#### **New Pope May Pick Any Name He Likes**

VATICAN CITY (UPI) - The man who becomes the new pope wi" be free under church laws to assume any name he wishes. Even if the next pope confines his choice to a name already traced by one of his predecessors, he would still have 89 names to examine.

But la practice, no pope has adopted a new name since 916 A. D., and only five names-Benediet. Clement, Leo, Gregory and Plus - have been in use in the past two centuries.

Of the last 11 popes, seven have chosen Pius an their name. . Church chronicles show that a total of 80 different names has been used in 20 centuries by 621 legitimate popes and 19 of the 36 listed "antipopes" (false

popes). . The name most used was John particularly popular in the enfuries when the sec of the pontiffs was at the basilica of Se

John's in Lateran. There were 23 popes named when Artipope John XXIII was deposed by the Council of Constance. The name has not liven Rred since.

Second in popularity was the same Gregory, used by 16 poper since St. Gregory the Great, who was elected in 500 A.D. and first evangelized England

Fifteen popes were named Benedict between 572 and 1922 There were 14 Clements, the first of them in 84 A. D. and the fast in

Church annals list 13 Leos, from 440 to 1903, and as many popes named Innocent between 401 and

All of the 12 popes named Plus were Italians. Three of them-Plus I. Plus V, and Plus X-have been sainted A fourth, Plus IX. is at present a candidate for sainthood.

Foremost among the names used only noce is, of course, that of Peter. None of his successors ever named himself after the prince of the aportles.

### Fate Changes Foes To Allies, Vice Versa

It has been said many times that truth is stranger than fiction. Whether this be true, fate seems to have a way of changing things around a bit.

A good example of this could be found in the story of a Sanford Naval Air Station squadron and its training exercises in the Mediterranean. While on the exercise, the Sanford squadron helped train high-ranking West German military officials.

A few years ago, many of these same German officers were fighting against America. Now, these same officers are our allies. In a story written by Lt. Cdr. Jack Langford, local pilots told of the associations with such military leaders as Colonel Steinhoff, one of the most famed of all Luftwaffe

#### **Vatican Predicts Cardinals To Name** Italian As Pontiff

VATICAN CITY (UPI)-Vatican sources predicted today the conclave of cardinals would uphold a 436-year tradition and elect an Italian pope.

Russian born Gregory Peter Cardinal Agaginnan of Armenia was the only one of the 37 non-Italian cardinals believed to have any chance at all to be named at the conclave opening here Sat urday. The main factor in his favor was his close association with the Roman Curia.

Five Italian cardinals were mentioned as the most likely to be named pope. They were: Ben-edetto Cardinal Aloisi Masella, who as camerlengo is head of the church during the present perlod of Interregnum; Giacomo Cardi nal Lercaro, archbishep of Bolognat Ernesto Cardinal Ruffini, archbishop of Palermo: Angelo Giuseppe Roncalil, patriarch of Venice: and Marcello Cardinal Mimmi, secretary of the Sacred SYRACUSE, N. # Salute to FLORIDA COUNTIES

Named for the largest fresh water labe in the United States which borders it on the south, Oteechobee County is a natural attraction for sports fishermen and hunters. Commercial fishing is a principal source of income, along with beef cattle and agricultural products. Historic Fort Bassinger, built for protection against hostile Indian tribes in the state, still stands beside the Kissimmee River that borders Obeechobee County on the west. Obes-chobee, the county seat, is located on the "Big Late."

In progressive Oteechobee County, and throughout Florida, the United States Brewers Foundation works constantly to assure the sale of beer and ale under pleasant, orderly conditions. Believing that strict law enforcement serves the best interest of the people of Floride, the Foundation stresses close cooperation with the Armed Forces, law enforcement and governing officials in its continuing "self-rogulation" program.
