(Continued from Page One) of the interior said the council of minister had decided to call up 40,000 more reservists in the near future for reasons of internal security. About 200,000 reserve troops already have been called into the regular army and another 80,000 have been assigned for use as security police since Premier Robert Schuman's government took over Nov. 24.

ARRAS, Dec. 3 (AP)—At least 13 persons were killed and approximately 40 injured today when a passenger train derailed from Paris to Lille was derailed near here in a disaster blamed by some government officials on saboteurs.

In mid-morning, almost eight hours after the derailment, rescue workers still were digging through the splintered wreckage in search of more victims, and it was feared the casualty toll might go higher.

The derailment was the most serious of a number of wrecks which have occurred on French railways over which trains have been running in defiance of a recent general strike called by the Communist-dominated Confederation of Labor (CGT).

Figures on the casualties in this morning's derailment, occurred a few weeks ago at Arras, were given out by the prefect of the Pas-De-Calais district, who hurried to the scene.

The prefect said that up to 10 A. M. (4 A. M. EST) 13 bodies had been removed from the wreckage.

The prefecture said it had not definitely determined whether the derailed train was derailed deliberately.

The crash occurred at about 3 A. M. The locomotive, tender and four coaches of the train which left Paris at about 10 o'clock last night, were strewn over the right of way in indescribable confusion, blocking traffic in both directions.

Railway officials said the line would be tied up indefinitely.

The prefecture said the train was slowing down in preparation for a stop at Arras when the accident occurred, otherwise the wreck might have been even worse.

ARRAS is about 120 miles north of Paris and about 80 miles south of Lille.

ROME, Dec. 3 (AP)—The Italian Communist Party roundly denounced Premier Alcide De Gasperi today and declared that for him to keep on barring Leftists from his cabinet was a "provocation to disorder and civil war."

In a lengthy communique issued after a two-day meeting, the Communists charged that it would be an act of open hostility against workers and intellectuals for the premier again to ignore the Leftists in broadening his cabinet and would mean a "permanent division of the nation." It called for a national "labor front" to fight De Gasperi.

Implicit in the communique, which called De Gasperi's middle-of-the-road Christian Democrat Party a dictatorship "seeking to enslave Italy to the foreigner," was a warning that the Communists had an intention of abandoning their three-week war of nerves of the government, marked by still continuing strikes, demonstrations and political violence.

The Communists dismissed contemptuously the reports by De Gasperi to broaden his cabinet by bringing in members of the moderate Left Republican Party and members of the anti-Communist wing of the Socialist Party.

The Communists want some of their members and members of the pro-Communist wing of the Socialist Party included in the cabinet, from which Leftists were excluded last May.

"Communists send fraternal and fervent appeal to all sincere Democrats, faithful to the traditions of the struggle for liberation (from Fascism and the Nazis), to unite to oppose the attempt to establish in Italy, such dictatorship of the Christian Democratic Party, a regime of arrogance, corruption, social conservatism, police violence and enslavement to the foreigner," the communique said.

Wendy Harris was drawn here by her love of golf, he stated, and pointed out the publicity given Sanford by her references to it on the recent Arthur Godfrey program.

Glyde Terwilliger told business men that they should engage in golf as a "not too strenuous sport" that would keep their minds keen and their figures trim. He also told of New Yorkers who have come here to play as the result of hearing the Godfrey program, declared that 30 members here are from Orlando which already has three courses and suggested inter-golf meets between local civic clubs. Mr. Potter in turn praised the friendly spirit of Sanford and urged the building of a new club house.

Kavanaugh A. P. Ramsey told of the friendliness he encountered coming to Sanford and suggested a "town square," a "City of Friendly Folk."

It was announced that John Leonard and Raymond Kader would have birthdays on Dec. 5 and 8 respectively and happy birthday was sung in their honor.

Peace Treaty

(Continued from Page One) informants said it remained before the council.

Finally, after agreement on minor points, the four ministers decided that the whole question of setting up a procedure for a German peace treaty, including the question of a peace conference, would be turned over to their respective governments.

John Foster Dulles, Republican party advisor to Secretary of State Marshall, plans to go to Paris tomorrow to consult French leaders on French foreign policy in relation to that country's internal crisis.

The council session was cut short today because of a reception given at Buckingham Palace at 6 P. M. by King George VI for the four ministers.

LONDON, Dec. 3 (AP)—Czechoslovak Foreign Minister Jan Masaryk said today the European states of the Russian orbit might enter a "loose regional defense agreement" in full accord with the United Nations charter, if the Big Four powers failed here to write a peace treaty for Germany.

Masaryk emphasized however, that in his view "an absolute break" in the current four-power talks is "neither likely or necessary."

In the interview, Masaryk indicated such states as Czechoslovakia, Yugoslavia, Albania, Bulgaria, Romania and Hungary would have to consider revamping their entire foreign policies in relation to Germany and Europe if the Big Four split on a peace treaty.

The United States must import almost two-thirds of the quicksilver it uses.

Beryllium Lungs Is New Disease Described By Radiological Group

By HOWARD W. BLAKESLEE ASSOCIATED PRESS SCIENCE EDITOR BOSTON, Dec. 3 (AP)—Beryllium lungs, a new occupational disease due to inhaling dusts containing the metal beryllium, were described today by the Radiological Society of North America here today.

Beryllium was a somewhat rare metal until during the recent war when it was used for pipes in airplane engines and wires.

It also has come into wide use in new fluorescent lights, being used to mix with the phosphors that coat the insides of the bulbs. It is one of the important metals for atomic power plants.

The disease was described by Dr. Stanley A. Wilson of Salem, Mass. He said the effects are like tuberculosis and that some victims have been sent to sanatoriums under the mistaken diagnosis of tuberculosis.

There are two forms of the beryllium disease. One is acute, from which the victims usually recover in a short time merely by staying away from the work shops with the metallic dust. The other is chronic, for which no certain cure has been found.

Dr. Wilson reported 50 cases of beryllium lungs from one place. He said that seven were fatal.

There is no danger of catching this disease merely by being near objects made of beryllium. Only the fine dusts in manufacturing processes cause it.

Dr. Wilson said that the lung damage is not mechanical, like that caused by ordinary dusts, but is due to some unknown chemical action of the metal.

A report that mild X-rays can prevent and cure a number of different infections was made by Doctors J. E. Kelly, D. A. Dowell and John E. Downing, of Creighton University School of Medicine, Omaha, Neb.

The X-rays for this purpose, they said, are much less than those used for cancer. The rays can prevent or cure erysipelas, gas gangrene, pneumonia, acute peritonitis, the infections coming from bites by human teeth, and boils and carbuncles.

These doctors said that the rays do not kill the germs causing the infections, but stimulate the body's white blood cells, and maybe other blood organisms, to attack and clean up the disease.

432 Votes

(Continued on Page Five) votes was nearly overtaken by John Krider with 54 written in votes.

In 1944, voting interest was at a low point and only 39 votes were cast in the election of Commissioners Gut and Bishop. W. C. Hill was reelected in 1943 and 50 votes were cast. In 1942 there were 70 votes cast to elect Edward Higgins and Mr. Lodge. In 1941 there were 100 votes to elect Mr. Bishop and Mr. Gut. In 1940 when W. C. Hill was elected, 175 votes were cast. Serving as mayors during the period were Commissioners Gut, Higgins and Hill.

ALTAMONTE SPRINGS Unofficial count at Altamonte Springs yesterday revealed that Col. J. E. Matthews, former head of Army ground arms at the Orlando Air Base, was elected as mayor of this town of nearly 1,000 population by a good majority. He received 179 votes to 51 received by J. D. Morrison. Col. Matthews has lived in Altamonte for three years and owns a home opposite the hotel. He reported today that more than 30 new homes have been built there during the past year, that the town has no bonded indebtedness and plans many improvements.

WASHINGTON, Dec. 3 (AP)—Secretary of Labor Schwellenbach said today the CIO's "third round" wage demand probably will be based on living costs at the time existing wage contracts expire.

However, Schwellenbach told the House Banking Committee he has not discussed with CIO President Philip Murray or other labor leaders their plans for new wage demands.

Backing up President Truman's 10-point anti-inflation program, including standby rationing and limited price control powers, Schwellenbach said measures to head off further cost of living rises would be necessary even if no long-range Marshall Plan aid to Europe was in prospect for congressional consideration.

Members Consider Export Of Surplus Fruit On Aid Bill

WASHINGTON, Dec. 3 (AP)—House members from citrus and dried fruit producing states considered today a possible amendment to the foreign aid bill to require purchase of surplus fruits along with grains for shipment abroad.

Rep. Jack Z. Anderson (R-Calif.), chairman of the California delegation's agriculture subcommittee, told a reporter "it seems clear that some such amendment is necessary."

Spokesmen for the citrus industry expressed doubt at a meeting with members of Congress yesterday that a provision inserted in the bill by the Senate permitting the Commodity Credit Corporation to sell surplus commodities at a loss will be effective in disposing of the estimated 15,000,000-box citrus surplus in the foreign relief program.

F. R. Wilcox of Los Angeles, speaking for the California Fruit Growers Exchange, said the authorization still will not insure that the Army and the State Department will buy citrus, even at low prices, for the foreign aid shipments.

Senators and Representatives from California, Florida, Texas and Arizona agreed with the citrus industry spokesmen that inclusion of citrus fruits and juices in the European relief program is necessary to provide a balanced diet.

The congressmen agreed to support the industry's request to Secretary of Agriculture Anderson that the government purchase 17,000,000 to 23,000,000 boxes of citrus fruits.

Wilcox said the fruit is being offered at prices less than the cost of production and the maximum cost to the government would be 30,000,000, plus transportation expenses.

Rep. Anderson told the meeting "We have to go beyond permissive legislation."

He said authority already exists to purchase dried citrus raisins, citrus and other surplus commodities for foreign relief but administrators of the program have refused to buy because of the price.

Sen. Hayden (D-Ariz.) agreed, asserting that the Army contends it must purchase foods with the greatest number of calories per dollar. Wheat, he said, costs \$3.25 per 100,000 calories, while citrus costs \$25 per 100,000 calories.

Trygve Lie Plans Palestine Visit; Names Commission

LAKE SUCCESS, Dec. 3 (AP)—Secretary-General Trygve Lie said today that he planned to visit Palestine and at the same time announced the appointment of Ralph J. Bunche, United Nations trusteeship expert, as principal secretary to the five-nation commission which will supervise partitioning of the Holy Land.

Lie said he could stay in Palestine "only a short time." He planned to go there on a trip that will take him to Europe early in January to survey prospects for holding the 1948 session of the general assembly somewhere in Europe.

Lie at his weekly news conference also announced the appointment of Victor Hoo of China, an assistant secretary-general, as head of the Korean Independence Commission set up by the recently adjourned 1947 assembly session.

Bunche, who will head the secretariat attached by the U.N. to the partition overseer group, is an American negro who formerly worked for the U. S. State Department.

Lie was asked whether the U. N. was taking official notice of the current bloody conflict aroused in Palestine in consequence of the assembly's partition decision of last Saturday.

He said the secretariat had formally notified the Security Council of the assembly decision that Palestine should be partitioned into Jewish and Arab nations by next Oct. 1. The council was expected to meet some time early next week in routine session.

On further questioning about disturbances in Palestine, Assistant Secretary-General Arkady Sobolev, a Russian national who is in charge of Security Council affairs, told Lie's news conference:

"Don't forget, there is still an administering power (Britain) in Palestine." This was interpreted as an indication of a hands-off policy here toward the Palestine situation while the British continue as holders of the mandate.

He said that if public school teacher salaries are a national disgrace, college faculty salaries are "even more so." The average college instructor, he estimated, is receiving \$2,750 for 1947-48, the average assistant professor, \$3,900, associate professor, \$4,950, and full professor, \$4,500.

## Debate On Foreign Aid Is Commenced On Floor Of House

### Cox Says Help For Europe Is Investment In National Security Of U. S.

WASHINGTON, Dec. 4 (AP)—Asserting that Russia "is waging everything but a shooting war against us," Representative Cox (D-Ga.) told the House today it must approve foreign aid "as an investment in national security."

The Georgian gained the floor after the House began debate on the \$590,000,000 emergency aid measure for Austria, France, Italy and China—a measure the Administration contends is needed to check the spread of Communism.

On the opposition side, Rep. Leo Allen (R-Ill.) raised a question whether a Europe strengthened with American help might not go Communist in any event with the result that "all we give in the way of aid may eventually be used against us in one way or another."

While the House debate went on, the Senate Appropriations Committee was exploring that same question asked by Allen.

The Senate group had Undersecretary of State Robert A. Lovett before it. He assured the members that emergency help for France, Italy and Austria can be cut off if Communists seize control of those governments.

Allen asked his colleagues to vote down the \$590,000,000 aid recommended by the House for (Continued on Page Three)

## Motorists Passing Fire Trucks Are Warned By Chief

Many motorists are failing to comply with the law requiring them to stop when a fire truck approaches, some even pass the fire truck and others follow too closely, Fire Chief Mack Cleveland declared today.

"If it is possible when the fire truck is approaching, pull to the curb and stop," Chief Cleveland advised motorists.

"In case of accident or delay caused by automobiles getting in the way of a fire truck, fires might get out of control and lives be lost," he warned.

City Ordinance 174 requires drivers to stop immediately on any street upon hearing the fire truck or Chief's car approach on route to a fire, to park and to remain so parked until the chief and the fire truck pass.

## Watson Attacks Gift For Park In Court

TALLAHASSEE, Dec. 4 (AP)—The State of Florida's \$2,000,000 donation to the federal government for purchase of lands for the Everglades National Park was attacked in Supreme Court here today as an unconstitutional gift by the Legislature.

Assistants of Attorney General Tom Watson, who brought the suit and is almost unanimously opposed by other state officials, contended the Legislature went beyond its constitutional powers by turning the money over to the federal government.

## CHINESE FIRE HONG KONG

HONG KONG, Dec. 4 (AP)—Ten persons were killed and 20 shops destroyed in a waterfront fire in Canton, China, last night, it was reported here today.

## VETERAN BENEFITS

Tom Deen, a representative of the State Service Office, said today that he will be at the office of County Service Officer L. F. Boyle at 202 North Park Avenue between 4:00 and 8:00 P. M. Thursday and 9:00 to 10:00 A. M. Friday.

Mr. Deen said he will be there to help veterans or dependents with claims or other benefits.

## 1st Draft Of New Charter Is Released

### Lawton Stresses Importance Of Hospital Aid

### Jaycees To Open '48 Drive With Dance At Mayfair Inn

MIAMI, Dec. 4 (AP)—A tentative "first draft" of a proposed new state Constitution for Florida, embodying many dramatic changes, has been made public by Dan H. Redfoam, Miami attorney.

Redfoam was named chairman early in 1946 of a special Florida Bar Association committee to draft a new model of the 82-times amended state Constitution adopted in 1885.

Among the principal changes in the proposed new Constitution, first draft of which is intended to provoke discussion and criticism for consideration in a final draft, are:

Centralizing executive functions in eight departments instead of as now in the more than 20 executive boards made up of various arrangements of the governor and six cabinet members.

Increasing legislative representation of counties of more than 100,000 population, boosting the number of representatives from 96 to 104.

Doubling pay of legislators, now \$6 a day, for the 60-day biennial sessions.

Lowering the legal voting age in Florida from 21 to 18, as already done in Georgia.

Authorizing one circuit judge for each county, and one for each 25,000 population (now for each 50,000) in larger counties.

Making the executive head of Florida's public school and university system an appointive official.

Abolition of the offices of peace justice (which the simplification program will eliminate).

## 72 Percent Think Army Experiment Plan Is Good Idea

WASHINGTON, Dec. 4 (AP)—The Army said today that 72 percent of the universal military training at Fort Knox, Ky., think the experimental unit "is a good idea."

The official publication "Army Information Digest" gave this as the finding of a poll of the 600 voluntary regular Army recruits made by research experts of the information and education division.

The Fort Knox unit is being used as an experimental and demonstration unit in connection with the universal military training program.

The poll was taken at the end of the first six months of training. Here is what the Army says it showed:

- 100 percent of the officers, 81 percent of the training cadre (instructors who are non-commissioned officers and technicians) and 72 percent of the trainees approved the program.
- 90 percent of the officers would volunteer for duty in a national UMT program; two out of three of the cadre would volunteer.
- 91 percent of the trainees would volunteer.

## FREEDOM TRAIN

CHARLOTTE, N. C., Dec. 4 (AP)—The Freedom Train came to Charlotte today after being visited by thousands yesterday in Winston-Salem, its first stop in North Carolina.

The crash at Winston-Salem was so great that many persons were unable to get aboard the train for a night of the historical documents it is carrying. Fifty-one chartered buses brought visitors from nearby communities.

Tomorrow the red, white and blue train will be at Greensboro.

## Backs Control Plan

WASHINGTON, Dec. 4 (AP)—President Truman submitted the inter-American defense treaty to the Senate today and asked for its approval.

The pact, signed Sept. 2 in Rio de Janeiro, pledges 19 nations of the western hemisphere to act jointly against any aggression in the hemisphere's security zone, stretching from pole to pole and from Greenland and Alaska south to the Falklands.

"The principles, purposes and provisions of the treaty have my complete and wholehearted approval and I am happy to recommend the treaty to the favorable consideration of the Senate," Mr. Truman said in a brief message.

Mr. Truman acted three days after chairman Vandenberg (R-Mich.) of the Senate Foreign Relations Committee, called for immediate submission of the pact for consideration.

Vandenberg, one of the authors of the treaty, said it should be given speedy approval as a demonstration of the "tremendous solidarity of the North and South American nations."

The document must be ratified by legislative bodies of the 19 republics. They are: Dominican Republic, Guatemala, Costa Rica, Peru, El Salvador, Panama, Paraguay, Venezuela, Chile, Honduras, Cuba, Haiti.

## Stevens Testifies He Killed Melvin Over Gambling

JACKSONVILLE, Dec. 4 (AP)—Don Stevens told a circuit court jury today that he killed Richard Melvin because the 45-year-old man welched on a \$50,000 gambling debt.

Stevens shot Melvin to avoid being "taken for a ride."

Stevens took the stand in his own defense and said he "hit" a numbers game operated by Melvin at odds of 500 to one on a \$100 bet made with Melvin personally at a "smoke shop" owned by Melvin at 426 West Forsyth Street here.

Melvin and his father, James, were shot to death at their suburban home here early the morning of Aug. 30 and subsequently it was said the shooting was over the numbers game but all official sources denied this. They claimed the motive was robbery.

Stevens said he often visited the shop in downtown Jacksonville, that the numbers game that payoffs were made on was operated from there and closing figures of various markets such as stocks and bonds were taken there.

## Byrd Challenges Truman To Reduce Domestic Spending

NEW YORK, Dec. 4 (AP)—Senator Byrd (D-Va.) issued a "challenge" to President Truman today to "reduce domestic spending in proportion to the new contributions to be sent abroad" for the rehabilitation of Europe.

Byrd declared that \$5,000,000,000 to \$6,000,000,000 could have been pared from the budget for the fiscal year which began last July 1 "without interfering too much with the essential services."

And if Mr. Truman insists on not wanting to aid Europe, Byrd asserted, he will take the lead in slashing federal expenditures.

## President Enjoys Florida Fried Mush

KEY WEST, Dec. 4 (AP)—President Truman carried out today his promise to relax on his third Florida vacation.

The biggest news coming out of his headquarters at the commandant's was: He ate bacon and fried mush for breakfast after a long night's sleep. He "feels fine."

President Truman's press secretary Charles O. Ross came to the press room in the nearby bachelor officers' quarters at 10 A. M.

"The President," he said, "had bacon and fried mush for breakfast about 8 A. M., after getting up an hour earlier."

"Florida fried mush" inquired one of the Florida reporters.

"Florida fried mush," Ross confirmed.

The President took a two-hour nap shortly after flying here yesterday from Washington for a vacation on the submarine base and a speech Saturday afternoon. At the dedication of the Everglades National Park.

## Sedan Stolen Here Is Found In Jax

A 1946 Chrysler sedan, reportedly stolen here and belonging to W. W. Kirtley, was recently found on the outskirts of Jacksonville by the highway patrol, it was reported today to police here.

Henrietta R. Delaney, negro, drew a fine of \$50 and costs or 300 days in jail from Judge Sharon recently, after being charged with petty larceny in four downtown stores. Goods stolen included 14 bottles of wine from the Table Supply Co., dresses from the Hollywood Shop and Yowells and some items from McCorry's. The negro is still in jail.

## Key Club Is Working On Float To Carry Santa Claus In Parade

The Seminole High School Key Club began construction of the float on which Santa Claus will visit Sanford on Saturday morning. Promptly at 10:30 A. M. the Seminole High School Band, Pep Squad and Cheerleaders will start Santa and his army of children on their march through town.

A distinguished array of public officials will act as judges to award the \$250 and two watches which have been donated as prizes.

Among those who will officiate are Mayor H. James Gut, Judge R. W. Ware, Senator Lloyd F. Boyle, Representative M. H. Williams, Commissioner Robert A. John Kridler, Edward Higgins, Chamber of Commerce Secretary J. L. Ingley and E. G. Kilpatrick, Jr., presidents of the local banks.

The parade and the presentation of awards will be broadcast over Station WFER. Dick Batschelor, station announcer, will describe the parade from the judge's stand at Palmetto Avenue and First Street and will present the lucky winners at Santa's party on the Tourist Center Grounds after the parade.

The parade will be organized in ten separate divisions according to the categories in which the children will compete. All entrants are requested to be at the headquarters at 9:30 o'clock.

## Death Toll Mounts In Palestine Disorders

### Zion's Patriots Hail Partition

JERUSALEM, Dec. 5 (AP)—A violent street battle flared today in the Arab town of Hebron on the Tel Aviv-Jerusalem road as Arab fury mounted against partition of Palestine. "Fighting is raging in the streets," said Associated Press correspondent Carter L. Davidson in a telephone report from the scene.

The roads were impassable because of roadblocks, stones and damaged cars. All traffic is stopped.

By ASSOCIATED PRESS  
The death toll mounted today in Palestine's civil strife as an Arab strike protesting partition went through its third and last day. New disorders broke out elsewhere in the Arab world, even as appeals were made by both Arabs and Jews for a halt to the violence.

Four new deaths were reported today, bringing to at least 35 the number who have died in the wave of pillage, burning and destruction. Hundreds have been injured.

One Arab was killed and several Jews and Arabs were wounded in renewed fighting in the upland town of all-Arab Jaffa and all-Jewish Tel Aviv. A Jewish factory worker was reported shot to death by police in the Jaffa strike. A Jewish truck driver died of knife wounds sustained in yesterday's Jerusalem fighting, and the slashed body of another Jew was found in the center of the Holy City.

For the fourth day a mob experienced a tumultuous anti-partition demonstration. A crowd, estimated at 15,000, paraded, smashed shop windows and fired trolleys and automobiles. Police dismounted a mob of about 500 students who killed and injured eight.

## French Cabinet Against Strikes

ROME, Dec. 4 (AP)—New strikes and disorders broke out in Italy today amid persistent rumors of an impending shakeup in the cabinet of the Christian Democratic Premier, Alcide De Gasperi. The interior ministry reported police at Ragusa, Sicily, were forced to fire on demonstrators who attempted to destroy a shipment of U. S. coal. Striking asphalt miners declared the imports prejudiced their demands.

## State Food School Ends Class With Wednesday's Meet

The Florida State Board of Health's three-day course in food handling, conducted by Dr. E. Russell Jackson, assisted by E. D. Catts of the Hotel Commission, was concluded Wednesday and it was reported that 61 eating and drinking establishments, or 61 percent of those in Seminole County participated.

Five places were reported to have had 100 percent attendance: Lormann's, Annette's, Goldboro Bar, Marble and Eddie's Snack Bar and Bill's Diner in Maitland. Four school lunch rooms also had 100 percent: Sanford Grammar, West Side Primary, Sanford Junior High and Oviedo School.

The following 17 places that had 75 percent or more of employee attendance will receive certificates: Lormann's, Eddie's Snack Bar, Tomlin's Drug Store, Margaret Ellen Soda and Grill in Fern Park, San Orlando, South Division Street Cafe in Oviedo, Zanibar, Bill's Diner in Maitland, Goldboro Bar, Lucky Star Cafe, and five school lunch rooms, including Lynnwood School at Longwood, Sanford Grammar, Junior High (Continued on Page Seven)

 efforts because a rich uncle has been discovered," he said.  
 "Recovery is their job. We must not remove the responsibility from where it belongs—on the 16 nations themselves."  
 Thorp said in an address prepared for the Investment Bankers Association of America that Europe's postwar plight put the United States in the role of banker for a business concern which "must be helped over a rough spot."  
 "For the moment, therefore, the banker is the central figure in determining history," he said. "The wise banker keeps his eye on his investment, but he seldom tries to step in and run the business."  
 "What we want is European recovery. We can help by supporting their own convictions—that production must be increased, currency must be stabilized, and trade restrictions must be reduced. We can help by meeting the balance of payments deficit. In the last analysis, however, recovery is their job."  
 Estimating the cost of American assistance at about \$6,000,000,000 for the first year of the long-range Marshall Plan, Thorp said this amounts to about 3 percent of the combined annual national income of the participating Western European countries and about 3 percent of the current U. S. national income.  
 "In each succeeding year," he said, "the amount should be re-

**Veteran Claims Are Lowest Since 1946**

TALLAHASSEE, Dec. 4 (Special)—Veteran Readjustment Allowance claims paid in Florida during the month of November which totaled \$988,179 were the lowest of any month since February, 1946 when the total was \$932,076. Carl B. Smith, Chairman of the Florida Industrial Commission reported today, November 1947. Veteran payments were 33 per cent less than those in October and the lowest in any month since demobilization reached significant proportions.  
 The same downward trend was also reflected in weekly unemployment insurance payments for the week ending Nov. 29 which were the lowest since the week ending Jan. 4 of this year. Payments for the last week in November decreased 3 per cent from those made the week ending Nov. 1.  
 This decline in unemployment claim activity reflects the seasonal increase in job opportunities in all fields as Florida firms staff for the tourist activities and citrus processing gets underway.  
 As Europe gradually gets on her feet and increases her own ability to make payments abroad, the full cost to the United States of the four-year Marshall Plan has been estimated between \$15,000,000,000 to \$20,000,000,000.

Robert Lormann, Sanford restaurant owner and his staff, including Miss Lois Roberts at right and Miss Edith Hughes at left and Mrs. Allen Lormann, read with satisfaction in The Herald that their establishment had 100 percent employee attendance at the Florida Food Handlers School which was concluded Wednesday at the Tourist Center.

 and poultry.  
 At the time he made the bet, Stevens told the jury and Judge Bryan Simpson, he gave Melvin a \$20 bill and told him to place it on number 568 on stocks and bonds. Then he changed his bet and made it \$100, he said.  
 He said Melvin gave him a receipt which was signed with "After he learned that his name Melvin's name."  
 The witness said he located the younger Melvin at his home and that Melvin agreed to meet him downtown where his truck was parked. He said Melvin looked at the receipt and commented: "You're a rich man" and invited him home to spend the night.  
 He said that he removed all

his clothing but undershirt and shorts and dozed off in a chair that the next thing he knew he heard voices and "figured everybody was up so I got up and started dressing."  
 He said that as he dressed, he felt a prod in his back and turned to see Melvin standing with a blackjack in one hand and a gun in the other and that Melvin then said:  
 "You didn't think I was going to pay all that money, did you? There'll be a couple guys here to get you."  
 Stevens said he told him "there'll be hell to pay when Johnnie hears of this" and, on questioning by Defense Attorney P. Guy Crews identified "Johnnie" as John J. Whalen, who he said was a numbers operator of Daytona Beach and "one of the best friends I ever had."  
 In a list of creditors produced earlier, Whalen was listed as having advanced more than \$10,000 to Stevens.  
 He said the shooting began after he grappled with Melvin and struck him with the blackjack.

 In summary, the situation on the aid proposal is this:  
 The Senate-passed bill simply approves the idea of aid up to \$297,000,000 worth and the House is now debating the general proposition. If the two bodies eventually get together on legislation approving the idea, separate bills may stop the help "whenever he

Senator McKellar (D-Tenn), one of six senators who voted against the Senate bill, brought up "the question of what would happen if France, Italy or Austria went Communist."  
 "We would be obligated, would we not, to turn this money over to these Communist governments?" McKellar asked.  
 Lovett assured him that was not true. He said the President approving the idea, separate bills

BIBLE VERSE FOR TODAY

SINCE THE KINGDOM IS WITHIN US THERE IS NOTHING TO PREVENT OUR ENTERING IT RIGHT AWAY. WE ARE INVITED. Repeat for the kingdom of heaven is at hand.—Matt. 4:17.

Sanford is to be congratulated on the fine turnout in Tuesday's election.

Russia, the House Foreign Affairs Committee is told, now has 4,000,000 men under arms, while the Army of the United States has dwindled to 113,000 in Europe, 238,000 in the United States.

There are eight million people in the United States who are crazy, an eminent psychiatrist is quoted as saying in the newspapers.

It is a good thing to be proficient and excel in everything you do... except when you imitate a wild turkey in the woods.

If you have not had a cold so far this winter, cheer up, there is yet time. The Metropolitan Life Insurance Company announces that you will probably have two colds within the coming year and they will cost you and all the other people who will have colds no less than a billion dollars.

For all the high cost of living most Americans do not seem to be suffering a great deal. Since the "Meatless Tuesdays" were inaugurated so as to save food for hungry Europeans, the consumption of meat in this country has increased by 100,000,000 pounds a week.

Have you bought your ticket to the Junior Chamber of Commerce hospital benefit dance on Saturday night? If not, you should do so at once, not only because a good dance with good music and entertainment is promised but also because the Hospital Association needs your contribution to help meet expenses.

Something for the people of Sanford to think about when they are told that the City cannot repair the sewers because it does not have enough money is the report of the National Education Association which shows that the American people spend eight billion dollars a year on liquor, only three and a half billion on schools.

THE WORLD TODAY
By DEWITT MACKENZIE
AP Foreign Affairs Analyst

Thus far Western Europe—with France and Italy on the fringe line—has held its own, and a bit more, against the efforts of Bolshevism to take over.

Of course we just now are entering the critical winter months which will pit a further terrible strain on the already impoverished resources of the war-torn continent. Still, if the economic front can be held until Spring comes to the rescue, the Democracies will be in hopeful position.

Here it is significant to note that the stiffening of the French and Italian defenses is being accompanied by Russia's further consolidation of her bloc of satellite nations. For one thing Moscow has announced a new trade agreement with Finland, legitimized in a "spirit of friendly mutual understanding," under which Russia's little neighbor will receive many of her essential needs.

Then Jan Masaryk, Czechoslovakian foreign minister, says the European states of the Russian orbit might enter a "loose regional defense agreement," in full accord with the United Nations charter, if the Big Four fail to write a German peace treaty. However, he says he doesn't think an absolute break in the London conference is likely.

So the cleavage between Eastern and Western Europe seem to be growing. Soviet failures to drive Communism through to the English Channel will result in two European—Soviet dependencies of the eastern half and the Democracies of the West.

Mind you, this wouldn't mean that Moscow had abandoned its intention to subvert the world. It would mean a lull in the offensive, on the basis that

Further aggression would produce another world war—and Russia wants to avoid that, though indications are that she is girding herself militarily for eventualities.

This column yesterday suggested that the psychological impact of Europe would play a big part in determining the outcome of the struggle between Communism and Democracy. We got support for that view a few hours later when the national assembly, infuriated by announcements that saboteurs had caused a fatal train wreck, promptly adopted controversial strike control measures over bitter Red opposition. At the same time the government, with its chin squared, stationed five thousand and steel helmeted police and mobile guards about the assembly chamber.

All of which goes to show that people can be bullied only so far. There comes a time when they strike back, and both France and Italy have reached the boiling point.

One of the greatest weaknesses of the Russian position in Western Europe is that it not only is introducing a political lim but is trying to substitute Moscow's will for the will of the nations concerned. In short, the governments of France and Italy and other communist countries would in effect lose their sovereignty and would be responsible not to their own people but to the domination of Russia. That can't be rammed down the throats of the Democracies.

Thus it's far from being all honey and flowers for the Communists in their efforts to absorb Western Europe. The Democracies are facing grave trials—but it is not a moment for despair.

Avoiding Depression

Harold E. Stassen of Minnesota, speaking in Chicago recently as part of his campaign for the Republican Presidential nomination, stated that the United States can continue in full production for an indefinite period without the setback of a depression.

His six-point program for the avoidance of collapse embodies the following projects:

- 1. Reduce taxes.
2. Restore consumer credit controls.
3. Have a public works program which can be set in motion when employment dips.
4. Mobilize buyer resistance to high prices.
5. Maintain annual income for the family-sized farm.
6. Let the government take vigorous action against monopolies.

Stassen also favors the establishment of a balance of power between what he calls "individual profit-seeking capital and free organized labor," a condition which he thinks may be achieved as a result of the Taft-Hartley law.

This program has flaws, as witness the conflict between points 4 and 5. One thing which keeps prices up is the unwillingness of farmers and others to support any project which would reduce their income. On the whole, however, Stassen's ideas sound reasonable enough. At any rate they make good campaign material.

Notable Small College

Not all the influential colleges are large, as the resignation of President Algo D. Henderson of Antioch College shows. For a small college Antioch has had more than its share of distinguished presidents. Its founder in 1853 was Horace Mann, one of the great figures in American education who might almost be called the father of the Massachusetts public school system. His successor, Thomas Hill, went from Antioch to become president of Harvard. After many ups and downs, the college was headed by Simeon D. Fess, stalwart party senator from Ohio from 1923 to 1935. He was succeeded by Arthur E. Morgan, later head of the TVA.

Morgan introduced the principle of alternating work in the classroom with practice outside, in factories, newspaper offices, and the like, the student receiving some pay for his services and thus being enabled to work his way through college. He also put the struggling Yellow Springs, Ohio, institution on a sounder financial base.

Antioch's second century is almost at hand. The present prospects are that it will continue to attest the value of the small college.

A Lesson From The Coal Mines

From John L. Lewis's testimony before the House Subcommittee on Miners' Welfare

Many years ago the British miners' union, the British Federation of Miners, officially opposed the introduction of machinery in the mines for two reasons: that it increased the hazards (which was not necessarily true); that it destroyed work opportunity and augmented unemployment. The British mine owners were perfectly content to accept that point of view. They preferred to take out their profits and plow little back in the way of improvements.

The United Mine Workers of America at the same time took the position that the only way in which the standard of living could be increased in America, and in the coal industry, would be by increasing productivity and lowering the unit costs by utilizing automatic and semiautomatic machines to do the work of human hands. The United Mine Workers educated its membership through the years to an acceptance of that policy against the inherent opposition that existed in the industry when the first "iron man" came into the coal mines.

The result has been that the British mines have become obsolete in every economic sense, and England is staggering economically because of that fact. On the contrary, here in America we have increased the mines' productivity per day until it is now six times that of Great Britain, and coal is delivered to our consumers at prices less than one third per ton of the cost in Britain. Yet the industry pays a wage structure, on a weekly basis, three and a half times that of Great Britain.

Governor Says State Needs Water Control

WEST PALM BEACH, Dec. 4 (AP)—Florida badly needs water control and beach protection on both coasts, according to Governor Millard F. Caldwell.

The Governor, in an address at the Kiwanis Club here yesterday, deplored the "millions of dollars of waste" in erosion on both the Atlantic and Gulf beaches and predicted that the Everglades will be dry within 40 years if we don't do anything about it, he said.

Speaking of the beach erosion, he said: "I don't know if it's a state problem or not. We're doing nothing about it. We're sitting here and allowing millions of dollars worth of Florida to go into the ocean."

The Governor said he was "not too happy" over Florida's tourist season from the standpoint of its revenue producing prospects but added that except for a few items like racing, "probably we will not see any serious effect on the state government of lowered revenues next year."

Screen Guild Acts To Bar Communists

HOLLYWOOD Dec. 4 (AP)—Film directors have decided that no Communist shall be allowed to hold office or serve on any committee in the Screen Directors Guild.

Guild President George Stevens said the ban was voted by resolution at a meeting attended by 128 members yesterday. He said the resolution stated that the guild does not deny the civil right of any person to belong to the Communist Party but that such membership binds Communists to obligations transcending any obligations to the guild.

Officers of the Directors Guild, Screen Writers Guild and Screen Actors Guild met with Stevens last night for discussion of a policy on the Communism question which was adopted by leading film producers at a recent two-day session in New York.

At the New York meeting the producers decided to drop any of their employes who were among the 10 Hollywood figures cited for contempt of Congress after they refused to tell the House Un-American Activities Committee whether or not they were Communists.

Five of the 10 have been discharged by their studios and the other five are freelancers working without studio contracts.

EXCHANGE RATE

SHANGHAI Dec. 4 (AP)—The black market foreign exchange rate shot up 12,000 points to 117,000 Chinese dollars to \$1 U. S. today in the face of an order by Chiang Kai-Shek for "ruthless suppression" of black market activities.

Army Is Exploring Use Of Psychology To Discourage War

WASHINGTON Dec. 4 (AP)—The Army is exploring the possibility of using psychology to discourage a potential enemy from starting a war.

This project, it was learned today, is one segment of a broad research and development program directed by Maj. General Henry S. Aurand. It came to light in the program's annual report through a terse passage that an important phase "will be research into psychological and sociological aspects of warfare."

One of the topics being analyzed bears the caption "How To Avoid War Through Use Of Psychology."

This would be an extension of the psychological warfare used by all belligerents in World War II in efforts to break down the enemy's national morale. At the moment none of the researchers know just how the national thinking of another nation could be guided away from war; that is what they want to find out.

Along with studies of people abroad the Army hopes to have a companion piece on the folks at home. "Psychological Analysis Of Mass Behavior In The United States." Such research would include efforts to predict reaction to an enemy attack on American cities, villages and farms.

Another closely related project covers the sociological aspects of warfare, in which manpower utilization is a key factor.

Dr. David M. DeLo, chief of the Research and Development Program's scientific staff, says that because the national roster compiled by the Selective Service System and the War Manpower Board during World War II is now inoperative, studies must be made looking to a new compilation. Meanwhile, efforts are being made to salvage some of the material from the wartime records.

"Panic Buying" Is Reported In Russia

By EDWARD E. HOMAR

WASHINGTON Dec. 4 (AP)—Reports of "panic buying" and impending currency changes in Soviet Russia have reached Washington and been given sufficient official credence to be broadcast around the world by the government's "Voice Of America" radio.

The State Department's broadcast in 23 languages last night said the wave of buying had been touched off by widespread rumors of prospective price increases and devaluation of the Russian ruble.

The rush to trade paper money for durable goods at places in Moscow and other cities, the broadcast said, is reported to have swelled to such proportions that some establishments in the Soviet capital have been forced to close.

Caldwell Expects To Be Busy With Events

TALLAHASSEE Dec. 3 (AP)—Governor Caldwell will spend little time in his office for the next week or so with 12 widely-scattered events to attend in the next eight days.

He already has behind him a meeting of the Democratic Association and the State Chamber of Commerce at St. Petersburg. Today he attends the convention of the National Association of Assessing Officers at Miami Beach.

On Dec. 5 he'll be on hand for the first day sale of the postage stamp marking dedication of the Everglades National Park. The flamingo-adorned stamp goes on sale at Florida City.

Later the same day, he'll attend a Miami Kiwanis Club meeting a Young Democrats' dinner and also will be present at a meeting of the National Association of Professional Baseball Leagues.

On Dec. 6 he'll be occupied with the big celebration marking dedication of the Everglades National Park. President Truman will be principal speaker at the day will return to Tallahassee for South Florida event.

On Dec. 7 and 8, Caldwell will attend the Miami Beach meeting of the National Association of Insurance Commissioners. Also on the 8th, he's scheduled to appear at the convention of the Southeastern Association of State Highway Officials in Miami.

On Dec. 9, he'll attend the meetings of the Southern Ice Cream Association in West Palm Beach and the Fort Pierce Kiwanis Club.

He'll attend a meeting of the Jacksonville Chamber of Commerce on Dec. 11 and later in the day will return to Tallahassee for

Swedish Dentist Finds Method To Add Tooth Enamel

STOCKHOLM, Dec. 4 (AP)—A method of healing decayed teeth like a body wound, whereby the teeth grow new enamel, has been announced by a Swedish dentist, Dr. Sten Forsshufvud of Gothenburg, after several years of research.

The report on the new method, which shortly will be published in Sweden, has not yet been studied by dental authorities, but Prof. G. Westin of the dental institute said that "if correct, the report is one of the most sensational ever published in the records of dentology."

Dr. Forsshufvud, who began his research on biological dental healing in 1937, said he used "pieces of teeth of oxen, freed from most of their organic substance," as a filling for cavities. "Nature does the rest," he added.

Dr. Forsshufvud said that "the mineral bandage" acts as a support or scaffolding, through which regular fibers grow, thereby restoring nutrition in the wound area. The mineral bandage is gradually resorbed, while at the same time human enamel is built up.

The mineral material from oxen's teeth is retained in its place for the same reason which keeps the edges of a wound together; the blood plasma keeps it there, the dentist said.

He does not use any surface support for the filling but said this might improve the method.

Dr. Forsshufvud said the method although still in an experimental stage and lacking practical value, since it is not generally available, is of tremendous theoretical interest.

He said he had treated about 40 cases by his new method, and about 40 or 50 per cent of them had been successfully completed. The oldest case is of 18 months standing and incisions in the healed areas show that enamel has grown in.

Dr. Forsshufvud, now 45, worked in research at various periods at the Lund University and the Gothenburg Bacteriological Laboratory.

"We are now standing on firm ground," he said, "and as I cannot afford to continue the research, it is time to make my discoveries public. I hope they will bring dentistry closer to the possibility of creating a biological treatment."

The reception to be given by President and Mrs. Doak Campbell of Florida State University in honor of Dr. J. Hillis Miller, the new president of the University of Florida.

## Woman's Club Has Annual Xmas Party

The annual Christmas party with all departments participating was held yesterday by the Sanford Women's Club at the club house on Oak Avenue amid a Christmas scene enhanced with bright red poinsettias, holly and a large lighted Christmas tree.

The speaker's table was covered with a lace cloth and centered with holly interspersed with white poinsettias. The center-piece was banked around burning taper. Individual tables were centered with a tiny anemol holding a carol book. A small lighted tree was placed on the mantle and was surrounded with pine branches.

Toys were arranged around the large beautiful tree placed in a corner of the stage. On the stage also was a mantle complete with filled Christmas stockings and banked with Brazilian pepper. Small choir boys were placed on the mantle and flanked with red candles. Decorations were under the direction of the Civic Department. Making up the committee were Mrs. Jack Russell assisted by Mrs. Bacot Ellerbe and Mrs. George Wells.

The luncheon was served at 12:30 o'clock and hostesses were Mrs. William Schnabel, Mrs. S. C. Graham, Mrs. J. E. Baker, Miss Elialee Kirehloff, Mrs. C. E. Proctor, Mrs. O. M. Harrison and Mrs. W. B. Kirby. A shower was held for the Children's Home in Jacksonville after which the Fine Arts Department presented the program. Sponsors for the program were Mrs. E. D. Brownlee, Bible chairman, and Mrs. Edgar Mitchell, music chairman.

"The Lord's Prayer" was sung by Mrs. Charles Ginn and Mrs. E. D. Brownlee talked to the group on "Christmas in the Home." "The Prophecy of the Coming of Christ" was told by Mrs. Douglas E. Charles. The story of a small Pennsylvania boy who played the part of a wise man and cheered the hearts of afflicted people in Pennsylvania was told by Mrs. W. M. McKinnon.

At the conclusion of the effective program bridge and checker games were enjoyed under the sponsorship of the Social Department. Talking in bridge represented small Christmas packages. High score for bridge was won by Mrs. Roy Tillis, for Chinese checkers, Mrs. Francis Boltz and secretary by Mrs. J. A. Young.

About 125 members were present for the afternoon and out-of-town guests included Mrs. Charles Best and Mrs. James Hatrick of Hatley, Ontario, Mrs. Louisa Beverly of Quitman, Ga., Mrs. J. H. Hufford and Mrs. Percy W. Hufford of Potoskey, Mich.

Mr. and Mrs. L. B. McLeod Jr. of Orlando announced the birth of a daughter, Marian Lamar McLeod, on Dec. 3 at the Orange Memorial Hospital. Mrs. McLeod will be remembered as the former Lucy Roumillat of this city.

## Tournament Won By Mrs. Stuck Yesterday

Mrs. John Stuck was the winner of the nine-hole tournament held yesterday during the playing meeting of the Women's Golf Association at the Seminole Country Club. Prizes were also awarded to Mrs. E. B. Smith, second, and Mrs. Andrew Cartaway who had the score nearest 60. Mrs. Price heard won the nine-hole putting contest with 15 putts.

In last week's contest Miss Dorothy Powell won a prize for the low score and also the unique prize for the most number of fives. Mrs. W. R. Williams won the second prize and the putting contest was won by Mrs. E. C. Hayman.

## Missionary Union Has Week Of Prayer

The W. M. U. of the First Baptist Church held its first observance of the Week of Prayer on Monday afternoon at 3:30 P. M. at the church. The theme of the meeting was "Come Over and Teach Us" with Mrs. M. Carroll in charge.

The group in their opening prayer remembered especially those listed on the calendar of prayer. The first portion of the program was entitled "South America" and Mrs. Roy Britt told the story of the missionaries in Brazil. "Africa" was the second subject and the schools of Nigeria were described by Mrs. Fred Godwin.

Mrs. J. F. Harrison told of seminars in Roumania and Shanghai for the European and Chinese portions of the program and the Baptist Bible School was described by Mrs. Roy Reel forming the Hawaiian part of the program. In closing the meeting the ingathering of offerings was held and a hymn was sung. About 50 attended the meeting.

The second observance of the Week of Prayer was held at the church with the theme of the meeting being "Come Over and Teach Us." Mrs. A. J. Peterson of the "Rehabilitation Task Force" after which the group prayed for China and its need for physical help. Mrs. R. F. Cooper spoke on "Mankind in Europe."

Mrs. George Dixon had as the subject for her talk "Africa, Where Disease Takes Its Toll." The song, "The Hem of His Garment" was sung by Mrs. Britt and Miss Ellen Westmoreland. Mrs. W. H. Vance told of the George W. Truett Home in Nashville and Mrs. Westmoreland gave a "Forward Look at Medical Work in Latin America."

Following the singing of "Joy to the World" an offering was taken and the benediction pronounced.

During the brief business session Mrs. L. M. Swain, treasurer, announced that \$48 in dues had been collected during the past nine months. She also stated that the circle had turned in \$16 to the church building fund derived from the bazaar held recently.

At the conclusion of the meeting hot tea and fruit cake topped with whipped cream were served to Mrs. Hoolahan, Mrs. Swain, Mrs. H. R. Herndon, Mrs. James E. Pearson, Mrs. A. C. Brockman and visitor, Mrs. J. N. Azarello.

## Casselberry News

Mrs. W. R. Fairchild, Jr. has returned to her home on Lake Triplet Drive after spending two weeks visiting friends in Chicago, Ill.

The general election was held last Monday in the town of Casselberry, Seminole County, for mayor, alderman, town clerk and town marshal. The final results were: Rowland Bevan—mayor, Mrs. Ken Watson—town clerk, Paul Bates and Ken Watson—alderman, Tally Hattaway—town marshal.

Mr. and Mrs. Olan Dukes and their daughter, Miss Norma Jean, of Plant City spent the weekend visiting Mr. and Mrs. Tally Hattaway and family of Casselberry. Mrs. Jean Hitchcock recently gave a shock shower for Mrs. Marie Adams. Those present were: Mrs. Alma Hattaway, Mr. L. G. Hattaway, Mrs. Coreen Morgan, Mrs. Bryant, Mrs. Ida Parrish, Mrs. Mertile Largent, Mrs. Lily Mae Carier, Mrs. Evelyn Adams, Mrs. Genevieve Morgan, Mrs. J. L. Parrish, Mrs. Mary Hitchcock, Mrs. W. L. Ellis.

Mr. and Mrs. James H. Phillips of Casselberry had as their guests over the Thanksgiving holiday Mr. and Mrs. C. C. Hudson of Interlachen, Mrs. W. H. Boulinaux and daughter Susan, and Mrs. J. J. and Mrs. R. H. Phillips of Jacksonville.

Mr. and Mrs. J. R. Hattaway and family and Mr. and Mrs. Tally Hattaway and family of Casselberry spent Thanksgiving Day visiting their parents Mr. and Mrs. L. G. Hattaway of Altonmo.

Mrs. W. R. Fairchild of Evanston, Ill. is visiting her son and daughter-in-law Mr. and Mrs. W. R. Fairchild, Jr. of Casselberry.

Hilbard Casselberry, Jr. and Mrs. Hilb Casselberry, Jr. and Mrs. Harvey Williams, Mr. Jon Cooper, Mr. and Mrs. Millard Rottar and Mr. and Mrs. Leonard Casselberry celebrated Thanksgiving by having a big turkey dinner at Azalea Lodge.

Tom Berry has arrived at the Azalea Driving Park. He shipped 18 horses here from Lexington, Ken.

Rabbi Korff was held in prison 12 weeks on charges of plotting to "bomb" London with leaflets after his arrest by government agents in France in September. He was released when prosecution was dropped.

BAGHDAD, Iraq, Dec. 4 (AP)—Demonstrators set fire to the United States information services office here today, wrecked furniture and smashed the windows in spite of efforts of police to stop them. No one was injured.

Earlier in the day demonstrators, protesting the recent decision to divide Palestine into two separate states, one Arab and one Jewish, paraded in the streets and demanded from the ministry of education to get back to their studies. Emir Abdul Ilah, the regent of Iraq, again urged students to go back to school and other citizens to go back to work.

All of Baghdad's Jews were being transferred in a long train of trucks which today demonstrated was not announced, but it was believed that if the situation worsened the Jewish community will be moved into one wholly Jewish area for reasons of security.

BOSTON, Dec. 4 (AP)—Plans for a 250,000-man Palestine expeditionary army to "retreat from American generals" were disclosed last night by ITASS (Iraq, Turkey and Arab States) in a pamphlet, 32, who was arrested several months ago in Paris on charges of planning to stop Zionist propaganda leaflets on

**OLYMPIC COMMITTEE**  
 CHICAGO, Dec. 4 (AP)—The United States Olympic committee today awaited the decision of the Swiss organizing committee at St. Moritz, Switzerland, concerning the "hot potato" status of who will make up the United States ice hockey team in the 1948 winter games. Yesterday the committee, headed by Avery Brundage, meeting in Chicago, threatened to withdraw all the United States teams from the winter contests if the Swiss committee sticks to its preference for the ice hockey entry of the "professional and commercial" amateur hockey association.

**Seal President Determined To Have Major Leagues On Coast**

By JOE REICHLER  
 MIAMI, Fla., Dec. 4 (AP)—One of the big battles in baseball appeared to be shaping up today as rumors of disunion among Pacific Coast League owners leaked out here to dwarf all other activity at the Minor League's 46th annual convention.  
 Despite League President Clarence Rowland's insistence that all was serene among the Coast's moguls, it was learned that Paul L. Fagan, vice president of the San Francisco Seals, and generally referred to as the "strong man" of the league, had confided to friends that he was determined to bring Major League baseball to San Francisco.  
 Fagan added he did not care whether the Seals entered the big leagues as part of the eight club Pacific Coast circuit or as a four-team group composed of themselves, Los Angeles, Oakland and Hollywood.  
 It also was learned that the "big four" coast teams, with the exception of the Chicago Cubs, owned Los Angeles club, had held a "secret" meeting several weeks ago to consider what steps would be necessary if the big leagues refuse the Coast's request for Major League status.  
 It appears almost a certainty that the American and National leagues will not grant such a request. It is almost equally certain that the minors here will pass this matter, pending action by the Majors next week.  
 An informant told the Associated Press that the three clubs had placed a value on the property held by Sacramento, San Diego, Portland and Seattle at \$2,500,000 and agreed among themselves to compensate those clubs that amount.  
 Each of the clubs going into the Majors agreed to pay \$500,000 to the others with a half million dollars coming out of the League treasury, the informant added.  
 Disturbed by reports that the league was split into two factions, Rowland called for a special session among the Coast's officials and came out with a "united front" stand reiterating their previous expression of faith. The report of the meeting, by the big four was vehemently denied by the little four. President Bill Starr of San Diego said he had heard of no such meeting.  
 Emil G. Sick, president of the Seattle club and Yuh G. Separovich, general manager of Sacramento, who recently sold his interest in the Seals to Oscar Salenger, lined up solidly against the "big four."  
 In the first day of the three-day session yesterday, Minor League President George Troutman greeted the delegates from 14 leagues and came out with a "united front" stand reiterating their previous expression of faith. The report of the meeting, by the big four was vehemently denied by the little four. President Bill Starr of San Diego said he had heard of no such meeting.

**Nation's Top Rank Golfers Ready For Winter Golf Meet**

ORLANDO, Dec. 4 (AP)—Eddie Garfield of Cleveland, Ohio, who just eased into the \$10,000 Orlando open golf tourney yesterday with a qualifying 81, took an early lead today with a 33-34-67 over the par 71, 6,454-yard Dubsread Country Club course.  
 William Urban of Pottstown, Pa., had a 70 while at 72 were Frank Sitaz of Torrington, Conn., Arnold Hanke of Leesburg and amateur Ray Raynor of Mt. Plymouth.  
 None of the "name" golfers had started by early afternoon and last finishers were not expected until dark.  
 (ORLANDO, Dec. 4 (AP)—Most of the nation's top professional and amateur players were on hand today to start the winter golf tour with the \$10,000 Orlando open over the 6,454-yard par 71 Dubsread Country Club course.  
 The field of 164, trimmed by a qualifying round yesterday for non-exempted golfers, was ready to start teeing off at 7:30 A. M. (EST).  
 Among the participants are seven members of the American Golf Association, including Sam Snead, Jimmy Demaret, Jay Williamson, Alvin Karpis, Alvin Harrison and Herman Keiser. Also on hand are two of the British Ryder cuppers, Eric Green and Jimmy Adams.  
 They will battle over the 72-hole route, with the 18-hole final round set for Sunday.  
 Amateurs were well represented and one of them carried off top honors in the qualifying test. Promising young Felice Torza of Hartford, Conn., whittled four strokes off par on the back nine after trimming one on the first nine for a pace-setting 35-31-66.  
 Herm Schlarau, pro of Bloomington, Ill., was one stroke behind with 67; Darwin White of Atlanta was third with 68; and two others, Jack Tatum of Shelbyville, Ind., and amateur Harold Padlock, Jr., of Chagrin Falls, Ohio, qualified with 69 each.  
 The best 100 scores and those who qualify for Friday's second round and the low 60 on Friday will compete the final two days of the medal play event.

**Duck, Goose Hunt Tradition Is Broken**

TALLAHASSEE, Dec. 4 (AP)—The traditional caybreak barrage will be missing when the Florida duck and goose hunting season opens next Monday because fixing will not be permitted until noon that day.  
 After the first day, hunters may start shooting at waterfowl when the sun rises, as usual, and keep firing until an hour before sunset.  
 Director Ben C. Morgan of the State Game and Fresh Water Fish Commission said the delayed hunting on opening day was ordered by the federal government, which fixes the rules for migratory waterfowl hunting.  
 He said U. S. Fish and Wildlife Service officials explained they wanted to discourage the mass hunting of ducks on the opening day, when thousands of hunters take to the lakes, bays and streams. Duck hunting always is better at dawn than at noon.  
 The waterfowl season will close Jan. 6.  
 Each hunter may bag only four ducks a day this year. He may take one Canadian goose, the most prevalent species in Fla., but four of any other type goose; and 25 coot in a day.

 Authorizing any city to consolidate any of its functions and offices with the county in which it is located.  
 Redfern's proposal, the result of 15 months work in which he studied constitutions of all 48 states, also provides for a statewide vote every 20 years to determine whether the Constitution should be revised and brought up to date.  
 Homestead exemption, the ban on state income taxes or issuance of state bonds and Attorney General Tom Wilson's anti-closed shop amendment are retained without change.  
 Copies of Redfern's "first draft" will be sent by the State Bar Association to every newspaper in Florida.  
 The Miami attorney plans to gather clippings of all critical comment and suggested changes, and turn them over with his draft to the full-bar association committee as the basis for a final draft.

**Lippy Has Signed To Manage Bums Says NY Paper**

NEW YORK, Dec. 4 (AP)—Leo Durocher, suspended for a year "for conduct detrimental to baseball" has been signed to manage the Brooklyn Dodgers for 1948, the Daily Mirror reported today in a copyrighted story.  
 The Mirror also reported that Dixie Walker, "popular Brooklyn outfielder, has been traded to the Pittsburgh Pirates with pitcher Hal Gregg and Vic Lombardi for shortstop Billy Cox, plus cash and several other undisclosed players.  
 Durocher affixed his signature to the 1948 contract at Chester, N.Y. He had been signed to manage the Brooklyn Dodgers for 1948, the Daily Mirror reported today in a copyrighted story.  
 Branch Rickey, president of the Dodgers, signed Durocher after receiving an okay from Baseball Commissioner A. B. (Happy) Chandler. The Mirror said, Chandler suspended Durocher before the 1947 baseball season was fully under way following court actions in connection with his marriage to movie actress Lorraine Day.  
 NEW YORK, Dec. 4 (AP)—Branch Rickey, who has been playing the role of baseball's "Mr. Fix-it" on the Brooklyn Dodgers' managerial plans for 1948, admits that Commissioner A. B. Chandler has given him the green light as far as naming Leo Durocher is concerned.  
 "I have seen the commissioner," Rickey was quoted by the New York Times, "and that millstone is no longer around my neck. Now I can move as I have wanted to move for some time, but there are a lot of things to be done and I am doing them as rapidly as possible."  
 This was taken by baseball men to mean that any day now the announcement would be forthcoming that Durocher had signed a contract to "pilot" the Brooklyn Dodgers next season.  
 Durocher's suspension for the 1947 season for "conduct detrimental to baseball" ended with the last out of the World Series.

**Clyde Terwilligar To Play In Tourney**

Clyde Terwilligar, Seminole Country Club pro, entered the \$10,000 Orlando Open Golf Tournament at the Dubsread Country Club in Orlando today.  
 Terwilligar was paired with Johnny Farrell of Westfield, N. J., and Joe Taylor of Bristol, Tenn. Taylor is a former pro at the Seminole Country Club.  
 Terwilligar reported that Felice Torza, winner of the Wendy Harris trophy at the local club last Sunday for the low net honors in the mixed Scotch foursome, is leading the qualifiers in Orlando with a five-under-par 66 over the 6,454 yard Dubsread course.  
 Terwilligar and his partners were slated to tee off at 11:00 o'clock this morning.

**Louis, Walcott Are Ready For Title Go**

NEW YORK, Dec. 4 (AP)—Joe Louis and Jersey Joe Walcott, both 33, which is usual for fighters go, took well earned rests today to get in top mental and physical shape for tomorrow's world heavyweight championship fight.  
 Odds ran as high as 1 to 10 Louis will retain the title he has held ten years. There was comparatively little betting.  
 Last word from the champion's camp was the unanimous verdict of his sparring partners that he is better than ever.  
 The challenger's associates made no such claim for their man.  
 Louis at 212 pounds will hold an 18-pound advantage over Walcott; his reach is 76 inches, two more than Walcott's; and at six feet two he is two inches taller.  
 In punching, speed, and ring craftmanship the margin in favor of Louis is much greater.

**Gators Decline Bid To Tampa Bowl Title**

GAINESVILLE, Dec. 4 (AP)—The University of Florida officially declined an invitation to participate in the Gator Bowl football game to be played in Tampa on New Year's Day. It was announced officially at noon yesterday by University officials.  
 The statement asserted that "it was the opinion of the players that (1) the team prefers to begin plans now for the next regularly scheduled season and (2) that the press work, including the preparation for examinations, is so great and so vital that time used otherwise would mitigate against the development of a successful unit next year."

and in doing so, shall be underwriting the stabilization and prosperity of Europe, so we can furnish where this policy will take us."  
Although this country since the end of the war has spent some \$20,000,000,000 for military and "boys' occupation costs, Europe appears to be no better off than when we began, Byrd said, and he added:  
"Fiscal stability in the United States, would serve the purposes of Democracy for more than any weapon that could be devised. By the same token, our financial soundness is the only hope for those who seek out life. Without it there would be no freedom, no progress, no peace, and freedom could not survive, either here or elsewhere."  
DR. BUTLER III  
NEW YORK, Dec. 4 (AP)—Dr. Nicholas Murray Butler, 85, president emeritus of Columbia University has developed bronchial emphysema, Dr. William H. McCallister, university medical officer, announced today.  
Dr. Butler entered St. Luke's hospital last week for treatment for a digestive disturbance.

Under the leadership of the President and with a sympathetic response from Congress, this can be done. It should be done in any case, but it must be done in a way that will not cause any serious economic disturbance. The Virginia Democrat, one of the leading Senate advocates of governmental economy, said that while he voted to authorize \$597,000,000 in winter relief for France, Italy and Austria, the long-range Marshall Plan is something else again.  
"We must clearly understand that the cost of the Marshall Plan cannot be measured merely in terms of money," he said. "We cannot pass an appropriation and say, 'I think that will be all. In fact, it will be all.'"  
The paper asserted that De Gasperi abandoned plans to take a member of the Labor Socialist (moderate leftists) into his "inner cabinet" and was swinging toward an agreement with the Republicans.  
The premier had said to be considering offering a Republican representative a post without portfolio as a member of the policy-making inner cabinet.

More than half of the second batch said of Army life "I like it all right," one-third decided it is "not so bad" and a "mets' handful" just don't like the Army.  
In 1943 an English scientist discovered that oak bark contains tannin, the active material that converts animal hides to leather.  
In 1945 A.D. it is reported the Emperor Claudius ate medicinal stock which had been preserved for ages in Siberian ice.

**Motorists Warned**  
(Continued from Page One)  
If this is impractical, to STOP until they have passed. Failure to stop means a possible fine of \$200 or 60 days in jail. Recently a police patrol car chased a motorist who had sped ahead of a south bound fire truck on Park Avenue close to Twenty-Second Street, and patrolmen reported that the police car accelerator was pressed to the floor board before the offender was caught. He was arrested and fined, according to Chief Ray E. Will. Motorists today also warned motorists not to drive over fire hose on streets in event of fire.

**Now SHE SHOPS "CASH AND CARRY"**  
Without Painful Backache  
Many sufferers relieve nagging backache quickly, once they discover that the cause of their trouble may be their kidneys. The kidneys are Nature's chief way of taking the excess acid and waste out of the blood. They help most people pass about 2 pints a day.  
When disorder of kidney function permits poisonous matter to remain in your blood, it may cause backache, rheumatism, leg pain, loss of pep and energy, swelling, itching, swelling, puffiness under the eyes, headaches and dizziness. Present or early "sores" with smarting and burning sometimes shows these conditions wrong with your kidneys or bladder.  
Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, and successfully by millions for over 60 years. Doan's give happy relief and will help the 12 million of aches and pains that point to trouble from your blood. Get Doan's Pills.

importance under the Nazi regime. In the notorious people's court of Berlin, which tried these cases, he was convicted for handling the cases of foreigners under Hitler's "night and fog" decree and for treating to the Nazi program for extermination of Poles. The "night and fog" decree was directed at suppressing resistance to the Nazis in occupied countries by spurring civilians into Germany for secret trial.  
Wolfgang Metzgerger, a German authority on international law, accused of helping to carry out the "night and fog" decree. The court condemned the defendants in sharp language and dismissed defense pleas that they acted under orders of senior officers and coercion from Hitler.

Cane Is Presented  
To Judge Sharon  
A colorful hand-carved cane

carried by Municipal Judge James Sharon which was carved by H. B. Mees of Geneva and presented to the judge, is attracting much local attention. Mr. Mees, an

elderly man, is noted for his wood carving, especially of canes. Judge Sharon today proudly pointed out the carved and colored figures on his cane. These in-

clude oranges and lemons, green foliage, pink flamingo, black parrot, Seminole Indian head, deer, mule, and sheeps heads and a sea horse. The carvings are where

thorns normally grow on wood. Newfoundland is a little larger than Ohio.

## French Police Are Ordered To Fire On Mobs During Unrest

### Communist Deputies Shout "Assassin" And Seek Meet With President Auriol

PARIS, Dec. 5 (AP)—The Minister of Interior announced to the national assembly tonight he had authorized French police to fire on mobs. Communist deputies shouted "Assassin."

Troops and police were on the alert throughout the strike-bound nation after another day of turmoil during which strikers in two cities temporarily wrested control from authorities.

The Communist-dominated General Confederation of Labor, meanwhile, hinted the way was open for a back-to-work movement, and sought to confer with President Auriol on the new stringent anti-strike law.

Meanwhile, the French government, harried by crippling, Communist-hatched work stoppages ran head on into another strike today when government employees began walking off the job.

The first immediate effect was to blackout electric power, halting factories, stopping the subways and choking off communications. Sailors and marine guards moved into the power houses at once and got some of the generators going again, but Paris remained badly crippled.

The council of the republic, the upper chamber of France's legislature, was summoned to ratify the drastic anti-strike, anti-sabotage legislation passed yesterday.

## CIO Gives Okay To Atom Plant Strike If No Deal Signed

WASHINGTON, Dec. 5 (AP)—Chairman H. W. Wilson (Iowa) of the Senate-House atomic energy committee predicted today that "means will be available" to prevent a threatened work stoppage by CIO workers at the Oak Ridge, Tenn., atomic plant.

The importance of continuing work at Oak Ridge is such that we should not have a strike in this atomic energy setup," the Iowa senator said. "I hope and feel confident that the matter will be satisfactorily resolved."

DARLIDGE, Tenn., Dec. 5 (AP)—International headquarters of the CIO Gas, Coke and Chemical Workers Union has authorized a strike at the government's largest atomic plant here in event no contract is reached with the Carbide and Carbon Chemical Corp. by next Tuesday, local president Clyde L. Terry said today.

## Circuit Court Will Reconvene Monday

Circuit Court will reconvene Monday at 10:00 o'clock with Judge M. B. Smith presiding, to continue trial of criminal cases during the Fall term. A panel of 82 jurors has been summoned. It was announced by O. P. Herndon, clerk of the court.

Cases set for trial Monday include: Willis Walker, charged with lewd and lascivious conduct. In the afternoon, the cases of Walter Zanders, charged with automobile stealing and of Walter Mungson, charged with breaking and entering with intent to commit a felony have been set for trial.

On Tuesday, the case of Frederick George, charged with manslaughter in connection with the traffic death of State Patrolman L. C. Bender will again be brought to trial before a new jury, the former jury having been discharged following the illness of a member and the consequent rolling of a mistrial by Judge Smith.

## LOT SALE

Sales of lots 4, 5 and 6 of Block B of Prairie Lakes subdivision on the Orlando Highway south of Ocoeeberry by J. E. Sumner and wife to E. K. Varas of Orlando was today reported at the Circuit House. Revenue stamps indicate a sale price of \$25,000.

## ROTARY CONFERENCE

Paul Sims, district governor of Rotary International, will pay his official visit to the Sanford Rotary Club Monday evening. President Gordon Brisson announced today. Supper will be served at 7:00 o'clock at the Tourist Center.

## Russian Plan Is Denounced By Marshall

### U. S. Secretary Asks For Immediate Action By Four Powers Over Germany

LONDON, Dec. 5 (AP)—Secretary of State Marshall urged the foreign ministers council today to "drop generalities" and "try to find out what each delegation really has in mind" for settling peace terms with Germany.

Marshall attacked Soviet Foreign Minister Molotov's former daily demands for quick creation of a central German government and declared: "Any German government called upon to administer a Germany divided as it is today by the policies of the occupying powers would be a sham and a delusion."

Marshall led off today's council discussion on Germany's economic future and his prepared statement of 1,000 words was handed to reporters shortly after the meeting convened.

His declaration evidently marked the beginning of the long expected American effort here to determine whether there are solid chances for agreement on the future of Germany at this conference.

"The situation in Germany is a real one," he declared. "It urgently requires now—without delay—four-power decisions on several specific fundamental matters of substance. I ask for action on these points in order to end the present division on Germany."

The United States, Marshall declared, favors "the establishment of a provisional government (Continued on Page Eight)"

WASHINGTON, Dec. 5 (AP)—A Republican program to control living costs appeared assured for Congress, consideration of the Senate GOP policy committee decided today to collaborate with the party leaders in the House on anti-inflation legislation.

Such a program would be designed to counter the 10-point plan President Truman proposed to Congress Nov. 17. Chairman Taft (R-Ohio) of the policy group told a news conference that Senate and House Republican leaders will meet next week to determine whether "two or three" anti-inflation measures can be pushed through before the special session quits for the Christmas holidays.

Taft said these measures possibly would extend export controls, regulate trading on grain exchanges and curb installment buying. He said the senators also discussed possible legislation under which the government would take the lead in attempts to bring about voluntary agreements in industry to allocate scarce critical products, such as steel.

While senators' interests centered on domestic problems, the House went ahead with debate on the Administration's emergency program.

## Appeal Is Expected On Pleasure Driving

WASHINGTON, Dec. 5 (AP)—An appeal, probably from the White House, for a voluntary curtailment in pleasure driving today was forecast by Interior Department officials.

Robert E. Friedman, counsel for the department's oil and gas division, told the joint congressional economic committee about the "voluntary program" and said the appeal will be made by next weekend.

Earlier, Higher Secretary Oscar L. Chapman said Interior officials have made no plans to "roll back prices" of gasoline or coal. He made the statement as he urged Congress to vote emergency powers to fix prices and ration these two basic commodities.

A series of questions by Republican members regarding various shortages in this country in relation to exports for European aid brought a brisk charge by Senator O'Mahoney (D-Wyo) that there are "some people in the United States and some in the Congress who want to do what Soviet Russia desires—wreck the Marshall Plan."
