs. Mr. Pfeiffer was for many years a resident of Chicago where he specialized in city planning but having retired from active service he made his home in Lemon City this state for the past few years. He was on his way to a meeting in Orlando when he stopped over here at the behest of S. O. Shindler of the City Planning Commission to see what plans could be made for a Sanford Beautiful.

Mr. Pfeiffer will take the City Planning Commission over the city tomorrow and will make a rough estimate of what is needed and will be able to tell the citizens what is needed here in his brief outline tomorrow night at the court house. Everyone is invited to come out to the meeting tomorrow night at eight o'clock and hear about this very important subject for the beautification of Sanford is one of the most vital questions that now confront the citizens.

### Bonar Law's Ashes Laid To Rest In Westminster

Which Has Been Scene of Sorrow and Happiness

LONDON, Nov. 5.—Ashes of former premier Robert Law were entombed in Great West Minister Abbey which has been the scene of both greatest happiness and sorrow of the nation.

If you have any friends visiting you—if you are going anywhere or coming home, or if you are entertaining, write a postal card to this department, giving details, or telephone the item. It will be greatly appreciated.

## SOCIAL CALENDAR

**Saturday**—Miss Georgena Hart will entertain a number of her young friends at her home on Sanford Heights at 8:30 p. m.

**Saturday**—Cooked Food Sale at Union Pharmacy by Pipe Organ Club.

**Monday**—St. Agnes Guild meets at the home of Mrs. R. W. Pearman, Jr., at 8:30 p. m., with Mrs. Pearman and Mrs. Wm. Belding as hostesses.

**Monday**—Women's Guild of Holy Cross will hold their regular monthly meeting at three o'clock at the Rectory.

**NEEDLESS KNOCKING**  
How much joy we're losing  
In the precious time we're using  
To criticize the other fellow's ways.  
No matter what the reason,  
There's something in that fellow fit for praise.

How much of gas we're burning  
On highways ever turning  
To find out where the other fellow strays,  
Perhaps he has been reckless,  
But your own life, it is speckless?  
There's something in that fellow fit for praise.

How much of peace we've squandered  
And how far from truth we've wandered  
To fill with woe the other fellow's days,  
And the method we're pursuing,  
Will at length be his undoing—  
Yet there's something in that fellow fit for praise.  
Vivian Yeiser Laramore.

Rodman Lehman has returned home after spending the past four months in Michigan and other points in the north.

Mr. and Mrs. R. J. Holly motored to Gainesville today where they will attend a Rotary meeting and also the Theta Ribbon dance.

Mrs. J. Howard Jarrott, of Savannah, Ga., is spending a few days with her daughter, Mrs. John Wilbur McKee at her home on Oak avenue.

Mrs. Mary G. Stovin of Winter Park is the charming guest of Mrs. Alexander Vaughn at her home on Sanford Heights.

Tom Bird, Aldine Bird and Jim Lantz of Orlando were visitors in the city last evening, coming over to attend the Epworth League social.

Mr. and Mrs. C. W. Crawford of Cedar Rapids, Iowa, who are touring the state arrived in Sanford yesterday and will be at the Montezuma for a brief sojourn.

Mrs. D. B. Upchurch of Birmingham, Ala., who has been the guest of her sister, Mrs. George Shipp, left yesterday for Tampa where she will visit relatives.

Mrs. Forrest Lake, Paul Lake, Calvin Teague and Edgerton Patterson motored to Gainesville today where they will join Miss Sarita Lake and attend the Theta Ribbon dance this evening.

Miss Lucy Byrd Smythe, who has been visiting friends in New York and New Jersey is motoring home with a party of friends and is expected to arrive here Tuesday.

Misses Grace and Dorothy Meigs of Palatka will be the guests today of Mrs. J. N. Robson, coming over to attend the Palatka-Sanford football game.

Mrs. Metro's circle of the Presbyterian church held an all-day meeting yesterday at the home of Mrs. H. J. Lehman on Palmetto avenue, working

on articles for the Christmas bazaar which will be held November 30 and December 1st.

Mr. and Mrs. Harry Walsh, Mrs. R. B. Chapman, and Miss Lee Ammons motored to Orlando Thursday where they spent the day most delightfully combining business and pleasure.

Mrs. R. M. Ogilvie of Columbia, S. C., is the charming guest of her sister, Mrs. Turner Houser at her home on Palmetto avenue. Mrs. Ogilvie will be remembered here as Mamie Hill.

**WESTMINSTER CLUB.**  
The Westminster Club will meet next Monday afternoon instead of this Monday as previously announced.

**ENTERTAINS SUNDAY SCHOOL CLASS.**  
Miss Mary Alice Shpp entertained the members of her Sunday school class very pleasantly last evening at her home on Sanford Heights.

Quantities of daisies, goldenrod, together with Halloween novelties were lavishly used in the various rooms.

Making articles for the booth at the Christmas bazaar and sewing caused the evening to pass quickly. At a late hour, the hostess assisted by her mother, Mrs. George Shpp, Mrs. Henry Nickel, Mrs. Entzinger and Mrs. Renaud served refreshments of sandwiches, cake and hot chocolate.

**HAPPENINGS OF A WEEK AT THE STATE COLLEGE.**

**FLORIDA STATE COLLEGE FOR WOMEN, TALLAHASSEE.**—Miss Katherine Lumpkin, national student secretary on the Y. W. C. A., visited Florida State College Oct. 19-23. The entire student body welcomed Miss Lumpkin most cordially, for she has a widespread reputation throughout the southern region for being an efficient Y. W. C. A. worker and a very attractive, and athletic young woman, besides being especially famous as a song-leader.

Miss Lumpkin conducted two college "sings" while here, both of which were unusually well attended. The results of these "sings" have inspired in the student body a desire to have the college "sing" become a regular custom, and the social department of the local Y. W. C. A. is at present considering the sponsorship of such "sings."

Miss Lumpkin also met with cabinet and discussion groups during the short time she was here, and had personal interviews with girls especially interested in Y. W. C. A. work. Several delightful little courtesies were extended Miss Lumpkin, including a tea given in her honor by the Y. W. C. A. Commission girls.

**Club Elections.**  
The officers of the Classical Club for this year are:  
President—Miss Marjorie Williams.  
Vice-president—Miss Annette Ball.  
Secretary—Miss Marie Hiler.  
Treasurer—Miss Julie Dilzer.  
The History and Social Science club has elected the following officers for the current year.

Vice-Pres.—Miss Gladys Vaughn.  
Secretary—Miss Maud McCall.  
Treasurer—Miss Katherine Prime.  
Chairman of Program Committee—Miss Elizabeth Gerald.

The girls hailing from Palm Beach county have now organized and elected their officers for the year. They are:

President—Miss Esther Creamer, West Palm Beach.  
Secretary—Miss Leola Vrooman, Stuart.  
Treasurer—Miss Ruth Vallowe, West Palm Beach.  
The club has already started a series of good times, the first of which was a feast party last Sunday night.

**Dinner Party.**  
Miss Margaret Moor, of Tallahassee, was hostess at a most enjoyable picnic-dinner party at Lake Brad-

ford last Sunday. The guests, numbering twenty-five, were conveyed to the lake in cars. After dinner, boating and other camp pursuits were enjoyed until about sunset, when the party returned to the college.  
Dr. and Mrs. F. C. Moor, Mr. and Mrs. Lewis Lively, and Mrs. Ida M. Mowell chaperoned the party.  
Carlton-Garner.

To the friends of Miss Ruby Garner, of Arcadia, will come as a surprise the announcement of her marriage on Oct. 20 to Mr. Royce Carlton, also of Arcadia. The couple will make their home in Arcadia. The bride was an attractive member of the Sophomore class of Florida State College.

**EPWORTH LEAGUE NOTICE**  
Everybody be out to league at the Methodist church, Sunday night 8:20 p. m. Tom and Aldeen Byrd will be there. Come out and join us.

**Days of Crooks In Real Estate Game Are Almost Ended**

ORLANDO, Fla., Nov. 3.—(Special)—"The day of the crooked land man in Florida is nearing an end," said John Wallace, Jacksonville, secretary of the Florida Realtors' association, in announcing final plans for the seventh annual convention to be held in Orlando, Monday and Tuesday, Nov. 5-6. The State and National Realtors' Associations are holding high ideals and setting new standards of practice and business ethics among real estate men and every convention like the one in Orlando next week should attract every straight-forward, square dealing real estate man in the state and will cause added consternation in the camp of the fellows who are out after the almighty dollar regardless of principle and fair dealing.

A thousand Florida realtors and wives are expected at this convention, which promises to be the largest ever held in the south. Delegates are coming from every section of the state and every available hotel room will be crowded for this gathering. The program is the strongest ever prepared for a similar gathering and any one of the six sessions of the two days will be worth the cost in time and money required in attending this gathering.

There will be four brass bands and two orchestras on duty during the convention and lots of realtors songs will be sung by the delegations from the various cities. Entertainment features include a motorcade through the beautiful groves and rich truck fields of western Orange county Monday afternoon, with a fish fry Monday evening at Gotha. Tuesday the convention will attend the Rodeo and Round-up at the Orlando Fair Grounds, as the guests of the Orlando Realty Board.

Churchwell's advertise specials in men's and boys' clothing for tonight and announces that, the handsome representative is still there to take your measure for that fall suit—but you'll have to hurry, as he leaves tomorrow. Extra low prices will prevail throughout the store tonight.

**MARK IS NOW WORTH LOT LESS THAN NOTHING**

BERLIN, Nov. 3.—New York's appraisal of the mark on a basis of one and two-thirds trillion to one dollar moved Chancellor Stresemann to convoke a midnight session of his rump cabinet at which several emergency ordinances were proclaimed for the purpose of forestalling a similar collapse of the mark in Berlin.

The effect of the cabinet's action is to establish definite relations between the paper mark and the new gold loan which is planned as forerunner to stabilize the currency. The paper mark will figure as fractional currency and a term will be fixed for its ultimate redemption.

**ANTI-MOSQUITO ASSOCIATION TO MEET**

JACKSONVILLE, Nov. 3.—The Florida Anti-Mosquito Association, will hold its second annual conference at Bartow on December 6 and 7, according to information received here. Last year's conference was held at Daytona when the initial crusade against the mosquito in Florida cities and towns was mapped out. Medical men from St. Petersburg, Tampa, Bradenton, Orlando, Lakeland, Sanford, Pensacola, Key West, Miami, West Palm Beach, Fort Pierce, Titusville, New Smyrna, St. Augustine, Jacksonville, and other places, attended that gathering, and pledged themselves to fight the pest with new vigor.

**MISTRIAL RESULTS AFTER JURY IS OUT EIGHTEEN HOURS**

DADE CITY, Nov. 3.—A mistrial resulted in the case of Ira Holmes, charged with robbery in connection with \$11,500 hold up at Lacochee last June. The jury deliberated 18 hours.

While Chicago cops are hunting a man named Appel an Appel every day keeps the cops away.

No matter how catty a woman gets she may be afraid of a rat.

## LOCALS

C. F. Collier of Prattville, Ala., is a visitor to the City Substantial stopping at the Valdez.

J. H. Stiff of Atlanta, Ga., was one of the arrivals at the Valdez Friday. He will be here several days looking over business conditions.

J. C. Downes of the Tampa Tribune is a guest of the Valdez while in the city looking after business interests of his paper.

J. B. Carlisle of Ocala, is in the city today calling on the local hardware dealers. He is stopping at the Valdez.

C. E. Daniels is a visitor today to the City Substantial from Lake Wales, coming up on a brief business trip. He registered at the Valdez.

J. L. Duffy was among the guests registering at the Valdez Friday. He will be in Sanford several days enjoying the fine fishing in near by lakes.

Saul Robbins was a business visitor to St. Petersburg yesterday. Saul says that's a real town, but that Sanford suits him pretty well.

Mr. and Mrs. R. J. Holly and daughter, Miss Mildred, left this morning for Gainesville, where they will spend the week-end.

Post cards from Mr. and Mrs. N. J. Lillard announce their safe arrival at Andalusia, Alabama, where they will make their future home.

E. D. Parsons, of Jacksonville, well known and frequent visitor in Sanford, is spending several days at the Valdez while on business for the Walsh Tire Co.

M. G. Sillman of Orlando, general salesman of auto supplies is in Sanford for a few days calling on the local accessory dealers. Mr. Sillman makes his headquarters at the Valdez when in the city.

Margaret Eleanor Hamrick, the little four years old, daughter of Mr. and Mrs. J. L. Hamrick, died this morning at the Fernald-Laughton Hospital, and will be buried tomorrow afternoon. The funeral service will be conducted at the home of Mrs. H. S. Hamrick, 520 Palmetto avenue at 2:30 o'clock, and the burial service will follow.

The Manhattan Cafe, located at 104 Palmetto avenue, publishes the menu of their 60c Sunday dinner—and it certainly reads good. Geo. A. L. Cook, the proprietor, is a restaurant man of much experience, and guarantees to please you in quality and quantity and promises service unexcelled. Here's your opportunity for getting a good Sunday dinner cheaper than it could be prepared at home.

The Diamond Palace has just received an elegant assortment of diamond rings that are being sold at much less than their real value. Weinberg says he is making special prices on everything in his big stock today and Monday and says he will save you money if you give him a chance.

The Valdez Grill publishes the menu for the excellent Sunday dinner that will be served the guests of that popular cafe tomorrow. A glance will show that just about all the good things on the market will tickle the palates of all who avail themselves of the opportunity. Let Mary have a rest and take her and the kids to the Valdez Grill for dinner tomorrow.

## NOTICE

Notice is hereby given that the book for the registration of voters of the City of Sanford, Florida, has this day been opened for the purpose of registration, and will remain open until November 24th, 1923.

Witness my hand as City Clerk and the seal of the City of Sanford, Florida, on this the 3rd day of November, A. D., 1923. L. R. PHILIPS, City Clerk.

(Seal)

The chorus, do you say? Well, when it comes to honest-to-goodness charm and downright good-lookingness, this chorus can make the Follies of 1923 look like a Ladies' Aid Society on a hot August afternoon. 187-1tc.

**SIGNS YOU CAN BELIEVE IN**  
If your breath is bad and you have spells of swimming in the head, poor appetite, constipation and a general no-account feeling, it is a sign your liver is torpid. The one really dependable remedy for all disorders in the liver, stomach and bowels is Herbine. It acts powerfully on the liver, strengthens digestion, purifies the bowels and restores a fine feeling of energy, vim and cheerfulness. Price 60c. Sold by Union Pharmacy.

The Herald delivered six times a week for 15c.

**SURE IT DOES GOOD**

Theford's Black-Draught Liver Medicine (Vegetable) Praised by the Head of a Louisiana Family.

Lake Charles, La.—"I don't know what we would have done had we not had Black-Draught. It sure is one of the best medicines made, and am sure the best liver medicine," said Mr. Henry Garrett, of this city.

"My whole family uses it," continued Mr. Garrett. "My wife says she believes she kept off the flu by taking doses of Black-Draught regularly."

"I, myself, use Black-Draught for indigestion, and it is fine."

"We used pills and tablets and other laxatives, but they never seemed to do us good, but the Black-Draught sure has, and it has come to our house to stay. We give it to our daughter for headache and torpid liver."

"I am glad to recommend anything that has been the help to my family that Black-Draught has."

"My present health is good. Have two boxes of Black-Draught in the house now."

If your liver gets out of fix, take Black-Draught. It will help to drive the bile poisons and other unwholesome matters out of your system.

Sold everywhere. NC-148

NO. 333 Nemo 3 SELF-REDUCING CORSET

Nemo Self-Reducing No. 333 is a real bargain. It has a low top and medium skirt. Made in durable pink or white coutil; sizes 24 to 36—and costs only \$3.00.

If your dealer can't get it, send name, address, size and \$2.00 to the corset. Nemo Hygienic-Fashion Institute 120 E. 16th St., New York (Dept. 8).

# This Is The Town That Bell Rebuilt; American Relief Administration Worker Uses Corn As Lure and Ufa Takes New Life

CIVIC IMPROVEMENT AT UFA.

Ufa, in Russia, isn't the town it was. American corn pulled it out of the mud, as well as out of the famine. Pavements, bridges, sewers, even railroads have been built in and about Ufa by workmen under the direction of Colonel W. L. Bell, who hired them, not because they were strong enough to do the work most efficiently, but because they were starving, and could be paid in corn which they would have received anyway. "Those who work eat" was Colonel Bell's dictum and as everybody was hungry everybody worked.

Twenty miles of railroad, a rock-lined storm drain half a mile long, 278 new bridges, repairs to schools and hospitals and miles of new road are among the permanent improvements in the Ufa area as a result of the famine relief work as administered by Colonel Bell.

The railroad runs from Beloutze to Laphistra just south of the main line of the Trans-Siberian and just east of the Urals. It connects the Beloutze Iron Works with important coal and iron ore areas and has enabled the works to be run continuously. The storm drain is in the city of Zolotoust and had been projected for years, but there was never enough money on hand to build it. When the corn came there were hundreds of men—all famine victims—who were hungry and content to work for food. The 278 bridges are built across creeks and lesser rivers throughout the area.

The policy of making relief and reconstruction go hand in hand has been generally pursued by the American Relief Administration. Physicians were given food packages and thereby enabled to continue their practice. The Russian doctors who carried out the program of inoculation against disease were paid with food. In so far as possible the relief given to homes and hospitals was used as a spur to raise the standards of the institutions.

Senator Smith W. Brookhart of Iowa returning from his recent visit

to Russia said that the American Relief Administration had given that country a "national education." "The idea" continued the Senator, "that in return for the food, roads should be built; hospitals and children's homes repaired and equipped; cities cleaned up and put in a sanitary condition, and that the workers should be paid in food was a wonderful one. It worked out marvelously and you will find that the Russians themselves will adopt it in the future. It is an idea of unlimited possibilities."

of body construction and high quality of its equipment.

The price is \$1,475 f. o. b. factory. The new Light-Six Coupe seats five passengers in perfect comfort. Thereat seat extends clear across the full width of the body, providing ample room for three. The driver's seat and auxiliary seat are identical in size and cushioning. The auxiliary seat is of an improved bucket type and can be folded out of the way when not in use, making it easy and

convenient for all passengers to enter or leave the car.

The body is of Studebaker construction and in every detail will be found evidence of the highest quality of materials, specifications of ample dimensions and painstaking craftsmanship. Studebaker's 71 years' experience in building highest grade vehicles is reflected throughout this car.

Upholstery of Chase mohair with top lining, trimming and floor carpets in harmony.

The lighting equipment includes distinctive head lights, attractive coach lamps and rear corner reading lights which are operated from the instrument board. The broad rear side door and windows are raised and lowered by convenient regulators. All hardware is nickel finished.

The doors are extremely wide and are hung on concealed hinges. Disappearing checks keep the doors in place while open.

A luggage rack at the rear with nickel-plated rail and aluminum panel guards add to the utility of the car.

The Light-Six five passenger coupe is also equipped with high quality heater; one-piece, rain-proof windshield with windshield cleaner; built-in, glare proof, glass visor; quick-action cowl ventilator; thief-proof transmission lock; eight-day clock, and refinements that contribute to the comfort and convenience of passengers.

Two complete east coast roads

MIAMI, Nov. 5.—Within five years two complete highways will be required between Palm Beach and Jacksonville and three separate highways between Miami and Palm Beach, to amply and Palm Beach, i. o. s. sine 4q-4 take care of the traffic.

This is the prediction of Major Arthur E. Loder, United States engineer in charge of federal aid projects in six southeastern states. The prediction is made in connection with his appeal to the county commissioners to take advantage of \$200,000 federal aid appropriations before the state road department should be forced to switch the funds to some other county. Traffic over the road between here and Palm Beach is already the heaviest of any similar stretch of road in Florida, and is increasing at a phenomenal rate, Major Loder stated.

United States Mint employees are asking for more money even though they are making millions.

Every good auto salesman shows the various parts of the car she sells. That's why Lydia Pinkett, New York society girl, is studying auto mechanics. She will be a spokeswoman at the benefit night for the National Child Labor Committee's contributions to be donated to charity. The affair will take place on Nov. 7.

## Only Eight Accidents At Railway Crossings In Month September

Automobile Drivers Are Exercising More Care.

Although automobile travel was greater than ever before, there were only eight automobile crossing accidents on the Atlantic Coast Line in September 1923. There were no fatalities and slight injury to only one person. During the month 14,250 trains were operated over the 4,800 miles of track owned by the company with an average of about one crossing per mile. The small number of accidents and the correspondingly small personal injury may be attributed, in part at least, to increasing carefulness of automobile drivers in approaching crossings as a result of the Careful Crossing Campaign by the railroads in the past two years and reflects results of passage in certain states of legislation requiring vehicles to stop before crossing railroad tracks.

The number of automobiles and motor trucks in the territory of the Atlantic Coast Line is shown by government statistics to be greatly in excess of any previous year, and is steadily increasing. At the same time there is a rapidly growing number of automobile tourists from other sections. If only a small percentage of these drivers are reckless, the total number who endanger their own lives and the lives of others at railroad crossings is very considerable and the possibility for crossing accidents is correspondingly large. The record for September is taken, however, to indicate that accidents of this sort can be eliminated if automobile drivers will exercise proper caution.

## OKEECHOBEE DISTRICT GETTING DRY AGAIN AFTER THE BIG FLOOD

JACKSONVILLE, Fla., Nov. 5.—The lands are drying in the Okeechobee district, and waters are within the canals over much of the territory which was recently flooded as a result of the breaking of the dykes in the Moore Haven district, says the weekly weather and crop bulletin of the Florida section of the U. S. weather bureau, covering conditions through the week ending October 29.

Bad news from Cuba. Revolution threatened. Hope some nickel cigars get broken in fights.

The kitchen is cool because the fire is not going except when you are getting meals

## Why keep a fire going when you are not cooking?

A COOL kitchen in hot weather is worth almost anything to a woman. You can have a cool kitchen and at an actual saving of expense. The Florence Oil Range cuts fuel bills sharply, and the comfort you gain is beyond price.

The heat in a Florence Range is intense, but it goes into the cooking, not into the metal of the stove or out into the room. Anything that you cook on a coal or gas stove can be cooked quickly and well on a Florence Range. When you are through cooking, you just turn out the flame.

The Big Burners The best in the Florence burners is close up under the cooking where it is not wasted.

### Burns cheap fuel

The fuel used—the vapor from kerosene—is cheap. Merely touch a match to the Asbestos Kindler. In a few moments you have a clear blue flame close up under the pot. You can regulate the heat to any degree desired.

It is not a wick flame, such as you see in the ordinary oil lamp.

The Florence means a clean kitchen, with no ashes or soot—just quick heat when you want it and only when you want it.

### A thing of beauty

Porcelain enamel, black frame and nickel trimmings make the Florence Range an object of beauty worthy of any kitchen. It is built of the finest and strongest materials and will last for years.

There are certain exclusive features of the Florence that you will appreciate instantly when you examine this modern stove in the store.

It is sold by department, furniture, and hardware stores. Go in and see for yourself how the Florence works.

Florence Leveler Attached to each leg of the stove, this device enables you to set the stove level on an uneven floor.

BRYAN FAVOR DRY MAN FOR PRESIDENTIAL CANDIDATE PREFERABLY FROM SOUTH

(Continued from page 1) party. He received Mr. Underwood's political history since 1912, when he said Underwood was "Wall Street's second choice for president and Gov. Harmon the first choice."

Mr. Bryan asserted that Wall Street was always active at Democratic conventions, but that it threw the party down at elections. "Senator Daniels, who took an active part in the nomination of Judge Parker, told me," he said, "that after the election that many of those interested in Judge Parker's nomination took no part in his campaign."

"Just before the election, Parker complained that New York financiers were supporting Roosevelt instead of him and yet they are trying the same game this year and using the same argument to deceive the Democrats of the south."

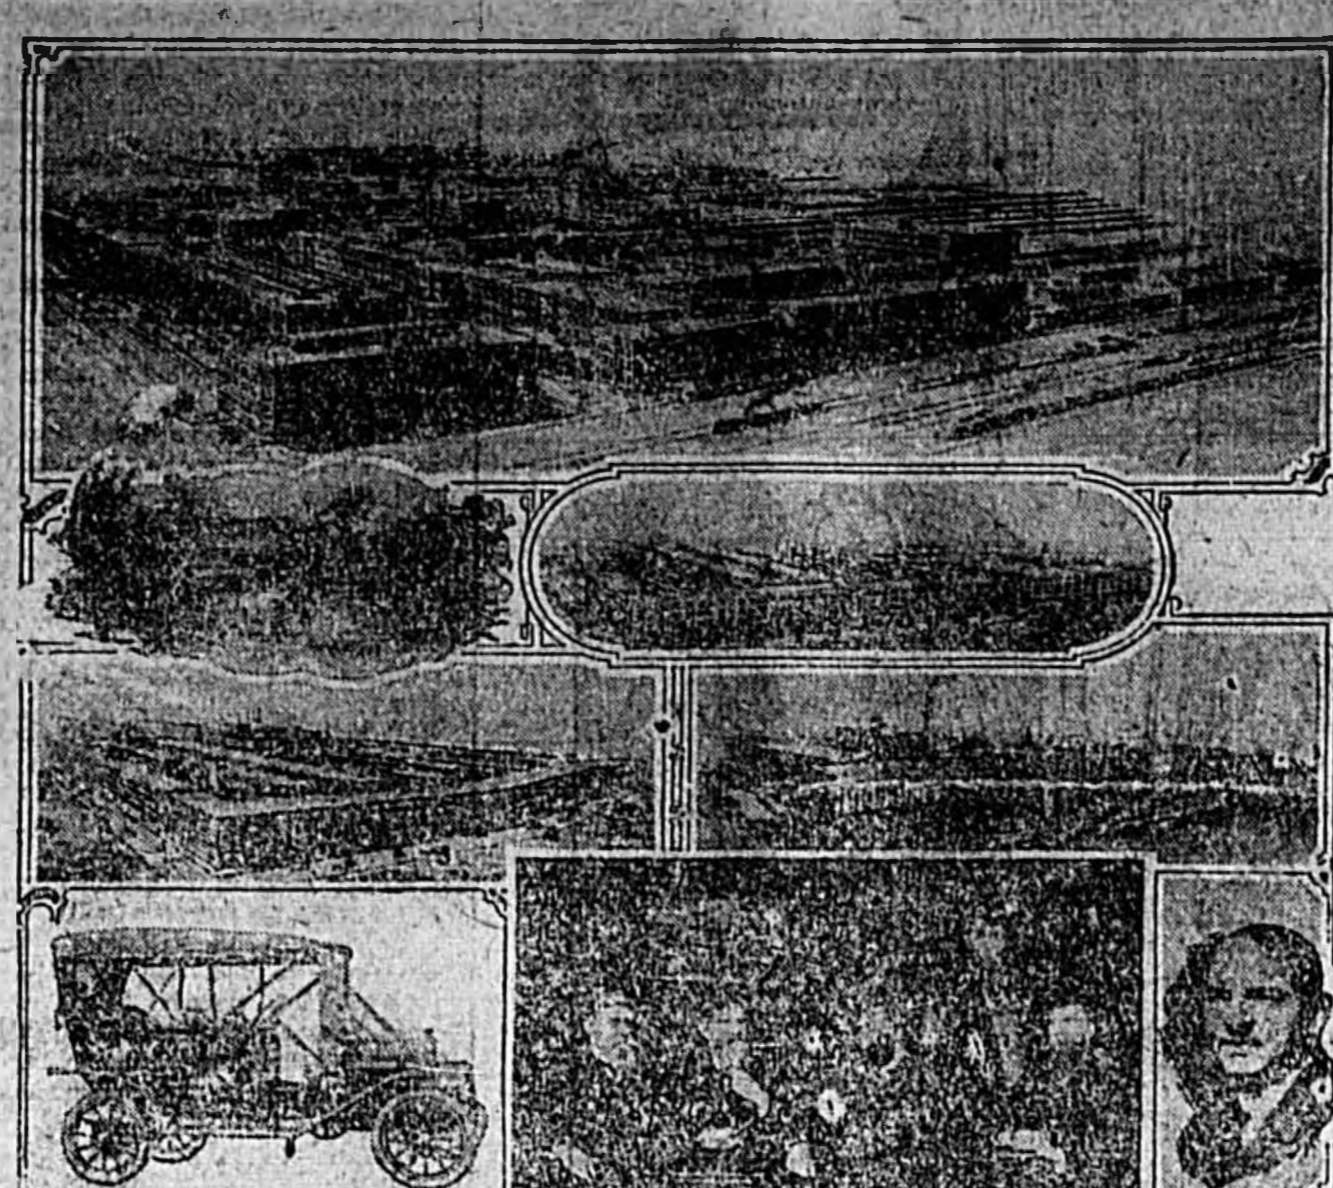

"It would be possible to pick out a good man for the presidency in each one of the southern states, a man who would poll several million more votes than Senator Underwood, but these men are not mentioned by the corporation or wet papers. Nobody but a wet and a man in sympathy with big business can get any mention in papers controlled by financial interests."

The Commoner reviewed the 1912 convention, when Mr. Taft was nominated. He said that if the Wall Street element had also nominated a Democrat in Baltimore, as it tried to do, Roosevelt would have been elected. He declared Champ Clark was not a Wall Street man, but that the New York delegation voted for him with the hope of using him to defeat Wilson.

"In the coming campaign, there will be a third party in case the two big parties both nominate reactionaries. A man like Ford could run as an independent candidate and beat a Republican reactionary and any Democrat like Underwood," Mr. Bryan said.

Asked whether he thought the Democrats had a chance to elect a president next year, he replied: "Yes. All elections recently held indicate that the tide is running strongly toward the Democrats away from the Republicans. But Democratic success depends upon Democratic fidelity to the masses, who are suffering more than they have in the last 30 years because of indiscriminations against them."

Seventy-First Birthday Anniversary is Celebrated by Studebaker at South Bend

President Erskine Awards Medals to 1370 Employees Who Have Served Corporation From Five To 20 Years and Longer. Of This Number 220 Have Been With Studebaker From 25 To 60 Years.

THE seventy-first anniversary of the Studebaker Corporation was observed at South Bend, Indiana, with entertainment at Springbrook park to which the families of 12,000 Studebaker employees in South Bend had been invited.

During the afternoon President A. R. Erskine presented medals to employees of the Corporation for periods of five, ten, fifteen or twenty years. More than 1,100 employees received bronze medals for five or ten years service; 150 were awarded sterling silver medals for 15 years, and 220 had gold medals placed upon them for more than 20 years employment by the House of Studebaker.

Motor Car Control Is Very Essential To Drivers Now

Congested Traffic Makes Better Control Necessary. Motor car purchasers, careful to consider safety elements in automobile construction, are giving more and more attention all the time to cars in which the operations necessary for proper control in traffic are reduced to a minimum.

The production of camphor was attempted in Putnam county, Florida, several years ago, but it was put out of business by the Japanese lowering the price of the gum. Similar enterprises in other countries were also destroyed. Now the Japs have put up the price. During the last ten years the United States has imported 42,000,000 pounds. The camphor trees do well in Florida. It makes a fine shade tree.

BEAUTIFY THE HIGHWAYS. VERO, Nov. 5.—Under direction of the local beautification committee, work of setting out coconut palms and Australian pines along the Dixie highway north and south of the Vero city limits will be started this week. The trees will be planted 1,000 feet in each direction.

Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

Orlando will be some lively place this week.

One never appreciates the good roads of this section until you have been in central and west Florida.

Our great state university promises to be one of the greatest in the south and with the proper support and financial assistance it will grow and expand to large proportions.

Senator Culberson will write "Personal Reminiscences" at so much a "rem" and sell it to the newspapers. We are not interested in what Senator Culberson saw or did at Washington.

"Plant more hens" is the advertisement of a bank in south Florida and the ad goes on to say that there is money in hens and the bank will loan money on such a proposition. It should be done.

When a dozen or so of the members of the Oklahoma House of Representatives get into a fist fight on the floor of the capitol building, it does not appear strange that the state bonds such men as the noisy Walton.

The government printing office and postal service could save millions by cutting out the vast amount of silly stuff that is printed and sent through the mails every day to newspapers only to be thrown into the waste basket. People are not interested in dry statistics.

A non-commissioned officer is Leavenworth prison for ten years for alleged theft is now said to have been "framed" by officers higher up because he knew too much. It is also alleged that he has lost an eye and some teeth from brutal treatment. It is high time that these cases of frame-ups and brutal treatment were investigated and if the higher officers cannot do the investigating the civil authorities should do so. There was enough of this rough stuff in the world war.

There may be larger and more populous counties in the state of Florida than Seminole County but we will hold up our right hand and solemnly swear that there are no better counties in a million different ways. And the greatest asset in the eyes of the new people are our good roads and we should keep this our most valuable asset by keeping these roads in good condition. There is nothing that puts a stranger in a bad frame of mind quite so easily as detours and fills and bad roads for miles and miles and for years and years before they are finally built.

INSIDE INFORMATION

Thursday will be gala day in Jacksonville when the municipal golf links are thrown open to the public. Sanford should also celebrate when the municipal links here are thrown open to the public informally. The public is cordially invited to play golf now on the municipal links and everyone should go out there at least twice a week if you do nothing but visit. It is your course and you should be proud of it and never lose an opportunity to take a stranger out there and show him what a wonderful golf links and country club we have in Sanford.

This is great growing weather for lettuce and celery and we should all go to work with a "win and wigor" feeling that we face one of the most prosperous seasons in our career. Sanford will only go ahead and develop as we keep pushing and boosting and building and this is the time to build and get others to build. And while you are thinking of it now is the accepted time to make the big insurance companies change their mind about about our ten thousand inhabitants. There is no better investment in the south than Sanford real estate.

BRYAN IS OUR MAN.

The state press seems of the opinion that Florida would do extremely well to let Mr. William Jennings Bryan remain in Miami and send others to represent the Florida democracy at the next national convention. —Daytona Journal.

We don't know how you draw your conclusions about the state press but if you ask the Florida Press as a whole and take a tabulated vote you will find the majority of the editors very much in favor of sending William Jennings Bryan as OUR DELEGATE to the Democratic convention. Also dear heart, whether William Jennings Bryan goes as a delegate or not he will predominate the convention despite all opposition from the peanut politicians. It is time that the old fossilized ideas of the Democratic party were brushed up and some of Bryan's ideas inculcated in the platform of the party if the said party expect to get by in the next presidential election.

"A Business Administration," that is the way the Ford clubs are writing it, and when you come to analyze the purposes of government at Washington, or anywhere else, it will be realized that the real basis upon which the whole thing stands is "business." But so much business has become attached to government that we generally want to know which business or what business an aspirant for President considers the main feature of it all, and in what particular way he is planning to handle the main business. The diversity of opinion on the larger business features is where politics comes in. Ford has managed to handle his own big business so as to make money, but the government is not operated primarily to make money, hence it is going to appear to most people that Henry should have more than the club slogan, "a business administration," to qualify.

TEACH IT IN HOMES AND SCHOOLS.

Most men who have passed the meridian know how difficult it is to cast off entirely the earlier beliefs and traditions and the influences of the legends taught and told when they were young, by mothers and the first teachers.

In the later years, especially these later years, they meet with arguments and assurances that are unanswerable by the average fellow's accumulation of wisdom, or expertness in arranging it into fit answers. This kind of pressure often forces one to follow the crowd in the new-thought quest. While the following is in a way and at times joyous, as it relieves one of some haunting fears and removes some not cheerful responsibilities. At other times it is satisfactory and soothing, but, in spite of it all, days will come and seasons linger, when one harkens back to the old belief and old faith. Nothing else meets the forceful demands of many circumstances that slip up unexpectedly upon us.

This experience is, perhaps, confined to the average fellow in mental attainments, but there are so many of "him" that he needs to be considered

in the temporal arrangement and disposition of affairs.

Out of this experience comes the thought, forced up perhaps because of the orgie of crime and disrespect for law so much in evidence, that emphasis in the home and at the school might be profitably placed upon the duty, the necessity, the wisdom and beauty of obeying the written laws of the land.

Of course we teach patriotism and loyalty to country, but with this teaching generally goes the idea that these virtues are to be exercised only in times of war. Hence if the reputed disrespect for law has a genuine basis, the teaching is not meeting expectancy or demands.

There used to be a reverence for the Bible very effectively taught to the children and it lingered and had its effect until the character was established by experience that came of the years.

If loyalty and devotion to the written laws of state and nation were impressed with the same directness and zeal, these essentials might get such a foundation in the minds of children as to bring forth in a measurable quantity a better generation in the matter of respect for law.

COUGHS, COLDS, WHOPPING COUGH

Mrs. Will Hall, R. No. 3 Baxley, Ga., states: "I am writing to all who suffer from coughs, colds, croup or whopping cough. I cannot recommend Foley's Honey and Tar too much, and I can't keep house without it. Have been using it since 1919 and have found it the best medicine there is for grown-ups and children." Best and largest cough and cold remedy in the world. Refuse substitutes. Sold everywhere.

What do the people want? No one has ever been able to answer that question satisfactorily. You may get some idea from "Mrs. and Mr. Polly Tiek." 186-11c.

The Daily Herald, 15c per week.

COPPER INDUSTRY TO PROSPER SAYS BABSON

Statistician Discusses Commodity and Securities.

WELLESLEY HILLS, Mass., Nov. 5.—Copper securities at a new low for the year, reached during the last two weeks, have stirred the interest of the investor. Roger W. Babson's survey on the industry is particularly helpful in this connection. In a report of his findings issued today, the statistician pictures the situation clearly.

The copper industry has for some time been rolling in the doldrums of low prices and depressed market conditions," says Mr. Babson. "From August, 1921 throughout 1922 and into the first quarter of this year, prices moved steadily upward. In March a temporary reaction set in and during the past seven months

the trend has been markedly downward. Present quotations are on a par with those of the early part of 1922.

"Apparent domestic consumption, since the low points of 1921, has continued in an uninterrupted rise. About 700,000,000 pounds were consumed by domestic manufacturers during 1921; 1,100,000,000 pounds during 1922, and an estimate for the present calendar year places the amount in excess of 1,400,000,000, a figure closely approximating that of maximum war activity during 1918.

"The export situation is comparatively good and improving. Export figures have risen steadily from 504,

300,000 for the fiscal year ending June, 1921, to an amount that will probably exceed 750,000,000 pounds for the present calendar year. This figure is in excess of any previous to 1912, and closely approximates the years immediately preceding the war.

"During the past seven months there has been no appreciable decline in manufacturing activity. Actual consumption has had only a slight recession. Exports have held well. The basic reason for the present low market is found in the cleaning up of stocks of raw material held by manufacturers.

"The accumulation of such stocks inevitably accompanies a period of intense activity such as the mills experienced last spring, for it becomes necessary to keep a larger supply on hand to insure uninterrupted operation. With these greasing-the-machinery stocks now reduced to about normal, fabricators must enter the market to cover new orders for copper and brass products. This basic reason for the present low point is in itself a strong argument for heavier purchases and consequent higher prices.

"All indications point to the fact that the stage is being set for a long awaited movement. Nearly every appreciable upward turn in prices has been directly preceded by an abrupt drop in shipments from the refineries to domestic mills. In September domestic deliveries were since early in 1922 and 789,074,6 only 93,000,000 pounds below the lowest since early in 1922 and over 36,000,000 pounds below the average point for the first eight months of this year.

"Copper buying has always come in waves. Psychology enters the market in a persistent tendency to follow the crowd, and is often the deciding factor in the direction and extent of a price movement. Another indication of approaching strength is the length and extent of the declining market. Since the latter part of March there has been no halt in the fall of copper prices. A study of market fluctuations for the past fifteen years shows that six months is the maximum limit of a continued price trend.

"For the time being these factors will presumably have more weight in the market than the relative status of stocks, production, consumption, etc. Postwar production has not yet been properly adjusted to peacetime consumption. Until such an adjustment is made, prices will be determined not so much by the ratio of supply and demand as by the rate of expressed demand in the form of sales, that is, the volume of refined copper actually changing hands from producer to consumer.

"The fact that general business is working sidewise and slightly downward—the Babsonchart shows pres-

ent activity 16 percent below normal—may delay this recovery somewhat. "The position of the industry, judged by itself, would suggest the purchase of copper stocks. The fact, however, that the long swing trend of the stock market and general business is still downward is a deterring

factor. A single group of stocks cannot well run counter to the fundamental situation that governs the entire market. When the bottom has been reached, however, and the long swing upward is in order, copper stocks should be among the first to benefit by the rise."

Your children's food

The foods your children eat today, determine their strength and health in later years.

Remember this; they must have well balanced meals. Their food should contain the right amount of mineral salts. These salts act as bone building material. They furnish the different fluids and juices that help keep the tissues young—the body strong and active.

Bakings that are made of good plain white flour and baking powder contain a large amount of mineral salts. Allow your children to eat hardy of these bakings together with fruits and dairy products. This forms an ideal food balance.

When making quick rising breads and pastries such as: biscuits, muffins, cakes, waffles, etc., don't fail to use Calumet—the economy Baking Powder. It contains more than the ordinary leavening strength—it's the purest and surest leavener made. That's why it helps make your flour foods light and easily digested.

Millions of mothers use Calumet daily because they are interested in their children's welfare—their present and future health.

Advertisement for Peoples Bank of Sanford. Features a central image of a bank building with an eagle logo and the text 'On Guard!'. The ad is framed by the words 'SERVICE' and 'SAFETY'. Below the building, it says 'BECAUSE you are always welcome here, you never can intrude.' and 'PEOPLES BANK OF SANFORD SANFORD, FLORIDA'. Two 'Insured' logos are at the bottom corners.

SENTIMENT—Old and New

AUTUMN

Bare trees, and a wet wind glowing, And I think of you, As I list for the cattle lowing, While above through clouds is showing A patch of blue!

Bare trees, and a wet wind blowing, With sumacs red, That line long paths where love is going, And a singing, leaf-strewn stream is flowing, O'er the pebbly bed;

Bare trees, and a wet wind blowing, But you are gone! The birds to the south are going, And scarlet leaves are showing At early dawn!

—Marshall Louis Mertins in the Kansas City Star.

MILANE NEWS

Douglass Fairbanks in "The Nut" today.

The biggest nut of all nuts is Doug in "The Nut."

An obstacle race to the heart of a maid.

The man who invented his way to to altar.

And over zealous lovers pursuit of a petulant maiden.

He loved a maid who loved a hobby.

He was eccentric, she had a hobby.

He pursued her and trouble pursued him.

But he won when he found that the way to her heart was through her hobby.

A combination of trouble, love, thrills, and mad adventure.

Comedy today will be Snub Pollard in "The Walk Out."

The three big features this week will be Wednesday—"Thorns and Orange Blossoms", Friday—Mary Alden in "A Woman's Woman", and Saturday—"Ten Nights in a Bar Room."

Coming soon Paramounts Biggest Feature, "Covered Wagon."

Don't forget Doug today, also good comedy and Fox News. Prices 10 and 20 Cents.

FAIRBANKS INJECTS MANY NEW IDEAS IN LATEST COMEDY PHOTOPLAY

When "The Nut" comes to the Milane Theatre today. Folks who have heard of New York's famous Greenwich Village, but have never seen it will be given an opportunity to glimpse this noted Bohemian quarter from several different angles.

This latest Douglass Fairbanks' celluloid creation marks a distinct departure from all his previous features. In the past, the locale for "Doug's" pictures has embraced a very wide range of territory. In some cases these features have included several continents and an ocean or two. Now, however, Fairbanks presents a story, the action of which transpires within a radius of three miles.

The interiors of several of the show places of Greenwich Village were duplicated for "The Nut," among them the celebrated "Pirates' Den," recently destroyed by fire. Several authors and artists opened their studios so that photographs might be made for duplication of the furnishings of the Fairbanks' photoplay, with the result that this picture will present the most bizarre assortment of settings ever thrown on the silver sheet.

CUT THIS OUT—IT IS WORTH MONEY

Send this ad and ten cents to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive a ten cent bottle of FOLEY'S HONEY AND TAR for Coughs, Colds, and Croup, also free sample packages of FOLEY KIDNEY PILLS for Backache, Rheumatic Pains, Kidney and Bladder trouble, and FOLEY CATHARTIC TABLETS for Constipation and Biliousness. These wonderful remedies have helped millions of people. Try them! Sold everywhere.—Adv.

Does your "Hubby Dubby" scrub the floor? If not, you have no idea what a charming scrubbing maid he makes. See at School house, Tuesday evening, November 6, 8:15.

A new publication, entitled "The Journal of the Florida Education Association," has been launched at Winter Garden. Its slogan is: "Florida Boys and Girls Must Have an Opportunity for an Education Equal to the Best." The way to create better schools in Florida is for Florida parents to send their children to Florida schools, and by supporting them make better schools. I. O. Woodley is editor of the new publication, assisted by a long list of prominent educators of the state.

ONE IN TEN Neglecting a little wound, cut or abrasion of the flesh may in nine cases out of ten cause no great suffering or inconvenience, but it is the one case in ten that causes blood poisoning, lockjaw or a chronic festering sore. The cheapest, safest and best course is to disinfect the wound with liquid Borozone and apply the Borozone Powder to complete the healing process. Price (liquid) 30c, 60c and \$1.20. Powder 20c, and 60c. Sold by Union Pharmacy.

Farmers Produce Crops and Children Says Statistician

Over Seven Million Children Are On The Farms Now.

TALLAHASSEE, Nov. 5.—Farmers of the country not only are producing the food crops for the nation, but are producing the nation's child crop as well.

According to Dr. C. J. Galpin, who has charge of farm population studies for Uncle Sam, says there are approximately two million more children under ten years of age on farms than in the cities, according to studies made among the 30,000,000 farm population and a like number of urban population.

"There are approximately 7,700,000 children under ten years of age on farms as compared with 5,700,000 in cities, having an equivalent total population," Dr. Galpin says. "Thus the burden of supporting and educating Young America falls heavily on the farm population. After ten years of age, the disparity diminishes gradually until the children reach 20 years of age when the figures begin to show more people of the producing age in cities than on farms. We therefore have the situation where farmers bear the cost of raising and educating children and then deliver the finished product to the city."

This condition is of long standing, irrespective of other shifts from farms to cities, due to economic causes, Dr. Galpin says. The federal government is now engaged in a nation-wide study of the essential factors causing shifts of agricultural population and is initiating a program looking toward the development of modern institutions in rural communities.

HOW TO INCREASE SOUTHERN TRAVEL.

The editor of the St. Petersburg, Florida, Times has recently been cut to California to study that country and see how it compares with Florida in order to find out in what way California may be beating Florida in its material development. He is not unimpressed, as shown in a recent editorial, of the beauty of the mountain scenery of Colorado and California, but he still believes that Florida surpasses the Pacific coast as a place of residence and in which to do business for the years to come. In one respect, however, he admits that California is ahead of Florida and this is in the handling of the tourist business. "We of Florida," says he, "in the tourist business are mere amateurs. Just green and timid amateurs." He believes that California advertising is overdue in proportion to the natural advantages of the state and to this he adds, "But if California's advertising is overdue and we believe it is, in that her attractions are greatly exaggerated—her patrons are treated fairly when there, for apparently no possible effort or cost is spared to give them the fullest benefit of all her resources. Every possible natural asset—every possible feature and point of interest—is developed to the highest degree, and made available to the tourist.

"The principal medium and method for this are roads. Roads, drives and boulevards, of the costliest construction, and beautified, extended everywhere in every direction about the cities. Splendid roads connect all the coast cities and states with each other, and transcontinental roads with all the nation. More tourists visit Florida by all means of travel, and to these thousands and to the still greater thousands going there by rail, her innumerable good roads are undoubtedly California's greatest offering provided by her own people.

"And for all this it seems to us that California and her success offers to Florida and us, future nothing but the highest encouragement—and many valuable lessons by which she may richly profit if she will. "Florida's superior winter climate is not seriously disputed. And we are convinced that her famed 'scenery' can not be a lasting magnet to the great majority of people. It should be seen by everybody, but we are bound to believe that in the long run, throughout their years, by far most people must prefer a less turbulent landscape than that of the Pacific coast. Florida's nearness must more and more appeal to the millions of the east and of the middle west as compared with that great journey through mountain and desert to the coast.

"Then let Florida, too, develop her natural attractions. Like California, let every city and town be connected with every other; let every section and beauty spot, and point of interest—and Florida has plenty of them—be made accessible by good roads. Let her bend every energy to the building of highways to other states. Let those roads be beautiful, and all our cities be made more beautiful. Let these things be done and California will have nothing on Florida in ap-

What the World Is Doing

AS SEEN BY POPULAR MECHANICS MAGAZINE

Fishhook Hung From Kite To Catch Giant Tuna

To catch tuna and swordfish, kites are being used on the west coast to carry the hooks and bait far from the boats. After they are sent up, the fishing line

is attached to the kite string which draws it over the water. When a fish bites, the sportsman reels it in close enough for a companion to strike with a harpoon. As some of the catches weigh from 100 to 300 pounds, lively battles take place. Rules of a club formed by fishermen permit only the angler and spear thrower to kill or gaff the fish. In contests, shooting disqualifies the participant. To be eligible for membership a candidate must land a tuna weighing at least 100 pounds or a swordfish of more than 200 pounds, using heavy tackle.

War Engines of Future To Be Electric

Electricity is to be a strong factor in future wars according to statements made by British experts who see in the discovery of science a terrible power of destruction from mysterious waves of electric current sent through the air from hidden bases. Motors of airplanes and sea-

craft will be hauled by special waves of wireless broadcast for thousands of miles and even infantry and cavalry might be thrown into confusion or utterly destroyed by strong jets of water charged with electricity and mixed with acids. Machine guns and monster naval cannon, it is said, may be noiseless, and the projectiles will be "fired" by electric force. Sound made by electrically operated instruments will roar out over the battle fields with such a racket as to wreck the minds of opposing armies that dare to remain within hearing. Heat generated wirelessly will shoot out unseen over wide areas, destroying property and life without warning.

Erecting Supports for Aerials

A simple method of erecting supports for aerials, when height is not a great consideration, is to nail lengths of 2 by 2-in. wood to the roof as shown in the drawing. The supports are fastened on opposite sides of the roof, and are located over rafters, so that the spikes can be driven into these. The distance between the upper ends of the supports should be about 10 to 24 in. Ordinary porcelain insulators, which can be procured from any electrical store, are screwed to the ends of the supports and the aerial is attached to these. Care must, of course, be taken to have the aerial wires stretched as

Tracing Starter Troubles

Before blaming the starting motor or switch when the starter refuses to operate and the battery is known to be in good shape and fully charged, or nearly so, examine all terminals carefully, taking them off, cleaning thoroughly with a file or sandpaper, and scraping the battery post clamps inside and out. Very often there is nothing wrong except dirty or corroded terminals, and cleaning will remove the trouble at once. Keep the battery posts and clamps clean and covered with vasoline to prevent corrosion, and be especially careful about the ground connections, which in many cars collect dirt, and rust or corrode.

Illuminating the Scale Beam

The difficulty in properly adjusting the weight on the beam of a scale in a small store, due to insufficient light, was overcome by providing a mirror set in the position shown, to reflect the light on the scale beam, the mirror being mounted on a triangular block. The light from the window opposite the scale was reflected so that the graduations could be seen distinctly, and at night the store lights were similarly reflected on the beam. The use of an electric light was first suggested but the mirror was found to serve the purpose just as well, and without the cost of burning an extra light.

Weather Changes Cause Sickness

Extreme changes of weather during Fall cause many colds and coughs. For quick relief from throat, chest and bronchial trouble, coughs, colds and croup use Foley's Honey and Tar. Contains no opiates—ingredients printed on the wrapper. Largest selling cough medicine in the world. "Foley's Honey and Tar is the most pleasant and efficient remedy for coughs and colds that I ever saw."—WALTER WALK, Jones, El. Para, Illinois.

United States Has Surely Bristled Up

Once upon a time, and a time not so very long ago, there was a general admission upon the part of the United States, that it was inferior as regards many things that could be found or discovered or created overseas. It was merely a delusion accepted by us simply because this country had never been put to the test since its separation from its mother country. Within a half dozen years, through force of circumstances, the United States has come to know better.

"Come Seven, Come Eleven"

No, we are not playing African golf. We are just trying to decide how many flounces we shall have on our new Fall frock. For it is not a question this year, whether we shall have flounces, but merely how many there will be. The lady in the picture has decided that seven is a lucky number, and we must admit that her faith in figures is justified, for there is a decided elegance in this coat-frock with its slim, graceful, drooping lines.

and frequently better, at a price which will successfully compete with their own cost. "It stands at the head," this country of ours. The money center of the world leaped across the ocean from Berlin to New York, and bankers of the latter city now rule the universe. London, the greatest city in the world at one time, bows regretfully to the fact that New York exceeds it in population more than one million. France learns with chagrin that its highest building in the world, the Eiffel tower, is to be dwarfed by an office building in America's largest city. In universities and educational institutions, in medical and law colleges, in musical conservatories, the United States has no superiors and few peers.—Palatka News.

AMERICA THE WORLD'S ONLY HOPE

(Continued from page 1)

all humanity; he forgets the promise that he was to see realized that never again shall such a flood befall the peoples of the earth; he forgets everything and, as the Bible in simple language records, Noah began by planting a vineyard and becoming drunk with the wine it produced. Is this not a true portrayal of the modern world?

Ever since the fatal year of 1014 the world was visited by a flood—a flood of fire and destruction. We too, like Noah, heard the promise that never again would such a flood come upon earth. It was a destruction to end destruction; a war to end war. It was to be the dawn of a new world, safe for humanity, safe for democracy, safe for liberty, and safe for idealism; and at last the Armistice came.

We expected that the peoples would set out at once for this task of building a new world, of setting up a new social order of peace and honor and justice, but see how true this story of Noah is. The world too began a new day by getting drunk, drunk with power, drunk with the same ambitions that threw destruction upon earth, drunk with the blood of lust, murder and violence. A humanity that is drunken, rulers and statesmen and diplomats drunk—that is the picture of the world today.

Let us follow the Bible story and see how truly it portrays the world today. Again an attempt at reconstruction is made and the whole world was of one language and of one speech. All were of one mind and of

one opinion as to what must be done. Let us build for us a city and a tower that shall reach into the very heavens and let us make for ourselves a name. Never mind the promise we heard that no flood shall ever visit the earth. We must depend upon our own strength, upon the towers that we ourselves shall build and that shall give to us our name, our reputation, our prestige in the world. Is not this again a true picture of our today?

The peoples of the earth came together, through their representatives at Versailles, to build a new world and to carry out the promises that erstwhile filled the air. See, though different in nationality and tongue, they were all of one language and of one speech as to what must be done. No opposing voice was heard. Let us build a tower that shall reach the heavens. Never mind the promises that were made, the ideals that were proclaimed. We must build towers of battlements, of armies and navies, limitless as the very heavens. Then shall we make for ourselves a name and a reputation, and as in the Biblical times so too today God confound speech so that no nation today understands the other. A new Babel of confusion is the rule of today, and so instead of the reign of peace and liberty and happiness we have anarchy and Bolshevism and national bankruptcy staring the world in the face.

Is there no remedy? Again we must look to the Bible and refer to the story of Abraham, and the words which God spoke to him contain the essence of real world reconstruction. Get thee out of thy land unto the land that I will show thee, away from the so-called civilization of power and lust and wickedness to the real civilization that God shows us.

Let the force of real Americanism become a vital influence in our everyday life, and its true spirit of democracy, of liberty and equality, spread with a driving force throughout the four corners of the globe. And then and only then we shall see the birth of a new humanity, a new heaven and a new world. America must wake up and take the leadership in world affairs and save humanity from destruction.

Thou, in whose eyes a thousand years like yesterday, unto us all by the bonds of tender sympathy and help us to discharge our duty to the world. With thine own gentle hand dry the tears of sorrow and heal with balm from heaven, the wounded spirit of humanity.

Protect Your Interests By Acting In Time Since 1917 damage from frost or freeze in Florida has been only nominal. Because you have escaped so far, however, is no reason why you should continue to take an unnecessary chance with your valuable investment. The business of the Skinner Machinery Co. depends for the most part on an uninterrupted continuance of Florida fruit crops. To protect their own interests, they have perfected the improved SKINNER COKE HEATER, selling at the extremely low price of \$1.98. Use of heaters affords you the only complete insurance covering trees, fruit, buds and blossom. Scores of Florida fruit and vegetable growers testify to the value of coke heaters, and hundreds of groves are being protected by them this season. Relieve yourself of anxiety and possible loss. Act now. It's too late after a freeze. Fill out the coupon. Skinner Machinery Co. Dunedin, Florida.
