

Ketterlinus Ends Feds' 7-Game Winning Skein, 18-6

EFC Leaders Over-Power Seminoles; Metts Intercepts Couple Of Passes

By KENT CHETLAIN
It took the East Florida Conference's leading Ketterlinus High of St. Augustine with its smooth, precision gridiron machine of power-running, blocking and equally tenacious defensive qualities to snap Seminoles High School's 7-game victory skein, spanning the 1951 and 1952 seasons.

The inevitable end to Sanford's gridiron success came last Friday night in the Memorial Stadium before the season's largest turnout of an estimated 1,850 who watched the game but outplayed Seminoles collapse, 18-6.

It might have been a come-home Hannum Junior Metts, plebe hauled out for the "never-die" spirit of senior half-back Junior Metts. The little Jake Monroe, sophomore fore-dashed the first two Yellow Jacket scoring marches with timely pass interceptions behind the Celery Feds goal line, one ruled an automatic "touchback" while the other he raved 20

yards before stepping out-of-bounds. Added to this, Metts, who was watched like an escaped convict all night by the alert Ketterlinus defense, managed to break away mid-way in the third period on two straight ends runs, one a 19-yarder followed by a 8-yard sweep to give the Celery Feds their lone TD of the evening.

The contest opened with both teams being held scoreless in the initial period. Junior Fullback Frank Henley broke loose on his own 80-yard stride, behind a perfect hand-off from the Sanford left tackle, to out-distance the Seminoles secondary and a valiant leaping try on the part of Metts for a tremendous 64-yard run to pay dirt. This put the Jackets out in front at the half by a 6-0 margin. Prior to Henley's sprint, Mett intercepted at the halftime intermission from the arm of Jacket Quarterback Wayne Bussey.

Buzzy Nauright, a 160-pound weight lifting halfback, who is reputed to be the fastest half back in the conference, was paraded at the halftime intermission and allowed to play in the Ketterlinus backfield during the second half. St. Augustine's nascent hero not only displayed his speed but earned his reputation by spearheading the Jackets last offensive going 82 yards on only one play for a 61 average and ripping off an 18-yard sprint in-

Attendance At Memorial Stadium Hits 6,758 Mark For 4 Games

5,091 Pay To Watch Seminoles So Far This Season With 2 Games To Play

The new Memorial Stadium has proved to be badly needed shot of adrenaline for Seminoles High School's football team at least insofar as attendance and gate receipts are concerned. In the first four games the Feds were destined to set an all-time record at the gate.

In these four contests 6,758 fans have watched the Seminoles, 5,091 of them paid. Roughly speaking, the averaged paid reaches 1,272 while the average crowd has been 1,690 per game. The City of Sanford has profited from the Celery Feds. Its share has been \$399.20 from these games while in addition they have picked up \$100 more for the cost of lights. Altogether, the City has received \$499.20.

Here are the attendance figures for each game this year.

Game	Paid	Total
Easton	1,219	1,560
Leesburg	1,388	1,738
Tavares	1,090	1,510
St. Augustine	1,594	1,850
Totals	5,091	6,758

The following is the tax receipts for each game.

Game	Tax	Lights	City
Easton	\$ 94.50	\$ 25	\$119.50
Leesburg	108.05	25	133.05
Tavares	90.25	25	115.25
St. Aug.	105.50	25	130.50
Totals	\$399.30	\$100	\$499.30

There are still two Seminoles games remaining in the Memorial Stadium this year, Nov. 14 with Seminoles of Daytona and the big homecoming game on Thanksgiving night, Nov. 26, with De-Land.

At the present projected rate the City should net \$500 on the season's tax receipts and a total of \$750 including the lights. These figures do not include the Croons Academy games. They have played twice in the Memorial Stadium, but their gate receipts were not available.

Celery Fed Schedule

Oct. 31 - Winter Park, there
Nov. 7 - New Smyrna, there
Nov. 14 - Seabreeze, here
Nov. 21 - Open
Nov. 28 - DeLand, here (Homecoming)

to the Seminoles end zone for the third and final St. Augustine TD in the fourth period.

After Nauright and Bruce Pa-cetti provided the momentum for the Yellow Jackets third period thrust to the Seminoles six, Bill Moseley, center took the ball back from Bussey, hiding it behind his legs momentarily, and then sneak-ed the distance through the con-fused Seminoles line for the second St. Augustine touchdown.

The Feds, badly outweighed and outclassed both on defense and offense, were seriously handicapped by Joe Pickens' ill-ness. The starback of the Seminoles line played despite his near-exhausted condition. It was ap-parent to all observers that the hard hitting tackle was not his usual best. Ed "The Rocket" Lockett, likewise, shook off a badly trampled hand to finish out the game in the final period.

Bubba Bibbe, newly converted end and sub fullback Gene Estridge made key tackles in stop-ping the bullet-like Nauright. Terry Cordell, a center and tackle Nolley played a determined defen-sive game. Ross Hannum, junior guard, and quarterback J. B. How-ell were Sanford's heroes in de-feat.

Hinley led the ground palnaes with 140 yards in 16 carries. Metts rolled up 78 in 14 while punting for an amazingly high 40.1 average.

Von Herbulis Is Gaining On City Bowling Leader

Carl Draws Within Only 4.6 Points Of Pezold's Lead

Carl Von Herbulis, 25-year-old bowling champion of Sanford in 1951, has launched his 1952 offensive to regain the individual bowling lead from his arch-rival, Paul Pezold, as this week's averages reveal the youthful pin smasher has risen to second place in the City circuit with a 167.0 average.

Applby and Steele Pezold still maintains his top position with a 171.8 mark but has shown signs of wavering in recent weeks. He added only .5 of a percentage point to his average this week while Von Herbulis gained 2.8 over his last week's total of 164.2.

Carl Von Herbulis, 25-year-old bowling champion of Sanford in 1951, has launched his 1952 offensive to regain the individual bowling lead from his arch-rival, Paul Pezold, as this week's averages reveal the youthful pin smasher has risen to second place in the City circuit with a 167.0 average.

Harold Applby displayed the sharpest increase this week by pulling himself up to the No. 3 position with a 3.2 point rise during the week. Applby passed third-seeded Robert Steele and fourth ranking Orville Touchton in the process.

Steele, while slipping into the fourth spot this week, actually added .5 percentage gain. Pezold leads the City League bowlers in total pins with 1110.

Last year at this time Von Herbulis and Pezold were waging a two-way battle for the top average honors. As is the case this year, Paul held the leading average with a 167.1 while Carl was in second place with a 163.2 mark.

Close behind Von Herbulis was Frank Schaubert with a 163.1 average. Ray Carroll was in 14th place with a 146.2 percentage.

Von Herbulis had the most pins leveled with 3934 and Roy Holler had bowled the best game up to that point with a 213 effort.

Player	Pins	Pct. Avg.
Paul Pezold	4110	226 171.6
Carl Von Herbulis	4008	208 167.0
Harold Applby	3973	195 165.3
Robert Steele	3919	231 163.7
Orville Touchton	3906	225 162.18
Bill Hartwick	1940	210 161.18
Jack Kanner	3762	199 156.18
Harold Hecht	3748	194 155.2
George Pezold	3652	191 152.4
Will Skeet	3126	185 151.12
Hank Kretzer	3026	180 150.2
Allen Sgratto	3005	180 150.2
Close behind Von Herbulis was Frank Schaubert with a 163.1 average. Ray Carroll was in 14th place with a 146.2 percentage.		

1951 AVERAGES

Ski-Capades Are Postponed Again Until Next Sunday

While Hurricane "Fox" spent itself over the Bahamas, its wake of stiff winds yesterday whipped Sanford's shoreline sufficiently to cancel the Lions-sponsored Ski Capades for the second consecutive Sunday afternoon.

But as stubborn and dour as the weatherman, Bill Martin, producer of the nation's largest ski-skimming troupe, promised to be back again next Sunday afternoon for his third straight attempt at giving the fans their money's worth after last Sunday's abbreviated beginning.

The Lions Club has been "trying" to sponsor the Ski-Capades to raise funds for their visual aid program among youths of Semo-le County.

Lions chairman for the water show, Clarence Welsh who has been in a virtual state of confusion and worry all last week, resigned him-self to the situation after resisting Martin and his crew pulling out the floating jump platform amid a traffic jam the northeast corner of Park Avenue and Lakeloft Boulevard, late yesterday afternoon.

40 Grid Clubs Still Remain Undefeated

NEW YORK (AP)—As the college football season swings into its second half, 40 teams are listed among the nation's list of unbeaten undefeated.

Seven of the teams are major colleges. They include Maryland, Georgia Tech, Duke, Southern California, UCLA, Villanova and Michigan State. All have won six straight games except Michigan State which has taken five in a row.

A pair of minor schools, Penn State and Northern State (Okla.), each have seven suc-cessive victories.

Among the teams to drop from the unbeaten list Saturday were Georgia Tech, Duke, Southern California, Holy Cross, Virginia and Bucknell.

Schools with a five straight win record include Florida A & M.

MIAMI HURRICANES
MIAMI (AP)—A light limbering up program was planned today for the University of Miami Hurri-canes in preparation for their game with Kentucky Friday night in the Orange Bowl.

Coach Andy Gustafson plans to cram all the week's contact work into Saturday practice session. The Miami mentor said his foot ballers played good enough in turning back Marquette last week to have a lessening of the practice pace. Miami defeated Marquette, 20-0.

Sports Roundup

By GAYLE TALBOT

NEW YORK (AP)—The American Basketball League, oldest of the professional cage groups, has been disbanded because two of its member teams insisted upon playing men who were involved in last year's "dumping" scandal.

This has stirred up a quite lively debate between those who feel that the erring athletes should be given every chance to rehabilitate themselves and a larger segment which contends that there is no place in sports for a player who once has been caught defrauding the public.

"We made a mistake," said one of the boys was quoted. "Do we have to go on paying for it for the rest of our lives?"

Not necessarily. A man who takes samples from a bank and saves his time can find a job when he gets out, but they don't put him in the teller's cage again. It's a rule.

We have just heard, courtesy of copier Larry Goetz, of the time Casey Stengel, then playing with Brooklyn, ran foul of the one and only Bill Klein.

Casey, ordered by Uncle Wilbert Robinson to punt, laid one down the first base line. Almost immediately it rolled outside and the oil arbitrator clorined "Foul before Stengel could even start to run."

But as the sphere, never first base it struck a pebble, or something, and veered back into fair territory. The opposing first baseman picked it up, stepped on the bag, and Klein yelled "Out." He then strolled over a few steps to speak to Robinson.

"I'm sorry, Robby," he said placatingly. "I guess I was a little hasty in calling that one. But it did start outside, as you saw, and I had no way of knowing it would come back in. I'm sorry, Robby."

All the time this was going on Stengel just stood at the plate with a stumped look. He hadn't said a word. Suddenly Klein wheeled on a him.

"As for you, you nut," he bellowed, "go back to the bench and sit down!"

The full extent of the outrage didn't occur to Casey until he was back in the dugout. Then he proceeded to demolish the water cooler.

"And for that," he stormed, "I get called a nut."

Tech-Duke Clash Is Billed As Top Southern Contest

By STERLING SLAPPEY
Associated Press Sports Writer
Four games this week end-in-Birmingham, Durham, N. C., Oxford, Miss. and Knoxville—will have a lot of influence in determining which Southeastern Conference team play in a bowl New Year's day.

First off, Georgia Tech's most important game of the year will be played in Durham against Duke. Both are unbeaten and tied. Duke is a member of the bowl banning Southern Conference, the Duke Devils' chances of a New Year's game are clouded.

Not so Georgia Tech. The idea persists that should Tech win in Durham, something that's highly possible, a bowl bid will be extended and accepted. Then and there, regardless of how Tech fares in remaining games against Army, Alabama, Florida State and Georgia.

Tech received and accepted a bid to the Orange Bowl last year just after mid season and just after losing Duke 14-14. Tech and Coach Bobby Dodd are well known and well liked by all the bowls, especially the Orange which likes to get the jump on the bigger Sugar Bowl.

Alabama persists in holding open its bowl candidacy. The Alabama-Georgia game in Birmingham could give the Tide a boost in prestige although Georgia is badly off key this season in de-fense. Alabama lost its big game, 20-0, to Tennessee two weeks ago but followed that with a fine 42-19 win Saturday over Mississippi State. The record is now 5-1.

Tennessee should win not only at home Saturday against North Carolina, but also in every other game this fall—against L. S. U., Florida, Kentucky and Vanderbilt. Bob Neyland's defense minded Vols who suddenly have de-veloped an offense, lost only to Duke, 7-0, in early season. Satur-day little Wofford was a 50-0 vic-tim of the Vols.

The final "bowl" decision game should be the L. S. U.-Mississippi get-together in Oxford, Miss. The Rebels still are unbeaten and now seem to be percolating properly. They are twice tied however, and have a lessening of the practice in losing big bowl invitations.

Last week Mississippi mauled Arkansas, 34-7. L. S. U. got kicked

Stetson Gridders Open Drills After 54-13 Shellacking

DELAND (AP)—Grogy from a 54-13 beating handed out by the Paris Island Marines, Stetson's Grid-ders set out today to reform their football forces for their traditional game with the Florida State Uni-versity Seminoles here next Sat-urday.

The Marine eleven, made up of ex-college stars and professionals, found the going rough through the latter forward wall but scored six times by using their aerial game.

Quarterback Sam Vacanti, former Iowa and Purdue back, threw five of the touchdown passes. Paris Island commanded a 26-7 half-time lead.

Stetson made the game's first touchdown in the opening period after End Guido Tambur blocked a Marine punt on the Paris Is-land 12. A penalty put the ball on the 4 and from there Bobby Marks bucked it over in two plays.

The Hatters' other touchdown came in the third period when the Stetson passing game clicked through to Billy Odom for the score.

WOMEN'S GOLF
JACKSONVILLE (AP)—Promoter Jimmie Murlock announced Sun-day that the second annual Jack-sonville women's open golf tour-nament will be held March 6-7-8, 1953.

Date of the \$2,500, 54-hole medal play event was set after a tele-phone conference with tournament Manager Fred Corcoran of the Women's Professional Golf Asso-ciation. Louise Suggs won in 1952.

Vandy moves from the wreckage around badly by Naryland, losing of its 30-0 loss to Tech to a home game with Washington and Lee in Nashville. Vandy was out of its class against Tech. It shouldn't be against W. and L.

Two games this week are South shridu shridu shridu shridu shridu eastern all the way—Auburn-Flori-da in Gainesville and Mississippi State-Tulane in New Orleans. Flori-da belted Georgia out of the first class of bowl team with another 30-0 count. Auburn lost to Tulane, 21-6.

Weakened and injured Kentucky whipped Cincinnati last week, 14-0, and goes to Florida this week to meet the Miami Hurricanes.

Ketterlinus Battle Draws Top Crowd Of 1,850 As Paid Gate Hits \$993.20

Last Friday night's Seminoles-St. Augustine gridiron contest drew the season's top crowd of 1,850 and the largest paid attendance total of 1,294. The 583 student tickets sold for the clash constituted another record.

While the 1,394 paid gate eclipsed the Leesburg game record of 1,388, the net proceeds from the Ketterlinus game did not surpass the Leesburg tilt. In all \$993.20 was collected at the game last Friday night. The total receipts from the Leesburg game are not available, but the tax paid to the City was over \$108 as compared with the \$106.50 paid after last Friday's game.

The City charges a 10-cent tax on each paid adult admission and 5-cents on each student ticket. Here are the figures for the game with Ketterlinus last Friday night.

Category	Total
Adults	574
Students	583
Children	93
Negro Students	3
Negro Adult	0
Season Ticket Holders	0
Adult	134
Students	11
Totals	1,294

From this gate, \$105.50 was paid to the City from the tax receipts and an additional \$25 for the cost of lights to the City, totaling \$125.50 paid to the City.

With the season's total attendance reaching the 6,758 mark for the first four games, Seminoles High School officials expect 10,000 fans will attend this year's 5-6 home games. The paid figure should surpass the \$7,000 figure.

Principal Herman E. Morris, Seminoles High School, predicted that this year would set a new season's gate record established at \$118. He also said that, if the crowds continue to be as large as they have been, the school will make money for the first time in 14 years.

ROUPEL GAME
LAKELAND (AP)—First football team picked for the Santa Claus Bowl here in December is Wilson, N. C.

Three others will be selected later for the contest for the mythical national midwest champion-ship. Semi-final games will be played Dec. 27 and the champion-ship tilt Dec. 29.

Unmatched for dependability!

Wherever there's work to be done, you'll find International Trucks taking on the toughest jobs.

Truck owners count on the ruggedness and dependability that have kept the same International famous since 1907. They want the extra years of low-cost service which International stamina provides.

If you're looking for a truck you can depend upon, come and see us.

International L-160 series available in GVW's 14,000 to 16,000 lbs. 130, 142, 134, and 172 in. wheelbases. Choice of many body styles. 12 ft. stake body shown.

The rugged L-165 Roadliner is packed with performance. Yet—it costs surprisingly little to operate and maintain. 130 and 142 inch wheelbases. GVW 29,000 lbs.

Look for these International exclusives:

- Silver Diamond valve-in-head truck engines are rugged, packed with extra power. Engineered to save you plenty on operating and maintenance costs.
- The roomiest, most comfortable cab on the road—the Camo-Vision Cab. One-piece sweeplight windshield. New green-tinted, non-glare safety glass available.
- Super-steering system—more positive control. Wider front ends make possible full 37° turning angle for greater maneuverability.
- 118 basic models... everything from 75-hp pickups to 70,000 lb. GVW trailers. Chassis adaptable to a wide variety of body types.

Better roads mean a better America

TUESDAY, OCT. 23, 1952
WISLE VERNE TODAY
 No higher compliment than that could be paid to any person. Good men and women do bring blessings with them always. They walked for me as for the rain.—Job 29:23.

Governor Stevenson accuses the Republicans of following the Communist Party line. "Stop, thief!"

Vote for county zoning in the referendum on Nov. 4. County zoning will help to improve the looks of state highways and county roads.

Secretary Acheson talked for three hours in the United Nations Assembly the other day and still couldn't explain why he ordered American troops out of South Korea and then ordered them back in when South Korea was attacked.

Florida newspaper editors agree that Florida at present is a toss-up as far as the presidential election is concerned. That is about the way we would figure Seminole County. However, we think Eisenhower will carry this county by a small majority.

We are often asked why so many young people seem to be in favor of Governor Stevenson and the Democratic Party. The answer is not hard to find. We bring our children up to believe in Santa Claus and we should not be surprised if they continue to believe in him for a few years after they are grown.

The Florida Taxpayers Association has come out against the first three proposed amendments to the Constitution, the school amendment, the Supreme Court amendment, and the county "home rule" amendment on the grounds that they would tend to increase taxes. However, there is no reason why the school amendment would necessarily increase taxes.

President Truman's hometown newspaper in Independence, Mo. has come out for Eisenhower after half a century of Democratic support. Governor Stevenson's own newspaper, "The Pantagraph," remains non-committal, but supports neither candidate. And believe us, their home town newspapers know their best.

General "Ike," if elected president, would go to Korea to see what he can do about ending the Korean war. Perhaps he could do nothing, but at least he would try. And if anybody could do anything, we feel that he could. What good would it do if Truman went to Korea, what good Stevenson, if Truman or Acheson called the tune?

Travel to Florida will increase 100 percent in the next ten years, according to a prediction made by C. E. Bell, president of the Seaboard Air Line, who should know, if anybody does. And if travel increases 100 percent, it might be well to consider what effect that will have on our highway traffic, on our hotel and apartment house accommodations, on our school and hospital facilities. It might be well to plan for the future.

Whether it is worse to be supported by Senator McCarthy or President Truman is a moot question, but we would like to point out this significant difference. McCarthy is merely a senator and his influence in any event is limited largely to the area of his own state. He can't be president. Truman is the present head of the government and the man to whom most of the officials in the administration of the government owe their allegiance. If Eisenhower is elected, McCarthy's influence on the government will be negligible, but if Truman is elected, it would be considerable.

It is little over ten years President Truman collected \$2,000,000.00 more than all his predecessors, including Franklin D. Roosevelt, collected in 10 years.

The Struggle For A Hospital

Worth remembering in connection with Sanford's present inadequate hospital facilities is that the people of Sanford and Seminole County have never failed to vote in favor of a new hospital whenever that question has been submitted to them.

If there has been any dereliction of duty on the part of anyone in connection with providing adequate hospital facilities, it cannot be charged to the people. Time and time again they have gone to the polls and turned up substantial majorities expressing a willingness to bond themselves in order to have a real hospital.

As far back as 1926 the people of Sanford approved two bond issues, one for \$100,000 in April, and another for \$250,000 the following December. That would have given Sanford a \$350,000 hospital at a time when \$550,000 would have built a hospital.

In September of 1938 a \$70,000 bond issue was submitted to the people to supplement a federal loan for the purpose of building a \$127,000 hospital. That would be the equivalent of about \$350,000 today. The people voted for the bond issue by an overwhelming majority of 1,078 to 269.

Unfortunately, just before the election the state law governing such bond issues had been changed, unbeknownst to most people, to provide that such bond elections were not valid unless 50 percent of the freeholders voted in the election. This election fell 52 votes short of the required 50 percent, and so again the people were tricked out of their hospital.

So aroused were the people over the failure of this bond election that they demanded and got another chance at it that same year. This election was called for Nov. 8 of 1938 and the bonds were approved by 1,332 to 231, or 104 more than the required majority. However, those people who said they were not against the hospital but only against that particular hospital, again quietly went to work, and the hospital was not built.

The struggle for the hospital continued and in August of 1941 another election was held, this time a referendum to call an election on the issuance of \$150,000 worth of bonds for construction of a hospital. The referendum carried 640 to 171. But the bond election was never called.

On Nov. 4 the people will have another chance to vote for a hospital. The need for it now is vastly greater than it has ever been before. Almost daily the sick and injured are being turned away from the present hospital because of insufficient accommodations.

Hundreds of people who should be hospitalized must remain in their homes where the care of them is infinitely more difficult, less economical, and more hazardous to their lives. Hundreds of other people are having to go to out-of-town hospitals at more expense to themselves and at great economic loss to the community.

We have no doubt as to the outcome of this election. The people have shown over and over again how they feel about the hospital. They do not care who builds it, where it is located, or how many stories high it is. They want a hospital. And they can be depended upon to give their answer again on Nov. 4 and vote "Yes" for the hospital.

How Strong Is The UN?

The United Nations may have hit an impasse in recent sessions which will probably clarify once and for all the UN's right to interfere or be drawn into internal affairs of its member nations. Most noticeable to Americans is the McCarran investigation going on right now, checking on citizens of the United States employed by the United Nations.

Although these people are refusing to co-operate with the McCarran committee, the investigators are having little success influencing Trygve Lie, the secretary-general, in discharging them. Lie stated flatly that he would discharge no one on mere suspicion. McCarran does not like this.

Neither, it is said, does the French government, which finds itself on the spot in the troublesome Tunisian question. People living in this French colony claim they are not being given justice but are suffering under colonial rule. France claims the UN has no jurisdiction in the matter. It states that it is an internal affair of the French government and that the United Nations should keep out.

These questions may help determine the actual sovereign status of the UN. Does it have a higher rank than national governments? Can it ignore commands of a single nation for the discharge of nationals of that nation? Can it stand alone, operating on its own authority? The next few weeks may tell.

Chemist Shortage

While the production of the chemical industry has almost quadrupled in the last 13 years the number of qualified chemical engineers and chemists has only slightly more than doubled. This leaves the chemical companies facing a shortage of personnel which will hold back present production and act as a brake to plans for future expansion.

To meet the need for more trained people in this line the industry has decided to embark on a program to encourage students to study chemistry and the allied subjects. Companies, schools and professional societies will co-operate in the project.

The campaign to recruit chemistry students will be waged on a practical level. Information on the advantages available in the industry, on scholarships open in colleges and universities in the chemical field, conducted tours of high school students through factories, are all part of the plan.

The idea of an industry which needs trained people going out and making certain that those people will be available is a sound one. It is a recognition of how much the schools and colleges mean to the future of industry in this country.

Hunt Stepped Up For Orlando Racketeer

TAMPA (U)—Federal officers have stepped up the hunt for Harold Blackburn, alleged Orlando racketeer sought since Sept. 30 on a Polk County gambling charge. U. S. District Attorney Herbert S. Phillips disclosed Monday a federal grand jury has indicted Blackburn on eight counts of violating the new federal gambling law. The maximum penalty on conviction of all eight counts is 40 years and \$40,000.

Phillips warned that the government will take prompt and vigorous action against anyone sheltering Blackburn or helping him avoid arrest. He revealed the chase has moved into Georgia and Alabama in addition to covering all Florida. State authorities once thought they had Blackburn spotted in Tampa, but the tip didn't pan out.

The federal indictment includes eight counts of making false returns on gambling income and two of false registration by failing to list names of all agents and employees.

Sanford Forum

Sanford, Fla.
 Oct. 26, 1952
 Editor
 Dear Sir,

As I read the recent letter in the forum, I began to wonder just where the Democrat Party has been hiding out. Most of the Southsiders of former Democrats I have contacted here in the deep South since the disgraceful actions of the party has been taken over by the raw dealers, disown any part of it.

To begin with, Dear writer most of us are at a loss to know who the (Whole Hog) in Washington are. The Administration is called Democrat. Those who are willing to call themselves Democrats under the present regime must feel a party to what is in Washington.

But Dear writer, did it ever occur to you to think back a bit? In doing so, you will find that America has enjoyed more freedom from war under the Republican party, than ever under the Democrat party. A Democrat was President during World War number one, then a Democrat was again elected, after an interim Republican peace, again the country was plunged into war. Now Dear writer, after a very short period of time, the little ex-Haber-dasher has again committed the nation to another face saving (Police Action).

No one can tell the truth and say that Eisenhower has promised to insure a lasting peace. There are a number of people in the country that either cannot read or are so biased, that the real truth cannot sink in. But the Bible also says, He that is ignorant, let him be ignorant still.

Dear writer, the Republican party is no great MONSTER that should arouse the suspicion of all people, after giving us as much peace as we have had under its reign. Let us not distort the truth, Dear writer. My most severe critic Mr. Dean, is not a Republican, but a gentleman that places man above party, where party lines cannot produce. I have been taking the Herald for ten years and have enough education to read the paper, and in reading the editorials, have found him very much a Democrat, at times to a fault.

Now Dear writer, just being a subscriber, and not part owner of the paper, I therefore try to get the most out of it, and I have wondered just where the villainy of Eisenhower has cropped up in the eyes of the Piano player, since he did ask Eisenhower to run for President in his own right a year ago, the dates which I have stated in a letter a few weeks ago. Is it because he refused to run under the name of Fair Deal? Or was Truman afraid that Eisenhower could stop this Police Action? Perhaps the truth is that Eisenhower would have none of the Administrations un-holy mess.

Remember dear writer, Alger Hiss was Truman's friend. Today three Republicans, he is visiting (aunt) it was one of the Chief Executives famous words when a crook was proved in the setup to call the investigation a (Red Herring) instead of using all of his

power to rid the nation of subversives. Now Dear writer, back to the Whole Hog, the dealers say that if the Republicans are elected, the nation will be at war, Zowie! Most people thought this was war. The dead and dying don't represent a Sunday school picnic. Wonderful Prosperity, BLOOD AND TEARS the price, that, under a Democrat President.

Our best choice now is to say with Truman as of April 14, 1951, That Great American My country, General Eisenhower, My country, on the ticket Truman expected, he is still General Eisenhower. Rev. H. W. Miller (Miller Farms)

Dear Mr. Editor— We have been a wage earner in Florida for fifty four years. My father came to Florida with a yoke of oxen, and wagon, in 1876. I was born on a farm in the north central part of the state. For the past fifty years I have read the papers and they have watched the political situation, and the results of every election since that time.

We were talking with a young man some time ago and we did not agree on the present political trend. I asked him some questions and I would like to ask your readers, and the thousands of young Florida if I may through your paper— First if our nation is going to be ruined by inflation—too much spending and etc. why have all got good jobs, money in their pockets, better homes, automobiles, better schools and highways, the way of life so much better. Its simply wonderful to be living in this era. I mean if we are in the good U. S. A.

Second This same young man I was questioning has a beautiful home worth about \$10,000 nice lawn, nice automobiles, a car, also another car he uses for hunting and fishing. He has a good position at a good salary, and yet he wants a change. For what reason may I ask? Anyone who wants a change? Back in the 30's he and thousands of others were working for a small salary and renting apartments—if they had a car, they would have had a car. Third Just when did our people have more to show for their labor any where or at anytime?

Fourth If we owe such a terrible debt, please tell me who do we owe? The Government they answer I say who is the Government? Why its us! Thanks be we trust it will always be us, the people. Fifth Who has given the laboring man a fair deal? Who raised wages so that people can enjoy the blessings of life so much better than other days?

Sixth Our boys and girls can go to college—even a farmer's or working man's children. Not so several years back—only a few of the elect. I'm a Democrat I believe in the platform. When did the Republican party raise wages? They talk about the mess in Washington. Is there a greater mess than in their administration of years ago? Don't you think its finished in the papers more? Then they say, we are sending wealth abroad to other nations yes, praise be! If we can spend all this money and bring a little happiness to other lands and help bring peace to the world, and have more than ever at home, why not? The Bible says, "Give, and it will be measured to you again full and running over." Did not the Lord give it to us? People, working man, count your blessing and share your wealth.

Our country, right or wrong. My country. The greatest on earth. God Bless America. Florida Cracker. E. S. Collins Wilcox, Fla.

CHARGED WITH ABORTION
 TAMPA (U)—Peace justice war rents charging an elderly Tampa doctor with abortion have been dropped in criminal court. County Solicitor V. R. Fisher said "the facts do not warrant filing of an information" against Dr. Juan A. Mas, 78.

A St. Petersburg police detective accused Dr. Mas last June of performing illegal operations on two St. Petersburg married women.

WINS PROMOTION
 TAMPA (U)—Major Gen. Frank A. MacDill, Air Force base here, has been promoted to command of the Second Air Force. Gen. Armstrong will take his new command, with headquarters at Barksdale Air Force Base, La., Nov. 16. He will succeed Major Gen. Joseph H. (Hamp) Atkinson, named vice commander of the Alaskan Air Command.

Festivity Planned In Oviedo Friday

OVIEDO, (Special)—The gymnasium of the Oviedo school will be a scene of gay festivity on Friday night, Oct. 31, when witches and goblins come visiting to the tune of the Halloween Carnival.

Mrs. James Partin, chairman of the Carnival, has announced that a parade will precede the night of fun and laughter. Many booths will be set up decorated throughout the spacious gymnasium. The sponsors are by the mothers of the seventh and eighth grades, with Mrs. T. E. Partin and Mrs. R. W. Estes, room mothers of the two respective grades in charge, will be served in the school lunchroom from 4 to 8 p.m.

Picture shows, pop corn, peep shows, freak shows, games, rides for small tots, cooked food sale, country store, plants for sale, fish ponds and auction booths will be among high lights of the occasion. Wood products are the second largest industry of North Carolina.

City Commission

(Continued From Page One)
into its original condition as required by state law.
Finally the City and the company reached the agreement, sending okaying by higher officials of the Sun Oil concern, and the findings of the appraisal board, to settle for \$4,500, which would knock out the purchase price of the company-owned property, plus an additional \$1,500 for the purchase of the City-owned property. The matter then was returned in this form to the appraisal board for study and action.

The garbage ordinance amendment as presented last night stipulates that local residents who do not have adjacent alleys, where garbage may be picked up free of charge by the City, may have back door pick-up service by paying \$1 per month which shall be paid in advance on or before Dec. 31 each year for the entire ensuing year, provided that if commencement of such service be desired after the first of January in any calendar year, only the pro-rata charge for the remainder of that calendar year shall be paid.

The fee shall be payable for each single-family dwelling unit and shall be paid by the occupant. However, if local residents wish to leave their garbage at curbs, no charge will be levied.

The second amendment sets up fees for amusement devices as follows: All devices, such as automatic pianos and phonographs, a fee of \$25 for each machine. Amusement parlors, having games and other amusement devices, not otherwise classified by ordinance and not in excess of 20 such games or devices, \$25, and \$1 for each game or device more than 20. Other coin-operated devices not specified, \$25. Coin-operated radio, \$25. Amusement park, \$75. Amusements not otherwise covered by ordinance, per week, \$25.

An amendment dealing with hours for selling liquor and allowance for establishments selling liquor in conjunction with another business was tabled for re-writing. An ordinance rescinding the authorization for introduction of liquor into the municipal water supply was placed on first reading.

Ray Herron appeared with further reference to a traffic problem in front of his place of business at 2455 Park Avenue, requesting the City to cut off the north half of the triangle park and make it a part of the street. He offered to pay his pro-rata cost of such change. On advice of the City attorney that the State Road Department owned part of the park, the matter was tabled pending the report on the recent survey taken by the Road Department for recommendations concerning the intersection.

A. I. Wilson and Ira Southward were recommended to replace John Benkarik and Roy Britt, who have resigned from the City Planning Board.

City Manager Tom Lemon was authorized to make necessary improvements, at a cost of approximately \$2,000, in converting City-owned property immediately north of the Greyhound Bus Station to a parking lot complete with parking meters. It was considered the meters should have a maximum time limit of five hours, to cost a nominal sum.

The City Manager was directed to investigate the feasibility of acquiring the right-of-way and the opening of an alley in the block bordered by Locust and Mellonville Avenues, Catalina Drive and Twentieth Street, as requested by Ed Cowan, James Young, R. J. Jefferson and Charles Flanders, residents in the block.

Upon recommendation of Chief of Police Roy Williams the request of J. E. Jones for the transfer of 422 East Fourth Street to 311 Sanford Avenue was denied.
A request from Dr. Harold K. Ring for a reserved parking space on the west side of the Atlantic Bank building was tabled.
The Commission agreed to lend the Southside Primary School Parent-Teachers Association 18 lights and reflectors from the old baseball field for installation at the school, agreeing to give them the lights if they are installed and placed in use within a year.
The City Manager reported the

Blues In The News
By BOB ANTHONY

The rain held off long enough Saturday morning to enable Capt. J. L. Chittenden to hold his monthly personnel inspection of the men at NAAS. After the inspection, the Captain told the men that this was probably the last inspection in "whites" for awhile and that they should be sure to have their "blues" ready for next month's inspection.

He then presented individual trophies to the six NAAS men that had played on the Station Softball Team. The softball team won the Orlando Class "B" City Title and was awarded one large trophy at the time. The three FABOR 421 members of the softball team were not present at the inspection and there are some men who played on the team but were not present because they have been recently transferred from NAAS. The four men that were present to receive the individual trophies were Frank Markin, Ralph Elliott, Bob Furseth, and Al Ponton.

With Halloween right around the corner, plans are now being made for many different parties. To start things off, there will be a party tomorrow night at the home of Miss Claire Norman. The party will be sponsored by the Catholic Youth Club of the All Souls Church and many NAAS men have been invited to attend. Although no costumes will be worn, there will be games in the ballroom and there will be a winner's roast over the outside fireplace at "Norman's Acres".

Two more Halloween parties are scheduled for Friday night. One will be at the Chief's Club aboard the station and the other will be at the Navy Center in Sanford.

The party at the Chief's Club will begin at 8:00 p.m. with a buffet supper. You don't have to wear a costume but it may be to your advantage if you do because costume prizes will be awarded. There will also be prizes awarded for the best dancers of the evening. All Chief Petty Officers and their guests are invited to attend the affair and tickets may be obtained from Chief Clampitt here aboard the station.

The Navy Center is going all out to have one of the best Halloween parties in Sanford. Now that the Center has become a member of the United Service Organization, plans are being made for some really fine evenings of entertainment. An orchestra will be on hand Friday night to provide the music for dancing and a floor show will add to the festivities. Refreshments will also be served. The fun should get underway about 8:30 p.m. and I've been told there will be many, many lovely young junior hostesses present for those of you who are single, but remember, the Navy Center isn't just for the single men. It's also for you married navy couples, so you too should be sure to turn out at the Navy Center this Friday for the big Halloween party. Stag or drag, you'll always find a place and evening waiting for you at the Center.

City-owned property at Fulton Street and Holly Avenue, proposed as the site by the Planning Board to which the City trailer court should be moved, was low and swamp and undesirable for such use. The Commission directed the information be conveyed to the Planning Board.

The Commission appointed Carl Frisco, with George Thurston as alternate, to serve as inspector at the municipal election of Nov. 4, in place of Byrd J. Goode, who is unable to serve in that capacity.

In other action, the Commission: Authorized the City Manager to obtain prices on furnishing a heater for the new tourist building, and obtain an estimate on cost of repairing floors in the Chamber of Commerce Building; authorized the enforcement of the ordinance requiring trapping of downspouts connected to sanitary sewers.

Authorized the parking meter ordinance be amended to make the meters effective from 8:00 a.m. until 6:00 p.m. on all days except Sunday and designated holidays; denied the request of members of the Fire Department they be given the same salary increases as the Police Department, and authorized the City Manager to call for bids on the sale of accumulated junk in the city.

Straw Poll

(Continued From Page One)

in the five major occupational categories:

Category	Vote	Pct.
White Collar	120	87
Blue Collar	18	13
Housewives	101	79
Adlai	27	21
Labour	29	24
Ue	15	16
Farmers	21	21
Adlai	5	18
Others	18	19
Adlai	8	31

When analyzing the results of the Herald's poll several things must be kept in mind.
1. Stevenson will probably carry 85 percent of the total vote, which is 25 percent of the total vote.
2. Eisenhower has amassed his greatest margin from the white collar classification which probably represents only 10 percent of the total vote. Actually, 120 of the 282 votes have been received from this minority section of the electorate.

3. Eisenhower is trading by a slim 5-7 margin to Stevenson among the active and working men. However, he has a substantial 5-1 margin over Stevenson among retired railroaders. These two groups comprise about 35 percent of the total electorate.

Here are the final results of the poll broken down into the individual classifications:

Category	Ike	Adlai
White Collar	11	1
Merchants	12	2
Insurance Agents	10	1
White Collar Workers	10	1
Businessmen	9	3
Salesmen	7	0
Office Workers	6	1
Secretaries	6	1
Teachers	6	0
Chicks	4	0
Retired Businessmen	3	2
Ministers	3	0
Businesswomen	3	0
Bookkeepers	2	0
Strongmen	2	0
Accountants	2	0
Cashiers	2	0
Government Employees	2	0
City Employees	2	0
Doctors	2	0
Sales Ladies	2	0
Lawyers	1	1
Christian Worker	1	0
Real Estate Broker	1	0
Health	0	1
Real Estate Sales	0	1
Banker	1	0

Supreme Court

(Continued From Page One)

be possible to uphold a death sentence by a vote of no more than four of the 10 justices.
The present seven man court now hears minor cases in divisions, made up of three justices and the chief justice, but every ruling must have a majority of the whole court. If the four men on a division disagree, the case goes to the whole court.

Supporters of the amendment say it is necessary to divide up the court's work in order to clear the docket of a heavy volume of litigation. They also say the method by the U. S. Court of Appeals. Critics say there is a difference between the federal circuit court, whose rulings are subject to review by the U. S. Supreme Court, and the State Supreme Court which itself has the final say on state questions. Some of them also say the court doesn't need to justices to take care of the load.
The amendment would make the chief justice of the Supreme Court the chief administrative officer of all the courts in the state.
He would be charged with the duty of seeing that litigation was

Weather
A heavy mass of cold, dry air crested off the North Central states and brought clouds into the Great Lakes region but no rain. It was above zero at Miami, N. D., last night but much warmer in the states to the east and south of the Dakotas.

Lions Club

(Continued From Page One)

trustees, considering the estate in the position to do so, might be willing to retire the bonds in the amount which they would be willing to spend on a hospital. Mr. Householder declared that it is a "moral and religious duty to ourselves, our families and children" to pass the bond issue. Proceedings in issuing the bonds could be stopped, he stated, if the Fish Estate should proceed with construction plans.

Couch talks, in explaining amendment No. 1, dealing with capital outlay of funds for school construction, stated that one-third of vehicle license tag money would be "reimarked" to assure bonds for school construction, at a lower interest than normally could be secured. As a result, he said, the State would save more than \$1 million a year in interest alone.
He pointed out the proposal doesn't increase taxes, the cost of the Minimum Foundation Program (which allocates \$400 per year for each instructional unit) and doesn't take power away from the County.

"Why do we need this?" he said. He stated a survey conducted in January this year showed there were 158,000 rented, mat-shift and obsolete rooms, some bordering on the fire-trap line, in the State's schools. Three hundred thousand children are in overcrowded rooms, he said, and nearly 20,000 are in rooms with 50 or more. In some rooms, two classes are being taught simultaneously.

He brought out that 25,000 new students will be added each year for the next two years and that 1,000 additional classrooms will be needed each year.
Rep. Williams, in explaining the remaining proposed amendments, stipulated that No. 2, dealing with the boosting of the number of justices of the State Supreme Court from seven to 10, should be defeated.
He brought out that Governor Warren, who has already appointed three of the present justices, would also appoint the three new justices, resulting in six out of 10 justices of the new court being Warren appointees.

He backed amendment No. 3, dealing with issuing charters to counties for county home rule, as he stated it would make county officials more responsible for their actions and politicians in Tallahassee couldn't "pull fast ones" on the counties. He also stated that counties would have option upon what type of govern-

Stevenson

(Continued From Page One)

"I think that women deeply understand this, for they know at first hand how the minds and souls of children can be warped by hunger and sickness . . . and they know, too, how children thrive when their condition is improved." Stating that South Koreans are being trained and equipped to take over much of the fighting and already have more divisions in the front lines than the United States does, Stevenson said that Lee's training should be continued.
"I still have hope and confidence," he said, "that we will be able to conclude an armistice as fair and honorable terms."
Meanwhile, New York Mayor Vincent R. Impellitteri predicted after a conference with Stevenson that the Democratic nominee would carry the city "very big."
A possible indication of how the city's big Negro vote would go was given last night when Stevenson received a wild and emotional greeting in Harlem.

BALTIMORE (AP)—The Baltimore Sun said today a messenger is being dispatched from the Stevenson campaign train to Washington to ask Secretary of State Dean Acheson to issue a statement that will not accept reappointment of the Democrats win the election.
The Sun story was from Howard Norton, its staff writer with the Democratic presidential candidate's campaign entourage in Connecticut.

McCarthy Reaction

(Continued From Page One)

discovered the "wave of disgust" in a telephone check in cities—Sarasota, St. Petersburg, Tampa, Orlando, Jacksonville, Pensacola, Tallahassee, Ft. Pierce, Lake City and Miami.

ment they desired.
He also backed No. 4, dealing with having an additional judge for the second judicial circuit. He was against Nos. 5 and 6, stating the counties of Manatee, Washington and Levy (stated to be placed in two additional senatorial districts under the proposed amendments) could not be reapportioned again. He also pointed out a politician in one of the counties kept running for state senator but kept getting defeated by a candidate from another county, and Rep. Williams expressed the opinion the particular politician figured to win in his own separate district.

He advocated voting in favor of the remaining amendments but gave no particular reasons as they all are local issues, not dealing with Seminole County.
Sout St. John stated, "It doesn't matter how you vote, as long as you vote. Your greatest security is the vote you take."
The program was under the direction of Malcolm MacNeill, while Ed McCall, Chief Lion, presided at the meeting.

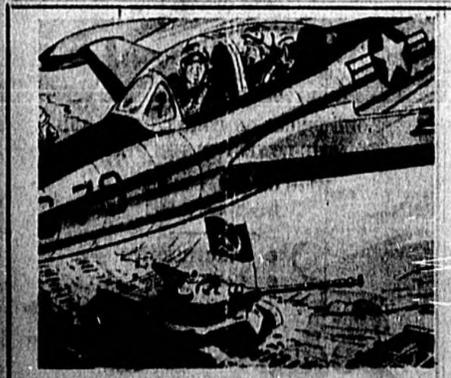

NOTICE

The City of Sanford Planning Board will hold a public hearing in the Commissioners Room, City Hall, Sanford, Florida at 8:00 P. M. Thursday, November 14, 1952 on the following subjects—

1. The rezoning of French Ave. for its entire length to RETAIL COMMERCIAL.
2. The creation of a new restricted Retail Commercial Zone.
3. The rezoning of that portion of Dreamwood presently zoned R1AA to R1A.

All persons interested are invited to attend this hearing so as to express their opinions.

Fed JVs To Play 4 Games Here; Randy Reynolds Leads Scorers

By MEL FLEISCHER
The Seminole High JV's have just three more games left to play. All of these games will be played in Sanford under the lights of the new and beautiful Memorial Stadium.

Johnny Jones and John Scott. Johnny Jones intercepted a pass.

On his own goal line and then ran 100 yards for a well earned Sanford touchdown. Nov. 18 is an important date in Sanford football history. The "Little Colony Eagles" will play the team that has given them their only setback of the year. This team is Orlando's Edgewater "B" squad. Sanford is considering this game as their homecoming game and are out to take them this time.

Table with 3 columns: TD, Pts., Pts. TD, Pts., Pts. (Scores for Reynolds, Jones, Flowers, Hawkins, Turner)

Boys Fed Schedule:
Nov. 7 - DeLand, here
Nov. 11 - Maitland, here
Nov. 18 - Edgewater, here

Parker Threatens SEC Scoring Mark Set By Van Buren

ATLANTA (AP)—Jack Parker, Mississippi State's lanky quarterback, scores football points in the Southeastern Conference at a rate of 13 per game.

If he can keep up that pace or even maintain an 11-point per game output in the remaining four games on State's schedule, Parker will become the SEC's top scorer of all time.

Young Parker, a junior, has scored 66 points in five games. If State played the usual 10-game schedule instead of the football nine, Parker would be a cinch to smash Steve Van Buren's old mark.

Van Buren, playing for L. S. U. in 1943, scored 98 points—individual high for any Southeastern player.

Parker took first place in the 1952 SEC race Saturday by scoring all of State's 19 points against Alabama. Florida's Buford Long fell from first to second place, though he increased his points from 48 to 54.

Booby Luna of Alabama is third with 41 and three more are in line for the final two spots in the big five. Each of the three has 36 points. Wilson Dillard of Mississippi, Bobby Marlow of Alabama and Leon Hardeman of Georgia Tech.

Tied with 30 points each are Andy Kozar, Tennessee; Jerry Marchand, L. S. U.; Steve Tharp, Alabama; and Bill Teas, Tech. Prepper Rodgers of Tech has 23.

Twenty-four points each have been scored by Bill Kriemeyer, Vanderbilt; Joe Fortunato, Mississippi State; and Steve McMiller, Kentucky. Dick Foster of Vandy has 20 and 19 have been scored by Jimmy Lear of Mississippi and Pete Clement of Tulane.

GAINESVILLE (AP)—The Florida Gators, one-point victims of Auburn at the Plainsmen's homecoming last year, hope to avenge that defeat with a homecoming victory of their own here Saturday.

The Florida gridgers, who rebounded after their upset loss to Vanderbilt to a fighting eleven which last Saturday gave Georgia a thorough licking, plan to get even this weekend for 1951's 13-11 loss to Auburn.

Caution was the word from head scout John Eibner, however. As he recalled the Auburn strength Monday.

"Dudley Spence, replacing the injured Vince Dooley, who also might be ready for us Saturday is the finest short passer in the South, the best punter in the South and will take a back seat to no quarterback we have faced this season," Eibner said.

"Their offensive line is big and fast, their defenses bigger and experienced. The overall defensive line weight is about 300 pounds."

Rick Casares is Voted SEC's Top Fullback Of Week

ATLANTA (AP)—Rick Casares took over the full-backing job for Florida in Saturday's game with Georgia and immediately won the Atlanta Journal's Southeastern Conference player of the week title.

Miami Jackson Is Heading For Best Gridiron Record

JACKSONVILLE (AP)—Miami Jackson High appears to have clear sailing to a perfect season against Big Ten Conference opposition.

Out of conference action the next three weeks, the powerhouse Jackson team that whipped Miami Edison last week will then face West Palm Beach, Ft. Lauderdale and Tampa Hillsborough. None has a record.

No. 3's Take Navy Bowling Loop Lead

Navy team No. 3 took over first place in the Navy Bowling League last Thursday night by sweeping a three game series with No. 1 while last week's leading No. 4's were losing two out of three to No. 2.

Columbus Yates was high score for the No. 3's with a 469 series while Markin knocked over 426 pins for the losers.

Lou Caro's league high series of 483 for the evening set the pattern for Navy No. 2's pair of wins in three sets over No. 5. Bloomfield hit for a 415, top score for the losing team.

Carver and Barie tied with 439 for No. 6's, but Freeman's No. 4, 440 was the game's top score.

Navy League opens its eighth week of play at the Sanford Bowling Alleys Thursday night.

LSU's Powerful Line Might Not Help Bulldogs

Ole Miss Could Win Contest With Its Superior Passing

By The Associated Press
An unyielding Louisiana State defensive line could prove a great handicap to the Bengals when they invade Mississippi Saturday.

The hefty LSU forewall, which has forced most of its foes to the air this year, might stop Mississippi's running game and invite disaster from the Rebels' air arm.

At Baton Rouge, LSU Coach "Al" Binford's "Gloomy Gus" after getting word from the trainer that a twisted knee will keep quarterback Norm Stevens from the Saturday game.

Florida worked out lightly, but planned more serious drills today. The Gators suffered no injuries in their surprising 30-0 conquest of Georgia last week.

Albert Elmore, freshman simulating Georgia passing ace Zeke Bratkowski, riddled Alabama's pass defenses, making it sure that Coach Red Drew will have his Tide defenders working over Georgia during the rest of the week.

Georgia's varsity worked briefly in sweat suits. Guard Sam Mirvis turned up with leg injuries incurred in the Florida game.

Buck Martin, ace Georgia Tech pass catcher, was thrown for a loss by a stomach disorder and will be out for the week.

Mississippi State, low in split after last week's drubbing by Alabama, got a lift with news that Joe Fortunate, top Maroon quarterback, will be ready for action Saturday against Tulane.

shown the class that Jackson has in leading Jacksonville Lee and Landon, Orlando Edgewater and Edison.

Jacksonville Jackson, only team to beat Miami Jackson with a perfect record in conference play, gets a chance this week to prove its right to contend for the title in a game with Edison.

Thursday-Lee at Hillsborough, Jax Jackson at Edison.

Friday-Tampa Plant at Edgewater, Lakeland at St. Petersburg, Beach, Lenor, Tenn., at Landon.

Saturday-Ft. Lauderdale at Miami Beach.

Standings:

Rogero's 164 Is Top Navy League Bowling Average

For the second straight week, "Rog" Rogero remains the kingpin in the Navy Bowling League at the Sanford Bowling Alleys.

Rogero with a 164 average and Stappel with a 161 percentage are the only two bowlers with averages above the 160 mark.

Sixteenth ranking pin leveler, Bob Gaston, has the most pins with 3316. This is due to the fact that he has bowled the most games, 24. Caro is second in this respect with 3280 pins.

Stapel's 206 games of several weeks ago still stands as the best individual line by any Navy bowler. Frank Dumont is second in the best single game column with a 197 effort.

Table with 3 columns: W, L, T (Total scores for Rogero, Stappel, Caro, Yates, Freeman, Wickline, Mason, Bloomfield, Brown, Panton, Robertson, Bohndorff, Jones, Emlet, Fogal, Ziegler, Bramble, Nekeermeyer, Keister, Carbone, Museneche, Phillips, Sadler)

This is "Paladin", the featured dog in the movie "Sedgefields Story", which will be shown at the Sportsman's Association meeting in the Commissioners' room at the City Hall Thursday night.

Movie On Dog Training Will Be Shown At City Hall On Thursday

"The Sedgefields Story," a color sound motion picture, will be shown to local sportsmen and others interested in dogs and hunting, at the Sportsman's Association meeting to be held in the City Commissioners' room of the City Hall Thursday evening at 8:00 o'clock.

The movie, featuring Clyde Morton, only dog handler and trainer to win the National Field Trial Championship nine times with dogs he has trained, and "Paladin," which won the Championship in 1951 and 1952, was a year and a half in the making.

Portions of the film are devoted to training and handling techniques demonstrated by Morton, while many field trial scenes show the dogs in action, particularly "Paladin" in winning the

1952 Championship. The 30-minute film was produced by the Ralston Purina Company and is being shown for the first time in this area at this sportsmen's meeting.

Invitations have been sent to many hunters and dog owners. Mr. Hunt stated, and since the meeting is open to the public, anyone interested in seeing this feature film should come down to the Sportsman's meeting, Thursday night in time for the show which will start promptly at 8:00 o'clock.

Sports Roundup By GAYLE TALBOT

NEW YORK (AP)—Addressing the regular Monday meeting of the Football Crying Society at one of the better class banquets, Coach Lou Little of Columbia devoted himself at some length to a warning that Army will be back among the nation's gridiron titans by this time next fall.

As the Lion mentor indicated, this will be a quite remarkable feat on the part of Coach Earl Blaik, as the Cadets now are only in their second season since they lost virtually their entire squad through the cribbing exposure.

Despite the fact that the Lions gained a 14-14 tie by virtue of a classed Army as "the best team we have played this year." A Columbia previously had lost to Princeton and Penn, this statement took on considerable terrain.

"The job Blaik has done with this set of youngsters is, in my opinion, the best anyone has done," Little declared. "That takes in the great schools who had the great undefeated teams and when he was named coach of the year. It's no great thing to turn out a first-class team when you have the material, but it is when you start with what Earl did in this instance."

It heard Georgia Tech has a tremendous team this year. I don't know whether they're doing much worrying down there about their game against Army next week in Atlanta, but I know if it was me I would start to do a little worrying. You know, these Army kids have terrific all-around speed, they are beautifully coached and a pleasure to watch.

"You can get a fairly good line on them now off their 22 loss to Southern California early in the season. You saw what Southern Cal did to California the other day, and up to that time California was supposed to be one of the best in the country. Army is a lot better now than it was two weeks ago, or even one week back.

Invitations have been sent to many hunters and dog owners. Mr. Hunt stated, and since the meeting is open to the public, anyone interested in seeing this feature film should come down to the Sportsman's meeting, Thursday night in time for the show which will start promptly at 8:00 o'clock.

Wynn's 13-2 Mark Is Top Night Ball Record In Majors

NEW YORK (AP)—Fast ball pitchers are supposed to fare better in night games. But Cleveland's Early Wynn, who depends mainly on slow stuff, did right well for himself under the lights during the 1952 major league baseball season.

Wynn, whose repertoire features knucklers, sliders and changes of pace, picked up 13 of his 23 victories in arc-light play. His .867 percentage, (.13-12), topped all American League moundmen in night game competition. Associated Press figures revealed today.

Winning all of his last 10 starts under the arc, the Indians' right-hander whipped the Boston Red Sox and the St. Louis Browns three times each and lost only to Washington and Philadelphia at night.

In the National League, big winner Robin Roberts of the Philadelphia Phillies racked up 15 triumphs against only three setbacks. In percentage, the husky Phillies hurler was tied with New York's Hoyt Wilhelm and Preacher Roe of Brooklyn, each with .833.

Roberts, with a season's record of 28.7, did not suffer a night game loss after June 17 when he bowed to Alpha Brazier of St. Louis. He showed four victories apiece over the Cards and the Cincinnati Reds. Bobby Shantz, Philadelphia's lefty, who won 21 and dropped only seven during the year, was runner-up to Wynn with a 10.3 record. New York's Allie Reynolds, 7.3, was third.

Sal Maglie, New York, 8.3, Carl Erskine, Brooklyn, and Bob Rush, Chicago, 5.2 each and Ken Raffensberger, Cincinnati, 11.6, also posted impressive marks among the National League pitchers.

Dave Koss, New York Giant southpaw, was the lone unbeaten hurler in the major league group of "13-innings or more" pitchers. Koss had a 3.0 slate.

CHICAGO (AP)—The Chicago Cubs have added Ray Blades, veteran baseball figure, to their coaching and scouting staff.

Blades, a 50-year-old native of Mt. Vernon, Ill., played with the St. Louis Cardinals in the 20s and managed that club in 1933 and 1934.

He has coached at Brooklyn, Cincinnati and St. Louis and has managed minor league teams.
