CIVIC LEADERS READY FOR BIG EVENT TONIGHT

Seminole Lake Orange County Civic Heads To Pay Tribute To Trade Body Official

Prominent residents of this county together with civic leaders of Lake Orange, and other adjoining counties will tonight seat themselves about a dining table at the Valdez Hotel to officially welcome Karl Lehmann to this county and to offer their united support in plans which he and his body heads expect to inaugurate in the near future for the welfare and progress of the entire county.

Official representatives of the City County, agricultural, and civic life of the community will join with civic leaders, judicial heads, and county officials of Orange and Lake counties in tribute to the achievements of Mr. Lehmann in the past, and in wishing him and the trade body a large measure of success in the future.

Every indication points to a record attendance. Seaters have been held for 90 guests and it is estimated that fully that many men and women will be present as the dinner gets under way at 7:00 o'clock.

Under a tentative program the dinner officially begins as Francis Carrer MacMahon leads the diners in a song, followed by Rev. E. D. Brown's short prayer.

During the dinner, short talks will be made by Mayor T. L. Deane, representing the city; John Melch, representing the County; Fred F. Dorner, representing the Seminole Agricultural Club; E. P. Haines, representing the Agricultural Extension; and J. H. Mills, representing the Orange County Chamber of Commerce. Other speakers will include Mr. Lehmann, Mr. J. W. Peppers, Mr. J. W. Peppers, Mr. J. W. Peppers, Mr. J. W. Peppers, and other towns are also scheduled to speak.

Among the guests from Orange county who will be present are: William Edwards of Zellwood, former president of the Orange county chamber of commerce, and in office during the nine years Mr. Lehmann acted as secretary; E. S. Seiler, of Tangerine, county commissioner, and for eight years treasurer of the Orange county trade body; C. T. Bickford, Orlando president secretary of the trade body who was for four years assistant to Mr. Lehmann; E. A. Caperton, Turkey Lake, E. S. Lawrence, Gotha, J. W. Peppers, Tangerine, directors of the Orange county trade body; Municipal Judge Arthur McKean, Orlando, and O. P. Swann, head of the Orlando Realty Board.

Lake county will be represented by H. C. Brown, Clermont, president of the county chamber of commerce, and John C. Lehman, Clermont, newly elected secretary of that organization who will take office on Nov. 1. It will be Mr. Lehman's first public appearance as secretary of the Lake county trade body.

Frank Kay Anderson, of Altamonte Springs, associate editor of the "Citizen Leader," Tampa newspaper, will also be present.

Entered Apprentice Degree To Be Given

Sanford Lodge No. 21, F. & A. M., will hold its next regular communication tomorrow night in the Masonic Temple commencing at 7:30 o'clock.

The Entered Apprentice Degree will be conferred on members and visiting Master Masons are invited to attend.

BANK HEAD DIRECTED

NEW YORK, Oct. 18.—(A.P.)—The Federal Reserve Board today directed that the United States National Bank of New York should reduce its cash holdings to \$100,000,000.

CLARK IS ACQUITTED

LOS ANGELES, Oct. 18.—(A.P.)—The federal grand jury today acquitted Clark on all charges.

Hoover Urges Nation To Set Face Toward Bright Future In Stirring Yorktown Talk

YORKTOWN, Va., Oct. 18.—(A.P.)—Standing where once George Washington led a ragged force to a great victory, President Hoover today warned that in the face of "temporary dislocations, Americans must remember that similar obstacles had been overcome in the past as the nation swept forward to ever increasing strength.

The president spoke at the half-filled ground into a battery of modern microphones. He stood surrounded by three sides of a

HOOPER PLEADS THAT NATION AID JOBLESS AT ONCE

Officially Opens Five
Week Relief Drive
In Dramatic Speech

FORTRESS MONROE, Va., Oct. 18.—(A.P.)—A dramatic call for national wide contributions to local jobless funds to the end that "there be no hunger or cold amongst our people" was sent to the country last night by President Hoover.

Pleading for a spirit of fraternity, a closer human relationship, among Americans, the president voiced a hope that by Thanksgiving day sufficient funds will have been raised in community throughout the country to allow each to say "we are our brother's keeper."

Hoover spoke from the residence here of Brig. Gen. Stanley Embick, commandant of the post. His words were broadcast nationwide.

Brought ashore in a small boat from the battleship Arkansas, which is carrying him to the Yorktown Bicentennial celebration, the chief executive, with Mrs. Hoover and several aides, went to the study in the Embick home. There, standing before a microphone, he opened officially the five weeks drive of his emergency relief committee to aid the gathering of community funds.

"No governmental action, no economic doctrine, no economic plan or project," he said, "can replace that God-imposed responsibility of individual man and woman to their neighbors."

Immediately after his address, Hoover returned to the Arkansas, which anchored last night in the mouth of the York river. It will go to Yorktown early Monday where 20 or more naval craft will salute the president as he prepares to land. He will make to the Bicentennial grounds to speak in the forenoon.

Hoover broadcast his doctrine of community rather than federal aid in opening the national drive from Oct. 19 to Nov. 25 in which his relief committee will aid the gathering of local funds. He was introduced by (Continued on Page Six)

Lakeland Cuts Bonded Debt Huge Sum In Year

LAKELAND, Oct. 18.—J. Hardin Peterson, city attorney, addressing the Kiwanis club last week, pointed out that the bonded indebtedness of the city had been decreased by more than \$600,000 since 1928. Discussing this point Mr. Peterson said:

"Since the peak load of 1928, at which time the bonded and floating debt of the city of Lakeland was \$9,944,812, the debt of Lakeland has been gradually decreased and the total bonded and floating debt today is \$6,000,000. Of this amount the bonded debt is \$3,776,000 and the floating debt is \$2,224,000. There has been a total reduction of \$3,944,812.

This rate of decrease in the bonded period of our financial history should be encouraging. It is generally rumored on the streets that the amount to be raised by taxes this year is the highest in our history. This is incorrect. The 1931 tax roll was \$2,224,000. The 1932 roll is \$2,000,000.

NEW YORK, Oct. 18.—(A.P.)—The federal grand jury today acquitted Clark on all charges.

SINO-JAPANESE SITUATION IS SAID IMPROVED

Reports From Closed
Session Of Council
Indicate Easement
Of Critical Affairs

(By The Associated Press)
GENEVA, Oct. 18.—(A.P.)—A decided easement of the Manchurian crisis is reported today following a closed session of the League of Nations council at which Prentiss Gilbert, United States representative was present. The improvement is noted. It is learned from an authoritative source, both in the military situation in Manchuria and in the more conciliatory attitude of the Japanese government before the council.

Operation of a branch railroad between Mukden and Hailuig reported resumed and this is taken as a sign that Manchuria is returning to normal conditions. The council is also encouraged by news that the Japanese had cancelled plans for debarking troops at Shanghai.

The question of American collaboration today remained a block in the way of League of Nations efforts to restore peaceable relations between Chinese and Japanese in Manchuria.

Japan again protested against American participation in discussions of the Manchurian problem by the league's council, but the council rejected the protest.

Aristide Briand, French chairman of the council, was reported to have disclosed plans for a rapprochement between China and Japan which he intended to explain to his colleagues at Geneva today.

The United States stands to help invoke the Kellogg-Briand anti-war pact to avert warfare in the troubled zone.

The Japanese government, meanwhile, continued to maintain its threat of war and reiterated its unwillingness to withdraw troops from territory outside of Manchuria. The Japanese government was disclosed last night when the league's council rejected a renewal of protest by Japan against American participation in discussion of the Manchurian problem.

The Japanese government made known its opposition to American (Continued on Page Five)

Irish Catholics Warned Against Communism

DUBLIN, Ireland, Oct. 19.—(A.P.)—A warning against a "Communist-Republican terrorist menace" was read yesterday in all of the Catholic Churches of Ireland.

With the government attempting to suppress political terrorism by the newly-enforced public safety bill, establishing drastic regulations almost tantamount to martial law, the Primate Cardinal McCarthy, three arch-bishops and 42 bishops of Ireland joined in signing a pastoral letter to the Catholic faithful, exhorting them to aid in halting rebellious threats against the regime of President William T. Cosgrave.

"There is in operation a society of militant character whose avowed object is to overthrow the state by force of arms," the letter said. "There is another organization called Saor Eire, a communist organization, which aims to mobilize workers and farmers behind a revolutionary movement and set up a communist state."

The letter asked Catholics to oppose communism.

"Irish boys," it said, "you cannot be Catholic and communist. One stands for Christ. The other stands for anti-Christ. Neither can you, for the same reason, be an auxiliary of communism."

The letter directed priests to urge their utmost to keep Irish youths from joining secret societies.

COMMANDER LEVIATHAN
WORCESTER, Mass., Oct. 19.—(A.P.)—The Worcester Telegram says Capt. George Fries, held in two rooms in mid-town, has been given command of the United States liner Leviathan, flagship of the United States lines.

World Mourns At Passing Of Edison Early Yesterday; Chose Death Over Disability

BEREAVED

Mr. Thomas A. Edison who, since her marriage to the great inventor in 1886, had been the constant friend and inspiration of a genius she long recognized. During the past week she had maintained a constant vigil at the bedside, and she was the last person recognized before Mr. Edison slipped into a coma.

CAPONE FACES 17 YEARS IN PRISON IF JUDGE WILLS

12-Year Crime Career
Marked By 1st Conviction
On Saturday

CHICAGO, Oct. 18.—(A.P.)—Al Capone's 12-year career as boss of Chicago gangland has been marked for the first time by conviction on a penitentiary offense.

He faces a maximum sentence of 17 years imprisonment and fines totaling \$50,000 for failure to pay income taxes on profits from liquor, gambling, vice and other underworld enterprises. Motions on the verdict will be heard Tuesday by Federal Judge Wilkerson, and Capone may be sentenced at that time.

Attorneys said yesterday that long legal arguments are probable over the verdict against the gang chief, returned Saturday night by a federal court jury, on five of 23 counts in two indictments charging him with attempting to "hit the United States government."

The other two counts charge he failed to file an income tax report for the years 1928 and 1929, and constitute misdemeanors on which the highest sentence would be two years.

Pangborn, Herndon At End Of Long Flight

FLOYD BENNETT FIELD,
Oct. 19.—(A.P.)—Clyde Pangborn and Hugh Herndon, Jr., first airplane pilots to make a nonstop flight across the Pacific ocean, completed the last stage of their round the world journey yesterday.

While thousands cheered, their monoplane flew out of the west and landed on the same runway from which it started with its nose pointed eastward 82 days ago.

Misfortunes of a great variety, from a smashed wing to prosecution in Japan, held them up during the two and a half months and forced them to abandon their hope of smashing the Post-Gatty round the world record, but both the fliers wore broad grins when they stepped from the plane.

As the flight came to an end yesterday's short hop from New Castle, Del., two women broke through police lines and ran toward the monoplane. One was Mrs. Mary Ella Herndon, a bride of less than a week when the flight started. The other was Mrs. Dixie Boardman, mother of Herndon. He had seen neither of them since the dawn of July 28, when he stepped into the ship and started on the air adventure.

GREEN PRIZE FOR POETRY
CHICAGO, Oct. 18.—(A.P.)—The St. Vincent Millay was awarded the Helen Haire Levison prize offered for a poem or group of poems by an American applicant in Poetry, a magazine.

Realizing Complete Recovery Physician Says He Did Not Wish To Live

By Dr. Hubert S. Howe
The late Thomas A. Edison's Personal Physician
NEW YORK, Oct. 18.—(A.P.)—When Thomas A. Edison realized that his complete recovery was improbable he did not wish to live.

He told his family that his work was finished and assured those near to him that he would rather leave the world than keep the burden and disabilities of age and illness on his devoted wife and children.

He knew that his body was a last showing infirmities of old age and that if one organ should recover another soon would show signs of weakness and inefficiency. If he could not work effectively life had no further object; so he grasped the situation clearly as he had always done and fearlessly prepared to die.

The immediate cause of death was uremic poisoning. This was the result of nephritis which first became actively manifest at the time of his illness with pneumonia two years ago. He also had a diastolic condition which had been present to a greater or less extent for 35 or 40 years.

For 20 years he had attacks of acute pain in his stomach and other symptoms of gastric ulcer. His blood pressure had always remained normal. For a year of 84 years his blood vessels showed remarkably little change, and his heart was exceptionally strong. His pulse was slightly irregular, but the never "ceased" him any inconvenience.

Edison always had a profound knowledge of medicine. He had for many years always read every thing pertaining to diabetes and stomachic disorders. His interest in chemistry was not limited to his industrial experiments, but included an unusual knowledge and understanding of physiological chemistry and of pharmacology. He was familiar with the actions of most drugs and their chemical properties. During his last illness he was slightly anemic and it seemed advisable for him to take iron. He understood that the chloride and certain other salts of iron were more difficult of assimilation than the double salt, iron ammonium citrate, which had been prescribed.

He had thoroughly studied his stomach condition, even to the determination of the kind of gasses formed during digestion. He experimented with different diets to determine the effect of food on his stomach pain. He always ate sparingly, and never seemed to enjoy eating.

Several years ago he discovered that his gastric pain could be relieved by drinking milk, so he gradually increased the amount of milk and reduced the other foods until three years ago, when he gave up all other food entirely. His diet then consisted of a pint of milk every two hours and water on this diet took it only on rare occasions. He continued this quantity of milk until some time in May this year when he reduced it from 14 or 16 glasses a day to seven.

This reduced diet did not furnish sufficient food, and was also insufficient in fluid, so that he lost weight and strength. As a result of this fluid deprivation his kidneys were unable to carry off the waste products which they ordinarily eliminate, and these substances accumulated in the blood in sufficient concentration to become alarming.

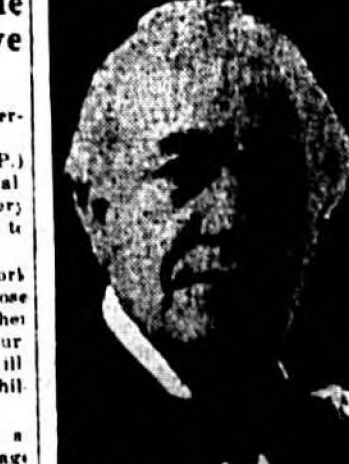

When he became under medical supervision on his return to New York, his diet was modified to include solid food. He was given cooked cereal, stewed fruit and non-starchy vegetables. The milk was still further reduced and water was added. On account of his dislike for water it was frequently flavored with peppermint or some other simple extract, in order to make it more palatable.

On Edison's return from Florida the presence of a large amount of urea in his blood was soon controlled by diet and water, the diabetes was a legacy on him, so that after the first few serious considerations, and even though the kidney impairment continued to become

more pronounced, he was able to fall backward.

NEW YORK, Oct. 18.—(A.P.)—Elinor Smith, the aviator, received a sprained back yesterday when she fell to the concrete apron in front of the grandstand at Floyd Bennett field, in attempting to leave her plane after it clipped and fell backward.

HAND STILLED

Thomas A. Edison, termed the "greatest man since the world began," whose death early Sunday morning plunged the world which he benefited so often into deepest gloom, and brought telegrams of grief and consolation from every corner of the globe.

GLOWING WORDS OF TRIBUTE ARE PAID TO EDISON

Hoover, Ford Term Him
One Of Greatest Of
Nations' Citizens

(By The Associated Press)
Glowing words of tribute to the part Thomas A. Edison played in the development of modern life, and expressions of sorrow over his death today were voiced by leaders in all walks of life and in all parts of the world. Among them was President Hoover, who termed Edison "one of the greatest men our nation has produced."

The president, aboard the U. S. S. Arkansas, enroute to Yorktown Va., radioed the following to Mrs. Edison:

"Mr. Edison was as great in his brave fight for life as he was in the achievements which had made the whole world his debtor. I mourn his passing not only as one of the greatest men our nation has produced but as a personal friend. On behalf of the nation, I express the profound sympathy of all our people and Mrs. Hoover and I personally extend our deepest sympathy to you and yours in your irreparable loss."

Henry Ford believes that Thomas A. Edison was in many ways the greatest man since "the world began."

Ford and Edison, who came to be affectionately called "two old cronies," had known and esteemed each other since 1894. In his boyhood the automobile king had admired Edison from afar as a hero.

Ford paid tribute to Edison for his genius as a scientist, an inventor and a thinker who created a world.

"It sometimes has been said," Ford once declared, "that we live (Continued on page six)

South Trembles As Wintry Blasts Are Felt In Entire Area

ATLANTA, Oct. 19.—(A.P.)—The South was chilly when it went to bed last night and cold when it arose today as winter set a forewarning that it is coming down to stay while Charlotte reported 59 low last night; Knoxville shivered with the same low, and Atlanta was uncomfortable with a 42; Memphis, with a 48, was 10 degrees cooler than New Orleans. Florida reported seasonable weather ranging from 68 at Pensacola to 72 at Miami. The Northeast had snow flurries, and Boston had a low of 40.

GIRL FLIER HURT
NEW YORK, Oct. 18.—(A.P.)—Elinor Smith, the aviator, received a sprained back yesterday when she fell to the concrete apron in front of the grandstand at Floyd Bennett field, in attempting to leave her plane after it clipped and fell backward.

End Comes Peacefully With His Wife Near; Private Funeral To Be Held Wednesday

WEST ORANGE, Oct. 19.—(A.P.)—Thomas A. Edison in death received today the homage of millions for whom he made life more comfortable as thousands of telegrams poured into his home here from king and commoner, prince and pauper the world over.

The body of the 84-year old inventor who died in his sleep early yesterday morning, lay in state in the library of his laboratory today. After a private funeral service Wednesday in the Edison home in Lakewellin Park, all that is mortal of the great inventor will be laid to rest in Rosedale Cemetery at Orange.

President Hoover hoped to come from Washington Wednesday to stand at Mr. Edison's bier both as a personal friend and as the head of a sorrowing nation, but the arrival that day of Premier Pierre Laval of France, made plans uncertain. Meanwhile Henry Ford and Harvey Firestone, the electrical wizard's cronies of years' standing, hurried here to grieve with the sorrowing family.

The body of the 84-year old inventor who died in his sleep early yesterday morning, lay in state in the library of his laboratory today. After a private funeral service Wednesday in the Edison home in Lakewellin Park, all that is mortal of the great inventor will be laid to rest in Rosedale Cemetery at Orange.

peacefully before dawn yesterday at the hilltop estate where he labored to give light, work and recreation to millions.

The 84-year-old inventor, who lay deep in a coma at the end, did not wish to live. Dr. Hubert S. Howe declared when he saw his complete recovery was just probable.

His wife and six children, close in attendance during the last stages of the 11 weeks sickness, had been told by Edison that his work was finished. He would rather leave the world, he said, than burden them with the disabilities of age and illness.

In the quiet of the early morning on the Lakewellin park estate a formal notice of Edison's passing was brought to newspapermen by Arthur L. Walsh, vice president of Thomas A. Edison Industries, Inc.

Pale and visibly stricken, Walsh walked down a tree-lined path from the home to press headquarters in the Edison garage to read the bulletin:

"Thomas Alva Edison quietly passed away at 24 minutes after 3 A. M., Oct. 18, 1931. (Signal) Dr. Hubert S. Howe."

Almost instantly the message circled the globe by telephone and telegraph systems which were a part of the industries valued at \$15,000,000,000 to which Edison contributed major inventions.

While the clicking instruments still were transmitting the first news of Edison's death there came from his family, in the form of a statement, their answer to the oft-asked question whether the inventor changed his religious beliefs before death.

The statement read: "The question has been asked whether Mr. Edison changed his religious views before death. Members of the Edison family state this is a difficult question to answer because of the widespread misunderstanding of what his beliefs actually were. Mr. Edison cannot be said to have changed views attributed to him which he never held.

"He never was an atheist. Though he subscribed to no orthodox creed, no one who knew him could have doubted his belief in a reverence for a supreme intelligence, and his whole life, in which the ideals of honest loving service to his fellow man was predominant, indicated how faithfully he followed these two commandments which govern all the law and the prophets."

Seminole Gridders In Easy 26 To 0 Victory Over Ocoee Eleven

STATISTICS OF GAME

First downs	San. Ocoee
Yards gained, rushing	300 64
Yards gained, passing	25 26
Yards lost, rushing	57 3
Yards lost, passing	0 0
Plays completed	1 1
Plays intercepted	0 0
Yards gained, punting	0 0
Punts	7 10
Yards gained, punting	2 0
Yards lost, punting	0 0
Loss on penalties	33 0

With his second and third string teams hardly being extended and with some of them showing enough ability to insure them a place on the first string eleven, Coach Leonard McCluskey's Seminole High gridders scored an easy 26 to 0 victory over the Ocoee High outfit yesterday afternoon in a benefit game which failed to draw the attendance expected.

Employing nothing but straight line plays and taking to the air but three or four times, McCluskey's team earned their third victory of the season in good style, giving the coach plenty of opportunities to study the work of several of his younger linemen and backs.

Here's a play-by-play description which tells how it was done:

First Quarter

Sanford won the toss, elected to receive and went into action for its first touchdown when McCluskey returned Howard's punt 20 yards to the Sanford 40 yard line. Williams made six yards in two tries at right guard, McCluskey made three more in the same place, and then McCluskey punted to the Ocoee 20 yard line where Kerr fumbled, the ball being recovered by Hester. Sanford led.

Williams lost nine yards at left end when Hudson swept through the line and tackled. McCluskey gained two yards at right guard, and two more at center before he punted to the Ocoee 10 yard line where Rollins fumbled, the ball again recovered by Hester, 10 yards from the goal. In three tries, gaining one, six, and three yards, McCluskey put the ball on the foot line. His first try for the touchdown was frustrated, but on his second try at center he went over easy. Knight's pass to Brown for the extra point, failed, and the score was Sanford 6, Ocoee 0.

Sharon kicked off for Sanford, the ball landing in the arms of Jernigan, standing on his own 40 yard line, and bouncing away until Sharon recovered on the Ocoee 43 yard line. Williams hit center for five and two yards, and McCluskey made it a first down with five at right end. McCluskey swept around right end for 15 yards for another first down, the ball to the 16 yard line and a touchdown in sight.

Williams gained three yards off right guard but Sanford was penalized 15 yards for illegal use of the hands on offense. Brown being the offender. Williams was thrown far no gain at left end by Garlington. McCluskey swept around right end for 21 yards, being stopped by Howard and Rollins. McCluskey fumbled but recovered for a three yard loss. McCluskey hit center for five yards, and the ball went over to Ocoee on their own eight yard line.

Howard punted from his goal line to Knight who was downed in his tracks on the Ocoee 33 yard line. McCluskey got a yard but Sanford was penalized five for being offside. Williams got a yard at left end. McCluskey got two at right end. Odham replaced Knight at right half. Odham fumbled a low pass, Hudson recovering for Ocoee on the Ocoee 40 yard line.

Howard hit right tackle for two yards. Ware stopped Kerr for one yard loss, and the quarter ended, score, Sanford 6, Ocoee 0.

Second Quarter

The ball was put into play on the Ocoee 47 yard line. Edwards hit right guard for four yards and a first down. Salisbury got six yards off right tackle. Kerr got a yard at center, and Edwards made another first down with four yards at center, the ball then being on the Sanford 39 yard line.

Howard hit center for two yards. Howard fumbled, but Salisbury recovered for a four yard gain. Kerr was stopped, no gain at right end. Howard punted 25 yards to the Sanford 16 yard line, where McCluskey punted from his 24 yard line, where he recovered Howard's fumble.

Howard recovered, no gain at right end. Odham punted 25 yards to the Sanford 16 yard line, where McCluskey punted from his 24 yard line, where he recovered Howard's fumble.

Odham was stopped for no gain at center. McCluskey fumbled at center, and Hudson, Ocoee, recovered on the 45 yard line.

Kerr got two yards at right guard. Salisbury one, same place. Rollins 4 1/2 at center, and the ball was on the Sanford 40 yard line.

Howard punted to Knight on the 20 yard line. Knight fumbled but Hester recovered for Sanford on the 26 yard line. Vincent went around right end for nine yards. McCluskey 10 in Kennedy, Kanner, Dighton, Yancey, Varner, and Young, a brand new line, most of them third stringers. Vincent got five yards at right end, but fumbled, and Howard recovered for Ocoee on Sanford's 43 yard line.

Rollins got three at right end, and seven more, to make it a first down on the Sanford 33 yard line. Salisbury got three off right tackle. A pass, Rollins to Salisbury was incomplete. Howard was stopped at center by Varner. Howard punted over the goal line, but both teams were offside. On his next punt, the ball went out of bounds on the Sanford 16-yard line.

Vincent punted from his 6 yard line to midfield where Salisbury fumbled, the ball being recovered by Yancey on the Sanford 47-yard line. Odham lost five yards at left end, Garlington chasing him out of bounds. Vincent picked up six yards off left tackle, and four more at right end. Vincent punted to Garlington on the Ocoee 33 yard line and the half ended, Sanford 6, Ocoee 0.

Third Quarter

The Sanford first team with the exception of Stanley and Usher Kanner, started this quarter. Preston and Smith at ends, Ware and Riser at tackles, Brannan and Harrison at guards, Higgins at center, Courier at quarter, Isles and Hester, as halves, and Entminger at full.

Howard punted weakly to Higgins who caught the ball on the Sanford 40 yard line and returned it to the 49 yard marker. Entminger hit center for two yards. Lyles got one yard at left guard, Garlington stopping him. A pass, Lyles to Hester, was incomplete. Lyles punted 38 yards to Howard who was dropped on the 17 yard line by Smith and Harrison.

Howard punted 25 yards to Salisbury who fumbled, Entminger recovering for Sanford. Lyles fumbled a low pass and Hudson recovered for Ocoee on their own 40 yard line. Howard punted 25 yards to midfield where the ball was downed on the 50 yard line.

Hester failed at center, got six yards off right guard, six off right tackle, for a first down. The drive was under way. Hester got eight yards at right tackle. Entminger making a first down with 5 yards off left guard. Entminger hit center for six yards, and Hester got four at right guard, for the third straight first down. Entminger ran through the line for nine yards, and then scored a touchdown with a six yard dash off right tackle. A pass, Lyles to Hester, was good, and the score was Sanford 13, Ocoee 0.

Ware punted 35 yards to Edwards who returned it 10 to the 35-yard line. Howard was stopped, no gain, at center. Salisbury slipped through the line for 15 yards, putting the ball on the 50-yard line. Edwards fumbled and Smith recovered on the 50-yard line.

Lyles went off right guard for 32 yards, the first down on another touchdown drive. On a similar play, he got 18 yards, and a touchdown. A pass, Lyles to Hester, was incomplete and the score was Sanford 19, Ocoee 0.

Ware kicked off 30 yards to Garlington who returned the ball 15 yards to the Ocoee 45 yard line. On a fake lateral pass, Howard lost three yards at left end. Rollins was stopped, no gain, at center. A pass Edwards to Salisbury was incomplete. Howard punted from his 30 yard line, the ball being blocked, but recovered by Rollins on the 35 yard line.

McLuskey sent in Vincent, Odham, McCluskey, Knight, Hester, Sharon, Riser, Coleman, and Higgins at this point. Rollins fumbled, Sanford recovering on the 24 yard line. Vincent was stopped, no gain at right end. Vincent got 2 at right end. Edwards stopping him. McCluskey went off left tackle for 10 yards putting the ball on the Ocoee 20 yard line.

McLuskey failed to make a gain at center. Vincent got 3 at right end. Odham punted 25 yards to the Sanford 16 yard line, where he recovered Howard's fumble.

Sanford Girls Lose 22-2 Game To Orlandoans

ended. Score, Sanford 19, Ocoee 0.

Fourth Quarter

Vincent got seven yards off right guard, and five more in the same place. Sanford was penalized on that play, 15 yards for illegal use of the hands on offense. Brown again being the offender. Odham got five yards at center, and it was fourth down, 11 to go. Vincent punted 23 yards, the ball being downed on the Ocoee 27 yard line.

Salisbury fumbled, and recovered for no gain. Rollins went around right end for eight yards. Howard was stopped, no gain at center. Salisbury sneaked through center for two yards and a first down. A pass, Howard to Rollins, was incomplete. Edwards failed at right guard. A pass Howard to Edwards gained nine yards. Edwards was stopped for no gain at center, and the ball went over to Sanford on the Ocoee 18 yard line. Stanley and Courier came in for Sanford.

Vincent swept around right end for 12 yards. He got seven more at left guard, and McCluskey made it a first down with five yards off right guard. Odham got nine yards in two tries at center, and McCluskey made it another first down with three at center. The ball was on the 12 yard line. Odham hit center for 4. Vincent went off left guard for 1, and Odham lost six yards at left end. Courier threw an 8 yard pass for a touchdown, throwing another for the extra point, and the score was Sanford 25, Ocoee 0.

Sharon punted 20 yards to Jernigan who downed the ball on his own 42 yard line. Williams and Brown replaced Odham and Vincent for Sanford. Salisbury failed at center. A pass, Kerr to Brown on the Ocoee 41 yard line. Brown hit right tackle for four yards. Brown fumbled for a 10 yard loss. Waits and Bennett came in for Williams and Coleman.

A pass, Courier to Brown, was incomplete at left end. Courier punted 21 yards to Howard who fumbled. Hudson recovered for Ocoee on their own 25 yard line.

A pass, Kerr to Lord was no good. A pass, Kerr to Hudson, was intercepted by Courier on the Ocoee 46 yard line. Waits hit center for a yard as the game ended. Score, Sanford 26, Ocoee 0.

The Starting Line-ups:

Sanford	Pos	Ocoee
Tillis	re	Lord
Riser	rt	Garlington
Coleman	rg	Hudson
Higgins	e	Jernigan
Diggers	lg	Brown
Sharon	q	Flawellyn

Sanford Girls To Be Assessed 13 1/2 Mills In 1932

Locals Unable To Get Hits Off Ace Hurler Of Blackwood Nine

By E. H. CULLUM

The Blackwood Cleaners diamond ball team of Orlando certainly got revenge last night for the seven former defeats handed them by the Sanford girls by trouncing the Piggly-Wiggly girls team by the top heavy score of 22 to 2 in a nine-inning affair.

Dot Powell pitched the first six innings for the Piggly-Wiggly team and got by the first three innings, causing the first three batters to face her to ground out. However, the Orlando girls started on her in the second inning what they did to her offense was a shame. On the other hand, Dot was very liberal with free passes to first base, walking seven, every walk was good for a score. Jewel Minchew went into the box and pitched the 7th and 8th innings, and although she only allowed two hits, she walked 4, and six runs came over in these two frames. Dot Powell went back into the box in the final inning and held Orlando to one run in this inning.

Connie Taylor was in the box for the Orlando team and held the locals to five hits, good for two runs. In addition to good pitching, the entire Orlando team played a good game in the field. In fact they put up a much better exhibition than they have ever put up heretofore. There were several new faces in their lineup last night which has materially strengthened their team, and from the manner they played last night they could give any girl team in the state a run for their money.

Mayo was the batting star for Orlando, getting four hits out of six trips to the plate.

For Sanford Sallie Raburn was the only player who was able to connect for more than one hit, Sallie getting two out of four times up.

Abbot was the fielding star for the Piggly-Wiggly outfit, getting everything that came anywhere within reach. In the fourth inning she made a sensational catch of a line drive off the bat of Miss Weiseger. Incidentally, it might be mentioned that at least six runs made by Orlando was the direct result of the crowd overflowing short right field, preventing Miss Abbot to reach the ball, or to get to the ball in time to retire the runners.

While the Sanford girls suffered a heavy defeat, it must be remembered that this team is made up of the younger girls, and while they made a creditable showing on the defensive, handling their positions extremely well in the field, they were clearly outclassed last night by a much more experienced team.

In passing, it might be mentioned that the Company D men, who went to DeLand last night to engage the St. Johns River Transportation Company team of that city in a game, were sent back home on the short end of a 24 to 3 score.

On Monday night Dick Alden's Bear Cat's boys team will play The Florida Light & Power team. On Tuesday night Chase and Company D hook up.

Deland Citizens To Be Assessed 13 1/2 Mills In 1932

New Figure Is Slightly Higher Than In 1931; 3.6 Mills For Bonds

DELAND, Oct. 17.—Ordinance setting the tax levy for city taxes at 13 1/2 mills was passed unanimously by DeLand city commissioners at their bi-monthly session last night at City hall. The measure provided 8.7 mills for general government; 3.6 mills for long and interest; .5 mills for public and .4 mills for hospital.

The millage is expected to meet a budget of \$243,292, divided among the various departments of the city government as follows: debt service, \$66,140; general government, \$24,138; department of finance, \$3,000; department of public works, \$48,415; department of safety, \$29,715; water department, \$18,125; parks and playgrounds, \$19,879; library, \$6,850; hospital, \$6,000; publicity, \$13,970. An emergency sum of \$1000 for the hospital is also included in the estimate. Of this amount, \$197,292 is to be raised by taxation, anticipated revenues being \$56,000.

Last year's assessment was 12 mills, the new millage showing an increase of 14. When the budget was adopted, it was believed that the levy would be 15 mills, but the lower millage was made possible through a refunding plan, report of which was presented last night by Mayor Earl W. Brown and City Auditor Grant Bly.

They stated that successful arrangements had been made with Branch-Middlekoff and Brown-Crummer, the two bond houses holding the issue of \$260,000 improvement bonds of the city, which issue has already been reduced to half the original amount. Agreement was made with these firms whereby the \$26,000 bonds maturing in 1932 and 1933 should be extended for five years, thus maturing in 1937 and 1938, at the present rate of interest, other bonds of the same issue maturing in 1934, 1935 and 1936 retaining their original maturity dates.

PINEHURST, N. C.—Left to right: Miss Marjorie Malley of Corning, N. Y.; Miss Mary Louise Ackley of Rahway, N. J., and Miss Frances Johnstone of Pittsburgh, Pa., at the annual horse show here.

Mother Kills Cat And Her Four Children

WILMINGTON, Del., Oct. 17.—(A.P.)—A 35-year-old mother shot and killed her four children and then committed suicide at their home in Newark, near here, last night.

The dead: Mrs. Russell Ward and her children, Arlene, 11; Audrey, 9; Edith, 7; and Richard, 5.

Authorities believe financial troubles for the family. The mother, who had told friends she was so worried she couldn't think, went to the village school to get her children and told them they were "going away."

The citrus packing houses located in the Titusville area are in a hurry to get the season's crop of fruit off. A small crew of men at each plant making necessary repairs to equipment, and otherwise preparing for the opening of the busy season. —Titusville Star.

Put the House Cat Out and Wind Up the Old Alarm Clock

MONDAY NIGHT, October 19th, the House Cat will be put out just a little earlier than customary... and the Alarm Clock will be wound just a little tighter than usual—

—IN PREPARATION for a bright and EARLY departure for the START of the 37th Anniversary Sale of the Yowell-Drew Co., Orlando.

—ASTUTE YOWELL-DREW BUYERS have scoured the marts of the world for the best merchandise of the Yowell-Drew quality and standard... and style rightness... to be sold at delightfully downish prices.

—ALWAYS an epochal day in Orlando... this year more Historical than ever because of the outstanding BARGAINS which dear old depression has made possible.

—AT LEAST for the duration of this great value festival Central Florida will again have "Happy Days"... and some prophets there be who say that 9 A. M. October 19th will mark the downfall of old-down-in-the-mouth days that Central Floridians have been passing through.

Social Calendar

MONDAY

The Business Women's Circle of the First Baptist Church, Mrs. F. W. Little, chairman, will meet at 8 o'clock with Miss Aggie Jewers at her home on the Men's Brotherhood of the First Baptist Church will meet at 8:30 o'clock at the church.

TUESDAY

The G. I. A. will meet at 7:20 o'clock at the Elks Hall. The Co-ed Class of the First Methodist Church will have its regular meeting at 8 o'clock at the home of Mrs. Norma Fotts, 605 S. Maple Avenue, with Mrs. Fotts as hostess.

The synodical representing the women's work of the Florida Synod of the First Presbyterian Church will begin a three day convention at 7:30 o'clock at the church with the Rev. J. A. McCall, of St. Petersburg, in charge.

The opening meeting of the department of the Women's Club will be held at 12:30 o'clock in the club rooms on Oak Avenue in the form of a "get-together" with Mrs. J. O. Huff and Mrs. Frank L. Woodruff as hostesses. Reservations must be made by Mrs. Arthur Branan by Monday morning at 10:00 o'clock.

Investigation Army Will Hold Revival Meets

A series of revival meetings, under the direction of Adjutant W. H. Brooks, will begin on Tuesday evening at 8:00 o'clock at the Salvation Army Hall. The meetings will be conducted in true camp meeting style and to form a suitable meeting the hall will be made to represent a camping ground. Special music and singing and many old fashioned gospel songs will be held for four evenings. A special invitation is extended to all to be present.

Max Johnson Honored at Dinner Friday

The members of the Agriculture Club of the county entertained a German dinner on Friday evening at the home of Fred Dornan on the East Side in honor of Max Johnson, head of the Agriculture Department of Seminole State School. The dinner was given in appreciation of the work Mr. Johnson has done to make the Agriculture Club a success. Practically all the members of the club were present at the dinner.

COCOA WILL GET CUPS

COCOA, Oct. 19.—The Cocoa team, Iudore Rubin, team manager, and Johnnie Culbertson, captain, will be presented with silver loving cups as champions of the Central Florida Baseball League, they having won the regular game from Daytona Beach on Thursday. Johnnie Culbertson is president of the team. This team is composed of local boys with few exceptions.

Why Buy New

When Old Will Do?

NATURALLY, your robe looks a little drab after the strenuous work-out you gave it, but a good cleaning will bring it back to par. A new robe would cost you \$10—we'll clean your old one new again for only a small fee.

Robert Hagan Married To Winter Park Girl

The following announcement taken from the Sunday Orlando Sentinel and Reporter: The marriage of Miss Virginia Joe Decker, of Orlando, and Winter Park, to Robert Lester Hagan, son of Mr. and Mrs. L. P. Hagan, of this city will be of interest to a wide circle of friends here.

"A charming and simply arranged wedding took place on Friday afternoon, when Miss Virginia Joe Decker, of Orlando and Winter Park, became the bride of Mr. Robert Lester Hagan, of Sanford, the ceremony being performed at the home of the bride's parents, Mr. and Mrs. Joseph H. Decker, in Winter Park. The Rev. Raymond T. Ingersoll officiated, in the presence of immediate members of the families.

"The bride wore a lovely white afternoon gown and carried a bouquet of sweetest roses and lilies of the valley. There were no attendants. She was given in marriage by her father.

"Mr. and Mrs. Hagan left soon after the ceremony for a short motor trip, the bride wearing a traveling ensemble of rust colored crepe, with hat and other accessories in brown.

"The bride came to Florida about five years ago from Illinois. She attended the University of Illinois, and later went to Southern College at Lakeland, Fla.

"Mr. Hagan attended the Georgia School of Technology and the University of Florida, and is a member of Delta Sigma Phi fraternity. He is the son of Mr. and Mrs. L. P. Hagan, of Sanford and has made his home in that city for a number of years.

"Mr. and Mrs. Hagan will be at home after the first of November at 1700 Park Ave., Sanford."

Christian Science Churches
"Doctrine of Atonement" was the subject of the Lesson-Sermon in all Churches of Christ, Scientist, on Sunday, October 18. The Golden Text was from John 1:29, "John seeth Jesus coming unto him, and saith, Behold the Lamb of God, which taketh away the sin of the world."

Among the citations which comprised the Lesson-Sermon was the following from the Bible: "God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life. For God sent his Son into the world to condemn the world; but that the world through him might be saved" (John 3:16, 17).

The Lesson-Sermon also included the following passages from the Christian Science textbook, "Science and Health with key to the Scriptures," by Mary Baker Eddy: "Jesus aided in reconciling man to God by giving man a truer sense of Love, the divine Principle of Jesus' teachings, and this truer sense of Love redeems man from the law of matter, sin, and death by the law of Spirit—the law of divine Love" (p. 19).

Mr. and Mrs. Joe Meisch had as their guests yesterday at their home on West Twenty-second Street, Mr. and Mrs. A. M. Bockoven and A. P. Smith, of Daytona Beach, and Mr. and Mrs. Fred Backoven, of Morristown, N. J.

Personals

Mr. and Mrs. Walter L. Cooper and Mr. and Mrs. Arthur Branan spent the week-end at Coronado Beach.

Miss Jane Torrance was the week-end guest of Miss Katherine Macdonald at her home in New Smyrna.

Warren Herbat and Harold Herbat, students at the University of Florida, were the week-end guests of their parents.

Mrs. Fred Zerenne has returned from New York where she has been visiting her mother and sister for the past three weeks.

Mrs. George Weinstein has as her guest at her home on South Sanford Avenue, her mother, Mrs. M. H. Birk, of Jacksonville.

Miss Gertrude Calhoun, of St. Augustine, was the week-end guest of Mr. and Mrs. John Schirard at their home on West Tenth Street.

Mrs. Frank Meisch and son Frank, Jr., and Mrs. Fred Brandt motored to Daytona Beach yesterday where they were the guests of friends.

Miss Flora Sieg, of Jacksonville, was the week-end guest of her uncle and aunt, Mr. and Mrs. David Spear, at their home in Floral Heights.

Miss Alice Flansburg left today for her home in Jacksonville after spending a week here with her sister, Mrs. W. B. Zachary, at her home on Magnolia Avenue.

John Schirard, Jr., of St. Augustine, returned there last night after visiting his parents, Mr. and Mrs. John Schirard, for several days at their home on west Tenth Street.

Mr. and Mrs. H. Lührman, of Secaucus, N. J., arrived today to spend 10 days here with the former's brother-in-law and sister, Mr. and Mrs. J. Zuffelide, at their home here.

Miss Mary Ives left Saturday night for her home in Orlando after spending several weeks here with her sister and brother-in-law, Mr. and Mrs. Linton E. Allen, at their home in Rose Court.

Miss Thelma Tew and Miss Beale Van Idenstein have returned to the Florida State College for Women at Tallahassee after spending the week-end here with Mr. and Mrs. L. E. Tew. They also attended the Baptist Students Convention held in Deland.

Mrs. Bessie C. Wheeler, Dorothy Mitchell, Katherine Thigpen, Virginia McRory, Marian Estridge, and Karin and Louise Wheeler motored to St. Augustine yesterday where they spent the day with Constance and Lillian Meisch who are students at St. Joseph's Academy.

Mrs. Stinecipher Has Party For Her Club

Yellow cosmos and marigolds were used to adorn the rooms of the home of Mrs. J. M. Stinecipher in Pinehurst, when she entertained the members of the "B" Club and a number of other friends with a bridge party on Friday evening. The tallies and other party appointments bore Halloween motifs.

After several progressions of bridge high score prize for the club members, a box of candy, went to Mrs. J. E. Courier, while low score prize a novelty pitcher, was presented to Mrs. B. C. Moore, Mrs. Clara Stemper received a jar of bath salts for having high score among the visitors and Mrs. Wallace Garverick was given a lacquer powder as for having low score.

At a late hour refreshments were served by the hostess, assisted by Mrs. H. E. Morris. Those present were: Mrs. Pearl Babbitt, Mrs. Sylvia Routh, Mrs. Harry F. Kent, Mrs. B. F. Moore, Mrs. E. C. Harper, Mrs. W. W. C. Smith, Mrs. Clara Stemper and guest, Mrs. Wallace Garverick, of Mineola, L. I. Mrs. J. E. Courier, Mrs. Charles Butler, Mrs. H. E. Morris and Miss Laura Chittenden.

Mrs. George Weinstein and mother, Mrs. M. H. Birk, of Jacksonville, and Mrs. Fred Brandt motored to Orlando yesterday for the afternoon.

Mr. and Mrs. H. Roby Laing and Tampa, B. B. Baggett motored to Tampa where they spent the week-end with Mr. Laing's father, Dr. S. W. Walker.

Horace Moore had as his guest at his home, 606 Palmetto Avenue, for the week-end, Grady Gallant, of Orlando, formerly of this city.

A TIN CAN

By JOHN PILGRIM.

A friend of mine who is a captain in the Marines has just returned from four years in Haiti. He told me that free natives (my prisoners in jail) there. The reason? The prisoners are given cans by the Government—cans they can hold their food in, cans they drink out of, cans they can heat their soup in. Outside, on the island, the natives manufacture nothing. The cut gourds for their food and they sleep on the sand. They kill birds and fish, and eat fruit which they pluck. They have the blue sky overhead, and the beauty of the rolling sea on the beach, the flowers and the songs of the birds, and freedom. Yet they envy those who have been lucky enough to be sent to jail. For the prisoners are given tin cans.

Many of them have never seen tin cans. To them tin cans are a wondrous accessory as the electric light, the telephone, the airplane to us. Our fathers wondered at the first electric light bulb. They gazed in awe at the first trolley car. In Haiti, the natives are contented with longing for a tin can such as a kindergarten's supper comes in in America.

We are civilized and the natives in Haiti are savages. But their emotional actions are often the same as ours. Others have tin cans; they do not. They want what they do not have. The man who drives a cheap automobile here longs for an imported car that will do ninety miles an hour. A woman dressed in cotton wants a satin gown. And so it goes.

Some day all the natives of Haiti will have tin cans. If they want them badly enough, they will think out a way to get them. Even now they are willing to plead

W.C.T.U. Meeting Held At Rose Court Home

Following its business session at the regular meeting of the W. C. T. U. on Friday afternoon at the home of Dr. Elizabeth Tracy, Rose Court, a round table discussion in regard to public opinion on prohibition was held. Mrs. W. I. H. Gray and Mrs. Beatrice Robb were elected as delegates for the state convention to be held soon at Palatka.

Late in the afternoon a social hour was enjoyed when refreshments were served by the hostess, assisted by Mrs. M. C. Moulle. Those present were: Mrs. C. H. Winn, Mrs. John D. Abraham, Mrs. T. E. Thompson, Mrs. J. Y. McClelland, Mrs. Mary S. Senn, Mrs. John G. Leonard, Mrs. C. Heitz, Mrs. W. I. Hughey, Mrs. J. N. Standifer, Mrs. Harriet Thompson, Mrs. Beatrice Robb, Mrs. F. R. Mitchell, Mrs. M. C. Moulle and Dr. Elizabeth Tracy.

ENDEAVORS MEET

With Doris Walker as the leader and "India" as the subject for the evening, the Junior Christian Endeavor Society of the First Presbyterian Church held its regular meeting on Sunday evening at 7:30 o'clock at the church. A number of members of the society gave interesting talks about India, its customs and religions. A special musical number was rendered by the choir.

guilty to crimes, to be jailed by get tin cans. They will get them if they try hard enough. What do you want? Whatever it is, do you want it as badly as the simple inhabitants of Haiti want tin cans? Then do as they will eventually do.

PITTSBURGH BANK FAILS

Bothered with Backache?

It May Warn of Disordered Kidney Function.

A nagging backache, with bladder irritations and a tired, nervous, depressed feeling may warn of disordered kidney function. Thousands recommend Doan's Pills in these conditions. Praised for more than 50 years by grateful users the country over. Sold by dealers everywhere.

HELLO FOLKS - - - BACK IN TOWN WITH A FRESH CAR OF FANCY YORK APPLES IMPERIAL SPECIAL OFFER \$1.00 PER BUSHEL A. C. L. DRAY TRACK FIRST AND OAK

Are they as good as when the ruffles came down to the ankles?

GOOD? . . . You bet they are! Maybe the girls are even better. Anyhow, cigarettes are a whole lot better. No doubt about that.

- They used to be made by hand—
Now it's machines, no hand but yours ever touches them.
- They used to be packed in expensive, high-alutin cardboard boxes—
Now the quality is in the cigarettes.
- The U. S. Revenue Tax used to be a penny a package of twenty—
Now it's six cents a package of twenty.
- Tobacco used to be dried by air—
Now Liggett & Myers alone has thirty-five drying machines of the latest type, with a daily capacity of over 2,000,000 pounds—and over four miles of ware-houses for tobacco storage.

BETTER—they're miles better! Everything used in the manufacture of Chesterfield cigarettes is the best that money can buy or that Science knows about.

CHESTERFIELD TOBACCO—both Turkish and Domestic—are mild and ripe, the best that money can buy.

AND THE WAY Chesterfield tobaccos are blended and cross-blended is like making a new and better-tasting kind of tobacco, with greater smoothness, more mildness and a more pleasing aroma—a fragrance and flavor not to be found in any other cigarette.

CHESTERFIELD gives you the benefit of all the world knows about the production of better cigarettes. Nobody smokes a better cigarette than Chesterfield.

Hoover In Stirring Talk Urges People To Turn To Future

(Continued from Page One)
energy may step within our

While temporary dislocations
are some to us because of the
war, we must not forget
that our forefathers met similar
obstacles to progress time and
again and yet the nation has
went forward to ever increasing
strength. No American can
review this vast pageant of prog-
ress without confidence and faith,
without courage, strength, and
resolution for the future.

The chief executive asserts that
through Washington the war for
independence would not have been
won.

The campaign which led to its
final triumph here established his
military genius. He said, "It was
the crown of glory which placed
him among the great com-
manders of all time."

Hoover had described the
battle of Yorktown as one of the
world's greatest battles in the history
of the world, asserting that had it
been won the whole course of
history would have been altered.

The primary national conse-
quence of the independence we fi-
nally won here was the release of
our national mind from all ham-
pering restraints put upon us by
subjection to another nation and an older
civilization. Here America
became free to be America.

The president paid tribute to the
men of the struggling colonies
France, calling by name La-
fayette, Lafayette and Rocham-
beau. He spoke also of Marshall
Petain, who listened as he talked.
The president's address follows:

"Our guests and my fellow
countrymen:
No person here present, no
whispering child of the millions listen-
ing in on this occasion, needs re-
minder of the significance of the
battle of Yorktown. If we judge
by the standard of battles in
which the contrary result would
have essentially varied the whole
course of history, then it becomes
one of the very few decisive bat-
tles in the history of the world.

"Six years of war for independ-
ence has sorely exhausted the re-
sources, depleted the forces, and
sapped the support of that group
of men whose genius gave free-
dom to our country. With the in-
roads the mother country had
made in subjection of the northern
colonies, it is extremely doubtful
if the struggle for independence
could have succeeded had Wash-
ington lost at Yorktown. Certain-
ly the victory at Yorktown, and
independence was won.

"In military history, Yorktown
is distinguished as one of the great
battles in which land and sea
forces coordinated. The naval co-
operation was furnished by
France, herself also at war with
Great Britain. For that coopera-
tion we have held during the 150
years a grateful remembrance.

commanders of all time.
"It is not too much to say that
without Washington the war for
independence would not have been
won.

"Washington's greatness was
far more than a great general; it
lay in his soul and his character.
Of him, in sober, critical judg-
ment, a gifted modern historian,
James Truslow Adams, has writ-
ten:

"In the travail of war and rev-
olution, America had brought
forth a man to be ranked with the
greatest and noblest of any age
in all the world: There have been
no greater generals in the field
and statesmen in the cabinet in
our own and other nations. There
has been no greater character.
When we think of Washington, it
is not as military leader, nor as
executive or diplomat. We think
of the man who by sheer force of
character held a divided and dis-
organized country together until
victory was achieved, and who,
after peace was won, still held his
dismitted countrymen by their
love and respect and admiration
for himself until a nation was
welded into enduring strength and
unity."

"This national shrine stands for
more than a glorious battle. It is
a shrine which symbolizes things
of the spirit. The victory of York-
town was a victory for mankind.
It was another blaze in the great
trail of human freedom. Through
these ideas and ideals the minds of
a people were liberated, their ex-
ertions and accomplishments stim-
ulated.

"The primary national conse-
quence of the independence we fi-
nally won here was the release of
our national mind from all ham-
pering restraints put upon us by
subjection to another nation and an older
civilization. Here America
became free to be America.

"The unparalleled rise of Amer-
ica has not been the result of
riches in lands, forests, or mines;
it sprung from the ideas and
ideals which liberated minds and
stimulated the spirits of men. In
those ideas and ideals are the
souls of the people. No Ameri-
can can review this vast
pageant of progress without con-
fidence and faith, without courage,
strength, and resolution for the
future."

Capone Faces 17 Years In Prison If Judge Wills

(Continued from Page One)
years in the county jail.
The scar-faced gang chief was
charged with tax evasion in 1928
and 1929, as well as the three
previous years, but the defense
brought out during his trial that
he was in jail during most of 1929
and attempted to settle his in-
come tax liability for those years.

Capone received the verdict,
read in a tobacco smoke filled
court room shortly before mid-
night Saturday with a grin. Told
that he did not look as if he felt
badly, the gangster replied: "I'm
perfectly fine, but my feet hurt in
these new shoes, so I guess I'll go
home."

Assistant United States At-
torney Grossman, one of the prosecu-
tors in the case, at first objected
to the verdict on the grounds that
it might be "inconsistent" but af-
ter conferring with his colleagues
announced the verdict acceptable
to the government.

FORMER WAR LEADER NOW 85

Here is General von Kluck, commander of the German First Army during the World War, which came very near to Paris but was stopped at the battle of the Marne, photographed with his granddaughter, Meline von Kluck, German screen star, at his Berlin home as he celebrated his 85th birthday.

tradersmen, of Capone's lavish
and mysterious life, his expenditure of
\$2000 for a two-night banquet,
out of an automobile, \$40,000
for a winter home in Florida, \$135,
for custom-made suits by the half-
dozen, \$27 for shirts.

The government witnesses told
also of Capone receiving \$80,000
by telegraphic money orders from
Chicago while wintering in Flori-
da, and of his alleged connection
with a Cicero gambling house
which earned almost \$1,000,000 in
five years.

Capone's attorneys pictured Cap-
one as "just an ordinary citizen,
a person of generosity, and a man
who never failed a friend." Their
witnesses testified the gang leader
lost \$327,000 on horse race betting
in four years.

Even if he should escape prison
on the income tax charges, Capone
still is in serious trouble with the
federal courts. Another indictment
charges him with liquor conspiracy
and lists 5000 offenses. In addi-
tion, he is under a six months'
contempt of court sentence for
failure to answer promptly a sum-
mons to appear before a grand
jury investigating his affairs.

CARNEGIE'S NEPHEW WEDS

NEWPORT, R. I., Oct. 19.—
(A.P.)—Mrs. Blanche Streb-
leigh Sloan, widow of Julian Sloan and
daughter of Mrs. Jerome Napoleon
Bonaparte, and Thomas M. Car-
negie, Jr., of New York, were
married Saturday. Carnegie is a
grandson of the late Carter Curtis
Beggs of Pittsburgh and a grand
nephew of the late Andrew Car-
negie.

You folks "go straight." There
ain't no other way that pays—
William Harper just before being
hanged.

LEESBURG—Geiger's Depart-
ment Store installed men's cloth-
ing department.

Food Dollar Worth 18 Cents More Than In '30

WASHINGTON, Oct. 19.—
(A.P.)—You could buy 18 per-
cent more food for your money
at the corner grocery last month
than you could a year ago.

The reduction in retail food
prices was reported yesterday by
the labor department. It got its
information from 51 cities.

The figures showed, too, that
in September food prices dropped
more than one and one-half per-
cent as compared with August.
Some of the declines were:
Cabbage, 10 percent; potatoes, 9;
canned red salmon, 5; pork chops,
leg of lamb, flour, wheat cereal
and navy beans, 3; lard, canned
corn and oranges, 2; round steak,
rib roast, sliced bacon, sliced
lard substitute, macaroni, rice,
canned peas, canned tomatoes,
prunes and bananas, one percent.

BYRD ASSOCIATE WEDS

CHICAGO, Oct. 19.—(A.P.)—
Richard Gale Brophy, 29, who dis-
appeared before the Byrd South
Pole expedition of which he was to
have been second in command,
sailed south, was granted a divorce
of grounds of desertion yester-
day by Mrs. Fern Brophy. An hour
later he took out a license to wed
Anna M. Gregg, 30, a divorcee.

MIAMI, Oct. 19.—(A.P.)— Lloyd G. Bryan, 12, was killed yester- day as his bicycle collided with an automobile. Mrs. Ethel Wood Harrison, 36, was held pending an inquest but was released on her own recognizance.

IT LOOKS LIKE A FLYING FLIVVER

It looks like a sky-going flivver, but in reality it's an unusual sign contrived and erected by the owner of a garage and wrecking concern in a suburb of Atlanta, Georgia. The automobile is fixed securely in the top of a case just in front of the garage.

End Comes Peacefully With His Wife Near; Private Funeral To Be Held Wednesday

(Continued From Page One)
dent Hoover let it be known
he would attend the service if af-
fairs of state will permit his
absence from Washington. A per-
sonal acquaintance of Edison, once
he met with the inventor and the
latter's two cronies—Henry Ford
and Harvey Firestone—at the Ed-
ison winter home in Fort Myers,
Fla.

Thomas Alva Edison was born
at Milan, Ohio, Feb. 11, 1847, the
son of Samuel and Nancy Elliott
Edison. His ancestors emigrated
from Holland to the United States
in 1730. The family of the inven-
tor was noted especially on his
father's side, for longevity. His
great-grandfather, a prosperous
New York banker of Revolution-
ary times, lived to be 104 and
his grandfather 102. His father
was 94 when he died.

Commenting on that family
record when he was 70, Edison
said he was only middle aged and
"don't expect to lower the family
average."

Edison's mother, who was born
in New England, had been a
teacher in a Canadian high school
and from her he received most of
his early education. It has been
recorded that Edison spent not
more than two months altogether
in school. At the age of 12 he
had read a number of treatises on
scientific subjects as well as other
works such as Gibbon's "Decline
and Fall of the Roman Empire."

About that time he engaged in
a variety of business enterprises,
including newsboy on the Grand
Trunk railway between Port Huron
and Detroit, proprietor of a
newsstand and book store and of
a vegetable market and employing
11 boys to assist him in these
various activities. At 15 he turned
to journalism and with some old
equipment purchased from the De-
troit Free Press, set up his shop
in the baggage car of his train.
There he published the Grand
Trunk Herald, said to have been
the first newspaper published
aboard a train. This venture con-
tinued for nearly a year and was
suspended when he was de-
nied further use of the baggage
car.

to his natural bent for scientific
work. The increased knowledge of
the possibilities of electricity which
he has gained from telegraphy im-
pelled him to delve further into
its mysteries and into the work
which eventually made him famous
"world over."

In 1873, Mr. Edison married
Mary G. Stillwell, by whom he
had three children, Marion Es-
telle, Thomas A. Jr., and William
L. Mrs. Edison died in 1884 and
two years later the inventor mar-
ried Mina M. Miller. Three chil-
dren, Madeline, Charles and Theo-
dore, were born of this union.

The Extra Cough Help Extra In Power And Price

Creomulsion is a super-help for
coughs and colds. It is for deep
coughs where you dare not risk a
weak help. Seven major helps are
embodied in it, including the best
known to medical science.
The creosote is blended, emulsified
and palatable. It is to soothe the mem-
branes and combat the germs. It pre-
sents the world's best help for coughs
of this kind in a pleasant form.
There are white pine tar, wild
cherry bark, menthol, ipocast, etc. All
the greatest helps in one, but with
no narcotic. Despite all its power and
efficiency, it is harmless to a child.

ADVANTAGES OF CANAL PROJECT BY ISS. BACKERS

100-Mile Ocean-State Ditch Seen As Big Economic Necessity

A comprehensive word-picture of what advantages might accrue from the construction of a ship canal across North Florida is furnished by the economic study of the proposed project prepared by the engineering firm of Hills and Tomberg of Jacksonville.

The report estimates the cost of the waterway to be about \$200,000,000. It contemplates a canal 130 to 153 miles in length, with a bottom width of 300 feet and a channel of not less than 32 feet.

Based on 1929 figures for Gulf shipping tonnage, the report estimates that the canal would have effected a total saving of \$38,325,000 for that one year. Of this figure, \$18,877,500 was estimated as the saving on the actual waterborne movement which passed through the Straits of Florida.

Commerce statistics for the report were obtained from 129 United States ports and 494 foreign ports. The survey shows that in 1929 a total of 1844 ships entered the Gulf countries. They made 18,000 voyages, one way or another. Of that number 10,341 could have used the canal to an advantage.

The canal that year would have saved \$2,877,500,000 in miles the report shows.

SINO-JAPANESE SITUATION IS SAID IMPROVED

(Continued from Page One) participation in the council's efforts to settle the dispute between China and Japan.

The note insisted again on Japan's juridical objection to inviting a non-member of the league to take part in the discussions.

Chairman Briand, on behalf of the council, replied that when an American representative was invited to the council table it was purely a matter of procedure.

The Japanese protest declared the Tokyo government was unable to decide on the merits of the Manchurian controversy until Briand had replied to their objections.

It was explained privately that leaders here hoped for some sort of a rapprochement between the two parties to the Manchurian dispute and that Briand wished to explain to his colleagues in a secret session tomorrow a plan he has for assisting this presumed movement toward reconciliation.

Compared with the total savings expected from the canal the annual estimated charges of 10 to 11 million dollars is less than 25 percent of the total savings of around \$47,000,000 annually.

Two principal routes are considered for the course of the waterway, the report adds. The distance from the St. Johns River Bridge at Jacksonville to deep water in the Gulf by the way of the St. Johns, Santa Fe and St. Johns routes would be 130 miles and 137.7 miles by way of the Suwannee, Santa Fe and St. Johns River routes.

The general topography of the regions forbids the construction of the canal any farther north than the Suwannee and St. Johns River, the report says.

The Tokyo government wished to have Chairman Briand's opinion regarding its protest before deciding its attitude upon the central and paramount question of evacuation of troops from Manchuria.

The note concluded.

FRITZIE RITZIE

FORGETTING TO WORRY.

By JOHN PILGRIM

Us creatures of habit, we form habits that are not good for us. One of the most devastating habits we can form is worry.

Uncertainty breeds worry. Definite purpose in life is one of the greatest antidotes for worry.

Perhaps the job isn't going just right at the office. Instead of worrying because you can't try to use the needed amount of mental energy to make it right.

Once we have mastered worry we have added another world to our lives, a world in which fear, trembling and imagined forebodings of the spirit have no place whatsoever.

10 KILLED IN CHURCH FIGHT

MEXICO CITY, Oct. 19.—(A.P.)—A Pueblo dispatch to Excelsior last night said 10 persons, including Mayor Manuel Lopez, were killed in a fight at Tapacoyan, state of Vera Cruz, which followed desecration of a church there.

EXPORTS REPORTED

WASHINGTON, Oct. 19.—(A.P.)—A study of tariff and trade relations showing the Philippines in 22 years sent \$381,194,000 more in commodities to the United States than they took out was made public yesterday by the Tariff Commission.

EXPORTS REPORTED

WASHINGTON, Oct. 19.—(A.P.)—A study of tariff and trade relations showing the Philippines in 22 years sent \$381,194,000 more in commodities to the United States than they took out was made public yesterday by the Tariff Commission.

The survey, divided into six principal parts, deals successively with navigation and commerce that would be affected by the proposed waterway; rates and traffic, including distance and time savings; vessel operating costs, aggregate savings, commodity staples, and potential new trade and comparative advantages of barge and steamship transport.

In the study, the commodities that might be moved through the canal, commerce figures are supplied on 28 different products, including coal, petroleum, phosphate, pulp and paper products, lumber, cotton, flour, sugar and iron ores.

The value of Gulf cargoes, the report points out, is placed at \$2,000,000,000 a annually. The average saving in time of transit by way of the canal is placed at one day, and the savings in transport charges amount to \$333,000.

The canal would also effect an annual saving of not less than \$20,000,000 annually on cargo insurance premiums, and another \$200,000 would be saved on the loss of goods by evaporation.

Total estimated savings on all forms of marine insurance was put at \$18,000,000 annually.

The report points out further that the construction of the proposed canal would in the Florida Straits, as well as cut down the risk of sailing between given ports.

A comprehensive table of statistics shows that the time savings in round trip voyages between New York and New Orleans would be four days, between Seattle and Houston four days, and between Jacksonville and New Orleans five days. Three days would be saved between New Orleans and the English Channel.

Contrary to what is supposed popular belief, the canal would toll free, the study points out. Moreover it would be the river harbor act of 1908, which says that tolls cannot be levied on ships passing through any canal, lock or transit street that belongs to the United States.

In concluding the study, the report says it has estimated a vessel speed of about eight miles an hour through the canal. These estimates are based on the fact that the canal would be 300 feet deep.
