Weekly edition per year \$2.00

The Sanford Herald's pioneer newspaper subscription to the International News Service, receiving from this superior news organization twenty thousand words daily covering all the leading events of the entire world. The I. N. S. is especially efficient in Florida and its manner of handling state news is without equal.

The Herald is a member of the Audit Bureau of Circulations, an International Association of Publishers, Advertisers, and Advertising Agents which requires each publisher to submit to a thorough audit of subscription lists in order to verify absolutely all claims of circulation as well as honest business methods.

THURSDAY AUGUST 25 1927.

## THE HERALD'S PROGRAM

1. Economy in city and county administration.
2. Deeper water route to Jacksonville.
3. Construction of St. Johns Indian River Canal.
4. Inauguration of monthly "Pay-day Week."
5. Augmenting of building program—houses, hotels, apartment houses.
6. A community chest.
7. Completion of city beautification program.
8. A new and modern hospital.

## BIBLE VERSE FOR TODAY

**GOD'S FAVORITES:**—He that dwelleth in the secret place of the Most High shall abide under the wings of the Almighty. Psalm 91:1.

**PRAYER:** Lord, we are grateful for Thy promise: with long life satisfy us, and show us Thy salvation.

## MAYBE

By Mildred Bowers  
Do you think the same god  
Who made our elm tree  
And the still, cool fern,  
Had a hand in me?

Maybe a god made heaven,  
Elms, and ferns—and you;  
But I, and the rest of creation,  
Helter-skelter grew.

Bobby Jones seems to be on his way again.

Nothing like Herrin, Illinois, in today's election.

The only trouble with Bobby Jones yesterday was he couldn't sink his brassie shots.

It's hard to say who won, Lita Chaplin who got \$825,000 or Charlie who was divorced.

Jeff Bailey of the Lake Region has got the gout. We hope he will soon be back in form again.

The moral of the drowned colored boy is "don't go near the water until you learn how to swim."

The weather-man's hurricane didn't even come close enough to blow the dust off our front fenders.

Judge Gary's will has been filed and the steel magnate doesn't appear to have been worth as much as many Florida folks during the boom.

Now that we haven't any more elections to look forward to, how about staging a baby show just to keep the summer from getting monotonous.

When you hear a fellow say that "he's got all the dope and knows what he's talking about," you can begin to discount what he says by about ninety per cent.

Sarasota's Tarpons are not in the class of the Sanford Celeryfeds. They'd defeat the Burkemans none out of ten games. Our boys just can't hit. Sarasota Times. Now you're talking.

Newspaper reporters who went back into Nickajack Cave with Lawrence Ashley said there was no hoax about it. We recommend to "gubbing Thomases" that they also make a tour of inspection.

Yesterday was gasless day in Wichita, where people are going without gas as a protest, in the Chinese fashion, against the hike of rates. It is a more popular boycott in summer than winter anyhow.—Topeka Capital.

According to the Sanford Herald "Engineers Offer Solution to City Problems Here." Noticing that the engineers name is Haggard, we wonder if he got that way figuring the solution to Sanford's problems?—Tampa Times.

Billy Mitchell says Captain Erwin, who is among those lost in the Pacific, is "America's outstanding aviation hero of the World War." America would miss his services in another war.

One trouble with being a child king is that you have to get a larger size crown every year.—New York Herald Tribune. Yes, and a child king's head is apt to get bigger than the average kid's.

There are two kinds of people in this world: Those who believe Sacco and Vanzetti had a fair trial, and those who believe they didn't. The latter are those who believe the Italian did not have a fair trial, and those who didn't care whether they were not.

## An Election Well Done

In today's election Sanford is no less fortunate in one respect than another. To hold an election for the purpose of filling an office of such responsibility as city commissioner without the detrimental, sometimes disastrous, effects of a broiling political campaign is in itself of vital consequence to the City. To fill this office with one of Mr. Hill's recognized character and ability is equally to its advantage.

The unfortunate aspects of a race between two rival candidates at this particular time are readily admitted on all sides. Coming so close upon the heels of the last campaign when life long friends almost came to blows over differences in opinion, another battle might have seen the breach widened beyond all hope of repair. That all factions were able to agree upon so important a matter, is indicative of the praiseworthy get-together spirit of Sanford people.

That this agreement settled upon Mr. Hill should not only be accepted as a compliment to him, but also should show beyond all questions of doubt and confidence and esteem with which he is held. Mr. Hill is a man ably qualified to serve Sanford as commissioner. His long residence in this City should give him a deeper insight into its needs than the average citizen enjoys. His character and training also ably fit him for the post.

The Herald congratulates Mr. Hill upon his election and wishes him every success in his new office.

## Floridans To Attempt Ocean Flight

Flights and proposed flights across the Atlantic have become so numerous we Americans have lost some interest in them. The trans-ocean hop has been achieved three times and the prospects are that the trick will be turned half a dozen times more in the next few weeks. Were it not for the fact that one of the projected flights involves two Floridians, we of this state would not be interested except in a passing way. As it is we will follow with some pride plans of George Haldeman and Miss Ruth Elders of Lakeland, for a flight across the Atlantic within the near future.

Haldeman and Miss Elders only recently made known their intentions. They are now in Detroit to obtain the machine with which they hope to cross the ocean. Several weeks of flights will follow and then they will take off from New York with some point in Europe as their goal. The flight will attract even more interest of Floridians because of the fact that the two fliers plan to conduct most of their tests on their home field at Lakeland.

George Haldeman is well known all over this state as well as in many other states. He was in the World War and served in the air corps with distinction. Since the war he has been a stunt flier and associated in several commercial ventures. Despite his dare-deviltry, Haldeman is known as an extremely skillful and reliable pilot. He has many honors to his credit and has experienced some long distance flying, one of his trips taking him around the rim of the United States.

While her flying experience has not been as extensive and varied as that of her companion, Miss Elders is a capable aviatrix. She will serve as pilot of the machine and Haldeman will be the navigator. Although two other women fliers are making preparations for the flight, there is a possibility that Miss Elders may be the first to leave and if the attempt is successful hers will be a signal honor.

The Herald wishes Miss Elders and Haldeman every success. The latter has many friends in Sanford who will bid him and his companion God speed when they take off on the perilous flight.

The Old Home town paper is the last link that binds you to the home of childhood. And when you are 50 the only thing in it to interest you is the obituary column. There you find the names with which you are familiar, and there only do you find them. It always makes us feel sad when our home town paper comes to us each week. We always pause and stare into vacancy a bit before we tear off the wrapper. We wonder who has felt the icy touch of death in the meantime, upon whose coffin the clouds have fallen during the past seven days. In a moment we jerk the paper open, read the obituary column, memory all the while holding full sway in our thoughts. And then we toss the paper into the waste basket and take up life's work once more.—Tampa Tribune.

## A GEORGIA FLOGGER SENTENCED

TAMPA TRIBUNE

Another Georgia court has come forward with a good record of performance in a flogging case. Raymond Lee, convicted of participation in the recent beating of Editor Flanders of the Soperton News, has been sentenced to three to five years. Editor Flanders positively identified Lee as one of the men who stepped his car on a lonely road, knocked him unconscious and beat him severely. We'll teach you what to print in that paper of yours," said one of the assailants thus showing that the reason for

## RUTH BRYAN OWEN

MIAMI RIVIERA

Each week The Riviera receives several marked copies of newspapers published throughout the West where Ruth Bryan Owen, of Coral Gables, has appeared on the Chautauqua circuit. The publicity and advertising that Mrs. Owen is giving all Florida is priceless because the same amount of space could not be purchased at any cost. Last week a daily newspaper in Cairo, Ill., gave two full columns on the front page to Mrs. Owen. The day before a marked copy from Frankfort, Ky., the capital of the Blue Grass state shows the same amount of space in the same desirable position.

Ruth Bryan Owen, gifted daughter of a distinguished father, is a real Florida booster and the sincere words of such reputable persons are bringing Florida back into the favorable light it nearly cost during the boom.

Mrs. Owen was a candidate to represent the Fourth district of Florida in Congress and she was defeated by a very small vote at the election one year ago. Ever since that time many of her friends have encouraged her to run again in the primary election which will be held in June, 1928. But recently more and more citizens of this district are realizing what a prominent national figure our own Ruth Bryan Owen is and the reception

## As Brisbane Sees It

Britain Keeps The Store.

Hard on the Mice.

Meeting Standard Oil.

Armour and Gary.

BY ARTHUR BRISBANE

Copyright 1927 by Star Co.

KING FUAD of Egypt has arrived in Paris. You may see him. He runs Egypt as much as the wooden Indian ran the cigar store. Britain keeps the store.

PARIS TODAY TALKS Sacco-Vanzetti more desperately than ever following the execution.

"THE TWO INNOCENTS" is the usual description of the men. Many, including the Americans of the conservative kind, not convinced that communism is proof of innocence, feel that seven years is a long time for the cat to play with the mouse. Even a guilty mouse would suffer enough in that time.

YOUNG RACE HORSES auctioned at Deauville for high prices have been bought by Americans. Mortimer Schiff paid 82,000 francs yesterday for Ida, a yearling filly, and is expected to start racing here. William Littauer, who used to jump horses over fences with the Wadsworth hounds, bought a dozen young thoroughbreds. Pessimists fear Americans will spend their incomes in Europe, safe from prohibition, as Irish landlords spent theirs in London safe from tenants behind hedges. Americans stand the strain, and some European war money must come back to Europe, somehow.

FINANCIAL PAGES published in Paris by modern Horace Greelys are reassuring.

"Columbia leading platinum producing country, sends all its platinum to America."

"In the first six months of this year America floated one thousand millions in new securities."

"British oil companies rage because one orchard Standard Oil gobbles Russian oil, while another branch tells Britain it is really too bad."

SIR HENRI DETERDING, British oil king, usually verbose, has been saying little since Standard Oil began demonstrating American methods to him. He is not the first to lose audacity after meeting Standard Oil.

AMERICAN BUSINESS men discuss the death of Armour and Gary, and wagging their heads, philosophize.

A few years ago Armour, inheriting a gigantic business, had everything, Gary, a small Chicago lawyer had nothing.

Armour lost his great machine and fortune. Gary built and ruled when past 80 years of age, the world's greatest industrial machine, and left a great fortune.

MEN SPECULATE ABOUT the size of Armour's estate. They need not. He said to this writer in Chicago not long ago, "Look out for some of those big fellows. They took fifty millions away from me on my way to the cleaners before I knew where I was." He did not name the big fellows.

Armour made mistakes, but he was a builder and a good friend, and those big fellows might have cleaned him less thoroughly. The meanest boy leaves an egg or two in the nest to encourage the bird.

CALIFORNIANS AND Floridians visiting France will not see from Calais to Marseilles, one single real estate subdivision or any appeal to buy a lot here for the kiddies' sake. But Fred Brown, of New York, or Toplitzky, of Los Angeles, could make fortunes buying Paris real estate. Especially in the Champs Elysees above the Rond point.

SEE AMERICA FIRST, then see France. There is an education in a walk about the Invalides where Napoleon lies beyond the reach of the evil fortune, and another under the tall roof of Notre Dame. And there is inspiration in the courageous intelligent faces of the French people. Travel, and when you move to another world be able to tell the inhabitants that you saw this world before you left it.

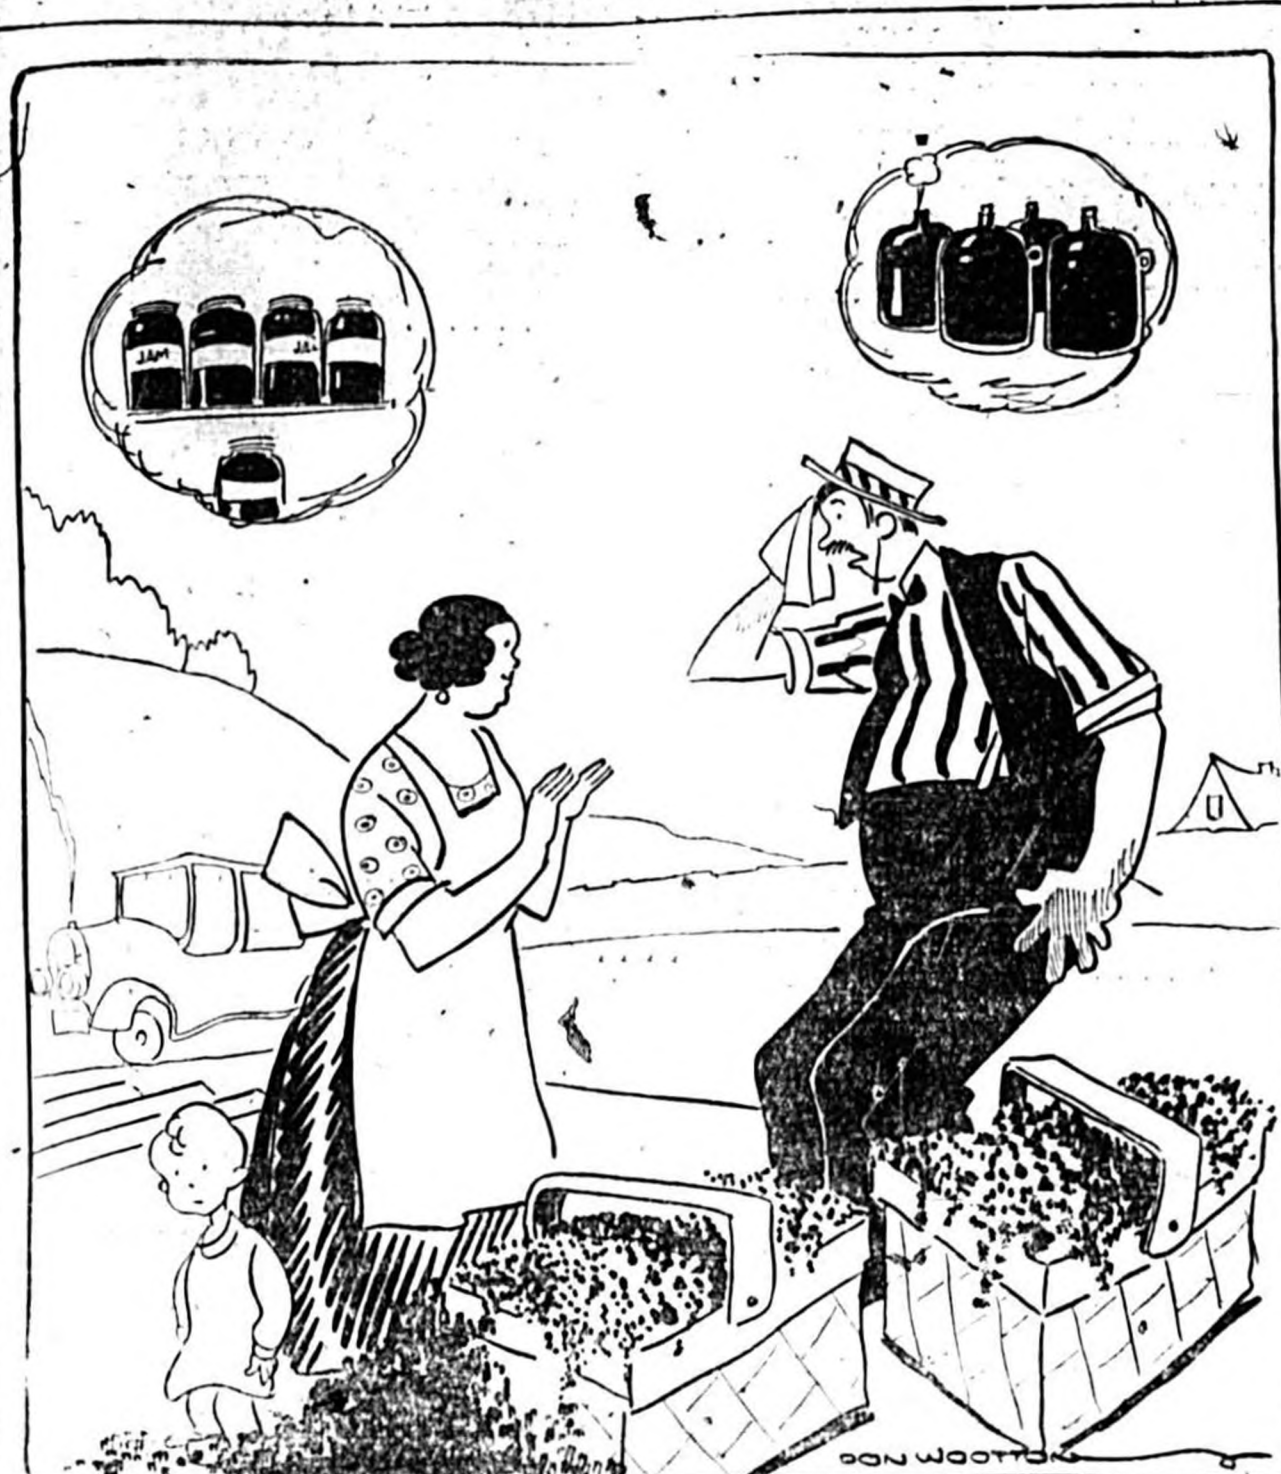

SENATOR WALSH, OF Massachusetts, when congress meets will introduce a bill to provide "a West Point of the air" a United States aviation academy, to take an equal rank with West Point and Annapolis. An excellent suggestion and "equal rank" is none too high, for in case of war the fliers would have to protect the obsolete warships and slow crawling army.

West Point and Annapolis should be changed to flying academies, and the sooner the better.

How enjoyable your present job would be as a hobby if you made your living in some other way.—Buffalo News.

ness to have Ruth Bryan Owen serve as our representative in Congress. It is unfortunate that Mrs. Owen has to go outside of her home town in order for us to find out what an important personage she is in politics. But, now that we have found out what the rest of the country thinks of this estimable woman, let's play a little shrewd business and commercialize on her prominence and popularity. Let's make Ruth Bryan Owen carry this district of Florida with her in her rise to deserved political fame.

### First Baptist Church Circle Holds Enjoyable Meeting Wednesday

Members of the Jenny Spaulding Circle of the First Baptist Church met Wednesday afternoon at the home of Mrs. Barney Beck in Franklin Terrace.

A short devotional exercise led by Mrs. S. J. Kelly preceded the Bible study class, which was under the leadership of Mrs. Barney Beck.

A delightful program followed the study class which included piano selections by Miss Pauline Stoumenire, Miss Minnie Beck and Mrs. E. M. Carroll. Readings by Miss Bright Laney and Miss Nannie Brown Kelly were also greatly enjoyed. Late in the afternoon the hostess served light refreshments.

Those attending were Miss Nellie Touchette, Mrs. Stoumenire, Mrs. A. J. Kelly, Mrs. E. M. Carroll, Mrs. A. B. Lovejoy, Mrs. Caulder, Mrs. J. A. Cunningham, Mrs. J. A. Strang, Mrs. John D. Abrahams, Mrs. J. D. Cochran, Mrs. Walter Pixler, Mrs. Q. Touchette, Miss Sue Pixler, Miss Mary Goodale, Miss Gussie Fletcher, Mrs. E. T. Cochran, Mrs. Herbert Spier, Mrs. Beck, Miss Minnie Beck, Miss Nannie Brown Kelly, Miss Pauline Stoumenire, Miss Edith Lovejoy, Miss Bright Laney, and Miss Christine Stoumenire.

### Missionary Union of Baptist Church Holds Regular Meet Tuesday

An exceptionally enjoyable program was presented Tuesday afternoon at the regular meeting of the Women's Missionary Union of the First Baptist Church under the direction of Mrs. Volie Williams.

The subject for the afternoon was the Latin countries and the meeting opened with the scripture reading by Mrs. J. H. Colclough.

Assisting Mrs. Williams with the program were members, Mrs. James F. Hawkins told of the work being done by the Baptists in South America, while Mrs. A. M. Phillips described the work in Cuba, Spain and Italy and their other conditions were discussed at length by Mrs. Williams.

It was suggested by the members of the Union to send cards to Mrs. F. R. Savage who is visiting her daughter, Mrs. Deane Turner at Fort Myers.

After the program dainty refreshments were served by the hostesses.

There were 30 members attending this meeting.

### Bridge Club Members Honor Miss Hayne With Outing At DeLeon

Miss Ruby Hayne, who leaves Monday for Boise, Idaho, was the charming guest of honor at a swimming party and picnic on Wednesday evening at De Leon Springs. The outing was given by the members of the Sandspur Bridge club.

The congenial group met at the home of Miss Sara Warren Easterby and motored to the springs in a party.

Throughout the evening, swimming, dancing and other delightful diversions were enjoyed, and at a late hour a bounteous picnic supper was served.

In the party were: Miss Ruby Hayne, Miss Sara Warren Easterby, Miss Marion Hand, Miss Frances Dutton, Miss Mina Howard, Miss Fern Ward, Miss Anna Williams, Margaret Cox, Mr. and Mrs. Earle E. Jones, Paul Oberholzer, Pete Sones, Elmer Bray, John Huggins, George Cowan, Laurie M. Daniel, Lock Merriweather, Paul Stines and Howard Kitt.

### World's Supply Of Raw Rubber Meets Need, Says Vaughn

AKRON, O., Aug. 25.—(INS)—The world supply of crude rubber for the present season is excellent, and there is little prospect of a shortage during the immediate future, according to W. A. M. Vaughn, vice-president of a local bank and one of the recognized American rubber experts.

Vaughn was in charge of a plantation development in Sumatra for the Goodyear Tire and Rubber Co., and started extensive rubber growing operations.

There are 4,250,000 acres of land planted to rubber in the East Indies, and large supplies of crude are in storage both in Europe and the United States, Vaughn declared.

The average yield on a rubber plantation is 400 pounds per acre annually, with a single tree producing from three to four pounds, he said.

The cultivated product is rapidly supplanting "wild" or natural rubber production, Vaughn said, citing a drop from 62,000 tons in 1910 to 40,000 tons of crude in 1925 from wild trees. Illustrating the tremendous increase in consumption of rubber, due largely to the automobile in industry, Vaughn said there were 27,000 tons of crude rubber consumed in 1910, and 540 tons in 1926.

"The British now control 76 per cent of the world production," he said. "America consumes 70 per cent of the entire world output."

## 68 STROKES ARE ALL JONES CAN USE FOR TODAY

(Continued From Page One)

thirteenth and fourteenth.

Cards:

Johnston: Out 4 5 3 4 4 4 4 5 37

Jones: Out 4 4 3 6 4 3 4 3 35

Johnston: In 6 4 4 5 5 3 4 4 4 39 76

Jones: In 4 3 3 4 4 4 4 2 4 33 68

Roland McKenzie, Washington, and Eddie Held, St. Louis, were off to a running start against Harry Legg, Minneapolis, and Chick Evans, Chicago, respectively, in the third round this morning.

Both McKenzie and Held were 2 up leaving the third green, this fact coming to the public attention just as Bobby Jones left the first tee with and against Harrison Johnston, the local champion.

Jones and Johnston halved the first hole in par 4's, Bobby having a beautiful drive and a nice pitch on to the green for his par. Johnston, however, was equally good. Meantime, Francis Ouimet had become 1 up on Phillips Finlay, the schoolboy, at the third hole.

Both Legg and McKenzie won the second with a buzzard 5, Legg being off the line all the way. At the short third, McKenzie again scored with a long putt for a birdie to become 2 up.

Held also shot a birdie at the first to take the lead from Evans. The latter wandered off the course at the second to take a 5 and lose another hole. They halved the short third in pars.

Legg, yesterday's hero as a result of his defeat of George Von Elm, 1926 champion, was equally bad on the fourth hole where McKenzie got a par 5 to win and become 3 up. Legg was very short with his second, which led to a 6. However, he finally won a hole at the short sixth, getting a par 3 to McKenzie's 4.

Jones got a par 4 at the second to win against Johnston's 5 and become 1 up. They halved the third in pars.

Johnston sliced to the rough off the second tee and was short of the green with his second shot. Bobby was straight down the middle off the tee and his mashie approach came to rest, 15 feet off the green. Johnston, meantime got on with his third and needed two putts from 15 feet for a 5. Wileupon, Bobby chipped on to within 6 feet of the pin and blithely sank the putt for a win.

Jones' mashie from the third tee was only 4 feet off this pin. Johnston's was 25 feet away. However the latter ran his approach putt dead for a while Bobby rimmed the cup with his 6 footer and they took a half.

Meanwhile, Evans had rallied at the fifth and sixth to score successive 3's against held and square the match, the first 3 being a birdie. Jones and Johnston then struggled past the sixth hole with Bobby still in the lead by 1 up. He lost the fourth with a bad 6 to have the match squared but at the sixth, Bobby got a par 3 and Johnston didn't, Jones becoming 1 up.

Evans finally took the play away from Held at the eighth and, turning for home, he was 1 up. Johnston halved the seventh in 4's but Held failed to reach the green with either of his first two shots at the eighth and lost the hole. They got 5's at the long ninth without incident.

Jones' six at the fourth was the result of a hooked tee shot into the rough and a dubbed recovery that fell in a trap 60 yards away. Johnston was long off the tee and hit a splendid mashie well up to the green. Then he chipped well up to the pin and Bobby having taken another bad shot out of the trap, the local man took the hole without a struggle.

Johnston drove 300 yards off the fifth tee but Bobby hooked to the rough in back of a trap. However, he came up with a typically Jonquet recovery to within 15 feet of the pin and they called it a half.

Johnston was just short of the green at the sixth and that cost him the hole because Bobby ran a 40 foot approach putt right up to the pin for a 3 and almost laying Johnston a stymie. The latter then rimmed the cup with a 4 foot putt and lost the hole, Jones being 1 up.

McKenzie still was two up on Legg going to the thirteenth, the latter having won the tenth with a birdie 3 and McKenzie taking the eleventh with a par 3. They halved the twelfth in circumpect 4's.

Evans was 1 upon Held going to the thirteenth. This pair having halved the tenth, eleventh and twelfth in pars. Ouimet also was shooting great golf and was one under even 4's to the twelfth to become 2 up on Finlay. McKenzie still was 2 up on Legg at the same point. However, Roland took successive 6's at the thirteenth and fourteenth and, going to the sixteenth, the match was all square.

INSTITUTES SUIT DEFUNIAK SPRINGS, Fla., Aug. 25.—(INS)—Eugene Andrews of Freeport has instituted suit against the Geneva Milling Corporation, operators of a sawmill, for \$5,000 damages, alleging that he was kicked by a mule owned by the corporation, sustaining serious injuries.

## PERFECT SYSTEM OF HIGHWAYS IS PLANNED BY CUBA

Special Tax On Gasoline And Various Motor Vehicles To Furnish Funds With Which Fine Roads Are To Be Built

PERFECT

HAVANA, Cuba, Aug. 25.—(INS)—A system of perfect highways linking every part of the island and opening almost unbelievable natural riches to the systematic development has been provided for the island of Cuba by the operation of a public works law passed by the Cuban Congress in 1925, and approved by President Machado, levying a special tax on gross sales, on gasoline on various classes of vehicles and other sources of revenue.

The annual revenue now being derived by the government from the operation of this law is \$20,000,000 of which forty five per cent, or \$9,000,000 is allotted by presidential decree to road construction. The remainder is for other public improvements including sanitation, public parks, buildings and a water supply.

Contracts totaling \$90,000,000 have been let and work is now in progress on the first link of this gigantic road construction program. Men, machinery and materials are already engaged on the construction of a great central highway, 750 miles in length extending from end to end of the island and passing through each of the provinces. This highway will follow roughly a line drawn between the Caribbean Sea and the Gulf of Mexico at the western end of the island, and the Atlantic Ocean and the Caribbean Sea for the remaining distance.

The main artery of travel will be first completed from the Pinar de Rio to Oriente with its eastern terminus at Santiago de Cuba, after which lateral feeders will be constructed to open every part of the island to modern transportation methods.

The main central highway, according to the contract, must be completed within five years. The contract for the work was let by the government to Warren Brothers, of Boston. It is specified in the contract that at least 25 per cent of the work must be done by Cuban contracting firms, under subcontracts let by the American firm. Cuban labor and raw materials will be used to as great extent as possible.

The highway is to be 25 feet wide in cities and towns and 20 feet wide in the country. The area of pavement to be constructed is approximately 8,000,000 square yards, of which 7,000,000 square yards will be bituminous surface and 1,000,000 square yards of granite rock. A unique feature of the highway is that there will be no grade crossings, thereby promoting the safety of travelers.

It has been estimated by contractors that 2,250,000 barrels of Cuban Portland cement will be required on the work; 60,000 tons of asphalt, also of Cuban origin, will be needed, and that 6,500 tons of steel bars for reinforcement will be used. Orders have been placed with American companies for 5,000 tons of bridge steel.

The work is to be begun simultaneously in all six of the provinces, and the entire 750 miles of highway will be completed within a decade.

AIRPLANE FIRM OF BRITAIN CONSTRUCTS ALL-METAL PLANES

LONDON, Aug. 25.—(INS)—A new all metal aircraft, claimed to be the fastest flying ship of its size in the world and capable of remaining in the air for 14 hours, has recently been constructed by the Blackburn Aeroplane Company here.

The chief feature of this new aircraft is the all-metal hull which not only is lighter than a wooden hull but save a water soaker of 600 pounds. The hull also takes the place of floats on a seaplane. It is as the plane is called, is not a seaplane but a flying ship. Driven by three Rolls-Royce "Condor" engines developing 2,100 horsepower, the ship can take off from the water for a flight at 50 knots.

With ample accommodation for five persons, the flying ship contains the latest modern conveniences for air travel. The navigators cockpit, with every equipment, is similar to the captain's cabin in a sea going vessel. There is a separate accommodation for the wireless operator. Three huge tanks are maintained for the storage of water, a culinary department with electrically heated ovens and port holes along the sides of the ship complete the illusion that one is in an ordinary liner.

The ship is so constructed that it can cruise on the water or remain at its moorings for nine months out of the 12, and will be able to ride out all but the roughest weather.

HIALEAH — Fire alarm signal system to be installed in this town.

## YANKEE HURLING STAFF FURNISHES SOME SURPRISE

Heavy Hitting Of Leaders In American League Has Raised So Much Dust That It Has Clouded Work Of Pitchers

NEW YORK, Aug. 25.—(INS)—The heavy bombing work of the Huggins artillery has raised so much dust that most folks can't get a squint at the pitchers who have been sniping so consistently behind the barrage.

But just the same the lads who specialize in curve balls and fast ones have been on the job.

And a pitching staff that was supposed to be several parasangs weaker than a common house fly has shown the surprising sting of a man-sized enterprising Jersey mosquito.

Right, now and for most of the time since the season started. The Yankee pitchers have been the class of the American League. And with the possible exception of the Cubs and the Cardinals there is nothing in the National League to top them.

A rather surprising thing, but true.

And the chiefest member of the Huggins squad—the guy who has turned mediocrity into near-perfection, is a lumbering, slow-moving, farmer chap by the name of Moore. First name, Wiley. Nickname, Big.

Mr. Moore has started mighty few ball games since the season opened. But he has finished a lot of them—and always well. So far this season he has appeared in thirty-three ball games, and in all that time he pitched just one bad inning. His earned run average is the lowest on the club.

The chief advantage of having Moore around, so far as the other pitchers are concerned, is that the regulars are now relieved of any necessity for bull pen duty. In the old days Huggins had no capable relief men, and if one of his regulars started getting his bumps it meant that another regular had to go in and relieve him. As a result the boys were constantly being called upon to work out of turn and consequently they were worn out most of the time.

Next to Moore's performances, the most remarkable thing about the Yankee pitching is, perhaps, the rejuvenation of Dutch Ruether. A lot of unkind things have been said and written about Dutch during his big league career. And the boys who wrote them will have to eat their own words this season.

Ruether, right now, is the leading pitcher of the league—and deserves to be. He has performed consistently and well. He has pitched with infinite skill and almost unerring judgment, and has rolled up victory after victory through the excellence of his work. In all his starts this season he has pitched only one bad inning. That was against Washington when he was knocked out in the first frame—and his trouble came more from over-anxiousness than from inability.

TAXPAYERS LEAD FIGHT IN PAVING WAR IN FT. MYERS

Two Suits Are Filed In Lee County Court To Keep City Commission From Proceeding With Big Paving Program

FORT MEYERS, Fla., Aug. 25.—(INS)—The first round in the fight being waged by a group of leading taxpayers here against awarding a \$1,500,000 paving contract to the Southern Paving Company, which week ago first sought to restrain the city from carrying out its paving and sewer work were filed in circuit court. The complaints will be heard by Judge George W. Whitehurst next Monday.

Both the city and the Southern Paving Company have been made parties to the suits which seek to stop any attempt by the city commission to sell the paving bonds and from taking any further steps in carrying out the program and also to dissolve the contract between the city and the paving company. The suits are said to be the first test of strength between the opposing sides and a group of lawyers representing the city's best legal talent will clash on the issue.

The court action has been inaugurated as a result of a heated fight between four members of the city commission who voted for the awarding of the contract and a group of taxpayers who sought to have the progress reduced to a figure under \$1,000,000. Petitions have been circulated calling for the recall of the four commissioners and if they are filed an election will be held next month.

The hearing promises to be one most interesting and hotly contested legal bouts in the city's history. City Attorney J. Bowers Campbell, assisted by W. A. Sheppard, will represent the city; Clements, Clements and Craven are counsel for the Southern Paving Company while the foes of the program will be represented by ten leading attorneys, James A. Franklin, R. A. Henderson, Jr., William J. Wood, Cyrus Q. Stewart, George Preston, L. G. Pope, F. A. Whitney, Frank H. Alderman, S. Watt and Franklin West.

## POLICE PROTECT BODIES OF SACCO AND RADICAL PAL

(continued from page one)

two men because the defense committee was balked in every attempt to hire a hall for the purpose. The bodies will remain in the chapel with its religious surroundings until Sunday afternoon, at that time a speaker of national prominence will deliver a funeral oration. He will not be a clergyman.

From the chapel the bodies will be conveyed to the North End Park, from which will start across the city a "march of sorrow." Later following cremation, ashes of Sacco will be turned over to his widow. Ashes of Vanzetti will be carried to New York and thence home to Italy by his sister, under present tentative plans. A tour of the county by a delegation carrying the ashes of both was still under discussion.

Extra police details today were ordered out for Sunday afternoon as a large influx of sympathizers from surrounding cities and towns was expected to view the funeral procession. In New Bedford more than 10,000 persons viewed the body of Celestino Madeiros, who preceded Sacco and Vanzetti to the electric chair early last Tuesday morning.

BOSTON, Aug. 25.—(INS)—Crowds milled about the little undertaking shop of Joseph Langone on the Hanover Street today waiting to view the bodies of Nicola Sacco and Bartolomeo Vanzetti.

A strong police detail was on hand to guard against disorder and storekeepers along the north end thoroughfare took the added precaution of boarding up their plate glass windows. Scores were from nearby cities and towns, and hour by hour the crowds grew in size with the police having difficulty in keeping them moving.

Sightseeing auto buses added to the undertaking shop and the Sacco-Vanzetti headquarters on Hanover Street as a part of their itinerary. At the same time, police learned that they had an added problem on their hands in connection with the "March of Sorrow" Sunday afternoon. Thousands will be parading through the north end in the St. Agrippino celebration.

NEW YORK Aug. 25.—(INS)—Activities of Sacco-Vanzetti sympathizers centered in New York today following the announcement by the Sacco-Vanzetti liberation committee that Bartolomeo Vanzetti's ashes will lie in state here next Monday.

The emergency Sacco-Vanzetti committees in this city was awaiting a reply from promoter Tex Rickard in Chicago to its request that Madison Square Gardens be used for this purpose.

A memorial meeting is to be held here Sunday afternoon in the garden if possible. The committee wants to secure the largest hall available, as huge crowds are expected to attend the meeting Sunday and to view Vanzetti's remains.

Meanwhile further trouble loomed with the issuing of a call for a national conference of sympathizers on Monday and Tuesday at the civic club next here. This conference is for the purpose of devising means of "vindicating" the two men who paid the death penalty for a payroll robbery in Massachusetts. Vanzetti's ashes will be brought here in the care of his sister, Miss Luigia Vanzetti.

Fearing trouble, police commissioner Warren again delayed cessation of the emergency police protection measures. The commissioner declared the additional guards at vital points in the city by the Sacco-Vanzetti liberation committee that Bartolomeo Vanzetti's ashes will lie in state here until all danger is past.

## Pennsylvania Bootleggers Willing To Aid Farm Heads In War On Japanese Beetle

PORTED.

HARRISBURG, Pa., Aug. 25.—Pennsylvania's bootleggers are willing to join with State and Federal agricultural agents in their war on the Japanese beetle.

The beetle, which has made its presence felt in Southeastern Pennsylvania to such an extent that the Federal and State governments have joined forces in laying down an embargo on fruit and produce in the stricken areas, has proved as much an enemy of the bootleggers as it has to the farmers.

Rum lines running into Philadelphia and headed northward toward Scranton, Wilkes-Barre and other points in the anthracite coal region were particularly hard hit by the embargo.

The "beetle cops" are proving to be a welcome reinforcement to the State's highway patrolmen and State troopers in apprehending bootleggers. Although the "beetle cops" cannot make arrests, they can report shipments of liquor to the nearest State Police barracks.

Bootleggers are hoping that the authorities succeed in exterminating the beetles in a hurry, so that the rum lines can continue behind their camouflage of garden produce shipments.

FRIENDSHIP, Tenn., Aug. 25.—(INS)—County authorities today were investigating the death of Follis Hawkins, 11, who died yesterday in a Deyersburg hospital from a wound on the head.

next Monday. The emergency Sacco-Vanzetti committees in this city was awaiting a reply from promoter Tex Rickard in Chicago to its request that Madison Square Gardens be used for this purpose.

A memorial meeting is to be held here Sunday afternoon in the garden if possible. The committee wants to secure the largest hall available, as huge crowds are expected to attend the meeting Sunday and to view Vanzetti's remains.

## GEORGIA PILOT WINGS HIS WAY ON TO BRAZIL

(Continued From Page 1)

beginning of its epochal flight. The ship was hoisted out of her hangar to the show at Glynn Isle, 12 miles from Brunswick, and new motor tuned up for the perilous journey before her—a non-stop flight of 4,150 to 4,600 miles, to Rio De Janeiro or Pernambuco or some other point on Brazilian soil. The lone flyer was cheerful and confident. As the moment of departure approached, there seemed no doubt in his mind that he could withstand the gruelling test of staying awake 50 odd hours and charting a course over the treacherous Caribbean and the menacing jungles and forbidding mountains of Brazil.

His pretty young wife was there to bid him Godspeed. Members of the flight committee and city officials were at the hangar to shake his hand. Crowds of well-wishers cheered him from the sand dunes back of the glistening beach.

Weather reports were encouraging and the hazardous flight seemed starting under the best conditions possible, considering the many difficulties impossible to eliminate. If he wins he will make a new no-stop distance record and perhaps a new mark for continuous flight.

Clear skies and a southeastern wind of mild velocity made ideal weather for Redfern's Brunswick-Brazil takeoff. Weather reports received by the pilot, who will make the flight alone, showed favorable weather conditions along most of the course to Brazil.

The Stinson-Detroler monoplane weighed around 6,000 pounds at the hop-off. Empty the plane weighed 2,500. Thus it was called on to lift more than twice its weight and this was said by experts to have been the heaviest burden proportionately ever attempted by a single-motored plane. The ship was loaded with 525 gallons of gasoline—within 25 pounds of its absolute capacity—and about 40 gallons of oil.

The Wright whirlwind motor has nine cylinders and is of 220 horsepower. The plane has an over-all of 82 feet and a wing-span of 45.10 feet. It was equipped with the usual instruments for navigation and with a barograph, a device that proves whether a plane remains in the air during non-stop flight.

Redfern's equipment included a parachute, a rubber raft, a flare pistol, a special game hunter which is a combination of revolver and shotgun, and powerful binoculars.

Georgia is the adopted home of the daring young pilot. He was born in Rochester, N. Y., as a boy in Idaho he studied pictures of airplanes and decided he'd like to be a flyer. At the age of 14 he had fashioned a glider with which he hopped from hillsides and floated earthward.

At 16 he flew his first plane. Later he barnstormed for an aviating scheme. Known as "The Kid Aviator," in the last few years he has worked for airplane corporations and for the government.

After Brunswick business men had held a meeting and in half an hour underwritten the Brunswick-to-Brazil flight, Redfern went to Detroit and with the completion of his plane, made a non-stop flight to Brunswick, landing on the wings of a storm at the hangar provided at Glynn Isle.

Crystal River—New water works system to be installed here.

Stuart—\$30,000 bond issue to be voted on for erection of city hospital.

Dade City—Seaboard Air Line Railroad to start soon on erection of passenger station here.

## Tagging All Bases

By International News

The Cubs have ended their losing streak of five games and Hack Wilson, their big hitter, has emerged from a long batting slump at the same time. This may mean that the Bruins, who apparently had cracked wide open, may really in time to stave off the rush of their rivals for the National League flag.

Wilson walloped three home runs as the Cubs split a double bill with the Phillies. He is now tied at 23 with Cy Williams for circuit-climbing honors in the National League.

The Phils pulled the first game out of the fire in the ninth, scoring five runs off Guy Dush and winning 7 to 6. Then the enraged Bruins slaughtered the slowtown boys in the nightcap, 13 to 1. Wilson got six hits in all during the festivities.

The other National League teams were idle. The Cubs still lead the Pirates by 2, 1-2 games. Tony Lazzeri "poached it up" over the fence in the ninth, with the bases full and the Yankees trounced the Tigers, 9 to 5. New York's losing streak of four games and Detroit's winning streak of 13 games were broken.

Harry Heilmann shot into the lead in the race for American League batting honors by making four hits in as many times at bat.

The Athletics jumped to third place by nosing out the Browns, 4 to 3. Rube Walcott nipped win his own game with a homer and held the Browns to five hits, snapping their winning streak of six games.

The fading Senators dropped to fourth place by losing to Cleveland, 7 to 1. Cleveland has won four straight. Lefty Miller held the Nats to four hits.

Todd's homer failed to help the Red Sox, who lost the White Sox, 4 to 3.

### TERRIS WINS

**NEW YORK, Aug. 25**—(INS)—Local fight fans were engaged in a bitter controversy today as a result of the ten round bout at Ebbets field last night between Sid Terris, New York lightweight, and Phil McGraw, the Detroit Greek. Although he was floored three times in the first round, Terris won the decision.

### ELSIE JANIS' MOTHER

**HOLLYWOOD, Cal., Aug. 25**—(INS)—Mrs. Josephine Janis, mother of Elsie Janis, musical comedy star, was recovering today after nearly drowning in a swimming pool at her Beverly Hills home. She was rescued by her daughter and Harry Kent, motion picture actor.

## The Victors—And Vanquished

Presenting the American doubles team winners over the British team in the recent Wightman cup matches Mrs. Hazel Hotchkiss Wightman, donor of the cup, is at the extreme left with Miss Helen Wills, the other member of the American team, next to her. Mrs. Kitty McKane Godfree is at the extreme right with Miss E. H. Harvy, the other member of the British team, next to her.

## Central Committee Of The Chinese Communist Party Morally Bankrupt

**MOSCOW, Aug. 25**—(INS)—The Central committee of the Chinese Communist party is morally bankrupt. Russian Communists must now frankly admit that fact though with regret, said Nikola govern, in an address intended only for party members on the fiasco of the Marxian revolution in the Orient.

M. Bukharin's statement caused a sensation at the meeting. Every Communist knew things were not going well in China from scant reports in the press, but few realized things had come to such a pass.

M. Bukharin indicated that on orders of the Third International the entire Communist party of China was going to be reorganized, the present leaders deposed and the young bloods, including university students, lifted to fill the vacancies.

"Soon after the Mayday by Chang Kai-shek the Communist International warned the Chinese Communist party against further adventures by generals like Feng Yuxiang and Tang Sheng-chih," Bukharin continued. "The Comintern requested the Chinese comrades to develop the agricultural revolution to organize and arm the peasants and workmen's unions, to expel all bourgeois officers from the Wuhan government."

"We must now frankly admit that the Chinese Central committee has gone bankrupt. It cannot lead the masses any longer. The Central committee of Young Communists conceives the decline of the Comintern much better than the old committee. The Comintern has decided to call a conference of all Chinese Communists, elect a new Central Committee and expel from the party all those who consent to be led by the Kuomintang party which has deserted the workers and peasants."

## The President Goes For A Gallop

President Coolidge, with his ten-gallon hat and buckskin gloves, is shown here on his favorite mount, Mistletoe, just before starting on a gallop over the Black Hills of South Dakota. The president rode to Mt. Rushmore the other day for the ceremony marking the beginning of work on the Jefferson-Roosevelt Memorial, which is to be executed out of native rock by Gutzon Borglum. This excellent NEA photo is one of the very few ever taken of President Coolidge on horseback.

## 6—Help Wanted (Male)

BOYS WANTED—Can use five  
 good boys who are hustlers. Can  
 earn as high as a dollar an after-  
 noon. Apply Circulation Depart-  
 ment Herald.

## GAR WOOD'S BROTHER TO FLY

WINDSOR, Ont., Aug. 25.—  
 (INS)—Phil Wood, brother of Gar  
 Wood, noted speed boat racer, was  
 to hop off today either for New  
 York or a Canadian point in a  
 Stinson-Detroler monoplane "Royal  
 Windsor" to prepare for his pro-  
 posed non-stop flight to Windsor,  
 England.

## Help Wanted Male or Female

ANOTHER OPPORTUNITY—The  
 Sanford Herald is now offering  
 to two or three more Sanford  
 young men or young ladies the un-  
 usual opportunity to learn to run  
 the Linotype machine and the  
 course of instruction (which would  
 cost about \$150 elsewhere) is ab-  
 solutely free.

This course of instruction will  
 take an average of three to four  
 months. Each person is given per-  
 sonal instructions and when quali-  
 fied to hold a position is assisted  
 in securing satisfactory employ-  
 ment.

The earnings of a good linotype  
 operator will average from \$40 to  
 \$80 per week.

If interested call for Foreman at  
 Herald office and he will talk it  
 over with you.

15—Apartment For Rent

RADICAL RENT  
 REDUCTION  
 Three beautiful apartments,  
 each consisting of living room, bed  
 room, kitchenette and bath, with  
 all modern conveniences, electric  
 light, gas and hot water heater etc.

 struction of \$63,000 hotel here.

Fort Myers—Building permits  
 issued here during month of July  
 totaled \$15,400.

## BY TAYLOR

FLAGLER COUNTY  
DEPUTY SHOT BY  
NIGHT WATCHMAN

Durance Was On Guard Look-  
 ing For Negro Who Killed  
 Sheriff Hall Last Sunday;  
 Negro Wounded In Gun Duel

JACKSONVILLE, Fla., Aug. 25.  
 (INS)—Son Durance, Flagler  
 county deputy sheriff was killed  
 and Tom Payne, negro lies in Du-  
 val hospital here probably fatally  
 wounded as the result of a shoot-  
 ing affair at Greenland about 15  
 miles south of here this morning.

According to Paynes story as  
 told to local authorities, Durance  
 mistook him for James Smith, al-  
 leged slayer of Sheriff Perry Hall  
 of Flagler county, who was earlier  
 in the night reported to be in the  
 vicinity where the shooting took  
 place.

Payne who is employed as night  
 watchman for the postoffice at  
 Greenland, when commanded by  
 Durance to hold up the postoffice  
 and commenced to shoot, riddling  
 the deputy sheriff with a shotgun.  
 He died while being rushed to St.  
 Augustine for medical treatment.

A call to local authorities re-  
 sulted in bloodhounds and deputy  
 sheriffs being rushed to the scene  
 but reports of Smith being in hid-  
 ing places proved erroneous.  
 Paynes uncle, W. E. Payne, is  
 postmaster at Greenland, a small  
 station on the Florida east coast  
 railroad, midway between here and  
 St. Augustine. Tom Payne oper-  
 ated a truck farm in that section.

## Rum Chaser Caught in Niagara Rapids

The officers and men on this U. S. coast guard rum chaser, stationed at Buffalo, N. Y., narrowly  
 escaped death in Niagara Falls. The boat was patrolling the Niagara river above the falls when  
 engine trouble developed, and the crew barely got ashore before it was caught in the rapids. It  
 is shown here grounded a few hundred feet above the falls.

FINAL NOTICE  
 IN THE COURT OF THE COUNTY  
 JUDGE, SEMINOLE COUNTY,  
 STATE OF FLORIDA:  
 In Re The Estate Of:  
 JEFF HAYWOOD, Deceased.—In  
 Probate.
