### **Charter Draft** For Altamonte Near Completed By Donna Estes

First drafts of a new charte town of Altamonte Springs will be completed for council examination by Sept. ber, Town Attorney S. J. Davis Jr. has reported to coun-

Davis was instructed by the board early in the spring to begin work on the charter. Council plans to submit the draft to an advisory referendum of the people during muncipal elections in December and request legislative action during the next session of the Legisature

The attorney was instructed prepare a report on all the forms of municipal government which might be appropriate for Altamonte for presentation at next Wednesday's council meeting and to give his opinion at that time on the best type of government for the town.

In other business, the public nearing to consider the request of Lee Cohn, Oakland Estates developer, that certain lots in he subdivision be rezoned R-3 o permit construction of multiple storied apartment buildings was resecheduled for 7:30 p. m., August 17. The hearing was not held as originally scheduled due to improper advertisement.

Complaint was heard from Howard Williams that city trucks are using a vacant lot in Oakland Estates belonging to the city, as a street. The town superintendent was instructed to order the employes not to drive through the lot.

The complaint of Robert Kish of the unpleasant odor coming from the lake due to the algae present was referred to county sanitarian, Val Robins.

Council instructed C. B. Allen, maintenance superintendent, to obtain estimates of cost of moving six palm trees to be placed in the islands on SR 436 as part of the beautification project of the Altamonte Civic Club.

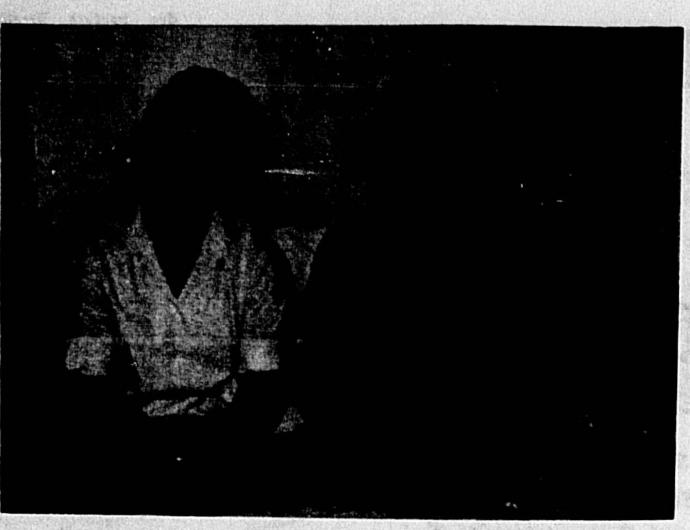

Allen also was instructed to obtain estimates of cost of a traffic survey on Hermits Trail and to install stop signs on Ellsworth Street at the intersections of Truesdale and Martin Streets.

You never mistake the meaning of a Church spire.

Even to those who are cold to the ideals for which the Church stands, that finger of faith always points to something that is comforting reassuring, safe.

The very presence of a Church, whether in a crowded city street or on a quiet country road is a benediction to all, including those who are not conscious of worship.

Such an influence, with what it means to those who open their hearts to truth, is worthy of a second thought. It merits acceptance as a refuge. It commands confidence as a port in time of storm. The Church deserves your support - your membership - because it affords real protection for the family whose welfare it is your duty to defend and whose proper upbringing is your solemn obligation.

. . . Florida Park Board has aproved an operating budget of 2.5 million for the state's 51 arks and historic memorials. Soon to be added to the present oarks is the 6,200 acre Wekiva River Park in Orange County, which borders the Seminole County line. Part of Wekiva River, which divides Orange and Seminole County is included in the park. This park will be a great boom to Seminole Countians.

The Clockwinders were shocked to find out from the United Fund headquarters that some of our good people had pledged donations to this great charity drive and without even an excuse, much less a reason, had failed to pay the promised sum. Aw cummon, fellas, let's get with it .- this just isn't a fair shake for these deserving agencies, and surely not the way we Seminole county people take care of our debts. Let's be honest with United Fund - and with ourselves.

A contract was awarded to R. R. Skaggs of Skyways, Inc., a Cody, Wyoming, agricultural aviation firm, to spread the mirex poison bait from the air. The aircraft are converted PV-2 patrol bombers, equipped with devices to spread the bait in 175-foot swaths.

The poison bait consists of a minute amount of the toxicant mirex mixed with soybean oil and ground up corncobs. The oil acts as a food attractant and the corncob granules as the carrier. The mixture is so formulated that less than two grams of the toxicant are spread per acre.

Mirex conforms to rules laid down by the U. S. Food and Drug Administration. It has no residual action and is not harmful to humans, animals, fish, wildlife, birds or bees. It leaves no residue in milk, meat or

Base of operations for the project is Herndon Airport at Orlando. The aircraft will fly at altitudes of 100 feet or above as approved by the Federal Aviation Agency.
