

Coolidge Tells Grand Jury Probe Senators; Three Oil Sensations

Charge Two Members Got Pardon Bribes To Be Investigated

PROBE SUBJECTS

WASHINGTON, Mar. 5.—President Coolidge Tuesday night ordered an immediate grand jury investigation of charges that two members of congress had accepted bribes to obtain paroles and pardons for persons convicted of crime.

Instructions have been given Acting Attorney General Seymour, it was announced at the White House, to "proceed with every diligence in the prosecution of the cases."

Not only charges against two members of congress but evidence relating to other suggestions of wrongdoing by officials in Washington will be laid before the grand jury at Chicago immediately. White House officials said Wednesday all phases of evidence added recently by the Chicago grand jury and not passed on there because of lack of jurisdiction would be gone into by the grand jury here.

Subjects expected to come under the inquiry involve charges that one or more high officials used official information for the purposes of speculation; that liquor permits were wrongly procured through the use of money and the official government files were turned over to persons not entitled to them.

Allege Daugherty Failed To Enforce Anti-Trust Rights

WASHINGTON, Mar. 5.—Charges of failure to enforce the anti-trust laws in connection with cases transmitted by the federal trade commission probably will be the first produced against Attorney General Daugherty in the investigation ordered by the senate.

This was indicated Tuesday by members of the special committee after another meeting at which procedure was discussed and the privileges of Mr. Daugherty's counsel determined definitely. Senators adhered to the plan to begin the hearings early next week.

At Tuesday's committee meeting a letter, drafted by Senator Brookhart, Republican, Iowa, chairman, to Mr. Daugherty's counsel, defining their part in the inquiry, was approved and forwarded.

Replying to specific requests of the attorney general's two legal representatives, Paul Howland of Cleveland, and former Senator Chamberlain of Oregon, the committee agreed to permit their examination of witnesses "subject to control of the committee," and also to introduce independent evidence and have subpoenas issued for their own witnesses but also subject to committee approval.

An intention to retain complete control of the inquiry's course was declared emphatically by the committee which informed Mr. Daugherty's counsel that "regarding this as an investigation and not a trial," it "will proceed in a summary manner rather than according to the technical rules of evidence."

Counsel for the attorney general were also informed that the request for notice of specific charges could not be granted, these being stated generally in the resolution of Senator Wheeler, Democrat, Montana, moving spirit of the investigation, and not subject now to amplification.

The federal trade commission cases about 50 in all figured prominently in the impeachment case against Mr. Daugherty in the house a year ago. Only a few days ago, in response to resolutions by Senators King, Democrat, Utah, and Norris, Republican, Nebraska, reports regarding department of justice action on them were transmitted to the senate. Much of the material, however, has been withheld from publication as confidential involving pending prosecutions.

Walsh, Burns, McAdoo Provide Sensations By New Disclosures

OIL COMMITTEE

Continues Today to Examine Telegrams of McLean, Washington Publishes, As Special Counsel Prosecuting the Oil Leases Are Still Unprepared to Go Into Court in Annulment of the Suits.

WASHINGTON, Mar. 5.—Before calling any witnesses Wednesday the oil committee held an executive session to examine additional telegrams supplied by the Western Union from its Washington office. It was announced that special government counsel in the oil annulment suits had not completed their preparations to go into court and expected no action along this line to be announced before Thursday.

Three more interesting contributions were added to the records of the oil committee Tuesday while special government counsel were completing plans for action within the next few hours for the annulment of the Sinclair and Doherty leases.

Without hearing any witnesses the oil committee adjourned after an executive session until Thursday. While the committee was in executive session opposition developed to the confirmation of Samuel Knight of San Francisco as special counsel in the litigation for the recovery of the California oil lands from the Standard Oil Company of California. Walsh announced he had been "reliably informed" that Knight is a counsel for the Equitable Trust Company of New York, which is a Rockefeller bank.

Senator Walsh of Montana, chief prosecutor in the oil scandal, disclosed that in the midst of the inquiry, E. L. Doherty had suggested that he might care to associate himself with the Doherty interests in a proposal to develop Montana oil lands.

Second Disclosure.

The second disclosure was produced by William J. Burns, director of the bureau of investigation in the department of justice. He testified that in order to save possible embarrassment to Attorney General Daugherty he had hinted to Edward B. McLean, publisher of the Washington Post, that he resign his commission as a \$1-a-year secret agent of the bureau, a position he said McLean had held since 1921.

McAdoo's Son Discloses New York.

Francis W. McAdoo of New York, son of William C. McAdoo, furnished the third revelation of the two hour committee session.

He declared McLean, for whom he is counsel, had telegraphed him that A. Mitchell Palmer, a former Democratic attorney general, was counsel for Albert B. Fall and Harry F. Sinclair. Palmer denied before the committee last week that there was any such relationship.

In presenting to the committee copies of a telegram and two letters exchanged with Doherty, Senator Walsh said reports concerning those documents had been "whispered about for the purpose of discrediting me." The telegram was found in the files of the Western Union Telegraph Company which search was being made for messages relevant to the oil inquiry.

The first communication in the exchange was a letter dated December 14, 1923 and sent to Doherty at New York city by the senator. Enclosed with it was a letter sent to Senator Walsh by T. S. Hogan of Great Falls, Mont., inquiring as to whether Mr. Walsh might not be in touch with men who would be in a position to finance the development of oil fields in Montana. Senator Walsh wrote Mr. Doherty that if he had not dismissed the idea of entering the Montana field, the Hogan letter might be of interest to him.

A week later Doherty telegraphed Mr. Walsh that if the senator or his brother were willing to "take interest" in the Hogan proposition he would be pleased to have Hogan visit him at Los Angeles, bringing necessary data concerning the property in question.

On Dec. 24, Senator Walsh resigned. Continued on page 8.

Connolly Principal Speaker at Kiwanis Meeting Wednesday

Past President A. P. Connolly was the principal speaker at today's meeting of the Kiwanis club held at the Walden Hotel as noted by attendance and greater interest in activities of the club were urged by Mr. Connolly who told of the establishing of the organization three years ago.

In the absence of President Dumas from the city Vice-President E. D. Brownlee presided. Schell-Maines as chairman of the committee in charge of the Markham lecture gave a report of the entertainment.

J. J. Rankin, John Snead and C. Harris were the visitors who attended the luncheon. Kiwanians present included H. C. Long, A. P. Connolly, A. K. Rossiter, S. Baumeister, L. C. Bebout, W. T. Lang, E. J. Lane, Schell-Maines, E. D. Brownlee, Elton J. Moughton, H. Overlin, J. H. Jackson, W. J. Thigpen, Fred W. Ball, L. B. Steele, R. H. Berg, A. Raffard, John D. Jinkins, W. D. Gardner, G. E. McKay, A. C. Fort, Forrest Lake, W. M. Scott, B. D. Caswell, J. G. Sharon, C. J. Hutchison, H. J. McCallin, and S. Lloyd.

Curis in Tampa

TAMPA, Mar. 5.—Cyrus H. Curis, wife and a number of guests, were here Wednesday en route to Mountain Lake in Polk county. He stated he was to meet Edwin Box but declined to reveal purpose of meeting.

Killer of Dogs Shoots Girl, 7, By Accident

TAMPA, Mar. 5.—Arthur Schlemmer, impounding officer, was charged to appear in court in West Tampa Wednesday as a result of the wounding of Rosa Nune, 15-year-old girl yesterday when a bullet from the officer's rifle struck the girl in the head. He stated he was shooting dogs and the bullet glanced from the sidewalk, striking the child. It is believed she will recover.

Election In Orlando For Recall of Manuel and Sutherland Fails and Duckworth, Mayor 4 Years, Resigns

ORLANDO, Mar. 5.—At the meeting of the city commissioners Wednesday Eugene G. Duckworth, for four years and two months, mayor of Orlando, tendered his resignation.

The recall election Tuesday resulted in a failure. Commissioners Manuel and Sutherland were retained in office by a majority of approximately 180 votes out of a total vote cast of about 1,400.

Messrs. Breakaw and Hausler have thanked their many friends and supporters. They declared Tuesday night that they had gone to defeat after a campaign that was free from mudslinging, on their part and they would have considered it a great pleasure to have served their city.

Mayor Duckworth in an interview with the Sentinel Tuesday night said:

"I will tender my resignation at the meeting of the commissioners Wednesday morning. For four years I have served Orlando and I have given unstintingly of my time, labor and money of this beautiful and wonderful city. There is nothing else for me to do but resign and this I shall do tomorrow."

"I will tender such a resignation at the meeting of the commissioners Wednesday morning. For four years I have served Orlando and I have given unstintingly of my time, labor and money of this beautiful and wonderful city. There is nothing else for me to do but resign and this I shall do tomorrow."

The message from London, made public yesterday, quoted Thurber as having said all details of the plot and names of conspirators were known to Rev. Herbert Wilson of San Diego and Los Angeles. It was pointed out that William J. Burns, head of the secret service, last year questioned Wilson and was satisfied he had no part in the crime.

LABOR LEADER WILL ADDRESS MASS MEETING

C. W. Maier Representing Railroad Brotherhood Will Speak on National Political Issues.

Announcement was made Wednesday that C. W. Maier, special representative of President Robert Gray of the Brotherhood of Locomotive Firemen and Engineers will be in Sanford Thursday and will address a meeting at the court house that night at 8 o'clock. To this meeting the general public is cordially invited, it was further announced.

The subject of Mr. Maier's talk will be the "Economic and Political Situation as it Affects Labor in General and Railroad Men in Particular."

While his talk, as the subject will indicate, is directed principally to the railroad men, nevertheless it will contain food for thought for every one, it is declared.

Mr. Maier comes to Sanford under the auspices of the brotherhood and through the special invitation of R. L. Glenn of this city. He has been identified with the work of the brotherhood for many years and prior to that time, served several years in the capacities of fireman and engineer. He is considered an authority on the workings of his organization and has played an important part in shaping the policies of it and cementing the good will between the employer and employees.

Mr. Maier is said to be a brilliant speaker and delivers his messages with a stirring note of appeal. His delivery is very good and the simplicity of his speech has brought him considerable reputation as a public speaker.

It is known that Mr. Maier is a strong advocate and supporter of William Gibbs McAdoo for the nomination for president on the Democratic ticket. Whether he will present Mr. McAdoo's qualifications to the gathering is not known, but it is predicted that he will. He is said to have declared that of all the candidates in the field, Mr. McAdoo is the most favorable to the laboring man, as shown by his record while a member of the Wilson cabinet.

What political significance is attached to Mr. Maier's visit and address is not known. He will remain in Sanford until Friday morning when he will depart for Lakeland where he will make a talk. He will be accompanied by Mr. Glenn.

CONY TO BE REPRESENTED AT CONVENTION

This County Will Send Two Delegates to State Republican Convention at Palatka

Seminole county Republicans will send two members to the state convention to be held at Palatka on Apr. 17 at the Howell Theatre at 11 o'clock, according to the state call issued by state chairman, Daniel T. Gerow.

At the Palatka meeting, delegates to the national convention to be held at Cleveland on June 10, will be chosen as well as those who will run on the state ticket for the various state offices, according to Postmaster Joseph P. Hall.

When asked Wednesday who would be the delegates to the meeting from Seminole county, Mr. Hall declared that he did not know but they will be chosen within a few days. B. G. Smith, president of the Bank of Oviedo, state committee man and county chairman, is likely to be one of them, it is said, but who the other will be, it could not be stated definitely, Mr. Hall said.

When asked whether or not an intensive campaign for state offices would be made by the party, Mr. Hall declared that he was not in a position to say. He declared though that the organization in this state is steadily ailly white branch of the party.

\$184 Are Collected In Fines In City Court

There were 10 cases tried in Municipal Court Wednesday morning, two of which were dismissed. One case was for selling intoxicating liquor, the defendant, Willie Ware, drawing a fine of \$100 and costs. A total of \$184 was collected in fines and forfeited bonds.

Cases tried were: M. Jameson, drunk, \$15 bond estreated; Leonard Scott, reckless driving, dismissed; D. H. Squires, reckless driving, dismissed; H. Heigel, speeding, \$10 bond estreated; J. L. Ward, drunk and disorderly, \$15 bond estreated; Willie Ware, selling intoxicating liquor, \$100 and costs; John Bontwright, speeding, \$10 bond estreated; D. West, drunk and disorderly, \$15 bond estreated; L. G. Brown, speeding, \$5 and costs; William Masters, drunk and disorderly, \$10 bond estreated.

Modern Ice Cream Factory Is Opened For Business In City by W. S. Royall

The Royall Ice Cream Company, which it was announced some time ago, would locate in Sanford, is now open for business according to a statement made Wednesday by its owner, W. S. Royall, who formerly lived in Richmond, Va., and who has selected Sanford for the location of his plant in preference to a number of other cities of this state.

The plant present a spick and span appearance but everything connected with the manufacture of the cream is carried on in the most approved sanitary methods. From the time that the "mix" is poured into the freezing machine until it is used by the consumer, it is never handled by human hands, said Mr. Royall. In this way cleanliness is assured and a pure product guaranteed.

Pure cream is used in the manufacture of the ice cream made by this company. The product which has already been placed on local market, possesses fine, smooth, milk-like taste and is most delicious in flavor. Cream with fruits will be made as well as brick cream in two and three colors. Frozen ice cream will also be a specialty of the new firm.

Not until the ice cream is being packed preparatory to sending to a consumer, is ice used. It is frozen by means of a series of pipes through the freezer which contain brine and which is circulated by a Carbonated Brine Cooler. This machine together with the Cherry Brine Freezer is located in a small room which is enclosed by a fine wire screen to keep away flies and (Continued on page 8)

THURBER SAYS PREACHER HAD BLAST DETAILS PENDING TWO YEARS

Ford's Shoal Plant Offer Is Considered

INVESTIGATION OF SHIPPING BOARD NOW AUTHORIZED

House Adopts Resolution Appointing Special Committee to Conduct Sweeping Inquiry Into Board's Activity.

WASHINGTON, Mar. 5.—A sweeping investigation of the shipping board was authorized Tuesday by the house.

After brief debate a resolution was adopted providing for appointment of a special committee to conduct the inquiry.

Four Republicans and three Democrats, to be designated by Speaker Gillett, will serve on the committee. The inquiry was proposed by Representative David of Tennessee, a Democrat on the merchant marine committee.

The Davis resolution, adopted by a viva voce vote authorizes an inquiry into the shipping board, emergency fleet corporation and subsidiary agencies since their creation.

While the investigators will have authority to go into the management of the board during the Wilson administration, house members who have been pressing for the inquiry predicted it would be directed chiefly at the administration of A. D. Lasker, former chairman of the board, and Edward P. Farley, because operations during and immediately after the war, were in question.

Chairman Snell of the rules committee, who presented the Davis resolution for house action, declared there was no pronounced opposition to it either among house members or on the part of the shipping board.

Leaders had planned, after discussion of the Davis proposal, to have the house act on a resolution by Representative Nelson of Wisconsin, leader of the Republican insurgents, proposing an investigation of the air craft industry, but it was not brought up.

Washington News

The house ordered an investigation of the shipping board.

A batch of light wine and beer bills were introduced in the house. President Coolidge reaffirmed his adherence to principles of the Mellon tax plan.

Joseph C. Grew, minister to Switzerland, was nominated to be under secretary of state.

The text of the ship liquor treaty between the United States and Great Britain was made public.

The Ex-Servicemen's Anti-Bonus League was attacked during hearings on a soldiers' bonus bill in the house.

Modification of the interstate commerce commission order for automatic train control devices was asked by 89 first class railroads.

An investigation of charges that two members of congress had accepted money in connection with the case of the West Coast, was asked by Representative Garrett of Tennessee, the Democratic leader.

Attorney General Daugherty's counsel were furnished a letter by the senate investigating committee outlining their privileges in the Daugherty inquiry.

Samuel Knight, of San Francisco, was nominated as special government counsel to test Standard Oil Company of California oil land titles.

Monthly Report of Police Chief Shows \$1,875 Collected

There were 141 arrests made by the Sanford Police Department during the month of February according to the report filed Wednesday by Chief of Police Roy G. Williams. Of this number all but 20 were turned in as convictions.

A total of \$1,875 was collected in fines and estreated bonds. Three cases were turned over to the county. There were seven liquor cases turned in during the month all of which resulted in convictions.

Cases tried were for the following offenses: disorderly conduct, 35; drunkenness, 12; liquor violations, seven; operating a car while intoxicated, three; traffic violations, 34; riding bicycles on sidewalks, three; soliciting passengers by use of force, one; vagrancy, eight; gambling, 20; relating arrest, three; larceny, three; carrying concealed weapons, five; operating a car on arm, one.

Suit Against Young Candler Is Postponed

DECATUR, Ga., Mar. 5.—Hearing of the case of Mrs. Sarah G. Byfield, \$100,000 suit against Walter T. Candler, wealthy clubman and son of Asa G. Candler, soft drink magnate, was again postponed because of the illness of a member of the defense counsel here Wednesday. It was announced, however, that the case will go to trial Thursday regardless of the attorney's illness. Mrs. Byfield, wife of a local automobile dealer, charges that the defendant attacked her in her stateroom on board the Berengaria en route to Europe in the summer of 1922.

LIBRARY STORY HOUR

Another interesting story hour will be held at the library next Saturday afternoon, at 2:30 o'clock. Mrs. S. O. Shingler will be in charge, and will give a very entertaining program. All the children are invited to attend. Last week 22 were present, and enjoyed very much the "Prince and the Pauper," told by Mrs. Mabel C. Keppeler, who also showed attractive pictures illustrating the story.

Mrs. John W. Owens and son, John W., Jr., of Atlanta and Mrs. M. F. Bishop of Griffin, Ga., are the guests of Mrs. J. M. Wallace at her home on Fifth Street.

Big Manufacturer Is Impressed With State Exhibit In New York

Arthur Yowell of The Yowell Company has received a letter from D. E. Sicher & Co., one of the world's largest manufacturers of lingerie, complimenting the wonderful showings made by Sanford and the state of Florida at the Madison Square Garden exhibit. Mr. Sicher wrote: "I spent the afternoon there a day or so ago, and was deeply impressed by the message that the exhibition delivered to us. The unlimited variety of fruits, sugar cane, pecans, endless varieties of vegetables, preserved fruits, confections, etc., has made a deep impression among the citizens of this city. We fail to see how this gigantic undertaking of the wonderful state of Florida, can fail in its purpose to attract even more visitors and permanent residents."

Committee Will Not Seek Jury Findings

ATLANTA, Ga., Mar. 4.—Carrying of concealed weapons will be reduced to a minimum and the price of a revolver will be almost prohibitive under a bill introduced in the United States Senate and it is understood here that various societies throughout the state will request the Georgia delegation to support the measure. The bill, largely written by Chief Magistrate William McAdoo, of New York city, would prohibit the importation of revolvers and place an excise tax of \$100 on each of these manufactures in this country except for export. The bill is said to have been endorsed by two international police conventions and approved by the American Association.

SMALL FIRE

The Sanford fire department was called out shortly before 6 o'clock Monday night to extinguish a small grass fire in Rose Court. No damage was sustained and the firemen succeeded in putting out the fire in short order.

DEMOLAY WILL MEET TOMORROW NIGHT

The regular meeting of the Sanford Chapter, Order of Demolay will be held Wednesday night in the Masonic Hall beginning at 7:30 o'clock. This is a very important meeting and all members are urged to attend. All Master Masons are also cordially invited.

DAUGHERTY

(Continued from page 1)
amine a mass of accumulated papers.
The committee designation of Senator Wheeler to sift the preliminary evidence determine the first subject to be taken up and fix the time for the opening of hearings was regarded as placing him in the role of counsel, or prosecutor. This follows the lead he took in pressing his resolution through the senate. Chairman Brookhart said the committee was not yet interested in Frank A. Vanderlip's statement; that he had information that President Coolidge had requested that Mr. Daugherty resign.

Buford Has Qualified To get Name on Ballot

TALLAHASSEE, Mar. 4.—Rivers Buford, attorney general, stated Tuesday he had complied with requirements of the state Democratic executive committee, which assessed his and other cabinet officers at its Jacksonville meeting several days ago for a fee of one-half of one per cent of their yearly salaries as entrance fee in the June primary. In addition three per cent of the salary is paid to the secretary of state for entrance fee. Buford is the only candidate so far to announce for nomination as attorney general.

Live Stock Board Convenes Today at The State Capital

TALLAHASSEE, Mar. 4.—The State Sanitary Live Stock Board met here Tuesday in regular annual session, with several important phases of its work to come up for consideration.

One of the principal items of business that was discussed was the progress of the work outlined at the special meeting held at Tampa about a month ago. At that time the board decided to begin immediately tick eradication work in Zone 2 calling for expenditure of approximately \$150,000 within a year.

Construction work on the dipping vats in this zone already is well under way, according to Dr. J. V. Knapp, state veterinarian. About 225 vats will be built at a cost of around \$200 each, in the territory covered by Zone 2, made up of all or parts of Highlands, Glades, Polk, Osceola and Okechobee counties. The board also has asked for bids on 40 vats in St. Lucie county and has received several inquiries concerning the work.

Dipping operations are expected to begin in Zone 2 in about 60 days. A dipping campaign also is expected to start in Leon county probably Tuesday. Forty-seven vats already have been built and are ready for use.

Great improvement is expected in the live stock industry in Florida from the tick eradication campaign that is now getting under way, not only in the grade of stock produced, but also in the dairying industry. The area in Georgia where the tick has been eliminated showed a 1200 per cent improvement last year, according to information received here. In Florida, Dade county, it is stated, now free of the tick produced more than \$700,000 in dairy products last year from 3,500 cows.

Free Scholarships To Peabody Summer School Are Offered

TALLAHASSEE, Fla., Mar. 4.—George Peabody College for Teachers, Nashville, Tenn., has notified W. S. Cawthon, state superintendent of education, that four non-transferable summer school scholarships worth \$25 each will be awarded to Floridians this summer. Similar awards will be made in Alabama, Arkansas, Georgia, Kentucky, Louisiana, Maryland, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, Virginia, and West Virginia.

These scholarships will be awarded solely upon the recommendation of the respective state superintendents of education. In making the awards, the state superintendents are asked to give preference to graduates of normal schools, colleges or universities.

FLETCHER CALLS

(Continued from page 1)
until next week as said by Senator Brookhart to be necessary because of the time required to explain to him "merely suggested that in passing."
Johnson's Idea
Senator Johnson, farmer-laborer, of Minnesota, said the "change of commerce were too strong for the farmers who tried to carry out their co-operative organizations" when the Florida senator suggested this was the logical solution of their difficulties.
"I refer you to the recent decision of the federal trade commission," said Senator Johnson. "It would be interesting to the senator."

Hundreds of Former Michigan Men Enter Attorney General Campaign

THE LATE WILLIAM R. DAY

Hundreds of Michigan University alumni leaped to their feet and cheered when Stephen A. Day, Republican candidate for attorney general, declared the state "cannot endure much longer if we continue to mix politics and law enforcement."
"We must keep the political machine out of our courts," he asserted, speaking at a huge meeting of former Michigan men in Chicago. "Gradually respect for law has degenerated, simply from mixing politics with law enforcement. The good name of the decent citizenship has been almost irretrievably injured. A change at

LLOYD GEORGE OPINES AS TO LIBERAL PARTY

WEST HARTLEPOOL, Eng., Mar. 4.—Addressing delegates representing the united forces of liberalism in the northern counties of England, David Lloyd George said that it was just like Great Britain's luck "that the first experiment in Socialist administration had come under conditions where it could do the least harm, even conditions which could do a great deal of good," and the experience was having a salutary effect on the impetuous souls of the Socialist party.
"I am all for leaving them for some time between the plough handles," he continued. "They will soon have achieved backs and weary hearts, but very much wiser heads and in the future they will realize you cannot plough from the clouds."
He likened Premier MacDonald to an air squadron leader of Socialism who spent most of his time in the white clouds of Socialistic idealism, but now he was the changed man since he had joined the infantry and had to trudge on another earth carrying a knapsack.
In Mr. MacDonald's first speech as premier, continued Mr. Lloyd George, and compromises which

REPORT GIVEN BY SCOTT CONDITION IN CITRUS MARKET

General Sales Manager Florida Citrus Exchange Reviews Conditions in Citrus Market During Past Week.

TAMPA, Mar. 3.—General citrus market conditions for the past week are reviewed by George A. Scott, general sales manager of the Florida Citrus Exchange, in the following report issued here Saturday:

"An improvement in the demand for both oranges and grapefruit has been noted in the large centers almost daily during the past week, but it was not until Friday that it was reflected in any advance of prices. Upon information received it was evident that moderate weather is resulting in a better demand and wider distribution from these auction centers which ought to result in a firmer tone to prices. Tangerines continue to be scarce and wanted at most satisfactory prices. Unfortunately, the same conditions do not seem to exist in the western grapefruit market. The demand is apparently fair to good but the buyers have definite ideas as to prices they wish to pay.

"The situation in the southern markets show no improvement whatever. In fact they are apparently not as strong today as they were a week ago. It is our belief, however, that this condition is not so much because of market conditions as the competitive quotations being daily received which makes it possible for them to buy at so very low prices. Quite heavy shipments of consigned fruit still continue to go forward to these southern markets. Undoubtedly, this is one of the greatest factors of the weakening of market conditions in the south, and apparently there is but little hope of much change so long as this condition continues to exist."

mundane statements hitherto have indulged in were repeated in every particular. When I heard Mr. MacDonald, who had indulged in the shrillest notes, pitching his tone so low and imitating the very modest notes from less pretentious singers, it recalled the memory of many a cracked tenor who had been forced to become a barytone."

U. OF F. PLAYS GIANTS

GAINESVILLE, Mar. 3.—Announcement has been made here that the University of Florida baseball team will journey to Sarasota for a game with the New York Giants on Saturday, Mar. 8.

CHILDREN'S COUGHS

Children's throats are delicate and sensitive. In play, at school or work, they are exposed to chilling drafts, their little bodies are overworked from exercise, they cool off too quick and a cold sets in. The minute your child commences to cough get a bottle of Leonard's Cough Syrup (Creosote). It is good for children's delicate throats, protects the lungs, raises the phlegm, and gives quick relief. Harmless, safe, pleasant remedy for coughs, colds, grippe, croup, whooping cough and bronchitis—that is healing and soothing. Fine for adults too. For sale at your drugist.

Contest Announced By National Live Stock, Meat Board

CHICAGO, Mar. 4.—Within the next few days high school home economics instructors of the United States and their students will be in possession of complete information concerning the National Meat Story Contest, according to announcement made today by the National Live Stock and Meat Board, which is conducting the contest.

The National Meat Story Contest, as explained by R. C. Bollock, managing director of the board, for the purpose of affording a more thorough education on meat in connection with the high school study of home economics. The board is an organization with a membership comprising all branches of the live stock and meat industry, and is engaged in a nation-wide program of education and research on meats. Mr. Bollock states that its educational work has received the endorsement of the United States Department of Agriculture, and educational institutions in general. It is pointed out that the organization has already accomplished much in the high school field, as more than 87,000 copies of a text book on meat, published by the board, are now being used in class and laboratory work in schools throughout the country.

As an incentive to the girls to take part in the contest, the board's advance announcement says that a large number of cash prizes will be awarded. The United States has been divided into four districts and in each of these districts there will be a total of \$355 in prizes ranging from \$100 down to \$10. From the four winners of first prize in the districts will be chosen the national champion, who will receive \$200 in addition to her district prize, making a total of \$300. Aside from these prizes, \$10 will be given for the best story in any state which has not succeeded in winning any of the district prizes.

Looking up is an optimistic habit, but in London a man is suing because his nose hit a sign.

Business is so bad in the United States steel production has increased only 25 per cent this year.

Miami and Ft. Myers Join in Celebration of Ta-Miami

By The Associated Press. PORT MYERS, Mar. 4.—The Chamber of Commerce of Miami and Ft. Myers, Fla., will be joined by its president, G. Sewell, and the Miami Club headed by its president, W. S. Maxwell, will each have an official car representing the organizations in the West Coast Highway and Tamiami Trail motorcade and series of celebrations Mar. 10, 11, 12 and 13. High Springs to Fort Myers.

Dade county, with a population of \$300,000 in the city of \$150,000, more. Their delegates will number approximately 20 for the celebration. The Tamiami Trail Association of Miami will enter in the Miami Jubilee Float used this winter in Miami. The float will be in the Mardi Gras event at Fort Myers Wednesday evening, Mar. 12.

Tonight committees representing Miami, Bonita Springs, Everglades, Marco, Caxambas and Naples, Fla., in the Naples Hotel, Naples, will select a marshal for the motorcade which it is estimated will come to Fort Myers from the south.

Walter R. Kaune, president of the city council of East Port Myers, presided at a mass meeting of citizens of that city to be held at the Lee county fair grounds this evening to perfect their plans for arrangements and their great barbecue which will be given as incident to the Convention of the Tamiami Trail Association Wednesday, Mar. 12.

CUT THIS OUT—IT IS WORTH MONEY

Send this ad and ten cents to Foley & Co., 2335 Sheffield Ave., Chicago, Ill., writing your name, and address clearly. You will receive a ten cent bottle of FOLEY'S HONEY AND TAR COMPOUND for coughs, colds and hoarseness, also free sample packages of FOLEY'S PILLS, a diuretic stimulant for the kidneys, and FOLEY'S CATHARTIC TABLETS for Constipation and Biliousness. These wonderful remedies have helped millions of people. Try them! Sold everywhere.

Sanford Daily Herald

Published every afternoon except Sunday by The Herald Printing Co., Sanford, Florida.

Entered as Second Class Matter, October 27, 1915, at the Postoffice at Sanford, Florida, under act of March 3, 1879.

Subscription Rates: One Year—\$10.00; Six Months—\$5.50; Delivered in City by Carrier per week 11c. Weekly Edition 12 Per Year.

Special Notices: All obituary notices, cards of thanks, resolutions and notices of entertainments where charges are made, will be charged for at regular advertising rates.

Bible Thought for Today: The first commandment: Thou shalt have no other gods before me.—Exodus 20:3.

Holy Light: Hall, Holy Light, offspring of Heaven first-born. Or of the Eternal celestial beams May I express thee unblamed?

Laugh it off!: Folks who are always in trouble are usually looking for it.

Every citizen should pay his poll taxes and qualify: This is to be a great election year and incidentally an acid test on our citizenship.

Northern capitalists are investigating the possibilities of South Florida: The sugar industry will prove a great thing for Florida.

Income tax payers are busy this week making out returns: Only a few days are left to figure out how much Uncle Sam will get this year.

Tampa was only exceeded by Miami in the amount of building permits issued during February: Tampa is showing a most wonderful growth.

Electric light consumers are now "enjoying" the "big" reduction recently given by the local public utility plant: Small "favors" are always gratefully received.

The report that Russia is about to inaugurate the system of bimetalism will convey to some the information for the first time that Russia has two metals of the monetary type, or even one.

Announcement is made by the Florida East Coast Railway to the effect that their line from Jacksonville to Miami will be double tracked in the near future: This will take care of the growing need of that railroad.

Nationalizing Education

Leading educators have long pointed out that one of the country's greatest needs today is a concrete, supervised, national program of education. This is based on the fact that one-fifth of our population is engaged in the business of going to school and getting an education, making education one of the nation's greatest problems.

In a democratic country such as ours where citizens select their leaders, every effort should be put forth in our public school system as well as in our institutions of higher learning to develop in citizenship the quality of intelligence which recognizes the meaning and significance of American institutions.

John W. Abercrombie, State Superintendent of Education for the State of Alabama points out some interesting facts in this connection when he says: "There are in the United States 5,000,000 persons 10 years of age and over who cannot read and write in any language; about 3,500,000 others who cannot speak, read, or write the English language; several million more who can barely read and write, and are, therefore, practically illiterate. The presence of so large a number of illiterates and near-illiterates is a menace to American ideals and institutions."

"Education is both a state and a national problem, because in this age of transportation, trade, travel, communication, visitation and migration, whatever jeopardizes the freest and fullest development of any state or section imperils such development in every other state and section of our common country. It is no longer possible to permit a child to grow into citizenship in ignorance anywhere without endangering every other citizen everywhere. Hence, it is the bounden duty of both the states and the Federal Government, separately and co-operatively, to see to it that every person, regardless of age, is adequately trained for efficient citizenship and for success in the occupations of life."

Deserving Good Support

An opportunity is to be presented to the people of Sanford and Seminole county during this month to enjoy the Redpath Chautauqua, which is to be brought here through the efforts of the Sanford Rotary Club, for the benefit of every man, woman and child in our section.

It will not be a Rotary Club chautauqua, but the people's chautauqua. Rotarians are simply underwriting the proposition to insure the financial end and it is up to the people themselves to turn out and get the real benefits such a course will offer.

A five day program has been arranged which will include some of the best talent on the chautauqua platform. The features include a Melody Trio and the Misses Scott and Denny; Judge George D. Alden, noted lecturer in a challenging address on present-day affairs; the Laurant Company in a spectacular production of magic and mystery; Bhasker Hivale, prominent Hindu, presenting an interesting discussion on conditions in India; Montague Light Opera Singers featuring "Gretchen from Holland"; Troubadour Male Quartette in popular songs; F. Preston Johnson, newspaperman and sociologist; Glen Wells Company, popular entertainers; and George F. Morgan, lecturer.

This will form a varied and most delightful program, interesting, entertaining and instructive. No one should miss the opportunity to attend such a well planned chautauqua. Certainly no citizen will fail to support so worthy an undertaking.

WHEN YOU GET RIGHT DOWN TO BRASS TACKS, IT IS SNAG, PUSH, ENERGY. One man succeeds and another doesn't, largely because of the amount of nervous energy he puts into the job.

People by and large are of sound intelligence. None of us are much more able than our neighbors. Some of us are less able. But you see many and many an instance of a man who is not counted as a brilliant man in any way who has made a great success, simply from that one point, that he has stuck close to his job, worked like the devil and put in all the nervous energy and snap that he had in his make-up. Even if he didn't know as much as the other fellow, his constant devotion to his object has brought him success while the brilliant man has failed.—C. A. Crocker, in address at conference of distributors, September, 1923.

THIS BEING THE REVIVAL season how would it do to have a good, old-fashioned revival of real honest-to-goodness work in this country. That is the way it was made the best country in the world. It can not be accomplished by a white-collar, pressed-trousered brigade.—Capper's Weekly.

CLEWS TO CHARACTER

J. O. ABERNATHY Culture does not create new faculties. It cannot lift instinct into the sphere of reason, but it may develop the better class of existing faculties, calling into activity and prominence organs which in a wild or savage state are comparatively dormant. The most engaging and affectionate Newfoundland dog, after having received a finished canine education, is only a dog; yet how superior he is to the wild, uncultured dog.

Visualize the head of a Newfoundland and a wild dog and you will be struck by the difference in contour. In the wild dog, the great breadth between the ears indicates destructiveness while the flatness of the top of the head and the lowness of the forehead leave no room for kindness and little for intelligence. The Newfoundland, on the contrary, has the signs of intelligence and affection fully developed. Look at his half human eyes and forehead! His better dog nature has been brought out, and destructiveness is held in abeyance. The wild dog is stupid, ferocious and unocial; the cultivated dog is intelligent, gentle and friendly.

And so it is with men. The man wide between the ears and with a flat top head and low brow, manifests just the same characteristics as the wild dog. He lacks culture, kindness, sociability and is uncouth and destructive by nature.

As Brisbane Sees It

No improved Bible, thanks! In Fewer Words. Hope for sufferers. Common sense taxes. Copyright, 1924.

"MODERNIST" religious gentlemen propose to broadcast prayers and imitation Bible texts based on present-day conditions. This they believe will be a great improvement on the Bible, which is out of date. Modernists compare with the old Bible about as well as a badly managed orphan asylum compares with a real mother.

Six verses from the book of Job contain more power and spirit than a million modernist "improvements." If you don't like the Bible, Mr. Modernist, leave it to those that do like it and want it. Above all, and for heaven's sake, don't improve it!

"THE SLUGGARD IS WISER IN HIS OWN CONCEIT THAN SEVEN MEN THAT CAN RENDER A REASON."

AT GENEVA, the International Union for Saving Children publishes in thirty-six languages a solemn assertion of children's rights on this earth. "Mankind recognizes that it owes to the child the best that it has to give," etc.

It's a message quite long and pretty. Everything in it was said in fewer words long ago. "Whoso shall offend one of these little ones which believe in Me, it were better for him that a millstone were hanged about his neck and that he were drowned in the depth of the sea."

WHILE THE Union for the Saving of Children, under the auspices of the League of Nations issues pretty messages, and this and other countries call themselves "Christian," millions of children are starving in various parts of the world, while families here are wondering what to do with surplus grain and other foods.

Two hundred thousand children die in this country every year because their mothers are neglected in child birth, and, most interesting of all, hundreds of thousands of American children are deprived of their one chance in life by the brutality of child labor, the supreme court of the United States deciding that law passed to protect children violates the constitution.

THE WORST agony in life is not physical. It is the dreadful pain in the hearts of those that watch others—mother, father or child—slowly dying in pain. Dr. Spiller and Dr. Frazier, of the University of Pennsylvania, announce an operation to relieve or abolish pain in hopeless cancer cases.

THE BODY has two sets of nerves. One, the "afferent nerves," carry information to the brain. What we call "pain" is the nerve telling the brain that something is the matter and should be attended to. Another set, the "efferent nerves," carry information and instruction from the brain to the muscles.

If nerves that carry sensation to the brain are cut off completely, life goes on and the body functions without sensation of pain. The operation is called "rhizotomy" and consists in severing nerves in the spinal column that carry sensation and suffering to the brain. The relief is not complete in case minute nerve fibers escape the knife and the operation is only performed in desperate cases, with which drugs cannot deal adequately.

In that cancer announcement there is hope for sufferers. A SIMILAR operation is familiar to veterinary surgeons. With horses suffering from the excruciating pain of "navicular" disease in the hoof, a nerve is cut in the horse's foreleg, below the knee. After that it feels no pain. The horse goes "sound" but there is more danger of stumbling.

PAIN in child birth might be eliminated if doctors could find a way to deaden temporarily the pain-carrying nerve, without interfering with the afferent nerves and their stimulation of the muscles necessary in labor.

THE HUMAN body is like a modern building. The skeleton is the steel frame. The lungs are the ventilation, the heart is the power, the nerves represent the wiring system. One of these days men will know how to shut off temporarily their various sets of nerves as easily and as simply as you cut off the bell of your telephone when you don't want it to ring in your bedroom at night.

MR. MELLON, secretary of the treasury, suggests a sur tax on big incomes of 25 per cent. Such a tax actually collected, instead of being evaded by tax-free bonds and various other ingenuities, would supply more money than the nation would need, with all the public extravagance, and soon wipe out the public debt besides.

It is now proposed to "compromised" by making the surtax 37 1/2 per cent, instead of 25.

WHY COMPROMISE in a matter of government business? Mellon understands finance as well as any man in the United States. He declares that the 25 per cent tax will more than supply money needed.

FRECKLES AND HIS FRIENDS BY BLOSSER

THE PROPOSED AMENDMENT THE BOSTON POST

The voters of the state of Florida will this year vote on an amendment to the state constitution, prohibiting the levying of any state income tax or inheritance taxes in the future upon any resident of Florida. It has neither tax now.

This amendment to the constitution is expected to pass without question. The vote for it in the legislature was decisive. While every other state in the Union is busy trying to discover new ways of taxing its residents and levying inheritance taxes on residents, estates, and also non-residents where it can, Florida has taken exactly the opposite course.

It is making a deliberate and very shrewd bid for the wealthy men of the country to become residents of Florida. Not alone will it provide them with a charming place of residence—the finest winter climate in the world—but actually it will enable them to spend the winter months in comfort at, in many cases, no expense at all, and in some cases at an actual and sizeable profit.

For instance, a Massachusetts man having an income of \$50,000 a year made up half of business income and half from taxable investments, would pay roughly \$2,000 a year in income taxes to the state of Massachusetts. Under the Florida laws he would pay nothing, provided he established a residence there. So, if he goes to Florida for the winter and remains there, he is \$2,000 to the good. That will pay a good slice of his winter expenses. If he has a larger income, his saving will be proportionately larger.

The important feature, however, is the inheritance taxes, which are becoming more and more burdensome. A man of wealth dying as a resident of Florida, will save an enormous sum of his estate in inheritance taxes. Florida has now no inheritance taxes and never will have any if the constitutional amendment is passed.

John D. Rockefeller has a winter residence at Ormond Beach, Florida. He has lived there each winter for twenty-five years. It is entirely possible that he is an actual resident of Florida, and calls it his home. If he is not a legal resident, he easily can be.

He can save himself \$500,000 a year in state income taxes, which he pays to the state of New York, if he elects to claim residence in Florida.

At his death with a Florida residence his estate will save millions. Albert W. Atwood in the current issue of the Saturday Evening Post, points out that practically every state in the Union, except Florida, is engaged in the pursuit of milking estates. Tax commissioners are busy finding

The Thorn With the Rose NEW YORK TRIBUNE

Statesmen who figured that all they needed to do was to run over to XYZ and explain via radio how necessary was their election to the common weal are destined to disappointment. They can, it is true, broadcast to a listening world all the many reasons why they should hold office, but it will cost them \$10 a minute to do so.

The invention of the radio is that, in the language of Machiavelli, going to "plague the inventor" or his heirs and assigns. Radio is a business. And candidates will use it on a strictly business basis or not at all. Inasmuch as there is a formidable money cost attached to the shooting of a campaign speech into the air this is but natural. The wonder is that it was not anticipated by the gentlemen who fondly imagined that campaigning was going to be an easy game.

It is quite possible that Mr. Coolidge, being President of the United States, may have his communications to the multitude deadheaded. But the ordinary aspirant for office will have to pay the shot himself or get the campaign committee to pay it. However, if the candidate gets a thorn with his rose the public will get only the rose. For the percentage of politics in the air will be cut down drastically by its use by the politically ambitious. And it will not be nearly so necessary to keep turning off applicants for suffrage as it would have been had the atmosphere remained free.

DAN DOBB SAYS

Cox has one advantage in running for president. He has to over the track before. The well-informed girl does catch a husband as quickly as a well-formed girl.

Friday is only one of the several unlucky days on which you should not buy oil stock. Bank clerks are striking in Austria because they handle so much money and get so little.

Perhaps a Washington doctor robbed of 12 ounces of valuable perfume was going to attend a sight of a Frenchman.

Africa is buying rail equipment from Germany. It is not true that a German locomotive snorts a sight of a Frenchman.

A new survey shows Alaska oil wells more important than the pot Dome. This may cause a scramble for government offices.

The annual investigation of gasoline prices is being held, perhaps to see why it can't be boosted to a dollar a gallon.

Chinese general has refused to marry President Kung's daughter, indicating they have leap year in China.

A big company is placing on the market a new oil which quiets engines. If successful it should be used by political machines.

The Eskimos are said to be very happy. Well, they don't have to argue about the weather. They know it will be cold.

Belgians have seized \$200,000 in gold going to Germany. This is enough gold to fill the teeth of many tourists.

WHERE DO YOU KEEP YOUR VALUABLE THINGS?

In these days when so many men would rather steal from their neighbors than earn an honest living, safety vaults are necessary—the stronger the better. People who have important papers, jewelry, bonds, etc., may feel comfortable about the safety of valuable things if they are deposited in our vaults. The cost of safety is too small to take any chances. Let us tell you of our safety department.

Saturday—Children's Story Hour at Library at 2 o'clock.

SUNSHINE SONNETS

The northern lands are covered still with snow,
And silent neath their spotless covering,
But in the air above, faint breaths of spring
Waft in the wind that from the south doth blow.
The whispered promise of the vernal breeze
That yearly meets our unastonished eyes—
Such faith have we that winter surely dies—
Sounds in the trees like some faint magic bell.
The birds are chirping with a changing note,
As though fresh hope had touched each feathered breast.
The clouds are rose-tipped where they lightly float
Above the sun down sinking in the west.
Our hearts are lifted, warmed and cheered—we know,
Ere many days, Spring's own soft breeze will blow.
—Muriel Brewster,

Carl Roumillat of Jacksonville spent the day here Tuesday with friends and relatives.

Dr. G. M. Randall of Daytona was in the city Tuesday attending to business.

H. H. Curtis of Chicago, Ill., is in the city for a short stay and is stopping at the Valdez.

Representative O'Leary here Tuesday was J. B. Carlele, who was in the city on business.

T. E. Henford of Valdosta was among the business visitors in the city on Tuesday.

H. H. Bryant of Palatka was in the city substantial on Tuesday on a business mission.

A. F. Clover and W. C. Schumacher were among the business visitors in the city Tuesday from Oklawaha.

F. C. Stroble of Baltimore arrived in the city Tuesday for a number of days on a business mission.

Mr. and Mrs. Frank Pattee who have been spending the winter in Sanford left Tuesday for their home in Crown Point, Indiana.

E. D. Norvell of Atlanta, Ga., was among the out of state business visitors in the city on Tuesday.

Mr. and Mrs. J. G. Hazelhurst of Savannah, Ga., who spent the week end here left Tuesday for their home.

A. H. Small of Macon, Ga., was among the business visitors in Sanford on Tuesday, making his headquarters at the Montezuma.

Mr. and Mrs. Joseph T. Watts of Richmond, Va., stopped over in Sanford Tuesday en route to the southern part of the state.

Mr. and Mrs. Wm. C. Borger and Mr. and Mrs. George McCutcheon of Bayside, Long Island, left Tuesday for their homes after a pleasant stay here.

Mr. and Mrs. W. G. Lincoln of Woodstock, Ohio, who have been touring the state arrived in Sanford Tuesday for an extended stay.

Mrs. Forrest Lake and Miss Sarita Lake have returned from New York where they spent some time, stopping over in Jacksonville for a few days en route home.

Mr. and Mrs. H. B. McDonald, who have been spending the winter at Lakeland, will arrive in Sanford Wednesday evening to spend some time here at the Valdez.

Mr. and Mrs. Wm. V. F. Persons and Dr. and Mrs. J. F. Fretter of Philadelphia, are a congenial party motoring through Florida and are stopping at the Valdez for a brief stay.

Mr. and Mrs. J. I. Mange of New York arrived in Sanford on Tuesday and are stopping at the Valdez. Mr. Mange is with the home office of the Southern Utilities Company.

Among those from Sanford spending the day on Tuesday in Orlando was Mrs. Ernest Krupp.

A. W. Houston of Palatka is in the city for this week transacting business and is registered at the Valdez.

"I Don't Want to Go Back!"

Olga Yospovitch, pretty Serbian girl, was sent to this country by the Serbian International Educational Association to gain knowledge and then return and do welfare work. But she married a professor of Yale University while here and now, of course, doesn't want to return.

ANNOUNCEMENT PARTY AND MISCELLANEOUS SHOWER.

The cozy home of Mrs. James Ridge on Laurel Avenue, was the scene of one of the loveliest parties given this season, when she entertained at bridge, honoring Miss Helen Gonzalez.

In the living room, the decorations were of exquisite pink La France roses and ferns, while in the dining room, sweet peas in pastel tints were effectively used. Scores were kept on tallies done in fascinating Egyptian designs and after a number of spirited games of bridge, the prize for high score, a telephone screen, was won by Mrs. Raymond Phillips, who presented it to the honoree. The cut prize fell to Mrs. Hartdegen.

Luncheon was served at 1 o'clock at a prettily appointed table, the center being graced with a crystal basket filled with calendars and ferns. Marking the places were place cards done in Florida designs. The afternoon was pleasantly spent with an interesting game of duplicate and high scores were made by Mrs. George Knight, Mrs. W. A. Fitts, Mrs. Sam Yountz, and Mrs. Hal Wight. At one table, arranged for the visitors pivot bridge was played, the prize for this was won by Mrs. Tom Bentley. The cut prize fell to Mrs. Hartdegen.

Mrs. Watson's guests were Mrs. R. S. Keelor, Mrs. F. A. McPherson, Mrs. Tom Bentley, Mrs. Hartdegen, Mrs. George Knight, Mrs. Hal Wight, Mrs. W. A. Fitts, Mrs. Ralph Wight, Mrs. Sam Yountz, Mrs. C. E. Henry, Mrs. Harry Lewis, and Mrs. Roy Chittenden.

TUESDAY DUPLICATE BRIDGE CLUB ENTERTAINED.

On Tuesday, Mrs. W. E. Watson was hostess at luncheon followed by bridge, at her apartments in the Welaka, when she entertained at the third of a series of parties, which she is giving in honor of her mother, Mrs. R. S. Keelor of New Jersey, who is spending the winter here.

Luncheon was served at 1 o'clock at a prettily appointed table, the center being graced with a crystal basket filled with calendars and ferns. Marking the places were place cards done in Florida designs. The afternoon was pleasantly spent with an interesting game of duplicate and high scores were made by Mrs. George Knight, Mrs. W. A. Fitts, Mrs. Sam Yountz, and Mrs. Hal Wight. At one table, arranged for the visitors pivot bridge was played, the prize for this was won by Mrs. Tom Bentley. The cut prize fell to Mrs. Hartdegen.

EVENING BRIDGE CLUB.

Mrs. Floyd Palmer was the gracious hostess Tuesday evening, when she entertained at bridge at her home on Park Avenue, the guests being the members of the Evening Bridge Club.

Sweet peas and asparagus ferns were used in decorating the rooms where the card tables were placed. St. Patrick's suggestions were also effectively used.

Green and white tallies were used in marking the places of the players, and after a number of absorbing games of bridge were played, scores were counted and the prize for top score, a set of coasters, went to Mrs. George DeCottles. The men's prize, a late book, was awarded Ernest Housholder.

Refreshments of a salad and sweet course were served at the conclusion of the card game.

Mrs. Palmer's guests were Mr. and Mrs. F. E. Roumillat, Mr. and Mrs. D. L. Thrasher, Mr. and Mrs. R. A. Newman, Mr. and Mrs. George DeCottles, Mr. and Mrs. F. Housholder, W. C. Hill and Floyd Palmer.

ATTEND MEETING OF MEDICAL SOCIETY.

A number of the local physicians and dentists of Sanford will attend the meeting of the Orange County Medical Society at Orlando Wednesday evening at the Angebilt, at which time Dr. John Draper of New York will speak on "Surgical Treatment of the Insane" with stereopticon slides.

BOOK LOVERS CLUB POSTPONED.

The meeting of the Book Lovers Club to have been held Friday afternoon at the home of Mrs. A. E. Hill, has been postponed until next Friday, March 14 on account of the tea to be given by Mrs. L. P. Hagen and Miss Rube Williams.

LADIES UNION.

The Ladies Union of the Congregational Church will hold their monthly meeting Friday at the parsonage. Please remember the silver and china shower. Mrs. Paul Burhans and Mrs. Armour Renaud will be the hostesses this month.

HOME-MADE cakes, rosettes, date sticks, mints, etc., to order.

Phone 170-W.

Interesting Facts Found on Chocolate

Women played an important part in popularizing chocolate when it was first brought from Mexico by the Spaniards. In Europe they have been celebrating the 400th anniversary of the introduction of "the food of the gods" into the continental dietary, and its observance has been the occasion for unearthing some quaint stories about the early history of the beverage, writes The Milwaukee Journal.

One Joseph Acosta, writing in 1604, said: "The chief use of this cocoa is in a drink which they call chocolate, whereby they make great account, foolishly and without reason, for it is loathsome to such as are not acquainted with it."

To understand Acosta's honest distaste, the modern chocolate drinker must remember that at first Europeans did not know how to make the cocoa-bean palatable. They used the paste or powder as a rather disagreeable medicine until the nuns of Guanaco substituted sugar for the chili peppers that the Mexicans favored. Thereafter the taste for it was rapidly acquired.

Another early writer found it so popular with the Spanish women at Chiapa that when their bishop forbade them to sup it in church they changed their place of worship and, in revenge, poisoned the bishop. When Louis XIII of France, took a Spanish bride, she brought her favorite drink across the mountains with her and laid the foundation for its immense popularity when an even more famous chocolate devotee, Marie Theresa, wife of Louis XIV, made it the favorite beverage of the French court.

England's chocolate shops preceded her coffee houses, the first one being credited to an enterprising Frenchman, "that was about 1656. A few years later the forerunner of our present-day prohibitionists were demanding the suppression of chocolate along with foreign brandy, rum and tea because these beverages cut down the consumption of brews made from home-grown barley.

MRS. KEELOR HONORED.

On Saturday afternoon, Mrs. R. S. Keelor of New Jersey was the charming honoree, when Mrs. W. E. Watson entertained at the second of a series of parties, at her apartments, there being three tables of players.

The attractive apartment was abloom with quantities of early spring flowers artistically arranged in bowls and French baskets.

Of exceptional interest was the game of bridge played during the afternoon, the prize for high score being won by Mrs. G. Louieka, Mrs. B. F. Whitner holding low score. Mrs. Keelor was presented a lovely prize as memento of the occasion.

The hostess served a combination plate, and refreshments at the conclusion of the card game.

Invited to meet "Mrs. Keelor" were Mrs. B. F. Whitner Sr., Mrs. E. D. Mobley, Mrs. Alex Vaughan, Mrs. A. M. DeForrest, Mrs. E. M. Galloway, Mrs. G. E. Smith, Mrs. M. H. Mabry, Miss Katherine Wilkey, Mrs. G. I. Loucks, Mrs. T. L. Dumas, and Mrs. S. O. Chase.

Blinding Headaches

"For about twenty years," says Mr. P. A. Walker, of Newburg, Ky., "one of our family remedies has been Black-Draught, the old reliable. ... I use it for colds, biliousness, sour stomach and indigestion. I was subject to headaches when my liver would get out of order. I would have blinding headaches and ... just couldn't go. I used Thedford's Black-Draught and it relieved me."

"About eight years ago my wife got down with liver and stomach trouble. ... We tried all week to help her, ... but she didn't get any better. She was nauseated and couldn't eat or rest. She began taking Black-Draught, and in two days she was greatly improved and in a week she was up."

Try Black-Draught.

Spring Suits—For Easter

It's a mighty fine thing to be able to offer in these suits such wonderful ALL-WOOL Materials for only \$25. Beautiful designs—rich coloring—300 patterns to choose from. Every garment tailored to your individual measure in a very careful manner. Select any style that suits your fancy. We'll go the limit to please you.

How Would You Like To Own A Million Cows?

THIS question probably makes you realize what it means to own and take care of one million cows. And when you know that the 70,000 farmers who serve you with DAIRYLEA Brand Evaporated Milk own that number, you can also realize the immensity of the Dairymen's League, Co-operative Association.

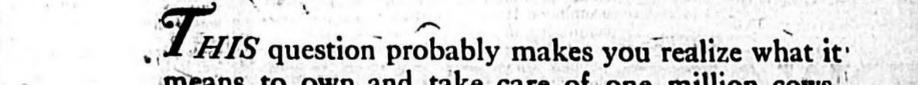

But more amazing is the fact that this great farmer-owned business rose out of a mere wish—your wish that you could get all your foods direct from the farm.

THUS it happens that when you buy DAIRYLEA Evaporated Milk you are buying the most important food that could come from the farm—and from the farmer himself.

This is why you find DAIRYLEA of such real farm quality and purity—richer and creamier—with more nutritious milk fats and solids. Yet because these farmers produce and sell DAIRYLEA themselves it costs no more than ordinary evaporated milk.

DAIRYLEA is the concentrated wholesomeness of the purest fresh bottled milk—exactly the same milk which U. S. Senator Copeland called "the best in the world." It is merely less bulky than fresh bottled milk, with a lessened water content. Nothing whatever is added.

Just say "DAIRYLEA" to your Grocer and you will get this rich, delicious milk—

Richer Creamier

Convince Yourself!

AUTOMOBILE MAN WANTS AUTO TAX REDUCED LITTLE

Says Discrimination Has Been Shown in Tax Reduction On Various Articles by Congress

Every man who owns a motor car and every man in the automobile trade should protest for the repeal of the discriminatory tax on automobile products. W. R. Tracy, assistant sales manager of the Oakland Motor Car Company, thus urges a real fight by the 15,000,000 automobile owners who have been ignored in the tentative schedule of the house ways and means committee which proposes to do away with the special war-time levies on bowling alleys and billiard tables; all sorts of amusement tickets up to 50 cents, jewelry and other items while motor cars, trucks and accessories are considered luxuries.

"While it is commendable to reduce taxes on all the items included, it is highly unfair to give relief to many items and completely ignore the 5 per cent tax on motor cars, the 3 per cent tax on trucks and the 5 per cent on parts and accessories, aggregating nearly \$150,000,000 a year. It is easy to collect for the government but highly unfair to transportation. "The government should not lose sight of the fact that motor car users frequently pay 4 to 10 federal, state and municipal taxes."

Lake Gibson—\$700,000 to be spent for erection of carpenter's National Home for Aged.

Method of Timing the Ignition.

On some cars, the timing mechanism must be removed or disturbed when certain classes of work are to be done. This, of course, necessitates a re-timing of the ignition. In some cases, the firing point of the stroke is marked on the fly-wheel, or the gears themselves are marked. In other cases, the piston of number one cylinder must be brought to the top dead center of the compression stroke. A common method of finding this position is by means of a bent wire inserted through the spark plug hole when both the intake and exhaust valves are closed. Another method is to remove the spark plug, place the thumb over the hole and turn over the engine. The intake stroke can be determined by the suction which is exerted on the thumb by the descending piston. On the compression stroke, the ascending piston exerts a pressure on the thumb. When this pressure ceases, the piston has reached the end of its travel and the ignition timing may then be done. Though compression and exhaust both take place on the up stroke of the piston, the two strokes are easily distinguished from each other. On the compression stroke, both valves are closed, and as the mixture has no outlet, it is compressed into a compact mass, and exerts a pressure on the thumb. On the exhaust stroke, however, the exhaust valve offers an outlet for the mixture, and it passes through the exhaust pipe. When priming cups are used on the engine, a simple method of locating the piston may be used. The aperture in the cup is slightly opened by turning the cock, and the cup is then filled with ordinary lubricating oil. On intake stroke, the descending piston draws a part of the oil into the cylinder. If the entire amount of oil is drawn in, the supply must be replenished. On the compression stroke, the compression of the mixture causes bubbles to be formed on the oil. When the bubbling ceases, the piston has reached the top dead center, or firing point of its stroke.—Automobile Digest.

FOUR RECORDS IN AFRICA ARE WON BY STUDEBAKER

Breaks All Records in Thrilling Circuitous Trip Lasting One Hundred Hours

JOHANNESBURG, Mar. 5.—Old timers of the Boer trek wagon trails thronged around a mud-daubed automobile, when it drew up at the curb on a main thoroughfare in Johannesburg today. The machine, a Studebaker Light Six touring car, had just written a new page in the colorful history of the Union of South Africa. Without a pause in the motor's steady throb, it had set four records in retracing the old settler routes, completely circling the Union, in less than 100 hours—a perilous trip that once took weeks for the bullock carts.

Made Three Other Records Not only did the Studebaker establish a new round-trip record around the Union, but it also shattered three other records between points along the course. Notable among these was the new running time of 35 hours and 57 minutes between this city and Cape Town. This was a distance of 990 miles. A standard stock model was driven out of Johannesburg by H. E. Payne, Fred Scarborough, L. G. Bright and W. H. du Preez. They drove over mountainous roads thick with mud to Cape Town, then through Port Elizabeth, East London, Kokstad, Durban and return. The car made a 2,687 mile circle. Running time from the start here and return was 99 hours, 46 minutes. Gasoline consumption averaged 21.5 miles per Imperial gallon. The gasoline mileage was unusually high, motorists agreed today, considering that an average speed of 26.75 miles an hour was maintained along roads broken by frequent streams, which compelled fording.

Numerous washouts, due to heavy rains, forced the car to travel along long stretches of hilly, slippery roadway, subjecting the Studebaker and its drivers to severe test. For this reason the trip proved one of the most sensational ever staged in South Africa. Lost in Diamond Diggings. The maze of roads running around hundreds of diamond diggings, near Kimberly, brought confusion to the record-breakers. The running time suffered serious disadvantage through time lost in opening and closing cattle gates. Metropolitan motorists may be surprised to know that actually 309 gates barred the Studebaker's path.

Returning to Johannesburg, the Light-Six was examined by several hundred motor car owners. The engine was still running smoothly. The body was unscathed although it was thickly coated with mud, from axles to top. Then a careful examination of the chassis showed that the car had gone through the gruelling strain without the slightest breakdown.

BRISBANE

ed ignorant theories. It is foolish to exact excessive taxes when they are not needed. Excessive taxation discourages enterprise. A man will not risk money building up new factories, providing work, giving opportunity, if he must stand all the loss and give up half the profit, when there is a profit.

FORD COMPANY MANUFACTURERS A STEEL TRUCK

All-Steel Combination Truck and Body Is Proving Big Success And Much In Demand.

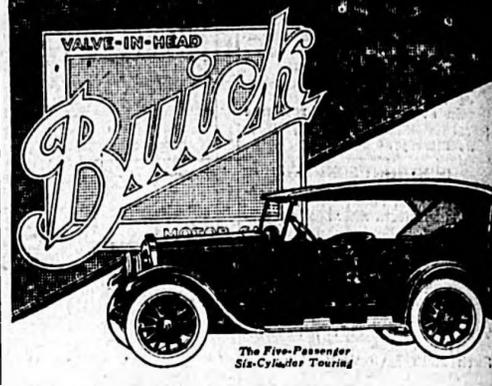

DETROIT, Mar. 5.—The Ford Motor Company enters the new year with a new product, an all-steel combination truck body and cab mounted on the standard Ford one-ton chassis to be sold as a complete unit.

The new body is of the open express type, so constructed that it may be readily converted into other body combinations by using stakes, side boards, canopy top, screen sides, etc. "In fact," says the Ford statement, "the purpose in producing the new body was to place a low cost general utility truck, meeting both agricultural and commercial requirements at the disposal of ton truck users."

The body is built of steel to withstand the most severe usage and presents a new development in construction. The steel sills are reinforced with wood in order to lessen vibration and road shocks, thus making for more durability and longer life. The loading space is seven feet two inches in length by four feet in width and of convenient and practical depth. The end gate is strongly braced and secured by heavy chains which hold it in position when lowered. The cab, also of steel construction, is extra roomy. The seat is of artificial leather, well cushioned on four-inch springs. Protection from the weather is afforded by close fitting door curtains mounted

PROMINENT LAWYER DIES

LAKELAND, Mar. 5.—Edwin Spencer, lawyer and developer, died here at the age of 34, as the result of complications following an operation for appendicitis. He came to Lakeland from Ocala seven years ago and became actively engaged in some of Holt county's biggest development projects. He was for several years attorney on the board of county commissioners. Mr. Spencer is survived by a widow and a 11-year-old son and a nine-year-old daughter. Another also resides here.

Buick Character Makes Buick Value

Buick value is something more than appears on the surface. It is more than the excellence and beauty of Buick design—more than the greater riding comfort, power and safety that Buick provides. Buick's value comes from the sum total of all those Buick qualities and traditions which together make up Buick character. A Buick owner fully appreciates Buick character. He knows the dependable, satisfying and trouble-free transportation which Buick gives, however long or however far a Buick owner may elect to drive his car.

The New ESSEX

A SIX—Built by Hudson

We Ask This Simple Test

It is an easy way to tell if the new Essex Coach gives greater value than was ever provided at this price.

Take a ride. It has answered the question for thousands. Priced \$170 lower, the new Essex Coach provides a larger, handsomer body, with even greater passenger comfort than the former Coach.

And its 6-cylinder motor, built by Hudson, gives the smoothness of performance for which the Super-Six is famous.

Has Qualities of Both Hudson and the Former Essex

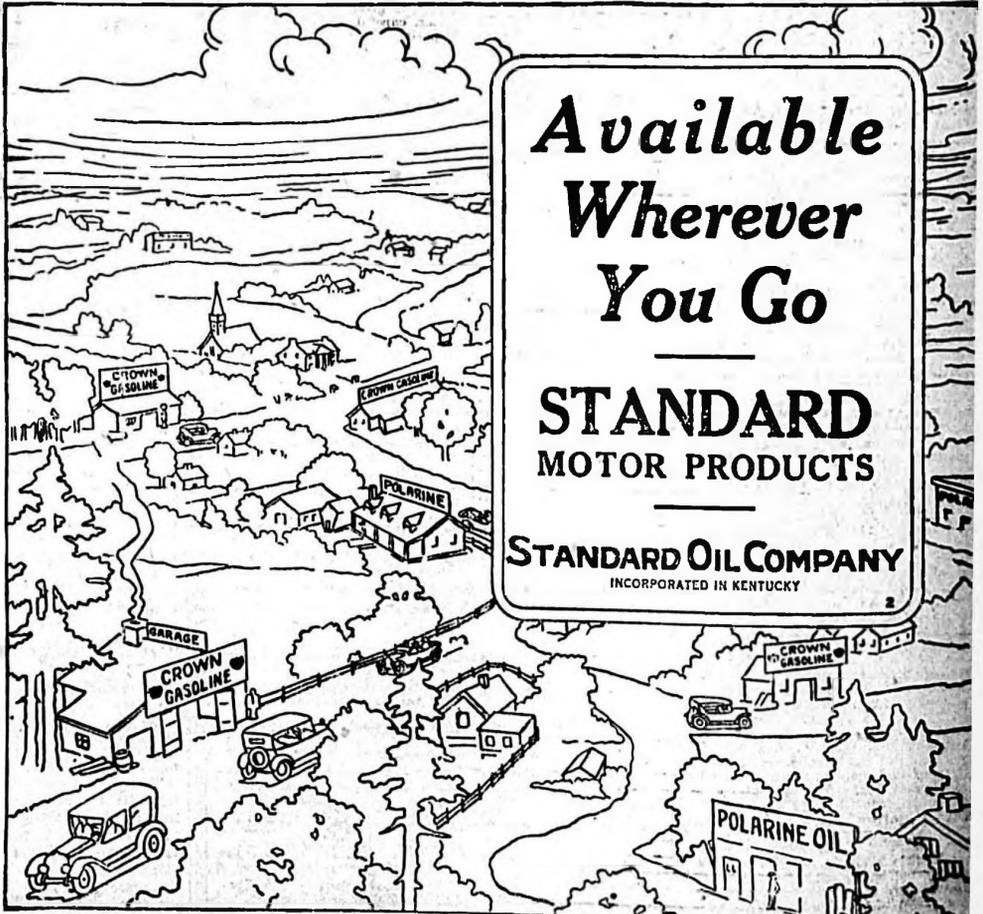

Steering is as easy as guiding a bicycle. Note how comfortably and safely it holds even the roughest roads at all speeds.

Gasoline, oil and tire mileage are exceptional. A further satisfaction is the low cost at which all replacement parts are sold.

California Wealth Doubles in 10 Years

TALLAHASSEE, Fla., Mar. 4. The wealth of California, Florida's chief rival in climate, almost doubled during the 10-year period from 1912 to 1922, according to a preliminary estimate of the wealth of that state, just released by the Department of Commerce at Washington. The total of the principal forms of wealth of California on Dec. 31, 1922, is shown, amounting to \$5,931,724,000, as compared with \$3,443,800,000 in 1912. This represents an increase of 78 per cent, and boosted the per capita values from \$3,277 to \$4,007, or 22.3 per cent.

PROPOSE BOND ISSUE

ST. PETERSBURG, Mar. 4. The city attorney has been instructed by the city commission to draw up the necessary papers for submission of a proposed \$355,000 bond issue to the people for improvement of the municipal street railway lines, including construction of new pavement, installation of new rails and purchase of additional rolling stock.

California Wealth Doubles in 10 Years

TALLAHASSEE, Fla., Mar. 4. The wealth of California, Florida's chief rival in climate, almost doubled during the 10-year period from 1912 to 1922, according to a preliminary estimate of the wealth of that state, just released by the Department of Commerce at Washington. The total of the principal forms of wealth of California on Dec. 31, 1922, is shown, amounting to \$5,931,724,000, as compared with \$3,443,800,000 in 1912. This represents an increase of 78 per cent, and boosted the per capita values from \$3,277 to \$4,007, or 22.3 per cent.

PROPOSE BOND ISSUE

ST. PETERSBURG, Mar. 4. The city attorney has been instructed by the city commission to draw up the necessary papers for submission of a proposed \$355,000 bond issue to the people for improvement of the municipal street railway lines, including construction of new pavement, installation of new rails and purchase of additional rolling stock.

AUTOMOBILE MAN WANTS AUTO TAX REDUCED LITTLE

Says Discrimination Has Been Shown in Tax Reduction On Various Articles by Congress

Every man who owns a motor car and every man in the automobile trade should protest for the repeal of the discriminatory tax on automobile products.

W. R. Tracy, assistant sales manager of the Oakland Motor Car Company, thus urges a real fight by the 15,000,000 automobile owners who have been ignored in the tentative schedule of the house ways and means committee which proposes to do away with the special war-time levies on bowling alleys and billiard tables; all sorts of amusement tickets up to 50 cents, jewelry and other items while motor cars, trucks and accessories are considered luxuries.

"While it is commendable to reduce taxes on all the items included, it is highly unfair to give relief to many items and completely ignore the 5 per cent tax on motor cars, the 3 per cent tax on trucks and the 5 per cent on parts and accessories, aggregating nearly \$150,000,000 a year. It is easy to collect for the government but highly unfair to transportation.

"The government should not lose sight of the fact that motor car users frequently pay 4 to 10 federal, state and municipal taxes."

Lake Gibson—\$700,000 to be spent for erection of carpenter's National Home for Aged.

Method of Timing the Ignition.

On some cars, the timing mechanism must be removed or disturbed when certain classes of work are to be done. This, of course, necessitates a re-timing of the ignition. In some cases, the firing point of the stroke is marked on the fly-wheel, and the gears themselves are marked. In other cases, the piston of number one cylinder must be brought to the top dead center of the compression stroke. A common method of finding this position is by means of a bent wire inserted through the spark plug hole when both the intake and exhaust valves are closed. Another method is to remove the spark plug, place the thumb over the hole and turn over the engine. The intake stroke can be determined by the suction which is exerted on the thumb by the descending piston. On the compression stroke, the ascending piston exerts a pressure on the thumb. When this pressure ceases, the piston has reached the end of its travel and the ignition timing may then be done. Though compression and

exhaust both take place on the up stroke of the piston, the two strokes are easily distinguished from each other. On the compression stroke, both valves are closed, and as the mixture has no outlet, it is compressed into a compact mass, and exerts a pressure on the thumb. On the exhaust stroke, however, the exhaust valve offers an outlet for the mixture, and it passes through the exhaust pipe. When priming cups are used on the engine, a simple method of locating the piston may be used. The aperture in the cup is slightly opened by turning the cock, and the cup is then filled with ordinary lubricating oil. On intake stroke, the descending piston draws a part of the oil into the cylinder. If the entire amount of oil is drawn in, the supply must be replenished. On the compression stroke, the compression of the mixture causes bubbles to be formed on the oil. When the bubbling ceases, the piston has reached the top dead center, or firing point of its stroke.—Automobile Digest.

FOUR RECORDS IN AFRICA ARE WON BY STUDEBAKER

Breaks All Records in Thrilling Circuitous Trip Lasting One Hundred Hours

JOHANNESBURG, Mar. 5.—Old timers of the Boer trek wagon trails thronged around a mud-daubed automobile, when it pulled up at the curb on a main thoroughfare in Johannesburg today.

The machine, a Studebaker Light Six touring car, had just written a new page in the colorful history of the Union of South Africa. Without a pause in the motor's steady throb, it had set four records in retracing the old settler routes, completely circling the Union, in less than 100 hours—a perilous trip that once took weeks for the bullock carts.

Made Three Other Records Not only did the Studebaker establish a new round-trip record around the Union, but it also shattered three other records between points along the course. Notable among these was the new running time of 35 hours and 57 minutes between this city and Cape Town. This was a distance of 966 miles.

A standard stock model was driven out of Johannesburg by H. F. Payne, Fred Scantlebury, O. Bright and V. B. du Preez. They drove over mountainous roads thick with mud to Cape Town, then through Port Elizabeth, East London, Kokstad, Durban and return. The car made a 2,687 mile circle. Running time from the start here and return was 99 hours, 46 minutes. Gasoline consumption averaged 21.5 miles per Imperial gallon. The gasoline mileage was unusually high, motorists agreed today, considering that an average speed of 26.75 miles an hour was maintained along roads broken by frequent streams, which compelled fording.

Numerous washouts, due to heavy rains, forced the car to travel along long stretches of hilly, slippery roadway, subjecting the Studebaker and its drivers to severe test. For this reason the trip proved one of the most sensational ever staged in South Africa.

Lost in Diamond Diggings. The maze of roads running around hundreds of diamond diggings, near Kimberly, brought confusion to the record-breakers. The running time suffered serious disadvantage through time lost in opening and closing cattle gates. Metropolitan motorists may be surprised to know that actually 300 gates barred the Studebaker's path.

Returning to Johannesburg, the Light-Six was examined by several hundred motor car owners. The engine was still running smoothly. The body was uninjured—although it was thickly coated with mud, from axles to top. Then a careful examination of the chassis showed that the car had gone through the gruelling strain without the slightest breakdown.

BRISBANE

ed ignorant theories. It is foolish to exact excessive taxes when they are not needed. Excessive taxation discourages enterprise. A man will not risk money building up new factories, providing work, giving opportunity, if he must stand all the loss and give up half the profit, when there is a profit.

"SERVICE THAT MAKES FRIENDS."

FORD COMPANY MANUFACTURERS A STEEL TRUCK

All-Steel Combination Truck and Body is Proving Big Success And Much in Demand.

DETROIT, Mar. 5.—The Ford Motor Company enters the new year with a new product, an all-steel combination truck body and cab mounted on the standard Ford one-ton chassis to be sold as a complete unit.

The new body is of the open express type, so constructed that it may be readily converted into other body combinations by using stakes, side boards, canopy top, screen sides, etc.

"In fact," says the Ford statement, "the purpose in producing the new body was to place a low cost general utility truck, meeting both agricultural and commercial requirements at the disposal of ton truck users."

The body is built of steel to withstand the most severe usage and presents a new development in construction. The steel sills are reinforced with wood in order to lessen vibration and road shocks, thus making for more durability and longer life.

The loading space is seven feet two inches in length by four feet in width and of convenient and practical depth. The end gate is strongly braced and secured by heavy chains which hold it in position when lowered.

The cab, also of steel construction, is extra roomy. The seat is of artificial leather, well cushioned on four-inch springs. Protection from the weather is afforded by close fitting door curtains mounted

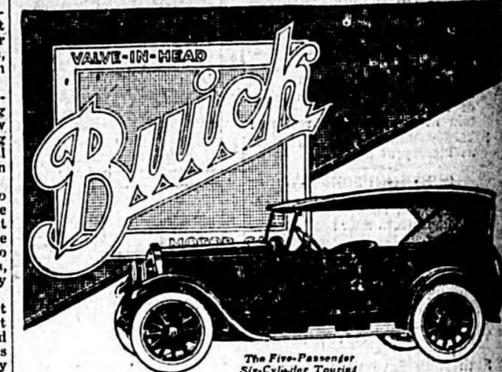

on uprights and opening and closing with the door. An oblong window in the back of the cab gives ample facilities for rear vision, adding to the safety as well as the convenience of the driver.

The new truck which is already on display in many Ford dealers' show rooms throughout the country, sells complete with steel cab and body for \$490 f.o.b. Detroit, being priced in accordance with the standard Ford policy.

In addition to the saving offered truck users in this body, is the convenience of now being able to buy the Ford Ton Truck complete and ready to put into service.

PROMINENT LAWYER DIES

LAKELAND, Mar. 5.—Edward Spencer, lawyer and developer, died here at the age of 34, as the result of complications following an operation for appendicitis. He came to Lakeland from Ocala seven years ago and became actively engaged in some of the county's biggest development projects. He was for several years attorney on the board of county commissioners. Mr. Spencer is survived by a widow and a 11-year-old son. His mother also resides here.

Buick Character Makes Buick Value

Buick value is something more than appears on the surface. It is more than the excellence and beauty of Buick design—more than the greater riding comfort, power and safety that Buick provides. Buick's value comes from the sum total of all those Buick qualities and traditions which together make up Buick character. A Buick owner fully appreciates Buick character. He knows the dependable, satisfying and trouble-free transportation which Buick gives, however long or however far a Buick owner may elect to drive his car.

The New ESSEX

A SIX—Built by Hudson

The Coach \$975
Touring Model - \$850
Freight and Tax Extra

We Ask This Simple Test

It is an easy way to tell if the new Essex Coach gives greater value than was ever provided at this price.

Take a ride. It has answered the question for thousands. Priced \$170 lower, the new Essex Coach provides a larger, handsomer body, with even greater passenger comfort than the former Coach.

And its 6-cylinder motor, built by Hudson, gives the smoothness of performance for which the Super-Six is famous.

Has Qualities of Both Hudson and the Former Essex

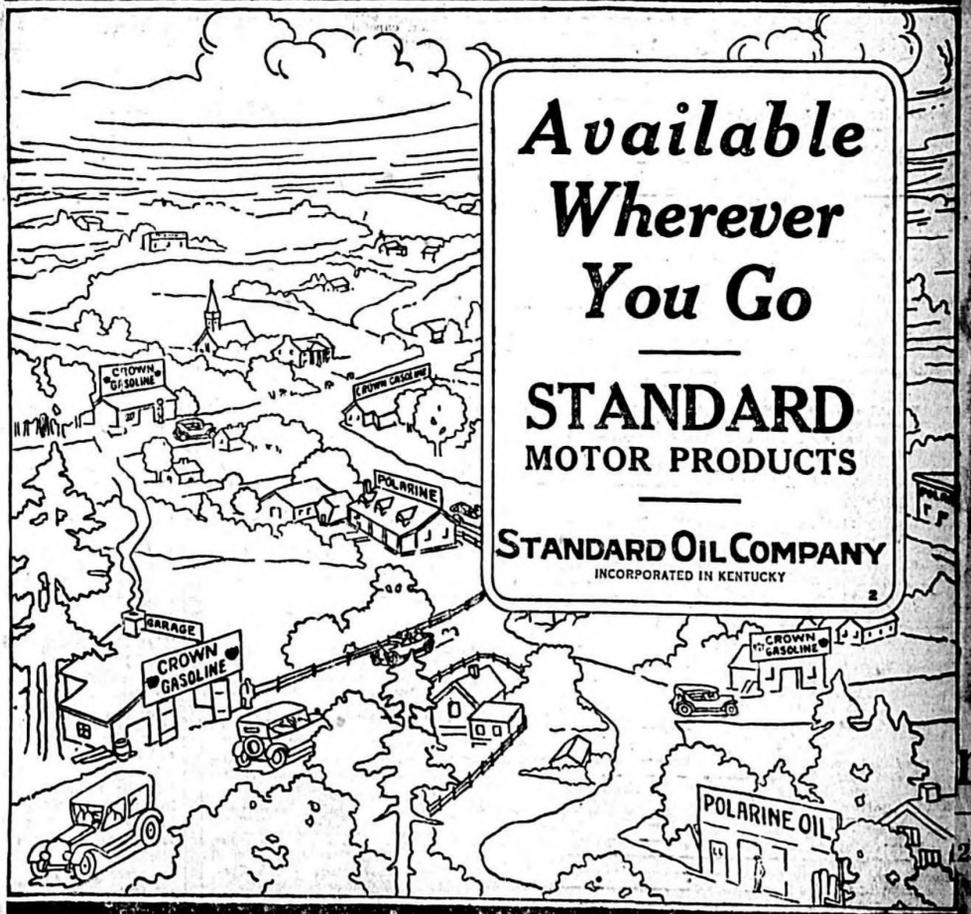

Steering is as easy as guiding a bicycle. Note how comfortably and safely it holds even the roughest roads at all speeds.

Gasoline, oil and tire mileage are exceptional. A further satisfaction is the low cost at which all replacement parts are sold.

WANTED—Small wicker baby buggy, reasonable price. Call Mrs. Masey, Phone 323-L-2.
Orlando—Twelve Spanish type bungalows to be erected at cost of \$100,000.

ANTI-MOSQUITO DAY

BROOKSVILLE, Mar. 5.—Mayor Coogler has proclaimed Mar. 5 as Anti-Mosquito Day in Brooksville when a representative from the state board of health will be here to assist local authorities in ridding Brooksville of the pests.

EASY SETTLEMENT

The problem of filling needs is easily settled on the principle of reciprocity, for what one has to sell the other wants to buy.

This is the great principle underlying Herald Want Ads and it has worked for years with such great success that this form of advertising has come to be very popular.

The needs of one are supplied by the needs of another.

This process simply is the getting of the buyer and seller together and Herald Want Ads do that to perfection. Try them and see.

To reach all the people effectively—leave your Want Ad at The Herald office. Phone us to send for it or phone it to the Want Ad Department.

California Wealth Doubles in 10 Years

TALLAHASSEE, Fla., Mar. 4.—The wealth of California, Florida's chief rival in climate, almost doubled during the 10-year period from 1912 to 1922, according to a preliminary estimate of the wealth of that state, just released by the Department of Commerce at Washington. The total of the principal forms of wealth of California on Dec. 31, 1922, is shown, amounting to \$15,031,734,000, as compared with \$8,444,028,000 in 1912. This represents an increase of 78 per cent, and boosted the per capita values from \$3,277 to \$1,007, or 22.3 per cent.

Expert Declares Business Improves As Year Advances

ATLANTA, Ga., Mar. 3.—Continued prosperity and business expansion may be expected in practically all lines during the present year, in the opinion of Frank Hempstead, Atlanta business expert and federal tax counsellor. Mr. Hempstead bases his prediction on what he has heard and seen in his recent trips over the country, and particularly over the South.

"The business situation looks better all the time," said Mr. Hempstead, "apparently there is pessimism in any section of Dixie. It is not now a question of whether or not business men will adjust themselves to the situation. There is a tendency to branch out materially. It is an expansion, however, which is given consideration only after careful investigation. The disposition of business men generally shows a balance wheel, producers and distributors seem to have a 'weather eye' so to speak. They want to know their markets before they broaden out too much."

Mr. Hempstead, in addition to personal investigations, receives well-sifted reports on all business activities, and his expert advice is sought by many of the big business leaders in various sections of the United States. His investigations, however, have not been confined to the larger cities, but he has visited many of the smaller towns and rural communities in southern territory. He said he was greatly impressed with the optimism and business confidence he found even in the most remote country districts.

PROPOSE BOND ISSUE

ST. PETERSBURG, Mar. 4.—The city attorney has been instructed by the city council to draw up the necessary papers for submission of a proposed \$325,000 bond issue to the people for improvement of the municipal street railway lines, including construction of new pavement, installation of new rails and purchase of additional rolling stock.

To Buy Right

In Real Estate, LOCATION is second only in importance to price, and often is the controlling factor in the sale of a piece of property.

Decide carefully the use to which you wish to put the property, and also consider its possibilities in the future. Whether searching for business or residential locations, the man who consistently reads the offerings on The Herald Want Ad Page cannot fail to profit, as every day real bargains find their way into these columns.

Key West has Election Improvement Bonds

KEY WEST, Mar. 3.—An ordinance has passed its first reading by city council, providing for calling a special election on the question of issuing \$150,000 public improvement bonds of the City of Key West. A new park, city sewers and additional street paving are included in the proposal.

SECURED RELIEF THROUGH FOLEY PILLS

John R. Gordon, Danville, Ill., writes: "I have suffered with kidney trouble five years; could not sleep at night and was always tired. I was not strong and hard work made my back ache. I got some FOLEY PILLS and after a few treatments I felt better and could work with more ease, became stronger and could sleep better." FOLEY PILLS are a diuretic stimulant for the kidneys, make them more active. Get a bottle

OLDEST BIBLE IN COUNTRY

MIAMI, Mar. 4.—Mrs. D. Giffin of this city believes she possesses the oldest Bible in the country. It was printed in London in 1661. In addition to containing all the books of the Old and New Testaments, the book contains the book of common prayers and other rites and prayers used in the Church of England. The book is in a perfect state of preservation despite its 260 years of life.
