TROOP TRAIN WRECKED PERCY BAYLISS NEAR TREVES—OTHER DISORDERS REPORTED

POLICE EXECUTED

For Coming Back into the Evac-

unted District and Price is Now on Heada Hun Police (By The Associated Press) DUSSELDORF, March 16 .- One

sult of sabotage.

police were executed in Buer Monday in the presence of two officers and two soldiers of the occupational for-The policemen, named Mohr and

Krauss, were once deported from the district but shad returned for their personal effects when seized. The incident is said to have happened the day before the expiring of the time li-

at Witten have placed a price of 250,-000 marks on the head of every German policeman in the Ruhr.

BERLIN, March 16 .- It was reliably stated last night that complete and unconditional evacuation of the Ruhr will be designated by Germany; as a pre requisite to the resumption of reparations payments and deliveries in kind under the program agreed upo nwhen negotiations with French and Belgians are resumed.

This is the crux of the German official position as announced in connection wit hthe current rumors in respect to possible early inauguration of negotiations either directly with France or through the mediation of a)third party.

Although neither Chancellor Cuno nor Foreign Minister Von Rosenberg has as yet given the German attitude SWEPT THROUGH precise formulation, the Reichstag leaders and Berlin newspaper editors have been definitely apprised that the government will name this condition as the obvious prelude to any forthcoming negotiations for fixing Germany's reparations obligations and

In assuming this attitude the government is convinced that it has the undivided backing of the German people, who it believes would not tolerate for a moment any adjustment failin gto designate unconditional evacuation as a starting point for negoti-

DUSSELDORF, March 16 .- The train was diverted from the main line by a switch being thrown and crashed into a freight train. Near Coblenz three miles of telephone and telegraph | Chairman Burr cable, which included fourteen important military wires, were cut, and destroyed. The French said it would take six menths to repair the damage.

Show Great Success

Showing Will Continue Today

The Winter Park Garden Club staged a very successful flower show yes-MISSISSIPPI terday at the Woman's Club of that city. More than a thousand persons attended during the day from Winter

> The affair proved to be one of the most interesting of social events as well as a botanical display that outrivaled anything that has as yet been attempted in this section. The club rooms were literally filled with the most perfect of tropical flowers and shrubberies of all kinds. Lilies, both white and yellow, of several varieties were among the winners of the display, roses were everywhere in evidence, large beds of pansies of every coloring, garden flowers, astors, and even rare orchids, were included. All flowers and shrubs gave evidence of perfect cultivation and proved that

Of special interest were the rooms devoted to the floral decorations and appointment of dinner tables. Here were several tables laid for four or more guests and exquisitely arranged with centers of flowers and even lovely favors.

The color schemes were carried out to perfection showing what can be done to make a dinner or luncheon occasion attractive.

The flower show will continue today. the doors of the Woman's Club being open at nine o'clock this morning.-

Americanism Officer For Legion Warns of German Coup D'etat

INDIANAPOLIS, March 15 .- A revolution for the restoration of the 105 Palmetto Ave.-Prussian monarchy including the reinstatement of the Robenzullerns, is impending in Germany under Von Hindenberg's leadership in the opinion of Garland W. Powell, national director of Americanism commission of the American Leglon, who yesterday issued a warning to all Americanism officers to guard against German propaganda. "The picture of Von Hindenburg is

reappearing in the American news papers as it did in 1914," Mr. Powell stated. "He has been selected by the German monarchist party to rattle the sabre in the kalser style and to bring about a coup d'etat to restore the old regime. He has opened this campaign by calling for war with France, in his address to the German veterans' league in Honover yesterday. Hindenburg is still the hero of Germany and his re-appearance is a mence to the peace of the world."

The American people do not realize said Mr. Powell, that Germany can afford to spend millions for propaganda in America while refusing to pay reparations to France and the Allies on the plea of poverty.

"Germany today is in a better position for war than the world realizes," Mr. Powell declared, "but this German propogands is being exerted to bring the American people to beприменя применя и применя и применя и применя и применя и применя в применя и применя

THE ANTI-MOSQUITO CAMPAIGN

The Atlantic National Bank of Jacksonville paid for a full page in Sunday's issue of the Times-Union in which it presented a convincing argument in support of the state-wide campaign for the extermination of the mosquito.

Answering the question which it assumes many will ask, "Why should a bank be interested in mosquito extermination?" it says

For the same reason that the United States government, before undertaking to build the l'anuma canal, cleaned up the canal zone, where prevfourly no human being could keep well mainly because of the mosquitoes that infested that region, and by their

Keep Your Ford from Steaming

WHEN your radiator steams It means that your water is low or your radiator is dirty. Hard water deposits lime in the radiator tubes. That reduces their area and cuts down radiation so the water circulates without get-ting cool. The result is an over-heated engine and reduced efficiency; greater gas consumption and rapid depreciation. The remedy is simple and cheap. Use Glant Lye and your problem is solved.

> DIRECTIONS: Dissolve DIRECTIONS: Directive
> 2 to 4 tablespoonfuls of
> Glant Lye in enough
> water to fill the radiator.
> Leave in the car during
> a day's run. Drain and
> refill with clean water.
> Repeat once a month.

intensive cultivation, under a perma-

nent water supply, of an area of over

Rising over the ruins of ancient Carthage and the surrounding blits, rich in history, is a modern city of residential villas. Archeologists point out that If this building is permitted to continue, their excavation work will be seriously hampered, as the new proprietors object to invasions of their yards by workmen, no matter what treasures of history may lie underneath. Two French government employees of the department of Tunts lately bought a piece of ground on the site of the old city, and before building their house started to find out what was underneath the surface. After patient digging they discovered a temple of Tanit. Unless the French government stops the sale, real estate agents will shortly put on the market some 240 acres of the site of Carthage at a total sale price of \$200,000.

"White Slavery."

White-slave traffic was formerly extensive in Europe, America, parts of Asia, Africa and Australia. The suppression of the traffic was agreed upon by an international treaty signed May, 1904, by representatives of France, Germany, Great Britain, Italy, Russia, Sweden, Denmark, Belgium, Holland, Spain, Portugal, Norway and Switzerland. The United States signified its adherence to the treaty in

MOLLA QUALIFIES

(By The Associated Press) NICE, March 16. Mrs. Molla B.

Mallory, American woman tennis champion, yesterday qualified to meet Suzaine Lenglen in the singles of the Nice tournament today by de-English players, in the second and third rounds.

The score of the Mallory-O'Neill match was 8-6, 6-3.

Miss Elizabeth Ryan, of California defeated Mrs. Beamish; of England, thus reaching the semi-finals. The score was 0-6, 6-5, 6-1.

Daily Fashion Hint

DECLARING FASHION'S I FOND-NESS FOR SIMPLICITY

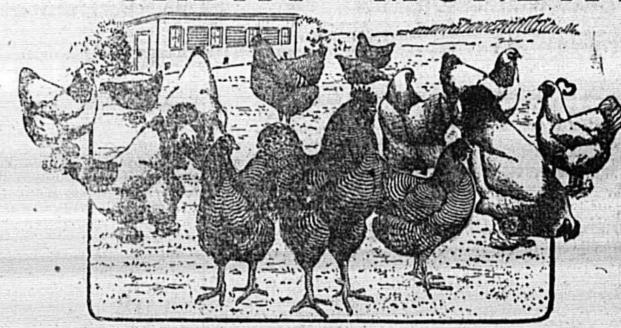

When frock and sleeves cannot agree as to material, at least each can take a separate course and remain in harmony To the left is a new declaration of fashion in henna cotton voile trimmed with sleeves of self-material in Persian design. The back of the dress is gathered at the upper edge and at-tached to a yoke. The front is slashed at the shoulders and gathered to form a yoke effect.' Medium size requires 31/2 yards plain and 1/4 yard figured 36-inch material.

Orchid voile with the pendant girdle ornament in deepening shades of lavender and purple, is recommended for the second model. The dress closes on the shoulders and the attached threepiece skirt falls in cascade effect at the left side. Medium size requires 5 yards 36-inch material. First Model: Pictorial Review Dress No. 1477. Sizes, 34 to 46 inches bust. Price, 35 cents.

Price, 35 cents.

Second Model: Dress No. 1475. Sizes, 36 to 46 inches bust. Price, 15 cents,

SATURDAY --- MONDAY

1,000,000 BUSY HENS

It keeps 1,000,000 hens busy to supply the daily egg needs of the custome g of PIGGLY WIGGLY. MRS. HEN is the friend of PIGGLY WIGGLY and PIGGLY WIGGLY is the friend and patron of MRS. HEN. MRS. HEN and PIGGLY WIGGLY both believe in advertising.

MRS. HEN was the first known advertiser, and she keeps everlastingly at it. Mrs. Goose, Mrs. Duck and Mrs. Turkey do not advertise, hence very few people eat their eggs; everybody eats MRS. HEN'S eggs, as when she lays an egg she advertises the fact.

All eggs sold at PIGGLY WIGGLY are guaranteed.

The medieval painter who in a pleture of the crucifixion of Christ represented a Roman soldier armed with a blunderbuss must have a descendant In the British post office department. According to an indignant writer in the "Bulletin de la Societe Astronomique de France," the English government for its possession of Saint Kitts or Saint Christopher, one of the West Indla Islands, has provided a stamp showing Christopher Columbus surveyin the horizon through a spy-glass,

> ered America in 1492, while the spy glass was not invented until 118 years afterward. But what a Joy that stamp must be to collectors!

To Determine Displacement. An apparatus by which the amount of water displaced by a vessel can be found at any time by means of a water tube or gauge installed in the center of a vessel has been invented by the 12:05 p.m. French shipping engineer M. Augereau, and was on exhibition at the French national colonial exposition at Marseilles. It is said to be simple, practical and comparatively inexpensive as to installation. By this means an accurate indication of the weight of cargo aboard ship can be secured at any Departs given moment.

South Africa's Corn Crop. The estimated production of corn ir South Africa, as announced by the Department of Agriculture of the government, has been revised to approxi mately 34,135,714 bushels, instead of 35,454,300 bushels as formerly reported. With an estimated domestic consumption of 35,000,000 bushels, based on a five-year average between 1914 and 1919, the present season's out-turn, together with the small carry-over stocks of last year, will just about meet

PROPOSES BARK FOR FUEL

Properly Prepared, According to One Who Should Know, It Could Be Substituted for Coal.

In a report to the Technical Assoclation of the Pulp and Paper Industry, which has been holding its annual meeting at Detroit, George D. Bearce, engineer for the News Print Service bureau, described experiments on the substitution of wood bark, properly prepared, for coal, stating that the "enormous quantity of pulp wood waich is used in the paper business is evidence of its potential fuel value to the industry."

The quantity of bark in pulp wood, said Mr. Benrce, amounts to approximately ten per cent of the volume and weight of the rough wood, or 250 pounds of dry bark per cord of wood. One hundred cords of pulp wood represents approximately 25,000 pounds of dry bark that has a fuel value equal The heating value, Mr. Bearce stated, increases greatly if the moisture content of the bark is lessened.

A large number of mills using pulp wood were visited or questioned by Mr. Bearce and the committee which he headed. Many stated that they considered the bark of little value. Tests made for the committee showed that two types of processes were able to reduce the moisture content to about Rev. Joseph Wainright will fill his 60 per cent, and that it would be necesthe moisture removed if the bark were to serve as a suitable substitute for coal. Special draft conditions, a grate surface giving correct combustion, and refractory walls to dry out the moist-

> Under these conditions it was held by the committee that the bark could be used as fuel and thus effect a saving of a large amount of coal,

Well-Known Concert Orchestra Coming Here at Chautauqua

The Di Giorgio Concert Orchestra, talented instrumentalists, who will appear at the coming Redpath Chautauqua, through ten years of concert work together have attained a degree of musical excellence that has made the name "DI Glorgio" one to be reckoned with in concert work. /

Signor T. Di Giorgio, who heads the company, is a recognized orchestral conductor and instructor of more than twenty-five years' successful experience. Under his able leadership, the orchestra interprets both classical and popular selections through a wide variety of musical combinations. From a concert orchestra of plane, violin, cornet and trembene they readily change to a straight string organization of violin, cello, mandolin and guitar.

The Di Giorgies are always royally welcomed by Chautauqua audiences.

New Millions Are Coming To Florida To Expand Your Telephone System

N a previous advertisement we reviewed the records and plans of the Southern Bell Company as a whole, showing that the development during 1922 in this section was tremendous and set new high records; that the total investment at the beginning of 1923 was forty-eight million dollars, and that thousands of new telephones were added.

Florida's telephone growth last year also established new records and required the best efforts of a splendid organization.

The gross additions to the telephone plant in Florida during 1922 amounted to \$527,022 and 7,736 new telephones were installed. There were 6,237 discontinuances, leaving a net gain of 1,499 telephones.

There are 26 Southern Bell exchanges in Florida with 34.488 telephones and connecting with 31,651 telephones of other companies in the state, Approximately 230,000 local calls

were handled daily in Florida and there were approximately 971,600 origfeating long distance calls during the Florida's telephone system contains

about 67,000 miles of wire of which 14.000 miles are used for long distance purposes, and there are 57,000 poles. The telephone plant in Florida rep-

resents an investment of \$5,991,972 and in built, maintained and operated by 432 employes whose annual pay roll is \$147,292. These workers all live in Florida and most of them are native horn.

They spend their wages here at home

for food, clothing, rent, light, heat and taxes just as you spend your salary. The plans for the growth and development of the telephone system in Florida for the next five years are such that the skill and energy of the telephone organization will be taxed

The magnitude of the plans may be imagined when it is stated that \$5,-693,000 of new money will be required in Florida alone during the next five

In this state it is estimated there will be a not growth of 20,521 new telephones during this period which will mean the installation of 49,980 new telephones and the discontinuance of 29,459 telephones.

This general expansion has already. began. The plans for this year have been made and the necessary capital arranged for, though much will depend upon the ability of the manufacturers to deliver the equipment and

The growth of the telephone system in Florida during 1923 will require \$925,000 in new money, to pay for work which must be done in all sections of the state.

It is estimated that during this year 9,730 new telephones will be installed. 5,280 discontinued, making a not gain of 4,450 telephones for the year.

This accomplishment will give Florida a total of more than 39,670 tele-

Daily Fashion Hint

A VERY PLEASING TYPE

Simplicity here is really the essence of style. This dress of dark brown satin crepe has for its colorful touch a girdle of gilt and dark green nailheads, strung on a chain of dark brown beads. The applied front is caught in with the right shoulder, the closing being on the left. There is a sash of self-material to which the gathered panels are attached. Flowing sections lengthen the short one-niece sleeves. Medium size requires 63's yards 36-inch mate-
