southwest winds.

Aderholt's Slayers GIANT PLANE Are Found Guilty Of TAKES ALOFT 2nd Degree Murder 169 PERSONS

**Beal And 6Co-defend-
ants Are Unmoved
As Jury Returns
Verdict Ending Trial**

**COURT ROOM, CHAR-
LOTTE, N. C., Oct. 21—(INS)**

Fred Erwin Beale, communist organizer and his six co-defendants charged with second degree murder of Chief O. F. Aderholt, of Gastonia, were found guilty by a jury here today. The young defendants showed no perceptible emotion as the verdict was read. Judge Barnhill will pass sentence sometime during the afternoon.

The jury after reaching the decision that the strike organizers were guilty of the murder charge, sought further instructions from the court on the three assault charges against the defendants. Receiving these, the jury retired and a few minutes later brought in a second verdict finding the defendants guilty of assault charges.

The verdict eliminated one of the longest and most massive legal battles in North Carolina's history. Beale, with the other defendants, were charged with having led strikers in a raid at Gastonia on the night of June 7, in which Chief Aderholt was fatally wounded.

The verdict was announced by Foreman John L. Todd at 12:28 P. M. one hour and 10 minutes after the case had been delivered into the jury's hands. There was no demonstration as the words fell suddenly upon the hushed courtroom.

Before the verdict was announced, Judge M. V. Barnhill warned the half-filled courtroom against any kind of violence or demonstration.

The trial had consumed three weeks and thousands of words of testimony were taken into court records. The state had contended that Beale and his fellow strikers had conspired in the gun battle that ended fatally for Aderholt. The defense, on the other hand, attempted to prove the strikers were trying to protect their headquarters from what they believed was an attack by the "committee of one hundred" or vigilantes.

According to state witnesses, Chief Aderholt, with other officers, went to the strike headquarters to quell a disturbance and was greeted by a fusillade of shots.

The verdict was a colorless finale to the spectacular trial. It came suddenly and the courtroom was only half filled with spectators. There was no hint of a demonstration.

Draped in black, the widow of the slain chief sat at the prosecution table. Her face was blank and expressionless. Many times during the trial she had broken down and sobbed aloud.

At 12:45 P. M. the jury retired again after receiving a detailed explanation from Judge Barnhill regarding the three assault charges against the defendant. The charges, growing out of the wounding of three other officers in the June 7 raid, were included in the murder indictment against the prisoners.

Diamond Ball League Game Slated Tonight

The Diamond Ball League will be reorganized by a clash between the Chase and Company and the Piggy Wigley teams at the diamond on the lake front tonight at 7:30, according to an announcement made by Herman Morris, president of the League. He also stated that a very important meeting of the executive committee will be held immediately following the game.

This is the third engagement of each team, and both are said to have shown considerable improvement since the start.

COURT ROOM, CHARLOTTE

N. C., Oct. 21—(INS)—Fred Erwin Beale, communist organizer and his six co-defendants charged with second degree murder of Chief O. F. Aderholt, of Gastonia, were found guilty by a jury again.

WARNING ISSUED GROWERS ABOUT SPRAYING GROVES

New Rules Must Be Adhered To In Order To Get Shipping Permit

The Seminole County headqua-

ters of the Mediterranean Fly Eradication board, working under the United States Department of Agriculture, and State Plant Board, has issued a warning to fruit and vegetable growers. In the spraying the requirements of spraying were stressed.

The following had spray requirements as taken from a circular letter issued by the Department of Agriculture.

"In order to obtain a permit to move fruit from a grove for shipment prior to Oct. 30, it will be necessary for the grove to have been sprayed at least twice with a spray mixture approved by officials of the Plant Quarantine and Control Administration and the State Plant Board of Florida. The two sprayings shall be at intervals of approximately two weeks and shall have been applied subsequent to Aug. 1.

"Permits to ship fruit after Nov. 1 will be dependent upon the grove having been sprayed at least four times after Aug. 1, with intervals of approximately two weeks between sprayings, the last spraying having been made after Sept. 15. In order to ship fruit subsequent to Dec. 1, it will be necessary to apply one final spray as mentioned above together with such additional sprayings as may be deemed necessary and sufficient which further rules will be issued at a later date."

It was further stated that all groves shall receive at least one spraying within one month after all fruit has been moved from the grove, and until further notice the spray materials will be furnished by the Plant Quarantine & Control Administration and the spraying must be done under their direction and in accordance with their instructions.

A portion of the 10 members of the crew was assigned to cater to the passengers' wants, while four manned the intricate controls.

Two additional ships of similar proportions are now under construction.

In the opinion of the airship builders, today's successful flight definitely proves the practicability of gigantic airships of this type for regular passenger and cargo material transportation.

It was further stated that all groves shall receive at least one spraying within one month after all fruit has been moved from the grove, and until further notice the spray materials will be furnished by the Plant Quarantine & Control Administration and the spraying must be done under their direction and in accordance with their instructions.

The Dornier firm has always contended that airplanes of this type were better fitted for trans-passenger service than regular dirigibles, and now it appears they are seriously considering inauguration of regular passenger traffic along the commercial route for which the planes were built.

Although the capacity of the Do-X was originally set at 100 passengers and a crew of 10, 100 persons were taken aloft today in conditions that were, far from crowded. It is doubtful that this number could be carried on exceptionally long flights, due to the lack of sufficient sleeping quarters and food store-rooms.

But the Do-X was flown with a complement far above its original capacity in order to prove to an incredulous world the association had reached such an advanced stage that this tremendous number of individuals could be taken aloft with the same comparative ease that a good monoplane takes to the air with a solitary pilot.

The passengers were unanimous in their praise of the ship's performance.

Storm Warnings Are Ordered Displayed

Fishing Party Enjoys Day Among Big Ones

Fishing still remains to be one of the favorite sports of this section. Dr. H. W. Walker, Ed Walker, Joe Walker, and Lewis Mitchell formed a fishing party which motored to Coronado Beach yesterday, and engaged in a battle with the big ones. The day's catch netted 25 trout.

According to Joe Walker, the sport doesn't appeal much to him. He prefers the cool, shady banks for his fishing. "Nevertheless, I'll go along again if I get the chance," Joe politely admitted.

TWO DIE IN WRECK

MEMPHIS, Tenn., Oct. 21—(INS)—Two men, W. T. Garrison and Peter Henley, both of Oakdale, were dead today, victims of an automobile accident near their home yesterday. Locked brakes were believed to have caused the machine to overturn.

Sickness Of Clemenceau Recalls His Prophecy He Wouldn't Live Thru Year

By Alice Langlier
International News Service
Staff Correspondent

PARIS, Oct. 21.—The grave illness of M. Georges Clemenceau, France's glorious "Tiger" brought to mind today the prophecy he made a little less than a month ago that he would die before the year was out.

Boris was shocked. "I don't like to hear you say this," M. Mounier, his President, said. But Boris, using the respectful term of address he had long used for years.

"Don't you remember you told me I would die before you because I am afraid of death?"

"Well," answered Clemenceau.

"There is nothing to do about it."

He was silent.

Boris was shocked. "I don't like to hear you say this," M. Mounier, his President, said. But Boris, using the respectful term of address he had long used for years.

"Don't you remember you told me I would die before you because I am afraid of death?"

"Well," answered Clemenceau.

"There is nothing to do about it."

He was silent.

Boris was shocked. "I don't like to hear you say this," M. Mounier, his President, said. But Boris, using the respectful term of address he had long used for years.

"Don't you remember you told me I would die before you because I am afraid of death?"

"Well," answered Clemenceau.

"There is nothing to do about it."

He was silent.

Boris was shocked. "I don't like to hear you say this," M. Mounier, his President, said. But Boris, using the respectful term of address he had long used for years.

"Don't you remember you told me I would die before you because I am afraid of death?"

"Well," answered Clemenceau.

"There is nothing to do about it."

He was silent.

Boris was shocked. "I don't like to hear you say this," M. Mounier, his President, said. But Boris, using the respectful term of address he had long used for years.

"Don't you remember you told me I would die before you because I am afraid of death?"

"Well," answered Clemenceau.

"There is nothing to do about it."

He was silent.

"Well," answered Clemenceau.

FINANCE EXPERTS DISAGREE ABOUT STOCK PROSPECT

Some Declare Market Will Maintain Its Present Condition

By W. S. Cousins
Editor,
International News Service

FINANCIAL EDITOR.
NEW YORK, Oct. 18.—Within the past three weeks, five of the "big names" in American financial and economic circles have been heard from, in no definite terms, with respect to past, present and possible future actions of the stock market.

Roger Babson, a statistician and forecaster of high repute, warned a few weeks ago of an impending crash in the market. The early October break of mild proportions followed immediately the Babson blast.

Arthur Cutten of Chicago, a comparatively late addition to the ranks of American capitalists, whose opinion on stock values is eagerly sought, took issue with Babson. If in backed up his statement Babson would continue to accumulate rather than to dispose of stock.

Cutten may therefore be rated a bull, but not a marked operator in the generally accepted sense of that term.

Professor Irving Fisher of Yale University, also a widely quoted economist, may be listed as the perpetual challenger of the bearish statements of Babson and others, since, whenever such statements are broadcasted, Fisher is ready to present his side of the story. In brief the Yale professor, who is deprecating the enormous amount of margin speculating now going on says there is no likelihood of a stock market break of major proportions.

Of a distinctly different type are Charles E. Mitchell, the head of the world's largest banking institution and Leonard P. Ayer of the Cleveland Trust Company, both of whom have gained a reputation for unshakable confidence in security market forecasts. Mitchell has his seat at an immigrant in the ranks of banking men because of his action in buying the market in August by risking a supply of cash money (at 20 per cent) and thus insuring the condemnation of the power that he behind the scenes had won and certain senatorial clowns Washington. His sensational attitude went in the testimony of the city bank from under \$1 billion to two and a quarter billion over a period of seven years, making it the world's largest banking institution, double in size to more than public consideration in dealing with those great problems.

Responsibility For Oil Leases Placed Upon Edwin Denby

WICHITA, OKLA., Oct. 18. (INS)—Full responsibility for the leasing of the Elk Hills naval oil reserve to E. L. Denby was today saddled on the shoulders of a man now dead for the defense in the bribery trial of former Secretary of Interior Albert H. Fall of the navy who was the main instigator.

Erwin Denby, former secretary, turned to the jury as the guiding genius in the consummation of the lease that developed into a national scandal and brought about the indictment of Fall on a charge of having accepted a \$100,000 bribe from the navy.

The testimony of Denby at the conspiracy trial of Fall and Denby three years ago was dead to the jurors, the former now chief having died last year. "I took the responsibility, carried the responsibility and made the decision whether I wanted to or not," Denby was quoted as having testified.

He also had said that it was he who went to President Harding and got the necessary executive order.

Bob Shawkey To Have Free Rein As Pilot

NEW YORK, Oct. 19. (INS)—Bob Shawkey, newly-appointed manager of the New York Yankees, was to have free rein in the rebuilding of the former World champions was seen today in business manager Ed Barrow's refusal to discuss any future plans the Yanks may have until Shawkey arrived in town.

Shawkey is expected to arrive in New York next Tuesday from Canada where he is on a hunting trip. Experts here are of an opinion that the sale of Meusel is a forerunner of numerous changes that will take place in the Yankee line-up before another Spring rolls around.

BILL MCRAE

FLORIDA GUARD MAKES RECORD IN SCHOLARSHIP

Bill McRae Turns In Grades Among Highest In University

By Frank B. Wright

GAINESVILLE, Oct. 18.—It works both ways. All good students are not always good football players and all good football players are not always good students. However at the University of Florida there's a member of the 1929 "Fighting Gators" who is one of the outstanding students in the University in scholarship, and at the same time is a valued member of the big Bachman's football squad, sufficiently so that he was the only member of the team to play every minute of the Auburn game at Montgomery last Friday night. He plays guard.

The gentleman in question is William Allen McRae, Jr., now residing in Jacksonville, Fla., not in school, but a boy born and bred in West Florida, Marianna, Sept. 25, 1909, being the place and date of his birth. Bill, as William Allen is more familiarly known, moved to Tallahassee at the age of four, and lived there twelve years while his father served as Commissioner of Agriculture.

Bill's first athletic experiences were gained at West Palm Beach high school where he won two track and field and two track letters in the years of 1925 and '26. He played guard in football and participated in field events during track season. Though his career in sports was not as spectacular in high school as that of many boys, Bill was president of his junior and senior class; president of the student body; finished with an average of 95, and was class Valedictorian his final year. We also won the Citizen Cup offered to the best all-around student in school.

Entering the University of Florida in 1927, Bill went out for freshman football, but failed to make the grade. He outplaced many of those who were not able to take the discouragement with a smile, and when the varsity squad donned its fall, the unheralded figure of McRae was in the group unnoticed at the beginning.

With a fresh start and an unyielding determination, Bill soon made his presence felt, and, as you check the record for the 1928 season, you will find that McRae was in the starting line-up for the "Gators," seven of the nine games. He won his letter, and the general success of that football season was for Bill one of the most glorious triumphs of his life. As he says, "I took him a full six months to recover from the disappointment of his freshman football."

Mr. Winnie Young was a guest of Mr. T. W. Lawton, also Mr. T. W. Lawton and Mr. W. J. Lawton attended the funeral of Mr. Baldwin Saturday Sunday.

Mr. and Mrs. Phil Watts and their daughter—Mrs. Angeline King—all visited at the home of Mr. and Mrs. W. B. Norris Saturday afternoon.

Mr. Winnie Young was a guest of Mrs. Bertie Bowman at New Haven Friday afternoon on Saturday afternoon.

Mr. and Mrs. John Lee and their daughter of New Jersey were recent guests of relatives on Lake Winnie. Mr. Lee is with the Aviation Corp. doing coast guard duty.

Those attending the Zone Nine meeting of the Methodist Missions Society at Deland Tuesday were Mr. L. A. Lee, Mrs. C. W. Mathison, Mr. R. F. Wheeler, Mr. W. P. Carter and Mrs. A. M. Stewart.

The Edward Langone Fund met with the Dallas Leaguers last Friday evening and were entertained at the Women's Club.

Defense Witness In Trial Of Pantages Is Examined Again

LOS ANGELES, Oct. 19. (INS)—Lee Zascoli, grocer, defense witness in the attack trial of Alexander Pantages, today was to resume testimony designed to show that Nick Dunaway, Russian playwright, often called at the home of Fumas Pringle, the accused of Pantages.

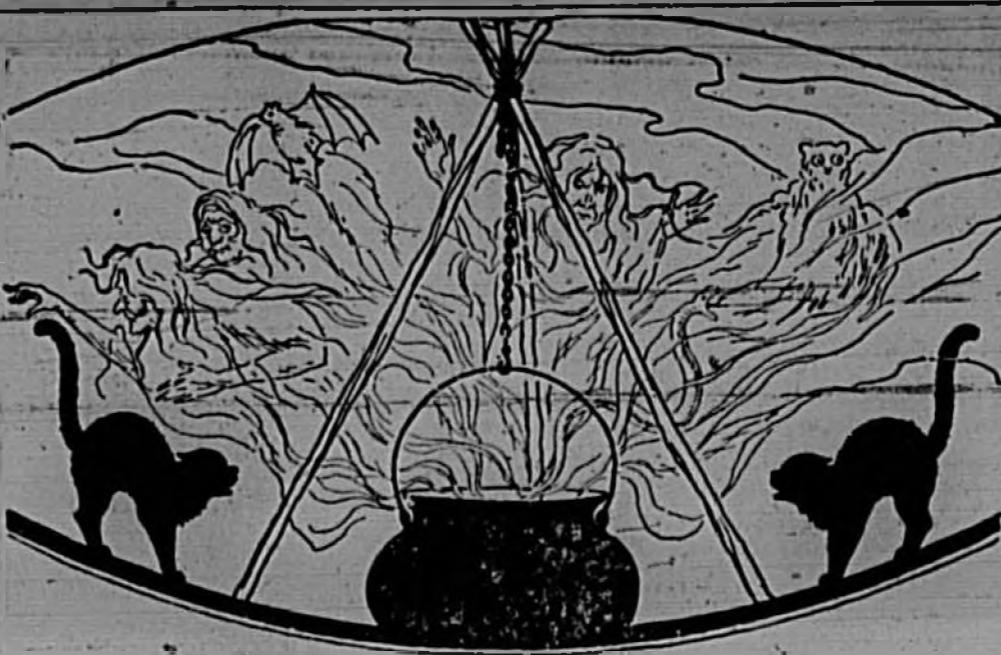

Mr. and Mr. Emil Magnuson, who have moved back to Winmore for the citrus season, spent the weekend here. Accompanying them here were Mr. and Mrs. Elmer Tyner and Noah Fry.

The Rev. James Thompson of Lake Mary will preach at the Upsilon Church Sunday morning at 10 o'clock. He is taking the place of the Rev. J. S. Clarke, who is in bad health.

A family gathering took place on Tuesday evening at the home of Mr. and Mrs. Archie Swanson in honor of Mr. Swanson's birthday. Refreshments were served to the following: Mr. and Mrs. E. F. Lundquist and family, Mr. and Mrs. Alvin Swanson and family.

As much as \$60,000 worth of amber has been taken from one whale.

Mussolini was educated for the profession of teaching.

AN EERIE HALLOWE'EN

HALLOWEEN is the time of witches, and the best witches we know of are the three bold crones who mutter the marvelous incantations in Shakespeare's "Macbeth." The incantation has to be shrilled and rattled a bit, but it is most appropriate thing for the best at a Hallowe'en party to chant at the head of the table with her guests joining in the refrain:

"Round about the calendar—
Toad, that under cold stone
Days and nights hast thyself
Sleek'd greenish sleeping pale
Held thou—dead—by the charmed pot."

Double, double, toil and trouble,
Fire, burn, and caldron bubble,

Fillet of a Fenny-snake,
In the caldron boil and bake;
Eye of newt, and toe of frog,
Wool of bat, and tongue of dog,
Adder's fork, and bladderswim,

Lizard's leg, and owl's wing.

Double, double, toil and trouble,
Fire, burn, and caldron bubble,

Scale of dragon, tooth of wolf,
Witches' mummy, main and gall

Of the ravin' salt-sea shark;

Root of hemlock, digged in the dark;

Liver of blaspheming shrew,

Gall of goat, and slugs of yore,

Shrews in the moon's eclipse,

Nose of Turk, and Tarlors' stings.

Double, double, toil and trouble,
Fire, burn, and caldron bubble,

Cook it with a baboon's blood,

Then the charm is firm and good."

That will certainly provide the proper atmosphere for Hallowe'en.

and Mr. and Mrs. August Swanson

were delighted to learn that they are among the first of a daughter

on Monday, Oct. 22.

Mr. John Peterson and Mrs. Louise Ballinger were Thursday afternoon with Mrs. Archibald Swanson at her home.

Mr. Wm. T. Hart, who for weeks held his 10th birthday invitation in the middle of an excavation for a gigantic building block, paid up the bill today. A court decision ordering him to return the paid deposit in back rent spelled his doom.

The members of the Lutheran Friends Society met Monday afternoon at the home of Mrs. Carlson. The hostess served a sweet course, to the following: Mrs. Soderstrom, Mrs. Root, Mrs. Lee, Mrs. Magnuson, Mrs. A. H. Lundquist and daughter, Mrs. Lundquist and Mrs. Ruth Bergquist. The next meeting will be held with Mrs. Reddington.

Mrs. Anna Nease is rapidly improving after a recent illness at her home.

Mrs. Wright has returned to Georgia after enjoying a short visit here withds family.

Friends here of Mr. and Mrs. Fred Krell of Bartow, will be in

ST. PETERSBURG—Contract

awarded for construction of dirigible dock at cost of approximately \$25,000.

BIBLE VERSE FOR TODAY

GREAT CONTRASTS—He who understood the things? prudent, and he shall know them? for the ways of the Lord are right, and the just shall walk in them; but the transgressor shall fail therein.—Isaiah 53:11

PRAYER—God, never let me sin in need; the soul that trusteth Him indeed.

Wheat grows wild nowhere in the world.—Lakeland Leader, No. 620 oats do.

We have many pessimists but at least we can say this for ourselves, Glastonbury has the communists.

They say Al Capone never touches anything alcoholic. You wouldn't either if you knew how it made.

Merchants should never try to run newspapers. If they manage their own stores they will have their hands full.

Night football ought to prove very popular in some of the big stadiums. The fans can't see the players anyway.

Give goiter a back eye by eating more vegetables.—Sarasota Times. Try that on your own goit. Er, Er, Er.

Three carloads of hogs were sold the other day in Suwanee county at top prices. Why not a bigger and better hog industry in Seminole County?

Postage week is on the way, and all of us could help make Sanford grow by sending postcard advertising Sanford to all of our friends in other states.

"Elephant is Put on Spot," by Old-Pal," says a headline in the Florida State News. We know for a fact that no elephant we have ever seen could fit on a spot.

We congratulate Hodgeson Ball in his election as commander of the local American Legion Post. There can be no doubt that they always selected their chief one of our biggest business men.

For instance, if we had a chamber of commerce which might be representative of the Chamber of Commerce which would likely bring thousands of dollars of "outside money" into local channels of trade.

Fort Myers is boasting of a new citrus canning factory. If there had been a few more canning factories in the state, we would not think that all the fruit which dropped from trees would have been cleaned up, we might have been saved from the embarrassment of a fruit fly epidemic.

The West Florida Press Association, if active, would accomplish much for this section of the state. All would together help to build the "Union."—Martinez Floridian. If the West Florida Press Association can do that, we wish it would show the South Florida Press Association how.

The Herald regrets that Carl D. W. Walker, of Canton, Georgia, who has been here for a week, has made many friends and has contributed much to the good feeling and general welfare of the community. At the same time we wish his successor, Herman Morris, the best of luck.

A negro pastor in St. Augustine has been arrested for spreading false reports about the Bank of Bunnell. He said the bank was closed when it wasn't. If all the business men, who have done that same thing during the past three or four months were in jail, that wouldn't be enough to hold them.

Palm Beach has passed an ordinance prohibiting tourist camps, because stands, bedsprings and chairs, tables, chairs, etc., are liable to catch fire. The fault lies with those that made them. Turn 'em out, folks, we'll be glad to get 'em over.

In passing, it deserves to be said that the San Joaquin, a chamber of commerce, is a very capable organization, but it must be successful under such conditions as those that exist in the financial banking center of Miami. The day in Everglades was enjoyed a great party, but the organization was not, at least, unwisely applied. Leadership is lacking. Team work is not, especially in a place like this, where the workers became amateurish and, in some cases, even dangerous. The fault lies with those that made them. Turn 'em out, folks, we'll be glad to get 'em over.

Everglades, Fla.

The Span Of Life

Contrary to the general belief of scientists that man can never overcome old age than four score years and ten long, man can never hope for, Dr. John Harvey Kellogg, eminent physician and surgeon, agrees that before long, man will be well beyond a hundred years, will average over six feet in height, and will work but three hours a day.

"Man does not die, he kills himself," says Dr. Kellogg. "We gave ourselves the same care that we give to our life insurance and fine automobiles; we might easily double our industry, to business, to ourselves, except ourselves. We compel our domestic animals to eat well and live in a scientific manner. As a result, we have horses that run faster than ever before, cows that give more milk and chickens that set new records in egg-laying. Because we have neglected to apply science to ourselves, the human race is deteriorating to an alarming extent."

There is an average in longevity, we have diminished our physical strength. At the eugenics congress in New York a few years ago, Mr. Darwin, eminent English scientist, and son of the late Charles Darwin said: "If our present civilization survives, it will be to the United States that saves it. There is no hope in any other part of the world."

We have an opportunity here in Florida to develop a super race of men and women and soon it shall be done. But, we are not doing it. Ten years ago, when the population of the United States was only 100,000,000, there were, according to the United States census report, more than 400,000 centenarians. At the present time, with a population of 100,000,000, we have only 30,000 centenarians.

It may be at the present time that not nearly so many persons are living to the age of one hundred as formerly, as the good doctor says, but it also might be that the vital statistics of fifty years ago were not as accurately taken as they are at present. When we get in the upper eighties, a matter of ten years more or less is apt to be overlooked, unless one has the record to establish his memory.

Merchants should never try to run newspapers. If they manage their own stores they will have their hands full.

Night football ought to prove very popular in some of the big stadiums. The fans can't see the players anyway.

Give goiter a back eye by eating more vegetables.—Sarasota Times. Try that on your own goit. Er, Er, Er.

We congratulate Hodgeson Ball in his election as commander of the local American Legion Post. There can be no doubt that they always selected their chief one of our biggest business men.

For instance, if we had a chamber of commerce which might be representative of the Chamber of Commerce which would likely bring thousands of dollars of "outside money" into local channels of trade.

Fort Myers is boasting of a new citrus canning factory. If there had been a few more canning factories in the state, we would not think that all the fruit which dropped from trees would have been cleaned up, we might have been saved from the embarrassment of a fruit fly epidemic.

The West Florida Press Association, if active, would accomplish much for this section of the state. All would together help to build the "Union."—Martinez Floridian. If the West Florida Press Association can do that, we wish it would show the South Florida Press Association how.

The Herald regrets that Carl D. W. Walker, of Canton, Georgia, who has been here for a week, has made many friends and has contributed much to the good feeling and general welfare of the community. At the same time we wish his successor, Herman Morris, the best of luck.

A negro pastor in St. Augustine has been arrested for spreading false reports about the Bank of Bunnell. He said the bank was closed when it wasn't. If all the business men, who have done that same thing during the past three or four months were in jail, that wouldn't be enough to hold them.

Palm Beach has passed an ordinance prohibiting tourist camps, because stands, bedsprings and chairs, tables, chairs, etc., are liable to catch fire. The fault lies with those that made them. Turn 'em out, folks, we'll be glad to get 'em over.

Everglades, Fla.

Contrary to the general belief of scientists that man can never overcome old age than four score years and ten long, man can never hope for, Dr. John Harvey Kellogg, eminent physician and surgeon, agrees that before long, man will be well beyond a hundred years, will average over six feet in height, and will work but three hours a day.

"Man does not die, he kills himself," says Dr. Kellogg. "We gave ourselves the same care that we give to our life insurance and fine automobiles; we might easily double our industry, to business, to ourselves, except ourselves. We compel our domestic animals to eat well and live in a scientific manner. As a result, we have horses that run faster than ever before, cows that give more milk and chickens that set new records in egg-laying. Because we have neglected to apply science to ourselves, the human race is deteriorating to an alarming extent."

There is an average in longevity, we have diminished our physical strength. At the eugenics congress in New York a few years ago, Mr. Darwin, eminent English scientist, and son of the late Charles Darwin said: "If our present civilization survives, it will be to the United States that saves it. There is no hope in any other part of the world."

We have an opportunity here in Florida to develop a super race of men and women and soon it shall be done. But, we are not doing it. Ten years ago, when the population of the United States was only 100,000,000, there were, according to the United States census report, more than 400,000 centenarians. At the present time, with a population of 100,000,000, we have only 30,000 centenarians.

It may be at the present time that not nearly so many persons are living to the age of one hundred as formerly, as the good doctor says, but it also might be that the vital statistics of fifty years ago were not as accurately taken as they are at present. When we get in the upper eighties, a matter of ten years more or less is apt to be overlooked, unless one has the record to establish his memory.

Merchants should never try to run newspapers. If they manage their own stores they will have their hands full.

Night football ought to prove very popular in some of the big stadiums. The fans can't see the players anyway.

Give goiter a back eye by eating more vegetables.—Sarasota Times. Try that on your own goit. Er, Er, Er.

Three carloads of hogs were sold the other day in Suwanee county at top prices. Why not a bigger and better hog industry in Seminole County?

Postage week is on the way, and all of us could help make Sanford grow by sending postcard advertising Sanford to all of our friends in other states.

"Elephant is Put on Spot," by Old-Pal," says a headline in the Florida State News. We know for a fact that no elephant we have ever seen could fit on a spot.

Miss Ione Ord Has Livermore Denies Designated Slayer He Heads Pool To Of Gotham Printer Force Stocks Down

NEW ORLEANS, La., Oct. 21. (UPI)—Miss Ione Ord, New York artist, has named the killer of Jack Kraft, New York pressman, who was announced here today by District Attorney Leander H. Powers of Pennsylvania, partner, in which he is engaged in the last

place.

Immediately before making this statement, the district attorney had said Epstein, co-owner of the newspaper Kreiss taken from the U. S. prison and raised to the gallows, was the man who had planned the killing.

This morning more plumb哥 were executed, as on the most notorious personalities who ever invaded the street," declared he is "petrified."

"In connection with the various reports which have been circulating lately, and during the past two days to the effect that Miss Ord had told him,

Kraft was mysteriously killed a week ago yesterday. It was first reported that he had committed suicide by jumping overboard from the steamer Kreiss taken from the U. S. prison and raised to the gallows, was the man who had planned the killing.

Epstein, co-owner of the newspaper Kreiss taken from the U. S. prison and raised to the gallows, was the man who had planned the killing.

Epstein, co-owner of the newspaper Kreiss taken from the U. S. prison and raised to the gallows, was the man who had planned the killing.

Epstein, co-owner of the newspaper Kreiss taken from the U. S. prison and raised to the gallows, was the man who had planned the killing.

Epstein, co-owner of the newspaper Kreiss taken from the U. S. prison and raised to the gallows, was the man who had planned the killing.

Epstein, co-owner of the newspaper Kreiss taken from the U. S. prison and raised to the gallows, was the man who had planned the killing.

Epstein, co-owner of the newspaper Kreiss taken from the U. S. prison and raised to the gallows, was the man who had planned the killing.

Epstein, co-owner of the newspaper Kreiss taken from the U. S. prison and raised to the gallows, was the man who had planned the killing.
