Sanford has a By-Product Worth \$3,000,000⁰⁰!

By-products often grow to rival the industry from which they spring. For instance, now that canning of citrus fruit and citrus juice is becoming a large industry, it has been discovered that the citrus peel removed in canning makes a splendid cattle feed.

Just as this feed is a by-product of citrus canning, Sanford business is a by-product of Sanford's agricultural interests. It was begun to serve our agriculture.

But it grew. Now, although this area's annual production of fruits and vegetables totals \$10,000,000—Sanford business is so extensive its payroll alone amounts to \$3,000,000.

As the world's markets open even wider to Sanford fruits and vegetables, Sanford business will become more extensive. And as both agriculture and business grow, the standards of living in Sanford will be even higher.

Another By-Product

Increasing population in the Sanford area has increased the number of our customers—permitting us to provide better and cheaper electrical service in every Sanford home.

Election Returns In Pennsylvania Give Hard Blow To CIO

PHILADELPHIA, May 18. (AP) — Democratic state committee candidates smashed a slate backed by labor leader John L. Lewis and Senator Joseph F. Guffey in Pennsylvania's primary and looked today for some avenue to peace in the bitter factional strife.

Returns from 6860 of the state's 8075 precincts assured victory to Gov. George H. Earle for the Democratic senatorial nomination and with 6911 precincts reported for governor. Pittsburgh's Charles Alvin Jones was assured of nomination.

Down before the committee-endorsed Jones, went Lieutenant Governor Thomas Kennedy. He was supported by Lewis, Guffey and the CIO—as was Mayor H. David Wilson of Philadelphia, who was overwhelmed by Gov. Earle.

Local Employers Attend Meet On Wage-Hour Bill

Speakers Tell About Effects Of Measure On Sanford Industry

Urging concerted action on the part of industrial leaders in Seminole County in demanding Florida senators vigorously to oppose the proposed legislation, the speakers urged action on the part of the Mississippi Advertising Planning Board and J. S. Farish, of the Associated Pine Association, declared that the passage of the bill will be a detriment to the South.

The speakers addressed a group of Seminole County industrialists representing nearly every industry in this county at a meeting held in the Chamber of Commerce building yesterday morning at 11:00 o'clock under the auspices of the Associated Industries of Florida. E. T. Lay, executive secretary of the organization, presided over the meeting.

Declaring that small, marginal industries of the county, particularly the South, would be the first to feel the evil effects of the proposed legislation, the speakers pointed out, F. F. Dutton, chairman of the local committee of the Associated Industries of Florida reported that it is safe to predict passage and enforcement of the bill would result in bankruptcy to thousands of small industries.

Missing Plane Found With 9 On Board Dead

Craft, Called World's Fastest Commercial Airliner, Is Located By Western Rancher

LOS ANGELES, May 18.—(AP) — The sheriff's office received a report today from a Man Canyon rancher that he had sighted the wreckage of the missing Lockheed plane and that all nine persons aboard were dead.

The crash was made by Walter Peterson 20 miles north of Sanford in a rugged area where a two-day search had been in progress. Five hundred men had unsuccessfully hunted in the Sierra Madre mountains less than 100 miles from here for the Lockheed plane that had been labeled the world's fastest commercial airliner. The 10,000 ship was on a regular flight but was being ferried to St. Paul via Las Vegas, Nev., to be delivered to Northwest Airlines.

Aerial search had been useless because the fog extended upward from the floor of the mountain canyons.

The pilot route over the Sierra Madre range was a short cut. Regular commercial flights skirt the edge, using a radio beam the entire distance.

The area in which the plane was first reported was the site of two transport crashes that killed 14 persons, within a 10-day period 14 months ago. Thirteen were killed near Saugus, Dec. 27, 1936, on United Air Lines' San Francisco Los Angeles run. Five persons, among them Martin Johnson, noted explorer, died at the crash of Western Air Express' transport Jan. 12, while enroute from Salt Lake City to Los Angeles.

Among the passengers on the missing plane are the two small children of Mr. and Mrs. Henry St. John, of St. Paul, Minn. Henry St. John, an engineer for NWA, had brought his family here while he oversaw final construction work on the transport. The children were Richard, 3 years, and Judith, 2 1/2 months.

Others aboard were Mrs. Carl Squire of North Hollywood, wife of a Lockheed executive, Lola Tobey, Lockheed stenographer; Miss Evelyn Dingle of St. Paul, NWA employe; Sid Wilby of Burbank, who was at the controls; and Fred Whittemore of St. Paul, the co-pilot.

Whittemore, vice president and operations manager for NWA, was to have accepted delivery of the plane at Las Vegas and taken the controls for the remainder of the flight to St. Paul.

The plane left union air terminal at 1:40 P. M. and was down in Las Vegas at 2:50 P. M. Monday. It was equipped with two-way radio communication and every known commercial aid to flying.

Matthews is Grateful For Voters' Support

Declaring that his campaign for re-nomination to the Railroad Commission was based on his record as a member of the important State Board, Eugene H. Matthews, in a letter to The Sanford Herald, expressed his appreciation to the voters of Seminole County for their support in the primary on May 3.

"I am profoundly grateful," he said, "for the splendid endorsement of my record and wish to express to you my sincere appreciation. You have expressed your confidence in me to carry on the work with which you have entrusted me, and you may be assured that I will continue to represent you faithfully and perform the duties of this office fairly and impartially."

"While there will be no contest for my place on the Railroad Commission in the second primary, my nearest opponent, Mr. Davis, having withdrawn from the race, yet to conform to the primary law my name will appear alone on the ballot and I will appreciate it if my friends will make an X after my name on May 24," he concluded.

ANTI-AIRCRAFT GUNS BARK BACK AT BOMBERS

Warrants Issued For Negro's Arrest In Osceola Attack

Willie Hunt, negro and his wife, Carrie, who attacked W. E. McLain, section foreman in the employ of the Atlantic Coast Line Railroad, Monday afternoon at Osceola, have been apprehended, Sheriff C. M. Hand said this morning.

The attack occurred when McLain went to the negro's house to get him to sign a time card so that the negro could get his money for work done on a job with the railroad which he had just quit following an argument. He was employed as a section hand with the railroad.

It was said that Hunt took the card and after reading it threw both cards at McLain, shouting the latter's name to his wife, holding him helpless while the Hunt woman hit McLain repeatedly over the head and face until help came.

Warrants were issued for Hunt and his wife, alleging aggravated assault. Hunt and his wife left Osceola immediately.

How to make Sanford a more progressive city was the subject of a talk delivered by C. E. McKee at the weekly luncheon of the Jaycees at the Vales Hotel yesterday.

The college chairman of the program, summarized McKee's views. McKee suggested that Sanford find time in more industries because he declared, it is not through more diversified industries that Sanford will prosper.

The college industries, McKee said, is not sufficient to make Sanford self-sustaining in the entire year.

Pointing out that he was not the only factor that would make Sanford a progressive city, McKee asserted that special attention must be paid to the fact that they must be ready to be successful that the city need all the money to establish a base.

Kiwansians Hear Safety Talk By George Rollins

Coast Line Official Criticizes Apathy Displayed By Public

Declaring that most of the publicity of material things such as food and property above personal safety, George Rollins, Joint Kiwanis speaker at the regular weekly luncheon at the Vales Hotel today, declared that the only solution when such a toll in lives is taken every year through accidents that could be avoided.

The only chance that many of us have today, Mr. Rollins asserted, pointing out that personal safety can be achieved through proper education of children and adults.

That a man will do everything in his power to protect his home by locking it and to keep sure that the windows are secure before going out and then will dash wildly through town crossing red lights and through streets endangering his person and that of those who may be with him was charged by Mr. Rollins as an error in human thought.

"It is our property of more value than our lives or those of our friends and other people," Mr. Rollins asked, adding that we could easily eliminate this state of affairs if we acted.

Pointing out that we don't expect those who drive across red lights or through intersections so we should, Mr. Rollins said, that it is our duty to do so if we have a car or fire to a house or building, he said, we would immediately report him. We should do the same when a man breaks a traffic law.

Pointing for R. J. Hilly, president and spoke on Annual Week, requesting the support and cooperation of Kiwanis.

Pennsylvania's Primary

Early returns from Pennsylvania seem to indicate that the candidates backed by the regular state Democratic committee are destined to be nominees for U. S. Senate and governor of the state.

Gov. Earle has frequently been mentioned as a possible Democratic nominee for the presidency in 1940, and though the campaign brought out the fact that he had accepted a \$30,000 loan from a Philadelphia contractor who was getting millions of dollars worth of business from the state, the election results would seem to show that such charges are unimportant, and the Earle star glows brighter.

Taxed To Death

Anyone who has tried to maintain a payroll and pay his taxes during the past few years will sympathize with H. H. Henderson, meat market operator of Little River, Fla. Not having the \$282 which he owed the State under the gross receipts tax law, he handed his keys to the sheriff and told him to take over his business.

IN THE MILLENNIUM you will get waited on in a hardware store within ten minutes of your entry; drug-stores will use enough ink on cash-register soda-fountain checks so that purchasers can read them; linen shops will not have Must-Vacate Sales; taxi drivers will have change for a great big one-dollar bill; restaurants will know enough to advertise No Music, No Radio, No Other Entertainment; the municipal subway will equip stations with enough signs to tell a first-time passenger what to do;

Lookouts Lose Narrow 6 To 5 Decision To Islanders

Locals Score 5 Runs In 7th To Lead By 5 To 3

Daytona Beach Nine Makes 3 Runs In Eighth To Cinch One-Point Win; Pinder Allows 8 Hits, Fans 10

By JULIAN STENSTROM

Although scoring five runs in a big seventh inning to take a two-run lead over their opponents, the Lookouts dropped their fifth straight contest to the Daytona Beach Islanders who rallied in the eighth frame to clinch a 6 to 5 victory over the Rodgers' men.

Joe Pinder was on the hill for the Lookouts and went the entire distance. It was no doubt his best performance of the year as he forced 10 of the Isles down via the strikeroth route. However, Pinder issued six free passes to the Island batsmen.

The Lookouts faced Bill Schroba, left fist ball hurler, and they nicked him for a total of 12 hits while eight scattered blows were recorded by the 'P's off Pinder. Schroba walked four of the lookouts and fanned an even half dozen.

Leading the hitting for the night was Win Brown who sent out three bloss in five trips to the platter. Second honors went to Pete Mihale, Joe Pinder and Lee Clark, who were credited with two bingles each. Sanders and Turecki of the visitors each connected with two hits, Sanders two in three attempts and Turecki with two in four tries.

The Lookouts spotted the Isles' a run in the initial frame when McNeese walked and took second on Sanders' single to right and he scored when Neidson made an infield out.

The Islanders got another in the 2nd half of the third when McNeese walked and took third on Wozniak's single to right and scored when Neidson singled to center.

The visitors got their third tally in the fifth when Turecki singled and took third when Day singled to deep rightfield. He scored when Day lifted a 1-2 fly to Clark in centerfield.

The Lookouts gave the fans their money's worth in their portion of the rocky seventh as they scored five runs. With one out, Carlock walked and Clark singled to short rightfield advancing Carlock to second. Watts singled to right sending Clark to second and Carlock to third. Pinder grounded to Schroba who threw to second to nab Watts. Pinder was safe on first. Ruggiero worked Schroba for a walk to fill the sacks and they were emptied when Brown shot out a stinging long single to right center. Clark, Pinder and Ruggiero scored on the play. Mihale singled to right to score Brown.

The Isles came right back with three runs in the eighth to capture the tilt when Sanders singled and scored on Neidson's double. Neidson went to third when Steffina made an infield out. Turecki tripled to right to score Neidson and Day's single scored Turecki.

Daladier Says Nation Will Defend Frontiers Against All Acts Of Violence

British Hopes For 4-Power Accord Fade In Face Of Friction

Premier Edouard Daladier declared today France would defend her frontiers against all attempts at violence...

Daladier said, "France will persist in proving her close union, her calm self-possession. She can do it because she is strong."

Indirectly the Premier threw the blame for the impasse in friendship talks on Italy. His declaration came as Italian efforts to break up France's alliance with Soviet Russia and attempt to gain recognition of the Spanish civil war which was mired by rain.

British hopes for a four-power accord were endangered by the Franco-Italian friction.

Prime Minister Neville Chamberlain of Britain has made the appointment of Germany one of the main points of his "realistic foreign policy."

But even Britain's partnership with France and France's attempts to make a bargain with Italy were threatened by French sympathy for the Barcelona government and the French mutual assistance pact with Soviet Russia.

In the western hemisphere Mexico's President, Cardenas sought to put down the possibility of an internal revolt similar to Spain's by demanding that General Saturnino Cedillo, free lance strong man, surrender his arms and the peasant army to the government.

In China, the important rail junction of Suchow was burning fiercely as Japanese fought the "war to die" Chinese units in attempting to complete occupation of the city.

Holtzclaw To Give Another Program At Local Theater

Richard Holtzclaw, whose rendition of several popular ballads at the Ritz Theatre last night, met with enthusiastic response from the audience, will appear again tonight as an added attraction on the popular program which includes the film, "Women Are Like That," starring Kay Francis and Pat O'Brien.

Mr. Holtzclaw, who has made an outstanding success of a singing career which has won acclaim from famous critics, is making his first public appearance in Sanford as a singer since he scaled the heights of fame.

Mr. Holtzclaw is a Sanford man, a former student of Seminole High School and Louisiana State University, and is the son of Mrs. Emma Holtzclaw of 215 Elm Avenue. Press notices of his performance in Atlanta and New Orleans and other large cities have been extremely laudatory in character and it is generally understood that his career should be most successful at the Metropolitan Opera Company.

Visiting Yachtsman Says Canal To East Coast Will Benefit Sanford Section

To make a vacation cruise on Florida's rivers and lakes is the lifetime desire of many northerners yet Dr. and Mrs. F. F. Read of Baltimore, Md., are now in Florida on their fourth such trip. In an interview this morning at the foot of the Municipal Pier where their 44-foot power boat is now docked, Dr. Read and his wife declared that they are not even going to make the trip north this summer, having decided to stay through the summer.

Several days ago they docked at the pier for a short visit in Sanford and three days ago they left for a trip up the river. They went as far as the bridge this side of Lake Harney, Dr. Read said, adding that the water was very low and that his boat which draws a draft of three and one-fourth feet frequently scraped bottom but was never in serious difficulty. The water the other side of Lake Jessup was appreciably lower than that on this side, he said.

On the return trip, Dr. Read declared, the water seemed to have fallen even lower than giving evidence to reports that the river is dangerously low.

Without being asked Dr. and Mrs. Read broached the subject of a canal from here to Indian River. Both were certain that such a canal would be of great value, especially to those who might undertake to come from the north to Sanford from New Smyrna.

They declared that to reach Sanford from New Smyrna they had to follow the coastal canal to Jacksonville and then down the St. Johns. Both agreed that such a canal would have great possibilities in attracting tourists who travel by boat.

Earlier the couple visited Key West where they spent two months and later Dry Tortugas where they stayed one week. Dr. Read declared that "it was not his provisions we'd have to eat all summer."

It and Mrs. Read are having tonight in their boat, the "Star Line S", for a trip up the Wekiva River. They said they hope to visit Silver Springs later if they can make it in their boat.

SEATTLE, May 15.—(AP)—Klynn Gibson, 27, former Army flier and newspaper man, told reporters today his account of the Orient that Japanese agents police constantly had threatened him with death for his activities as a flying instructor for China's air force.

Local Medical Group Hears Neal Tell Of Ensol Treatments

Outlining the development of Ensol as a treatment of cancer, Dr. T. A. Neal of Orlando cited local physicians at their regular monthly meeting of the Seminole County Medical Society Tuesday night.

Neal stated, developed a process for a serum which will attack cancer through developing a resistance. The Ensol treatment of cancer calls for a daily injection of the serum which causes the patient to feel very little reaction.

Dr. Neal exhibited a patient that had been newly cured after taking the treatment for two years and cited numerous other cases where patients had been treated with satisfactory results.

While advocating the continuation of present methods of treating the malady, namely surgery, radium and therapy, the Orlando specialist declared that the use of Ensol is a valuable adjunct in fighting the disease.

At their meeting the doctors made plans for a boat trip on the St. Johns River in place of their regular meeting.

Big Deficit Forecast For Next Fiscal Year

WASHINGTON, May 15.—(AP)—Informal officials tentatively forecast a \$4,400,000,000 federal deficit in the fiscal year beginning July 1, as a result of the huge spending-lending program now before Congress.

That would be slightly more than double the anticipated shortage for the current fiscal year, but would be below the deficits of 1934, 1936 and 1936. The peak peacetime deficit, swollen by bonus payments, was \$4,745,000,000 in the year ended June 30, 1935.
