POLICY ENTERS **GTH FULL WEEK**

Price HeldAt\$34.01An Ounce For 3rd Day; Dollar Shows New Strength, In Europe

WASHINGTON, Dec. 4 .-(A.P.) Government gold buying entered its sixth full week today with its peak price of \$34.01 an ounce maintained for the third successive day as the dollar showed new strength in all

foreign exchanges.
Today's quotation for the RFC
purchases was annotinced shortly after acting, sucretary Morgen-than returned to his office from his Thankugiving holiday, and a little before President Roose-

White House. Last week the RFC boosted its offer for newly mined domestic gold 25 cents. During that time the dollar showed unusual strongth abroad, a trend that

restinued today. One of the first things Morgenthat did on taking over the Treasury a fortnight ago was to net a departmental committee to work studying the government's finances, needs and expected revethes with a view to recommendleg tax legislation to Congress. The group is headed by Assist-Berretary Howes.

One of its principal problems has been that of gauging the amount of revenue that may be réceived from liquor taxes. Estimentes range from \$250,000,000 to \$350,000,000, depending on the rates established by Congress, with \$300,000,000 the figure most

often mentioned. Against this income, the comthrough smethl taxes which expire after repeal. These were ori-

RFC Loan ToDawes Bank Still Overdue

WASHINGTON, Dec 4.-(A) The \$90,000,000 loan by the RFC to the Central Republic Bank and Trust Company of Ch cago headed by former vice president Charles Dawes never has been renewed by the corporation. Simultaneous with this disclosure it was learned today however that corporation officials now regard the loan as having the status of a demand note. Although Chairman Josés or other RFC officials declined to discuss the matter publicly It is understood on the highest authority that the note is and considered in default. While considered as a note that could be called at anytime it was pointed out that the corporation has never called any overdue loans. The loan, made in December 1932 and or ginally for six months has been re duced to slightly more than

The Newspapers And Recovery

From the Rev. Fit Coughlin's recent denunciation. "Tory newspapers," together with Gen. Johnson's Atlast reference to the "dead cats" with which certain newspapers. had filled the air, and the rather general attitude of the newspapers that a "free press" clause should be included in their code, it would seem a reasonable assumption if a rather large proportion of the rather large proportion of the public had gained the impression that the newspapers as a whole are opposed in large measure to the recovery program.

Such is not the ease, however. "The truth of the mat-ter," according to Editor and Publisher, "appears to be that, while some newspapers, notably the Hearst group, Chicago Tribune and Chicago Daily News, have candidly expressed disapproval of the NRA recovery plan, the rank and file of newspapers over the country continue to give powerful support to the Roosevelt movement and the political truce which went into almost unanimous effect following March 4th generally continues. There are large and in-fluential groups that espouse the NRA principle in editorial columns and play up the news of the administration with enthusiasm and apparent conviction that recovery results completely justify the President's plan.

"There is no evidence that Mr. Roosevelt is not open to suggestions, that he does not want constructive criticism or that he views the recovery plan as a fixed and nonassailable policy. He has some results to show, but there is no evidence that he thinks it satisfactory. If anyone has a plan which will accelerate recovery and improve on NRA or any other venture of the administration we believe the White House gates would swing open and gratefully receive the information. But plainly the President and his advisors are quick to resent what they think is deliberate obstruction. They do not hesitate to attack this, and we hope that they will not have reason to charge that any organized rative of madmen, or of God. group in newspaperdom has sought to block the wheels of seen life most unsteadily; the recovery movement for selfish or commercial reasons.

"Political, partisan, honest opposition is to be expected, and Mr. Roosevelt is too much of a politician himself to object to it. Indeed, it might well be regarded as a wholesome influence, a desirable check on the administration in time of crisis. No man or group of men should want complete freedom from criticism, advice and aid in such a would be so rare, monumental and treacherous undertaking as a complete readjustment of the economic system of this nation. We do not think the Administration asks it or expects it. By the same token, however, the American press must not merit by any word or deed public criticism for deliberate, selfish obstruction.

Christmas-1933

With the months of the year entering the home stretch and Christmas only three weeks away, one should be pardoned for offering the rather trite advice to do your Christmas shopping early. There is going to be some Christmas at altogether armor-proof us shopping this season, for the first time in several years, and those who come first will be able to buy things before they have been generally mulled over by the whole public.

For the whole public is going to be in there doing some shopping. For the first time in years there is no unemployment in this county. The Civil Works Administration has put hundreds of men to work who haven't worked in ages. Many of them, who may have received ten or fifteen cents an hour occasionally for part time work, are now receiving at least thirty cents an hour for thirty hours a week. Last week more than five thousand dollars was released locally by the Civil Works Administration. This week it is expected to reach nearly twice that amount.

This sort of thing is going on throughout the whole country. It is estimated that several million men will go back to work during the next week or two. Their wages will be high enough so that they can buy the things essen the NRA program anyway tial to a healthful existence and perhaps have enough left that idea about RFC loans to over to provide for a Christmas present or two. It is exmen who were suffering peeted that four hundred million dollars will be put into circulation by the Civil Works Administration before the end of February.

Such sizable disbursements going into the pockets of business survey those who have no alternative but to spend it cannot help Miami's dituation, writes but have a stimulating effect upon business. The man in condiin Miami have improved the streets who long ago was down to his last sou, is not much as eighty percent in going to create a problem of hoarding when for the first nes. It is looking forward time in months he finds himself on a regular payroll. Mrs. Morse Ordered Additional Men On City, County Tasks

Under an order issued at Gainesville yesterday where state heads of the Civil Works Administration met with state officials and many local CWA leaders, no addicity and county.

Sanford today by Mrs. Helen T tended the meeting along with five women members of the leaf project committee.

This county's quota has been used up, Mrs. Morse stated, and for the time being persons nov: unemployed and whose names are listed at the Federal Re-employment Office on Magnolia Avenue must remain idle so far as the local CWA is concerned.

Only those persons who are ac tually being given work relief or rellef on Nov. 16 are to be employed on regular jobs, Mrr. Morse stated, as she indicated that the 704 persons who were handed checks last week may expect to be retained as Federal employes. In reporting on the organiza-tion meeting of the Women's Proj-Mrs. Morse sa'd that Mrs. R. A. change for the week. Smith was elected as chairman of the committee.
