

MISS CLARKE TOOK MONEY ACCORDING TO STATEMENT GIVEN PALM BEACH POST

Chief Postal Inspector Says Woman Confessed at Orlando

TAKES ALL BLAME

FOR THE POSTOFFICE ROBBERY AT WEST PALM BEACH

WEST PALM BEACH, Aug. 4.—According to a statement given to the West Palm Beach Post yesterday afternoon by L. A. Johnson, chief postal inspector for the Southeastern district, Miss Lena Clarke, postmistress at this place, confessed to F. J. G. Pulsifer, an assistant inspector, in her cell at Orlando, that she alone was responsible for the loss of two registered packages containing \$32,000 missing from the local postoffice since July 26.

\$5,700 of the money, Miss Clarke told Pulsifer according to the statement, would be found at the residence of J. E. Chambers of this city, and this amount, Inspector Johnson says, his men recovered yesterday afternoon. Other sums, according to the signed statement, were used to cover a deficit in her local accounts.

Miss Clarke is held without bail at Orlando in connection with the killing of F. A. Millmore Monday night in that city. Millmore was formerly employed in the local postoffice.

According to Chief Inspector Johnson's statement made to the Post, Inspector Pulsifer returned here yesterday from Orlando, where he had been sent in an attempt to clear up the missing money:

"I and I alone, took the money. There was no one else but me connected with the affair. You will find \$5,700 of the stolen money in the home of J. E. Chambers, 323 South Polk street, West Palm Beach," Johnson quoted Miss Clarke as saying in her signed statement. He exhibited authority for getting the money from Chambers' home in a note signed by Miss Clarke's first name—Lena.

The note read: "Dear Grandpa—Please let Mr. Pulsifer get something out of my room, Lena."

The note was written in a Western Union envelope, which had been split open and was written on the inside. On the reverse side of the envelope was the word "Jail."

Knight Would Have Nation-Wide Protest Against Tariff Bill

AKRON, Ohio, Aug. 4.—Chambers of commerce, business men and corporations throughout the country, were appealed to in an address here last night by C. L. Knight, republican congressman, of Ohio, to join in a nation-wide protest to the house ways and means committee against the Fordney tariff bill which he characterized as one of the worst pieces of legislation in the country's history.

Congressman Knight also urged that a protest be made against the contemplated income tax, which he said, was discrimination in favor of the country's highest salaried men. Congressman Knight also criticized President Harding, declaring he was one of the chief offenders in increasing taxation and swelling the costs of running the country by asking congress to pass a welfare bill calling for a \$200,000,000 appropriation.

Speaking of the railroads, announcement that the public is stealing a hundred million dollars annually from them, the Lakeland Telegram exclaims: "Why, a tramp could make a fortune in twelve months just stealing rides from here to Haines City."

PELLAGRA SITUATION DISCUSSED IN CLOSED SESSION AT CAPITAL TODAY BETWEEN HEALTH OFFICIALS

From Southern States And Surgeon General Cumming

WASHINGTON, Aug. 4.—Pellagra situation was discussed in closed session here today at a conference between health officials from Southern states and Surgeon General Cumming of the Public Health Service. Some of the state officials said as they entered the conference room they would dispute any claim that the disease had reached serious proportions in their territory. Information of Federal government as to conditions, then contended was incomplete and did not accurately picture conditions. Dr. Cumming said he hoped to get first hand information from the state officials and map out a concerted course of action. President Harding requested the Public Health and Red Cross officials were asked to take measures to meet the threatened ravages of pellagra in the South.

There were many cattlemen and dairymen present and but little opposition to the dipping developed.

Promote a Feeling of Good Fellowship and Extend Trade

NOW IS THE TIME

WHEN ON THRESHOLD OF BEST SEASON SANFORD HAS EVER EXPERIENCED.

In most cities which maintain a commercial organization, one of the important functions of that organization is to arrange trade extension trips which afford members an opportunity to repay to the towns in their territory the visits made by the merchants and citizens of the town. It is also a method by which they extend their trade relations and in various cities different plans have been evolved to attain this end. It is generally conceded that trips of this kind are worth while—that the item of expense is a legitimate charge to advertising, and the members of commercial organizations take great interest in them and usually co-operate in suggesting the places to visit. They promote a feeling of good fellowship and many acquaintances are formed that are lasting and agreeable.

Towns visited always plan some kind of a reception governed by the length of the stay with them, so the members making the trip return home, in most instances, satisfied that it has been worth the time, trouble and expense involved.

The advent of the automobile has served to greatly increase the retail territory of the larger cities and towns in many cases shoppers driving twenty-five, fifty or even one hundred miles to trade, the territory, of course, being affected materially by the class of roads leading to the city and the location of competing centers. In this connection too much stress cannot be laid upon the necessity of good roads.

The automobile trip is popular in many towns and cities and is particularly well adapted to trips where the number participating does not warrant the running of a special train and for comparatively short trips into immediate trade territories. It permits of much greater flexibility and does not call for the outlay required by the more pretentious train trips.

As a rule it is more local in character and its make-up generally includes men representing both wholesale and retail establishments. Frequently such excursions are almost wholly community boosting trips—get-together, get-acquainted propositions, and are, no doubt, of value both from the standpoint of a knowledge of the immediate surrounding country, crop conditions and trade.

The better organized trips have a definite schedule and program such as the more ambitious train trips, the benefits in territory covered being comparable to the extended excursions.

A danger to be guarded against in the automobile trip is that of its degenerating into a road race and consequent forgetfulness of the real object of the trip. When this occurs it is likely to do more harm than good.

More will be said in following articles relative to the benefits to be derived from trade extension trips. In general, a trade extension trip has as its object, not only the increase of trade that may result to the individual jobber or retailer through meeting his customers and possible buyers, but the strengthening of the city as the logical center of that section—not only as a trading point, but the commercial, social and educational center—in short, the "big town" to its constituency.

## HAYNES SAYS THEY BELONG TO ANARCHISTS

TO REPEAL PROHIBITION LAWS WOULD'NT CURE LIQUOR TRAFFIC

WASHINGTON, Aug. 3.—The bootlegger of 1921 was characterized as nothing short of the embodiment of anarchy and bolshevism in a speech made at Washington Grove, Md., by Major Roy A. Haynes, federal prohibition commissioner, who took office a short time ago. Major Haynes attacked the theory that personal liberty was interfered with by the prohibition laws because they sometimes were violated would be comparable to abolishing laws against murder, because murder was sometimes committed.

"He is a short-sighted American," Major Haynes said, "who fails to see in the bootlegger of today both the spirit of the anarchist and bolshevik. It is time that the citizen upon whom we depend to uphold our Americanism awakens to the realization that bootlegging is not a mere pastime, but is a nefarious and traitorous business. The bootlegger, whether he be in the highest or lowest walks of life, is in the last analysis a law violator and, stripped of his social prestige or political influence, he is a criminal giving assistance and encouragement to those forces of profiteering criminality whose business it has been to prostitute statesmanship and debauch citizenship, which have murdered more men in the discharge of their duties in proportion to the number employed in the enforcement of law than fell on the battlefields of France in the defense of our flag.

"It is said that the poisonous wasp that stung Cleopatra to death hid in a bouquet of Oriental flowers. Some of the most venomous attacks on the eighteenth amendment are camouflaged as personal liberty, Americanism and patriotism.

"The personal liberty argument is like a soap bubble—it appears iridescent and real, but when punctured there is nothing in it. They say the eighteenth amendment infringes upon personal liberty by restricting one's personal habits. Now, every law does that in a larger or smaller degree. The narcotic law greatly interferes with the personal habits of the drug addict and the traffic laws seriously restrict the speed fiend, but these restrictions do not seriously limit the man who puts the community good above his self-indulgence. Nor do they greatly embarrass the man who places the public welfare above his personal convenience. Liberty is, after all, personal habits restricted by law for public good, and license, these same impulses unrestricted.

"From behind the smoke screen of patriotism is launched one of the most specious attacks against the eighteenth amendment. This attack is the claim that the amendment is impracticable, impossible of enforcement and, therefore, detrimental to the nation and ought not to be enforced. That it is difficult at this hour to enforce prohibition laws we do not deny, and that there are violations of the law we do not doubt, but the laws against murder have been known on this continent since the Puritan walked over its shores, and yet we have many times awakened to find that human life is seemingly held lightly in our land."

## NO ARRESTS YET MADE IN BEATING OF BUNNELL MAN.

BUNNELL, Aug. 3.—Although strenuous efforts are being made by Flagler county officials, no arrests have been made in the kidnapping and beating last Friday night by a party of men of S. R. Fields, recently-appointed county commissioner.

Resolutions condemning the action of lawless men were passed at a mass meeting of citizens held here Sunday afternoon. A wire from Governor Hardee to Sheriff Johnston instructing him to exert every effort to apprehend the guilty parties was read. There is an undercurrent of excitement and feeling which is keeping the people restless and uncertain as to the outcome.

Commissioner Fields, as he was returning to his home with his wife after a short ride, was taken forcibly from in front of his home by a party of men, shoved into a waiting automobile and rushed away. Sheriff Johnston and C. E. Pollicer went in pursuit and returned with Fields who they found on King's road near St. Joseph, bruised about the face and body. He said that he had been warned to leave the county in 48 hours and ascribed the act to political enemies and ruffian tactics. He has declared his intention to remain in Bunnell.

## ARREST PERRY FOR MURDER OF HIS WIFE

PROMINENT MAYO FARMER FOUND GUILTY BY CORONER'S JURY

MAYO, Aug. 3.—Wm. Perry, 60 years of age, one of the oldest, most prominent and wealthiest citizens of Lafayette county, is being held in jail here today charged with the murder of his wife, Mrs. Lucy Perry, aged 18, and his sister-in-law, Pearl Malcolm, aged 13, following his arrest late Monday afternoon upon the verdict of a coroner's jury.

The charred bones of the young wife, a bride of two years and Perry's second wife, and her sister, a mere slip of a girl, were found in the smouldering ruins of a lonely log cabin 15 miles south of Mayo early Saturday morning. A butcher knife and a club axe were lying near the bodies.

After a lengthy session Monday afternoon, the coroner's jury over which Judge Hal W. Adams presided, returned a verdict holding that "William Perry is guilty of the murder of his wife, Lucy Perry, and his sister-in-law, Pearl Malcolm." Perry, who testified at the inquest held here was immediately placed under arrest by Sheriff Murray on order of Judge Adams and placed in jail to await further proceedings. No date has yet been set for his arraignment.

Funeral services over the remains of Mrs. Perry and little Pearl Malcolm, who were the daughters of a very well known Lafayette county farmer, were held at Bethel Cemetery, two miles from Mayo, Monday afternoon and were attended by a very large assemblage of people.

Citizens of this section are thoroughly aroused over the double tragedy which is the most gruesome in the annals of the county's history and extra precautions are being taken to prevent any violence.

The most convincing testimony against Perry which was developed at the inquest was given by Mrs. W. D. Malcolm, mother of the dead women. She told the jury that Perry had made threats against the life of his young wife. A year ago, Mrs. Malcolm said, Perry had become dissatisfied with his wife and had attempted to secure a divorce but had failed.

## MELLON WOULD SHIFT BURDEN OF TAXATION.

WASHINGTON, Aug. 3.—A tax of two cents on bank checks, a flat license tax of \$10 on all automobiles, irrespective of cost or horsepower, an increase of first-class postage rates to three cents and an added levy on cigars, tobacco and cigarettes, are understood to have been among tax revision suggestions presented by Secretary of the Treasury Mellon to the house ways and means committee, meeting in executive session.

Other suggestions were said to have included:

A reduction of 50 per cent in transportation taxes, both passenger and freight, next year, and their elimination the year following.

Repeal of the taxes on soda fountain drinks and ice cream.

Repeal of the excess profits tax and elimination of the \$2,000 exemption on corporations' incomes.

Increase of the normal income tax on corporations from the present 10 per cent to 15 per cent.

Elimination of the income surtax brackets above 40 per cent with the surtax rates on incomes ranging from \$6,000 to \$50,000 increased.

The revenue bill as revised in accord with these suggestions would be designated to raise approximately four billion of dollars next year, it was said. Mr. Mellon's memorandum embodying his views was withheld but Chairman Fordney promised to make it public later.

Representative Garner, of Texas, ranking Democrat member of the committee attacked the treasury secretary's proposals declaring that every one of them constituted a "shifting of the tax burden from the classes to the masses."

Mr. Mellon was said to have estimated government expenditures for next year at \$4,675,000,000, but Chairman Fordney said this was dependent upon how much of the \$500,000,000 due the railroads would have to be advanced out of the federal treasury, the cost of operating the government merchant fleet and the size of expenditures for the army and the navy.

Aside from the internal taxes, the treasury secretary was understood to have estimated customs receipts for next year at \$450,000,000 and miscellaneous receipts, including salvage at \$350,000,000.

### UNITED STATES HOLDS FUTURE OF WORLD IN HAND, CLAIMS INMAN.

LAKE JUNALUSKA, N. C., Aug. 3.—That the United States holds the future of the world in its hand, was the impression gained by S. G. Inman, in an extended tour of Europe and Latin-American countries, he declared before the Methodist Missionary Conference here yesterday.

Mr. Inman said President Harding more than any other man controls the destinies of the nations and if the churches of America would back him in the disarmament conference politicians would not dare deprive the

world of another church for universal peace. He said England was more anxious than ever for close relations with the United States.

MIAMI, Aug. 3.—Fort Pierce won the first half of the Florida East Coast league yesterday, closing out the Miami club by a one game margin. The race was not decided until yesterday, the final game of the first half. The race was close, West Palm Beach having been eliminated the day before. The league will start its second half today and will close in the middle of October.

### LEESBURG DEFEATS WINTER GARDEN, 3-2

WINTER GARDEN, Aug. 3.—Leesburg defeated Winter Garden here yesterday 3 to 2. The locals outfit Leesburg with nine hits to four safeties, but three easy chances that were turned into errors allowed Leesburg to score three runs on one hit. Both clubs played good ball and some of their fielding was sensational.

Tavares plays here Thursday and Apopka Saturday. Batteries: Leesburg, Epperson and Buckles; Winter Garden, Crocker, Taylor and Overstreet.

"Confessions of a Bride" have run out according to the Tampa Times. Yes, they ought to in about six months.

We have several good jobs for Frank Miller and the city of Sanford will be better off after Frank gets through.

And speaking of Frank Miller reminds us that he and his father, T. J. Miller, are the greatest builders that Sanford has ever had.

Plymouth Rock has been rededicated by President Harding. Hope it does not make the price of Plymouth Rock chickens go any higher.

Orlando is getting in the big city class having a murder at least once each month or so. If their own people cannot arrange for one they get them to come in from a distance.

The golden voice of Caruso has been stilled but it will live in the records of the phonograph for many years to come. However, we insist that the phonograph be in good shape or the golden voice will turn to brass.

We are greatly surprised that a Daytona boat should be featured in the headlines of the newspapers as a "Rum Runner." No one would ever suspect a Daytona or Daytona Beach boat of being a "rum runner." O, dear, O dear, what are we coming to in these piping times of prohibition?

It does one good to see the growth and prosperity of Sanford this year. Business blocks and residences are going up all over the Celery City. In course of time, the brick roads in that section may be planed down, or sandpapered, or covered over with about two inches of sand or feathers or something.—Defland News.

We'd like to make reservations for any open dates that Jacksonville beauty shop may have—the one that can make a bald headed man beautiful. We are expecting company from Sanford, St. Petersburg and nearer home, shortly.—Tampa Tribune. We don't know what you mean, Jawn. There are no bald heads in Sanford. Some of us may have rather high foreheads but none of us are bald.

Those that know say that the Daily Herald has kept Sanford booming this summer. We do not take the credit for it but we do think that keeping the daily going filled with advertisements has kept the city from going to sleep. And we do think that August and September are the months when the merchants should keep awake and keep the people coming. It is no trouble to run a good newspaper or a good store in the winter months. It takes the real thing to keep them going in the summer.

Headlines in Jacksonville Metropolis says: "Building Boom in Tallahassee Easily Evident." Say, that denotes progress. We can easily remember when a boom in Tallahassee was not easily evident and now that houses are being built that can be seen and whose evidence is indisputable even beyond any reasonable doubt in the minds of the Supreme Judges and Tom Appleyard we hasten to congratulate the capital city. And we

suppose that when the half million is spent on the capitol building that it will also be easily evident—at least let us hope so.

PEARMAN ON THE JOB.

Secretary Pearman, of the Sanford Chamber of Commerce is there all the time and keeps busy at nights thinking up something for the good of Sanford. As a publicity agent he is par excellence and among his latest stunts is the printing of the following on the bottom of the Chamber of Commerce letter heads: "Pellagra and Prosperity Are Not Synonymous—We Are Prosperous"—Sanford, the City Substantial.

Just now when there is so much talk about pellagra in the South these letters going to many people in the north will cause them to sit up and take notice. Every little bit helps and Pearman can be depended upon to keep Sanford on the map.

OUR BAD BRICK ROADS

Brick roads are not all good. Brick roads do not always remain in good condition. Seminole county has some brick roads that are a disgrace to the county and the people who built them. However, they were built in the early days when but few people knew what brick were like and less about how brick roads should be built and we were stung. After waiting many years on the bonding companies to make good on those roads and coming to the conclusion that they will not make good it is high time to either get the state road department to relay this road on the west side or for the county commissioners to cast about and see if they could not use the same bricks and with an asphalt filler relay part of this road at a time without having another bond issue and without using much of the tax payers money. Our road patrol could do the work with a few laborers to help. The bricks can be taken up and relaid and the asphalt filler applied hot and smoothed off and we would have a good road for many years to come. This has been done in other parts of the state and can be done in this county and it should be done as soon as possible. Any visitors to the county coming in over the west side road or over part of the Sanford-Orlando road would not have a good opinion of our county even though they discovered that there were some good roads in other parts of the county.

These roads have been in this condition for many years. They should not be left in this condition much longer.

STARVING AT HOME.

The good ladies who have been soliciting money from Sanford people for the purpose of erecting a suitable building on the grammar school grounds for hot lunches this winter, have met with many people who do not seem to understand the proposition, or if they do understand it, are prone to pass it by.

School lunches concern everyone in this city, and in the school district. It matters but little whether you have any children in school or not, you should certainly be interested in their welfare. You might not have any children in school, either, yet you weep every time you hear about some youngster going wrong, and the majority of them go wrong because they were not kept in school.

This business of providing school lunches for the children means so much to the community at large, that it is fallacy for anyone to even think of refusing something for the great cause. It means much more than helping the starving Chinese or the Fiji Islanders, or any of the other folks who are thousands of miles away. It means that you are literally keeping some of the children here at home from starving, for it is no idle tale when we say that some children have come to the Sanford schools from the country districts, and no doubt many from the city, itself, that had nothing to eat all day. It might have been because their mothers were too busy to get up lunches for them, or it might have been because they had nothing with which to make them, but the fact remains that these children would have starved all day had it not been for the teachers sharing some of their lunch with them. We send millions to the starving Chinese and the near East, and the far East, and all the other countries, but we let our own school children starve to death.

The Herald wants to call attention of some of the people of this city to this fact. We know that many of them have busied themselves in the past with the foreign missions, and with the people of other countries, and no doubt many of these kind hearted people are now giving to the school children, but we have heard that the response has not been generous, and people who can well afford to give, have given nothing. It all goes back to the community chest taken from the taxes of the county.

There are some rich people in this city, and county, who never gave to anything in their lives, and they should be made to do a man's part or get out of the sight of men.

FLORIDA COOLEST STATE IN SUMMER.

The Times-Union presents evidence taken from the records of the government weather bureau which proves the superiority of our summer climate, and particularly as relates to the gulf coast and south Atlantic sections, over practically all other sections of the United States. The record is for the summer of 1919, and the Times is convinced that the showing for the present year would be even more favorable. The most distressing heat wave has covered the country, with the exception of peninsular Florida, and its duration has been unusual.

The Times-Union's article is herewith reprinted in full:

For a week or ten days, Florida has been one of the coolest states in the Union and the fact has attracted a considerable amount of attention in this state—what a pity the attention attracted has not been out of the state. But one week does not count for much when we have access to the records of the weather bureau since it is taken in summer. In the statistical abstract of the United States for 1919, page four, is published the highest range of the thermometer ever known in sixty-nine stations. The showing is interesting and beginning with the places that have known the least maximum of heat and ending with those showing the greatest it is as follows:

- Eastport, Me., 93. Buffalo, N. Y., 96. Miami, and Seattle, 96. Sault Ste Marie, Mich., and Santa Fe, New Mexico, 97. Tampa, 98. Galveston, Tex., Duluth, Minn., and Lauder, Wyo., 99. Oswego, N. Y., Atlanta, Ga., Knoxville, Tenn., Cleveland and Port Huron, Mich., 100. Green Bay, Wis., and San Francisco, 101. Northfield, Va., New York city, Charlotte, N. C., New Orleans, and Salt Lake City, 102. Wilmington, N. C., Chicago, and Helena, Mont., 103. Boston, Albany, N. Y., Harrisburg, Pa., Jacksonville, St. Paul, Winne- nucca, Nev., and Port Huron, Mich., -04. Lynchburg, Va., and Denver, Col., 105. Washington City, Parkersburg, W. Va., Amarillo, Tex., Little Rock, Ark., Springfield, Mo., Indianapolis, Dubuque, Iowa, and Rapid City, S. D., 106. Montgomery, Louisville, St. Louis, Springfield, Ill., Bismarck, N. D., Williston, N. D., and North Platte, Neb., 107. Palestine, Tex., San Antonio, Kansas City, Oklahoma City, Huron, S. D., Dodge City, Kan., and Havre, Mont., 108. Los Angeles, 109. Shreveport, La., Abilene, Tex., Omaha, Neb., and Spokane, Wash., 110. Boise, Idaho, 111. Walla Walla, Wash., and El Paso, Tex., 113. Fresno and Red Bluff, Cal., 115. Phoenix, Arizona, 119.

There are only three cities mentioned on this page of the statistical abstract of the United States that have not known hotter weather than Miami and one of these has known weather equally hot. Only six cities in this list have not known hotter weather than Tampa and one of these of a Florida city. There are only ten cities in this list in which mercury has not been known to reach 100, and two of these are in Florida. There are more than 50 cities in it which have known temperatures of 100 or more and Jacksonville is the only one of these in Florida. Florida is the only state in the Union for which more

than one station is reported in which the average of the maximum is below 100.

It is folly to deny that the warm weather lasts longer in Florida than in states of the north, for it does. But it is true, and everybody should know it, that the heat is more mitigated in this state by cooling breezes than in any other state. The truth should also be known that the extremes are never reached here that are reached elsewhere.

In midsummer the sun rises an hour earlier in Chicago than in Jacksonville and sets an hour later. This means that in Chicago and Boston the earth is heating in summer two hours longer than in Jacksonville and is cooling two hours less. On the parallel of Boston and Chicago the sun is heating the earth sixteen hours a day and the night is cooling the earth only eight hours. That is to say the heating is longer than the cooling in Boston or Chicago by eight hours. In Jacksonville the sun is heating the earth only fourteen hours and the earth is cooling ten, leaving an excess of the heating process of only four hours as compared with eight in Boston or in Chicago. This may account for the comparative coolness of the south.

Money must be an awful drug to Jacksonville bootleggers. One of them had to have a pistol pushed at his head to make him accept \$1,500.

J. E. Snyder, of Chuluota, was among the visitors to the city yesterday, and reports business in his section as being very good. Mr. Snyder is proprietor of the big department store in Chuluota and his firm has been doing a fine business ever since they opened their doors.

## SANFORD'S TEMPERATURE

Hully gee, she went sky-rocketing yesterday... Who would have believed that the old bulb would take up aviation and break the high altitude record. But figures are figures and they say they do not lie and the figures for yesterday say the thermometer went to 97 and who shall say it did not. And folks, it was "rawther tepid, you know" along about two or three in the afternoon and even last night. Of course the cooling breezes came to us later but as we said before this is August, you know and August is well, it is August as we said before:

5:40 A. M. AUGUST 4  
Maximum ..... 97  
Minimum ..... 71

## CHAMBER OF COMMERCE NOTES

The New Industries Committee of the Sanford Chamber of Commerce met last night to work out a program for bringing new industries to Sanford. They also considered proposals made by different concerns who are desirous of locating here. The favorable publicity Sanford has been receiving lately is prompting a great many concerns and individuals to investigate Sanford as a possible location for their business. The aggressive action of the committee in deciding to go out after new industries for Sanford is most commendable and should be productive of results.

The weekly meetings of the Board of Governors of the Sanford Chamber of Commerce are held every Friday at 12:15 p. m. in the dining room of the Valdez Hotel. All members of the Sanford Chamber of Commerce are particularly invited to be present at these luncheons. Chairman of the various committees are expected to be present and report on the activities of their respective committees. Representatives from the various civic organizations are also invited to attend and offer any suggestions of a practical nature that will make for a Greater Sanford.

ST. AUGUSTINE.—Game Warden L. Smith killed a large rattlesnake 12 miles south of St. Augustine Sunday afternoon while making an inspection tour. He detected the reptile leaving a clump of palmettoes and firing, struck it about 12 inches back of the head. Believing the snake dead, Mr. Smith approached and the reptile suddenly struck at him, missing the warden by less than six inches. Another shot and work with a stick finished the snake, which measured more than six feet in length.

## TAKE SALTS TO FLUSH KIDNEYS

EAT LESS MEAT IF YOU FEEL  
BACKACHE OR HAVE BLADDER TROUBLE.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will be the next fine and bladder disorders disappear. This famous salt is made from the acids of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—Adv.

**STATEMENT OF MR. KANNER**

For about twelve years now I have been in the mercantile business at Sanford. We have enjoyed a good business in this location during that whole time and I wish to thank our customers for their loyal patronage. Conditions have changed. We find it continually getting harder to buy the values in merchandise that we used to. Our customers and friends expect and require that we give them values for their money. The only way to do this is to go to the best markets and buy for cash and that is what I intend to do. I greatly appreciate the long and loyal support of the community. Many families have traded at this store for the past twelve years, while our business was never larger and patrons more loyal than at the present time.

To show our appreciation of the generous support we have always received from the community we are going to throw our doors wide open to the public and let them have their choice of our entire stock in a way that will be a great boon to the community during these times of adjustment, and also raise some cash money to buy my fall merchandise to our mutual advantage, while on my trip to New York the last of this month.

### WEATHER AND CROP CONDITIONS IN FLORIDA.

Temperatures were generally moderate, except they were somewhat above the normal west of the Suwannee river, and during the last days of the week temperatures were no milder or above in much of the eastern portion of the section.

Rainfall was not so heavy as during the previous week, although locally excessive over portions of the peninsula. There are small areas, however, especially on the east coast, where moderate rains would be beneficial.

Rains were unfavorable for cotton in the northern division; they were not so general west of the Appalachicola. Complaints of shedding and weevil come from various portions of the cotton counties, but the condition is more favorable in the west. Plants made very good growth, and some early planted is opening. Late corn made splendid progress, and the crop is about made. Cane is generally good to excellent, therecent rains being very beneficial, except the soil is too wet in some low lands. Peanuts are mostly good. Sweet potatoes and citrus fruits continue in good condition, but more sunshine is generally needed. Ranges are good to excellent; haying is carried on under difficulties, due to frequent showers. July was one of the wettest of record over much of the section locally (at Jacksonville) the excess was 3.56 inches above the normal for July. Appreciable rain fall on 22 days; the normal is about 15 days.

**SWIMMING PARTY**  
Mrs. George G. Herring was the charming and gracious hostess Tuesday evening at a swimming party at Palm Springs. The evening was most delightfully spent with swimming and other water sports, and at a late hour, a most tempting picnic supper was served by the hostess assisted by Mrs. Forest Lake.

Those who enjoyed Mrs. Herring's charming hospitality were: Misses Serita Lake and Eleanor Herring, and Messrs. Randall Chase, Robert Deane, and Paul Lake and Mrs. Forest Lake.

**ENTERTAINS BRIDGE CLUB**  
Mrs. J. B. Coleman was the charming hostess yesterday morning at a bridge party at her apartment in the Welaka, the guests including the members of the D. A. U. bridge club and a few extra guests. There being three tables of players.

Several absorbing games of bridge were played during the morning, and the prize for high score, a bottle of toilet water, was won by Mrs. F. E. Roumillat.

At the conclusion of the card game delicious refreshments, consisting of ice cream, cake and fruit were served by the hostess assisted by Mrs. W. E. Watson and Mrs. Newberry.

Among the guests present were: Mesdames Hal Wight, F. E. Roumillat, Ralph Wight, H. B. Lewis, Sam Yountz, Claude Howard, M. S. Wiggins, E. P. Morse, R. C. Bower, R. R. Deans, W. T. Morgan and Miss Mable Bowler.

**BON-TON BRIDGE CLUB**  
Mrs. Ben Caswell entertained the members of the Bon-Ton Bridge Club and a few extra guests at a pretty party Wednesday afternoon at her home on Magnolia. Bright garden flowers decorated

the rooms where the game was played.

The high score was made by Miss Serita Lake, who was awarded a hand-painted card table cover. The consolation prize, a pretty bud vase was won by Miss Marjorie Clay.

Punch and mints were served all during the game and the refreshments consisted of a dainty ice course. Mrs. Caswell was assisted in entertaining by her sister, Mrs. Kathryn Huff.

Those entertained included: Misses May Thrasher, Marjorie Clay, Fern Ward, Serita Lake, Virginia Frazier, Virginia Brady, Daphne Wimblah, Agnes Dumas, Adelaide Higgins, Dorothy Rumph, Ethel and Florence Henry, Helen Peck, Mrs. Howard Smith, Mrs. Kirdley, Mrs. Ed. Betts, Mrs. Frank Woodruff, jr., Mrs. Robert Hines, Mrs. Fred Wight and Mrs. Carl Schultz.

**DANCE POSTPONED**

Maurice Clouser was a visitor in town Sunday.

Mrs. Caldwell, Mrs. Meldrum and Miss Dorothy Duffield, of Orlando, were visitors in town Sunday.

J. E. Phipps left Monday for Jacksonville, where he will be for two weeks.

Look out for the Longwood speed cops.

A. Y. Fuller and son, Kirby, motored to Leesburg Tuesday.

Miss Katherine Entzinger left for home in Plant City, accompanied by Miss Omah Allen, Wednesday.

Friends of Miss Anna Bell Allen will be glad to know that she has returned to duty at the Orange General Hospital after several weeks' illness.

### UPSALA AND GRAPEVILLE

Alfred Ericson is home this week enjoying his vacation from the A. C. L. shops.

Mrs. Fred Krell and little daughter, Dorothy, left on Saturday to visit for a week or so with their relatives in Tampa.

Miss Tumblin and a little nephew from Jacksonville, are visiting at the home of her sister, Mrs. W. C. Tyner. Mr. Henchen, of Piedmont, has been the guest at the home of J. E. Lundquist, this past week. Their son and wife, E. W. Lundquist, were Sunday callers there after services.

We hear that Archie Swanson has purchased him another car, a two seated Ford.

Mr. and Mrs. T. O. Tyner spent the week-end at Windermere at the home of Mr. and Mrs. Noah Fry, taking home their mother, Mrs. Bengton, who has been making a visit in Grapeville with them and her grand children. Their daughter, Florence, remained there for a short visit.

Rev. Albertson spread their tent Friday night at Crystal Lake, remaining over and calling at different homes in the community on Saturday. They called to see Mrs. Emil Magnuson, who has been poorly this week, suffering from a bad cold. On Sunday to an appreciative audience he gave us a good sermon on "The Little Foxes that Spoil the Vines." Mrs. Albertson sweetly recited a story on temperance.

Mr. and Mrs. W. C. Tyner spent Saturday over at the home of Mrs. J. A. Vaughn.

Mr. Glidwells' family from the west side, were Sunday callers at the home of Mr. and Mrs. Westerdick, the children also calling to see Mrs. Geo. Clark, after a trip to the lake.

Mrs. Beck and children spent Tuesday at the home of her parents.

Glad to hear that church services and Sunday school have been again resumed at Paola. Rev. Albertson invited all who could to attend the evening service held there last Sunday and a number from Upsala planned to go, we hear.

Post cards—local views—1c each at the Herald office.

# Geneva and Chuluota Among the Gems in Seminole's Diamond Setting

In the lake girt hills of Eastern Seminole County are the little cities of Geneva and Chuluota connected with the recently built good road from Oviedo and on the branch line of the Florida East Coast railroad. Geneva should be, and beyond all doubt will be, one of the popular winter resorts of Florida as soon as the people are informed of her many charms. Geneva is on a good brick road from Sanford and is about 18 miles from this city, the buss line making two trips a day each way and bring passengers to and from Sanford. With one small hotel and four stores and backed by a fine farming country, fine orange groves and the turpentine and lumber industry Geneva has prospered but has hardly grown commensurate with the growth of the other parts of the county. The stores all report a fine business and the Logan Mercantile Co., reports more business in July than in June and everyone in and around Geneva seems prosperous and contented. On the high ridge and flanked by many beautiful lakes Geneva offers much to the tourist who would seek the quiet byways away from the crowd there to fish and hunt and have a power boat on beautiful Lake Harney or on some of the many smaller lakes.

The Wakefield Preserving Co., is the biggest asset to Geneva's manufacturing interests. Started on a small scale the Wakefield Preserving Co., has grown into one of the best in the state and their present quarters are entirely inadequate to take care of the immense business in the making of jellies and preserves and canned goods of all kinds. They have demonstrated that Geneva has wonderful possibilities if the people will but grasp them. Geneva has some of the best orange groves in the county.

Chuluota is one of the few towns in Seminole county that boasts of a good all-the-year-round hotel, the Chuluota Inn, and this together with many new buildings, stores,

etc., make Chuluota an active and progressive little city. The Chuluota Company, under the able direction of C. D. Brumley have worked wonders in the Chuluota section in clearing lands for farms and erecting many buildings. Mr. Brumley had the right idea when he went into this virgin forest and cleared up a big farm, putting in all the latest improvements and planting the many crops that will grow so well in the fine soil of this district. With silos, fine herd of cows, good hogs, water works and lighting system the farm demonstrates to the visitor what can be done in and around Chuluota. Old farms and orange groves in the Chuluota section are proof of the fertility of the soil under all conditions. The new farms show what can be done with modern ideas and improvements. Sweet potatoes, corn, cow peas, sorghum and cane and all the general farming crops are found growing on the rich soil of the Chuluota farms. In and around the bungalows and farm homes the profusion of fruits and flowers and shrubbery demonstrate what the thrifty woman can do in the way of beautifying a Florida home. The land is well drained and has a good clay subsoil. Beautiful orange groves of big bearing trees and many young groves are proof of the assertion that Chuluota is among the real orange sections of the county. With the fine farms under cultivation, with the fine hogs and cattle and nice homes showing the prosperity of this section there is no experiment about Chuluota as a place to raise fruits and general farm crops and stock. It is all there to speak for itself and in the near future both the Geneva and Chuluota sections will be filled with tourists and homeseekers who will come seeking what they want and they will find it. Chuluota stores are all prosperous, seven new bungalow homes are contemplated, many improvements are being made and those who are looking for a location would do well to take a ride over the fine roads of Sem-

inole county and visit Geneva and Chuluota in the hills of Seminole county where nature has dotted a wonderful landscape with glistening lakes and where the hand of man needs but to supplement the hand of nature to insure a bounteous harvest from the smiling land on every side.

Chuluota will be on the new road connecting Indian River City on the coast with Orlando, 23 miles distant, and will have splendid access with every part of the county and with the state roads in every direction. It is also on the Florida East Coast railway.

Chuluota is Seminole's gateway to the great Okeechobee country that is opening up such wonderful vistas of wealth to the people who are looking for locations for homes and farms where they can plant semi-tropical and tropical fruits in profusion and realize good returns from them.

All of this part of Seminole County will be greatly benefitted by the good roads and highways that are to be built in the near future and that will give the residents an outlet for their crops and an inlet for their supplies at very reasonable rates. The ship by water and truck agitation will find an answer on Lake Harney and the good roads in and around Geneva and Chuluota. Not many years ago a steamer plied the waters of the upper St. Johns river from Sanford to Geneva dock there being five feet of water and a one hundred foot wide channel all the way. This navigation will be opened again and steamers will be making the regular run from Sanford to Geneva supplying the surrounding territory with merchandise and carrying the fruits and vegetables to the ocean there to be transferred to ocean-going refrigerator steamships.

Not in the experimental stage and not theories but facts face the man visiting eastern Seminole today.
