think of it as just a favor to the post office-something to do if they happen to think of it. But Zip Code is much, much more than that, Zip helps our postal workers move mail the modern

way. With Zip, they can sort it faster and deliver it by more direct routes. With Zip, they will use modern electronic machines that "read" Zip numbers and sort mail fifteen times faster than was possible before! People who don't use Zip Code hold up the mail for themselves and for everyone eise.

So use Zip on every malling address. Use it on your return address, too. When in doubt about a Zip Code, you can call your post office or look it up in their Zip Code Directory.

And if someone writes you and doesn't use Zip Code -tell him. For us. We need all the he'p we can get.

#### HOW ZIP CODE WORKS Suppose the Zip Code is 60635. The "6" says it goes to the Midwest. The "D6" narrows it down to Chicago. The last two digits-"35"-pinpoint the local post office. This eliminates many handling proproures. The letter is sorted faster, and sent more directly to its destination.

Mail moves the country-ZIP CODE moves the mail!

Cleanliness and lubrication are essential to smooth, flawless reel performance. How these maintenance tasks are handled greatly determines how well it will operate. A reel that has been dropped in the sand must be stripped and cleaned before further use Even those that have been usd only in a hoat can profit from an internal scrubbing. Dirt has a way of accumulating on greased parts and eventually "gumming up" the works.

The first step in disassembling a reel is to use a screw-

TEDDY DAUM . . 9 by Pound Bass

driver that precisely fits the screws, a poor match results in ugly mars. Carefully arrange the parts according to the order in which they are removed to permit easy reassembly. Carbon tetrochloride is best for cleaning, but other solvents will do if thoroughly dried A toothbrush removes grime and grit from hard-to-reach areas.

Lubricate as follows: grease the gears, oil the bearings. However grease the handle post (a bearing), and oil the levelwind mechanism on casting reels (even though it's a gear). ATLANTA, Ga. (AP) - The Park's winning time was 5. Multipurpose or household oils and greases will work, but not Atlanta Falcons have added an minutes to Sanford's 5.17. as well as special reel lubricants designed to function at cer- other placekicker to the squad Members of the varsity squad tain friction tolerance levels and remain unaffected by ex. they'll take to training camp are stroke- Jerry Sargent, Use just enough to cover the working parts, and never | The Falcons Monday signed ter Porzig, Bill Brown, B.
