

CAPITOL REMOVAL MEET AT ORLANDO YESTERDAY WAS WELL ATTENDED

Permanent Organization Was Formed and Plans Formulated WILDER PRESIDENT

NEXT MEETING WILL BE HELD AT PALATKA WHERE CAMPAIGN WILL REALLY START

(By The Associated Press)
ORLANDO, April 6.—Colonel Thomas J. Appleyard, state printer, did not invite the Capitol Removal Association here yesterday to attend the laying of the corner stone of the new addition to the capitol at Tallahassee in the near future as reported. Appleyard didn't address the convention but was in the city and mingled with the delegates outside the convention hall. George H. Wilder, of Plant City, was elected president of the permanent organization and headquarters will be at Plant City. Next meeting will be held in Palatka.

ORLANDO, April 6.—Permanent organization of the Florida State Association for Capitol Removal was effected at a meeting here yesterday with the election of George H. Wilder, of Plant City, as president and the formulation of plans to place the executive committee composed of one representative from each of the interested counties on a working basis at the earliest possible date. The meeting was attended by more than two hundred boosters interested in the problem confronting the people of South Florida. It did not develop a discussion of the proposed site of the capitol if it should be removed to a more central location.

After temporary Chairman J. G. Strozier, of Winter Garden, called the meeting to order and introduced Mayor Duckworth, who delivered the address of welcome, the constitution and by-laws were adopted and President Wilder took charge of the meeting. Mr. Wilder declared that the association was organized for the purpose of righting the wrongs that had been imposed on South Florida for years and asserted that the capitol should be moved to a point as nearly equidistant from the boundaries of the state as possible. The president's address was greeted with prolonged applause.

The principal discussion of the meeting centered about the organization of the executive committee and the county auxiliary associations. President Wilder expressed the belief that the county organizations must carry on the most important work of the campaign and urged that their organization be perfected immediately. After considerable discussion a motion was adopted instructing the secretary to write each chamber of commerce in the interested counties, calling upon them to name one representative to attend a county meeting on a given date for the purpose of electing a county vice-president to direct the campaign locally and serve on the executive committee.

Lake and Dale counties named their vice-president yesterday, the former being represented by Carl Lehmann and the latter by W. S. Williams. N. P. Yowell, president of the Orlando Chamber of Commerce responded for Orange county when the list was read, stating that the appointment would be taken up here at the county meeting to be called following the issuance of the instructions by Secretary Hart, of Palatka.

Although the meeting failed to exhibit the signs of enthusiasm expected it disclosed the fact that South Florida is intensely interested in the movement. There were humorous moments, but underneath it all a spirit of earnestness, which indicates that the association will push its claims until the removal of the capitol is achieved, was manifested.

No mention of the proposed location of the capitol, if it is removed, was made, although one speaker declared that he understood four cities were interested in obtaining the capitol and suggested that each of these be permitted to name a member of the

ASSAILS FORD AT RAILROAD WAGE HEARING

UNION LEADER DOES NOT FANCY HENRY'S PLANS FOR HIS WORKERS

CHICAGO, April 6.—Henry Ford, Detroit automobile manufacturer, was declared responsible for advancing specialization in factories and accused of "conferring a curse on his workers" before the Railroad Labor Board yesterday in the wage hearing at which 204 railroads are seeking a ten per cent wage reduction.

Edward J. Evans, vice-president of the International Brotherhood of Electrical Workers, attacked the railroads which he said, were tending toward too great specialization in shop work. "Henry Ford may have conferred a blessing on many people, those who own automobiles, but he conferred a curse on his workers. They sit at their benches, half dead, doing their bits of work mechanically over and over," the union leader declared.

High specialization was asserted by Mr. Evans to be the worst crime against humanity. The railroads, in seeking a sliding scale of rates, according to the work done by different shop men, were tending more and more toward specialization, he said.

Replying to testimony by the railroads that outside industries paid much lower wages than the roads to shop craft employes, union officials told the board that the carriers had not presented a true summary of the situation in their wage hearing evidence.

Harry Carr, vice-president of a machinists' union, told the board that John G. Walber, representing eastern roads, had named 47 establishments in Cincinnati which paid lower rates than railroads paid.

"Every one knows that a strike in Cincinnati two years ago lost everything for these men and that they now are forced to take what they can get," Mr. Carr said. "That is not a fair example."

"Mr. Walber cited wages in six firms in New York. I wonder if that was all he could find and why he did not mention the Hoe Printing Press Company, which pays shops crafts-men 90 cents an hour, municipal shops which pay \$1.12 1/2, or the Black and White Taxicab Company which pays 80 cents, as compared with the 77 cents now paid railroad shopmen."

SITUATION IN IRELAND IS SERIOUS

RESULT OF GROWING ANTAGONISM REPUBLICANS TOWARD THE FREE STATE

(By The Associated Press)
LONDON, April 6.—Indications are that the situation in Ireland is becoming dangerous as the result of growing antagonism of the Republicans toward the supporters of the free state given in newspaper dispatches. Hostile demonstrations by revolting sections of the Republican army reported with increasing frequency.

BRYAN'S HEADQUARTERS MAY BE AT OCALA IN THE STAR OFFICE

(By The Associated Press)
OCALA, April 6.—It is reported here that if Bryan runs for the senate he will open campaign offices in Ocala. The report prompted the Ocala Star today to offer office room free if such intention was carried out.

OLIVIA STONE'S CASE GOES TO JURY TODAY

(By The Associated Press)
NEW YORK, April 6.—The case of Olivia Stone, charged with the murder of Ellis G. Kinkaid of Cincinnati, went to the jury today at 11:28 o'clock.

GARNER CLIMBS ON BLANTON —HOUSE IN AN UPROAR SAYS HE IS A DISGRACE

And Ought to Be Kicked Out of the House, Which Causes More Words

(By The Associated Press)
WASHINGTON, April 6.—Representative Garner, Democrat, of Texas, declared in the house today if he was permitted by rules to speak what was in the minds of 435 house members, he would say Representative Blanton, of Texas, "is a disgrace to this house and ought to be kicked out." Garner's statement coming after Blanton had defended himself against a newspaper article threw the house into great disorder and brought from the speaker a sharp quick command to sergeant-at-arms to prevent personal clash after Blanton had shouted he would hold Garner responsible if called a liar by him.

MRS. WHITTINGTON ACQUITTED WITH HER DAUGHTER TODAY OF MANSLAUGHTER CHARGE

Physician in the Case Released on \$10,000 Bond Until October

(By The Associated Press)
BUSHNELL, April 6.—Mrs. Ida Whittington and her 16-year-old daughter, Irene, charged with manslaughter in connection with the death of an infant girl alleged to have been the child of Irene were acquitted by the jury in the circuit court here today on instructions from Judge Bullock. The infant's body badly mutilated was found in a pond near here several weeks ago. The case of Dr. D. H. Seymour, physician, under indictment for murder in the first degree and manslaughter in connection with the death of the infant was continued until the October term of court and the physician released on \$10,000 bail.

WEEK END SESSION MINERS AND OPERATORS WAGE CONTRACT NEGOTIATIONS

Agreed Upon By Both Parties Today in an Endeavor to Settle Hard Coal Strike

(By The Associated Press)
NEW YORK, April 6.—Week end sessions of the Anthracite miners, operators sub-committee on wage contract negotiations was agreed upon by both parties today in an endeavor to settle the hard coal strike.

WILL DEPORT ALL ALIENS WHO VIOLATE PROHIBITION LAW —HOUSE PASSED BILL YESTERDAY

By Vote of Three to One Prohibition and Anti-Narcotic Law Will Be Strengthened

(By The Associated Press)
WASHINGTON, April 6.—By a vote of more than three to one, the House late yesterday passed and sent to the senate a bill authorizing the deportation of aliens convicted in state or federal courts on charges of having violated the narcotic and Volstead acts.

Described by prohibition advocates as a step toward better law enforcement, and characterized by Representative Graham, Pennsylvania, ranking Republican on the judiciary committee, as "a monstrous piece of legislation," the bill as presented by the immigration committee stood up against all attacks.

A motion to recommit so that the provision relating to conviction in state courts might be eliminated was defeated and the measure was put through as framed, 222 to 73.

Representative Walsh, Republican, Massachusetts, a member of the judiciary committee which wrote the original Volstead act, and who offered the motion to recommit, declared

PRISONERS' FLIRTATIONS WILL BE CENSORED IN COUNTY WORKHOUSE

(By The Associated Press)
WILMINGTON, Del., April 6.—Flirtations between men and women prisoners at Newcastle county workhouse has reached such a point that Warden Plummer, rather than have them exchange notes secretly, has established a jail postoffice and censorship for love letters.

PRESIDENT CHAMORRO PROCLAIMS MARTIAL LAW IN MANAGUA TODAY

(By The Associated Press)
MANAGUA, Nicaragua, April 6.—

he believed now as true that the enforcement law was made too drastic at the start.

Warning was sounded to prohibitionists by many members, including Representative Mann, Republican, Illinois, a veteran of the House, that they were going too far, that there was danger of disrupting the whole system of law enforcement, and that jurors would be unwilling to convict those who ought to go to jail if it also meant deportation.

There were many references to the Anti-Saloon League and Wayne B. Wheeler, its general counsel, Representative Hill, Republican, Maryland, charged that "the American bootleggers' union" and the league were standing hand in hand and fighting under one banner to get the alien bootlegger out of business. Mr. Walsh said that Mr. Wheeler could not be classed by the bootleggers as an enemy since "he is the man who has made it possible for them to ply their trade."

LIEUT. COLONEL KILLED BY SOLDIER AT FORT SILL, WAS SHOCK TO FRIENDS

(By The Associated Press)
FORT SILL, Okla., April 6.—The killing of Lieut. Colonel Paul Beck, assistant commandant of Post field, came as a shock to the officers and enlisted men here. Both officers and men made it plain they found it hard to believe the charges made against Beck. Beck was killed by Jean Day, who charged he found Beck in his home insulting his (Day's) wife.

President Chamorro ad cabinet proclaimed martial law for thirty days as a result of the discovery of a plot against the government.

MODERN STEAM LAUNDRY WILL OPEN IN THIS CITY ---BUILD NEW STRUCTURE

BROOKS FLETCHER MADE GREAT TALK AT CHAUTAUQUA

AND ALSO AT MEETING OF THE KIWANIS CLUB TODAY

Brooks Fletcher, editor of the Marion (Ohio) Tribune and noted Chautauqua lecturer, delivered two very stirring addresses, one last night entitled "The Martyred Fool" in the Chautauqua tent, and another at the Kiwanis luncheon today on the subject "Why Your Home Town Looks Like You." Both of Mr. Fletcher's lectures were typical of the man's mentality, forceful, analytical and clear. The lecture on "Why Your Home Town Looks Like You" was the most forceful from a civic standpoint. His punchy declarations hit some mark in the audience every time. Any one whose sense of hearing was functioning properly that did not feel that they had been stirred to greater civic activities are mentally and spiritually dead. Nothing short of the judgment horn could arouse them to activity. Being an editor Mr. Fletcher took the occasion to remark on the benefits a town receives from its paper and recommended that the people of the community personally thank the editor for the role of benefactor which is his steady part. He suggested, however, that caution be taken to do this gradually as any evidence of appreciation shown him might prove fatal.

Sanford is glad to have the Chautauqua and glad that the Chautauqua brought Mr. Fletcher. The Business & Professional Women's Club is to be congratulated on taking the initiative in bringing this high class attraction here. Not only are they to be congratulated but they should be financially supported, and not be allowed to assume any burden of expense resulting from the failure to sell the required amount of season tickets called for in their contract.

Tonight at the Chautauqua Frank Dixon will deliver his lecture entitled "The Tools of Democracy" and it is replete with the good things that every real citizen should know about. The Zedeler Symphonic Quartette will also appear tonight having delighted a large audience this afternoon.

Memorial to Peary Placed on His Grave at Services Today

President Harding and Cabinet Members Were Present

(By The Associated Press)
WASHINGTON, April 6.—President and Mrs. Harding and members of the cabinet and other high government officials joined in tribute to the memory of Rear Admiral Robert E. Peary today when a memorial was placed at the grave in Arlington cemetery by the National Geographical Society.

MARCHERS CLASH NEAR DUBLIN TODAY FREE STATE AND REPUBS.

(By The Associated Press)
DUBLIN, April 6.—One hundred young men from Free were proceeding to Dublin to join the free state army were intercepted today at Mallow by a strong party of Republican. A clash occurred in which it was reported one free state recruit was wounded. Free state men were then arrested and taken to barracks at Duttavat.

SPECIAL CALL FOR OFFICERS TO TAKE TRAINING

(By The Associated Press)
WASHINGTON, April 6.—A special call for officers to take flying training at Pensacola Naval Flying School was issued by the Bureau of Navigation to the entire naval service today. The training to start July first and last until about December 30.

BELFAST, April 6.—The Republican forces are reported concentrated on a section of the Ulster frontier, between Counties Leitrim and Fermanagh.

New Building Will Be Erected on Palmetto Avenue A MODERN PLANT

BURMAN & NIGFULL WILL ERECT BUILDING AND OPERATE FIRST CLASS LAUNDRY

The Chamber of Commerce, after numerous attempts to interest capital to build a steam laundry in Sanford, announces that I. N. Burman and J. N. Nigfull, Jr., proprietors of the Orlando Steam Laundry, have consented to build and operate a modern steam laundry here. The laundry will be located on Palmetto avenue between the Wight Grocery Co., and the Sanford Furniture Company. Mr. Burman was here this week completing final arrangements for the purchase of this property. He plans to construct a modern brick building and install in it the latest style equipment that can be secured. This equipment will include a water-softener to provide suitable water necessary in a plant of this kind. Mr. Burman has assured the Chamber of Commerce that when the plant is completed, it will be one of the most modern in the state, and something the people of Sanford can be proud of. The Chamber of Commerce, on the other hand, in inducing Mr. Burman to come here, advised him that the people of Sanford and Seminole county would give him their patronage and fullest cooperation to insure the success of the laundry.

Mr. Burman is anxious to have the building completed and equipment installed so that operations can begin by early fall.

This institution will be known as the Seminole Steam Laundry and the original investment will be \$35,000.

The Seminole Steam Laundry will maintain an office at Raffeld's Department Store to take work which will be done by the Orlando Steam Laundry until such time as the plant of the Seminole Steam Laundry is completed.

Both Messrs. Burman and Nigfull are practical handymen, and the work that they are turning out at Orlando has brought them the favorable comments of tourists from the large northern cities. Mr. Burman is one of the successful business men of Orlando, and is highly thought of in the business and financial circles of that city.

The people of Sanford can be assured that Mr. Burman will live up to his statements and give the city a modern laundry in all that the term implies.

Defense Ends in Arbuckle Case Offering Evidence

Court Will Decide on Admitting Evidence

(By The Associated Press)
SAN FRANCISCO, April 6.—Defense counsel today neared the completion of offering of evidence in the "Fatty" Arbuckle case. Counsel today looked for decisions from court as to admissibility of evidence contested from time of its introduction.

NO IMPORTANT PAPERS STOLEN IN MAIL ROBBERY IN FRANCE YESTERDAY

(By The Associated Press)
LONDON, April 6.—No important British government documents were in the mail bags stolen in yesterday's sensational train robbery in France, it was authoritatively stated.

HAIL CAUSES BRICK BUILDING TO COLLAPSE

MILLEDGEVILLE, Ga., April 6.—The south end of the negro boys' dormitory, a three-story brick building at the Georgia Training School for Boys, collapsed during a hail and rain storm yesterday afternoon. Other buildings were flooded when the hail broke the windows. Shade trees in the city and crops at the state farm were badly damaged. The storm was violent for ten minutes.

PERSONALS

A package of papers addressed to Mrs. S. B. Gerald, 26 Cottage St., with no town address has been returned to The Herald by the post-office. Owner can have same by calling at this office.

Mr. Whitfield Wilson, of the Wilson Coffee Company of Tampa, is in the city for a few days. With his associates Mr. Wilson will put on a demonstration of that good coffee, "Wilson's Custom House," the date to be announced later. Their ad appears in another column.

Kanner's Department Store has contracted for regular space in the advertising columns of The Daily Herald and their first ad will be found on the society page today. Manager Dawson says he is making some very attractive prices during his dollar day sale and it will pay to read his advertisements carefully.

E. W. Potter, who purchased the Ward farm on Beardall avenue last year, left for his home in Michigan Saturday after spending the winter here in Sanford. Mr. Potter is one of the largest shippers of farm produce in the middle west. He wore one of those big satisfied celery smiles when he left.

The American Fruit Growers, Inc., are making a bid for the patronage of the Sanford growers with a page advertisement, which appears today. This is one of the largest and most reliable companies in the United States and has a most complete organization for handling fruits and vegetables, not only throughout the United States, but in foreign countries as well.

Gilbert D. Leach, editor of the Leesburg Commercial, was an appreciated visitor at The Herald office. Mr. Leach states that the big paper mill at Leesburg will soon be producing news print and that the stock of the company is nearly all disposed of. He says things are indeed looking bright for the new enterprise. He was accompanied by a party of friends.

SOUTHERN RATES MAY BE REVISED

WASHINGTON, April 5.—Hearing on southern class rate revisions will begin May 22 at Atlanta, Ga., it was announced by the interstate commerce commission. Commissioner Eastman and Examiner Wilson will conduct the hearings which are to determine a more just division of interstate and intra-state rates. Afterward hearings will be resumed in New Orleans for several days to enable representatives in that section to present their cases.

Because rats on shipboard and in some industries damage electric cables by gnawing them, an insulating compound containing poison has been invented.

By connecting a generator to an ordinary windmill an Ohio man is getting current enough to light his house, charge the batteries of his electric automobile and run a stove.

NOTICE OF DISSOLUTION OF PARTNERSHIP

Notice is hereby given that the partnership heretofore subsisting between us, R. C. Bower and F. E. Roumillat, heretofore carrying on the business of a drug store at Sanford, Florida, under the style and firm name of Bower & Roumillat, has been dissolved by mutual consent, as and from the date hereof. All debts due to and owing by the said late firm of Bower & Roumillat will be received and paid respectively by R. C. Bower who will continue to carry on said business in his own right, under the name of R. C. Bower.

Dated this 5th day of April, A. D. 1922. F. E. ROUMILLAT.

BUILD - Build Now

"A Nation of Home Owners" is the ideal that America looks forward to. It is a mighty big ideal, but practically everyone who is paying rent can help realize it. Doesn't every real American want a share in the soil and the property of his native land? Of course he wants to be Uncle Sam's partner! Right now at the first dawn of Spring, the impulse to own your own home is strongest. You will do well to "obey that impulse."

LUMBER SURE TO INCREASE, SAYS RAMSEY; BOOST MAY BE 20 PERCENT DEALER SAYS

"Lumber has stimulated itself over the country," said T. W. Ramsey, one of the largest lumber dealers in the south, in an interview, "and although it is hard at this time to predict how soon it will soar, I am of the opinion it will likely increase from 10 to 20 per cent in the next two months. This tendency extends over the country, as the market shows, and conservatively speaking, claims it is an indication of an increase in the material.

"Business in all lines is beginning to stimulate itself and I do not believe it is going to be long when business will move along nicely. By fall I look for a brisk business in all of its branches," he said.

"We are," he said, "past the worst period of the business slump and when considered how the other parts of the country suffered, not only because of the cold weather, but business in general, Tampa and the south fared splendidly.

"Lumber is a very important material these days all over the country and according to traveling men the construction of residences and industrial building is going to be immense. I see the brightest kind of prospects for building in our home city as well as the adjacent suburbs," he said.

The building trades bear Mr. Ramsey out in his statements and assert that the activity along the building lines is big. It claims business will be flourishing in the next 90 days in the north and much sooner in the south, because of no likelihood of differences between employers and men this year.

Paint manufacturers and jobbers claim some improvement and say the outlook for 1922 is very satisfactory.

Steel the Barometer.

Business men recognize the steel market as its barometer, said a prominent traveling man at the Hillsboro hotel. I keep in touch with it for several reasons and see where the steel corporation mills have advanced operations to 70 per cent of capacity. Independent concerns are making good strides. Known plans for railroad purchases of rolling stock and building material and enlarging operations in fabricating lines indicates a more active steel production in about three months," he said.

Beware of Curbstone Brokers.

"Curstone brokers," and there are many, it is said, "bear watching, as their work is not only fraudulent but use the worst sort of tactics in misleading innocent builders whom he terms a 'sucker' after having swallowed his hook. That sort of fellow is dangerous. The reliable lumber dealer or business man will not stand on the street corner and talk business for any length of time. Why? because he has an office to transact his business. That is not the case with the 'curstone broker.'

"On the other hand you can go to your local, reliable dealer, meet him at his established place of business and get a square deal."

As the Times has endeavored to be as conservative as possible in gathering opinions as to building prospects this year, it has no reason to believe other than 1922 will be equally as good as that of last year if not better.

Should Act, Not Delay.

Mr. Ramsey, as well as other reliable lumber dealers, tell us that lum-

ber is as low as it will get and that the demand is increasing very rapidly. That being reliable information it behoves these at home to think quickly if they intend to build. Carpenters and lathers are not going to be as plentiful as last year for the reason that they are going to be in demand, it is claimed.

We Tampans should be real blooded boosters, should write our friends in the north and invite them to spend a winter in our city so that they may see for themselves what sort of a climate and other conditions we have compared with the north. And we should remember that every new resi-

dence or industrial building that is erected means a "Greater Tampa." So do your bit, be a booster and build in Tampa.

Although the building permits for this month do not loom up into large figures, yet the records of Inspector of Buildings Marti Otera show an increase of about \$35,000 over last month. Permits issued for the latter month aggregated \$240,924, while the permits issued up until last Thursday for this month showed a total of \$272,117. According to Mr. Otera there was more home building this month over that of last year, however the records show much more

valuation because of the permit granted the First Baptist church. The inspector thinks the increase for this month is remarkable taking all things into consideration and claims that if the parties who are going to build homes beyond any doubt had come in last month, March of last year would have been cut down considerably in figures.

The inspector is jubilant over the outlook and claims he knows of several projects that are going to come to pass as well as a number of residences that will be constructed but is not in a position to give them out

MEMBER THE ASSOCIATED PRESS

There is no place like Sanford after all.

There are many beautiful towns and cities in the state of Florida but when it comes right down to real business none of them look like Sanford.

State Senator McWilliams will be a candidate for congress from the Fourth District and he is already going over the district and says he will make a systematic and most vigorous campaign. We may have some life injected into this campaign yet.

When all the new orange groves that have been set out and being set out in south Florida and especially in the ridge section get to bearing there will have to be a wider range of distribution of fruits to get the thousands of boxes of new fruit into new markets. Next year will be a banner year in citrus fruits and there will be much money made in oranges and grapefruit.

Col. T. J. Appleyard attended the capitol removal meeting at Orlando yesterday and invited the people to the laying of the corner stone of the new wings on the old capitol. Tom just wanted to remind them that the old angel still lived, the only difference being in the new wings. Thomas is some politician and is always ready to bring something in favor of his dearly beloved Tallahassee but neither Thomas nor any other "bombshell" can stop the sentiment that prevails in south Florida. And in confidence we will say that if they want to create a different feeling down here they will begin to adopt different tactics and recognize the rights of the biggest part of Florida.

We wish to call the attention of the republicans of Florida to the fact that the democrats have been trying to get another federal judgeship in this state and that the Democrats were willing to have Judge John M. Cheney take the place. The republicans at Washington turned down the bill as proposed by Senator Fletcher. Now we would like to ask the Florida republicans how they like their dearly beloved brethren in the north—those obstructionists who are afraid of Florida and want nothing in the way of patronage to be given to the south and especially to Florida. Can the Florida republicans expect anything at the hands of their leaders except thinly veiled sneers and a kick in the seat of the pants?

To our mind the most important phase of the bond issue to be voted on Tuesday, April 11th, is the fact of the new bridge to be built across the St. John's river at Osteen ferry. Could our county commissioners many years ago have looked ahead and seen the handwriting on the wall and built the bridge across the river at Monroe the counties of Seminole and Volusia could have paid off a good part of their bonded indebtedness with the money that has been made from this gold mine and the counties could by this time have opened the bridge to traffic free or continued at a toll of twenty-five cents and still made good money. And The Herald wants to caution the voters to see who is fighting the bond issue if any are engaged in this and discover just

where their interests lie for the free bridge does not appeal to those who are interested in the Monroe ferry bridge—it is the best paying proposition in this part of the state and naturally the folks most interested want to continue to rake in the shekels. The real men of Seminole county should vote for bonds for the improvements in roads and bridges and should vote because it means a county bridge at Osteen ferry and a future opening of the St. Johns river to traffic instead of having it bottled up entirely. Look into this bond issue most carefully and you will vote for the bonds.

QUESTIONS THAT CONFRONT US.

One of the best indications of the great progress that is being made in Florida development, is the interest that is being manifested in the Florida citrus industry and general farming by men of means and of intelligence. These men are fully aware of the fact that some things are necessary in a political way to the successful development of the state and are taking a vital interest in public affairs. Isaac Van Horn of Haines City, a large owner of citrus groves and farm lands, recently said:

- "At the present time the people have serious questions to decide, questions that cannot be 'ducked,' but must be met right in the open, principal among which we consider most important the following: "Tick eradication. "Equalization of railroad rates. "Capital removal. "Nomination of the right men in the June primaries. "Development of the state road system. "Revision of the state constitution. "Punishment of offenders of the liquor laws. "Reconstructed laws covering education. "General revision of the laws on taxation. "A compulsory spraying law. "Some law to protect the public from the wrongs of the open range. "Much, if not most of the public agitation for these things is carried on by public-spirited citizens who have the welfare of the state at heart, without any remuneration and at the expense of much money and time, in their efforts, being opposed most always by selfish interests having both influence and funds to protect their private interests."

MOTOR MANSLAUGHTER.

More and more widely the taking of human life by careless driving is recognized as a serious crime, heavy punishable. That the crime is committed involuntarily makes little difference.

The Rocky Mountain News points out that convictions for involuntary manslaughter resulting from reckless or careless operation of automobiles have been sustained already by the supreme courts of Arkansas, Connecticut, Georgia, Indiana, Iowa, Michigan, Nebraska, New York, Ohio and Tennessee.

"Involuntary manslaughter" has been a part of the common law for centuries, and so may be invoked in any state, regardless of the absence of definite statutory recognition. The Colorado supreme court has held that this offense may consist in the taking of human life, without any intent to do so, "in the commission of a lawful act without due caution and circumspection." The application of this definition to careless automobile driving is obvious enough.

A Colorado statute, moreover, which has its counterpart in most of the other states, provides that "where such involuntary killing shall happen in the commission of an unlawful act which in its consequences naturally tends to destroy the life of a human being, the offense shall be deemed and adjudged to be murder." A strict construction of such a statute would mean, evidently that if a motorist kills a person while he is breaking the speed limit, he is properly chargeable with murder.

Here is matter for serious reflection on the part of any motorist who is disposed to take traffic regulations lightly.—Tampa Tribune.

GOLD IN FLORIDA.

There is gold in Florida. Not the metal the chemist symbolizes as "Au,"—the stuff men suffer and die for off in mountain fastnesses where it is found in rocks and in the sands of swift flowing rivers, and hoarded by misers and guarded in safes—the geological conditions as we know them are against the existence of "Au" in Florida, but its representatives are here, and here in abundance.

For those who search for it in the right way, it presents itself in the golden glow of the orange; in the bloom of the bush; in the fields of tomatoes, celery and lettuce; in the cattle on the prairies and in forest

It seems like th' main function of a woman's forefinger is to find out whether callin' cards are engraved.

pastures; in the heart of the corn; in fluffy fruitage of the cotton plant; in the toothsome product of the pecan tree; in the modest and useful growths of the garden; in the busy marts of trade—and in the golden sunshine of the finest climate on the earth!

The gold is here if we but look for it and dig for it. It is here if we but take it. It is here if we but enjoy it. There is gold in our back yards and front yards; in our fields and forests; in the white sand of the South; in the muck of the Everglades, and the red hills of the North—everywhere you look—everywhere you go—everywhere you search—in Florida there is gold.

And what has the metal we call gold cost the world? Scientists tell us that every dollar's worth of "Au" dug out of the earth has cost more in labor, in time, in blood, in sacrifice, in nerve force and life, than a dollar's worth of fruit, or corn, or potatoes, or meat, or whatever may be necessary to support life, and yet men forget their fruit, their corn, their hogs, their cattle, and their other needed products and go daffy after the yellow metal.

Yes, there is gold in Florida—the finest gold in the world—such gold as the poet tells us Jason's much coveted fleece was made of—fine gold that rewards the honest toil of any man who stirs our soil and has faith to plant seeds, the labor to cultivate, and the patience to await a sure reward.—Mose Folsom in Jacksonville Metropolis.

LOWER RAILROAD FARES.

Deflation in railroad fares has arrived. The war tax has been abolished and the fares on many lines have been reduced somewhat. In addition to a general fare reduction some roads are offering special summer rates for tourists, which will make a round trip ticket from coast to coast cost only a little more than the one-way ticket has been costing in recent years.

This is a gratifying change. During the war and immediately after, railroad fares were almost prohibitively high. Vacation trips which involved any railroad journey at all became too costly for the person with moderate income to take. What the railroads hoped to make by high fares was pretty well counterbalanced by a falling off of travel.

This summer, in spite of the past months of business depression, there should be a wholesome revival of travel in this country. There is beautiful scenery ready for millions of Americans to enjoy. There are natural playgrounds and beautiful parks, maintained for the benefit of the American public, which have been visited so far by a comparatively small part of the population. The lowering of railroad passenger rates should mark not only the good sense of railroad management but the beginning of an era of increased traveling among the groups of citizens who must count the cost rather carefully before setting forth to see the world and America first.—Gainesville Sun.

"BIG BILL'S" CHANCE TO SERVE AMERICA

"Big Bill" Hayward, who seems to have fared better with the rulers of Russia, than his co-laborers in the cause of anarchy, Goldman and Berkman, has been granted a coal mining concession in the Ural mountains. We don't know much about those mountains, except that they are situated at a goodly distance from America, and that is reason enough for our approval of Big Bill's plan to draw his working force from the I. W. W. clan which infests the wild places of Wyoming and Montana. If he carries out his plan, and succeeds in inducing every I. W. W. in America to move to the Urals and join his colony, which he says will establish a perfect government, he will have writ his name large among the benefactors of this country. It will be interesting to watch his experiment—at this distance, and it will go far toward even-

ing up the debt which Russia owes this nation, if she will consent to receive the entire gang of lunatics from which Big Bill was affiliated in this country, and banish them to the Urals, or some other region equally inaccessible. And should the results of his mining scheme, should enable Big Bill to enroll himself among the capitalistic class, or would he insist on dividing his profits with his workers, in accordance with the communistic doctrines to which he is so devoted. There is plenty of interesting food for thought in the project, but we have little hope of seeing it materialize. The ships going Russia-ward are not likely to be overcrowded by voluntary recruits for Big Bill's coal mines. Such a move would involve hard work, and hard work is not one of the cardinal doctrines of the I. W. W.—Tampa Times.

WANT TRAMMEL TO CONTINUE.

To the Editor Sanford Herald: The name of William Jennings Bryan has been mentioned by the personal friends and admirers of Mr. Bryan as a proper prospective candidate to represent Florida in the United Statesenate in the coming elections.

While everybody who knows Mr. Bryan recognizes him as a gifted orator and speaker and in this line he has acquired considerable notoriety. He is a refined Christian gentleman and a good citizen and as such we welcome him to Florida. But with all this de demur when the effort is being made to make the impression that Florida is lacking in native talent to represent her in congress or anywhere else.

Mr. Bryan's sudden rise to prominence as the leader of a great political party seems to have been more of an accident and surprise than anything else. His political career so far has been vapory notwithstanding his natural gifts. It would be a reproach to Florida to supplant a tried and trusted public servant by one who has never identified himself with the local and political needs of Florida.

Yours truly, J. HILL JONES.

BECOMING SERIOUS.

The public school situation throughout Florida has become quite serious. There is no evading the fact that some kind of drastic action is going to be necessary in many towns and cities if the schools are to be kept open until the end of the regular school term. Pensacola is the latest city to send out the S. O. S. call. Unless the money necessary to pay the teachers their salaries can be raised by private subscription, the city schools will be compelled to close. Florida undoubtedly has some weighty problems to be solved by the next legislature; that affecting the future of our schools is by no means the least important. If it were a question of local difficulty the whole matter might readily be adjusted but when practically every section of the state is crying for help in keeping the schools in operation, there is something radically wrong somewhere. Had the tax limit not been raised by legislative enactment following the submission of a constitutional amendment, to the ten-mill figure, there is no telling to what unhappy pass school affairs might not have come. Since money seems to be the foundation on which the superstructure of state school operation must be built, it is therefore up to the legislature to make some sort of suitable provision that will be within the provisions of the constitution of the great state of Florida. If ten mills is not enough, then steps should be taken to again raise the limit. But why there should be a limit on school and no limit on roads or other public welfare items on the state budget, is something the average layman is rather puzzled to understand. A board of county commissioners can run the millage up sky high if they so desire but when the item of school levy is met, the state steps in and says: "Not more than ten mills." The problem would seem to be one of either curtailing the scope of our educational system or else providing more money. Perhaps the Sterling-Towner federal bill will help solve the where and the how.—Lakeland Telegram.

NEW YORK, April 6.—Leaders association against prohibition amendment arranged today for membership rally tonight in Carnegie Hall. The announcement of the meeting stated the principal object of the association, "was to get the Volstead act out of law and keep it out."

WEATHER AND CROP CONDITIONS IN FLORIDA FOR THE WEEK ENDING APRIL 4.

Temperature: The temperature was from 2 to 5 degrees warmer than the seasonal, although temperatures

were rather too low on the 2nd and 3rd. During the warmest days temperatures were well up in the 80's.

Precipitation: Except local heavy rains over portions of the northwest and extreme west the rainfall was light and mostly unimportant. No rain was recorded over the greater portion of the section; more moisture is needed over the peninsula, but west of the Apalachicola River the soil is in good condition, except that lowlands are still rather wet in some localities. The heaviest rain reported was 2.30 inches at Pensacola.

Condition of Crops: Much sunshine and moderate temperature enabled farmers to make good headway with work, which is from 10 days to two weeks in advance of the average. Although the soil in much of the peninsula is quite dry good progress was made planting the last of the cotton crop, working corn, truck, melons, and citrus trees. Oats are mostly good, but some fields are damaged by rust. Digging Irish potatoes has begun in the north central counties, extending in a small way to some northern districts. Many fields are in splendid condition, but blight is complained of by some, and the dry weather has unfavorably affected the crop in some localities. The truck crop has suffered seriously from drought in the south, and dry weather was unfavorable on uplands in the central and northern counties. Citrus trees are in good condition, as a rule, but rain is needed.

CAPITOL REMOVAL MEET AT ORLANDO YESTERDAY WAS WELL ATTENDED

(Continued from Page One)

executive committee. This declaration, however, failed to provoke a discussion of this admittedly delicate subject and no action was taken on the suggestion.

Palatka was selected as the next meeting place, the time of meeting to be determined by President Wilder. At the Palatka meeting it is expected that the executive committee will report and the various county organizations will tell of the progress being made in the campaign.

It was erroneously reported yesterday that Col. Appleyard, of Tallahassee, addressed the meeting, inviting the delegates to attend the dedication ceremony of the capitol extension. Col. Appleyard did not address the meeting.

Ocala sent the largest delegation to the meeting, a motercade of nearly a hundred boosters, but representatives were present from nearly a dozen counties, including Lake, Dade, Orange, Marion, Palm Beach, Seminole, Volusia, Hillsborough and Hardee.

The following preamble to the constitution, fully explains the plans and purposes of the association:

The people of the State of Florida: Realizing the necessity of placing the seat of government of the state in such location as to make it more easily accessible to all parts of the state; and realizing further, that the development of the state of Florida and the growth of said state have carried the center of population thereof to the central portion of it; and realizing that immediate steps should be taken to remedy the situation which now exists, namely, the location of the capitol of said state at a point inaccessible to the greater portion of the population thereof, and inaccessible from the portions of the state which have been and are being developed, built up and populated, and that the center of population of the state of Florida has moved southward to a point near the geographical center of said state; hereby organize themselves for the purpose of removing the capitol of said state of Florida to some point which will be more easily accessible to the majority of the people of the state of Florida, and which will be more nearly equi-distant from the boundary lines of said state.

The organizers of said Florida State Association for Capitol Removal believing that capitol removal is not feasible or possible without the united effort of all of those people in the state of Florida who believe in the fairness, justice and righteousness of the aforesaid purposes, do further band themselves together for the purpose of accomplishing capitol removal without reference to the proposed future location of said capitol, but solely for the purpose of accomplishing the removal of said capitol to some point which will serve to the best advantage the people of Florida; and with this end in view, the organizers of said association pledge themselves to the purpose of this organization disinterestedly and without reference to any proposed place for the future location of said capitol.

Said organizers hereof further realizing that capitol removal is a political issue which can be accomplished only by relieving the progressive and rapidly developing portion of the state of Florida from the political yoke which has been imposed upon it by that portion of the State of Florida which lies west of the Suwanee river; and realizing that the political domi-

nation of West Florida can be broken only by a complete, just and fair political reapportionment of the state of Florida, and a fair and just representation of all of the people of the state of Florida equally in the law-making body of said state, do further organize themselves for the purpose of accomplishing the necessary changes in the state senatorial and representative districts for the purpose of obtaining a fair, equal and just representation in the law-making bodies as aforesaid.

For the accomplishment of these purposes and for the government of this organization, the delegates and representatives of the people of the state of Florida promulgate this, the governing instrument of their organization, and pledge themselves for the accomplishment of the purposes hereinbefore set forth.

ROYAL PALM PARK, MIAMI, SAVED FROM DESTRUCTIVE FIRE

MIAMI, Fla., April 6.—Royal Palm Park has been saved from destruction by fire through the efforts of Keeper Dow and two men, who for two days and two nights carried water to throw on the burning grass and trees in wash tubs on their heads. This was learned yesterday by Fire Chief Coleman, of Miami, Ernest Hill, president of the Florida State Realtors Association and Frank J. Pepper and J. H. Meyer, members of the local realtor's club, who made a trip to the park with a view to taking steps to halt the spread of the fire. It was found that about 35 acres had been swept by the flames, and a few royal palms damaged. The fire is not out, but is under control. It has been burning for more than a week.

GEORGIA CROPS HIT HARD BY HAIL STORM

MACON, Ga., April 6.—A violent hail storm that struck several sections of middle Georgia yesterday afternoon caused heavy loss to growing crops and peaches. Flat hail stones three or four inches in diameter stripped trees of limbs at Holton. At Gray, Ga., a peach section was severely damaged, and six tenths of an inch of rain and hail fell in a few minutes.

When you hear a man bragging about what a wonder his wife is, you may safely bet that she carries out the ashes.

SOCIAL CALENDAR

Friday—Chautauqua: Morning, children's hour; afternoon, lecture, Edwin W. Unangst; evening "Friendly Enemies."

Saturday—Chautauqua: Morning is children's hour; afternoon, Solis' Marimba Band and lecture; evening, Solis' Marimba Band.

Saturday—Easter Bazaar given by the Pipe Organ Club, all day at Dr. Tom Moore's Optical Parlor, opposite postoffice.

Saturday—Children's Story Hour will be held at Central Park at 4 p. m. Monday—St. Agnes Guild will meet with Mrs. J. B. Coleman at her apartment in the Wolaka.

T. H. Williams of Jacksonville was in the city yesterday transacting business.

Mrs. Ed. Lane left Tuesday for Jacksonville where she is visiting her sister.

Mrs. Sherwood Harvard was called to Tampa Tuesday by the death of her sister.

C. W. Gary of Clearwater, Fla., stopped over in Sanford yesterday en route to northern points.

Harry Ferran of Eustis was the guest of his sister, Mrs. D. L. Thrasher, yesterday.

Miss Anne Hawkins is spending this week in Oviedo the guest of Mrs. B. G. Smith.

A. S. Smith of Ashland, N. H., is spending a few days here at the Montezuma.

Dr. J. N. Tolar has returned from Memphis, Tenn., where he has been taking treatments.

Dick Waring of Charleston, S. C., is the guest of his uncle and aunt, Mr. and Mrs. T. L. Dumas.

The many friends of Mrs. L. R. Phillips will regret to learn that she is quite ill at her home on Park avenue.

Mr. and Mrs. C. C. Chatwick of Red Bank, N. J., were among the recent arrivals and stopped at the Montezuma.

Mr. and Mrs. H. E. Fowe of Middleboro, Mass., arrived here yesterday for a short stay and are stopping at the Montezuma.

Mr. and Mrs. D. L. Thrasher have as their house guests the latter's parents, Mr. and Mrs. E. L. Ferran of Eustis.

A. E. Crandall of Pittsburgh, Pa., who has been spending the winter here as the guest of Mr. and Mrs. J. S. Wilson, left yesterday for his home. Mr. Crandall is very much in love with Sanford and has been spending the past four winters here.

Mrs. S. G. Messer has returned from Sistersville, W. Va., where she spent the past three weeks on business, and has taken one of the Lee apartments. She was accompanied home by Miss Glenna Locke who will be her guest for several months.

Mr. and Mrs. Wm. Ravanel of Charleston, S. C., arrived here last week and are pleasantly located at the home of Mrs. J. C. Bennett. Mr. Ravanel is manager of the Pre-Cooling plant.

FOR BRIDE ELECT.

Miss Allie Gillen will entertain at a miscellaneous shower Monday afternoon from 4 to 6 o'clock at her home on Palmetto avenue, complimenting Miss Gladys Bryan, a bride elect of this month.

LUCKY THIRTEEN BRIDGE CLUB.

A very pretty affair of yesterday afternoon was the bridge party given by Mrs. M. S. Wiggins at her home on Elm avenue, the guests including the members of the Lucky Thirteen Club.

Red, yellow and white were the colors used both in the decorations and details of this pretty party. Quantities of red lilies, snap dragons and calendulas were effectively used in the rooms where the card tables were placed.

Top score in the interesting game of bridge was made by Mrs. D. P. Drummond, who was awarded a gold and white honey jar.

Refreshments consisting of a salad course followed by an ice course were served at the conclusion of the card game.

Mrs. George Weiland substituted for an absent club member. The club members who enjoyed the cordial hospitality of this charming hostess were Mesdames D. P. Drummond, B. L. Perkins, David Caldwell, Hal Wight, Charles Britt, Claude Howard, F. E. Roumillat and A. B. Wallace.

FLORIDA JUDGE WILL NOT BE NAMED; BILL FAILS TO PASS

WASHINGTON, April 6.—An agreement was made by the senate yesterday to vote finally next Friday on the bill to create a score more of federal judges. This was followed by the defeat on a tie vote of an amendment offered by Senator Fletcher, democrat, Florida, to authorize an additional judge for the Southern Florida District.

Discussion yesterday was principally on the Fletcher amendment, which was lost 29 to 29. Senator Fletcher announced, however, that he would renew his amendment later. Eight republicans joined democrats in supporting the Fletcher amendment. The opposition consisted entirely of republicans, except Senator King, democrat, Utah.

Senators Fletcher and Trammell, of Florida, both urged the senate to authorize the additional Florida judge, declaring that business in South Florida warranted another one. Chairman Nelson, of the judiciary committee, and Senator Cummins spoke against the Fletcher amendment, Senator Nelson declaring that the judge for the Northern Florida district spent most of his time assisting federal judges in New York. Senator Nelson suggested that the two Florida districts be combined, to make both judges "at large" or that the state's population and business be reapportioned.

TRANSATLANTIC FLYERS WILL RESUME JOURNEY ON APRIL ELEVENTH

LISBON, April 6.—Associated advices from Cape Verde Islands say the Portuguese trans-Atlantic flyers will resume their flight to Brazil at 5 p. m. April 11th. They expect to arrive at Fernando Noronha, off Brazilian coast at 11 o'clock the next day, covering 1,300 miles, the most difficult leg of the flight. Yesterday's flight from the Canary Islands to Cape Verde, 816 miles, averaged 92 miles an hour.

INFORMATION ABOUT THE ROADS TO NORTH AND THE EAST

M. M. Smith, president of the Florida Automobile Association, has received the following telegraphic information regarding the best routes east and north.

Macon, Ga., April 3.—"Roads improved on account of dry weather. Better by Chattanooga and Nashville than by Huntsville."—Macon Chamber of Commerce.

Augusta, Ga., April 3.—"Best route from Augusta to Washington is by way of Columbia, Camden and Charlotte. Heavy rains recently, and the roads are heavy but considerably improved during the last few days and entirely passable."—H. A. Wheeling, Secretary Chamber of Commerce.

Charlotte, N. C., April 3.—"Route north Concord, Albemarle, Troy, Sanford, Cary, Durham, Oxford, Clarksville, Petersburg, Richmond."—Charlotte Automobile Trade Association.

Chattanooga, Tenn., April 3.—"Road Atlanta, Chattanooga, Nashville to Cincinnati, Cleveland, Detroit in very good shape. This route shorter but not so good as through Carolina."—Chattanooga Automobile Club.

On March 30 he received the following wire from Jacksonville:

"Waycross road is in good shape. Upon leaving Jacksonville there is a detour from the King's Highway poorly marked on Myrtle avenue. Look out for this. Road to Waycross is all good except six miles heavy sand 18 to 12 miles from Waycross. Upon leaving Waycross go via Millwood and Axom to Douglass, thence Dixie Highway to Fitzgerald, thence via Rochelle and Findlay to Hawkinsville, and thence Dixie Highway to Atlanta. There is not a mudhole on the entire route and very fast speed can be made over it, Jacksonville to Atlanta."

Parties going out of the state and not desiring to go to Jacksonville, will find road number 2, through Eustis, Leesburg, Ocala, Gainesville, High Springs, Lake City, White Springs, Jasper, to connect with Georgia state road number 7, through Valdosta to Macon, in good travelable condition. Mr. Smith will thank tourists for any information which they may obtain of value to the traveling public.

FORD COMES TO AID OF WAR VETERANS

DETROIT, Mich., April 6.—Edsel Ford, president of the Ford Motor Company, yesterday notified veterans of foreign wars that he would employ 200 men daily from the veterans' bureau for an indefinite period. Only men who have resided in Detroit six months or more will be employed, it was made clear.

In his announcement Mr. Ford is said to have made it clear destitute men given positions would be paid their wages in advance until such time as they were in improved financial circumstances.

THREE KILL MAN FOR \$5.40.

CHICAGO, April 6.—Three youths who shot and killed a man to obtain \$5.40 were being sought by the police. The victim was Jacob Marcus, a junk dealer, who was lured into a basement under the pretense of completing a sale. He was shot while resisting efforts to rob him.

THE WEATHER

For Florida: Generally fair tonight and Friday.

ROAD MEETING AT DAYTONA TO PLEAD FOR RECOGNITION

Members of the state road department have been invited to attend the meeting of the East Coast and South Florida Good Roads Association at Daytona April 7-8, according to a letter which has been sent out over this section of the state by R. W. Pearman, Jr., secretary of the Sanford Chamber of Commerce and temporary secretary of the new association.

The Daytona meeting will take up the road discussions where the St. Augustine meeting, held March 29-30, left off, beginning by devising means to obtain what is characterized more equal distribution of state and federal aid funds. Mr. Pearman and other men interested in the association charge that unless the road department's program for road building is nullified there will be no funds left for maintenance and building of new roads in central and east Florida.

Members of the state road department have been invited to attend other meetings of a similar nature but heretofore have failed to lend the influence and enlightenment of their presence to the deliberations of the boosters of state road number 2 and other highways considered of the utmost importance in south, east and central Florida.

The State Press Association, which meets in Daytona on the same date as the road meeting, will be invited to attend the discussions. A large delegation is expected to attend the meeting from Orlando.—Orlando Sentinel.

We can't hope for the peace that passeth understanding until we make a peace that will pass the senate.

SANFORD CASH GROCERY MOVES INTO NEW QUARTERS

The Sanford Cash Grocery will be located in new quarters Saturday, having moved from the store in the old Phillips corner to the store next to L. P. McCullers Grocery in the Rand building. The Sanford Cash Grocery has had a phenomenal business since the opening of the cash concern in this city and much of the credit is due to the able manager, O. P. Stenstrom whose customary good nature and attention to his customers has brought the Cash Grocery the business. Not a little of the success of the business of course has come through the low prices made possible by the cash and carry system of selling groceries that gives the customers the benefit of the savings in additional clerk hire and the delivery of the goods. The Sanford Cash Grocery has made a fine reputation in this city in their old stand and expect to do twice as much in the new location where everything has been added to the store room to give the people the best of service at all times. The Sanford Cash Grocery makes a specialty of giving the people the best grades of groceries at living prices and Mr. Stenstrom gives the people service in every department of the store at all times. He invites all his old customers and all the new ones to come and see him in the new stand next to McCullers the opening day to be Saturday at which time he will have some special prices in groceries that will surprise the public. The cash and carry plan is the way to buy your groceries if you have the means of delivering them and the Sanford Cash Grocery is the place to buy groceries that are of the standard grades and guaranteed to be fresh and good at all times.—Adv.

LUMBER SURE TO INCREASE SAYS RAMSEY, BOOST MAY BE 20 PERCENT SAYS DEALER

(Continued from page 3)

at the present time. Taken as a whole the last month was exceedingly good, it is claimed, and with lumber at low ebb it is but natural that those who are thinking of building are going to make arrangements for that material before it advances and which it is going to do from all reports. Now for a "Greater Tampa."

J. W. Shaffer, cement contractor, said in reference to building this year: "I have plenty of work on hand. I predict a big year in the building line. On the other hand buildings that are going to be constructed this year are going to be better and larger," he said.

His father, E. F. Shaffer, one of the largest roofing contractors of Columbus, Ohio, who has been in Tampa for several months, said: "I have made up my mind to spend the rest of the winters in Tampa. It is my first trip to Tampa and I want to say that I was surprised when I looked the city over," he said.

"I make the assertion that Tampa is going to be one of the coming cities of this country and the best city in the south before many years."

If you want to save the world, don't take to the pulpit, but go Home.

If you want to reform society, don't mount the soap box, go Home. No movement will move unless it starts in the Home.

No reform will reform unless it originates there. No law will stand unless it is favored there.

No religion will prosper that is not usable there.

No education is of much account that does not include the Home.

The real of either politics or economics is not the man but the Home. Build a Home in Tampa. Make it a "Greater Tampa."—Tampa Times.

COUNTY BOND ELECTION, TUESDAY, APRIL 11TH. VOTE YES. 8-5td and 1t-w

LONGWOOD

Mr. and Mrs. E. E. Hardy entertained the people of Maine who are spending the winter in Longwood at their beautiful winter home in South Longwood on the evening of March 28th. This occasion was also a farewell party to four of the party who left the next day for Maine. The veranda was decorated with pink and blue crepe paper roping and lights covered with pink paper, also beautiful flowers were everywhere. The tables were spread with dainty pink and blue favors at each place. A most delicious lunch of strawberry ice cream and cake was served. After this F. H. Ranger with a few well chosen words presented Mr. and Mrs. E. E. Hardy with a water set and a hand painted vase made in Florida. Although taken by surprise both responded feelingly. Thus closed a very enjoyable evening. Those present were Mr. and Mrs. Frank Noyes and son Carlton, Waterville, Me.; Mr. and Mrs. George Smith, Mrs. Myra Farrington, Walnut Hill, Me.; Mr. Henry Judkins, Chesterville, Me.; Mr. Will Woodcock, formerly of East Wilton, Me.; Mrs. Hight, Hoells, Me.; Mr. and Mrs. Will Greene, formerly of Wilton, Me., now of Pennsylvania; Mr. and Mrs. F. H. Ranger and son Ralph, Dryden, Me.; J. H. Ranger, East Wilton, besides the host and hostess.

C. H. Corn and Miss Ruth left for their home in Franklin, Tenn., after spending two months in their winter home in West Longwood.

Mr. and Mrs. Edwin Dinkel motored to Daytona Beach Sunday.

Mrs. FRAIN and daughter, Fern, spent the week end in Orlando with relatives.

Mr. Smally and Mr. Tyler, who have been spending the winters here for the past few years, left Thursday for their homes in Connecticut.

Among some of those taking in the Water Carnival were C. H. Corn, Miss Ruth Corn, Miss Olive Dinkel, Mr. and Mrs. J. S. Dinkel Mr. and Mrs. Edwin Dinkel.

Mr. and Mrs. Wilkinson and little daughter have returned to Sanford to make their home, after spending the winter with Mrs. Wilkinson's parents, Mr. and Mrs. Bill Allen.

Dr. Kerr Boyce Tupper will preach at the Baptist church Sunday evening at 8 o'clock.

The Longwood Civic League held their regular monthly meeting Tuesday, April 4th.

Mr. and Mrs. Rankin of Wagner have moved into the house formerly occupied by the Parrish family.

THE FEMALE OF THE SPECIES—DEADLY! AH!!

Anyone laboring under the impression that the life of a motion picture star is one of luxury and ease need only put themselves into the dainty boots of Mary Pickford, America's Sweetheart, for a few days during the filming of her latest United Artists production, "The Love Light" which will be at the Star Theatre Friday and Saturday. And if the World's Sweetheart's dainty foot gear doesn't fit, let them try the sturdy boots of her director, Frances Marion.

When Miss Pickford announced to her organization that she had secured Miss Marion as director and that the two of them would make a picture, the masculine portion of her staff smiled a satisfied and contented smile, and murmured among themselves that things couldn't be much softer and there was no doubt that the robust males would soon exhaust the opposite sex and probably about 3 o'clock in the afternoon the fair director and star would be taken home in a comatose condition caused by extreme fatigue, thus enabling them to spend what they termed, a perfect day.

RELEASE BUS DRIVER.

NEW YORK, April 6.—David Zakkan, bus driver, who was arrested on a manslaughter charge in connection with the death of Robert B. Roosevelt, Jr., was released in \$5,000 bond, pending further examination. Roosevelt, a second cousin of the late Theodore Roosevelt, was found unconscious in Columbus avenue Friday night, after being struck by an automobile. He died Saturday.

IS UNDER SPELL

"Little People" Have Sway Over Stream in Ireland.

Waterway in County Fermanagh Avoided by the Dwellers Near It Because of Old Superstition.

Up in County Fermanagh in the northern part of the Emerald Isle, there is a dark, deep, silent stream, which winds its way some 15 miles or more through a picturesque country. It is called the Sbeelias, or the Stream of the Fairies, and there are many tales and legends told concerning it. It rises near the little village of Derrygonnelly, its source being a small lake called Bunahoge. Its course lies between the picturesque mountains of Ho and a beautiful level country on its other bank called the Golden plain. The wild sedge grows down to its very waters, and above it the curlew sends out his eerie call in the hush of the evening. But beautiful as the stream may look to visitors, it is shunned by the country folks who live in its vicinity. Tradition says that at one time the little fairy people placed a curse upon it and from that time on death and disaster have come out of its treacherous waters many times. There are few who care to wade along its banks for in the minds of all who know there always lingers the old saying that has been handed down from sire to son for many years:

Bad shall it be for fish and fishing Good shall it be for drowning. Always unlucky shall it be to meddle with.

There is a strange peculiarity about the river, and that is that it runs in an apparently uphill course. The legend that accounts for this freak of nature is as follows: One day Saint Faber was flowing from her vicinities along the river bank. In her haste she dropped one of her precious books in the water. Deeply grieved over her loss, she raised her staff over her stream, and instantly the waters turned backwards in their course, and her precious book was restored to her.

Time and again various attempts have been made to drain this treacherous stream, which very often overflows its banks and does considerable damage to the farmers in the vicinity. But always, disaster and death have followed those who have meddled with the stream. At the last attempt made such a series of accidents and deaths befell those who undertook the project that it probably will be a long time before the thing is brought up again. Even those who are most injured by the stream's vagaries, the farmers whose lands are so often flooded, will now have nothing to do with the draining of the Sbeelias, preferring financial loss rather than incurring the enmity of the Little People.

And so today the Stream of the Fairies pursues its crooked, treacherous course, at places shining like a dazzling silver ribbon in the sunshine, at other parts lying in deep, dark, treacherous pools, waiting for an unwary one whose feet might step beyond the rank sedge that lines its banks. And tradition has it that very often under cover of the night the Little People dance for joy upon its dark, mystic waters, rejoicing in the fact that the stream has kept its faith with them.—Kansas City Star.

Postal Air Service.

More than 10,000,000 letters were carried by the post office air mail service in the third quarter of 1921. Assistant Postmaster General Shaughtnessy told the members of the Society of Automotive Engineers at one of its recent meetings on commercial aviation. During that period the air mail carriers covered 291,000 miles, 97 per cent of these scheduled trips were completed on time and all of the regular trips were made without injuries. The cost of operation, which was \$8 per ton mile in 1920, was reduced in 1921 to \$6 per ton mile, and with the improved design of machine now being put in use by the Post Office department, the cost for the coming year is expected to be reduced to \$2.60.

To Teach Hawaiian Youth.

Alarmed at the trend of the youth of Hawaii away from agriculture and other productive pursuits and into non-productive clerical work, the American Legion, department of Hawaii, is initiating a territory-wide movement looking toward the establishment in all schools of industrial, agricultural and manual training.

Statistics for the past few years show that a heavy majority of the boys and girls attending the territorial public schools, particularly those of Hawaiian and Oriental blood, are taking up so-called commercial courses, fitting them only for clerical work.

Literary Tidbits.

From a British book—"She was a good cook, an excellent go—and as cooks go she went."

One noticeable thing about our fiction characters is that they don't spend much time earning a living.

No Roger, "The Triumph of the Egg," though it is a story, does not relate how the egg reached its peculiar eminence.

From Princess Blaesens' book, "I Have Only Myself to Blame," we call this literary flower: "When he was with her now he stammered, he didn't know that a stammerer is the divine eloquence of love."

SAGE TEA DANDY TO DARKEN HAIR

IT'S GRANDMOTHER'S RECIPE TO BRING BACK COLOR AND LUSTRE TO HAIR

You can turn gray, faded hair beautifully dark and lustrous almost overnight if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this old famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well-known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound tonight and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.—Adv.

MATT MOORE A DOCTOR!

When Cosmopolitan Productions was filming "Back Pay" a new Paramount picture the company engaged upon it went to Delaware Gap, Pa., where several country scenes were photographed.

Matt Moore, who plays the leading man's part, was assigned to a physician's room in the hotel, the doctor being out of town. He was awakened late one night and urged to attend a boy suffering from an attack of cramps.

Mr. Moore, who knows something about first aid, dressed, looked over the bottles on the doctor's shelves, and went to the boy's home. Mr. Moore administered to little Jimmie and soon had him comfortable. As soon as he could smile, Jimmie gazed at the actor and said, grinning: "You are fine in 'The Passionate Pilgrim,' but I like you better as a doctor."

"Back Pay," the story of a country girl's struggles, against self, in New York, will be seen at the Star Theatre tonight. Seena Owen plays the leading feminine role opposite Mr. Moore.

MINISTER DRAWS FINE FOR "WHITE SLAVERY"

NEWARK, N. J., April 6.—The Rev. Cornelius Densel, former pastor of the New Netherlands Reformed Church of Passaic, was fined \$500 Tuesday after pleading guilty to violation of the Mann act. Federal Judge Lynch said the clergyman had suffered enough so he would not send him to jail.

The minister left his family and his flock in the fall of 1920 and went to Buffalo with Trina Hanneburg, a member of the congregation. They returned a few months later.

Then the parents of the girl sued him for \$20,000 and he sold his home to settle the suit. He was relieved of his clerical post, but it was testified in court today that many of his old congregation now attend services which he conducts at his residence.

Daily Fashion Hint

FOLLOWS A FASHIONABLE LINE

The drop shoulder, one of the most fashionable lines of the season, is followed in the development of this silk serge frock. The lengthened skirt and embroidery border on sleeves and skirt are other notes that appear in the latest word of fashion. The short kimono sleeves are lengthened with one-piece flowing sections, and a casing adjusted at the waist-line, through which an elastic is inserted, makes it possible to regulate the fullness to suit the wearer's fancy. Medium size requires 3 1/2 yards 34-inch material. Pictorial Review Dress No. 9731. Sizes, 34 to 42 inches bust and 14 to 20 years. Price, 35 cents. Embroidery No. 12505. Transfer, blue or yellow, 25 cents.

PULVER RE-NAMED MAYOR OF ST. PETER

ST. PETERSBURG, Fla., April 5.—Frank Fortune Pulver, multimillionaire mayor of this city, who recently declared himself in favor of the one-piece bathing suit and the "sea vamps" who wore them, even if his stand cost him his office, was re-elected by a majority of 584 votes yesterday, winning over Dr. George Fitch and Noel Mitchell, who was recalled several months ago. A total of 2,951 votes were cast.

C. R. Carter and Mrs. John J. Burnside, and R. S. Pearce were re-elected city commissioners.

LAKE MONROE

The prolonged drouth is effecting the crops considerably in this section. The plants are growing slowly and the most of the pepper is filled with aphids. Farmers are fearful that the crop will produce only about a half yield. Mrs. Mann and son Bartow Mann, who have their crop contracted for the season, will begin to pick pepper the last of this week. At present they have a beautiful field of about ten acres of fine plants. George Cain, Ben Lake, Wm. Roe, Mr. Murphy and a few other earlier planters will begin to ship very soon.

Quite an attractive little playlet "The Health Fairies" was staged at Monroe under the auspices of Mrs. Ora Layton, secretary of the Health Crusade in this section. Misses Dorothy Guebel, the fairies, were winsome, pretty and appealing and acted their parts very well. Miss Cole is also a talented musician and entertained with several selections upon the violin accompanied upon the piano by her mother, Mrs. Cole. Mrs. Layton also took part in a character sketch and introduced the evening performance by an instructive health story.

Miss Webster, who represents the "Drink More Milk" campaign also visited the school Wednesday and encouraged the children and community in the use of plenty of clean, wholesome milk. By picture and story she very interestingly showed the value of milk to the human system, thereby teaching a splendid health lesson. Miss Webster encouraged us to drink all the milk we could and that very thing we are doing already, but she forgot to tell us how we could get it to drink. That problem has confronted us with a ghastly stare ever since coming into the state. The price of milk is so staggering that even the bravest are balked, and some of us who hailed from the Blue Grass state and thought we could recognize a cow on sight have weakened considerably, for in our efforts to purchase a four-footed bovine the price asked was so appalling that we stood back astounded wondering if it really was a cow or some rare species, the only one of its kind now extinct upon the whole face of the earth.

Neighbors and friends surprised Mrs. F. E. Wainwright Tuesday evening the occasion being the celebration of Mrs. Wainwright's birthday. Quite a number of useful presents were received by the gracious hostess among them being canned fruit, linens, kitchen ware, dishes, etc. Two large birthday cakes were contributed, one a brown solid cake, the other a pink and white layer cake, prettily decorated. The table was spread in the yard and the many friends enjoyed the lovely refreshments and the evening very much and left wishing Mrs. Wainwright many happy returns of the day.

Mr. and Mrs. Dorcas and little daughter, Lucille, left for their home at Palmyra, Pa., Thursday morning in their car. Mr. and Mrs. Dorcas certainly were the true blue and they left many warm friends at this place. Lucille had attended school at this place for the past four months and was a lovely child in every sense and greatly beloved by her teacher and little schoolmates.

C. P. Rabun has moved from the Campbell place on First street to his own home near his father's place.

Mrs. H. C. Henge, of Jacksonville has returned after a visit to Mrs. R. T. Wynne.

returned after a visit to Mrs. shrdluu Mr. and Mrs. Duggins, of Crescent City, were guests of Mr. and Mrs. Ben Lake Tuesday.

T. E. Wainwright and son Joseph, who are employed at Chuluota, were at home Tuesday evening to attend the birthday party of Mrs. Wainwright. Spencer Wainwright, of Oviedo, also visited his mother, Mrs. T. E. Wainwright.

Bartow Mann, one of our hustling farmers, has purchased the ten acre farm of Mr. and Mrs. Dorcas. Mr. Miller now occupies the place but will give possession about the first of July.

BRING BANDSMAN HERE FOR TRIAL

Alfonso Pissani, 29, a member of Cola-Santo's band which recently completed an engagement here, will be returned to this city to stand trial for an alleged attack upon a young woman who resides in Orange county. It was announced yesterday by Sheriff Francis Karel.

Pissani, who is of Italian descent, is under arrest in New York and will be brought here by Deputy Sheriff P. M. Moseley. Sheriff Karel expects to leave today for Tallahassee to obtain requisition papers which will be forwarded to Governor Miller of New York.—Sentinel.

The Magic Carpet

You could sit on the fabled carpet of Bagdad and view the world. In the whisk of an eyelash it would carry you any place you wanted to go. All you had to do was wish.

Advertising is a sort of magic carpet. Read it and in the twinkling of an eye you can review the merchandise of the world, pictured and displayed for your benefit. You can pick up this paper and in fifteen minutes know what the different shops are offering in the way of fabrics, patterns, varieties and qualities of almost anything you want.

The advertisements introduce you to the latest styles—the newest comforts for the home—the best of the world's inventions. They tell you how to buy, where to buy and when to buy. They keep you posted on things necessary to feed and clothe you and your family and make you comfortable and happy.

Read the advertisements as a matter of education. Read them to keep abreast of progress.
