Making It All Clear Events are transpiring in Washington with such amang awiftness and most of the maneuvers are so completed amough a camouflaged with such inexplicable terminology that

ferent measures of the influence of supply; factors X4, X5, X6, X7 and X8 as forces influencing de-

mand; X9 to allow for any trend in price apart from that accounted for by the factors stated, and X10 to adjust for the effect of changes in the

value of money upon hog prices.

Since practically all of the factors were thought to have a relative rather than an additive relation to price, all of the factors except X9, time,

Correlating the factors thus stated, a multiple

correlation of hog prices with the 10 other factors of R-0.936 was obtained. Correcting this to take account of the fact that 10 constants were deter-

The regression equation is as follows:
(1) log11x.0.09443 logx1-0.15888 logx0.21986
logx3-0.23675 logx4log47-0.22659 logx7-0.03036
logx80.07250 logx-2.2377 logx6-0.04759 0.03036

were stated as logarithms (6).

correlation is reduced to 0.928.

ment securities.

Although the immediate reaction to inflationary steps was naturally adverse in the market for highest grade bonds, including that of U. S. governments,

the position that the debts should be paid as due but has indicated a willingness to facilitate the operation.

The lowering of tariff barriers which will be sought both here and at the World Economic Conference in London is intended in part to make possible the payment of inter-governmental obligations in goods.

Eager for the restoration of a free international gold standard, the administration was described in a high official quarter as feeling that the action against seeling that the section of the level which it would occupy in establishment of currencies on a new parity.

President Roosevelt is expected in well-informed quarters to discuss with MacDonald, Herriott, and perhaps others of his visitors the reduction of the legal gold backing behind currencies, now customarily about 40 percent.

This is seen by some as an international inflation of currency which should have a salutary, effect upon the world price lavel whose sharp declines have aggravated unemployment and prolonged the depression.

The proposal has been public-rence are several billions of practicular deposits, said one carriers.

"I think I'll be smart and trade in this old rubber now"

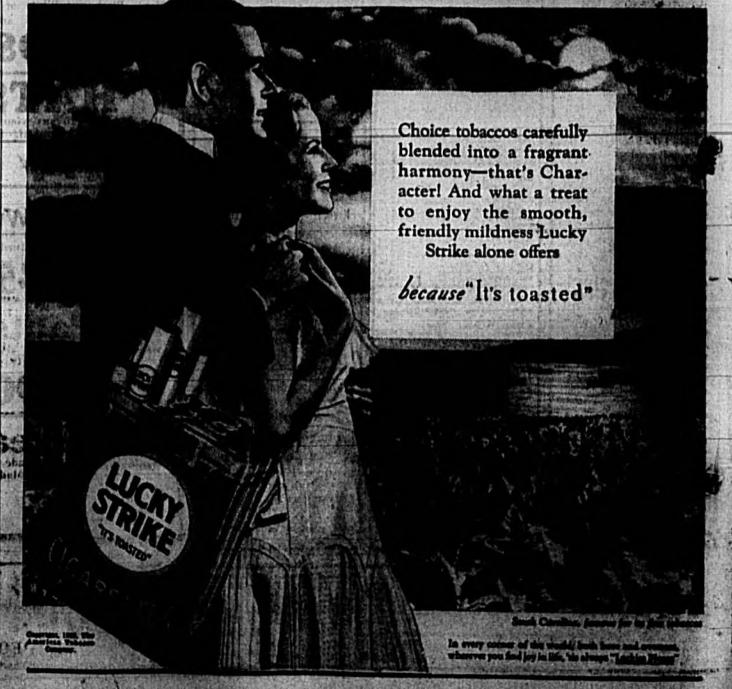

The first real hot spell will prove this fact. The roadsides will be lined with cars that tried to squeeze the last nickel's worth of mileage out of thin, weak tires.

That's one reason why it will pay you to get rid of old tires now — trade them in for brand-new Goodyear All-Weathers. You can buy Goodyear All-Weathers - better now in quality than ever before - the world's best-known and best-liked tires at prices which
