The Sanford Herald
 Thursday, December 30, 1971 - Sanford, Florida 32771
 64th Year, No. 94 Price 10 Cents

Lavish Welcome Ready For 1972

NEW YORK (AP) — The year 1971 may have been a time of economic belt-tightening, but champagne and caviar sales suggest that many Americans are preparing to welcome in the new year in lavish style. Dealers and importers of the "bubbly" and top quality eggs of the sturgeon reported demand for both luxury items was strong, with little price resistance by customer.

Caviar was in short supply and in most shops the prices are higher than last year.

Imported champagne was plentiful — stocks were laid in before the 10 per cent surcharge was imposed temporarily and before the dock strike on the East Coast. Prices were holding fairly steady but there are warnings that after the holidays there will be increases.

Fifty 12-bottle packages of Bollinger French 1968 vintage, priced at \$59.95 each, "sold out in a hurry" at Stop and Shop, Chicago's largest gourmet store.

The caviar trade, despite short supplies and rising prices, still found demand firm.

Department of Commerce statistics showed that in the first 10 months of 1971, imports of "fresh, chilled, frozen, prepared or preserved" sturgeon rose amounted to 95,870 pounds, valued at \$1,147,500, compared with all of 1970 when 106,953 pounds worth \$1,217,116 were imported.

Romanoff Caviar Co. of New York, a major importer, said the fresh Buca, considered the ultimate in pur by gourmets, was bringing up to \$50 a pound at retail, compared with \$60 to \$70 a year ago.

Headlines Inside THE HERALD

TALLAHASSEE — John J. Gardner, Florida's newest Board of Regents member, says he hopes to make a "valuable contribution" to the board — not just as the only Negro, but also as the only educator. (Page 5A)

MIAMI — A raft bearing three half-dead castaways washed onto nearby Elliott Key after nine blistering days at sea. One survivor says two others went mad and jumped overboard. (Page 5A)

MIAMI BEACH — Two people have been charged with kidnaping television producer Peter Gayle and flying him to Los Angeles where they took \$34,000 from his safe deposit box. (Page 5A)

SAIGON — U.S. warplanes using new techniques and laser-directed bombs pound North Vietnam for a fifth day up to the 20th parallel. (Page 1B)

WASHINGTON — John Marshall Harlan, who often dissented in activist Supreme Court rulings, dies at 72 of cancer. (Page 1B)

WASHINGTON — A preliminary Census Bureau estimate shows the nation's birth rate fell dramatically this year to one of the lowest levels in history. (Page 1B)

WASHINGTON — Despite conservative GOP discontent with President Nixon's policies, there is little movement within the party for an uprising. (Page 1B)

KEY BISCAYNE — The summit meeting between President Nixon and West German Chancellor Willy Brandt has ended just about as it opened — with expressions of good will and pledges of cooperation. (Page 5A)

PASADENA, Calif. — A newly discovered series of mountain ridges, "wrinkled like an elephant's hide but... uniquely Martian," has been photographed by Mariner 9's camera, scientists say. (Page 1B)

WEATHER — High Wednesday 84, low this morning 54; high 78-84 Friday, low in 60s; continued warm through weekend. Heavy rains, sleet and snow chilled the nation's midsection today; four inches of snow fell from South Dakota to Wisconsin and Michigan; two inches of rain soaked Missouri and Illinois.

Interested In Expanding Here
Illinois Firms Eyeing Seminole

Three Chicago firms are reported to be interested in expanding into Seminole County. This was disclosed at Wednesday afternoon's monthly meeting of the Seminole County Industrial Development Authority (SCIDA) by David F. Kelley, SCIDA executive director.

Kelley told authority members that a research corporation, an apparel manufacturer and a clamp maker are interested in the immediate area and desire all available information as soon as possible.

The SCIDA director reported he had visited seven prospects during a recent trip to Illinois. This information followed an earlier disclosure by Kelley that Fletwood Enterprises, Inc., of Riverside, Calif., has almost finalized the purchase of 27 acres near Sanford for location of a modular home plant.

Kelley reported he also called on Robert Thompson, vice president of Fantus Company, in Chicago, a consulting firm with clients looking to expand or relocate to other areas.

He stated Thompson wanted information on Seminole County and disclosed that some clients are expressing great interest in this fast growing area.

He stated Thompson wanted information on Seminole County and disclosed that some clients are expressing great interest in this fast growing area.

DOGS WILL RUN FOR SJC STUDENTS

'Scholarship Night' for Seminole Junior College will be observed Tuesday evening at Sanford-Orlando Kennel Club when all proceeds will be donated to the school. The dogs enriched the school's scholarship fund by \$10,600 last year. Jane Baird, "Miss SJC," and Dean Robert A. Schreiber will preside at Tuesday evening's running. (Staff Photo)

Sanford Planner Cites Cost Annexation Is Frowned On

Sanford City Commission has scheduled a 4 p.m. Jan. 6 workshop meeting to discuss a 26-page city annexation report from Gerald Duke, city planner and a proposed sewer line addition.

The large sewer line would make possible sewage flows from the southwest sections of the city and allow for expansion, according to W. E. Knowles, city manager.

Knowles placed the cost at approximately \$250,000 and said this could be worked into the certificate issue with the secondary sewage treatment plant addition, construction of which is expected to start in 15 days.

The city manager said the present sewer system is not sufficient to carry flows through the city.

Duke, in his study report to the Commission, stated annexation of any substantial fringe area to the city will require immediate capital outlay for service equipment, which cannot be paid out of operating funds or service charges.

Total immediate cost for annexing the adjacent areas, including Ravenna Park, Lake Monroe area, Loch Arthur, Sunland, Cameron City and along Celery Avenue is \$1,687,750, according to Duke.

By annexing all these areas, the City of Sanford would enlarge its incorporated area by 21,000 acres and the city's population by nearly 14,000 persons.

'Oil Tank Farm' Suit Before Court Today

Murphy Oil Company, which operates a facility in the so-called "tank farm" area near the Sanford lakefront, was scheduled to be in Circuit Court this afternoon trying to stop the City of Sanford from rezoning the oil storage tank area.

Unless the court overturns the zoning change, Murphy will be prohibited from operating its facility for oil storage in the event here ever was a six-month lapse in its use.

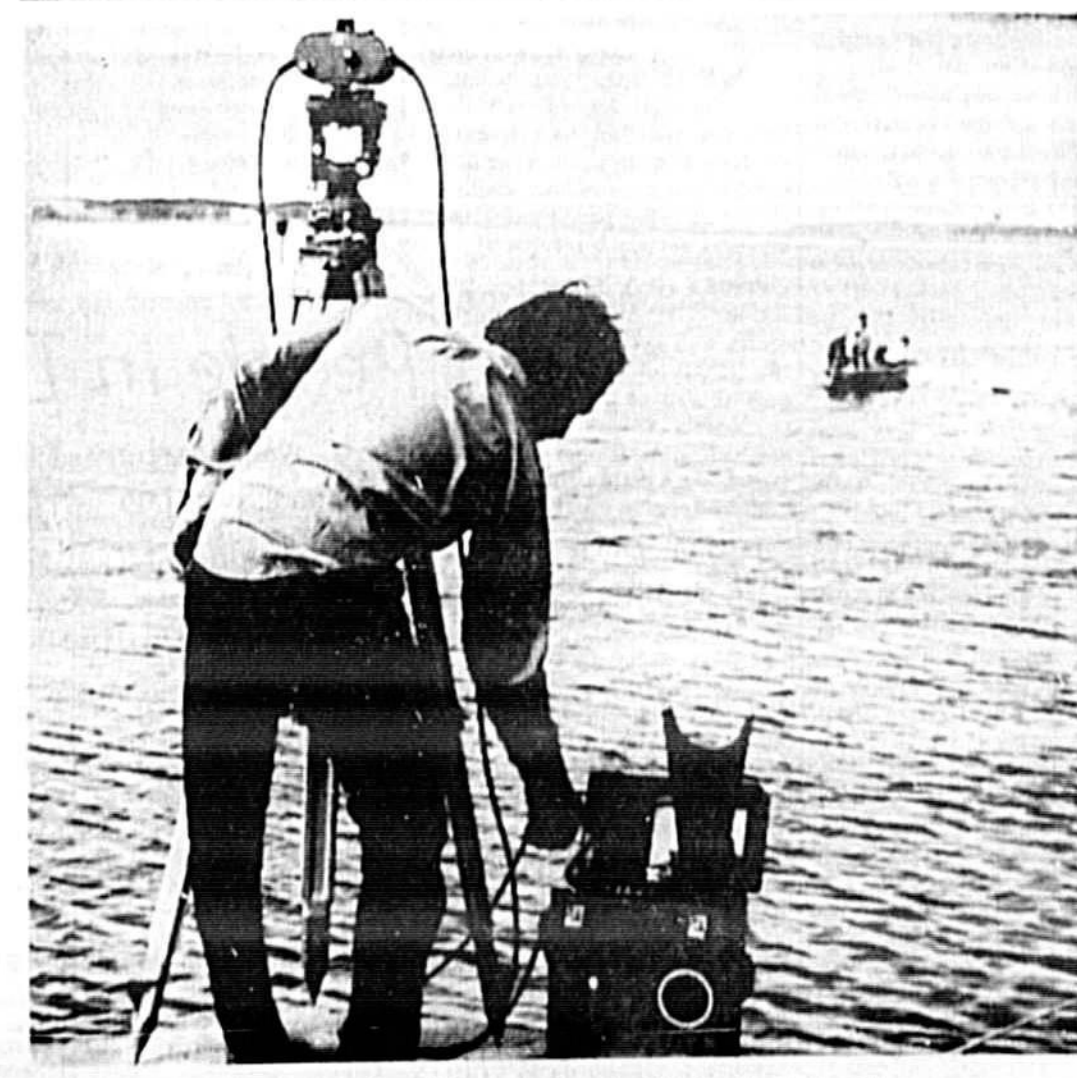

City Manager W. E. Knowles said the area, which is inhabited by several oil firms, was zoned to "retain commercial" from "industrial" over the protests of the plaintiff, Murphy Oil, who filed suit claiming the change in zoning was illegal.

The zoning change became effective in June, 1970, 11 months after the City Commission voted to approve the change in a July, 1969, meeting.

Circuit Judge Roger Dykes was scheduled to hear the non-jury case in his chambers.

Thomas Freeman, Jr., representing Murphy Oil and W. C. Hutchison is the attorney for City of Sanford.

Knowles said city officials have been subpoenaed as witnesses. They include Gary White, Sanford planner Gerald Duke, Lynn Bisher, city building inspector, and the city manager.

SOUNDINGS were taken this morning in Sanford's Lake Monroe west harbor by Blair Kilner, surveyor with A. C. Douney Company, for water depths information needed before construction of a breakwater in the area of the sunken docks can start. City Commission has approved the installation of the jetty before restoring the west harbor's dock area. (Donald Vincent Photo)

BULLETIN
 WASHINGTON (AP) — About 70,000 men with low literacy numbers subject to the draft next year will escape being called if, as Secretary of Defense Melvin R. Laird stated, no call is issued in the first three months.

Dear Abby: By Abigail Van Buren

DEAR ABBY: Can you tell me why non-leads are not allowed to visit Jewish synagogues? Don't tell me this is not true because I was personally turned away.

A GENTLE: According to Rabbi Bernard S. Raskin, Temple Beth Shalom, St. Paul, Minn., never is anyone asked entering a synagogue whether he is Jewish.

During the High Holy Days, three days a year, all synagogues are crowded with congregants and members and there are no extra seats available in this kind of situation, as in an overcrowded theater, concert hall, etc., where there is simply no room, understanding and cooperation is expected.

It is considered proper to take refreshments home? I'm sick of preparing and buying goodies for guests who ask if they can take some home to their husbands and children. It happens at parties and showers. It even happened at my wedding. (Even the bride ordered the cake for 75 to 100 extra people, there wasn't even a piece left for me to taste.)

How can this piggish practice of taking refreshments home from parties be brought to an end.

What Teen-Agers Want to Know" send it to Abby, Box 6700, Los Angeles, Cal. 90008.

How can this piggish practice of taking refreshments home from parties be brought to an end.

Jacoby On Bridge

Here is a reprint of our hand of Sept. 21, which originally played by Willard S. Karn against Edward Hynes Jr., back in 1921. The peculiar bidding is due to the fact they were backgammon for position in a rubber bridge game. Eventually Eddy doubled his hand and opened the king of spades. Karn ruffed lead a trump to dummy; ruffed a second spade and led a low diamond. Eddy proceeded to play the jack of diamonds. He visualized an eventual throw-in play against him if he played a low diamond and by playing the jack then, and the king on the next diamond lead he made it impossible for the throw-in to develop.

Worry Clinic

By GEORGE W. CRANE, Ph. D., M. D. Accounting grad., \$5.00 per hour. "Dr. Crane, the next with trained hands are now at the bedside as regards starting power. "Dr. Crane" he began, "those young fellows with practical education seem to have the advantage nowadays, don't they?" "For example, our Chicago Builders Association made a striking comparison of the hourly income of liberal arts college graduates versus carpenters and even unskilled laborers. "It assumed that four years at the university was the equivalent of tradesman's apprenticeship.

Horoscope Forecast

FRIDAY, DECEMBER 31, 1971. GENERAL TENDENCIES: The Year's Full Moon makes it possible for you to see clearly what you can or cannot do. You may not be able to organize and arrange your existence in the future that you will have a solid financial foundation, a considerably greater amount of security than is now yours. In all the New Year's Eve celebration seek out an expert and get his suggestions.

ARIES (Mar. 21 to Apr. 19): Everything seems to speed up now whether in business or social affairs, so make sure you are most dynamic in all you do and do it. You can have the best time in high fashion this evening. Drive with care, though.

TAURUS (Apr. 20 to May 20): Make as many new and interesting contacts as you can and the new year will start on a promising note. Try to live the philosophy you profess so you have more success and happiness in the future. Dine well.

GEMINI (May 21 to June 21): Concentrate on more simple pleasures instead of spending a great deal of money and regretting it. Let your mate take care of all the festivities. Work as a team for best results.

MOON CHILDREN (June 22 to July 21): A good day to show how truly devoted you are to mate and make this a wonderful day in m. together. If you get your bills paid early you can start the new year with a clean slate.

LEO (July 22 to Aug. 21): Make everything around you far more attractive and harmonious and then off to the evening to celebrate. Make appointments with friends early. How you are a generous person.

VIRGO (Aug. 22 to Sept. 21): You find that everyone is eager to join with you at the celebrations you have in mind. So make plans early for the m. How that love suit or dress can make a big hit with all. We come the new year in with a smile.

LIBRA (Sept. 22 to Oct. 21): Concentrate on the recreational side of your life during the hours today; tonight, whether at home or away from it. Make sure you do not lose your peace during all the holiday excitement. Drive with care.

SCORPIO (Oct. 22 to Nov. 21): Think cleverly just how to get ahead in the coming year and make it a point to see those individuals who can be of real help to you. Do some of the leading whether by phone or letter. Avoid those who throw cold water on your good ideas.

SAGITTARIUS (Nov. 22 to Dec. 21): You are able to handle monetary matters much better now since you have the aid of a good friend. Look over your bills and pay those who are pressing. Evening is excellent for meeting with some future banker.

CAPRICORN (Dec. 22 to Jan. 21): If you show kindness to one who is of emotional nature, you get much happiness as a reward. Give to a better acquaintance with those who are pressing. Have contracts going. Celebrate together tonight.

AQUARIUS (Jan. 22 to Feb. 19): Make sure you handle those personal affairs well before you step out to celebrate the New Year to m. That discussion with a fellow worker should not be postponed. Use tact and get right results.

PISCES (Feb. 20 to Mar. 20): Make last-minute arrangements with good friends for the recreation of the evening as soon as you can. Make this as memorable a holiday as possible. Spend your money wisely and be more optimistic as to the future.

IF YOUR CHILD IS BORN TODAY... If you or she will be one of those clever young people who will correct the favor of travels even while the young and want to copy them and become a person of importance. Since there is fine ability at organizing, your youngster could be successful in a department store which had offered to outfit her free in the latest styles. Then, he said, the family and close friends gave her a birthday dinner of beef steamed, ham and cake.

Mary Ann Harbert, PALO ALTO, Calif. (AP) - Mary Ann Harbert, freed earlier this month after 3 1/2 years as a prisoner of the Communist Party, was celebrating her 25th birthday with a family party and a shopping spree.

Her father, Gene Harbert, said his daughter spent Monday shopping at a department store which had offered to outfit her free in the latest styles. Then, he said, the family and close friends gave her a birthday dinner of beef steamed, ham and cake.

Mary Ann returned to her family last Wednesday after being treated at a military hospital following her release by the Chinese.

Donn Tatum, BURBANK, Calif. (AP) - Donn B. Tatum, president of

Helicopters Helicopters, once called "whirlybirds" are now often called "choppers," a label which comes from the noise made by the rotors—an irritating and very loud "chop-chop" sound.

Polly's Pointers

DEAR POLLY— My TV screen is with those many gestures that have such flimsy restrooms. Now we first check the room and if it is not clean we drive on to some place else by gasoline. Let us all join together in an effort to try to get some cleaner restrooms.

DEAR POLLY— I have a way to take the convenience of a road out piece without the time-consuming mixing and rolling when short on time. Mix

and roll out to the desired size, making as many crusts as you have waxed paper or foil roll-ers and the boxes they came in. Wrap waxed paper around the roller and also lay a piece over the crust so it will not stick to itself. Roll up and put in the box, label, freeze and have it ready. Remove from the freezer 18 minutes or so before unrolling so it will not break.

DEAR POLLY— To rejuvenate some window shades that were tired-looking, colorless, etc., I painted them with soft yellow latex antiplaster paint. I cut off the pockets that hold the wooden slats, then sealed the bottoms of the shades and glued on fringe or ball fringe. I have window shades that color I want without paying a premium. I painted four shades, two coats each, with a bit less than a pint of paint. The fringe is inexpensive so I also put a strip over each new pocket that I sewed in the shades about five inches above the scalloped bottoms.

DEAR POLLY— My dark suede coat leaves a dark lint on all my clothes every time it is worn. I hope someone can tell me how to prevent this.

DEAR POLLY— My dark suede coat leaves a dark lint on all my clothes every time it is worn. I hope someone can tell me how to prevent this.

Engagements

Anne Bostick, J. E. Eldridge To Marry

Mr. and Mrs. Earl C. Beck of Gainesville are announcing the engagement of their daughter, Anne Bostick, to John Eldridge Jr., son of Mr. and Mrs. J. E. Eldridge Sr., 300 Tangelo Dr., Sanford.

Born in Gainesville, the bride-elect is a 1962 graduate of F. K. Young High School, Gainesville, where she was a cheerleader and a member of Anchor Club and National Honor Society. She attended Stephens College, Columbia, Miss., and Florida State University, Jacksonville, where she is currently employed as a medical secretary.

Mr. Eldridge, who was born in Bellflower, Calif., is a 1968 graduate of Seminole Junior College, Sanford, where he was a member of the baseball team. He is a senior at Seminole Junior College and is employed at Sears, Roebuck and Co.

The wedding will be an event of Feb. 27, 1972, at 8 p.m. at First Methodist Church, Gainesville. Officiating clergyman at the candlelight ceremony was Rev. Quinn Cooper, Mrs. Marvin M. Lamm, organist, presented a program of musical selections and accompanied soloist, Mrs. G.H. Drake.

Church decorations included three large multiple branched candelabra, a white arch entwined with greenery and lilies, and two standing brass basket arrangements of white gladioli and a kneeling bench adorned with white mums, carnations and pink pansies. Family cars were parked with white satin boxes and leather leaf fern with one long stem red rose. Two standing palm trees were placed at vantage points and a white aisle carpet was used.

Guests in marriage by her father, the bride wore a formal length gown of candlelight silk ribbon and inserted veils. The bride's hair was styled in a "soft" style. Her veil was a light blue and white. Her shoes were white orchid color.

Following the ceremony, a reception was held at the Police Homeless Association Building. Guests were greeted at the door by bridesmaids in bird cage. Other decorations included an arrangement of white net around two white doves on a white stand, posed palms and two tall basket arrangements of white roses, stock and carnations.

Tables were overlaid with white net over pink satin adorned with a single red rose in a bud vase. Others existing with the serving and entertaining are Miss Beth Smith, Miss Linda Noguera and Mrs. Dotie Bernick.

The couple left for a wedding trip to Rock City, Tenn. and are now making their home in Sanford.

Out of town guests included Mr. and Mrs. J. F. Jernigan, Lakeland; Mr. and Mrs. George Laurendine, Miami; Mr. and Mrs. Kaye Wagner, Lakeland; and friends and relatives from Orlando, Winter Park and Tampa.

The regular monthly luncheon and general business meeting of the Sanford Women's Club will be held Wednesday, Jan. 5 at 12 noon.

Reservations for the luncheon must be in by 8 p.m. Monday, Jan. 4.

Call any member of the reservation committee.

People In The News Mary Ann Harbert, PALO ALTO, Calif. (AP) - Mary Ann Harbert, freed earlier this month after 3 1/2 years as a prisoner of the Communist Party, was celebrating her 25th birthday with a family party and a shopping spree. Her father, Gene Harbert, said his daughter spent Monday shopping at a department store which had offered to outfit her free in the latest styles. Then, he said, the family and close friends gave her a birthday dinner of beef steamed, ham and cake. Mary Ann returned to her family last Wednesday after being treated at a military hospital following her release by the Chinese. Donn Tatum, BURBANK, Calif. (AP) - Donn B. Tatum, president of

Seminoles In Tournament Finale

By GARY TAYLOR
Herald Sports Editor

TAMPA — The second 100 will probably come easier for Seminole high basketball coach Joe Mills. But number 100 won't be a bit easier than 99 or 100 and will probably be a lot harder to grasp.

Sanford's Fighting Seminoles outlasted Bishop Barry 79-75 last night in the semi-finals of the Tampa Catholic Christmas Tournament in a game that marked Mills' 100th win as a coach. Though the Seminoles collide with Tampa Catholic in the 9 p.m. finale for first place honors, Lakeland State Jr. meets Bishop Barry in the 7 p.m. consolation tilt.

The Seminoles jumped to an early lead and controlled the game 24-14 at the end of the first period. Both teams scored the same number of points in the second period (23) and Sanford took the same margin to the closing minutes of the first half. The lead never has easily been a 12 point gap as a question mark call by one of the officials hurt the Seminoles in the closing seconds of the first half. As the third period opened the Barons came alive and began

to close in on the Seminoles. At one time they pulled within one, 46-47 before the Tribe was able to pull ahead. As the third period came to an end the Joe Mills' 100th win was a bit easier than 99 or 100 and will probably be a lot harder to grasp.

Hounds Hard At Work

By HERKY CUSH
Herald Sports Writer

It's break time for most high school basketball teams. Or so it says on the schedule. But the Lyman Greyhound just might be working harder now than they have at any time during this young season.

One reason for the hard work could well be the next opponent on tap for the charges of Bill Moore. And that just might be the unbeaten Bucs of Daytona Mainland.

The Bucs currently own a spotless 8-0 chart which includes eight victories over Edgewater and vana. That duo along with Boone were rated the favorites in the tough Metro Conference at the outset of the 1971-72 campaign.

The Mainlanders were not expected to pose much of a problem for anyone, even in their own District, which with their having lost all five of their starters from last year's outfit. But here they are unbeaten after eight games including four victories in the Metro Conference.

The Bucs did have a pair of 6-6 leftovers from last year's team but neither remained a resident of the Daytona area. The starting lineup that has been enough to play this season. They say a little good comes of everything and the loss of the two 6-6 guards was a lot of good for Drew Stone, a 6-6 sophomore who was Junior Var-

ity "material" while the Bucs still had the towering "left over" in the person of Bill Moore. And that just might be the unbeaten Bucs of Daytona Mainland.

TRACK TALK

Street tires will get a supreme test in 1972 as B. F. Goodrich Corporation will sponsor John Greenwood whose Corvettes have been very competitive during the past few years in endurance races. In 1972, the Greenwood prepared Corvettes will appear at Daytona, Sebring, Watkins Glen and the famed 24 Hours of Lemons.

John's co-driver in the '72 season will be Tony Adamowicz who did so well in a Ferrari prepared by the North American Racing Team.

The Greenwood Corvette Team during the past year had the fastest car on the track at various endurance races entered, and was the Application National Champion for 1971. This man may have the combination to win Lemons in a GT car in '72. Greenwood is tough, his cars are very carefully put together, and he knows the ropes as he proved in '71 when he won the GT class at Sebring and Watkins Glen.

One note of interest though is he has competition in the GT class in '72 from Dave Hunt who drove his superbly put together Corvette to victory in the 300 Mile IMSA race at Daytona along with co-driver Don Venko.

Corvettes may just play a major role in an endurance racing in 1972.

I just found the ideal car for me to take to the market. The Ferrari GT54 Daytona with a 3-speed box, fantastic handling, a 300-horsepower engine, and a top speed of 174 miles per hour. WHEN? The going price for one of these gems by-the-way is a cool \$22,000. A fantastic vehicle which some of us may see, but I doubt one. ALMS!

Something I almost forgot was that John Greenwood, the fellow I was talking about earlier, will field a pair of Lola 200's in the Can-Am for 1972.

When one of the greatest road racers in the world goes Grand National stock car racing in an American Motors Matador, the stock car racing world will get its first taste of Mark Donohue, one of the five best drivers in the world.

If his Matador is anywhere near competitive, you can expect Richard Petty, Bobby Allison, Buddy Baker and company to have their hands full. Another point, just because Grand National stock car racing involves a little forced bending doesn't bother Donohue at all. Mark has won the Trans-Am Championship three of the last four years. In the process he has teamed up with Parnelli Jones, George Follmer, Peter Revson and a host of other top competitors.

The Trans-Am has always been a bruising series, and that is why Donohue will have little trouble adjusting to the Grand National circuit. He prepared for Donohue's debut on Jan. 23 in the Riverside 500. Which, by the way, is over a road course which gives Mark a slight advantage.

A dying breed of car owner is the so-called hot car fan. In the next several years if you want one, you're going to have muscle car owners we have in Sanford and Central Florida.

Lets take two makes of cars. If you have either a 454 cubic inch Chevelle, 300 or 400 horsepower, or a 440 Challenger, 275 or 385-500 horsepower variety, then drop me a line describing the car briefly. To WTRR, Box 1968, Sanford, Florida, 32771, and I will mention you in the next column. If you like this idea, I will run right on the list of every make of car, and we will talk about each and every one of them. I hope they don't become extinct!

Oldsmobile has continued its W-30 package for the 412 with a 454 cubic inch engine. This combination of hot cam, cold air induction and big cubes should produce another hot performer in 1972.

I guess I should say drive carefully this holiday weekend. Especially after last weekend in which the traffic death toll was a public road. Please don't drive at all if you can help it during this weekend if you plan on drinking any alcoholic beverages at all.

If You've got to say something

PUT IT IN WRITING!

11 Illinois' Fighting Illini knocked Florida from the ranks of the unbeaten ... and virtual by kayaked the Gators' Tony Miller in the process.

The battling Illini won the Gator Bowl Basketball Tournament championship Wednesday night with a hard-fought 76-75 decision over Florida ... Leaving Miller sprawled on the floor at the finish.

Miller, named the tournament's most valuable player and the game's top scorer with 31 points, was set up to take the final shot in hopes of pulling out Florida's seventh straight victory.

As he fired the ball toward the hoop, he was slammed to the court by two Illinois players. And he fell inside to injury. Miller suffered a broken thumb, but the way with 27 points, 24 in the first half.

Fourth-ranked North Carolina, seeking its third championship, lost to the Bruins in the final game of the tournament.

U. S. Ends Heavy Attack; 5 Fliers, 3 Planes Lost

By GEORGE ESPER Associated Press Writer

SAIGON (AP) — The heaviest air attack on North Vietnam in more than three years ended today after more than 1,000 combat strikes in five days, the U.S. Command announced.

Three U.S. planes were lost in the five-day attack, and one was rescued, the command said. North Vietnam claimed one U.S. plane was shot down and a number of pilots killed or captured.

The U.S. Command said one Air Force F4 Phantom was lost Sunday and its two crewmen are listed as missing. It said two Navy planes from carriers in the Tonkin gulf, an F4 and an A1, went down today, and only one crewman of the A1 was rescued.

An earlier announcement to day said only one plane was downed during the five days of raids. A spokesman said an announcement of the other two losses was delayed until the search for their crews was completed.

The U.S. armada of some 330 planes and other aircraft attacked North Vietnam's surface air missile sites, anti-aircraft batteries, air defense radar sites and fuel and supply depots between the demilitarized zone and the 20th parallel. The command said the heaviest attacks were about 80 miles south of Hanoi.

Hundreds of other missions were flown to support aircraft including fighters escorting the bombers to protect them against MIG interceptors, electronic planes to jam the enemy radar, command and control aircraft, reconnaissance planes and rescue helicopters.

It was the biggest attack on North Vietnam since the bombing halt on Nov. 1, 1968.

The strikes were terminated at 3 p.m. today, the command said. It engaged in efforts to achieve a significant logistics buildup or to shift the DMZ.

Four MIG losses were reported, the command said. The sharp escalation in the air war began Sunday, one week after five U.S. aircraft were shot down during operations along the border between North Vietnam and Laos.

Official pilots' reports reach Saigon said poor weather-

SANTALLIA N. BROOKS, 20, of Dixie Way, is in "serious" condition in the intensive care unit at Florida Hospital, following an automobile accident early this morning on Interstate 4 at State Road 436. The driver, Yvonne Bosley, 20, of 1215 West 15th Street, and a second passenger, Darlene Stephens, 18, of Williams Court, were treated and released from the hospital. Trooper P. C. Wright said the car (above) was a total loss after the driver lost control and plowed off the highway into a ditch. (Bill Vincent Photo)

Births Drop Is Puzzling

By BILL NEIKIK Associated Press Writer

WASHINGTON (AP) — The nation's birth rate fell dramatically this year to one of the lowest levels in history, a preliminary estimate by the Census Bureau shows.

Population experts are puzzled by the sharp decline since an increase in the birth rate had been expected in 1971. Whatever the cause they are hopeful it represents more than just a short-term phenomenon.

According to the estimate, the rate dropped to 17.3 births per thousand people, a dramatic dip over the 18.3 births per thousand recorded in 1970. The rate is based on an estimated 3,911,000 births this year.

Although final figures won't be in until February or March, Census officials are now almost certain their preliminary estimates will be borne out in the final count since the birth figures for January through October are known to be well below last year's rate.

Not since the years of the Depression during the 1930s has the birth rate been so low. But the 1971 estimate, even with a decline, still implies continued growth of the U.S. population.

Census officials are cautious about trying to interpret what the 1971 decline means, but they are caught by a sudden upsurge in 1972. An increase had been anticipated because of the relatively large number of women of prime childbearing age.

But they suspect it means that either women have decided to have smaller families or have postponed plans for more children for various reasons, such as the state of the national economy and fears of such things as inflation and unemployment.

Population experts are reluctant to make analysis are not yet available.

"I don't know why," said Dr. Murray Geisel, director of Georgetown University's Center for Population Research. "It's a real puzzle. We need much more detailed information."

He noted that the birth rate began declining in 1958 and did not steadily through 1968. Then it picked up to 17.8 per thousand in 1969 and reached 18.3 last year.

'Giant Of Supreme Court' John Harlan Succumbs

By JAY PERKINS Associated Press Writer

WASHINGTON (AP) — John Marshall Harlan, a Supreme Court justice who repeatedly exposed use of the legal system as the machinery for social reform, is dead of cancer at age 72.

His death in a Washington hospital Wednesday prompted President Nixon to call Harlan "one of the 20th century's giants on the Supreme Court."

Harlan retired Sept. 23 after 18 years on the court. He was more than a justice; he had been hospitalized for what was first described as a backache but later acknowledged to be bone cancer.

William H. Rehnquist, a former assistant attorney general and a strong conservative ally, will replace Harlan on the high court Jan. 7.

At Harlan's bedside when he lived in George Washington University Hospital were Justice Potter Stewart, Chief Justice Warren E. Burger and Justice Tompkins.

Justice Harlan was more than just a solitary justice. He was a human being of great worth.

For us here of the court, he was more than a justice; he was a brother and a noble friend.

Chief Justice Warren E. Burger said Harlan's career as a lawyer in public service was virtually unmatched.

OVIEDO Mayor Leon Oliff reads a resolution by the City Council to Ray Hunter, Frank Finney Jr. and Laimon Jackson commending them for their quick and heroic action in rescuing Joseph F. Allen from a burning truck. (Liz Mathews Photo)

New Year's At Disney Lake Apopka Study On Pollution Off

New Year's Eve at Walt Disney World will be the biggest celebration yet in the new Magic Kingdom theme park with special entertainment until 2 a.m.

Bands, fireworks, celebrities, parades and a spectacular midnight salute to 1972 will be part of the live entertainment festivities throughout the Magic Kingdom, headlined by popular recording artist Tommy Roe.

The entertainment extravaganza will be staged at regular ticket prices. The park will be open from 9 a.m. Friday to 2 a.m. Saturday. The special evening entertainment begins at 7:00 p.m.

MIAMI (AP) — A \$17.5 million plan to save Lake Apopka from death by pollution has been tied because the federal government isn't interested, state pollution control officials said Wednesday.

"It looks like we're going to have to find a way for the state to finance the whole project," said Frank Andrews of the State Department of Pollution Control.

The 31,000-acre lake near Orlando once was hailed as the finest in footing the rest of the world, but it is now a weed-choked, steam-covered body of water that has been polluted by massive amounts of phosphate pollutants.

The state Cabinet has put up \$250,000 for a plan that would drain the water from the lake and allow the sun to dry out and oxidize a 10-foot-thick layer of phosphorus at the bottom.

But Andrews said the plan probably would die because the Federal Environmental Protection Agency has shown little interest in footing the rest of the bill.

Discontent Visible But... Republicans Support Nixon

By AERON A. GUDRY JR. Associated Press Writer

WASHINGTON (AP) — Conservative discontent with President Nixon has become increasingly visible, but still lacks the momentum that could bring about a change in the White House, a survey of Republican officials in nearly half the states has shown no signs of an uprising within the party.

They are going to be Republicans and if they don't want to support Nixon, who would they support? asks GOP Alaska chairman Alvin O. Bramstedt, echoing a refrain sounded around the nation.

Bramstedt supplies his own answer: "They'll stick with a winner."

Indeed, the most pointed thrust to date, the announcement that Rep. John M. Ashbrook, R-Ohio, will challenge Nixon in the presidential primary, is a double-edged sword for Republicans.

Ashbrook's challenge adds up to a double-edged sword for Republicans.

Half of it is demonstrated by Sen. James L. Buckley of New York.

Buckley, who describes himself officially as a Conservative Republican, is said to feel that the open challenge to Nixon could produce too little indicating that the President can safely pay less heed to conservatives. Or, he feels, it could produce too much damage to Nixon's reelection prospects.

Nixon strategists face the other half of the dilemma. If they take heart in the challenge, they must also consider the possibility that conserva-

Camera Reveals Mountains On Mars

PASADENA, Calif. (AP) — A picture shows a series of parallel ridges jutting from a slowly subsiding desert, which has been photographed by a camera aboard the Mars 3 spacecraft, a scientist says.

"We've never seen anything like this on either the earth or the moon," a project scientist said Wednesday at the Jet Propulsion Laboratory, which is conducting the camera probe of the red planet.

Mars 3, in orbit around Mars since Nov. 13, took the photo interpreters said they were seeking to indicate details of terrain surrounding the ridges nor have they seen anything similar to the ridges in pictures returned from other high Martian regions.

Scientists said there was no small to be seen through telescopes from earth.

As an indication that a dust storm on the planet is subsiding, scientists noted that the ridges appear to stretch for about 15 miles across Mars at about 15 miles above the planet's mean elevation. They appear to be broken by valleys 1 1/2 miles wide.

Dr. Harold Masursky of the U.S. Geological Service, head of a photo interpretation team on the Mars 3 project, said the faulted nature of the photographed area indicates recent volcanic activity.

Photo interpreters said they were seeking to indicate details of terrain surrounding the ridges nor have they seen anything similar to the ridges in pictures returned from other high Martian regions.

Farm Pay Rules Soon Effective

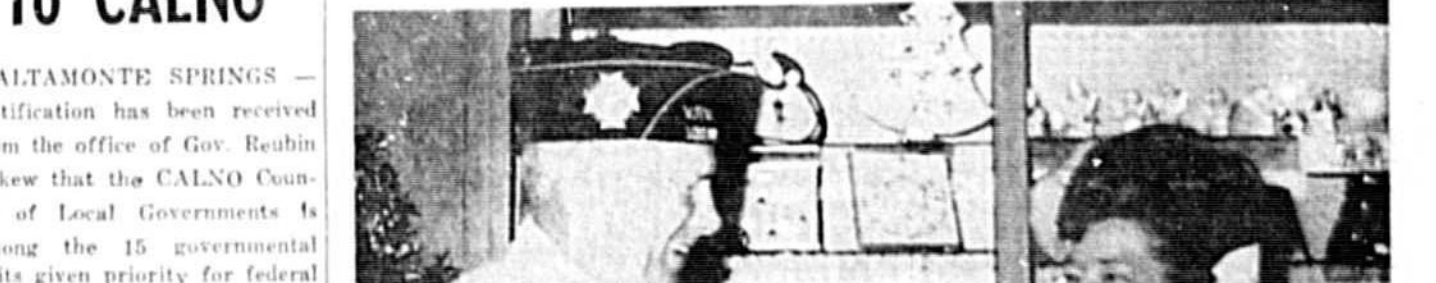

WASHINGTON (AP) — New rules designed to curb abuses of the \$35,000 per crop limit on payments to farmers will become effective Jan. 1, the Agriculture Department says.

The limit was adopted by Congress in 1970 in the latest of a series of farm partnership receiving crop subsidies to "actively engage" in farming.

The new regulations come in the wake of congressional charges that big farmers frequently carve up holdings through partnerships and corporate arrangements to avoid the \$35,000 per crop limit on single farmers and corporations.

The limit was adopted by Congress in 1970 in the latest of a series of farm partnership receiving crop subsidies to "actively engage" in farming.

The new regulations come in the wake of congressional charges that big farmers frequently carve up holdings through partnerships and corporate arrangements to avoid the \$35,000 per crop limit on single farmers and corporations.

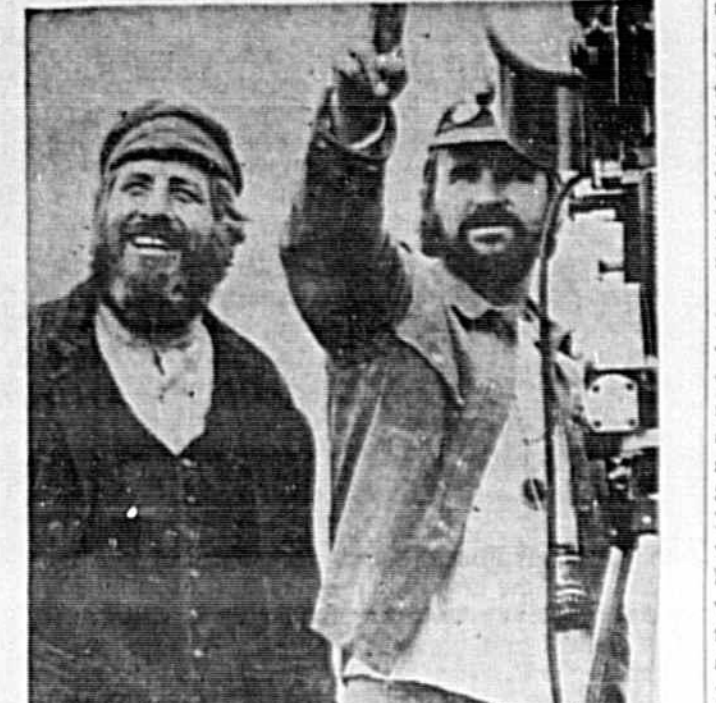

ALTA MONTE SPRINGS — Notification has been received from the office of Gov. Reubin Askew that the CALNO Council of Local Governments is among the 15 governmental units given priority for federal planning grants in the new fiscal year to begin July 1.

Magazines are presented to Mrs. Stanley Poloski, president of the Seminole Memorial Hospital Auxiliary (V.P. Ladies), for use in the hospital by Commander Fred Drew, of Veterans of Foreign Wars Post 13096 of Deltona. The post has donated magazines with an estimated value of \$400 to West Volusia Hospital in Deland, DeBarry Manor Nursing Home and Seminole Hospital. (Dot Drew Photo)

Do-It-Yourself Stuck On Job? Use Right Glue

FOR MOST JOBS — POLYVINYL GLUE
FOR WATERPROOF JOINTS — RESORCINOL GLUE
FOR STRONG JOINTS — ANIMAL GLUE
FOR SLICK SURFACES — SILICONE RUBBER

By MR. FIN
Chemists have come up with glues that will do almost anything. Reading the claims for them, however, might lead the potential user to believe that each of them is capable of doing everything. Adhesives have become better but more specialized. While there is no all-purpose adhesive, you can now find a special glue for just about anything you have in mind. Most will handle a variety of jobs but the results will be more satisfactory if you pick the one best suited for a particular task. One glue that comes pretty close to handling most jobs around the house is the widely popular white glue, a polyvinyl glue that comes in plastic squeeze bottles. It is a good glue to have on hand because it is cheap, convenient, nontoxic and non-flammable. It has a milk-white color but when it dries it is clear. Basically, it is a good glue but it can be used for fabrics, cardboard, paper, and leather. It is not good for joints that will have great pressure on them. Use it indoors to reinforce wood work joined with nails or screws. Unlike many other glues it will not stain the work. It sets in about a half-hour work moderate pressure but requires a full 24 hours before attaining full strength. For general woodworking where a strong bond is required, you can still use the old-fashioned liquid animal glue (also called hide or fish glue). Furniture makers like them because they are strong but set slowly enough so that parts can be properly positioned before they are clamped. They do not make a waterproof bond, however, and some of them may stain light-colored wood so care should be used in application. For better woodworking joints (fine furniture, veneer application) use plastic resin glue. This is a powder and is mixed with water. Joints must be lighter-fitting than with other glues and you will have to clamp the work for about 10 hours. The glue will not stain, is waterproof and quite strong. For absolute waterproof joints, such as in outdoor wood furniture, use resorcinol glue which comes in a combination of powder and liquid and must be mixed precisely and used with in careful temperature limits. Follow instructions and make certain joints are tight and smooth since the glue shrinks.

Garlic To Provide Deadly Bug Diet

WASHINGTON (AP) — New evidence was reported Monday that garlic may provide a deadly diet for mosquitoes, house flies and certain other major insect pests while posing none of the hazards of DDT. Two researchers from India reported they had isolated the identified and even duplicated synthetically ingredients within garlic oil which they said are responsible for the crusty oil's recently reported powers for killing the larvae of certain mosquitoes and agricultural pests. And they said the newly isolated chemicals proved lethal to a number of insects of medical and economic importance at concentrations as low as five parts per million of aversive mixture. Indicating that this opens the way to possible widespread production and application of a powerful ingredients, the researchers said in a report to the technical journal Science: "The antibiotic nature of garlic to higher animals has been established on the basis that it has been used for edible purposes for a long time. This, together with the wide range of activity of the oil, suggests that garlic oil or its active principle—whether natural or synthetic—could be used as pesticides."

Biology researchers S. V. Anonkar and A. Banerji of the Bhabha Atomic Research Center, Bombay, said the active ingredients had been identified as diallyl disulfide and diallyl trisulfide. The chemicals proved lethal against larvae of various mosquitoes and against those of houseflies, the potato tuber moth, red cotton bug and red palm weevil, they said. Researcher Anonkar and another associate, S. L. Reeves, had reported in 1970 that crude garlic oil itself had shown larvicidal properties against at least four species of mosquitoes. Since that initial discovery, a British researcher, D. D. Greenstock, reported finding the oil could destroy aphids, white cabbage butterfly caterpillars, and Colorado beetle larvae.

TRINITY PREP
Now Accepting Applications
For The Fall Of 1972

If you are anticipating the possibility of applying for admission to Trinity Preparatory School, you should take immediate steps.

How? Phone office (671-4140) and request an application form and catalog. When application has been received, a personal interview follows. Trinity is a college preparatory school, grades seven through twelve. It is located on State Highway 426, between Goldenrod and Oviedo. Students attend Trinity from a forty-eight mile radius. \$8 Million Center Under Construction

Officials of the Winter Park Telephone Company broke ground for an \$8 million toll center which will be located at Swoope and New York Avenues in Winter Park. The two-story building, designed by Rogers, Lovelock & Pitzer, Winter Park, will have 48,000 square feet of floor space and will blend with the surrounding area. R. P. Hulbert, president of the company, said the construction of the building will take approximately 12 months with equipment installation to commence in June 1972. The company has ordered new cordless pushbutton switchboards and ancillary equipment for the toll center, the installation and checkout of which will take approximately 16 months. "When we turn up the toll center for service in September 1972, we expect to bring a higher grade of toll service to our subscribers," Hulbert said. Initially, Winter Park Telephone subscribers will have direct access to 22 major toll centers in Florida and, ultimately, 70 per cent of the company's toll traffic will go directly to the major toll centers throughout the country. In order to be ready for the September 1972 cut-over date, the company will be interviewing approximately 170 new positions. Hulbert reported the company will be hiring over 130 operators for the new switchboards. At the present time, Winter Park subscribers who operate services to Southern Bell in Orlando. Hulbert said the toll center is part of the company's 1972 expansion program which is estimated to amount to \$16 million — twice that of 1971. The company has witnessed a 20

per cent growth in stations in 1971 and it is expected that this unusually substantial growth will continue in 1972. "This growth means that we must continually construct new or add to existing facilities in order to provide telephone service on a ready-to-serve basis," Hulbert said.

Britain Pulls Out Of Malta

By RODNEY PINDER
Associated Press Writer
LONDON (AP)— Britain today prepared to pull its forces out of Malta after telling Prime Minister David Minto that his price for the Mediterranean island's naval and air bases was too high. There was speculation that the Russians would pay if the NATO allies wouldn't.

Many Maltese were stunned at the news that Minto was ready to sever the island's 170-year-old ties with Britain. Malta's defense force was put on a general alert in case of trouble in the streets from pro-British factions.

Britain and its partners in the NATO Alliance... Malta's key Socialist prime minister... Minto's price for the island's 170-year-old ties with Britain... Malta's defense force was put on a general alert in case of trouble in the streets from pro-British factions.

Fastening safety belts is not a pain in the neck.

Fastening safety belts saves necks. Not to mention lives. We estimate that 8,000 to 10,000 lives could be saved every year if everyone used safety belts.
