TAMPA, Pla., Dec. 23.—Reflec-tion of Tampa's amazing rate of growth 12 seen in the business spart esjoyed by local telegraph offices, amounting almost to con-cestion of the wires. This builded operators working at high speed day and night is what it tikes to handle the sky-

rocketing volume of business at the local office, which reports a growth of 100 per cent in number of messages sent and received in November, 1921, as compared with the same month' last year.

Million-a-Month Goal.

"We handled 315,000 messages in this office in November last year, says E. W. Mooney, city commercial agent of Western Un-ion, "while in November just pas-sed we rushed over our wires out and in over 600,000 dispatches. We expect to handle a million messages a month here, within the next three or four years."

Last autumn, the mechanical department of the telegraph office was removed from the first to the second floor of headquarters at 605 Franklin street, and already the new department is crowded. The operating force has been increased upward of 25 per cent, while new equipment is being installed con-stantly, to meet the demand for d-Rolatives.
