

### Infantry Day Is Observed Today At Camp Blanding

CAMP BLANDING, June 15. (Special) — Two heroes, one an officer, the other an enlisted man of the Infantry Replacement Training Center at Camp Blanding, will be decorated for their battle achievements at today's Infantry Day celebration.

Capt. George R. Mitchell of the 66th Infantry Training Regiment will be awarded the Distinguished Service Cross.

1/Sgt. William R. Daniels of

Company F, 212th Infantry Training Battalion, will be presented the Legion of Merit award.

Capt. Mitchell, a native of Luzerne, Pa., who received his commission as a Second Lieutenant at Ft. Benning, Ga., in August 1942, will be decorated for extraordinary heroism in connection with military operations against the enemy on July 26, 1944, near the French town of Bois de la Roche when he was serving as a First Lieutenant with the 23rd Infantry.

As Company Commander he led his men through extremely fierce machine gun, artillery and mortar fire against superior numbers of Germans to seize their objective,

a strongly fortified wooded sector. Lieut. Mitchell moved among his men, urging them on, with disregard for his personal safety, although there were heavy casualties to his unit. He single handedly silenced one enemy machine gun with five shots of his rifle and fearlessly advanced alone toward a second machine gun emplacement in the face of withering fire. He fired his full cartridge clip into the dugout and again silenced a German gun. He turned back and waved his men forward and led them through the woods where they captured 40

prisoners.

He had landed on Normandy's bloody Omaha Beach on D-Day plus 4 and was in the front lines for 70 days. He was wounded on Aug. 2, 1944, just after his outfit had crossed the Vire river.

First Sergeant Daniels is like a good musician—he's good at doubling in brass. When on two occasions in battle he was forced to fill the role of officers, he so distinguished himself that he was cited by his commanding officer.

A resident of Anson, Tex., he went overseas as a First Sergeant and landed in Sicily on D-Day.

He battled through Salerno, Anzio, Italy and Southern France. When his company lost all of its officers, he acted as a platoon leader for an entire month. Another time, with but two officers left in the company, he was forced to assume the role of platoon leader again.

Sergeant Daniels was presented the Bronze Star medal last July for leading a light machine gun platoon during a counter-attack on Anzio. He was the only platoon to remain intact without losing a man. He also holds the Combat Infantryman's Badge and

four battle stars.

With 115 points, Sergeant Daniels plans soon to go home. Before entering the Army he worked for a mining and smelting company in Colorado. Now he wants to go to business school.

"I'm going to shop around a bit," he said. "I think it's going to be harder to learn to be a civilian again than it was to be a soldier."

To keep her young children warm, an Eskimo mother carries them naked on her bare back underneath her coat.

Sixty-seven per cent of the United States meat supply comes from federally inspected plants; 21 per cent from plants without federal inspection; and the remaining 12 per cent from farm slaughter.

An ancient invention patented in the British Kingdom was for a machine gun that shot round bullets at Christian enemies and square bullets at heathens.

The rebec was an ancient musical instrument somewhat like the violin.

### LEGAL NOTICE

You are hereby required and ordered to be and appear upon the first day of July, A. D. 1945, to the bill of complaint filed against you in this cause in the Circuit Court of Seminole County at Sanford, Florida, by Leroy Lowe, being an action for divorce.

The Sanford Herald is designated as the newspaper in which this Order shall be published for four consecutive weeks.

WITNESSES: O. P. Herndon, Clerk of the said Court at Sanford, Seminole County, Florida, and the official seal thereof, this 31st day of May, A. D. 1945.

O. P. HERNDON, Clerk

## 16 Poles Said To Confess To Many Crimes

### Trial Starts With England Accused Of Plotting To Form Anti-Soviet Bloc

LONDON, June 18, (AP)—The Soviet-controlled Berlin radio today announced that Col. Gen. Berzarin, Russian commander in the German capital, has been killed in an accident. The broadcast gave no details.

MOSCOW, June 18, (AP)—The secretary of the Military Collegium of the Supreme Court told the judges today that Maj. Gen. Okulicki and others of the 16 Polish leaders had confessed to a long list of charges including killing 594 Russian officers, anti-Soviet espionage and conferring with the Germans.

Okulicki was accused of possessing at the time of his arrest by the Red Army a document in the event of a Soviet victory over Germany. England would have to form a western European bloc to combat the Russians.

The document was said to assert that Germany and Poland should be in the bloc. Instructions were that the Red Army prosecutor would ask the death penalty at least.

## Mrs. R. L. Dean Installation Of Delivers Address Officers Held At Rotary Club American Legion

In an impressive ceremony Friday evening at the Legion Hut, officers of Campbell-Lossing Post 58 and auxiliary were installed. In the absence of J. J. Rocco, commander-in-chief of the post, John David, first Seminoles County veteran to be discharged under the point system, stood in his place.

Other officers installed under direction of Joel B. Field, commander of the 7th district were: H. B. Pone, vice commander; C. A. Morrison, second vice commander; Forrest Gatchal, their vice commander; Dr. R.W. Rucker, chaplain; Aubrey Kendall, sergeant at arms.

Mr. Field spoke of the Legion work during the past two years of Post Commander William E. Thorne, and said that he had done a wonderful job.

Mrs. Roy Prance of Kissimmee, seventh district commander, presided at the installation. Following officers after mentioning that the president, Mrs. Sybil Routh, had already been installed: as vice president, Mrs. M.D. Baker; as secretary, Mrs. Lucretia Irwin; as treasurer, Mrs. Olga Hunter; as chaplain, Mrs. Margaret Gott, an sergeant of arms, Mrs. Joel Field and as assistant sergeant of arms, Mrs. Elizabeth Long. Mrs. K.N. White, district sergeant at arms, was present.

Joel Field told the group that he was in favor of compulsory military training for young men, and suggested that the Legion sponsored the student military corps of Seminole High School which during the past year has been sponsored by Kiwanis. He pointed out that by training the young men stood a chance to become officers and would receive discipline that would make them more valuable to their school, home and country.

He then told of establishment of State Legion Headquarters for the next year to be located at the Valley Hotel. A covered dish supper, prepared by members of the Auxiliary, was served prior to the meeting.

# Japanese Surrendering In Large Numbers In Two Pacific Campaigns

## Robert R. Dodson Dies In Hospital In Washington

### Well Known Sanford Man Had Received Medical Discharge

Robert Randolph Dodson, well known Sanford auto mechanic and war veteran, died Friday evening at Mount Alto Veterans' hospital, Washington, D. C. after an illness of two years.

Mr. Dodson had lived in Sanford since 1920 and until his illness had been engaged in the automotive repair business. For many years he lived as a member of the family of Mr. and Mrs. J. W. More, both prior to the time they came to Sanford and during the time they have lived here. He was born in Culpeper, Va. April 14, 1900.

He entered the Army on Oct. 1, 1942 and during the latter part of January, 1943, received a discharge from the 34th Central Postal Directory in California because of illness. He was a member of the First Presbyterian Church and of Campbell-Lossing Post 58 of the American Legion.

Mr. Dodson is survived by the parents, Mr. and Mrs. R. B. Dodson of Mount Vernon, Va.; four sisters, Mrs. Alice Almon, Mrs. George Phillips and Mrs. Ella Naggett of Mount Vernon, and Mrs. Winslow Gaulof of Washington, D. C.; three brothers, Rupert W. Dodson, John William Dodson and Dudley Dodson of Washington, D. C.

No announcement has been made yet concerning funeral arrangements or interment.

## Air View Of Wreck Where Sixteen Died

Rescue workers mull about the scene in this aerial view of the wreck of the Rock Pennsylvania Railroad Washington-Buffalo express which was derailed at Milton, Pa. Sixteen persons were killed and about thirty others injured in the accident which occurred when details of the train fell over the tracks and the passenger train crashed into them. (International)

## Superforts Put The Torch To Four Big Cities In Japan; Death Rate Grows

WASHINGTON, June 18, (AP) General Eisenhower returned triumphantly today to a grateful America to receive from his countrymen a conquering hero's tumultuous acclaim. Thousands cheered him on a parade to the capitol where he told the nation's lawmakers and jurists the soldier "passionately believes the problem of peace can and must be met."

Fire raiding Superforts put the torch to four more Japanese cities today with 3,000 tons of incendiary bombs as American ground forces stepped up the Japanese death rate in the closing stages of the Okinawa and Philippine campaigns.

Japanese soldiers lost their will to fight and surrendered in unnumbered large numbers as they saw nearly 3,000 of their comrades killed daily in the island battles.

Substantial gains were reported on northern Luzon and in southern China including a rapid advance of U.S. infantrymen on the Cagayan Valley plains of the northern Philippines.

Both Allied and Japanese command announced that war would be speeded up Tokyo force-

## Road Meeting Will Be Held Tonight At Court House

All citizens of Seminole County who are interested in development of county roads in their respective sections, are requested to attend a special meeting of the County Commission to be held at the Court House at 8:00 o'clock this evening for the purpose of determining what secondary roads in the county should be improved as feeders to the primary system under a new Federal aid plan, according to O. P. Herndon, county clerk.

This meeting is being held as a result of receipt of a recent letter from E. Elgin Hayes, chairman of the State Road Department to the Commission in which it was stated that Congress has allocated the sum of \$1,500,000,000 for the purpose of developing roads during a three year period throughout the nation. Of this amount Florida will receive \$7,000,000 per year or \$21,000,000 for the entire three year period.

Seminole County has been requested to list secondary roads totaling 100 miles in length in order to get priority consideration. This does not include primary roads such as State Road 17. For construction of secondary roads the Federal government will allow 60 percent of the cost, 50 percent of the cost.

## Pvt. James R. Ellis In Georgia Hospital

AUGUSTA Ga., June 18, (Special)—Pvt. James R. Ellis, of 401 Celery Avenue, Sanford, has arrived at the Oliver General Hospital for further medical treatment.

Oliver General Hospital is one of the Army's great medical institutions, and has a bed capacity of 8,000. It represents the final step in the chain of evacuation from the front lines.

With the war against Japan underfoot in the minds of its personnel, Oliver General is making every effort to be ready for the casualties which must inevitably result from the prosecution of the war in the Pacific. Thousands of wounded and sick men from the European Theater also continue to be evacuated and receive treatment here.

## American Egret Is Placed In City Zoo

An immature American egret, evidently exhausted from lack of food, dropped down on the lawn of Mrs. Phyllis Allen 111 Holly Ave., Friday. The bird was picked up by Phyllis, and with the aid of Mrs. John Miller, was brought to the zoo.

The keeper, Phil King, has been since feeding and watering the egret, but it is still very weak. If it recovers it will be placed with the other birds in the zoo.

American egrets feed from shallow waters and ponds, but because of the intensively dry weather, undoubtedly a number of the feeding places have dried up and that may account for the egret dropping on a lawn in Sanford, according to Park Superintendent Miller.

## Thomas Alva Edison Established First Electric Supply Plant In The World In 1881

Vanilla vines are cultivated under trees large enough to afford shade because they cannot stand much direct sunlight.

## J.J. Rocco Is Installed In Absentia; David Stands In His Place

In an impressive ceremony Friday evening at the Legion Hut, officers of Campbell-Lossing Post 58 and auxiliary were installed. In the absence of J. J. Rocco, commander-in-chief of the post, John David, first Seminoles County veteran to be discharged under the point system, stood in his place.

Other officers installed under direction of Joel B. Field, commander of the 7th district were: H. B. Pone, vice commander; C. A. Morrison, second vice commander; Forrest Gatchal, their vice commander; Dr. R.W. Rucker, chaplain; Aubrey Kendall, sergeant at arms.

Mr. Field spoke of the Legion work during the past two years of Post Commander William E. Thorne, and said that he had done a wonderful job.

Mrs. Roy Prance of Kissimmee, seventh district commander, presided at the installation. Following officers after mentioning that the president, Mrs. Sybil Routh, had already been installed: as vice president, Mrs. M.D. Baker; as secretary, Mrs. Lucretia Irwin; as treasurer, Mrs. Olga Hunter; as chaplain, Mrs. Margaret Gott, an sergeant of arms, Mrs. Joel Field and as assistant sergeant of arms, Mrs. Elizabeth Long. Mrs. K.N. White, district sergeant at arms, was present.

Joel Field told the group that he was in favor of compulsory military training for young men, and suggested that the Legion sponsored the student military corps of Seminole High School which during the past year has been sponsored by Kiwanis. He pointed out that by training the young men stood a chance to become officers and would receive discipline that would make them more valuable to their school, home and country.

He then told of establishment of State Legion Headquarters for the next year to be located at the Valley Hotel. A covered dish supper, prepared by members of the Auxiliary, was served prior to the meeting.

## Home On Leave

Sgt. Joseph Benarik of Fort Jackson, S. C. spent the week-end at the home of his parents, Mr. and Mrs. John Benarik. He arrived to attend the wedding of his sister, Miss Anne Benarik, to Mrs. Ward Benarik.

V-12 Student Daniel Benarik arrived home for a two week leave from Miami, Ga. He will be stationed at the University of Kansas after his leave is over.

Lieut. O. L. Butner is spending a seven day leave with his parents, Mr. and Mrs. Leo Butner. Lieut. Butner was stationed in Rawl, N. Mex. but following his leave will be to a new station in Lincoln, Neb.

## Half Way Point Is Reached In Racing

LONGWOOD, June 18, (Special)—Tonight starts the middle week of the first summer program of racing at the Sanford-Orlando Kennel Club, resulting in the closing of all race tracks under closing of Jimmy Byrnes order closing all race tracks last Jan. 3. The Florida Legislature immediately extended Florida's racing season beyond May 31, its official closing date, and ten weeks of racing were scheduled for the Longwood track. Tonight is the beginning of the fifth week.

In tonight's events, Dobbs racing from the number two box in the second race, and Uncle Don, out of the eight box in the third race, according to some fans, should make the daily double, with Laesle taking the feature seventh event.

## WEATHER

Florida: Breezy cloudy today through Tuesday, scattered showers and interior drizzle afternoon and along southeast coast Tuesday. Partly cloudy with scattered showers this afternoon, tonight and Tuesday. Gentle to moderate coastal winds.

## Tax Sale Will Be Made At Court House July 2

The last call was made today for the payment of county taxes assessed on the 1944 tax roll and remaining unpaid. Persons who have purchased real estate during 1944 or 1945 would be well to check up and see that the 1944 taxes are paid. Joe D. Jenkins said today. In some cases it has been found that after the tax sale has been made, property has changed hands several times and none of the owners paid the taxes.

The tax sale will be held at the Court House on Monday, July 2, and these delinquent taxes may be paid to the County Tax Collector at any time before the sale. In such cases the sale will be stricken from the sale list.

List of lands advertised for unpaid 1944 taxes appeared in the Sanford Herald on May 25. June 4, 11 and today. Taxes have been paid on a large number of these items but there are remaining some items unpaid. The number of items originally listed was 458; the number of these which have been paid is 168, leaving approximately 288 items yet unpaid.

Mr. Jenkins called attention to the Florida law which provides that "All owners of property shall be held to know that taxes are due and payable thereon annually, and are hereby charged with the duty of ascertaining the amount of such tax and paying the same before the first of April of each year."

## INFLATION DANGER

NEW YORK, June 18.—The collective purchasing power of wage earners represents the most serious danger of inflation. Secretary of the Treasury Morgenthau said today in arguing that more money be put into war bonds.

"The civilian goods which you can buy with your money are very scarce," he said in a talk prepared for mutual system broadcast from New York as part of "labor's salute to the Seventh War Loan."

"They are going to be scarce for a good long while to come. We need to make our minds to this fact and face it."

## BRIDGES WINS

WASHINGTON, June 18, (AP)—The Supreme Court today ruled in favor of a deportation order against Harry Bridges, the West Coast CIO leader. The court's decision eliminated a seven year fight over government efforts to send the alien Bridges back to Australia whence he came a quarter of a century ago. Attorney General Biddle ordered Bridges deported on June 14, according to word received from the Orlando Recruiting Station. Both youths, 17, will remain on inactive duty for several weeks. The former is the son of Thomas Bandal Vaughan of 207 W. Eighteenth Street and Colvin is the son of Cary Alden Taylor Sr. of 401 Palmetto Avenue.

## Softball Season Gets Underway Under Kettles

Under direction of Coach E. Kettles, the Softball League of the City of Sanford was organized at Seminole High School on Friday evening and representatives of four teams participated. Dr. L. T. Josa was elected president of the League.

On Thursday evening at the Lakefront Park the league will start its season at 7:45 o'clock with the State Guard team playing Emerson's and at 9:15 with Yowell's playing Franks.

Some idea of the rivalry and excitement likely to be stirred up by these games is indicated by the fact that the Yowell team backed by that adroit sportsman, Arthur Yowell, led Seminoles to the State Guard team, and the Franks team, mostly Navy men, will be managed by Yeoman J. W. Buckler of the Sanford Naval Air Station.

Frank's team, managed by Frank Pawlick, will have on it the cream of Sanford's veteran softballers. Emerson's will have at the helm crack Charles Morrison who will recruit his team from the mighty slugging celebrities of Seminole High School. The State Guard team, under direction of Coach Kettles, will have as their president the Seminoles County Sportsman Association, will be recruited from the Guardmen, and it is rumored will have on it other great sportsman, Frank Pawlick.

Not in the league, but at the same time, will play Tuesday night at the Lakefront, and who will probably obligingly collect all the uniforms on their clothing in order to aid the league's players of Thursday evening.

## War Bond Drive Is Lagging In County, Ed Lane Reports

For the first time Seminole County is being behind in a war bond drive it was revealed today by Edward F. Lane, county publicity chairman of the 7th war loan drive.

With only 12 hours left to go, the county is short on its E. Bond sales to the extent of \$10,000 and to date only \$120,000 have been sold.

"We must sell on the average of \$10,000 each of the 12 remaining days to meet our quota and that is a lot of E. Bonds," said Mr. Lane today.

A Bond Promoter show will be given Wednesday, June 20 at 8:15 o'clock at the City Theatre, and a special program has been arranged. Mr. Lane, president of the County War Loan Drive, will be the featured speaker, including eight bands and a variety show. The program will include "A Song for Tomorrow" starring Paul Moran and Marie Oberon, will be presented.

Persons purchasing bonds will receive tickets to the performance.

## Negress Injured In Bus Accident

Wallops Boston, a young colored girl, was injured in a bus accident after being hit and broken by the open door of the bus from which she had just alighted at First Street and Park Avenue at about 10:30 o'clock this morning. Somehow the bus moved forward after stopping, bystanders said.

Mrs. Paul H. Moore, wife of Lieut. Moore of the Sanford Naval Air Station, happened to be crossing nearby and screamed a warning to the bus, and for the negress to head it and get out of the way. The girl fell on the negress, the glass globe was shattered on the pavement, and police had to warn away the crowd as the Eriksen ambulance drove up.

The negress was then taken to the Sanford Clinic where X-rays were taken, and then to Fernhill-Loughton Memorial Hospital, where she was reported by Dr. G. H. Starks, attending physician, as resting comfortably. Extent of her injuries, he said, included a laceration on the left temple, which required four stitches and two fractured ribs on the right side. She was also shocked and dazed from the impact of the heavy pole to which was attached several direction signs. No arrests were made, according to police. The bus was driven by Joe Burch.

## Site Is Selected For Location Of Farm Station

Approval of a site selected for location of a new vegetable experimental station in Sanford was given Saturday by Harold Moore, director of agricultural services at Gainesville. Mr. Moore was accompanied by Sanford to inspect the site by Dr. L. O. Gratz, assistant director.

The property owned for the station was the Richard Hickson farm of 25 acres just east of Brown Mill on the Old Highway. County Agent E. P. Dawkins pointed out that this experimental station would be a valuable asset to the vegetable growers of Central Florida. E. F. Stacey, P. T. Clyde and P. T. Francis E. Wilson.

## Richard Shaw, U.S.N. Back After 20 Months

WASHINGTON, D.C. June 18, (Special)—Richard M. Shaw, Aviation Chief Machinist's Mate, U.S.N., of 317 Park Avenue, Sanford, has returned on leave after 20 months of duty in the South Atlantic where he was plane captain of a land-based Navy search plane on 53 missions.

Flying in a big PBM MARINER, he participated in long day and night searches in all kinds of weather, on the lookout for enemy submarines and other threats to our surface forces.

Attached to Patrol Bombing Squadron 211, the 81-year-old Navy aircraftman and his squadron mates played a vital part in the battle to get men and supplies safely to the European war theater.

Chief Shaw was a shipping clerk before joining the Navy in 1941. His wife, Mrs. Mary Louise Shaw, lives at the Park Avenue address.

## Superforts Put The Torch To Four Big Cities In Japan; Death Rate Grows

WASHINGTON, June 18, (AP) General Eisenhower returned triumphantly today to a grateful America to receive from his countrymen a conquering hero's tumultuous acclaim. Thousands cheered him on a parade to the capitol where he told the nation's lawmakers and jurists the soldier "passionately believes the problem of peace can and must be met."

Fire raiding Superforts put the torch to four more Japanese cities today with 3,000 tons of incendiary bombs as American ground forces stepped up the Japanese death rate in the closing stages of the Okinawa and Philippine campaigns.

Japanese soldiers lost their will to fight and surrendered in unnumbered large numbers as they saw nearly 3,000 of their comrades killed daily in the island battles.

Substantial gains were reported on northern Luzon and in southern China including a rapid advance of U.S. infantrymen on the Cagayan Valley plains of the northern Philippines.

Both Allied and Japanese command announced that war would be speeded up Tokyo force-

## Sailor Found Dead From Bullet Wound

Police received a telephone call at 1:40 A. M. Sunday to the effect that Robert S. Hamford, Petty Officer 1st Class of the Sanford Coast Art Station, had been found in his garage apartment at 20 West Sixteenth Street, shot himself.

Investigation by Officers E. H. Haden and C. G. Haden, according to the record at the City Police Department, that Hamford had shot himself with a .45 caliber pistol through the temple. He was rushed by Navy ambulance to the station hospital where he died at 2:43 A. M. police were informed.

Police reported that the pistol had only one shell in it, the others were on the table and floor in the apartment. The bullet was later found in the bed.

An investigation is being made by Naval authorities to determine if the shooting was intentional or accidental, according to Lieut. W. K. Stry, public relations officer of the Sanford Naval Air Station.

Hamford is survived by his wife and two daughters, one five years and the other about 15 months old. Prior to coming here he was stationed in Miami.

## One Little Red Hen Is Doing Her Duty

Deeply concerned over OPA reports of an egg shortage, a little red hen of the New Hampshire variety in the backyard of J.T. Hardy, 108 Poplar Avenue, aroused the whole neighborhood this noon with her triumphant and somewhat agonized cackling as she laid an egg of record breaking size.

Mr. Hardy, who is connected with the city water distribution department, today proudly exhibited the egg at the Herald Office. It weighed four ounces, was seven and a quarter inches in circumference and was four and a half inches long.

### Great Peace Time Future Predicted In Field Of Radar

NEW YORK, June 18, (Special) — With the lifting of some re-

strictions on discussion of the war's most important yet least talked-about technical development — radar — the radio industry that developed it and kept it constantly beyond the counter-measures of the enemy predicts for it a peacetime position even greater than its share

in victory. Though in all of its applications radar is one of the most complex bodies of technical knowledge, in principle as revealed by the Radio Manufacturers Association it is comparatively simple. The word radar is a contraction of "radio-detecting-and-ranging", and, significantly, is spelled the same way backwards as forwards. Its basic principle is the fact that radio waves sent out from the radar unit are returned to it in identical form. This principle is similar to the familiar measurement of distance to cliffs by timing echoes, except that radio waves are used instead of sound waves. The radar unit sends out its wave at 180,000 miles per second. When it strikes any object with a den-

sity greater than air, the wave is reflected and returned to the unit where the existence of the object is revealed and the distance is computed on the basis of the time elapsed. While the means of determining speed of movement of the object, its height in the case of airplanes and other necessary facts are complex, they fit into this simplified principle. Through the use of cathode ray tubes—the same tubes that will make postwar television a universal feature—the waves returned to the radar unit are translated into images which, in many cases, not only indicate the location of the object but give sufficient detail to identify it accurately. The applications of this new weapon—now equally as useful for defense as defense have been widespread. Not only has it served in aircraft detection, but its "radar" has enabled accurate naval gunnery in darkness or fog, has enabled the Allies to bomb targets obscured by clouds or smoke, has made anti-aircraft fire far more accurate than ever before, has enabled planes to fly, attack and even land with perfect safety in complete darkness.

### Recruits Are Needed By Merchant Marine

Navy and Coast Guard veterans were urged today by Mrs. Ruth M. Allen, manager of the Sanford office of the U.S. Employment Service of the War Manpower Commission, to ship out in the Merchant Marine, which she said urgently needs men to keep supplies moving to the fighting fronts. Many men, disqualified physically for further naval service can meet the less rigid requirements for the Merchant Marine, she added. Applications are being received by the U.S. Employment Service at 112 North Park Avenue.

Veterans of 18 months at sea, either on deck or in the engine room of a vessel of over 100 gross tons, are eligible for examinations as third mate or third assistant engineer. Mrs. Allen pointed out, and men with 14 months similar experience may enter a Maritime Service training school for officers. Merchant Marine time can be added to Navy time to meet the 14-month requirement for prospective officers, she added. Navy radio operators, chief cooks, and second cook-bakers may be able to qualify for similar ratings in the Merchant Marine, even without actual sea duty.

Men who have had at least six months at sea on deck, or two months in the engine room of a 100 gross ton vessel may qualify as able seaman, if he can pass a lifeboat examination, and men who have had at least two months at sea in the engine room may take examination for ratings of fireman, water tender, or oiler. Navy and Coast Guard veterans interested in the Merchant Marine should bring with them proof of birth and transcript of service, which can be obtained by writing or visiting the Bureau of Navy Personnel, Navy Department, Washington, D.C.

**POST WAR INDUSTRIAL OPPORTUNITIES POINT TO A NEW FRONTIER... FLORIDA**

**PAY DIRT**

An abundance of varied raw material is right at the front door of your industrial location in Florida. Florida's soil teems with valuable minerals in important quantities, to match its crop fertility. Added to Florida's strategic location as regards markets — local, national and international — these factors show why the post war manufacturer who locates in Florida may well strike "pay dirt."

Limitless opportunity in endless variety promises well to the builders of Florida's Industrial Empire. Transportation maps reveal Florida's richness by land, sea and air, to vast markets. Investigation will prove the richness in raw materials, abundance of its electric power and labor supply.

Profit possibilities in Florida manufacturing are yours to exploit as immediate attention for contracts to manufacture in Florida.

"Florida's Mineral Industry," "Florida Clay and Clay Products," "Florida Glass Sands," "Florida Mineral Pigments," "A Complete Plastic Industry in Florida," "A Florida Factory Industry from Florida Clay," "The Tanning Industry in Florida," "A Florida Limestone and Limestone Products Industry," contact the company manager in your community or write the Industrial Development Department of Florida Power & Light Company, Miami 30, Florida.

\* In Florida's soil and beaches are found such commercially valuable minerals as: Fuller's Earth, Zircon, Zirconium, Silica, Glass Sands, Vermiculite, Pottery Clay (common clay), Brick Clay (common clay), Earthenware Clay, Kaolin, Limestone, Flint, Rutile, Ilmenite, Limonite Sands (bog iron ore), Dolomite and Phosphate. Add in addition to these, Florida offers naval stores, fibrous wood products and wild (game), tung oil and other drying oils, wool pulp (Southern shoddy) hides (for leather tanning).

Florida's industrial empire awaits your participation.

**FLORIDA POWER & LIGHT COMPANY**

### Large Numbers Of Japanese Surrendering

**Continued From Page One**  
 The widespread assault on Kyushu and Honshu, the first four-day attack on such a scale, marked the second raid of the second year of B-29 aerial warfare against Japan. The new year opened Saturday with a 3,000-ton assault on Osaka which Arnold said marked the start of a campaign to batter Japan with 2,000,000 tons of bombs in the next year.

All of today's targets were cities of under 200,000 population. Headquarters of Major Gen. Curtis E. LeMay, Twenty-first Bomber Command chief, said the attacks marked the beginning of the "second phase of B-29 operations against the Japanese homeland." He said that six major Japanese industrial centers—Tokyo, Osaka, Nagoya, Yokohama, Kobe and Kawasaki—already had been "fritten off" as B-29 targets simply because they have been

failed. He promised that the smaller but nonetheless important centers of "backyard and cellar production" would be hit from here out. Omuta is a city of 127,000; Kashima, 131,000; Misahata, 165,000; and Yokkaichi, 112,000. They were battered between two and four o'clock this morning (Tokyo time).

Before today's attack, about half a square mile had been burned out in Hamamatsu and 26 acres of Kashima's urban area had been blasted in previous raids by the Twenty-first Bomber Command. Damage to Omuta in last year's raids from China apparently never was ascertained.

Hamamatsu is the second largest city between Yokohama and Nagoya and is an outlying component of the great Nagoya industrial area, 12-33 miles of which have been burned out. Hamamatsu contains important plants making materials used in the airplane industry and is also a key railroad repair and marshalling center.

Hit War Chemical Center Omuta, site of the largest artificial harbor in Japan, is the center of war chemicals industry and also produces synthetic oil.

Yokkaichi is an excellent port center and also is the site of textile mills, the Ishihara smelter and refinery and extensive railroad freight yards.

Kashima is noted principally as an agricultural center but also has several oil storage tanks, and factories producing explosives and submarines.

Tokyo meanwhile reported that more than 100 American warplanes had raided the island of Tane Ga, in the northern Ryukyus 30 miles south of the Japanese mainland of Kyushu, on Saturday. Tokyo said that raid brought the total American planes over the Ryukyus on Saturday to approximately 280.

The enemy also reported that Premier Baron Kantaro Suzuki and other government officials in suspected damaged war factories in Nagoya yesterday, only a few hours before the B-29's hit the neighboring area.

Two Navy Marines search planes, attacking the port of Sasaxiu on the Southern coast of Shikoku, one of the Japanese home islands, destroyed by fire and left a ferry and a pier in flames today, Adm. Nimitz's communique reported. The seaplane made 12 strafing and six bombing runs on the shipyard.

Navy privateer search planes sank a small cargo ship south of Korea yesterday, and a medium freighter-transport in the Yellow Sea last night.

Two Navy search planes were attacked south of Cansho Bay by about 12 enemy fighters and destroyed three and damaged five of the Japanese planes in a running battle that lasted for more than 100 miles. The American planes were undamaged.

The doctrine that the earth is spherical can be traced back to the Pythagorean school of Greek philosophy in 500 B.C.

### Market Director Sees Poultry As Growing Scarcer

**JACKSONVILLE, June 15.**—(Special)—"The bill passed by the 1945 Legislature requiring the State Board Department to support and maintain passing at State Markets is a greatly appreciated contribution to our citizens," William I. Wilson, Director of State Farmers Markets, said in his weekly crop and market review today.

"The scarcity of eggs and chickens which is now pronounced, will get worse as summer progresses and will be given more serious this coming winter unless our poultry producers take immediate steps to increase their production," he continued. "High costs of feeds and labor coupled with dissatisfaction with existing prices have resulted in producers reducing their flocks to a very low level. An announcement by the OPA that steps are being taken to remove the price barrier to production would facilitate increasing size of flocks."

Such surplus producing sections as the Carolinas, Australia and the Union of South Africa, together with Mexico, Central and South America, will have considerable quantities for some time. Supplies are readily available and the consumer purchasing power is high in all these countries. While world production of meat has not changed materially,

### Important Nations To Face Serious Sugar Shortage

**WASHINGTON, June 15.**—Multination threats of serious sugar shortages this year, the Department of Agriculture said yesterday.

An outline of the world's sugar prospects, excluding Japanese-held areas, prepared by Gustave Burmeister of the department's Office of Foreign Relations, said "The difficulty in 1945 is not so much one of total supply but of distribution."

"Those areas that normally produce export surpluses will have record large quantities available for local consumption, while the importing countries will have to tighten their belts."

"This situation makes for critical shortages in the important consuming countries where nations have been in effect shut out the last year."

Burmeister said that such areas as the United States, the United Kingdom, Canada, nearly all of Europe and the Middle East, which do not produce enough to meet their own needs, "probably will feel the pinch" more in 1945 than at any time since the war began.

Such surplus producing sections as the Caribbean, Australia and the Union of South Africa, together with Mexico, Central and South America, will have record large quantities for some time. Supplies are readily available and the consumer purchasing power is high in all these countries. While world production of sugar has not changed materially,

during recent years, Burmeister said, last year's supply but and reserve stocks have been to slightly larger than stocks in 1942 and 1943.

Production in 1945 is estimated to be a bare operating minimum of 2,000,000 tons compared with 2,200,000 tons in 1944 and 2,300,000 tons in 1943, he predicted.

Excluding the Japanese-held 1942 to 1943. It declined a little less, the sugar supply was up more to a level of 2,023,000 tons for use in 1945 totaled 21,200,000 in 1944 but it was expected to 200 short tons—one million less use to 2,315,000 tons this year.

### 16 Poles Said To Confess To Many Crimes

**(Continued From Page One)**  
 Moscow radio said the 16 Polish leaders whose trial opened today in the Soviet capital had "admitted the Polish home army was being kept intact for eventual armed struggles against the Warsaw provisional government and the Red Army."

Earlier Moscow had announced the 16 underground leaders had been indicted formally on charges of sabotage behind Russian lines. The Moscow broadcast said Maj. Gen. Bronislaw Okulicki, commander of the Polish home army, testified he had received orders from the exiled Polish government in London "to preserve the home army in a condition of illegality."

While Russian courts were preparing to handle this particular problem, initial conversations had already taken place between Stanislaw Mikolajczyk, former Polish premier in London, and other Polish groups, aimed at forming a Polish provisional government along the lines set down by the Crimean conference.

Special passes were issued yesterday to Soviet and foreign correspondents permitting them to attend "the sittings of the mil-

BIBLE VERSE FOR TODAY

IF WE ARE WORKING WITH GOD WE NEED HAVE NO DOUBT THAT ALL WILL WORK OUT FOR THE BEST IN THE END.

THE DANCE From The Erasmus, Erasmus Hall High School. A crumpled bit of lacy frill. A crushed gardenia on the sill.

One thing we like about the hot weather: it is the season of mangoes.

We suppose the Legislature figures the people have lots of money; let them pay for it.

Additional gasoline for drivers means more accidents on the highways. Drive carefully.

Von Ribbentrop was captured in the nude, obviously a case when any nudes is good news.

The Big Three are going to meet in Berlin, even if they have to take their own pup tents with them.

Morrison Appeals for Old Tickets—headlines, Pinballs, Cuba tickets and slot machines excepted.

If those who attended the "Here's Your Infantry Show" last week haven't bought a bond yet, there isn't much hope for them.

Gov. Millard Caldwell will arrive in Orlando yesterday to inspect the Florida State Guard—Orlando Sentinel. It's a great war, Martin, a great war.

Mrs. Roosevelt admits that the communists are becoming a menace to this country. After 12 years! Well, the situation must really be getting serious.

In Philadelphia a labor union threatens to strike if a world war veteran, not a union member, is given back his former job. We are afraid such policies will adversely affect public opinion, bring a reaction against unions.

Labor unions leaders have come out against peace-time military training. If they are afraid of its being used as a weapon against Russia, we think they are mistaken. We believe Russia has had all the war she wants for many years to come, and certainly no one in this country is looking for a fight with her.

The Tampa Tribune points out that the Senate's rejection of the Lend-Lease bill could block the division of this state in north and south Florida, and undoubtedly would, since North Florida, speaking from a tax viewpoint, is living off of South Florida. Besides not many people in South Florida want to be separated from North Florida, just as they are about reappointment.

U. S. Army intelligence reports that V-2 rocket bombs capable of pin point accuracy at 3,000 miles were within reach of German scientists by the end of the war and no doubt would have been brought to bear against this country if the Germans could have held out for a few more months. That is something to remember in thinking about preparedness for future wars. An General Patton says, there probably will be another war, there always has been.

Orlando has had a number of serious accidents lately, most recent swimming in her beautiful lakes. So has Sanford. These accidents will tend to increase as the need for relaxation and time for recreation increases. They will increase unless appropriate measures are taken by public officials to prevent them. Here a Coast Guard unit with a motor boat should be stationed near Silver Lake and Lake Mary during the bathing hours. A modern police car equipped with a siren and a police officer in the back of the car would also be a good idea.

Last Will and Testament

Some years ago in a Chicago poor house a will was found on the body of one of the inmates shortly after his death. This man in his younger and more affluent days had been an attorney and the will was written in a bold clear hand.

The Herald takes pleasure in reprinting it here, because we believe it contains something which should belong to all of us. It is as follows:

"I, CHARLES LOUNSBERRY, being of sound and disposing mind and memory, do hereby make and publish this my last will and testament, in order as justly may be, to distribute my interests in the world among succeeding men:

"That part of my interests which is known in law, being inconsiderable and of no account, I make no disposition of in this, my will. My right to live, being but a life estate, is not at my disposal; but, these things excepted, all else in the world I now proceed to devise and bequeath.

"Item: I give to good fathers and mothers, in trust for their children, all good little words of praise and encouragement, and all quaint pet names and endearments; and I charge said parents to use them justly, but generously, as the deeds of their children shall require.

"Item: I leave to children inclusively, but only for the period of their childhood, all and every flower of the fields and the blossoms of the woods, with the right to play among them freely according to the customs of children, warning them at the same time against thistles and thorns. And I devise to children the banks of the brooks and the golden sands beneath the waters thereof. And I leave to children the long, long days to be merry in, in a thousand ways, and the night and the train of the Milky Way to wonder at, but subject, nevertheless, to the rights hereinafter given to lovers.

"Item: To boys jointly, all the useful idle fields and commons where ball may be played, all pleasant waters where one may swim and ponds where one may fish, or where, when grim winter comes, one may skate, to hold the same for the period of their boyhood. And all meadows, with the clover blossoms and butterflies thereof; the woods, with their appurtenances; and all distant places which may be visited, together with the adventures there found. And I give to said boys, each his own place at the fireside at night, with all pictures that may be seen in the burning wood, to enjoy without let or hindrance or without any encumbrance or care.

"Item: To lovers I bequeath their imaginary world, with whatever they may need; as the stars of the sky, the red roses by the wall, the bloom of the hawthorn, the sweet strains of music, and aught else they may desire to figure to each other: the lastingness and beauty of their love.

"Item: To young men jointly, I devise and bequeath all the boisterous, inspiring sports of rivalry, and I give to them the disdain of weakness, and undaunted confidence in their own strength. I leave to them the power to make lasting friendship, and to them, exclusively, I give all merry songs to sing with lusty voice.

"Item: And to those who no longer are children or youths or lovers, I leave memory; and bequeath to them the volumes of the poems of Burns and Shakespeare and of other poets, to the end that they may live the old days over again, freely and fully.

"Item: To our loved ones with snowy crowns, I bequeath the happiness of old age, and the love and the gratitude of their children, until they fall asleep.—Chas. Lounsberry, Signed."

Old - Timers

A new ancient civilization has been found, going back perhaps to 3,000 B.C. This is in Palestine, the home of many civilizations. The Jewish Palestine Exploration Society, supported in part by funds raised in the United States by the United Palestine Appeal, has been digging along the south-western shore of the Sea of Galilee, and finding evidence that civilized people lived there almost uninterruptedly down to at least the third century B.C.

Beth-Yerach was the town's name in Hebrew times. It seems to have been an important market town, showing that Palestine was then as now a bridge between Egypt and Syria.

A good measure of civilization is the interest in cleanliness. Baths were found in abundance in Beth-Yerach. Americans will admire this taste. Present day Arabs are said to be less interested.

Very truly yours, Claude Pepper

DEVELOPMENT OF DOMINATION. The Stake: Your Pocketbook! Some other members of the Florida delegation in Congress and I have thought it in the public interest to intervene in the Florida East Coast Railway reorganization proceeding now pending before the Interstate Commerce Commission and to ask that the Interstate Commerce Commission put the Florida East Coast Railway in the hands of the best regular experienced railroad management which it can find.

The Florida East Coast Railway for a number of years has been in receivership. It is now in the jurisdiction of the Federal District Court for the Southern District of Florida under Judge Strum of Jacksonville, and before the Interstate Commerce Commission under Section 7 of the bankruptcy act.

This railroad consists of 16.3 per cent of all the railroad miles of the State of Florida. It has 866 miles of double track of railroad between Jacksonville and

"Battle Shock" By W.V. Dittling Touchton Drug Co. This man in the armed forces who is released because of diphtheria or "Battle Shock" is awarded an honorable discharge.

It does not mean that he has a permanent mental ailment. It does not mean that he cannot return to normal life, full employment, full enjoyment of society, family and friends.

The cure is not difficult. Competent medical advice, patience, normal surroundings, life as usual, your silence on the subject when with him.

This is the 7th of a series of editorial advertisements appearing in this paper each Monday.

105 W. 2nd Volcanizing Phone 111 Tire Repairing

ANOTHER WAR MACHINE THAT NEEDS DEMOBILIZING

Miami and extends on some thirty miles south of Miami. In all, the Florida East Coast railway has over 600 miles of rail in the state. This railroad traverses the most popular section of the state and is vital to the wellbeing and prosperity not only of the East Coast of Florida but to the whole state.

The Flagler Estate has lost over thirty-seven million dollars which it put into the construction of this railroad. The railroad owes the Flagler Estate some two million dollars additional advance for operation and maintenance. It owes many unpaid bondholders.

In a short time, independent railroad, this railroad has not been able to succeed financially. One of the handicaps it has had is that it has no overhead freight. That means traffic which flows over it and from points beyond the end of its line. Generally, excepting passengers, the Florida East Coast moves out of Florida mainly only fruits and vegetables northbound and into Florida generally, only building materials and consumer goods.

Up until the recent decision of the Interstate Commerce Commission all railroads in Florida got a fifteen percent freight rate increase south of Jacksonville because of the fact that there was no overhead traffic over Florida railroads south of Jacksonville to speak of. This increase in freight rate was no doubt designed originally to take care of the Florida East Coast as an independent short-line railroad which derived its whole income from its traffic south of Jacksonville, in Florida, although of course, the Atlantic Coast Line and the Seaboard, being competing railroads, got the advantage of the same rate increase south of Jacksonville. Now, by the recent decision of the Interstate Commerce Commission, that fifteen percent differential south of Jacksonville has been abolished.

In addition to that, all southern railroads have had their rates reduced ten percent. That means in substance, that the Florida East Coast Railway has had its class rates reduced twenty-five percent on its whole system whereas, the Atlantic Coast Line and the Seaboard, as well as other

southern railroads, have only had ten per cent reduction in their class rates on all of their lines except that part in Florida south of Jacksonville. This simply shows that a large railroad system covering many states and thousands of miles is better able to stand depression and changing conditions than a shortline railroad. That is borne out by the fact that during the depression, although some of the large railroads went into receivership, by far most of the railroad casualties were the shortline railroads.

It was our opinion, therefore, that a large railroad system if it owned or operated the Florida East Coast Railway would be able in the long run to give better service for many reasons to the people of Florida than could be given by the Florida East Coast if it continued as a short-line independent railroad.

But, there is another serious aspect to this matter. The duPont Estate bought up some twenty-six million dollars worth of a bond issue against the Florida East Coast Railway, called the First and Refunding Mortgage bonds. The duPont estate paid, I am advised, only some forty million dollars for some twenty-six million dollars worth of these bonds. The ownership of these twenty-six million dollars worth of bonds by the duPont Estate which cost the duPont Estate about four million dollars, gives the duPont Estate a majority of the outstanding bonds of this railroad and of all its assets.

I have raised the question as to whether it is in the public interest that 100 percent of the total railroad mileage of Florida in one of the most populous and important parts of the state, should be owned and controlled by one estate, especially when it is public knowledge that that estate is operated principally by one man, Mr. Edward Hall.

I would object to any one estate or any one man having such complete control of such a public utility. It seems to me it is a matter of growing concern to the public as to the reaching out of the duPont Estate into the economic control of the state. Development is one thing—domination another. This Estate now

has fourteen banks distributed over different parts of the state. It has vast holdings of real estate, hotels, apartment houses, a paper mill, and many other activities. It has no stockholders distributed among the public. The Estate, primarily a business enterprise, and except for the operation of a small railroad over in West Florida in connection with its enterprises, has had no railroad experience as compared to the experience that a railroad such as the Atlantic Coast Line, Seaboard, Illinois Central, Southern or some principal railroad has had.

The Atlantic Coast Line Railroad, which for a long time has been the connecting railroad with the F. E. C., has applied to the Interstate Commerce Commission, along with one of the bondholders of the Florida East Coast, to acquire the outstanding securities of the Florida East Coast. The price which the Atlantic Coast Line has offered to pay, would give the duPont Estate a profit of an estimated twenty million dollars on its four million dollar investment. That, I think, is a fair profit.

The Atlantic Coast Line Railroad has assured the Interstate Commerce Commission that if it should get the East Coast Railway, it will keep all the employees of the Florida East Coast Railway. It has also assured the Interstate Commerce Commission that it will give the shippers over the East Coast Railway

All the advantages of the selection of connecting carriers which they could have if the railroad were independently owned and operated. But, I have not asked the Interstate Commerce Commission to adopt the Atlantic Coast Line plan; on the contrary, the members of the delegation which appeared with me and I have asked that this case be fully opened up and that the public interest be given the primary consideration. We have insisted that when the case is fully opened up and all aspects of the public interest in the ownership and operation of this railroad are presented, then would be the appropriate time for the Interstate Commerce Commission to make a decision as to who should own and operate the Florida East Coast Railway.

It must be remembered that a railroad is not private property in the sense that an automobile is private property. A railroad is a public utility, the purpose and function of which is to serve the people. And, we have stated to the Interstate Commerce Commission that nobody who came in when the bonds of the Florida East Coast were very low

and bought them up, has a necessary right to take over and operate that railroad unless it can be shown after a full and fair hearing that their operation is, as compared to any other possible operation, in the public interest.

Over three hundred Florida banks and business enterprises sent letters to the Interstate Commerce Commission joining in our request. The twenty-one standard railway labor executives also intervened in the case and joined us in our application to the Commission.

HELP WANTED The process for making kerosene was invented and developed by a Canadian geologist, Abraham Gesner, who made the discovery in 1852.

## Fish Fry Served By Service Wives Club

A delicious fish fry was served by the Service Wives Club Friday evening at 6:00 P.M. Tables and benches were set up on the grounds in back of the USO. Most of the USO hostesses were on hand as well as many servicemen and salongers. Fish, potatoes, and soft drinks were among the many items on the menu and were served buffet style.  
Mrs. Frank Richards, president of the club, said the affair was a success and a good time was had by all. After the fish fry, the group joined the dancers in the USO for the regular Friday evening dance.

## PICNIC SUPPER

Members of the Christian Builders Class of the First Christian Church enjoyed a picnic supper at Evansdale on Friday night. The Blues who had lost an attendance contest, entertained the Reds. Swimming was enjoyed, followed by a water race.  
Those present were: Mr. and Mrs. Alex Johnson, Mr. and Mrs. J.H. Horton, Mr. and Mrs. O.D. Landress, Mr. and Mrs. W.C. Tison, Misses Betty Meyer, Patsy Johnson, Bertie Hughes, also Mrs. R.T. Humphrey, Mrs. Charles Roland, Mrs. Robt. Radcliffe, Mrs. O.T. Pearson, Mrs. R.G. Fox, Mrs. Mildred Guiney, Mr. J.N. Jourian, Ralph Johnson, John and Jimmy Fox.

**BIRTH ANNOUNCEMENT**  
Lieut. and Mrs. Frank L. Woodruff, III announce the birth of a son, Frank L. Woodruff, III, on Friday, June 15, at Victoria, Texas, where Lieut. Woodruff is stationed.

All friends of the couple are invited to attend.

## Mary Linda Wiggins And Edward Higgins Jr. Married On Friday

The home of Mr. and Mrs. Marion S. Wiggins, 1217 Magnolia Avenue, was the scene on Friday evening at 9:00 o'clock, of the marriage of Miss Mary Linda Wiggins and Edward Higgins, Jr., son of Mayor and Mrs. Edward Higgins. The double ring ceremony was performed by Father Mark Carpenter, rector of Holy Cross Episcopal Church. The vows were spoken before an improvised altar banked with potted palms and white roses and carnations. Burning white tapers in standard candelabra cast a soft glow over the setting. Throughout the rooms of the Wiggins' home were placed arrangements of white gladioli, white asters and fern.  
The bride, given in marriage by her father, wore a wedding gown of white satin accented by a yoke outlined with seed pearls. The full length sleeves ended in points over her wrists and the tight fitting bodice was attached to a full circular skirt which fell in graceful folds. Her finery of illusion was caught to her hair with a tiara of sequ pearls and she carried a shower bouquet of white roses and gardenias.  
Mrs. Jack Bolt attended her sister as matron of honor and bridesmaids were Mrs. Russell Higgins and Miss Ann Wiggin, also sisters of the bride. For his best man, Mr. Higgins chose his brother, J. Malcolm Higgins. Ushers were James Grant of West Palm Beach and Lieut. A.W. Epps, Jr.  
Immediately after the wedding a reception was held for members of the bridal party and guests. A wedding ring wedding cake filled with white carnations and asters was placed at one end of the lace covered table while a crystal punch bowl was placed at the other end. Mrs. Wally Dietrich and Mrs. Herbert Moses served the cake and Mrs. J. Malcolm Higgins presided over the nuptial bowl.  
Mrs. Higgins attended Florida State College for Women in Tallahassee for two years and was graduated from the University of Georgia. She is a member of Pi Beta Phi sorority.  
Mr. Higgins attended the local schools and the University of Florida where he became a member of Pi Kappa Alpha fraternity. He is at present connected with the Clearing Construction Company of West Palm Beach where the couple will reside following a short wedding trip.

## Summer School Opens At Stetson College

DELAND, June 18. (Special)—Summer school opens today at Stetson University Deland with a prospect for the best attended and most successful summer session in its history, according to Dr. W.S. Allen, president of the University.  
The summer quarter will be completed in eight weeks instead of the regular twelve. This will be done without any sacrifice in either quantity or quality of work by lengthening the class periods and having six periods per week instead of five.  
In accordance with Stetson's policy of adapting its program to actual existing needs, a number of special courses have been arranged. The ground school course in aviation under Dr. Robert I. Allen, professor of physics and J. Wade Coleman certified flight instructor, will be repeated during the summer quarter. This course is open to all who wish to obtain a private pilot's license.  
A night blooming cereus with 128 blooms this year was reported to The Herald Saturday by Mrs. J.C. Ellsworth of Boardwalk Avenue who said she obtained the plant 25 years ago while on an expedition to the Cape Sable country south of Miami.  
There had been a big hurricane, Mrs. Ellsworth said, and the plant had been torn from the tree on which it had been climbing. She and her husband dug it up and brought it to Sanford where it was contained to flourish. The wedding ring wedding cake filled with white carnations and asters was placed at one end of the lace covered table while a crystal punch bowl was placed at the other end. Mrs. Wally Dietrich and Mrs. Herbert Moses served the cake and Mrs. J. Malcolm Higgins presided over the nuptial bowl.  
Mrs. Higgins attended Florida State College for Women in Tallahassee for two years and was graduated from the University of Georgia. She is a member of Pi Beta Phi sorority.

## Ellsworth Cereus Has 128 Blooms

A night blooming cereus with 128 blooms this year was reported to The Herald Saturday by Mrs. J.C. Ellsworth of Boardwalk Avenue who said she obtained the plant 25 years ago while on an expedition to the Cape Sable country south of Miami.  
There had been a big hurricane, Mrs. Ellsworth said, and the plant had been torn from the tree on which it had been climbing. She and her husband dug it up and brought it to Sanford where it was contained to flourish. The wedding ring wedding cake filled with white carnations and asters was placed at one end of the lace covered table while a crystal punch bowl was placed at the other end. Mrs. Wally Dietrich and Mrs. Herbert Moses served the cake and Mrs. J. Malcolm Higgins presided over the nuptial bowl.  
Mrs. Higgins attended Florida State College for Women in Tallahassee for two years and was graduated from the University of Georgia. She is a member of Pi Beta Phi sorority.  
Mr. Higgins attended the local schools and the University of Florida where he became a member of Pi Kappa Alpha fraternity. He is at present connected with the Clearing Construction Company of West Palm Beach where the couple will reside following a short wedding trip.

## Sugar Cut Will Restrict Coca-Cola

The supply of Coca-Cola food ingredients will be restricted in Sanford during the summer months, according to F.F. Dwyer, chief of the Federal Food and Drug Administration, because the manufacture of the popular drink will be curtailed with the use of additional quantities of the company's sweetener.  
However, an excellent substitute will be used, Dwyer said, and the amount of Coca-Cola available will be sufficient to meet the needs of the community.  
The F.F.D.A. announced that the amount of sugar available for the manufacture of Coca-Cola will be restricted to 100,000 pounds during the summer months. This is a decrease from the 150,000 pounds available during the winter months.  
Dwyer said that the restriction is necessary because of the shortage of sugar available for the manufacture of Coca-Cola. He said that the restriction will be in effect from June 15 to September 15.

## Service Men's Calendar

**Monday**—Dancing instruction under the direction of Mr. Alton Dushbury, 8:00 P.M.

DO YOU LIVE IN A HAUNTED HOUSE?

A house haunted by your fear of losing it. Bill and Alice didn't know their new home was haunted. They had finished paying off the mortgage and felt that their home was their own until... well, let Alice tell you: "I'll never forget that rainy night. Bill thought he was driving slowly enough but our car skidded and hit another car. The crash was terrible. We weren't scratched but the driver of the other car may never work again." "The months between our accident and the final court decision were nightmares. The damages were staggering. We lost our lovely new home, our War Bonds, even Bill's salary was garnished." Bill and Alice could have avoided it all if only they hadn't neglected such a trifle as automobile liability insurance. Yes, this is a true story, it may never happen to you, but it might, and if it does we hope you will have the right kind of insurance in the right company for the right amount.

Food Important In President's Home Front Battle

By OVID A. MARTIN WASHINGTON - Food is being given top billing on the Truman administration's home front show.

Such is the simple reason for the presidential appointment of R. P. Clinton P. Anderson, New Mexico Democrat, as Secretary of Agriculture and War Food Administrator.

Hereafter during the war, production of munitions had the main billing. That was because munitions were more important, relatively speaking, than food.

Information now available indicates that Anderson will become a one-man boss over food production, distribution, rationing and pricing. He will have authority to coordinate all governmental activities pertaining to food.

Even since early in the war, there have been demands for such a boss. The administration turned a deaf ear to a food director, up his sleeve to obtain large production output well have interfered with the greater immediate

need of providing uniforms and materials for the armed services. At best, there might have been bitter governmental clashes which would have affected military operations.

V-E Brings Change Now that the war in Europe has been won, the situation has changed. Military requirements for manpower and materials have been reduced. Evidence of this is shown in cutbacks in production of airplanes and other war equipment.

The food situation has changed, too. Up until the first part of this year, food supplies were ample despite the fact that agriculture and the food industry had to take a secondary position.

The year 1945, however, has brought greatly increased food demands. This has resulted from a combination of two factors - production is down and needs, particularly those of war-torn Europe, are greater.

Hence, with smaller military requirements of men and material, it is now possible for the administration to set up a new food authority. It will be given wide powers to meet the situation.

Black Mart Target This shift is being accepted as a logical one. There is a possibility, however, that the shift in production will not result in food production.

Anderson will take over about July 1 - a date when it is too late to change this year's production program. In other words, however, to do something about black markets - the major cause of mal-distribution of food supplies.

In resuming the War Food Administration with the Agriculture Department, President Truman obviously had another reason in mind. A stronger governmental unit will be in a better position to guide agricultural production back to a peacetime level of needs than would divided agencies.

AP Newsfeatures Sports Writer NEW YORK - Betty Jameson, the 26-year-old San Antonio Tex. golfer who tried her hand at various and sundry fields of endeavor, has returned to her first love - golf. And she believes there's a definite place for women in the postwar golfing picture.

"Now that I've turned pro I find more time for my game," she says. "In that way I hope to contribute to the women's game. It's bound to prosper in the postwar period, since today's many women war workers will be looking for relaxation and time to themselves."

Letty, now a member of the golf advisory staff of A. G. Spaulding & Brothers, will devote much of her time to golf exhibitions and clinics wherever her services will help the game of golf.

She will also assist the sports equipment manufacturers in designing women's golf equipment. In Women's PGA And while doing all this Betty will brush up on her play in anticipation of the woman's Professional Golf Association championship, a \$10,700 War Bond event at Spokane, Wash., Aug. 6.

Miss Jameson, who began golfing at 11 as a sidekick for her father at Dallas, won her first state title at 12. In 1939 she won the 13rd women's national crown, beating Dorothy Kirby of Atlanta, 3 to 2, at Noroton, Conn. A total of 1941 started in the event. The following year at Del Monte, Calif., she retained the

Mrs. Holler Tells Of Merit System Exams

Mrs. Mary G. Holler, member of the District No. 12 Welfare Board, today stressed the fact that early Merit System examinations offer Seminole County residents opportunity to qualify for pleasant and permanent employment.

Tests will be given for 10 classes of positions with the State Welfare Board and the Florida Industrial Commission, Mrs. Holler said. These were listed as clerk, senior clerk, statistician, senior statistician, and war-duration visitor. Employment will be available in many areas of the State for those making passing grades, as vacancies occur or exist.

"Those who expect to be released from war work at any time during the life of the register to be established, as well as those who are available sooner, should consider the advisability of qualifying at this time," Mrs. Holler said. "It costs nothing to take the exams and jobs may be more in demand in the future."

July 7 has been announced by the Merit System Council, which jointly serves the two agencies, as the final date for filing applications. Full information may be obtained from the Merit System Office, P. O. Box 113 Gainesville, or from unit and district offices of the State Welfare Board, offices of the Florida Industrial Commission, and offices of the U. S. Employment Service in Florida.

national title with a 6 to 5 triumph over Jane Cochran of Greenville, S. C.

Captained Boys Team While in her teens, Betty captained the boys golf team at Sunset High, Dallas, and later played for Thomas Jefferson High at San Antonio. She won the Texas women's crown four times and beat Betty Berg in two Trans-Mississippi finals. Her last best year was 1942 when she won both the Western Open and Western Amateur.

In a recent 72 hole home-and-home charity match with Mrs. Mildred (Babe) Didrikson Zaharias of Los Angeles, Betty bowed to the ace of women golfers, 10 and 8.

"Mildred had two 74's at Los Angeles and she outdrove me 30 yards," says Miss Jameson.

Betty, who would like to meet the Babe again later in the summer, has tried "just about everything." She drove an Army truck for eight months, worked as a newspaperwoman and sold insurance in Chicago one winter.

"That was the coldest and longest winter I've ever known," says Betty.

## Franco Spain Denied Access To New League

### Notice Served That Franco Government Not Fit Company For Rest Of World

SAN FRANCISCO, June 20. (AP)—The United States joined 49 other nations today in a blunt notice that a Franco regime in Spain cannot join their world league. They said, in plain words, Generalissimo Franco's government would not be a fit companion because it was set up with the aid of the Nazi-Fascist Axis. Diplomats here looked toward Madrid for possible effects of their action.

An earlier Big Three meeting had brought about agreement that a statement should go into the records of the conference, not into the charter. It is drafting, drafting, drafting in this war should be denied access both to the general assembly which will be the forum of a United Nations organization and to a security council which will enforce peace. A conference committee quickly approved that idea.

But Mexico wanted something more.

Luis Quintanilla, former Mexican ambassador to Moscow, went into an open commission session fingering a copy of a speech declaring that no government set up with the aid of Axis military assistance is fit for company.

## Lt. Franz Warner New In Hospital, Tells Of Pacific

News of the victory in Europe failed to cause much excitement among soldiers hospitalized in the Philippines, according to Lieut. Franz W. Warner, son of Mr. and Mrs. Wurt W. Warner, who after 112 days of continuous combat, is in the hospital with tropical fever. He has 94 points, was awarded two bronze stars and during the three and a half years of service, has been on Canton Island and New Guinea. Franz is the brother of Ralph Warner, former Herald reporter now stationed with the Navy in Jacksonville.

"Well, the great conflict is going on in Europe, and we are all very happy; however, no one got excited, no drinking was done and we didn't even discuss it very much. The way we were treated in the Pacific was very different. In Europe, they had several armies and all the planes were in Europe. Here in the Pacific, we are still located in this place. Hope we can stay here for awhile. Most of the men are getting pretty well rested up. Parts of the field artillery are still patrolling the mountains and continue to kill a goodly number of Japs. The Japs in this particular region are in small groups, poorly armed and are being physically beaten mainly from hunger. We still keep a guard around our area."

## War Souvenirs Are Shown In Window

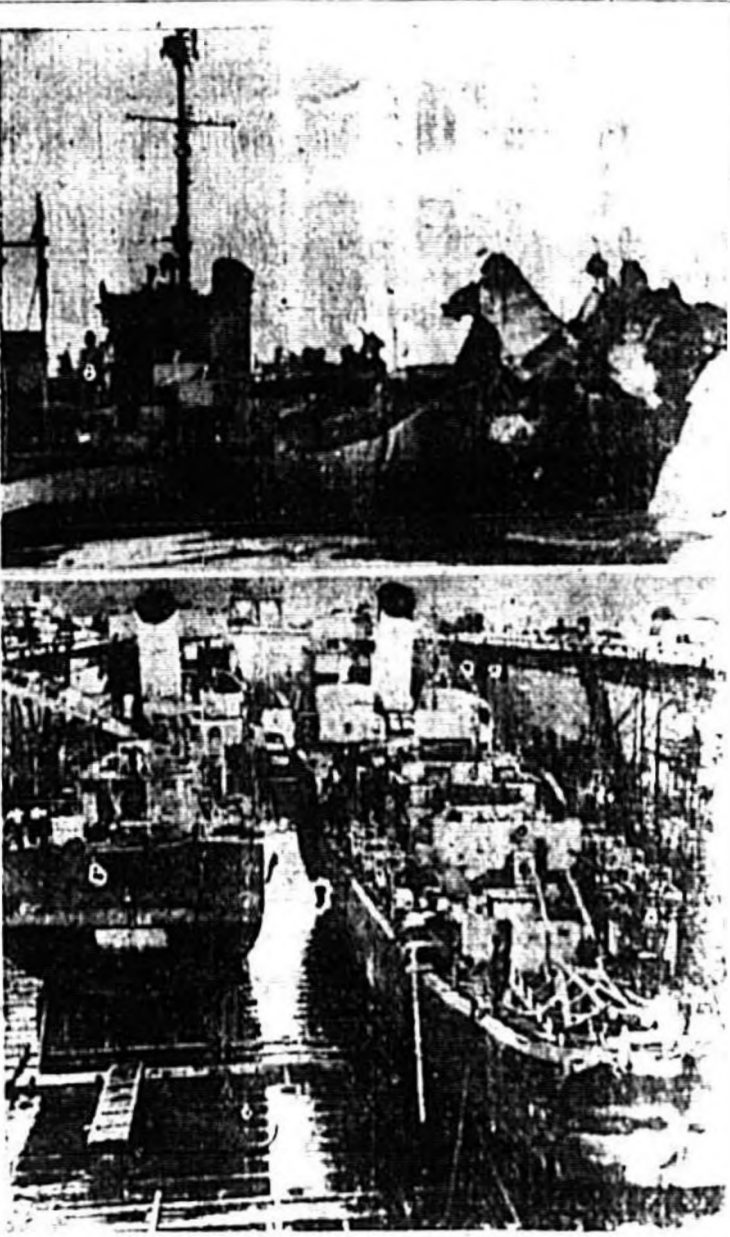

A number of interesting exhibits of war souvenirs are on display in the window of the Florida Power and Light Company.

A number of photographs of Hitler in various poses as he searched the hand of his troops, signs, papers, maps from a plane and even in a dress suit, were loaned by Mrs. H. H. Foster of South Sanford Avenue whose son, Bert, Joseph Foster sent them from overseas.

Capt. James A. Smith, son of Dr. and Mrs. J. A. Smith, and a member with a medical corps battalion of the 7th Army sent a collection of souvenirs including German helmets, gas masks, canteens, camouflage tent materials, rifle cleaning outfit and a lot of German money of high denomination.

From Guadalcanal Capt. Charles Hotchack, now returned to civilian life, has submitted some relics of the Normandy invasion including shells and a poison bullet. From Pfc. Alvin Gellard in Germany came a German belt, collar with insignia and officers' cap.

## Shipyards Surgery For Warship

OFF THE COAST OF South Africa the U.S. destroyer Menger's hull is assisted by a smaller craft after she had been torpedoed in the Mediterranean in May 1944. A third of her hull blown away, she was towed to the New York Navy Yard and placed in dry dock. (Continued on Page Two)

## Commission Picks Softball Opener Roads To Be Built In Next 3 Years

Seminole County's secondary road system may be greatly increased by the action of the Board of County Commissioners, which met in special session Monday night in compliance with the request of the State Road Department and designated 109.6 miles of road to be built or rebuilt in the county during the next three years, according to O. P. Herndon, county clerk.

To finance this construction, State Funds will be matched with Federal funds in accordance with the recently interregional Highway Committee plans. It was requested by the State that the

## New Cigarette Law Explained By Mero

Percy Mero, local supervisor of the State Beverage Department, was busy Thursday notifying cigarette dealers of the provisions of Senate Bill No. 87 as amended and enacted into law.

The act adds a cent more tax to the charge of cigarettes, requires all dealers to get permits, exacting a fee therefor in addition to other taxes imposed by law, provides for reports of sales or other disposition of cigarettes, and provides for bonds by agents and dealers, providing for the enforcement of this act and penalties for violation.

This bill further provides an increase on the cigarette permit for the retailer from \$100 to \$250, and no person, firm or corporation, having a permit to sell cigarettes at wholesale shall be authorized to sell at retail, nor shall any person, firm or corporation having a permit to sell cigarettes at retail be permitted to sell at wholesale.

## Mrs. Frieda Goode Died Tuesday Night

Mrs. Frieda Josephine Goode, a native of Sanford, died in a local hospital Tuesday night at 6:12 o'clock following an illness of five weeks.

Born in Brooklyn, N.Y., on Dec. 29, 1884, Mrs. Goode came to Sanford seven years ago. She was formerly a member of the Order of the Eastern Star and attended the Holy Cross Episcopal Church here.

Mrs. Goode is survived by one sister, Mrs. Al. Foss of Nutley, N.J., and several nieces and nephews. The body was sent to Brooklyn this afternoon for funeral and interment, accompanied by Mrs. Williams.

## Big Sticks Are Waved At U.S. Idle Workers

### President Joins With WLB And ODT In Prodding Workers To Go Back To Jobs

President Truman and the government waved big sticks at thousands of the nation's idle workers today, prodding them to go back to the job. The labor effort over labor disputes. More than 20,000 workers in vital war work in scattered sections of the country were targets for directives from the War Labor Board, the Office of Defense Transportation. President Truman ordered the plants at the Diamond Alkali Army seizure and operation of company, Fairview, Ohio.

WASHINGTON, June 20. (AP)—President Truman yesterday gave the power to name his successor in the event of his death or disability and asked Congress to place the Speaker of the House first in the succession line.

The President's message, delivered after his departure for the White House, evoked comments of approval from Republicans and Democrats in both chambers.

A few hours later, Senator Bridges (R-MI) introduced a bill following substantially the President's suggestions. The line of succession, under Bridges' measure, after the President and Vice President, would be Speaker of the House, President Pro Tempore of the Senate, Secretary of State, Secretary of War, Attorney General, Postmaster General, Navy Secretary, Interior Secretary, and then the Cabinet, when the President is unable to perform his duties.

## Lt. Volie Williams Army Airman, Pays Infantry Tribute

Tribute to the fighting infantryman of the 37th Division in the form of a letter to The Herald from Lieut. Volie Williams, Jr. of the Army Air Corps, who is attached to the commanding general's staff.

"The campaign here is nearing its end," he wrote, "and everyone is anxious to strike at the enemy in a new location, preferably one further north. The heat here is terrific. It is so small wonder that the Filipinos have their summer capital at Baguio. The temperature there is very refreshing—around 75 degrees.

Although the Air Corps does not have direct contact with our exceptional infantry forces, I was lucky enough to be with the 37th Division the day Baguio was entered. As you know that was another "first" for the Air Corps. They were the first to enter Manila.

"Being in the Commanding General's office affords me the privilege of visiting the front which ordinarily I would not have. I feel that I have learned a great deal by merely being allowed to see for myself the hardships our ground forces endure. To me it seems a shame that everyone of us could not visit the front and see for ourselves how very much we are indebted to the infantryman.

I date my appreciation, our officers, our proficieny, death isn't a very pretty sight, and although authors may write of it; photographers may picture it; only when one sees it, does the full meaning of the word "sacrifice" be grateful to those men who carry the blunt of the fight—the infantry.

In his mail, Lieut. Williams received several supplements of the Sixth Army News which pictures the fighting on rugged terrain and the retaking of Corregidor, including dropping of paratroopers.

## John Houghton Dead After Long Illness

John Ross Houghton of Lake Mary died early Tuesday morning at his home following an illness of nine months.

Born Oct. 18, 1870, in Norwich, N.Y., the 74 year old man came to Lake Mary in 1933 where he was engaged in farming. Survivors include the widow, Mrs. J.R. Houghton of Lake Mary; one son, Garland K. Houghton of Melbourne; four grandchildren, Garland, Barbara, John Ross and Frederick Houghton, all of Melbourne; and one sister, Mrs. Paul Brooks of Altamont, N.Y.; one nephew, Paul Brooks, Jr. with the U.S. Army in Brooks, N.Y.

Funeral services will be held at the Erickson Funeral Home Thursday at 2:00 P.M. with Father Mark Carpenter of Holy Cross Episcopal Church officiating. The body will be sent to Norwich for burial.
