

## BANK AND TRUST COMPANY WILL BE ORGANIZED AS SANFORD INSTITUTION

### Charter Being Prepared For New \$100,000 Bank & Trust Co.

### OVERSUBSCRIBE

#### STOCK AFTER ONE DAY'S CAVASS OF LOCAL BUSINESS MEN AND INVESTORS

A new financial institution for Sanford, or rather a re-organization of one already established, will be the new bank and trust company, articles of incorporation now being prepared for the same. It will be a reorganization of the Peoples Bank and whether the name will be the Peoples Bank & Trust Co., or have another name makes but a small difference for it will be a new proposition with all the features of the banking system and with the trust feature added to give the patrons a much better service in many ways.

To demonstrate the ready response that met the efforts of the organizers and the need of an institution of this kind in Sanford it is stated that in one day's time the \$100,000 capital stock of the new institution was largely oversubscribed and the books had to be closed. Of this amount 925 shares are Sanford people and only 75 shares are out of town investors, thus insuring the people that it will be a strictly home institution in every way. It will have strong outside financial backing putting considerable outside money into Sanford for investment purposes and will do much toward building up Sanford and Seminole county. The trust feature means that money will be available for loans on real estate to satisfy the insistent demands being made every day for the building of more homes and the enlarging of the capital stock with the money available from other sources will make a difference in the ability of the bank to place more money in realty loans. The meeting of the stockholders will be held as soon as possible after the publication of the incorporation notice and R. G. Smith, president of the Ovedo Bank and well known in Sanford will probably be actively connected with the new institution with H. P. Smith, the present vice-president and H. R. Stevens, the president of the Peoples Bank at present together with several other local financiers and stockholders making it a progressive and strong financial institution and officered and directed by Seminole county citizens.

The new bank and trust company will be ready for operation about the first of November and will add greatly to the other strong financial institutions of this city. The bank and trust company will have a capital stock of \$100,000, The First National Bank with \$50,000 and the Seminole County Bank with \$50,000 makes an array of financial strength that will attract investments toward this city. It shows the strength, the courage, the wisdom, the confidence of the home people when they put up \$100,000 in one day and oversubscribe that amount by many thousands to place their money in a home institution and not wait for a foreign company to put in a trust company to take care of the many calls for investment purposes.

The new bank and trust company will start with the best wishes of all the banks of Seminole county and all of the people and will take its place among the large institutions of the state.

### SUPREME COURT OF MASSACHUSETTS REMOVES ATTORNEY.

(By The Associated Press) BOSTON, Oct. 1.—The Supreme Court of Massachusetts today announced the removal from office of Nathan A. Tufts, district attorney of Middlesex county. Its finding it was said, was for public good.

### DADE COUNTY CAN BORROW MONEY IF LEGISLATURE MEETS.

(By The Associated Press) MIAMI, Oct. 1.—Arrangements were completed today whereby the Miami banks will loan the county board a \$300,000 per month for a period of three months for the operation of the Dade county schools, providing Governor Hardee will call a special session of the legislature to authorize the issuance of \$500,000 of school bonds.

Arrangements were made yesterday between the board and a big bond buying house of Toledo, Ohio, whereby the Toledo firm agrees to finance the board by buying its bonds, provided the governor will call the special session to authorize the issue. The Dade County School Board is without funds to carry on the school work.

### DR. BELCHER IS INNOCENT SAYS JURY

### TARPON SPRINGS PHYSICIAN CLEARED OF CHARGE OF MANSLAUGHTER

(By The Associated Press) CLEARWATER, Oct. 1.—"We, the jury, find this man not guilty of either of the two counts in this indictment; so say we all."

As the words penetrated to the farthest corners of the hushed, although crowded courtroom, a spontaneous burst of applause came from the mass of spectators. A little cry of delight was heard over the applause, and Mrs. Irving J. Belcher rushed into her husband's arms, smiling happily.

The trial of Dr. Irving J. Belcher was at an end. The Tarpon Springs physician, who had been charged with manslaughter in connection with the death of twenty-year-old Virginia Turner, of Clearwater, whose body was found floating in Booker creek, about fifteen miles from here, Aug. 27, was a free man.

After exactly one hour of deliberation, the jury of six "good men and true" found the verdict for the defendant. Another indictment pending against Dr. Belcher, charging him with being an accessory after the fact in disposing of the body of Miss Turner, will be taken up some time during the winter when a judge from another circuit comes to try another case pending in Pinellas county. It is not considered likely, however, that this indictment will be prosecuted.

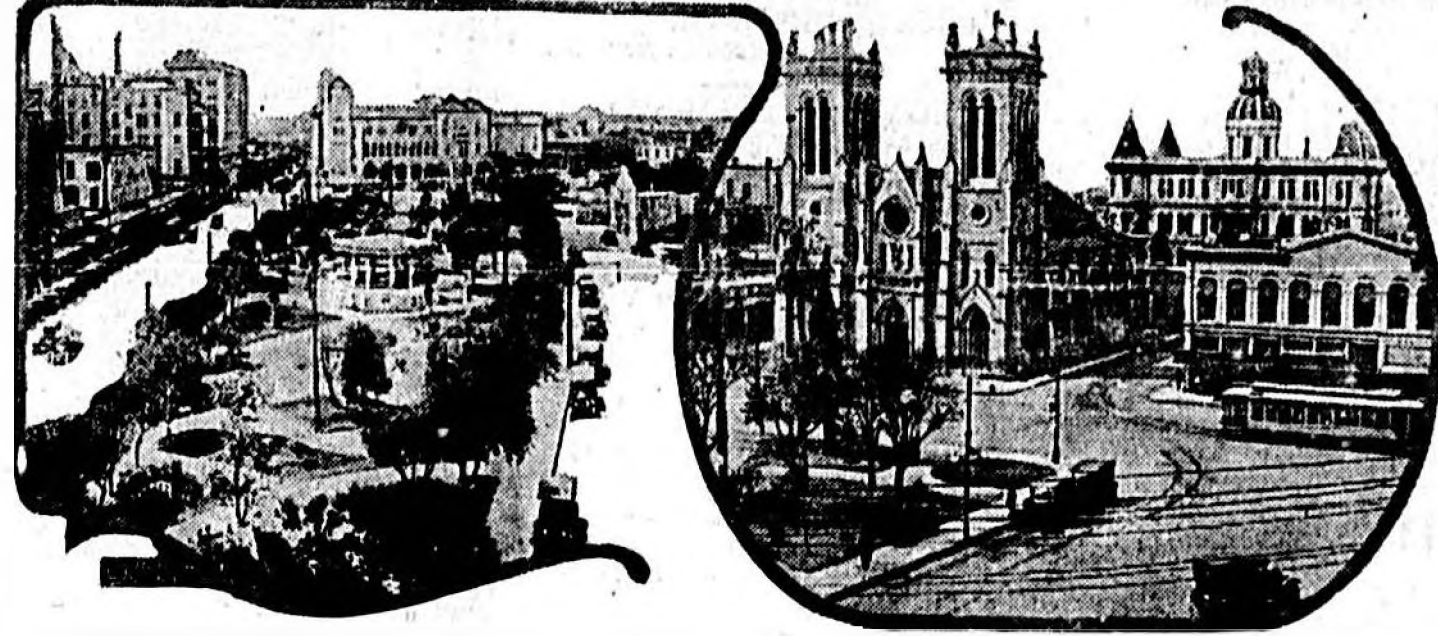

### HEARING ON RECEIVER OF OKLAHAWA VALLEY ROAD TO ISSUE CERTIFICATES.

(By The Associated Press) OCALA, Fla., Oct. 1.—Hearing in circuit court here on application of the receiver of the Oklawaha Valley Railroad, for permission to issue certificates to pay \$10,000 back taxes, promises to be lengthy, as almost the entire population of the towns along the route are on hand to testify. They are urging the operation of the road be continued.

### SAYS REDS WANT PEACE, BUT WILL WAR IF FORCED.

(By The Associated Press) MOSCOW, Oct. 1.—"Soviet Russia wants peace with her neighbors, but if war is forced upon us we will defend the fruits of the revolution and millions of workers and peasants are ready to fight for us," declared Leon Tritzky, commissar for war in the soviet government in an impressive review of 50,000 red troops today.

## TAX OFF BIG BUSINESS AND PUT ON LITTLE ONE ACCORDING TO SMOOT

### Senator Simmons Denounces Republican Plan of Taxation ADDS BURDEN

### TO POOR AND LIFTS IT FROM CAPITALIST CLASS—MAKES CONSUMER PAY

WASHINGTON, Oct. 1.—Two separate tax programs as substitutes for most of the levy provisions in the pending revenue revision bill yesterday were presented to the senate, one from the Republican side and one from the Democratic side.

Senator Smoot, of Utah, proposed: A manufacturers' sales tax of 3 per cent on articles as finally finished or produced for consumption or use.

Repeal of all of the special war taxes, of whatever nature, including the excess profits and transportation levies.

Retention of the existing 10 per cent income tax on corporations.

Senator Smoot proposed to change in the committee plan with regard to individual income taxes or the existing tobacco, liquor and inheritance taxes.

Senator Simmons, of North Carolina proposed: A graduated income tax on corporations, ranging from 12 1/2 to 25 per cent in lieu of the excess profits tax.

Restoration of the income surtax rates to a maximum of 52 per cent on incomes in excess of \$500,000.

Repeal of the transportation taxes on freight, passenger and Pullman accommodations.

Retention of the corporation capital stock tax.

Repeal of the \$2,000 exemption allowed corporations.

That individual exemptions be confined to incomes below \$20,000.

Slight reductions in the normal rates on income below \$20,000.

Senator Simmons told the senate that if there could be an agreement for an equitable readjustment of the taxes so that the several groups of taxpayers would be on a parity, as proposed in the Democratic program, he personally would be willing to give serious consideration to a manufacturer's sale or consumption tax, properly safeguarded, as a substitute for all of the miscellaneous taxes imposed under the present law.

The North Carolina senator appealed to parties to get together in an effort to work out a bill meeting the requirements of the present situation and conditions.

### BUSINESS BETTER THE COUNTRY OVER DURING SEPTEMB'R

### WHOLESALE IMPROVEMENT IS LEADING TO A LESSENING OF UNEMPLOYMENT

WASHINGTON, Oct. 1.—American business conditions improved decidedly during September, in the view of the Federal Reserve Board, which made public last night a distinctly optimistic report of conditions for the month. Important changes for the better were seen in the credit situation, "distinct encouragement" in many basic business lines and strong liquidation indicating increased ability of business to settle its accounts.

The "wholesome improvement" which the board's correspondents found in almost every section, appeared to have been based largely on the advance in cotton prices. As the result of the higher cotton values liquidation has taken place and wholesale and retail trade has been buoyed up, the reports said.

Marked improvement in the credit situation was cited by the review as the noteworthy feature of business during the month, the board declaring that "taken all in all, from a financial standpoint, the month has been in the main a period of distinct encouragement."

The board noted only a slight increase in employment in the thirty days, but added that while the end of the harvesting and crop movement season might tend to increase the number of unemployed, this was likely to be offset by a growth in demand for labor on the part of manufacturing industries.

"Railroads have begun to increase the number of their employees to some extent, especially in the far West," the review continued, "and the fact that building contracts have reached a record figure for this year promises partial employment in that service during the autumn." There has been a steady and reasonably heavy movement of agriculture products to distributing and export centers, the board reported. Prices of most of these have advanced to an extent, although a drop in livestock quotations was seen, attributed to local marketing conditions.

## CONFESSION REGARDS POPE ERRONEOUS

### State's Attorney Wideman Says He Has Never Had Any

### WILL USE NONE

### POPE INDICTED FOR MURDER IN CONNECTION WITH RAWLINGS — POPE PLANNED IT.

(By The Associated Press) JACKSONVILLE, Oct. 1.—State Attorney Wideman announced in circuit court today just before the taking of evidence began in the trial of John Pope, charged with murder in the first degree, that he had no confession from anyone in connection with the case and that the state would not use any. Pope was indicted for murder in connection with the killing of George Hickman by Frank Rawlings. It had been understood that Rawlings had made a written confession charging Pope with having planned the attempted robbery during which Hickman was killed. State announced it had more than twenty witnesses to testify for the prosecution. The principal ones being Rawlings, Irwin Novitzky, arrested when Pope was taken into custody and Novitzky's wife.

Pope's aged mother and sister were in court, both in mourning on account of the recent death of Colonel Frank W. Pope, father of the defendant. The state claimed its case was embarrassed by the nearness of so many relatives to the defendant and the sister was asked to move several feet away. Wideman stated Pope was implicated by statements by Rawlings but that in strict term of word he was not in possession of a written confession. E. S. Harrison, treasurer of the theatre who was with Hickman when the manager was killed, and Dr. Stinson, who performed the autopsy, were the first witnesses.

The defense announced it had no witnesses. Also set forth the defendant had no preliminary hearing, denied bill of particulars and unaware of specification. It was stated as possible the defense would have witnesses as case developed. The state announced it had no written confession when the counsel for defense asked for a copy of it.

### Jacksonville Detective Had a Close Call from Bad Negro's Knife

### Cut in Neck Officer Acosta Pulled Gun and Shot Assailant

(By The Associated Press) JACKSONVILLE, Oct. 1.—Detective E. L. Acosta, local police department, had an easy night last night, although severely injured as a result of a peculiar attack late yesterday by a negro he had arrested. Acosta placed the negro in the front seat of his car, got beside him and started to drive to police station. The negro suddenly plunged a knife in the officer's neck just below the ear. Acosta grabbed his pistol and shot the negro clear through his bod. A negro rushed from the sidewalk and grabbed the officer's arm and was still holding him when a policeman arrived. The negro shot will apparently recover and Acosta is not believed fatally injured. The negro who seized the detective's arm to keep him from shooting again, escaped but was arrested late last night.

### EX-SERVICE MEN RECEIVE THEIR MONEY

JACKSONVILLE, Oct. 1.—Ex-service men or their dependents in Florida are receiving a total of \$170,858, each month from the federal government according to statistics made public in Washington by the Veterans' Bureau. A total of 3,575 checks are mailed to Florida each month, involving an average amount of \$6,834.22 each day of the twenty-five work day month. The daily mailing includes seventy-five compensation checks averaging \$47.84 each and sixty-eight insurance checks with an average value of \$47.74.

## CHAIRMAN YOWELL THANKS ALL MEMBERS OF COMMITTEES AND THOSE WHO DONATED

### To the Big Merchant's Gala Day and Celebration Last Thursday and Made it a Success

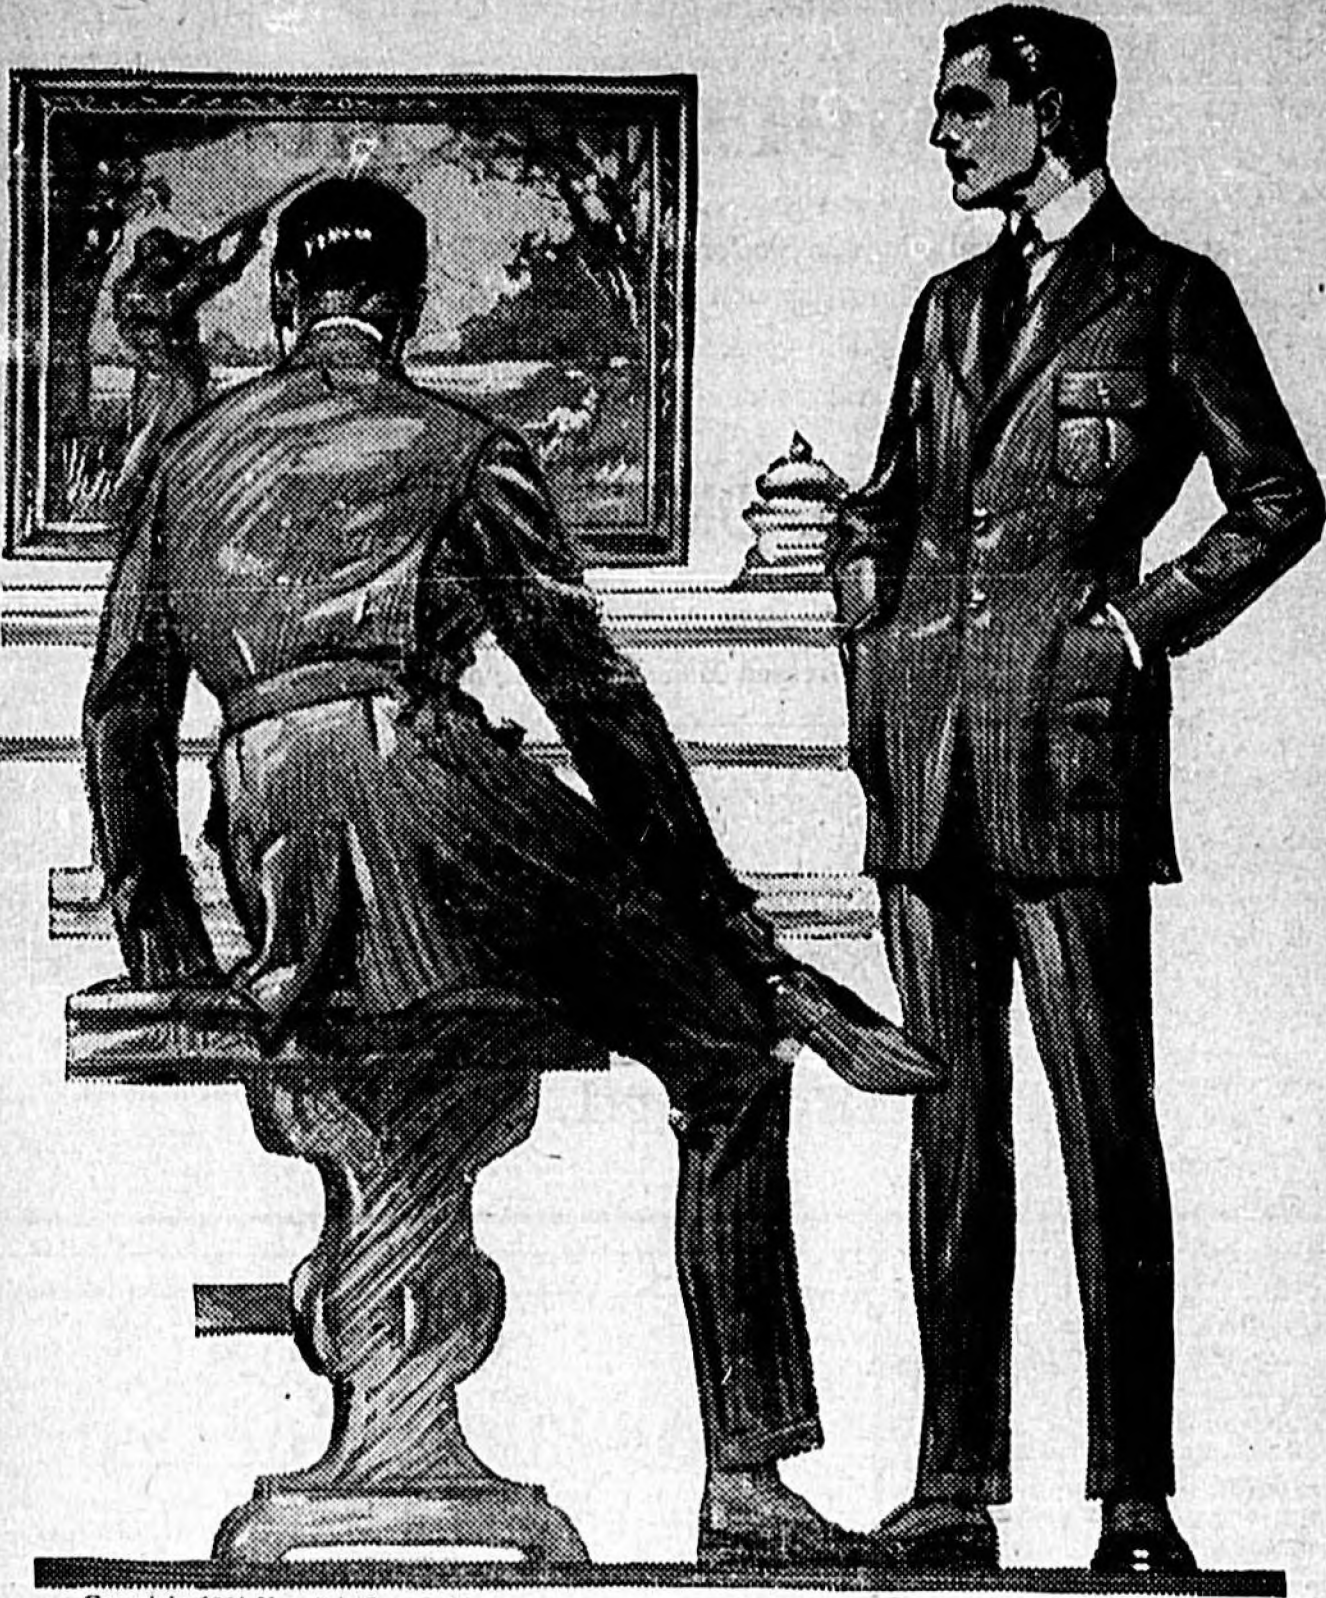

Chairman A. E. Yowell, of the Trade Extension Committee, who had charge and general supervision of the committees on the Merchant's Gala Day celebration given last Thursday wishes to take this means of thanking all those who served on his committee and did so much toward making the day the great success that it achieved. The members of the committees worked early and late to arrange for every detail and only those who have been in similar positions know how much work there is attached to such a big undertaking. There were many good workers on the committee and they rallied to Mr. Yowell's call like soldiers and met every demand made upon them. In a conversation with Chairman Yowell yesterday a Herald representative was informed that the committee would come out all right on the financial part of the affair as he had figured the accounts very close a week ago and knew about how much it would take to carry the plan through. That this Extension Committee could pull off such an elaborate affair making everything absolutely free and pay all expenses speaks well for the committee and for the business men who responded so generously to the solicitation for money to meet the expenses. Everyone who assisted in any way, and especially those who donated meat and bread, milk, pickles, etc., are hereby tendered the thanks of the Trade Extension Committee through the chairman, Arthur E. Yowell.

**Child Hygiene Survey of the State Complete Work Will Start Soon**

Program is Ambitious One to Cover All Subjects

Plans for the Child Hygiene Survey of the State have been completed and the work will start October 1st. Three units will be sent from the United States Public Health Service to assist the State Board of Health in this work.

The program is an ambitious one and aims to establish a child welfare organization throughout the state that will include in its activities all phases of child life.

The first unit to arrive will be a Dental Unit. The work of this unit will consist of lectures and demonstrations in Dental Hygiene. The importance of caring for the teeth will be stressed, as will the relation of decayed teeth to disease.

Moving pictures will be shown and a playlet given by those making up the unit. The importance of the work of this unit will be realized when we consider that the examination of the school children in several counties last year revealed the fact that defective teeth was first on the list of defects found. About 80 per cent of all children examined were found to have defective teeth.

The other units, consisting of a doctor, a nurse and a microscopist, will start in different parts of the state. They will begin by the examination of

the school children and will inaugurate a follow-up system to see that the defects revealed by the examination are corrected wherever possible.

**WASHINGTON "POST" COMMENTS ON BRYAN IN FLORIDA POLITICS.**

WASHINGTON, Sept. 30.—The Washington Post today prints an editorial on William J. Bryan's prospects of being elected Senator from Florida. The Post says:

"The Democrats of Florida are committed to the policy of promoting their public officials, demanding that they work their way up from the bottom. If they intend to apply this policy to Mr. Bryan, it might be well for the young orator to look the situation over with a view to running for mayor of Miami for a start and stepping from that into the governorship. These two offices attained, the Senatorship might properly be considered within his reach. Florida doubtless appreciates the honor of Mr. Bryan's advent to its citizenship, and properly so, but it is not yet clear that she is pleased to the point where she is ready to hand over to him one of her most important offices."

**MINSTREL SHOW GREAT LAST NIGHT.**

(Continued from Page One)  
tic effect and the stage really looked good—just like a real minstrel show stage would look and the boys dressed in white pants, black socks, white shirts, black ties carrying out the White and Black Revue, George A. DeCottes, the interlocutor in black evening dress, the end man in purple and green suits made a most entrancing picture as the curtain rose while they sang the opening chorus and the merry minstrel men cavorted across the stage.

Billy Hoffman, black face in "Down Yonder," Percy Mero in "Ain't We Got Fun," Tom Martin in "Save a Little Dram for Me"; Bob Herndon in "I'm Gonna Quit Saturday," and Geo. McLaughlin in "Free, Simple and Disengaged," were the black face comedians that kept the audience in a roar all during the first part. They are always good and they were especially good in the Dixie Minstrels.

The black face boys who sat in the circle and interrupted the interlocutor by pulling some good stuff all thru the show were Bob Herndon, Tom Martin, George McLaughlin, Percy Mero, Billie Hoffman, Paul Lake, Snowball Sutton, Lill Connelly.

The ballad singers were Maurice Helston who rendered "Crooning" a lullaby song as only Maurice can sing it, and H. J. Clause who sang "Mammy's Little Sonny, Honey Boy" as only Clause could sing it and Sid Rive, that old time minstrel man who gave them "I Found You" as only Sid Rive can render a beautiful ballad. H. J. Clause and the entire company closed the first part but not before the funny fellows had scored some good hits—local hits were missing—and with Interlocutor DeCottes had an evening of fun. And by the way George DeCottes is some good looking middle man.

Bub Allison and Fred Rudisill, the boys who put on the show and nursed it into being put on a little skit at the piano while the stage was being set and sang some good, catchy songs and hits. Bob Herndon then came on with one of his inimitable monologue hits impersonating the old time negro preacher and kept the audience in an uproar while he "lucidated" about the church debt. Bob is an old timer on the minstrel stage and always good but getting better with age. The quartette composed of Maurice Helston, S. S. Baumel, Tom Martin and A. C. Warren sang several selections and catchy potpourri that were most ably rendered, the voices blending perfectly and they received the glad hand all along the way.

The Cabaret Scene in which George DeCottes, the interlocutor, entertains his winter guests opened with the beautiful girls gowned in beautiful evening attire seated at tables and the host entertains them with cabaret features consisting of the song and chorus by Miss Daphne Wimbish "I'm Nobody's Baby" and the chorus of beautiful girls assisting her with a catchy dance went big.

Sam Baumel gave a song that was well received and then some of his great dances and was called back so many times they had to cease calling for he was all in. Sam is a foot-light favorite and can certainly dance.

The esthetic dancing of Miss Daphne Wimbish in Egyptian costume was a dream of grace, this young lady being the embodiment of the dancers of ancient times, graceful, talented, beautiful in face and figure, exemplifying the spirits of woodland nymphs and fairies.

Tom Martin and Mildred Holly captured the crowd in their catchy duet entitled "Oh Me, Oh My" being a sprightly song and dance and both of them being good in their part.

The grand ensemble of the entire company closed the big show that was a great success in every way.

**ONCE ON HER KNEE; BOSSES HER NOW!**

She used to dandle him on her knee. Now he "bosses" her in photoplay production!

Such is the situation concerning Carrie Clark Ward, character actress in "Sham," Ethel Clayton's new Paramount picture at the Star Theatre tonight, and Thomas Heffron, who directed the production under the supervision of Elmer Harris the author.

"Yes," says the comedienne who plays an amusing role in the offering, "I used to rock 'Tommy' to sleep—and never did I think that one day he would tell me to do 'this and that' on the stage of a motion picture studio."

Mrs. Ward and Director Heffron were both born in Virginia City, Nevada, during the early mining camp days and both became players. Mrs. Ward first supported Madame Modjeska, then played Irish comedy in every large city of the country. Heffron was formerly stage director for Coban and Harris, A. H. Woods and Mrs. Fiske.

"Sham" is an adaptation of the Elmer Harris and Geraldine Bonner stage success, telling a clever and amusing story of a "gentle grafter" who most conveniently "forgets" to pay her bills. An excellent company supports the star.

**DIPLOMAS TO BE GIVEN.**

About ninety diplomas will be given to pupils of the First Baptist Sunday school on next Sunday morning. These are for those who are being promoted from one department to another. The whole morning at the Temple will be used as a rally. All the members of the school are urged to be present at 9:45 a. m., to be ready for the Grand Graduation March. No one in Sanford should miss this big day at the temple.

**GRACEFUL DANCER.**

When the street dance was given Thursday night in front of the court house, little Miss Katherine Tackach kept the great crowd that thronged on each side walk amused with her fancy dancing. Miss Katherine's home is in Gainesville, Fla. Not so many people know her, and on all sides people were greatly pleased with her graceful dancing, and upon questioning her, said she was the grand daughter of Mrs. B. E. Tackach. This talented little Miss never took a dancing lesson in her life, this shows that she has a gifted talent that is well worth training.

**FOOTBALL RULES.**

Altho the following rules may not be found in any standard rule book, they are very interesting and to the point.

Don't fumble, you might better die when a little boy.

Don't habitually holler "Signal"—listen.

Don't be afraid of overshifting.

Don't forget to clamp the runners legs.

Don't let one interferer take you off—its ridiculous.

Don't hesitate to dive for a runner—its the only way sometimes.

Don't go to the field without your brains.

Don't forget a football player may be a gentleman.

Don't get tired.

Use your ears to hear signals.

Use your mouth to tell the team about the other teams play.

Use your eyes to diagnose the play

Use your brains all the time.

Use your lighting spirit and get more.

Use your legs to run faster.

Use your straight arm to ward off a tackler.

Use your hands of the defense all the time.

Use your fingers to handle the ball.

Use your opponent up and yourself as well until the game is won.

Boys the Penn coach thought these important enough to make up and publish for his men so lets also profit by them.

**COAT STYLES ARE NEW**

In coats at least, the styles for fall and winter are new, showing more definition of the figure and less "wrappy" lines. Many of them have flaring sleeves and skirts, decidedly full, as revealed by the model selected for illustration. In this model side panels are shifted into cut seams and ornamented with silk embroidery. The becoming collar is of beaver fur.

**ATTRACTIVE AFTERNOON FROCK**

Most appealing is this model in pewter gray crepe de Chine, designed for afternoon wear. On either side of the straight gathered skirt there are stitched narrow bands of self-material, the edges of which are picoted. Fillet lace forms the collar, vest and cuffs. Medium size requires 4 3/4 yards 36-inch crepe, with 1/2 yard 36-inch lining for the underbody and 2 yards fillet edging for trimming.

**DADE SCHOOL BOARD ASK SPECIAL SESSION TO AUTHORIZE BONDS**

MIAMI, Oct. 1.—Governor Hardee will be asked to call a special session of the state legislature to authorize the board of public instruction of Dade county to issue \$500,000 of school bonds, the board decided Thursday afternoon. The issue, if authorized, will be taken by Slayton and Company, Toledo, Ohio, bond house, at 96 cents on the dollar. The bonds are to bear 6 per cent interest.

The board took this action following a long conference with the trustees of the nine Dade districts and the bond company's Florida representative. The chairman of the board said this afternoon that it would be impossible to keep the schools open more than sixty days, if public institutions of the county cannot secure the approval of the state legislature to the bond issue.

Auctioning Jobless Men in Boston

Urbahn Leroux, charity worker, is shown conducting the first "auction sale" of a man, since before the Civil war, on historic Boston common. The man on the auction block is "Jim" Ferris, twenty-three years old, war veteran, jobless, broke and hungry. Other men out of work were offered in like manner.

NEW YORK GIANTS WON FIVE PENNANTS WORLDS CHAMPS ONCE.

NEW YORK, Sept. 30.—The New York Giants have won five pennants in the National League including and since 1905, but they have been victorious in only one world's series play. McGraw won the world's title with his team in 1905 against the Philadelphia Athletics, and though he has had greater organizations since the American League champions overcome them.

These series of 1905 consisted of five shutout games of which the Giants won four. Christy Mathewson turned in three of the victories. Only 11-723 persons saw all five of the games and the total gate receipts were a mite over \$68,000, but it was a series that will stand as one of the greatest in baseball world series history.

New York won the first game 3 to 0 and was turned back by the same score in the second contest. They won the third, 9 to 0, the fourth 1 to 0 and the fifth 2 to 0.

In 1911, the Giants again met the Athletics in the series and were defeated. They won the opening game, played on their home lot, by a score of 2 to 1, and lost the second, played at Philadelphia, by 3 to 1. The third game went 11 innings and was won by the Athletics 3 to 2. The Athletics won the fourth, 4 to 2, but New York made a great effort and won the fifth, 10 innings by 4 to 3. The Athletics pounded out enough hits to make 13 runs in the deciding game and New York tallied but twice.

Many believe the Giants should have won from the Boston Red Sox in 1912, but the luck favored the Bostonians and they were acclaimed world's champions after eight games had been played, one a tie in 11 innings and the final, which Boston won 3 to 2, in 10 innings. Boston won the opener, 4 to 3, and the second was a 6-6 tie. New York won the third 2 to 1. Boston won the next two, 3 to 1 and 2 to 1 respectively. New York won the sixth and seventh, 5-2 and 11-4. The result of the 8th game already has been mentioned.

For the third game the Giants were pitted against the Athletics in a world's championship in the games of 1913 and New York took but one game of the five. They won the second game 3 to 0 in 10 innings. The Athletics won the first, 6 to 4; the third, 8 to 2; the fourth, 6 to 5 and the fifth, 3 to 1.

The Giants met the Chicago White Sox in the series of 1917, and after losing the first two games, 2 to 1 and 7 to 2, won the third and fourth by shutouts, 2 to 0 and 5 to 0. The White Sox won the 5th and 6th, 8-5 and 4-2.

ACCIDENTS IN U. S., COST ONE BILLION A YEAR.

WASHINGTON, D. C., Sept. 27.—More than one billion dollars a year is the toll exacted by industrial accidents in the United States.

That's the estimate of Sidney J. Williams, secretary of the National Safety Council. Williams bases his findings on a thorough investigation of industrial accidents in 1919.

There were 3,000,000 industrial accidents in that year. The fatal accidents, Williams estimates, resulted in the loss of 6,000 working days each, making a total of 138,000,000 working days.

Temporary disabilities are estimated to have caused the loss of 50,000,000 days. Permanent disabilities caused loss of 115,000,000 working days.

That makes a total of 280,000,000 working days—the total time toll of 1919 industrial accidents. Williams estimates the average daily wage of the workmen injured at \$4. That gives those 290,000,000 lost days a wage value of \$1,184,000,000.

But all that isn't lost. The 23,000 men who lost their lives didn't have to pay for food and lodging. That was "saved". That represents \$331,000,000.

Subtracting that leaves a total of \$853,000,000 wage loss. Besides that, accidents led to expense in doctor and hospital bills. These amounted to \$161,000,000.

That gives a total of \$1,014,000,000 as the cost of 1919 industrial accidents.

FEEDING HOGS BY WHOLESALE

On California Ranch Five Thousand of the Animals Are Accommodated at the Same Time.

A miniature railroad system consisting of five miles of standard gauge track, an 18-ton steam locomotive, an auxiliary and emergency gasoline locomotive and a fleet of 30 specially arranged feeding cars is used on the Diamond Bar ranch in California to feed 5,000 hogs. And it takes two men less than one hour to do the job.

Feeding yards are arranged so they front on both sides of the track. At the front of each yard is a large hog trough. Directly over each trough is a gate, hinged at the top, operated by a trip release which causes the gate to swing outward so that the porkers may have access to their feed when the dinner gong sounds.

A 1,500-gallon tank has been mounted on a flat car and a series of agitator paddles, operated by a small gasoline engine, have been installed inside this huge vat. These paddles stir the feed constantly and keep it mixed thoroughly.

There is a cutoff delivery spout at the bottom of the tank which is so arranged with a hood that it can be extended directly over the rows of troughs as the locomotive hauling the feed car steams slowly down the feeding alley.

One attendant operates the cutoff valve and fills each trough with feed, while the other releases the gates after the feed is deposited.—Cincinnati Post.

CAMERA DOES MOST OF WORK

Astronomers Sleep as Do Other Mortals, Leaving the Faithful Photographer on Guard.

Thanks to modern science, astronomers can now sleep at night.

According to popular tradition, astronomers are people who pass the entire night at one end of a telescope and can sleep only in the daytime or on rainy nights. But no more, according to Miss Annie Jump Cannon, assistant in the Harvard college observatory and curator of astronomical photographs of the college.

"Now the astronomer can go to bed at the same time as any other person," she said. "He turns his work over to a telescope and a photographer and waits until morning to study the heavens. Observations are now a matter of very expert photography, and deductions are made from the plates thus produced.

"At Harvard we have complete records of the heavens, dating back over many years, and these are preserved in what I call a laboratory of 300,000 volumes. Each book is a perishable glass plate which must be very carefully handled and guarded.

"On every fair night of the year in the observatory at Cambridge, and in the filled one which we have in Peru, a complete photographic survey of the heavens is made, which is turned over to expert observers on the following day for searching analysis. Of course, the discovery of a comet or a new star is a great event for us."

Who's Whose?

They were discussing the very charming woman who had just entered the already crowded reception room.

"How well Mrs. Gayer looks tonight. She is really a most beautiful woman, and knows how to keep herself at her best," said Mrs. Witte.

"Mrs. Gayer? She isn't Mrs. Gayer now," her friend answered. "Don't you remember she got tired of being Gayer's widow and married Jaye last summer? She is now Mrs. Jaye."

"Oh, dear, yes!" Mrs. Witte replied. "I forgot. But I would like to know how any one can hope to keep in mind all the matrimonial changes nowadays. Some one ought to publish a reference book to help us. It might be called 'Who's Whose?'"

Language He Understood.

Hobby, a boy of five, is an enthusiastic automobilist and spends much of his time around his father's car asking questions.

The other day a neighbor was taken to a hospital for an operation, which at its conclusion made necessary the use of a drainage tube in the wound while it was healing. The neighbor's wife described the operation in Hobby's presence with much attention to detail and Bobby afterward told the story of it in his own language to the members of his family, concluding by observing: "But I guess Mr. Brown will get along all right now since they've put a new inner tube in him."

To Make the Big Parks Safe.

A concerted effort is being made by the United States public health service and the national park service to make the national parks of the United States safe and sanitary for the vast numbers of Americans who have recently taken to touring them. Before the war, when tourists were fewer and most of them traveled on stage lines and stayed at park hotels, the sanitary problem was simple. Since the war, however, the great majority travel in automobiles and camp out, enormously complicating all health matters.

Conflicting Opinion.

"How fast can you go in your flyover?" "Authorities differ," replied Mr. Chuggins. "The salesman said sixty-five miles an hour, but the constable says twenty's the limit."

It shows what can be done here by the getting together of the business men and we should have more of those meetings and more of the closer association of all the business men of the city.

Have you ever taken note of the smile of a homely girl? Did it occur to you that there was something in that smile which reduced her homeliness to insignificance? It was character. God seldom gives all to some and nothing to others. There is normally a fair distribution of His favors, though we may not be able to see the wisdom of His ways. The homely girl is invariably endowed with a character of gold, and beauty of soul is far greater than that of all outward forms combined.

When you tire of a humdrum existence you might turn to the pages of some of our sensational daily papers and read the stories of high life among people of millions. The bible contains some rather naughty stories of rottenness in ancient times, but it is difficult to find anything to compare with the moral filth of today. There is a trite saying that "civilization is only skin deep," but even that small veneer seems to have utterly vanished from the carcasses of some of these butterfly vamps and orgies of gold.

Little children are sharp, much shrewder and more observing than the average adult credits them with being. Without doubt they have every man with whom they come in contact sized up and duly catalogued in their infantile brains. And strange as it may seem—disconcerting as it may be—these youngsters invariably shoot true to the mark. If a man is kind and gentle they invariably respect and love him. If he is mean or a grouch they know him as such and avoid him. If he is a conceited ass he is an object of their juvenile jests and ridicule. Whatever our outward imperfections may be, their judgment is unerring and we can not escape it. We are in the hands of our children.

**THE AMERICAN RACE**

In most of the gush—for it is nothing else—which we hear nowadays about 100 per cent Americanism, there is the underlying assumption that there is an American race—that is, a type of the human family peculiar to this country.

Unfortunately for us, but fortunately for the genus homo as a whole, there is no such thing. The most that we can justly claim is that we are the progenitors and remote ancestors of the American race which, judging the future by the past, will be in its lusty adolescence about one thousand years hence.

All races of which we have any knowledge sprang from the union of other races. The Briton of today, for instance, is not a Norman, nor an Angle, nor a Saxon, though the time was when those races occupied the British isle and maintained their racial characteristics as distinctly as the English, the Germans, the Scandinavians and the Latins do at this time in America. It took ages for the offspring of this triple union to grow to maturity, but, when it did, the result was a race far superior to any of its parents.

So in this country, the American race when it arrives will be the noblest member of the human family because the best blood in the world will flow in its veins. The contention of eugenicists that the crossing of races produces degeneration rather than progress has not a particle of support in human history, always assuming that the cross is between equals—not necessarily equals in culture but in racial potentialities. The American race will be 100 per cent white. It will amalgamate the blood of Anglo-Saxons, Scotch, Irish, Germans, Scandinavians, French, Italians, Spanish, Slavs and others in less degree. Its ancestors will be the aristocrats of the human tribe today; and we have a right to expect that it will be as far superior to present races as they are to the half forgotten tribes which united to give them separate existence.

We are living for posterity. It is not ourselves nor our todays and tomorrows that count. Nature cares little what becomes of us individually. Our racial hostings are cosmic jokes. But as the stock from which the great human tribe of the future is to spring Nature is watching over us with more than motherly care.—Lakeland Telegram.

**NEWSPAPER "PERSECUTION."**

With the New York city municipal campaign in full swing, the majority of the metropolitan dailies are going hammer and tongs after Mayor Hylan and his administration, charging inefficiency, graft and what not, and, in defense, hizzoner is crying "controlled press" to the masses. This is one of the oldest political gags and some day the people are bound to realize it. This cry is not limited to New York City, but can be heard in every city and hamlet of this country where politics attract public interest. Some of the biggest "corporation boathooks" in this country have been elected by appealing to the prejudices of the common people. "Persecution" is an age-long wail. The powers behind the campaign realize the possibilities in this wail.

Compared with other businesses, the newspapers of this country are less shackled than any other business. Besides, the newspapers do not depend upon the interests for their support—they rise or fall by the rank and file of people, and to betray these is to double-cross without hope of benefit. The man in public life who denounces the newspapers quite often is seeking to place a neutralizing force in the public mind before the newspapers tell what they know on him.—Jacksonville Metropolis.

**WHICH SHALL IT BE?**

Our heading refers to the schemes for raising revenues for the running expenses of the General Government. Here are five propositions that are under advisement:

- 1.—Retain the present excess—profits tax and other schemes that are in operation.
- 2.—Enlarge the sales-tax scheme so as to include practically all sales of any kind of property or commodities. Do this by way of revenue stamps.
- 3.—Annual the present exemption from taxation of municipal bonds, and let them be listed for taxation the same as other property.
- 4.—Put a tax on bank checks.
- 5.—Increase letter postage to three cents.

Take your choice, or, better yet, name other schemes that are preferable to any of the foregoing. The cutting down of expenses of the government would be a mighty fine scheme but it is doubtful if it can be done; the tendency seems to be in the other direction.—DeLand News.

**SPORTS SHOULD STUDY LAWS; AVOID TROUBLE.**

Sportsmen who wish to comply with the law and avoid trouble, should study the game laws and comply strictly with the provisions thereof against hunting out of season. Severe penalties may be imposed for infractions of the game laws.

The open season is still some time away, the game laws forbidding the killing of deer and birds before November 20th but in order that none may plead ignorance many newspapers are publishing the following synopsis of the law:

Under the law, the open season for all game commences on November 20 and extends to February 15 of the following year, making a period of eighty-eight days. Residents of Florida may procure a hunter's license, good only for the county in which they live, for \$1.25; but the fee for each additional county will be \$3.50. For all non-residents the cost of the license for each county in which they desire to hunt will be \$25. The maximum amount of game allowed each gun per day is one deer, two turkeys, twenty quail, and twenty-five birds of other varieties. If there is a party of three or more the limit of game such party may take during the entire trip, aside from quail and other birds, is two deer and five turkeys; and no individual hunter shall kill during any one season more than two deer, five turkeys and five hundred of any and all sorts of birds. No individual hunter or party of hunters shall have an ygame in his or their possession longer than five days after the close of the hunting season. Fur-bearing animals are also protected by the game laws and all trappers are required to pay a license and are allowed to set traps on lands other than their own only by obtaining written permission from the owners of such lands.

As wild game is protected and thus given safety and in a measure cared for by the state it is reasonable to allow residents to secure hunting licenses at a small cost, while those who merely hunt while temporarily in the state are charged a greater fee. The cost of the license is no greater than is charged practically everywhere.

**SIX GOOD RULES.**

The Credit Clearing House of Richmond has issued a card upon which are printed the following rules "for times like these."

If you can't pay all of your debts, pay a part on all of them.

Remember the interests of your creditors—their credit has helped you; now help them.

Don't try to hold all your cotton. Sell a part and pay a part of all you owe.

If you and your neighbors don't help the merchants and bankers, who have been helping you, all of us will be in a "pickle."

Don't carry much money in your pockets or store it in trunks. Put it in the banks and pay your debts and thereby keep money in circulation.

Be careful and talk better times. Your co-operation now means your prosperity later.

That Bartow will be advertised through the medium of the Florida Booster car, which left Tampa about September 1st, for New York as its terminus, was assured recently when the Directors of the Board of Trade made arrangements with H. O. Brazier of Tampa, for 175 road signs to be placed between Bartow and Lake City, and also for placing Bartow on the Florida map and on the tourist map, which is a feature of the Booster car publicity.

**What is a Good Citizen ?**

Fifty years ago the man who kept money at home or on hand to lend his neighbor was a good citizen.

The man who merely hoarded money was never a good citizen at any age; but today, in an age of banking, it is certainly one of the first requisites of good citizenship for every man, woman and child to put every dollar they have in some bank.

If you haven't a bank account come in—make the start today.

### SANFORD'S TEMPERATURE

She creeps, she creeps, my kingdom for a swatter. Right here with showers all around us and surrounded by the Volstead law the old bulb creeps up one notch yesterday. Can you beat it? And here on the very threshold of winter. If old man summer is not kicked off the lap of Miss Fall right soon he shall be spanked and we will have Johnny Parker do the spanking. Well, Old Summer, can't possibly hang on much longer. We are gradually getting his goat by the calendar route.

First day of the month.

Saturday is a poor day to collect, don't you think? What?

Well, another big trading day and night and we will see what effect the Gala Day had on the trade.

Another rain today would cut down the trade somewhat, but would be welcome to everybody. Or let it come tomorrow.

Clean up, paint up, repair that house, make another room, get ready for the biggest winter season that Sanford has ever experienced.

The Clyde Line continues to bring the summer excursionists up the St. Johns river. Some of them will return to Sanford to become residents some of these days.

Many of the boys and girls will go down to Orlando today to see the Sanford high and the Orlando high play the first football game of the season. It will be a good game and Sanford boys say they will win.

W. C. Satcher, of Longwood, was in the city today and is still talking about his new boy. The youngster will be named Charles Winthrop, after grandpa Entzinger. Mr. Satcher says it is dry around Longwood, and he is forced to water a big strawberry patch every night to keep the plants alive. Orange trees all through Seminole are showing the effects of the dry weather.

### "FOUR EARTH-MADE THINGS IN HEAVEN."

Dr. George Hyman will deliver a message at the Baptist Temple on next Sunday night using as his subject, "Four Earth-Made Things in Heaven."

Large audiences are attending the services at the Baptist Temple. The visitors in the city are given a most cordial welcome.

### CAN BIBLE BE LEGALLY OUSTED FROM SCHOOLS?

NEW YORK, Oct. 1.—The supreme court of the United States will be asked to determine whether the Bible can be legally excluded from the public schools.

This was announced last night by leaders of the Presbyterian church here who have headed a movement among various religious denominations, to bring a case before the nation's highest tribunal.

The state of Washington, which officially excludes the Bible from its public schools, will furnish the basis for the case.

The line of attack will be based on the declaration of importance, the Presbyterians claiming that the declaration is a covenant between the American nation and God, and that the study of the Bible by American children is essential to an understanding of the covenant and to full knowledge of God.

"To exclude the Bible from the public schools," the Presbyterians contend in their presentment preparatory to an appeal to the supreme court "is to violate one of the essential clauses of the opening paragraph of the declaration of independence. In the state of Washington, the attorney general and later the state supreme court have rendered an opinion in which the Bible in effect is adjudged to be a 'secular' book and in which it is decreed to be unconstitutional to read or teach the Bible in the state schools."

The Presbyterians declare that "this ruling, opinion and construction is erroneous, and that the state constitutional provision so constructed are void, as being in conflict with and repugnant to the principles of the declaration of independence."

### STILL CAPTURING STILLS SHERIFF'S OFFICE BUSY MASHING UP THE MASH.

Sheriff Hand and his force of deputies are still busy capturing the stills of the stills and last night they had reason to suspect that one of these Volstead evaders was working near Longwood, so Sheriff Hand and deputies, William and Jacobs, maneuvered down that way and found Jeff Parrish at the still. There was 700 gallons of mash and 20 gallons of shine and with all the liquor and with the one who was captured at the still they came to town where the whole affair will be ironed out before Judge Householder Monday morning. Stills are working all the time despite the best efforts of the officers of county and city, to stamp out this illicit traffic, and liquor will be made as long as people want to drink it, but the officers are right on the job, and they never fail to locate the still once their attention is attracted to the location. The public is to blame for the illicit liquor traffic by patronizing the men who make it, and shielding them from the officers of the law.

### SEIZED BIG FISH NET.

FORT PIERCE, Oct. 1.—Seizure last week in the Indian river near Jensen of a seine nearly a mile and a quarter in length and valued at approximately \$3,000, because of alleged violation of the special law prohibiting seining in this county, has resulted in a conflict of authority between Deputy Sheriff Fish Commissioner Van Auken and county officials. Ernest L. Ricou, of the Ricou fish concern at Jensen, replevined the Florida East Coast railroad against transporting the net, the authorities having prepared for destruction, as provided by the law, and posted bond, the seine being turned over to the sheriff of St. Lucie county to be held until the court acted. Thereupon, VanAuken brought mandamus proceedings to compel the sheriff to deliver the seine to him, and hearing on this action was to be held today before Circuit Judge Davis in West Palm Beach.

Mr. Ricou is said to have claimed ownership of the seine but declared it was for use in the ocean and was set in the Indian river without his knowledge. When VanAuken descended upon the net and made the seizure, fishermen in two launches were nearby. One boat was deserted, the crew escaping in the mangrove swamps, while the other fled. The deserted launch was delivered to the owner by Van Auken.

### THINK SAVING CAN BE MADE IN CLOTHES MANUFACTURE COST.

NEW YORK, Oct. 1.—Annual savings of forty per cent, or about \$240,000,000, could be made in the men's ready made clothing industry, with its yearly output of \$600,000,000, declared a report by the American Engineering Council's committee on elimination of waste in industry, made public today. The report, based on a national investigation of the industry, asserted that management and labor alike were responsible for the enormous waste.

Seasonal shut-downs, industrial discord, the "sell-then-make" policy lack of standardization of appliances, conditions, work content and method, and inefficient planning, were given as the chief sources of waste.

### PRESIDENT ASKS ALL RETURN THANKS ON ARMISTICE DAY.

WASHINGTON, Oct. 1.—The American people were called upon by President Harding in a proclamation issued today to offer a silent two-minute prayer at noon on Armistice Day, Nov. 11, when the body of an unknown American soldier killed in France will be laid to rest in Arlington National cemetery.

The proclamation calls upon all devout and patriotic citizens to pause for two minutes from 12 o'clock noon until two minutes past 12—for a period of silent prayer of thanks to the Giver of all good for those valuable and valorous lives and a supplication for "His divine mercy and for His blessings upon our beloved country."

Instructions are contained in the proclamation for the half-masting of the flag on all public buildings, all stations of the army, navy and marine corps and on all American embassies, legations and consulates throughout the world from sunrise to sunset on Armistice Day, when it is the hope of the president that the whole nation shall join in honoring America's dead of the world war.
