

Pilot Project Breakfast Program Starts At South Side; Fourth In County

By Michael Baha
Herald Staff Writer

A pilot breakfast program began today at South Side Elementary School in Sanford and will run through the remainder of the school year.

The breakfast program will provide a nutritional benefit for about 87 students daily, according to Charlotte Whitmore, director of food service for Seminole County schools.

"We operate it the rest of the year and see how it goes," Mrs. Whitmore said. "If it is a success, then we may continue it next year."

South Side Principal Mildred Bell said today that only about a dozen students ate at the breakfast of cold cereal,

milk and orange juice this morning but she attributed that fact to last week's spring vacation.

"I think a lot of parents forgot about it," she said. "We'll be sending out more notices today to remind them."

Mrs. Bell said she believes the breakfast program will be a real help to some children.

"To bring a child to school without breakfast and ask him to pay attention is asking quite a lot," she said. "And because the number of single-parent families and families with both parents working is increasing, many students don't get a nutritious breakfast at home, she said.

"I think we'll have a lot more conscientious children."

South Side is the fourth Seminole County school with a breakfast program. Midway Elementary serves breakfast to about 140 students a day and Goldsboro and Lawson Elementary schools each serve more than 100 students.

"We satified with the program," Goldsboro Principal Leroy Johnson said. "There's no doubt that every child that eats breakfast performs better in the classroom. It's been a help to our children."

South Side was not going to be included in the program after a district survey but at the request of the School Board member Roland Williams the school was included.

South Side was eventually included after the response

from parents made it clear that a substantial number of students would eat breakfast if it was available, Mrs. Whitmore said.

Students eating breakfast arrive at the district's schools between 7:30 and 8:00 a.m. This time period runs out most of the district's schools because many students ride buses.

Only since South Side students all walk to school, the only problem remaining was scheduling school faculty to supervise the program, Mrs. Bell said.

She said that problem has now been solved and there will be sufficient supervision for the program.

Mrs. Bell said she anticipates participation in the program to gradually build. "That's been the case with the other schools."

ComBank Is Now Freedom

Donna Feltz

Herald Staff Writer

ComBanks in Florida became branches of Freedom Savings and Loan Association of Tampa last Thursday and began operating under the Freedom name today.

Robert M. Kilgore, who is chairman and chief executive officer of the ComBank system, said that the Orlando area, is now president of Florida division. In addition to the offices in Orange and Seminole counties, this includes former ComBank offices in Green Cove Springs and Orange Park in Clay County. There are seven branch banks in the system in Seminole County.

Meanwhile, John G. Squires, formerly president of ComBank-Seminole County, has been named president of the Tampa Banking Division of Freedom.

Freedom President Fred F. Cramer said he is pleased that these two experienced banking executives could be called on to step into key roles at Freedom.

"They are part of a highly qualified, talented team that has effectively managed the ComBank organization in recent years. We welcome their contributions to Freedom's future," he said.

Church noted that Bluebird ComBank in 1950 and in addition to leading service in the Central Florida area, he was executive vice president, chief operating officer and a director of ComBank Corp. Before coming to ComBank, he was in charge of state banking operations at the Central Trust Co. of Jacksonville.

Squires, a native of Tennessee, began his banking career with the First American National Bank of Nashville.

Church said the combined Freedom and ComBank will be better able to serve the banking customers of both entities on a system-wide basis. "The merger is resulting in bringing extensive banking talent to Freedom's ranks," he said.

The merger adds to Freedom's system a total of 17 banking branches serving the Central Florida area, with some \$425 million of assets. Freedom's assets have increased from \$1.3 billion to \$1.8 billion.

Deposits have increased from \$550 million to more than \$1.2 billion at Freedom and banking offices from 30 to 47 in 13 counties.

Easter Tradition
It was a mad dash for the colored Easter eggs Sunday at Sanford's Fort Meun Park. Some 100 children up to age 9 participated in the Joyce-sponsored traditional fun. Lake Mary children also enjoyed a community Easter Egg hunt this weekend. See Page 2A for more on the egg finders.

Easter Sunrise Service Observed TODAY

By Jane Casselberry
Herald Staff Editor

An estimated 800-900 worshippers gathered around the cross in Sanford's Veterans Memorial Park on Lake Monroe at the Resurrection, 63 Easter Sunrise Service Sunday as the sun rose in a cloudless sky.

As the 7 a.m. starting time for the service approached, the cruise ship the Bay Queen with program participants and local officials aboard moved from her dock to anchor off shore in the smooth waters.

"One woman in the audience told me that as the Bay Queen came around the Holiday Inn and the

voices of the "Sons of Song" (an area gospel singing group) drifted across the water in beautiful chills and her husband said it was one of the most moving things he had experienced," said Hiram Blank, chairman of the event.

The participation of the Bay Queen made the sunrise service, sponsored by the Sanford Ministers' Association, the first of its kind here. Blank introduced the idea to the local ministers and was put in charge of planning the event.

"Except for a little problem with the sound making it harder for the people on shore to hear the Seminole High School Choir sing,

heard no negative comment," he said. "Otherwise, it's just went great. Next year we'll have the sound problems taken care of."

The speaker for the service was the Rev. Dr. Freddie Smith, pastor of the Central Baptist Church of Sanford. The Rev. Peter Cousins, pastor of Sanford Alliance Church, gave the welcome. The Rev. Paul Murphy, pastor of First Baptist Church, gave the invocation. The Rev. Edward Johnson of First Christian Church gave the scripture reading and the Rev. Jerome Johnson, Freedom Assembly of God, gave the benediction.

Sanford Hangar Addition Is Eyed

The Sanford Air Authority at an 8:30 a.m. meeting Tuesday will consider a request for an addition to a hangar and two requests to lease recreational ranges for aircraft.

A representative of Jeno's Inc. is slated to request permission to decrease the size of a planned hangar addition to provide parking space.

J.V. "Red" Cleveland, director of aviation, said today the firm earlier received approval for construction of a 7,000-square-foot hangar.

Now, Jeno's Inc. wishes to reduce the square footage for the addition to 5,900 square feet to allow for parking space.

The plans for two executive hangars, one for one thousand, one for 500 and one for 250, are also under consideration.

The Kirchman lease is for a 4,800-square-foot building and the S. H. Fabricating lease is for a 3,500-square-foot building.

The authority will meet in the conference room of Building 1 at the airport. Authority members are also expected to consider step promoters for the hangars.

Gloria Swanson Dead At Age 84

NEW YORK (UPI) — Actress Gloria Swanson died peacefully in her sleep early today, a spokesman for New York Hospital said. She was 84.

Her long-erud star retired briefly from show business in 1932 and became a business woman.

She made a number of comeback checks.

She drew headlines for her marriage, beginning with her first husband, actor Wallace Beery, when she was 17.

Of her career, the actress said candidly, "If I were starting today, I'd be a star. I was born at the right time. I'll need for a new invention — the movie camera. I'm 10 years older, earlier or 10 years later, I'd have the same big ribbons in a five and dime or a department store telephone operator."

County Wants Workers Healthy

By Michael Baha
Herald Staff Writer

A change in policy to provide an incentive for county employees to reduce their use of sick leave is expected to be approved by Seminole County commissioners Tuesday.

The county officials, faced with projected deficits of more than \$2 million for fiscal 1965-66, are trying to find ways to increase productivity among county employees.

The new policy will permit employees to be paid for accumulated sick leave days in excess of 90 days. The plan would pay by salary for sick days over the 90-day limit with a maximum of five days per year.

Current policy dictates that employees must not accumulate more than 90 days of sick leave.

According to Personnel Department records, only 20 employees would qualify for the program and the maximum payment to all 26 employees would cost \$15,500.

But county officials believe the program will provide a direct impact on productivity and reduce the amount of overtime paid.

A countywide freeze has already been established on overtime payment except in emergency situations and about 40 vacant jobs, already approved by county commissioners, are to be filled this spring.

at Tuesday's meeting.

John Percy, director of public works and development, has asked commissioners to approve hiring of a tradesworker for air conditioning and heating systems repairs.

Percy is recommending Greg Wheatley, a former employee at Seminole Memorial Hospital, to fill the position at a salary of \$6 per hour. That salary is above the regular starting salary for the post cost 10.10 per year.

But because of Wheatley's experience with the hospital building, which will be used by the county for offices beginning this summer, and difficulty in locating qualified applicants for the job, Percy recommended Wheatley's hiring.

Fleet Manager Frank Kilgore has recommended the hiring of Arthur Gray as a mechanic for fire apparatus maintenance at a \$270 monthly salary. That salary is \$24 a week more than the normal starting salary.

Kilgore said Gray is currently qualified for the position and worked as a master mechanic for the Middleburg fire department before moving to Sanford.

Kilgore is expected to receive a pay increase at Tuesday's meeting. Steve Augustus is head of the county's new Fleet Management Department, he is currently being paid a \$24,750 annual salary.

Assistant County Administrator J. W. Jones has recommended William Ford for a 7.8 percent monthly increase but a salary cap would limit the raise. If approved, to 7 percent.

A crowd estimated at between 800 and 900 persons gathered on the shores of Lake Monroe Sunday for the Easter sunrise service while singers and speakers were aboard the Bay Queen.

IN BRIEF

Returning Congress To Focus On '84 Budget

WASHINGTON (UPI) — Despite President Reagan's lobbying for his desire spending more on a Senate Republican budget specialist predicts Congress will still trim military spending growth to 5 percent when it returns this year.

Republican members of the Senate Budget Committee will meet with Reagan Tuesday, a day before the panel starts drafting a 1984 budget, a leadoff program expected to last at least seven working days and nights.

Last month, House Democrats pushed their proposed budget through committee and Reagan said he would sign it. House Democrats pushed their proposed budget through committee and Reagan said he would sign it.

Reagan has asked for a 10 percent increase and he got the Senate committee to delay its consideration of a 1984 budget until after Easter to give him time to lobby senators.

Train Derails In Mudslide

ROCKFISH, Va. (UPI) — The stretch of track where Amtrak's Southern Crescent slammed into a mudslide and derailed, injuring 21 people, has been the scene of two other derailments in five years but officials insist the rails are safe.

The Southern Crescent, which left New Orleans en route to New York Saturday with 221 passengers derailed at 8:58 a.m. Sunday when the train hit a mudslide in a remote area of central Virginia and "folded up like a rag," a train crew was launched at 40 mph in a 50-mph zone, officials said.

Twenty-one people were treated and released from two hospitals for minor injuries including neck and muscle strains, officials said. One passenger died of a heart attack.

Crews worked through the night to clear the track.

The derailment occurred about 350 yards from the site of a 1974 derailment of the Crescent, that same passenger and inland rail line, owned by Amtrak.

Good Eggs

At left, nearly 100 Lakeland youngsters scrambled over Ft. Mellon Park Sanford in the annual Easter Egg Hunt sponsored by the Sanford-Seminole Jaycees. Above right, four-year-old Ross Anna Fowler and her mom, Rose Mary Fowler of Sanford, head home with a basket full of Easter goodies.

Lake Mary children (above) wait anxiously for the start of the egg hunt in Crystal Lake Park. Once the hunt began, it took only 10 minutes for the kids to find all 36 dozen hard-boiled, colored eggs and 4-to-5 dozen plastic prize-bearing eggs. At left, Sarah Marie King, seven-month-old daughter of Mr. and Mrs. Ken King of Lake Mary, looks

quisitely around as if to say, 'Well, who's going to push this silly stroller so I can hunt for eggs, too?' More than 100 local kids participated in the event which was sponsored by the Lake Mary Chamber of Commerce, the Community Improvement Association and the Modern Woodmen of America.

WEATHER

NATIONAL REPORT: A slow-moving storm that dumped 40 inches of snow in parts of Utah hung over the Rockies and Plains today, shutting down highways in eastern Wyoming and devastating ranches in the central Colorado. Rain stretched across the Ohio Valley to the northern Atlantic Coast. A few showers lingered in Oregon, snow, rain and sleet in the West.

Celebrations across the northern half of the nation Sunday. Only the South and the Southeast enjoyed fair skies. In New York, a 45-minute plane crash to a hangar crashed into Long Island's Great South Bay near Cap Tree, headed on approach to Republic Airport Sunday night. Suffolk County police said the pilot and lone passenger were killed in the crash. Windy gusting to 50 mph buffeted southern California, causing power and electrical lines. The wind plucked firefighters battling a blaze at a home in Norwalk, which killed two men. Sparks from a downed power line were whipped into flames that burned the roofs of seven homes in Culver City. The storm in the Rockies dumped 40 inches of snow on Alta, Utah, from Saturday night to early today and spread 2 feet of more onto small, Chubb's ski bases. The heavy snowfall triggered avalanches, closing roads in the Big and Little Cottonwood canyons east of Salt Lake City. High winds and small 2 1/2 inches of snow in the West and 10 inches at Cheyenne.

Accompanying 20 to 30 mph winds piled up drifts, shutting down highways in southwest and southeast Wyoming. In Colorado, a 45-mile stretch of Interstate 80 from Cheyenne to the Wyoming-Nebraska state line was closed. Windy weather was also the Springs in the Wyoming-Utah area. Wind was also the cause of a plane crash in the Wyoming-Nebraska state line. A small plane crashed into a field near Hartman in the northern panhandle.

AREA READINGS (9 a.m.): temperature: 64; overnight low: 48; Sunday high: 76; barometric pressure: 30.09; relative humidity: 64 percent; winds: northeast at 9 mph; rain: none; sunrise: 6:11 a.m.; sunset: 7:33 p.m.

TUESDAY TIDES: Daytona Beach: high, 1:41 a.m.; 2:05 p.m.; low, 8:06 a.m.; 8:09 p.m. Cape Canaveral: high, 1:33 a.m.; 1:57 p.m.; low, 7:57 a.m.; 7:59 p.m. Ponce de Leon: high, 8:52 a.m.; 9:47 p.m.; low, 12:54 a.m.; 11:39 p.m.

BOATING FORECAST: St. Augustine to Jupiter Inlet out 50 miles — VARIABLE winds less than 10 knots this morning becoming east to southwest 10 to 15 knots later today (Friday). Tuesday southwest 10 to 15 knots. Sea 3 feet or less. Mostly fair.

AREA BOATING: Friday sunny and warmer today with highs in the mid to low 80s. Tuesday southwest 10 to 15 mph. Tonight mostly fair with lows in the upper 50s and 60s. Wind calm to light. Tuesday partly cloudy and warm with highs in the mid to upper 80s.

Federal Affirmative Action Rules May Be Loosened

WASHINGTON (UPI) — The Reagan administration plans to relax some affirmative action rules that require federal contractors with 50 or more employees or a contract worth \$50,000 in hire and promote minorities and women.

A Labor Department official said Sunday that under the new rules, the "threshold" level of companies that would have to prepare affirmative action plans would be set at firms with 100 or more workers with federal contracts worth \$100,000 or more, said Craig Barrington.

Above that level, companies would have to prepare plans showing how they would increase representation of women, blacks and Hispanics in the work force. Smaller companies and companies with smaller contracts would not come under the requirement.

Craig Barrington, associate deputy undersecretary for employment standard, said the proposed new regulations, which are now "going through the consultative process" among several federal agencies, would cut back on the number of contractors required to prepare written affirmative action plans.

Current regulations cover any company holding a federal contract worth \$50,000 or more with 50 or more employees.

The New York Times reported Sunday that administration officials plan to issue the final rules in April or May. But Barrington declines to predict precisely when the regulations would become final.

The new rules drew fire from civil rights groups when they were announced in 1981, but are supported by many

business organizations, which contended they will reduce the regulatory burden on employers.

"This is a very controversial area, and there really is no way to make a middle ground and not be subject to criticism from people who hold strong views on either side of the debate," said Barrington. "We've taken what we think is a reasonable middle position."

Civil rights groups have charged the rules would seek relief only for individual "identifiable victims" of job discrimination. Current rules permit relief for affected classes, and presume that all people in a class suffered the discrimination.

"It's accurate to say that they relax some of the record-keeping burdens,"

said Barrington. "But the draft retains all of the original rules for finding and for promoting affirmative action."

He argued that the threat of the new rules is an attempt "to deal in a reasonable way with small companies." "We're talking about companies that may not even have a bookkeeper."

The department said \$0,000 to 30,000 companies, including nearly all of the biggest U.S. corporations, were subject to the department's affirmative action requirements because they do business with the federal government.

Barrington argued the final draft regulations would not eliminate the authority of the department's Office of Federal Contract Compliance Programs to obtain relief for classes of workers who have suffered discrimination.

Cause Of Sunday's Rinehart Castle Fire Undetermined

Investigators today were still probing the fire which destroyed The Rinehart Castle, an historic Lake Mary home built more than 50 years ago.

The cause of the Sunday night blaze which destroyed the three-story, seven-bedroom home near Rinehart Road and Lake Mary Boulevard.

The house was built by the late Elmer Rinehart, a former director of the Interstate Commerce Commission.

The house abutted on 50 acres of land and had a tinted blue color. One of the house's unique features was its combination of old and new — a hand-carved elevator and solar panels which provided hot water for the entire house.

The Lake Mary Fire Department, assisted by the Seminole County Fire Department, battled the blaze for several hours, but were unable to save the historic structure.

Action Reports

- ★ Fires

- ★ Police

BUCKUPS STOLEN

The victims had a horrible Easter weekend when \$1,200 worth of buxups were stolen from cars in the Altamonte Springs area.

All the thefts occurred between 6 p.m. Friday and about 9 a.m. Saturday when residents found that the valuable buxups had been stripped from the wheels of their cars.

The victims told police that each set of four buxups was worth about \$400. Four were spotted buxups were stolen from a 1979 Pontiac Bonneville parked outside 114 Cadillac Court, a 1980 Chevrolet Monte Carlo belonging to Margaret Bellamy of Salem Court, and a 1974 Lincoln Continental belonging to Ella May Oliver while it was parked at 709 Clara Tree Drive.

GOLF COURSES DAMAGED

Vandals have caused about \$650 damage to the golf course at White Hunt Club, Longwood, in the last couple of weeks.

The latest vandalism occurred between 8 p.m. Saturday and 6:45 a.m. Sunday when holes were punched in the greens with a metal rod, causing about \$200 worth of damage.

The vandalism was reported by the golf course manager, Kayo Bowman, who told Seminole County Deputy Sheriff that on March 25 about \$550 damage was done to the golf course when flags, poles and markers were damaged.

RECKLESS DRIVING CHARGED

An Altamonte Springs man was arrested Friday at 10:28 a.m. along Dogtrack Road in Longwood on charges of reckless driving, resisting arrest and fleeing police after leading police on an unusual chase.

Police said Roger Southall Jr., 33, of 457 E. Oakhurst St., left the Altamonte Shopping Center parking lot in his car, crossed the southbound lanes of U.S. Highway 17-92, narrowly avoiding several cars, turned onto the median adjacent to the northbound lanes and traveled on the median until he returned to the northern end of the parking lot.

Southall sped through the left and back onto 17-92 southbound, police said, adding that they gave chase, but Southall refused to pull over for more than a mile.

But Southall, according to police, didn't stop. He backed his car into the police corner. Police said the car was stopped by an officer who forced the car into park. Southall was released on \$500 bond.

DEU ARRESTS

The following people were arrested in Seminole County for driving under the influence (DUI):

- Mack Eady, 52, of 1605 W. 13th Place, Sanford, was arrested at 1 p.m. Friday following a traffic accident at the intersection of 13th Street and Southwest Road in Sanford.
- Marsha Tarr, 61, of 703 Chuff Ave., Altamonte Springs, was arrested Thursday at 11:30 p.m. on White Springs Road at Fox Valley. Police said a citizen hand radio operator had reported that Mrs. Tarr was driving recklessly.
- William Correll, 41, of 180 Gladstone Drive, Maitland, was arrested at 12:02 a.m. Saturday on State Road 520 in Oriedo. Police said he crossed the center line of the highway six times within a mile before being arrested.

LOCAL

IN BRIEF

Treachorous Winds Don't Delay Challenger Launch

CAPE CANAVERAL (UPI) — Shifting jet stream winds today threatened to postpone the afternoon launch of America's newest space shuttle, Challenger, on a five-day shakedown cruise.

But by mid-morning, NASA officials said the winds had subsided enough to go ahead with the scheduled 1:30 p.m. launch. The Challenger's maiden launch in Florida has been delayed 20 months because of a series of costly test leaks.

Launch Director A.O'Hara said Sunday night the winds might be unacceptably high today and could create poor conditions for several days. But early today, forecasters said the outlook for launch time was a bit better based on balloons soundings taken over the coast of Florida near Tampa.

Challenger, second of the nation's planned fleet of four space freighters, was slated to lift off at 1:30 p.m. carrying the world's largest and most powerful communications satellite.

'I Didn't Mean To...'

MIAMI (UPI) — A high school student in dead because someone left a loaded, cocked .20 caliber automatic under a tree, and growns up looking to convince a jury it was not his fault.

The 17-year-old fired the gun and thought it was the wrong one. He pulled the trigger.

Thomas Tony Cassan, an 11th grader at Carol City High School who planned to join the Navy when he graduated, was shot over the eye and killed in a hospital Saturday afternoon.

Police said no charges were filed against the shooter. Cassan was not released. The shooting was listed as an accident.

"The jury, I didn't mean to do it," the young child told police.

Sanford Jaycees Bruce Ribas, chairman of the Cyclic Fibrosis Bike-a-Thon, and his daughter, Rhonda, 5, and Sandy Evers, both of whom plan to participate, eye bicycle donated as a first prize.

CF Bike-A-Thon Saturday

The Sanford Jaycees will sponsor a bike-a-thon for the Cystic Fibrosis Foundation on Saturday from 9 a.m. to 4 p.m. at the Sanford Airport on McMillan Avenue.

Florida chapters raised by the participants will go to the Central Florida Chapter of the Cystic Fibrosis Foundation to help fund a cure for the often fatal disease in children that affects the lungs and digestive system and is the number one genetic killer of children in this country. A child is born with cystic fibrosis in this country every five hours. Victims must undergo daily surgery and medication.

The first prize for the rider raising the most money will be a \$1,700, 10-speed bicycle valued at \$1,700. The bike will be donated by the Bicycle Connection of Sanford.

Second prize will be an airplane ride over Disney World. Third prize will be a \$20 gift certificate. There will also be door prizes. Other donating prizes include the Sanford Jaycees, the Bible and Newer Center and Loyola Bicycles Shop.

Registration will be served to participants. For more information, call the chairman, Bruce Ribas, at 323-6429, every afternoon weekends.

Assassin Killed the Dreamer, But His Dreams Remain Alive

MEMPHIS, Tenn. (UPI) — "Labor and civil rights leaders say "Luther King" changed" since the assassination of the Rev. Martin Luther King Jr. 15 years ago today and Americans should rededicate themselves to King's unfinished dream.

"And that's not Ronald Reagan and it's not spilled Republican," said the Rev. Jesse Jackson, president of the American Federation of Labor, County and National Employees' trade union.

The AFSCME was also at the forefront of a traditional march today to commemorate King's death April 4, 1968.

The march was to begin at Clayborn Temple, rallying point for striking sanitation workers here, and end just a few blocks away at the Lorraine Motel where King was shot to death.

In Sunday's hymnic three memorial service for King, McEneaney and William Lucy, the secretary-treasurer of AFSCME, took Reagan:

to look for the plight of poor, underprivileged and elderly Americans.

"We are now prey to a national ideology of confused morality," McEneaney criticized the administration's message to support military waste and massive foreign aid programs while "children in Memphis, Mississippi, Detroit and New York go to bed hungry."

"Instead of the Good Samaritan helping people, he gives the fallen a kick, then is on his way," McEneaney said.

King was struck by one bullet as he stood on the second-floor balcony of the Lorraine Motel, James Earl Ray, a habitual criminal from Missouri, was convicted of firing the shot and an serving a 99-year prison term.

After King's assassination, city officials agreed to accept the AFSCME as the bargaining unit for the sanitation workers. Lucy, the highest ranking black union official in the country, was in Memphis in this country," Lucy said.

Rev. Martin Luther King Jr. died in Memphis, Tenn., April 4, 1968, after leading a 25-day march for the rights of African Americans.

WARRIOR ARMBLIND — A 10-year-old boy, Walter W. Warren, of 1825 S. Park Avenue, Sanford, died Thursday, April 4, at St. Woodley's at a heart operation. Burial: Central Cemetery, Sanford. Funeral: Central Cemetery, Sanford, Fla. Burial: 10 a.m. Monday.

DELANE, M. WALTER L. — This man, wife, husband gone but his love for his wife and child lives on. He was a member of the Sanford Chapter of the American Chemical Society. Survivors include his wife, Margerie Jones Priddy, two daughters, Miss Karen Priddy and Mrs. Jill Barr, both of Sanford; two granddaughters, two sisters, Florence Glenn of Peoria, Ill., and Elizabeth Glenn of Sanford; three brothers, Arthur Priddy of New Smyrna, John Priddy of Carlinville, Ill., and Thomas Priddy of Littleton, Colo.; and a Whidden Funeral Home in charge of arrangements.

Funeral Notices — HARRY, M. DORIS E. — Funeral services for Harry M. Doris E. will be held at 10 a.m. Monday, April 5, at the funeral home of the Rev. W. H. McEneaney, 1000 N. Broadway, Sanford, Fla. Burial: Central Cemetery, Sanford, Fla. Burial: 10 a.m. Monday.

GENERAL ELECTRIC — We have a large stock of General Electric products in stock. Call us for more information. Sanford, Fla. 323-7671.

WALL PAINTING & RESTORATION — We are a full service painting and restoration company. Call us for more information. Sanford, Fla. 323-7671.

In Lake Mary Builders Want Laws Changed

By Donna Bates Herald Staff Writer

Sixteen developers who are developing, planning to develop or would like to develop homes in Lake Mary claim some municipal ordinances are hindering the city's growth.

"That was the message developers gave to Mayor Walter Sorrenson and City Manager Phil Kubler Friday during meetings over breakfast and later at City Hall. Sorrenson and Kubler are to report the results of the conference to the Lake Mary City Commission at its 7:30 p.m. meeting Thursday.

Among these requirements the developers would like changed are: — The minimum size of homes from 1,100 square feet to 1,000 or 900 square feet. Kubler notes that Cardinal Industries, an orange example, has said that an affordable home, especially for young couples just starting out in life, would have less square footage than the city requirement. The city manager added Cardinal Industries' homes meet the city's minimum square-footage requirement of the state and the Southern Standard Building Code.

— The city's current minimum lot size for single family home development is a 75-foot frontage and containing a total of 9,000 square feet. Kubler said the developers want a lot size of perhaps 85 foot frontage by 100 feet in depth. Kubler said that many homes in the Walker area have this same lot size.

— The number of septic tanks permitted per acre. Current city regulations permit only one septic tank per acre. The city manager said that the city's current regulations would be like that changed to four septic tanks per acre. The city manager said that the city's current regulations would be like that changed to four septic tanks per acre. The city manager said that the city's current regulations would be like that changed to four septic tanks per acre.

— The city's policy requiring a developer to pay not only the cost of installing water lines but also the cost of installing sewer lines. Cocaine Use Up

NEW YORK (UPI) — Blue collar workers are more likely to use cocaine than professionals and an increasing number of professionals are more likely to sample the drug than professionals by a margin of 14 percent to 9 percent.

The survey, conducted by Yankeebook, Skelly and White, says that cocaine use is on the rise among blue collar workers and professionals by a margin of 14 percent to 9 percent. The survey, conducted by Yankeebook, Skelly and White, says that cocaine use is on the rise among blue collar workers and professionals by a margin of 14 percent to 9 percent.

Four out of five million Americans use the drug at least once a month and somewhere between 200,000 and 1 million people are dependent on the drug, the survey showed.

Use of the stimulant has gone well beyond the mid-level managers and factory workers, said Peter Berger, senior director of the Drug Enforcement Administration.

Last year the DEA and the FBI arrested 4,500 people and seized nearly 12,000 pounds of the drug worth about \$2.5 million when dried and sold on the street — a record.

But the white powder, usually ingested by snorting up the nose, is now a \$20 billion a year business with some 45 tons of the drug in the marketplace every year, 1982.

IN BRIEF

Papa: Church Supports 'All Victims of Terror'

VATICAN CITY (UPI) — Pope John Paul II called for a "solidarity of all victims of terror" in a message broadcast on the radio Sunday.

The pope said that the church is "solidarity of all victims of terror" in a message broadcast on the radio Sunday. The pope said that the church is "solidarity of all victims of terror" in a message broadcast on the radio Sunday.

Speaking from the central loggia of the largest church in Christendom, the pope called on men and women to accept the message of the risen Christ and to show violence, hatred, war, injustice and oppression.

FLC's Arafat Noncommittal

In an updated press setback for President Reagan's Middle East peace plan, Palestinian leader Yasser Arafat has failed to give Jordan's King Hussein a go-ahead to join negotiations with Israel.

Brodie started at the Memorial Hospital in Sanford on July 1, 1968, as director of personnel and training. He was a member of the First Free Presbyterian Church, Sanford, and a member and past president of the Rotary Club of Sanford, Fla.

AREA DEATHS

Richman Likes Tigers, Padres in October Showdown

Milton Richman UPI Sports Editor

ALBUQUERQUE, N.M. (UPI) — This is as good a place as any for letting you see the two pennant winners, a nice neutral zone where there's nobody to pass off to, so here are my two outsiders' picks to wind up in the World Series next October — Detroit and San Diego.

pitching coach, can get the same kind of results again in '79, the Tigers could be a better bet than what they're being quoted as in Los Vegas.

about this for a minute: the five starting pitchers they're naming — Dennis Eckersley, John Tuohy, Bobby Ojeda, Bruce Hurst and Mike Stowers — didn't you 30 games among them last year.

I have the feeling the Dodgers could be in trouble. Pedro Guerrero, missing a year as knacker, might not correct this spring and didn't go home at home at all last year.

In BRIEF

Money Behind Big Legislative Issues

By Wayne Row

TALLAHASSEE (UPI) — Education, water and growth, major legislative priorities, are entwined with the money behind the Legislature on Tuesday, but at the back of every issue is a question of money.

Florida has proposed more than \$800 million in new taxes on alcohol, cigarettes, tobacco and intrastate weight is help fund an \$11.3 billion budget that includes a major new airport for Orlando.

150 Speaker Lee Moffitt, D-Tampa, endorsed the governor's budget proposals and even recommended some additional taxes of his own to finance pollution and water control programs.

Support is not universal, however.

Analysis

Senate President Charles Peterson, D-Lakeland, has repeatedly emphasized that the need for revenue is "the main reason for the Legislature's existence." Tuesday, but at the back of every issue is a question of money.

Florida has proposed more than \$800 million in new taxes on alcohol, cigarettes, tobacco and intrastate weight is help fund an \$11.3 billion budget that includes a major new airport for Orlando.

150 Speaker Lee Moffitt, D-Tampa, endorsed the governor's budget proposals and even recommended some additional taxes of his own to finance pollution and water control programs.

Support is not universal, however.

Legislative Start Low Key

By Sam Miller

TALLAHASSEE (UPI) — The Legislature got off to an unusually slow start this week because of the way it was interrupted by a day of special sessions last week.

Only a few bills are ready for consideration by the full House and Senate Tuesday, with only a few of the issues expected to be considered.

The March interim committee meetings were canceled last week. The Legislature expects that the special sessions will pass a \$236 million package of new taxes on alcohol, cigarettes, tobacco and intrastate weight, and new work on environmental protection.

The March interim committee meetings were canceled last week. The Legislature expects that the special sessions will pass a \$236 million package of new taxes on alcohol, cigarettes, tobacco and intrastate weight, and new work on environmental protection.

Pancreatitis Or Gallstones?

DEAR DR. LAMB — I have read about people who had pancreatitis in your column. I know what it is like to always see doctors, but you have been drinking. Well, I did drink beer last weekend when I was in college, but after college I got married and never even touched alcohol beverage. I had my first attack of pancreatitis when I had an attack I would have to go to the emergency ward with pain in my abdomen. My amylose level was always up. I had these attacks approximately every two weeks.

Dr. Lamb

My doctor put me in the hospital and the only thing they could find was an inflamed pancreas. Finally I had three attacks in one day and he admitted me again. This time they finally found some very small gallstones.
