## ROOSEVELT IS NEAR ACCORD ON HUGE CUTS

### Has Meeting With His Budget Director In Consideration Of Sweeping Program

WASHINGTON, Mar. 8.—(A.P.)—Between bites of a luncheon hastily served on the President's desk, Franklin D. Roosevelt and his new budget director, Lewis Douglas, yesterday reached an agreement on a sweeping program to reorganize the government.

There were indications after the luncheon conference that the first of his kind held in the executive office in the memory of White House attacks—that President Roosevelt planned to include some of the high points of the reorganization program in his message to Congress Thursday.

The meeting took place a short time after the 36-year-old former Arizona representative had been sworn in as the new steward of federal appropriations. Immediately thereafter, he was engaged in the task of ascertaining how to balance the government's receipts and expenditures.

At the noon hour, he was at the White House for one of the many conferences a budget director holds with the President. Mr. Roosevelt had a meeting with the cabinet scheduled for 3 P. M., and he wanted as much time as possible with Douglas. He was not expected to have lunch served in his office.

Another call during the day was from Senator Eberly, former representative from Kentucky who has been aiding in collecting data on government expenditures.

## Committee Is Ready To Act Upon "Scrip"

A special Senate County Chamber of Commerce committee which has been meeting up and for the past few days to discuss the expediency of issuing scrip locally, yesterday afternoon declared itself ready to act just as soon as it is possible to secure permission from the comptroller of the currency.

A carefully studied plan has been formulated and is ready to be put into immediate operation upon word from the Treasury Department. Opinion was raised during the meeting that the issuance of scrip locally may not be necessary if a reported Treasury Department order that banks may return money for payroll purposes is placed into effect locally.

## County's Physician Reports Less Cases

A check-up of 11 of the duties devolving upon County Physician S. Palston is being made in his report for the month of February, tendered to the Board of County Commissioners, and approved yesterday.

An official county physician Dr. Palston made four visits to the county hospital, 14 to the county jail, and five to the convict camp.

## County Commission Joins State-Wide Movement To Guard Florida Wild Life

Through its Board of County Commissioners, meeting in March session at the Court House all day yesterday, Seminole County has joined the list of other Florida counties which are in accord with the state-wide move to shorten the Florida hunting period for the purpose of conserving the wild life of Florida.

The Commissioners, by resolution, to be sent to the Florida state legislature when it convenes in April, asks that the game law be amended so that the hunting season shall be open on Nov. 20 of each year and close on the 15th day of January of the succeeding year.

Further, the Commission asks that all county officials be diligent in the enforcement of these laws and that all officers to be appointed as game wardens locally be familiar with conditions in the county in which they reside, and that the license fee paid annually be used exclusively in the enforcement of the game laws.

For the Commissioners, the meeting was considered "routine," with reports of various county employees and officers, and award.

## MOVE BEGUN TO 5 PERSONS ARE OPEN COMMODITY MARKETS OF U. S. IN GERMAN CITIES

Farm Board Chairman Calls Heads Of Exchange Together

WASHINGTON, Mar. 8.—(A.P.)—A movement to reopen farm commodity markets was begun yesterday by Henry Morgenthau, Jr., new chairman of the farm board, who called heads of farm exchanges together for a conference Wednesday morning.

Later, if efforts to set grain markets functioning prove successful, they will be extended to reopening livestock exchanges and other farm markets which have been forced to close because of the national banking holiday.

Meanwhile the bureau of agricultural economics reported that a swift increase in prices of raw materials for food appeared to have begun with the success of supplies cut down by the closing of the markets. Generally, storage supplies are low because of the recent instability of farm prices, and in the case of perishables there is virtually no storage possible.

Heads of grain exchanges at Chicago, Minneapolis and Kansas City were invited to meet with Morgenthau, who said he (Continued On Page Two)

## Local Men Are Named As Honorary Judges

Mayor V. A. Speer, City Commissioners H. J. Lehman, T. L. Dumas, S. O. Hisholmer and W. A. Coffey, H. M. Papworth, Karl Lehmann, E. H. Lamson, and other local persons have been named as honorary judges at the New Smyrna Regatta and Yacht Races which are event of next Sunday afternoon in that city.

## Trade Body's Resolution Expresses Regret Over Mayor Cermak's Death

Upon suggestion of President H. M. Papworth, the Board of Directors of the Seminole County Chamber of Commerce, meeting in monthly session at the City Hall Monday night, unanimously passed a resolution of regret over the death of Mayor Anton Cermak, of Chicago, who is termed "a warm and enthusiastic friend of Florida."

The resolution, passage of which was the highlight of an otherwise routine meeting that was well attended, is as follows:

## PUBLICITY IS URGED TO STOP COIN HOARDING

### Spotlight Would Be Turned Upon Those Who Take Precious Metal Into Hiding

NEW YORK, Mar. 8.—(A.P.)—Publication of the names of the principal gold hoarders in the United States was discussed in New York banking circles yesterday as one means of lifting the present so-called "Midas moratorium."

It is known that since 1918 the federal reserve bank here has been recording the names of persons who withdrew gold in sizable amounts.

In some quarters it has been suggested that a progressive tax on sequestered gold be imposed. The talk in the Wall Street coffee yesterday, however, apparently favored publicity as the weapon which probably would be most effective in whipping the yellow doublets out of their unnatural hiding.

The procedure, it was thought, might necessitate a special resolution by Congress authorizing the publication of the names of those who, on a certain future date, were known by the federal reserve system to possess gold coin or bullion exceeding, say, \$15,000 or \$20,000.

Firm using the metal for manufacturing, the arts or other legitimate purposes would be excluded.

## Sholtz Informed Of Economics That County Effected

Governor Dave Sholtz, who recently wrote the Board of County Commissioners that he is expecting them to use their best efforts to effect a 25 percent reduction in the operating costs of county government, has been notified by letter written by V. E. Douglas, clerk of court, that this county's board has long been effecting economies, and that it would continue to do so.

The letter forwarded to Governor Dave Sholtz some days ago, reads as follows:

"In accordance with a resolution adopted by the Board of County Commissioners of Seminole County, I have been instructed to convey to you, in answer to your letter of Jan. 25, the economies effected by the Board over prior years, and its plans for the future. The Board was among the first to realize that the 'boom' was over and a retrenchment policy was adopted as a comparison of the budget for the years from 1928 to 1932 will show.

"In 1928 the total County Budget exclusive of Interest and Sinking Fund and School Funds, called for an expenditure of \$215,250. This was reduced in 1929 to \$161,127.50, and has been further reduced each year so that in 1932, the budget for county purposes amounted to \$124,625.00.

"It has been and will continue to be the policy of the Board to operate each department under its control as economically as possible, and you may rest assured that this board stands ready at all times to cooperate with you in any plan you may have for the relief of the people."

## Japan Is Determined To Get Out Of League

By The Associated Press  
Japan's determination to withdraw from the League of Nations as a result of the Sino-Japanese dispute became more apparent today. This determination was made evident as her foreign minister, Kato, after taking over the last important post through the Great Wall of China, south of Jehol City.

The Japanese cabinet after the matter was submitted to the emperor, approved and sent to the privy council a draft of the communication which is expected to be submitted to the League about Mar. 20 calling for permanent withdrawal from that organization.

When Governor Sholtz announced he would ask the legislature, convening in April, to submit the question of repeal of state and federal prohibition to the people of Florida, he struck the keynote of a campaign that may be surprisingly hard fought, leaders of the repeal movement believe.

It is noted Democratic gospel, of course, to submit any question of repeal direct to the electorate, but legislators, like congressmen, often invent a multitude of excuses for avoiding or delaying such action. A repeal referendum is being extensively canvassed and sent to all parts of the world.

## Fletcher Will Head Banking Committee

WASHINGTON, Mar. 8.—(A.P.)—The Senate steering committee today selected new chairmen for the new Congress and assigned the important banking and finance posts to Senators Fletcher, Florida, and Harrison, Mississippi, respectively. Among other major committee chairmanships was a Tripartite, Florida, naval, the foreign relations committee chairmanship went to Senator Pittman, Nevada; agriculture to Smith, South Carolina, and sales to Copeland, New York.

Glass, Virginia, was assigned the appropriations committee chairmanship.

## FOOD PRICES IN U. S. RISE WITH BANK CLOSINGS

Upward Movement Is Observed In Every Major Trading Center In The Country

WASHINGTON, Mar. 8.—(A.P.)—The bureau of agricultural economics said yesterday that prices of raw materials for food are increasing as a result of a falling off of supplies due to a near shutdown of livestock and other farm products necessitated by the national bank holiday.

Dr. Milo A. Olsen, bureau chief, said that food representatives have noted the movement in every major trading center in the nation. Because of the uncertainty of farm prices for some time, storage supplies are especially low in many food commodity lines.

Dr. Olsen said the upward price movement is most marked in the case of perishables, for which storage is virtually impossible. He looks for the sharpest increases in the case of perishables, for which storage is virtually impossible. He looks for the sharpest increases in the case of perishables, for which storage is virtually impossible.

CHICAGO, Mar. 8.—(A.P.)—Speculative advances in wholesale fresh pork prices, in some cases more than 100 percent, today caused a problem to the average citizen's search for ready cash while banks were closed or restricted.

Sharply reduced marketings of live animals, due to uncertainties regarding payment and the threatened closing of the stock yards in Chicago led to higher prices for all fresh meat.

The Chicago stock yards were closed as usual under authority of the secretary of the treasury.

Wholesale pork loins weighing 10 to 12 pounds sold at 10 to 12 cents a pound, compared with 8 1/2 to 10 cents last Saturday. Frozen loins were reported as high as 20 cents a pound.

Substantial gains were reported in other fresh meats, beef rising from one to three cents and lamb at least a cent.

The Institute of American Meat Packers, official mouthpiece for the big meat packers, ascribed the sharp rise to reduced supplies and the prospects that receipts would continue light for some days.

The institute said that fresh pork loins constituted a very small part of the entire pork carcass and were in relatively greater demand.

The livestock markets generally registered sharp gains all along the line, generally rising in sympathy with fresh meats, but also because of restricted supplies and uncertain market conditions.

In the wholesale produce market prices showed little revision. Receipts were about normal and going into consumer channel, rapidly.

St. Petersburg established the first open air post office in America.

## Actual Currency Is Promised Instead Of National Scrip

### FARMERS MAY GET CURRENCY FOR OPERATIONS

Banks Are Allowed To Handle Drafts For Shipments Of Food

Prospects that the flow of money into the hands of Sanford every grower and citrus shipper will soon be resumed, loomed higher today in an announcement made by officials of the Sanford-Atlantic National Bank that under authorization of President Roosevelt, arrangements have been worked out whereby all Federal Reserve Banks are permitted to handle and collect drafts in connection with the shipment of food and feed products.

The announcement as released at noon today by Linton E. Allen, president of the bank, is as follows:

"The Sanford-Atlantic National Bank has been advised that under regulations issued by the President of the United States, the Federal Reserve Banks are permitted to handle and collect drafts in connection with the shipment of food and feed products, provided the drafts are drawn with documents attached, and goods are deliverable only upon surrender of such documents.

"This provision will enable the shippers of citrus and citrus to handle their drafts in an orderly manner through the bank, and in turn the bank will be permitted to pay out currency when these drafts have been paid, thus relieving in Sanford, at our business season, considerable ready money."

WASHINGTON, Mar. 8.—(A.P.)—Under regulations issued by Secretary Woodin, banks are permitted to exercise the following functions:

1. Handle drafts or other documents in connection with shipment, transportation or delivery of food or feed products.

2. Accept payments on account of or in settlement of obligations due it by its customers.

3. Make change.

4. Allow customers free access to safety deposit boxes.

5. Cash checks drawn on the treasurer of the United States, on the condition that no gold or silver certificates be paid out.

6. Return without interest all cash, checks and other negotiable instruments held for safekeeping.

7. Pay out without restriction new deposits made in special "trust fund accounts," on the condition that no gold shall be paid out.

8. Complete settlement for checks charged to accounts on or before Mar. 4, providing the complete settlement does not involve payment of money or currency.

9. Return to customers documents and securities held for safekeeping.

10. Exercise usual banking functions to provide for absolutely necessary needs of communities for food, medicine, relief of distress, payroll and expenditures to maintain employment.

11. Deposit collateral in the United States to secure advances to branches in foreign countries.

12. Clearing house associations conditionally authorized to issue certificates against sound assets of banking institutions, but not before Friday. Authorization revocable at discretion of secretary of the treasury.

13. Banks authorized to continue to act as trustees, executor, administrator and other estate functions, provided no currency or coin is paid out.

14. Reserve banks permitted to conduct normal functions as federal fiscal agents in exchanging government securities.

## SEARCH SPREADS INTO CANADA FOR KIDNAPING PAIR

### Four Others Already Arrested In Case Of Broker's Abduction

DENVER, Mar. 8.—(A.P.)—Search for the abduction of Charles Fletcher, 2nd, spread across the international line into Canada today. Two of the six persons against whom kidnaping charges have been filed are believed by Police Chief Albert Clark to be fleeing this country.

They are Cern Sankey, 41, named by police as the probable leader of the gang which held the wealthy broker captive more than two weeks and then collected \$60,000 ransom for his safe release, and Gordon Elkhorn, alias Gordon Best, 32. Police said both men formerly lived in Canada and were employed by the Canadian National Railway. Two men and two women already have been named in the case.

One of the accused persons, Youngberg, who attempted suicide by slashing his wrists and throat when he was discovered in the hideout, is en route to Denver with police officers. Sankey, alleged owner of the hideout, is being sought along with Elkhorn.

Carr said the cases against the suspects would be tried under provisions of a new federal kidnapping law passed by the last session of Congress, commonly known as the "Lindbergh law," which allows a federal judge absolute discretion as to the length of prison term to be imposed on a person convicted under it.

"Under the law," Carr said, "the federal judge may sentence a convicted person from one minute to life in the federal prison. We have a good case. The prosecution will be vigorously pushed."

Chief Clark said Youngberg, 37, a former Canadian railroad man, had confessed his part in the affair.

Application of the House was positive, Clark said, revealing that young Fletcher had taken measures during his captivity to insure leaving fall-evidence in the place. A cigarette butt turned in a tug by the young broker and his finger prints liberally smeared on (Continued On Page Two)

## National City Bank Seeks To Divorce Affiliate Company

NEW YORK, Mar. 8.—(A.P.)—James H. Perkins, new chairman of the board of directors of the National City Bank of New York, last night announced a plan to divorce the National City Company, the bank's security, distribution, utility, and other affiliate.

The board of directors of the bank and the company, which met yesterday afternoon, "have today determined on the policy of working toward the divestment of the bank and its security affiliate," said Mr. Perkins.

It was following disclosure by the Senate Banking Committee of operation of the National City Company that Charles E. Mitchell resigned as chairman of both the bank and the company last week and Hugh B. Baker resigned as president of the security affiliate.

No new officers were elected to take their places in the company, but Mr. Perkins was chosen chairman of the board of directors of bank in the place of Mitchell.

A statement issued by Perkins said it would be sought to accomplish the separation "as soon as it can be done in an orderly manner without sacrifice of the assets of the company and of the value which exists in its facilities for the purchase and distribution of investment securities of the highest grade.

"In pursuance of this policy, from this time on, no executive officer of the bank will sit upon the board of the company, and no executive officer of the company will sit upon the board of the bank."

## U. S. To Concentrate On Sources Of Rum

WASHINGTON, Mar. 8.—(A.P.)—The bureau of prohibition directed its agents today to specialize on eradicating sources of liquor supply and leave the problem of speakeasies to states, saying the appropriation bill for the next fiscal year provided no funds for the purchase of evidence against speakeasies. It was learned that President Hoover pocket vetoed the Davis-Dill radio bill to forbid broadcasting of information concerning any lottery, gift enterprise, or similar scheme.

## Announcement Is Seen As Necessary Before Midnight Thursday On Monetary Plans

By The Associated Press  
Secretary Woodin said today actual currency will be circulated in place of scrip or clearing house certificates under a plan now being formulated. He did not disclose the plan under which the currency will be used but made it clear a formal plan for scrip or other medium of exchange is being abandoned.

The secretary appeared highly optimistic over the outlook. "We can see the light here," he said at his office in Washington. "This thing isn't going to pieces."

It appeared that an announcement as to what form of money will be adopted and its backing must be made by midnight tomorrow because the conditional regulation issued earlier in the week by Woodin permits the issuance of scrip on Friday morning.

Backed by a Treasury department order reopening the federal reserve banks for limited transactions with members, financial institutions in many localities resumed business today on a restricted basis. An announcement was made that President Roosevelt intends to continue his command of the monetary situation until permanent legislation is possible and that a new proclamation is due Thursday night when the present national holiday ends.

In his message to the special session of Congress Thursday, Roosevelt expected to ask for broad powers to meet the situation.

WASHINGTON, Mar. 8.—(A.P.)—Under regulations issued by Secretary Woodin, banks are permitted to exercise the following functions:

1. Handle drafts or other documents in connection with shipment, transportation or delivery of food or feed products.

2. Accept payments on account of or in settlement of obligations due it by its customers.

3. Make change.

4. Allow customers free access to safety deposit boxes.

5. Cash checks drawn on the treasurer of the United States, on the condition that no gold or silver certificates be paid out.

6. Return without interest all cash, checks and other negotiable instruments held for safekeeping.

7. Pay out without restriction new deposits made in special "trust fund accounts," on the condition that no gold shall be paid out.

8. Complete settlement for checks charged to accounts on or before Mar. 4, providing the complete settlement does not involve payment of money or currency.

9. Return to customers documents and securities held for safekeeping.

10. Exercise usual banking functions to provide for absolutely necessary needs of communities for food, medicine, relief of distress, payroll and expenditures to maintain employment.

11. Deposit collateral in the United States to secure advances to branches in foreign countries.

12. Clearing house associations conditionally authorized to issue certificates against sound assets of banking institutions, but not before Friday. Authorization revocable at discretion of secretary of the treasury.

13. Banks authorized to continue to act as trustees, executor, administrator and other estate functions, provided no currency or coin is paid out.

14. Reserve banks permitted to conduct normal functions as federal fiscal agents in exchanging government securities.

SALES INCREASE  
NEW YORK, Mar. 8.—S. S. Krug's Company's February sales aggregated \$1,062,000 against \$980,000 a year ago, a decrease of 11.3 percent.

### CITY DEMANDS CUT IN RATES FOR CURRENT

(Continued From Page One) ing system and water pumping plant, the Commissioners came to the reason for demanding a reduction at this time.

"Whereas, the Commissioners say in their resolution, 'commodity and labor prices and cost of production in all lines of business and manufacture have been greatly reduced from the prices and costs obtaining at the dates of the granting of the franchise and contracts, and the City Commission is of the opinion that electric energy can be supplied to the general public of the City... at a less rate than the net rate provided in the... franchise, and at less rates and prices than prescribed by the contracts... between the City and the... Company, and the said City Commission is of the opinion that said rates to private consumers under the franchise and said rates and prices... in the contracts with the City are unreasonable, excessive, and should be reduced.'"

The resolution became effective upon its adoption. City Clerk F. S. Lamson last night indicated that he would mail a copy of it to officials of the power firm here, "and that means," he said, "that they'll have until the night of Apr. 5 to make answer to the Commissioners' demand."

### Final Hearing Is Ordered In Case Against F. P. & L.

(Continued From Page One) Law cases is somewhat reversed, and the practice is for the Court to hear arguments on the law before listening to the evidence, the purpose being to determine whether the complainant is really entitled to his injunction, assuming he can prove his case. Experience has proven that this course often saves the time of the Court where the complaint is not well founded in law.

Messrs. Hull, Landis and Whitehair, Mr. Dighton continued, "yesterday attacked our pleadings from every possible angle, and the effect of Judge Smith's decision

was to over-rule all their objections and to hold that on the face of the pleadings we would be entitled to the injunction, and to allow us to introduce testimony in support of our contentions that the amount of the penalties added to Mr. Dorney's electric bill is unreasonable and unjust as bearing no fair relation to the loss or expense which the power company is put to through his failure to pay his bill when due."

Concluding, Mr. Dighton said, "Since the Florida Power and Light Co. stipulated to the Court that it would not discontinue its electric service to Mr. Dorney pending this suit, the Court ordered the matter to proceed in the usual course to a final hearing when Mr. Dorney will present his testimony, in order to secure the permanent injunction he seeks."

### Local Visitors At Inaugural Describe Sights

(Continued From Page One) address was completed and the crowds started moving away to find seats from which to view the... start shortly after."

Both Mr. McRory and Mr. Lehman saw tears in the eyes of many spectators during the delivery of the address, and both confessed that "a lump arose in my throat that just wouldn't be downed."

They both described their stay in Washington as crowded with events, that were beyond description, and far more thrilling than they had anticipated. Mr. Lehman said that Roy Chittenden, of Sanford, was one of many Floridians who met the special train from Florida, while during the week-end he spent considerable time with Mr. and Mrs. Horace Bannon and Major and Mrs. McKenzie Davison, former residents of Sanford.

Describing the inaugural ball, Mr. McRory said that "with nearly 8000 persons, in the hall, it was impossible to dance, but the scene was colorful and impressive." He told how he and Mrs. McRory had accidentally been swept to the front of the stage upon which Rosa Ponselle, noted Metropolitan Opera soprano appeared before Mrs. Roosevelt and her party to sing the "Star Spangled Banner and 'Dixie.'"

Otto Schmehl, local grower, also witnessed the ceremonies, "but from an unusual position, in the top of a tree about a block away from the stand, on which Roosevelt delivered his address. He, too, described the events as "wonderful," and said that "you couldn't help but feel that Mr. Roosevelt is out to bring the country back to where it belongs." The crowd was tense throughout the reading of the address, interrupting only at short intervals, with applause that while not general, was sincere. "The crowd seemed to hane on to his words," Mr. Schmehl said, "and did not wish to interrupt. When the address was concluded and the crowd began turning away, there were hundreds of wet faces, but there were smiles almost all around. The tension was lifted."

### Allen Delivers Talk On Banking Situation In City

(Continued From Page One) mediate embargo on the release of gold.

He questioned Secretary of the Treasury Woodin's statement that America is not off the gold standard by explaining that in his opinion a country is on the gold standard when the exchange of gold may go on free and unrestricted. "Under orders released at Washington yesterday," he said, "we may make change or cash treasury checks at our discretion, provided we do not release gold or gold certificates, indicating to me that at least technically we are off the gold standard."

Mr. Allen credited a rise in the stock market during the latter days of the past week as due to the fact that certain groups, expecting inflation of the currency and higher prices to follow shortly after the inauguration, purchased stocks of those firms whose equities are large and whose outstanding debts are small.

He termed inflation as meaning that the holders of bonds and insurance policies would suffer and that a man in debt could pay off his obligations easily because of a rise in the price of tangibles. Mr. Allen explained various types of "scrip" money that are being considered both locally and nationally as a means of relieving the situation at once.

During the discussion which fol-

lowed Mr. Allen's talk, Rotarian Paul O. Meredith, of Orlando, said that "We can almost surely expect a limitation on bank withdrawals when this banking holiday is lifted," and that "It seems to me that the situation will work itself out smoothly enough. It is still in the same hands as before, the hands of the financial experts. Some mistakes were made in the past, but those who made the mistakes suffered and a lesson was learned. The idea is that we have worked out of equally difficult situations before, and we shall do so again."

Those attending the meeting were: Rotarians Paul O. Meredith, of Orlando, Rancall Chase, who presided, H. M. Watson, J. A. Wright, Leonard Melucas, R. F. Montsalvage, B. L. Malbie, John Thomas, of Chicago, S. O. Chase, Sr., S. G. Gray, G. C. Harden, H. H. Coleman, W. M. Hayes, G. F. Haines, G. W. Spencer, F. C. MacMahon, Karl Lehmann, H. R. Stevens, A. W. Epps, S. Paleston, S. O. Shinhiser, W. C. Hutchison, H. B. Pope, P. J. Stine, J. A. Brown, and Mr. Allen.

### A medicine that does something for women

A woman is old at thirty when she has let herself run down. And she is young at sixty if she knows how to keep clear of chronic sluggishness. Have you never tried the harmless medicine that is made for this very condition? Do you know that two or three weeks of its gentle stimulation has done the most amazing things for lots of women? This means of stimulating the system to new life is a doctor's prescription. It is known as Dr. Caldwell's Syrup Pepsin. It is made from fresh herbs, active senna, and pure pepsin. From the day you begin with it, you will feel better; one spoonful dispels of any bilious headache; a larger dose relieves any constipated condition. A little now and then will keep you guarded from the auto-intoxication that dulls appetite and ambition in any man or woman. Thousands of households bless this family doctor's prescription. It has saved old and young from sluggish spells—and downright sickness. It's ideal for children, too; the only tonic they often need. It's the only laxative anyone of any age ever needs. Dr. Caldwell's Syrup Pepsin is known to all druggists; they always have it on hand. It is the most likeable and remarkable medicine you ever tasted. Try one bottle and compare your condition with the way you felt before!

### THE STORY OF NERO

vents in the life of the profligate Nero, suggested by his part in Cecil's coming to the Milano theatre Sunday

In 69 A.D. Poppea Sabina, a high-born, wealthy, accomplished woman, appeared on the scene with a hearty determination to become Nero's wife. Her first object was to get rid of Agrippina, his mother, and she succeeded in frightening him into plotting her death.

Agrippina was taken aboard a vessel so constructed that at a given signal it would fall to pieces. The signal was given... the vessel collapsed, and Agrippina tumbled into the water. But she saved herself by swimming to shore.

But a body of soldiers surrounded her house, entered her chamber, and shot her. Nero, frightened by the proximity of his mother, fled for six months to the country. He came back here, divorced his first wife, and married her to go inland, where she was murdered. Poppea now became empress.

### THE ADVENTURES OF TOM, DICK AND HARRY

TOM HAS DISAPPEARED WHILE DICK AND SHORTY ADVANCE FARTHER INTO THE DARK CAVERN. DICK NOT ACCUSTOMED TO THE OPERATIONS OF A DETECTIVE IS COMPLETELY BAFLED BY SHORTY'S ACTIONS

SHORTY—FOR PETE'S SAKE! YOU MAY WANT TO EXPLORE THIS HOLE FOR SCIENTIFIC REASONS BUT I'M LEAVING! TOM IS IN DANGER AND I'M GOING TO FIND HIM!!

HOLD ON, DICK!! DON'T BE SILLY! I KNOW TOM ISN'T HERE BUT THAT MAN COULDN'T HIM! HE KNEW WE'D ENTER THIS CAVERN SO HE TRICKED US. SEE YOU KNOW HE CAME OUT SOME WAY—TOM BEING BEHIND US WAS CAUGHT—DO YOU SEE THAT?

AS SHORTY THINGS ARE A SIGHT GREATER THAN THE SOLUTION IS SOLVED!

I KNEW IT—LOOK DICK! SEE THAT!!

### ALLEY OOP—Our Prehistoric Ancestor

SMACK DAB INTO AN UNDESIRABLE SITUATION! WELL FOR YOU! BUT FOR US! ALL THE LOUSY BREAKS!!

HELP!
