

Chef Reveals Secret In Soup Making

By JANE EADS
WASHINGTON — The salt is not added until the last. That is the secret of the success of the bean soup in the Senate restaurant.

Paul C. Johnson, head waiter since 1900, is proud of that soup. It has won an international reputation.

During the war he passed around a printed recipe for the soup. It read like this:

"Help your Uncle Sammie to defend America by making that good Old Fashioned Bean soup for a squad of eight hungry persons, and here's how:

"Take three pounds of small navy pea beans that have been soaked overnight. Mash and run through hot water until the beans are white again.

"Put on the fire with four quarts of hot water; then take one and one-half pounds of smoked ham hocks, boil for two and one-half hours. Braise one onion, chopped in a little butter. When light brown, put in the bean soup.

"DO NOT ADD SALT UNTIL READY TO SERVE."

Paul, a thin Negro, a bit stooped-shouldered at 65, was brought to Washington Dec. 24, 1900, by Senator John Warwick Daniel of Virginia. His starting salary was \$3 a week.

"I got in on the ground floor and been there ever since," says Paul. Sure enough, the Senate restaurant is now the best food in the Capitol.

In peak times Paul is responsible for the serving of meals to some 900 people a day, including most of the senators.

"You have to be a diplomat and know how to handle folks," he says.

A cup of that "good old-fashioned navy bean soup" costs 15 cents; a plateful is 20 cents.

"Now, if you want the superior variety," says Paul, "you dice up a little ham—Smithfield ham, that is (if you can get it). You put this at the bottom of the dish, pour the soup over it and the essence will strike through." Paul says he doesn't carry the "superior" kind on the regular daily menu.

Paul is of the opinion that the new senators don't go in much for eating big meals.

Senator Taft of Ohio, often gets along with a piece of pie and a glass of milk for lunch. Sometimes he eats a steak. Paul says he "wouldn't say Senator Taft's a fussy man—just very conservative."

It's the night sessions that get Paul worried.

"When they call 'em unbeknowning to me, I sometimes have a hard time. The help's usually gone home and I have to get on the phone and call 'em back. Of course, we always have a good supply of food on hand."

One of the senators' favorite menus, fixed up for special lunch-

Q	R	S	T

At first glance the design above may appear to you to be just a nest of 12 squares. Actually, it contains 20 squares. For in addition to the obvious 12, there are larger squares such as ACIK, BDJL, EGMQ, EHQT, JLRT, etc.

These 20 squares are formed with just nine straight lines.

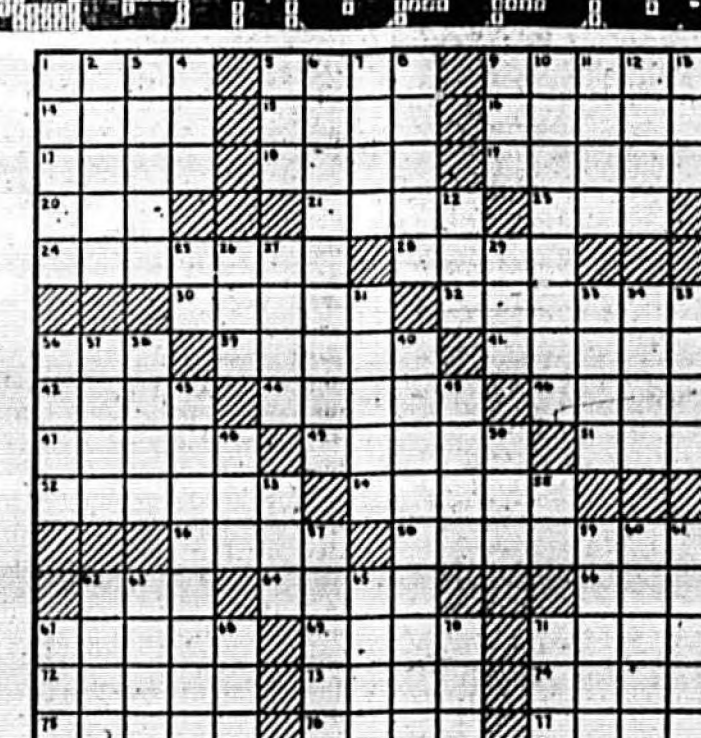

How many more straight lines would be needed to form a nest five times greater than this one, that is, a rectangular nest of 100 squares?

(The squares are formed by the lines shown in the diagram. The squares are formed by the lines shown in the diagram. The squares are formed by the lines shown in the diagram.)

By Eugene Sheffer

HORIZONTAL

- 1—In what month did the Israelites come out of Egypt? (Ex. 24:18)
- 2—Minor prophet of the old testament.
- 3—Who betrayed Jesus with a kiss? (Luke 22:48)
- 4—Plant of bean family.
- 5—For the harvest of the earth is (Rev. 14:15)
- 6—Growing out.
- 7—"The sluggard will not — by reason of the cold; therefore shall he beg in harvest, and have nothing" (Pr. 20:4)
- 8—"Unto me every — shall bow, every tongue shall swear" (Isa. 45:23)

Parents Should Let Teen-agers Think

By MRS. MARION L. FAEGRE (Written for AP Newsfeatures)

WASHINGTON — Does 15-year-old Bill give you a lot of lip? It's hard to take, I'll grant. We grown-ups are decidedly disgruntled at the idea of taking a back seat, of not always being the ones who are right.

For 15 years you've had the upper hand. If Bill didn't do what you said, you could lay down the law and hard. It's a little embarrassing to have him coming up now with ideas of his own. And plenty good ones, sometimes, you'll have to admit.

Even when you have a sneaking notion that maybe he's right, and that it is the carburetor instead of the points that is causing the trouble, you're tempted to raise your voice, and try to yell him into agreement with you.

"We're all in the same boat when our children reach middle adolescence. We've been so long in the habit of assuming our own superiority that it's mighty hard to admit anything different.

It's easy to forget that by 15 or 16 most boys and girls are as intelligent as they ever will be. They're usually our equals mentally — or maybe our superiors.

Don't let them have to fight every step of their way into man-

hood and womanhood—There's a natural clash in the 'teens, and a healthy one, between parents and their offspring.

Of course we feel their self-

confidence is a threat to our prestige. We glimpse a not too attractive future when we'll have to bow off the stage in their favor. But let's try not to widen the inevitable gap between the generations by small-minded sneers and disparagement.

Generosity always pays off. Maybe the color Betty wants for the new living room curtains is better than our choice. Perhaps John's stubborn insistence on going into aviation instead of law isn't stubbornness at all, but self-knowledge.

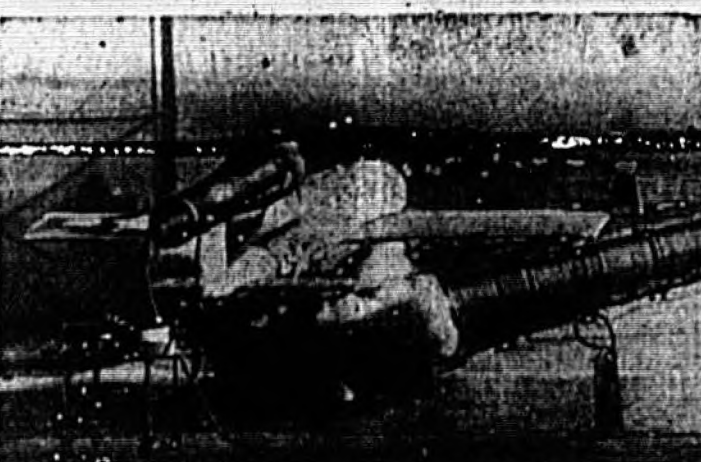

To have children who didn't stand up to us, and assert their own points of view, would make us suspicious in the long run of suspicious of their not having the guts to stand up to life.

Study has shown that "successful" high school boys and girls, who have leadership qualities, come from homes that are not restrictive in the degree of control they exercise.

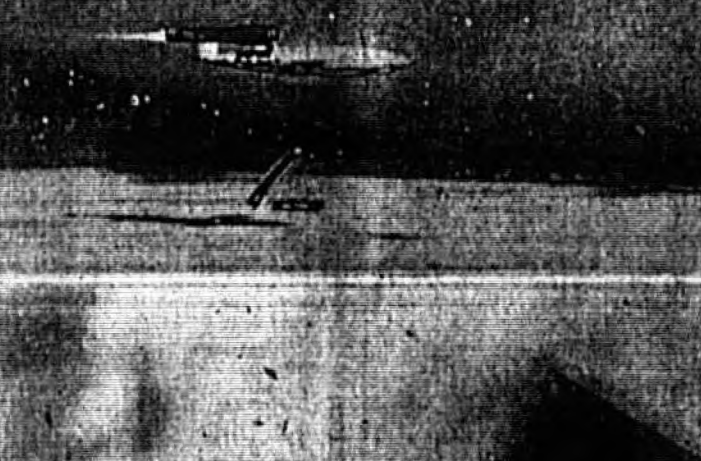

The parents of these children do not prevent them from developing the degree of independence so necessary to mental health and the "know-how" of getting along in social groups.

NEW DIRECTORS

JACKSONVILLE, May 7—New directors of the East Coast Highway Association are Roland E. Meyers, Jacksonville Hotel executive, and E. M. Becton of Vero Beach, Association President Chalmers D. Horne said that Becton replaces Robert Reich who resigned recently.

Do's and Don'ts For Women In Business

By BETTY CLARKE
AP Newsfeatures Beauty Editor

The girl who dashes off to work in the morning half-dressed is a sorry sight, indeed, especially to the boss.

Usually she arrives at the office out of breath and late, with her stockings seams twisted, unpolished shoes, a button missing here and there, and messy hair.

As long as she was late in the first place, she should have taken an additional 15 minutes or half hour to put herself in working order. With a planned routine in the morning she shouldn't take long to brush hair to a luster, sew seams and buttons if necessary and make-up skillfully enough to look unmade-up.

Every working girl should keep a compact kit full of beauty essentials in her office desk and another at home. You can find one of these pick-me-up career kits containing essential cream, soothing freshener, cream rouge, face powder, lipstick, eyeshadow, cotton, tissue and a good size mirror. These makeup aids kept in one spot will save precious time in the morning.

At your office desk, you might have an additional box containing a clean pair of hose, needles, thread, pins and shoe polish.

Additional ways to irritate the boss are:

1. Wearing chipped nail polish.
2. Bad breath.
3. Run-down heels.

4. Chewing gum.
5. Dousing yourself with perfume.
6. Wearing gaudy clothes.
7. Girdle snapping.
8. Slip showing.
9. Barelegs and upback dresses.
10. A high-pitched voice.

Of course, men being men, there are hundreds of things that may annoy them about women, but if these few annoying details listed are avoided, you can make fair progress in being a desirable employe.

Mrs. Davis Exponent Of Southern Charm

By JANE EADS

WASHINGTON—Get Mrs. James O. Davis, wife of the Democratic congressman from Georgia, on the subject of Georgia and you'll find yourself ending up with a warm invitation to go down for a visit on their De Kalb county estate.

Mrs. Davis is an outstanding exponent of southern hospitality. She's even writing a book, called "Light and Come In," which is what every good housewife calls for from the doorway when folks drive up in front.

Congressman Davis was a judge of the superior court for 14 years before he came to Washington with his wife and 11-year-old daughter, Mary Martin, last January.

Back home, the Davises live on a 140-acre farm, near Stone Mountain, 12 miles out of Atlanta. Davis' hobby is farming. He has a herd of registered Aberdeen Angus cows and has been interested for many years in raising the state-goats in the livestock industry.

Mrs. Davis grows prize gardenias, collects data on medicinal herbs, goes in for quilting.

Mrs. Davis majored in biology

at Wesleyan College at Macon, Ga., where she was graduated. Before her marriage she taught science in the public schools.

For some years she has been a member of the National Junior League of Atlanta.

plants of her native state and the uses to which they were put by the women of the Revolutionary and "War Between the States" eras. Some of the remedies are widely known. Some are still used.

Only recently the Davises called in the local doctor for a member of a farm family on their property with a sore throat. The doctor, though well schooled in the modern medicine, in this particular instance, prescribed the following:

"Go over into the woods. Cut off a bit of the bark on the south-

side of the red oak tree. Bring it back and steep it for five or 10 minutes over the fire in water. Strain. Gargle."

This produces tannic acid, an astringent used still by some mountain families.

I guess lots of us know about the springtime tea made from the pink roots of the saffron plant, but I never heard of the three different kinds of leaves the plant boasts . . . some shaped like mittens for the right hand, some shaped like mittens for the left, some just plain leaves.

Teas are also brewed from rose mint and scurvy grass, the latter used for spring colitis.

Mrs. Davis is deeply involved in all sorts of activities in the capital, is a member of the Congress-

sional Club and the 50th Congress Club and is writing a column for a weekly paper back home.

"I can't write a personal letter to all my correspondents, but I'm going on in the column," she says.

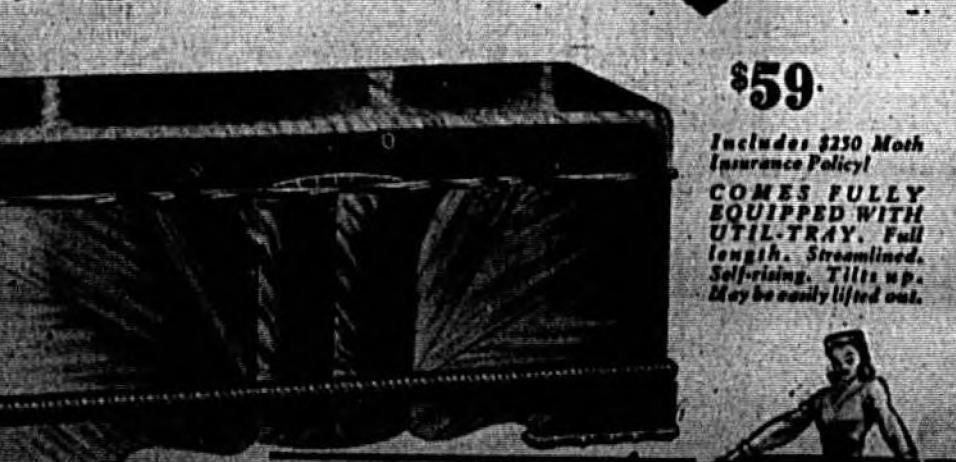

SHIP FIRE

SAN FRANCISCO, May 7—A small Swedish steamer, the Freja, is a victim of fire and water in San Francisco Bay. A fire was brought under control last night by fireboats after 28 crew members escaped. But thousands of tons of water poured by firefighters into the ship sent her to the bottom in shallow water in the bay.

Compromises Demanded By Union In South

Settlement In Long Lines Dispute Believed Sign Of End To Local Strikes

WASHINGTON—The Senate voted today in favor of a ban on union-controlled health and welfare funds and the involuntary check-off of union dues. Adoption of the bill came as an amendment to general labor legislation, and is regarded as a victory for Republican Senator Robert Taft. The vote was 48 to 19.

ATLANTA, May 8—Southern telephone union negotiations were resumed this morning, but observers said there was little likelihood that a settlement would be reached before the end of the week.

The talks centered on the wage question and union security.

Southern Bell Telephone officials and leaders of the Southern Federation of Telephone Workers indicated that some compromises would be necessary for a final agreement.

Meanwhile, the company reported that wires were cut early this morning on five long distance lines, but had since been repaired.

Meanwhile, government conciliators expressed confidence that the telephone strike will be completely at an end soon. The conciliators believe the settlement in the long lines dispute means that the remaining local strikes will be settled in short order.

An agreement was reached today to end the 31-day old strike of striking long distance telephone workers.

At 1:35 A. M. today, the labor department announced an agreement to settle the strike with an average wage boost of \$4.40 a month.

Four Missing As B-17 Crash Lands In Gulf Of Mexico

EGLEN FIELD, Fla., May 8—An Army B-17 crash landed in the Gulf of Mexico today with seven men aboard and one engine on fire.

Three members of the crew have been rescued but the other four are still missing.

Crash boats, helicopters and surface craft are searching for the missing men.

The big plane was on a routine training mission when it crashed into the Gulf five miles off shore from the fishing village of Dealin.

The commanding officer of Eglin Field, base for the plane, said five members of the crew of seven were seen to bail out, but only three have been picked up.

Shooting Of Senator Stems From Divorce

OKLAHOMA CITY, May 8—State Representative Jimmie Scott was booked today on a technical charge of assault with intent to kill after dumping a bullet into the Oklahoma Senate yesterday.

Scott told police the shooting stemmed from a recent divorce obtained from his wife in Holdenville, Okla. Anglin's law firm represented the woman. Scott insists that he fired only after Anglin allegedly threatened him and started to draw a gun. But Anglin denies that he threatened Scott or was even aware of any animosity between them.

BATTLE SHAPES UP

PEIPING, China, May 8—A big new battle was believed to be shaping up today in Manchuria, with the Communists said to be massing 80,000 troops for the attack. The objective is a railway town which was the scene of a major battle last year. It is on the railway running from the Manchurian capital of Changchun to the important city of Mukden.

VFW MEETING

Post 3223 of the Veterans of Foreign Wars will hold a supper meeting next Monday evening at 7:00 o'clock at the Eglin Hall in a large turnout is expected. Delegates will be invited to attend the State VFW meeting to be held in Sarasota during the middle of June. Plans for a dance will be discussed.

Bid Entered For Building At Airport To House Red Cross

The City Commission has entered a bid for the purpose of obtaining a building at the Municipal Airport to be used as headquarters of the Seminole County Chapter of the American Red Cross, it was reported by B. B. Cumley, chapter Housing Committee chairman, at the regular monthly meeting yesterday morning at the Chapter House which is temporarily located at the former hospital site on Oak Avenue.

Edwin Shunholser, Sanford attorney, presided for the first time as chapter chairman, and expressed appreciation for the co-operation and willingness of chapter officers, committee chairman and the board of directors in accepting appointment to serve during the coming year.

Miss Wallace Bell, chairman of

Volunteer Special Services, reported that there are 17 volunteers active, and a total of 581 hours served.

G. W. Morgan, chairman of the Disaster Relief, reported that he expects to complete organization of Disaster Relief committees for Seminole County soon. He commended J. Tilden Jacobs for his well-organized committees for Lake Monroe.

Herman E. Morris, chairman of Water Safety committee, stated that his program will be active during the summer months. As chairman of the Fund Drive he suggested how \$4,000 needed to complete the quota can be obtained.

State Legion Head

Frank H. Caton, Port Orange insurance man and recently elected Commander of the Department of Florida of the American Legion, yesterday visited State Legion headquarters here and was a guest at the KTWMA luncheon. Well known here as a magician and entertainer, Mr. Caton who achieved a fine record as senior vice commander, is taking his new responsibilities seriously, and has ceased entertaining, he said, for a period of one year.

Reports On Jap Defense Denied By MacArthur

TOKYO, May 8—General Douglas MacArthur today repudiated the widely-published reports that he told Emperor Hirohito that the United States would guarantee the defense of Japan.

Refuting the statements attributed to him "an absurdity," MacArthur issued a special statement in which he said the future defense of Japan will depend upon the provisions of the peace treaty when it is eventually written by the Allies.

The American defense guarantee story credited to MacArthur was widely circulated all over the world, outside of Japan, after Emperor Hirohito visited MacArthur on Tuesday, and was said to be based on reliable Japanese sources.

"If such statements have been (Continued on Page Three)

High Price Of Rice Causes Riots In China

SHANGHAI, May 8—The price of rice hit a new high in Shanghai today and rice riots broke out all over the city. Most food shops refused to open their doors. In one shop, police arrived just in time to prevent crowds from reaching the store's stocks of the food cereal.

Two hundred Chinese in another riot refused to take a proprietor's word that his stock was exhausted and made away with 12 bags. Today's price reached 30 United States dollars, for a 133-pound bag.

APPEAL REJECTED

WASHINGTON, May 8—The Supreme Court today rejected two last-minute attempts to save Willie Francis from going to the electric chair for a second time. Francis is scheduled to be executed in Louisiana tomorrow. On his first trip to the chair several months ago the mechanism failed.

MARGARET STARTS TOUR

PITTSBURGH, May 8—The President's daughter, Margaret Truman, will make her first concert stage appearance at Pittsburgh on May 30. Miss Truman's appearance will be the start of a singing tour from the East to Texas.

Accomplishments Of Jaycees Cited By W. V. Bitting

Co-Operation Urged In Membership Drive Starting On May 12

The accomplishments of the Junior Chamber of Commerce during 1946 were praised today by W. V. Bitting, president of the senior Chamber of Commerce when he said that it is only through the fine co-operation of organizations like the Jaycees that we are able to continue and expand our progressive state in Sanford.

He emphasized the importance of supporting all civic activities and of enlisting city-wide support of all worthwhile projects. Good membership is the essential factor for the success of any undertaking and the foundation of good fellowship is found in their weekly meetings, Bitting added.

Mr. Bitting urged all members to co-operate in making the coming membership drive a success. The Jaycees will launch their 1947 membership drive on May 12 with an evening of entertainment to be held at the Municipal Airport hangar. William Rolleston of St. Augustine, state president-elect will be one of the guest speakers in the occasion.

Lt. F. G. West, USNR (Continued on Page Three)

5 Trainmen Hurt In Philadelphia Wreck

PHILADELPHIA, May 8—Five trainmen were injured in a collision today on the Baltimore and Ohio freight tracks in southwest Philadelphia. A switch engine took an open switch and derailed a passenger locomotive and caboose on the next track.

The long engine and the caboose were knocked over on their sides, and the caboose caught fire. All the casualties were in this caboose and locomotive. The switch engine and one of the cars behind it were derailed, but the crew was not hurt.

According to the engineer of the switch locomotive, the accident was due to a switch left open by error.

Scientists Working On Hardier Tomatoes

BRADENTON, May 8—Scientists at the State's vegetable crops laboratory in Manatee are peering the end of an exhaustive breeding project which they hope will add millions of dollars to the pockets of Florida's tomato growers annually. It was revealed today.

The scientists are working on a strain of harder tomatoes. Dr. J. R. Beckenbach, horticulturist in charge of the laboratory, said he hoped within a year or two to have a strain which at least will equal present commercial type tomatoes in yield and taste, and also will have the advantage of being harder.

STUDENTS KILLED

NORTH HAVEN, Conn., May 8—Three Dartmouth College students were killed today in an automobile accident in Vermont. The students, all war veterans, were driving to New Jersey to meet girl friends for a weekend "prom."

Their car crashed head-on into a 18-ton truck. Police authorities identified the victims as Fred R. Lewis of Pittsfield, Mass., Charles E. Lewis of Camden, N. J., and John Lopez of Lond, N. J.

Battle Opens Over White Primary Bill

Caldwell Says State Faces Deficit Of \$15,000,000 From Okayed Measures

TALLAHASSEE, May 8—The Florida State Senate today voted 30 to 4 to kill a white primary bill. The legislation would have distorted the primaries from State control in a move to bar negroes from voting. The vote came after three hours of vigorous debate. Three other companion bills designed to assure white primaries were removed from the Florida Senate calendar after the vote.

TALLAHASSEE, May 8—The State Senate today chafed a vigorous defense of legislation designed to establish white primaries in the sunshine state in order to prevent Communist domination and bloc control.

TALLAHASSEE, May 8—The following bills introduced by Senator L. E. Boyle have become law without the Governor's signature; Seminole County zoning, relating to Seminole County judges, affecting Allamont Springs, ratifying Sanford ordinance, designating street in Sanford as State road.

TALLAHASSEE, May 8—The sponsors of white primary legislation in the Florida Senate today opened the battle for their bills before a packed chamber.

Senators Sanchez of Live Oak and Mathews of Jacksonville vigorously defended their proposals to establish white primaries by removing political parties from State control.

More than a score of negroes listened as Mathews declared: "Southern civilization, Southern ideals, Southern institutions are at stake."

Meanwhile, Governor Caldwell informed the Senate appropriations committee that the state faces a deficit of more than \$15,000,000 on the basis of appropriations already voted by either the House or Senate.

The governor pointed out that (Continued on Page Three)

Celery Yields Are Much Less Than For 1946

Celery yields at present are considerably below last year with prospects that they will become lighter, according to local growers. Large size golden is especially scarce. It is predicted among Sanford shippers that the more Sanford will not run much above 500 cars a week for the next two weeks, or about the same as last year.

Quality of celery from the Old do good lands is reported to be fine. Cutting will probably finish there during the last of the month, as will most districts east north Florida.

The sweet corn plantings, or rather replantings after frost and storms, will start to yield in about two weeks, and it is predicted will run from the middle of June to the end of August.

Most of this corn is Golden Bantam varieties, some is white corn.

Locally grown cabbage is reported to be of fine quality, but lot loads are leaving daily and will possibly continue another three weeks. Peppers are late, probably will yield about the 20th. Yield is only about 50 percent of normal. Shipment of tender green beans of good quality will continue for two weeks or more in light supply.

Supplies are light in yellow, also cocostella squash. There will be a few cucumbers by mid-month. Potatoes, however, were passed up this year in this section, and the few grown are poor in yield.

Runaway Car Backs Into Tampa Store

TAMPA, May 8—A Tampa druggist had an unexpected and unwanted customer last night when a runaway automobile came backwards across the street, and through the front of the store.

It tore out most of the store front, pinned several persons against counters, and left the store in a shambles before it reached the rear wall.

Marshall Meets 'Ax' Wielder

Secretary of State George C. Marshall confers with Sen. Carl Hatch (center) of the Foreign Relations Committee, and the Hon. Carl Hatch (right) of the House Appropriations Committee, in an attempt to save his foreign broadcasting program. Previously, Taber's committee had recommended the State Department's overseas broadcasting be cut, excepting to Latin America. State officials indicated they would now look to the Senate to save the program. (International)

Five Intimates Of Jewish Agency F.D.R. Aid Search Appeals To UN

Committee Requests Help In Locating Paper On Arabia

WASHINGTON, May 8—Executives of the Franklin D. Roosevelt estate announced today that no one will be permitted the right to search through the late president's files in Washington and Hyde Park.

WASHINGTON, May 8—The Senate War Investigation Committee conferred today with five intimate associates of the late President Franklin D. Roosevelt in a search for documents bearing upon a war-time deal for Arabian oil.

Chairman Owen Brewster of Maine said that Roosevelt's personal secretary, Miss Grace Kelly, and Roosevelt's former law partner, Basil O'Connell, have agreed to attend the first exploratory session today.

Legion District Meet Slated May 24-25

A meeting of District American Legion officers, commanders and members of Department of Florida standing committees, will be held May 24 and 25 at Department Headquarters at the VFW Hotel. All Department officers, by State Adjutant A. Reed Mann, Department Commander Frank Caton of Port Orange conferred yesterday with Adjutant Mann in regard to the meeting attendance which is estimated at 50 to 60. All Department standing committees will be appointed for 1947.

Membership policies for the 1948 Legion will be promulgated, said Adjutant Mann.

Looking for an early membership drive to anticipate the largest year the state of Florida has ever had in membership additions.

"Under the dynamic leadership of Frank H. Caton, a veteran of World War I, we are being inspired to assume responsibilities of posts in the respective counties," said Mann.

Measure Abolishing Court Is Withdrawn

House Bill 482 which would have abolished the Seminole County Court as operated since 1923, has been withdrawn, according to a telegram received late yesterday afternoon by County Commission Chairman H. B. Pope from Representatives M. B. Smith and Bralley Odham who introduced the bill to the Legislature.

According to Commissioner Pope, the County Commission Tuesday afternoon on motion of J. F. McClelland, in which they unanimously, opposed passage of the bill. The Commission's action followed opposition to the bill voiced by Seminole County Bar Association President John Leonard and County Judge R. W. Ware.

Universal Military Training Legislation Sought By President

Negro Arrested After Widespread Four Day Search

Orlando Police Help Seminole County, Sanford Officers

It took the combined talent of the Seminole County Sheriff, the Sanford and Orlando police forces and most of all the ability and keen perception of Sgt. Jack Stacy of the Orlando detective force to end a four day search for Richard Fields, alias Scott, who was wanted for a robbery in Seminole County jail for robbing a store.

Sgt. Stacy, nabbed Fields on Orange Avenue in Orlando yesterday noon and thereby got a \$25 reward. Sheriff Merris revealed today.

It all started about 11:00 a. m. Sunday morning when Sheriff Merris received a call from Richard Fields' wife in Miami who complained that her husband was being held up by Deputy Clerk Beck who went out to make the arrest. Fields' wife said that after they had battled each other about half hour, the negro was released.

The Sanford Police were notified and Chief Williams ordered his men to search for the negro. Orlando police in turn yesterday morning put out a patrol car when it was learned that Fields was due there to collect a cash check. The Orlando police only to be arrested yesterday noon by Sgt. Stacy.

Fields is believed to have a criminal record and further investigation from the FBI is being sought from the FBI records in Washington, and Sheriff Merris said that Fields had admitted leaving here from Jacksonville after the Sunday escapade, locking his gun for eating money and going down to Miami to look for his wife who had been put in the County jail for protection.

Public Is Urged To Support \$1,000,000 Health Board Bill

Seminole County residents were urged today by Health Board Director Frank R. Quillman to telegraph State Representative Frank Odham and urge passage of the State Board of Health appropriation of more than \$1,000,000 to support the health board.

Such an appropriation would be a landmark in the history of Florida health legislation.

Quillman said that the health board would be a permanent body, and would be a part of the State government. He said that the health board would be a part of the State government, and would be a part of the State government.

With Congress planning to act on the health board bill, Quillman recommended that action be taken to speed up progress on the bill, without waiting for a final report from an advisory commission which started research on the subject last December.

U. S. Troops Urged To Aid In Winning Peace

FRANKFURT, Germany, May 8—The military governor of the American zone in Germany, General Lucius Clay, today called upon U. S. occupation troops to dedicate themselves to the task of winning the peace.

In a radio address marking the second anniversary of the Nazi surrender, General Clay declared: "The task which confronts us as Americans in Germany can be accomplished only if we realize its import and consecrate ourselves to its accomplishment."

Clay said the German people are confused and in despair after two years of occupation, with their morale shattered and their economy destroyed. The allied Clay said, must assist the Germans in the revival of industry, but only under firm guidance so that Germany will be unable to use her industrial might to wage another war.

Truman Summarizes Period Since VE Day And Predicts Lasting World Peace

WASHINGTON, May 8—President Truman said he is going to try to get Congress to pass a universal military training law at this session. The president said at his news conference today that he is expecting a report soon from a committee of clergyman, educators and others who are studying the problem for him. Mr. Truman said he will attempt to push a training program through Congress before adjournment, although some members of Congress have said time would be needed for such a measure might not even get consideration at this session.

Universal training was just one of the subjects discussed at the President's birthday news conference today. Mr. Truman summed up the two years since he assumed victory over Germany on May 8, 1945. He said the Nation has seen many changes since then, and that he is confident it will overcome others. The President said he is certain that the world will be a better place when he leaves office.

The President read at his desk a letter to newsmen, and made a little impromptu speech. He said that in the last two years, his political philosophy has not changed. He said he had the greatest confidence in the world has ever seen or ever will see. Mr. Truman said he hopes that it is great even though it does make a (Continued on Page Three)

Truman Observes Two Important Anniversaries

WASHINGTON, May 8—A man named Harry S. Truman, from Independence, Mo., is enjoying a birthday today that rarely comes to any American. First, it is his own birthday. One of them is the anniversary of the end of the war. Second, it is the anniversary of our victory over the Axis powers, and while it is a happy holiday, it is a day when the President could ever celebrate it. And, to be that president, and to be feeling fine on your 52nd birthday, is an experience shared among men.

The President said he is feeling fine. He said he is feeling fine. He said he is feeling fine. He said he is feeling fine.

State Guard Officers To Attend Course

ST. AUGUSTINE, May 8—Adj. General Mark Lance said today two Florida National Guard officers are to attend a refresher course at the Fort Benning, Ga., Infantry school next week.

The two officers are Col. Maxwell C. Snyder, commanding officer of the 124th Infantry at Jacksonville, and Col. Robert A. Ballard, commanding officer of the 211th Infantry in Miami.

State Legislature

(Continued from Page One) additional appropriations would raise the deficit even higher. He also noted that the budget now provides no reserve fund and no building fund.

After hearing the Governor's report, the committee quickly killed bills to provide an additional \$2,500,000 for dependent children, and \$6,000,000 for old age pensions.

But the appropriation group did approve a \$1,800,000 medical-dental college in Miami.

A joint Senate-House building committee formally agreed that contracts for two large State buildings should be cancelled.

The committee opposed further work on a new Supreme Court building and a new music building for the Florida State College for Women.

Members of the group also stopped work on a \$1,500,000 auditorium and gymnasium for the University of Florida, but no definite action was taken.

The white primary measures were on top of the Senate calendar today as a special and order of business which means the senators will dispose of the controversial measures one way or another before going on to other business.

The bills don't specifically mention excluding negroes from voting in Democratic primaries, but they are designed to take primaries from under state control and place them under supervision of the parties.

Senators Mathews and Sanchez of Live Oak introduced all but sure. The one which Sanchez didn't put his name on is a proposed constitutional amendment to require registered voters to be able to read any paragraph of the Florida or United States Constitutions.

In action yesterday, the Senate passed the bill which would allow the Florida horse race track producing the greatest revenue to select its 40-day racing period.

In the House, a bill granting the State Highway Patrol broader arrest powers and police immunity was approved. It now goes back to the upper chamber for concurrence in minor amendments.

A bill which would enable the state to take 20 percent of the proceeds from juke boxes was added today to the somewhat slim list of money-raising measures up for consideration in the legislature.

This bill by Senator Riddle of Darlington took its place alongside such other senate measures as those to have the state collect a 2 percent bigger take from dog and other animal waste measures.

Riddle estimates his junk box tax would produce about \$1,000,000 a year. The dog track tax and license boosts would bring in about \$2,200,000, its sponsor claims.

Put before the house was a 3 percent gross receipts tax proposal which also would abolish ad valorem taxes. A similar bill is before the senate finance and taxation committee.

Also introduced in the house was a bill to permit levying of a one-cent soft drink tax. Revenue from the tax collected in municipalities would be returned to the cities, and money outside cities would go to counties.

Roosevelt Papers (Continued from Page One) tion, set for 10:30 A. M. today. Three others have been invited to attend. They are an executor of the Roosevelt estate, Henry Hackett; the official who will have charge of the Roosevelt library at Hyde Park, Fred Shuman; and a man named George Elsey, said to be an official familiar with White House files during the Roosevelt administration.

What the war investigating committee wants are the papers which may throw some light on an unsuccessful Arabian oil deal in 1941. An oil man, James MacArthur, is said to have been the projected deal, as one which, if it had gone through, would have saved the country millions of dollars, as compared with what was paid for Arabian oil later.

Chairman Brewster said the papers were removed from Navy Department files and placed among the Roosevelt papers. Brewster previously had wanted a committee investigator to go over the Roosevelt papers. President Truman replied he could have any paper he wanted, provided he would name it specifically.

But the Republican Senator from Maine said his committee wants to know exactly what happened to what he describes as "the acre of papers" at the White House when Roosevelt died in April, 1945.

Brewster said "We don't want a controversy on this. But he added that there is a fundamental question that should be clarified, about just what papers are public papers, even if they belong to a private citizen."

Phone Strike

(Continued from Page One) week. The settlement must be ratified by the Long Lines Union executive board, and its members, but there are indications that this requirement will be speedily met, perhaps this afternoon.

Assistant Labor Secretary John Gibson, with Federal Conciliation Chief Edgar Warren, announced the agreement after union and AT&T negotiators had been in session for seven and one-half hours.

Shortly afterward, the president of Long Lines union, John Moran, said he was leaving immediately for New York, where his executive board will be called into session this afternoon for a vote. Four members of the nine-man board have been taking part in negotiations, and Moran said the strike "could be" called off this afternoon, because, while the union membership must ratify the agreement, the executive board could end the walkout without waiting for that action.

The government is confident now that the Long Lines settlement will be called into session this afternoon for a vote. Four members of the nine-man board have been taking part in negotiations, and Moran said the strike "could be" called off this afternoon, because, while the union membership must ratify the agreement, the executive board could end the walkout without waiting for that action.

The government is confident now that the Long Lines settlement will be called into session this afternoon for a vote. Four members of the nine-man board have been taking part in negotiations, and Moran said the strike "could be" called off this afternoon, because, while the union membership must ratify the agreement, the executive board could end the walkout without waiting for that action.

Joseph Beirne, president of the National Federation of Telephone Workers and the leader of the nationwide strike, issued a statement saying Long Lines' contract settlement, when it is accepted, "will have an important influence" on wage levels of telephone companies in 225 communities where the Long Lines union operates.

Long Lines department workers will receive what amounts to an average hourly wage increase of 11 cents an hour, provided by a variety of increases according to different occupations, cities and job classifications.

The basic increase ranges from \$2 to \$5, with Buffalo and Boston workers at the top. In all other areas, the top boost will be \$4. The \$4.40 average figured out by the government includes so-called "fringe" adjustments that average 68 cents a week.

Those adjustments include such provision as a \$1.40 a day differential for workers who sometimes direct other employees an extra day's pay when holidays occur during vacations. Two important clauses also agreed on were maintenance of union membership through a dues checkoff, and no discrimination against strikers.

United Nations (Continued from Page One) Iraq and other Arab states, expressing satisfaction with the assembly's decision to place the Arab Committee on the same legal footing as the Jewish Agency for Palestine.

Arab Committee spokesman Emil Ghoury said in New York that his delegation would reach a decision sometime today. He refused to comment on whether the delegation had cabled the Grand Mufti of Palestine for instructions.

In Cairo, however, a spokesman for the exiled Grand Mufti said that the Mufti was considering the question of whether the Arab Committee should appear before the U. N. political committee.

The U. N. political committee had before it today United States and Argentine proposals for the make-up of the fact-finding committee. The United States suggests a commission of seven so-called neutral countries and the exclusion of the five big powers. Argentina wants an 11-nation body including the Big Five.

Committee Chairman Lester B. Pearson of Canada said both the Jewish Agency and the Arab Committee would be heard as soon as they named spokesmen.

Truman Conference (Continued from Page One) The outlook for the country, said the President, has improved much since May 6th, 1945. He said he is optimistic over the prospect of peace and a United Nations on which the world can depend. "I'm as sure of that as I am standing here," he added.

MacArthur Denial (Continued from Page One) statement said, "their absurdity attributed to me." MacArthur's is so evident to warrant no serious comment." The Allied commander's statement added that MacArthur had not seen the published statement. Japanese editors said American censorship had held up their publication.

MacArthur summed up his own view of security in Japan briefly. Until a peace treaty is signed, the General said, Japan's security is an obligation assumed by the Allied Nations and entrusted to their occupation forces. After a peace pact, defense of Japan will rest largely with the United Nations or some similar collective agency.

In that event, MacArthur went on, "the United States might well have a special interest in the location of Japan in its relations cause of the strategic, geographic and Pacific defense. He ended with "speculative statements in that go beyond that concept have no basis in reality insofar as I am concerned."

Decision Outlawing Communists Enforced By Brazilian Police

RIO DE JANEIRO, May 8.—The Brazilian government cracked down hard today on the Communist Party in enforcement of a decision by the supreme electoral tribunal which outlaws the party in Brazil.

Federal police and troops have padlocked 445 Communist clubs or cells of the Brazilian group, which is one of the largest communist organizations in the western hemisphere.

The government had petitioned the tribunal that the Brazilian Communist Party be declared illegal and closed. The tribunal approved the petition in a three to two vote.

The secretary of the Brazilian Communist Party, Federal Senator Luis Carlos Prestes notified all the party's branches throughout Brazil to comply with the tribunal's verdict. He said the tribunal's decision will be applied to the Brazilian supreme court.

Prestes announced that the Brazilian Communists' national convention, scheduled for May 25 in Rio, has been postponed indefinitely.

The Brazilian Communists also have suffered another stiff blow. President Eurico Gaspar Dutra suspended the Communist-supported Brazil Workers Confederation and all labor unions affiliated with it for a period of six months.

The presidential decree accused the suspended unions of provoking unrest among the nation's workers and affecting output. Government officials are to be designated to administer the suspended unions pending new labor elections.

Jaycee Meeting (Continued from Page One) presented the advantages of the Naval Reserve to the noon meeting of the Jaycees today. Lieut. West stated that the volunteer reserve is open to all veterans of World War II and those who are between the ages of 17 and 40.

He added that the Naval Reserve is planning a large program to enlist 1,000,000 men in the reserve by May 18 and 25.

A letter from the Senior Chamber of Commerce to Senator Spessard Holland was read requesting that Senator Holland assist the senior Chamber of Commerce by using his influence with the House Appropriations Committee on May 12 to get assistance for the St. Johns River project.

A copy of a telegram from Dr. Frank Quillman to Dr. Wilson Sowder of the Boardwick Agency was presented to the Jaycees stating that a cut in appropriations for public health work in the state is threatened. Dr. Quillman stated that the health program in this area would be greatly curtailed by a cut in appropriations. No venereal disease control work would be continued and the school health program would have to be curtailed.

He stated that the public health standards of Florida are lower than those of neighboring states. The board of directors appointed Elton J. Moughton, Jr., Dan Wright, T. E. Tucker, G. W. Austin and Gordon Bradley as a nominating committee to select appropriate candidates for offices in the Seminole County Junior Chamber of Commerce for the coming year.

The organization voted to hold their future weekly luncheon meetings at the Mayfair Inn, James Rivers, owner of radio station WTRR, has offered free time on the air to broadcast the luncheon meetings it was announced.

Floyd Palmer, Linz Weber and on the Jaycee baseball committee Arthur Heckwith, Jr. were named to aid in securing a Major League organization for the city for the 1948 Spring training session.

HAMBONE'S MEDITATIONS By Alley ENDURIN' DESE DAYS O' CROWDIN' UP, ENNYBODY WID ROOM FUH COMPANY GWINE PURTY SOON HAVE COMPANY FUH DE ROOM!

WAKE UP BUSINESS By Advertising In The Newspaper

British And American Radio Attacked By Moscow Broadcast

LONDON, May 8.—A broadcast from Moscow announced to the world today that the Soviet radio is truthful and objective whereas the British and American radio are slanders and biased.

Also the Moscow broadcast attributed the invention of radio to what it described as the great Russian scientist, Alexander Popov.

From there the broadcast launched into a comparison of Russian and English-speaking radio. The Moscow radio said that Soviet information is objective because the Russians have nothing to hide.

"We have no monopolist press," said the broadcaster, "which pays generously for lies, American and British broadcasting companies follow the methods of the reactionary press which believes in slandering, they not only distort facts, but conceal them."

Then the Moscow commentator went on to say: "But the world has witnessed time and again that any great accomplishment of the human brain can be distorted."

Aleman Home From Successful U. S. Trip

MEXICO CITY, May 8.—President Miguel Aleman is home in Mexico City today, convinced that his one-day trip to the United States and President Truman's recent visit to Mexico has given other nations of the world an example to follow.

A roving throng of possibly 10,000 Mexicans greeted Aleman on his return last night. He obviously was touched deeply by the demonstration and declared: "I am sure President Truman's visit and mine mark the beginning of a new era of friendship, understanding and cooperation between our two peoples which should be an example for all the world."

From there the broadcast launched into a comparison of Russian and English-speaking radio. The Moscow radio said that Soviet information is objective because the Russians have nothing to hide.

Movie Producer Is Beseet By Million Worries On Set

HOLLYWOOD, May 8.—The movie producer, Mark Hellinger, is beset by a million worries on the set of his new picture, "The Big House." Hellinger, who has produced some of the most successful pictures in Hollywood, is now in a state of constant anxiety over the production of his new picture.

Mark Hellinger, the producer, had a million worries. This was the reason picture he had wanted for 10 years to make, and these were the big, spectacular prison-break scenes.

Five hundred extras costumed in penitentiary gray milled in the "Big House" yard inside a sound stage. They cost \$14 per day apiece for a total of \$7,000, and if Hellinger the Agent insisted on their coming back next day he'd have to answer to Hellinger the Producer, the man with the purse strings.

Mark still wears a hat on the back of his head as he did when a newspaperman. His gray single-breasted is razor-sharp, his shirt dark-brown, his necktie white. He wears dark glasses against the eye lamps and he worries.

An extra pulled up shouting a demand for stunt man's pay of \$15 because he had to fall to the floor as though shot dead. Mark settled for \$20. A truck burns to destruction in the scene. Mark had wakened at 5 a. m., worrying whether all the truck's preceding scenes had been shot. . . . While he paced this set, there was work waiting to be done back in his office on three forthcoming pictures. . . .

He was two days past deadline in writing his weekly syndicated short-story. That job would keep him up late tonight at home. . . . So far Mark is doing graying at the temples, but he is not graying in writing his weekly syndicated short-story. That job would keep him up late tonight at home. . . .

Movie Producer Is Beseet By Million Worries On Set

HOLLYWOOD, May 8.—The movie producer, Mark Hellinger, is beset by a million worries on the set of his new picture, "The Big House." Hellinger, who has produced some of the most successful pictures in Hollywood, is now in a state of constant anxiety over the production of his new picture.

Mark Hellinger, the producer, had a million worries. This was the reason picture he had wanted for 10 years to make, and these were the big, spectacular prison-break scenes.

Five hundred extras costumed in penitentiary gray milled in the "Big House" yard inside a sound stage. They cost \$14 per day apiece for a total of \$7,000, and if Hellinger the Agent insisted on their coming back next day he'd have to answer to Hellinger the Producer, the man with the purse strings.

Mark still wears a hat on the back of his head as he did when a newspaperman. His gray single-breasted is razor-sharp, his shirt dark-brown, his necktie white. He wears dark glasses against the eye lamps and he worries.

An extra pulled up shouting a demand for stunt man's pay of \$15 because he had to fall to the floor as though shot dead. Mark settled for \$20. A truck burns to destruction in the scene. Mark had wakened at 5 a. m., worrying whether all the truck's preceding scenes had been shot. . . . While he paced this set, there was work waiting to be done back in his office on three forthcoming pictures. . . .

He was two days past deadline in writing his weekly syndicated short-story. That job would keep him up late tonight at home. . . . So far Mark is doing graying at the temples, but he is not graying in writing his weekly syndicated short-story. That job would keep him up late tonight at home. . . .

Communists In China

Declaring that the Chinese Communists have overrun a fourth of China's 500,000,000 people and of her 4,000,000 square miles, Mary Knight, in The Reader's Digest for May, warns that with more aid from Russia they could take over the "weakened remainder" of China. Miss Knight's article, condensed from The New Leader, is written out of her long journalistic experience in China.

Chinese Communists are Communist, she holds, despite their denial of Russian connections. "The Red Chinese inevitably mean a Red Asia. The Chinese Communist leaders are exponents of Marxist-Leninist ideology. Their army of 2,000,000 wears the Red Star, Mao Tse-tung, chairman of the Communist Party, though he has disavowed Russian 'entanglements,' told the party congress in 1935: 'Our ultimate program is to advance China into the realm of Communism.' Propaganda has fostered a Mao myth similar to the Stalin myth in Russia. His picture is everywhere; kindergartens teach songs about Comrade Mao.

Communist China's totalitarianism parallels that of Russia, Miss Knight reports. "Virtually all important posts are held by party members. The Politburo and its secretariat are all Red. Speech is tightly restricted. Thought control begins in kindergarten with class-war songs. The newspapers print only what the leaders want the people to believe. The secret police watches for anti-party-line nonsense."

Anti-Communist feeling runs high, the article says. Chou En-lai, Communist director of foreign propaganda, has accused President Truman of trying to turn China into an American colony. American policy is scored as "aggressive imperialism appearing civilized and legal on the surface." In Manchuria, school children were taught to draw posters showing Americans as two-headed pigs.

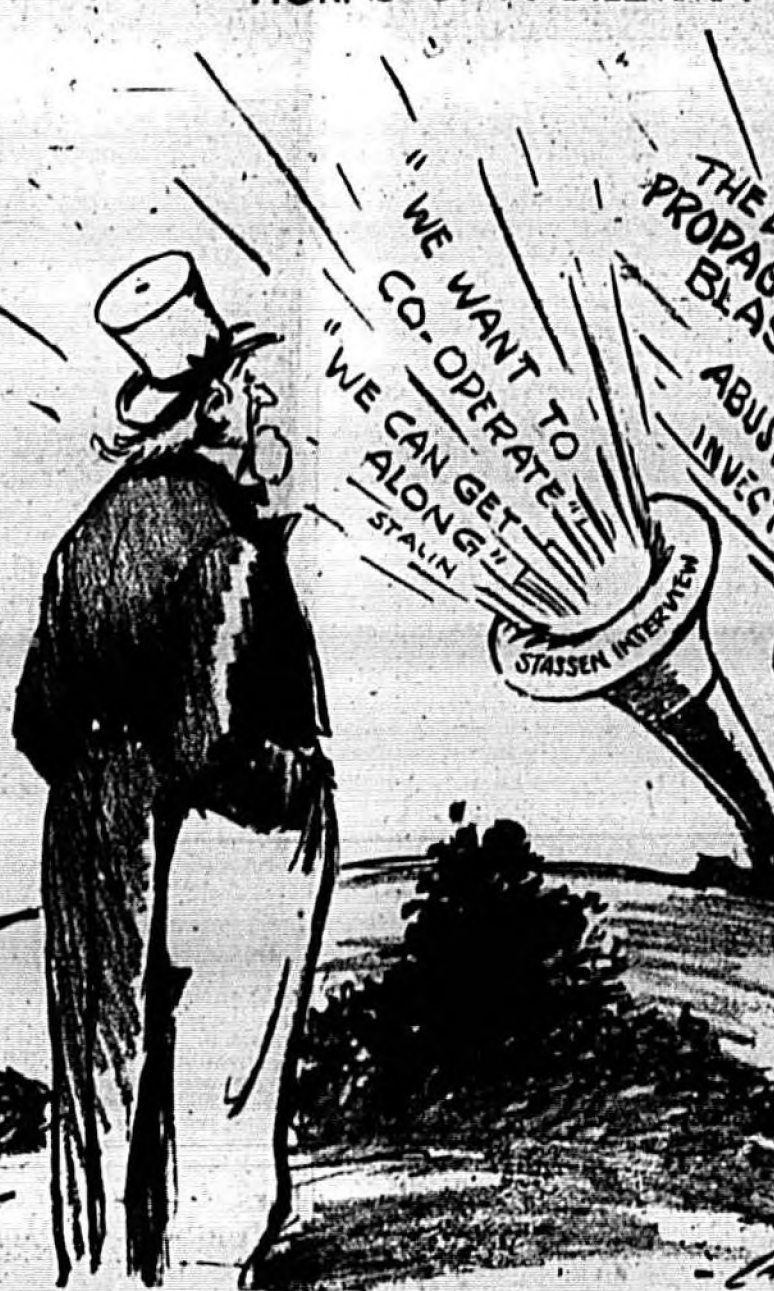

Chinese Communist influence is expanding westward, Miss Knight says into regions where the largely aboriginal peasants are ready for a change. Conditioned by the "New Democracy's" anti-lord propaganda, the peasant-soldier war is the leader's bidding, and has proved adept at guerrilla warfare.

Life Expectancy
The average length of life for women in the United States has reached the remarkable high figure of 69 1/2 years, says a fraction under the biblical "three score and seven." Women tend to outlive men on an average by 5 years, and the average length of life of white men is only 64 1/2 years. For the American people as a whole, the average length of life is 66 years.

These figures are from a report by the Metropolitan Life Insurance Company and relate to the latest year available, 1945. The new high of 69 years is a gain of 2 1/2 years over the average for the immediate prewar period of 1939-1941, and a gain of 16 2/3 years - an increase of about one-third - since the beginning of the century.

For the colored population the average length of life for females is 69 2/3 years and for males 66 years. "The remarkable increase in expectation of life at birth since the start of the century are largely the result of lives saved through the control of infections which formerly took a heavy toll of children and young adults," the Metropolitan comments.

"HORNS OF A DILEMMA"

"We want to along get the stamen workers," the sign reads. The man looks thoughtful.

DEATH ON THE DECK

The ferryboat was heading for the opposite side of the bay as the rain poured down. Inspector Sharp leaped into the howling wind to walk aft. He had taken but a few steps when he noticed a strange sight. The body of a man and several passengers standing excitedly around the body.

My name is Cynthia O'Neill, said the woman in the group when Inspector Sharp questioned her. "I found this man just after he had been shot."

Social And Personal Activities

Helene Tamm Weds Frederick Arnsberger
Mr. and Mrs. Henry N. Tamm announced today the marriage of their daughter, Helene Dorothea, to Frederick Arnsberger, son of Mr. and Mrs. O. D. Landress, Sr., of Sanford, was announced.

Springtime Gardens Theme For Recital
The able direction of Mrs. Peter Hayden Tappin on Friday night at the Seminoles High School in Sanford, Fla., was the theme for the recital given by the Seminoles High School Chorus of Dancing.

National Music Week Is Observed By Club
National Music Week was observed by the Woman's Club at their regular luncheon and business meeting held yesterday at the club house.

W. S. C. S. To Present Program On India
Members of the Woman's Society of Christian Services of the First Methodist Church will present a program on India on May 19 in the church auditorium.

Hamburger Fry Held At L. F. Garner Home
A group of friends gathered at the home of Mr. and Mrs. L. F. Garner on West Street last night for a hamburger fry and outdoor picnic.

Hibiscus Circle Has Last Meeting Of Year
The final meeting of the year was held by the Hibiscus Circle of the Garden Club in the garden club house.

Raymond E. Lord Is Honored On Birthday
Raymond E. Lord was honored on his birthday with a party given by his friends at a home on West Street.

Helen LeLand Trippe To Wed O. D. Landress

The engagement of Miss Helen LeLand Trippe, daughter of Mr. and Mrs. W. C. Trippe, and the late LeLand D. Trippe of Linden, Ala., to O. D. Landress, Jr., son of Mr. and Mrs. O. D. Landress, Sr., of Sanford, was announced.

Miss Trippe received her preparatory education at Linden High School and will receive her Bachelor of Applied Art degree from Alabama Polytechnic Institute on June 6 where she is majoring in commercial art. She has taken part in many college activities, being a member of Phi Mu social society, Art Guild, honorary art society, and will feature in the beauty section of the Glenside, the Auburn Yearbook.

Mr. Landress is a student at Alabama Polytechnic Institute where he is enrolled in the school of Aeronautical Engineering. He is a member of the Pi Kappa Alpha social fraternity, Institute of Aeronautical Sciences and is an Army Air Force veteran of World War II.

The wedding will take place on June 6 at the First Baptist Church in Auburn.

NEW YORK - Phil Baker has a parcel which quite possibly may be the capital boat which he has been hunting for a month or more. He has had him almost three years, but he has not been able to find him.

When he was gifted with the parcel, he was told that it was a matter of not considerable importance when the boat is entered into the water.

Heirs Are Designated In McLean Estate

WASHINGTON, May 1.—The Hon. William C. Clegg, Jr., of the Federal Probate Court in Washington, has designated the heirs of the late Mrs. Helen McLean, who died in 1937.

The fifth oldest is Mamie Stewart Reynolds, daughter of former Senator Dan Reynolds and the late Helen McLean. Mamie will be five years old in October of this year.

The ill-fated Helen Diamond and the rest of the McLean wealth will be distributed on a share and share alike basis. The memorandum says that if such arrangements cannot be carried out, all of the property is to be sold and the cash distributed equally among the seven.

Mr. Landress is a student at Alabama Polytechnic Institute where he is enrolled in the school of Aeronautical Engineering. He is a member of the Pi Kappa Alpha social fraternity, Institute of Aeronautical Sciences and is an Army Air Force veteran of World War II.

The wedding will take place on June 6 at the First Baptist Church in Auburn.

Every Line is a look at Tomorrow

YOU spot it on the highway every time a Buick comes along. Here you meet the future face-to-face. Here's the sleek and flow of fender line that's called for by streamlined air - here's the solid, steady look that spells roadability - the broad beam that means room - the massive bonnet that tells of fireball power aplenty.

Here's grace, here's ability, here's sturdy dependability - all wrapped up in one handsome package that's not merely up-to-the-times but ahead of it. Here are the good looks that bespeak good works; you hardly have to be told of precision carried to ten-thousandths of an inch, of materials chosen out from the finest to be found.

Any wonder that such a creation is America's most wanted automobile? Any wonder people pass up cars that may be easier to get to wait for a car that's going to stay fresh and new and modern-looking?

Advertisement for Frozen Custard, The Polar Bear, featuring cooling and refreshing qualities.

MENU

- Harvard Beets
2 bunches small, young tender beets
1 cup sugar
1 cup vinegar
1 cup boiling water
1 cup vinegar
3 tablespoons butter or margarine
Cook beets until tender. Drain and slip of skins. Slice. Mix sugar and vinegar. Add to boiling water. Just before serving heat to boiling point and add butter or margarine.

For gratifying new flavor effects in old familiar dishes, try frozen custard. It is a good addition to a vegetable loaf and blend well with cheese stuffed into celery. Ground nuts, of course, may be used in poultry stuffing for that crunchy texture.

The early excavations at the site of the city of Troy uncovered nine successive human settlements which had existed over a period of 8,000 years.

In 18th Century England, poor-house children were often "apprenticed" to factory owners so that had food habits are one of the important causes.

MOTHERS DAY GREETINGS

See our assortment of flowers, blooming plants and cuttings for Mothers Day gifts. A. K. ROSSETTER, FLORIST, 113 1/2 Magnolia Avenue. We telegraph flowers anywhere, anytime.

Remember Mother's Day

With a gift from Yowell's beautiful selection of gifts that are "very personally" home.

RAMMED TOGETHER are the two electric trains (top) of the Keith Line which collided near the Tabata station, a few miles from Tokyo, demolishing an Allied car. A Japanese motorman (below) was crushed to death between two cars. Sixty-three were injured. (International)

Literary Ladies Meet In Restaurant

NEW YORK—Literary ladies at opposite sides of a restaurant dinner table: Kathleen Winsor, the Amber girl, and Thelma Schree, who wrote the current Broadway play, "The Whole World Over." So bubbling and constant was the galley-proof-size conversation that Miss Winsor's musical husband was for once caught with his mouth shut, an uncommon condition indeed with this glib, occasional comedienne.

Howard Hughes, despite his fantastic fortune, is highly interested in his publicity. He subscribes to several clipping services, which keep him notified daily of the frequency with which his name appears in print, the current count being about 1,500 clips a week. During the few weeks directly following his plane accident, he received as many as 8,000 a week, and those who know him say he spends a good deal of time beamingly poring over the widely publicized reports of his doings in aviation and high-geared romance.

Watch a new tune called "Ivy." It's lovely. Carnegie Hall's dignity has been shattered by every sort of jazz recital and unusual cultural project. Now it's calypso singers who will bring their West Indian musical prattlings to the apparently unshakable halls of staid music which folks once thought would collapse in the face of such artistic impudence.

Among Carnegie's Calypso kiddies will be Wilmoth Houdini, who wrote "Stone Cold Dead In The Market," one of the later musical melanges of this collapsible verbal idiom. Lord Invader, who composed "Rum and Coca-Cola," and the West Indian known by the single Elizabethan tag of Macbeth, generally recognized as the most ingenious of all-time fabricators of impromptu sonnets.

The linguistically off-beat artists will be accompanied by a band led by a gentleman named Babu Belasco, no more of a relative of the famed Broadway Belasco's than the Mr. Macbeth of slightly previous mention is to the gloomy Scandinavian of Elizabethan note and identical name. Seems there's simply a high at-

Charley Grimm Says National League Is Now Power Crazy

CHICAGO, May 8—Manager Charley Grimm of the Chicago Cubs says the National League has become power crazy. Grimm says that a team no longer can play close-to-the-vest baseball, concentrating on getting one run at a time. The Cub manager adds: "Why, what does one run mean with these big inning addicts running around loose?"

Grimm goes on to say: "Most of the National League teams are going for the big inning. It used to be the American League that was the big inning league. They looked for strong kids who could hit the ball a mile, then let them hit a little ball. But things have changed. Now, the National League is running as big scores and getting as many long hits as the other league."

Rickey Keeps Mum

MONTREAL, May 8—President Branch Rickey of the Brooklyn Dodgers is keeping mum on whether or not he plans to re-hire Leo Durocher when Leo's season-long suspension ends, as interviewed in Montreal. Rickey was asked about Durocher's status. Rickey replied: "That is hardly in the field of discussable questions. But it is the \$128,000, not the \$64 question."

Sanford Moves Up

PHILADELPHIA, May 8—The death of Ray Brubaker last Sunday has resulted in a shift in managers of Philadelphia Phillies farm clubs. Brubaker was manager at Terra Haute, Ind. That post goes to Jack Sanford, who has been pilot of the American, Ga., team. Lew Krausse moves to American from Dover, Del. Dick Carter becomes manager at Dover.

Senate Balks Labor Plan Of Senator Ball

Labor Legislation Is Subject Of Discussion At Meeting Of Truman Cabinet

WASHINGTON, May 9.—The Senate today rejected a proposal by Senator Joseph Ball to permit individual employers to seek injunctions against jurisdictional strikes and secondary boycotts. The Minnesota Republican had termed these union activities a form of "racketeering."

Labor legislation was the subject of a long parley today at the White House. Present were President Truman's top aides and eight members of his cabinet. The session followed a regular cabinet meeting, which members said was concerned with a number of things. They gave no details.

President Truman also asked Congress for nearly \$25,000,000 to investigate the loyalty of government workers. The Civil Service Commission would get \$16,000,000 of the money, and the FBI close to \$9,000,000. The fund would carry the inquiry only to June 30. Mr. Truman's request for the money was filed today with the House clerk.

The long distance phase of the telephone strike is over, but many of the 20,000 long lines workers were not back on the job today as they refused to cross the picket lines of other unions still on strike. The long distance strike ended officially at 6 A. M. in the various time zones across the country. A company spokesman in New York said there has been no return to work.

American Mother Of 1947 Is Given Warm Reception

NEW YORK, May 9.—They rolled out the red carpet this morning at Grand Central Station to welcome New York's newest celebrity — not a glamour girl or a movie star this time. The lady who stepped off the train from Iowa was "Mom."

That's right — the American Mother of 1947 — Mrs. Frederick C. Murray, 72 years old and the mother of five children. Her home is in Cedar Rapids, and she was chosen the Mother of 1947 by the American Mothers' Committee of the Golden Rule Foundation. Mrs. Murray will spend a week in New York as a guest of the committee, with a gay round of parties and receptions, and plenty of sightseeing.

Churchill Honored By French Leaders

PARIS, May 7.—Britain's wartime premier, Winston Churchill, will be honored in Paris tomorrow when the French government presents him with France's military medal.

The medal isn't all that Churchill will get. The honor entitles Churchill to an annual pension of 300 francs, about \$1.68.

The medal was created by Louis Napoleon when he was principal architect of the second French Republic.

BRITISH PARTIES MERGE

LONDON, May 8.—Leaders of the major opposition parties in Britain have decided they should join forces against the Laborites now in power. An appeal for unity was made today by the heads of the Conservative and Liberal Nationalist parties. Their joint statement said that the two parties should merge, with the hope of driving out the present Socialist government in the 1950 elections.

CATTLE MARKET

CHICAGO, May 9.—Salable cattle 2,000, total 2,300; salable calves 500, total 500; general market active, firm at week's advance; very little beef in crop; most medium to low-choice steers \$10.00-10.75; letter cow top paid for two loads 1.18 to 1.20; average, good 1.00 to 1.05; mixed yearlings \$4.25; heavy offerings \$2.50; receipts mostly cows; beef offerings \$14.00-15.00; canners and cutters \$11.00-12.75; weighty bulls \$11.00-12.50; vealers \$3.00.

Target Ships In Bikini Tests Reported As Still Unsafe

School Board Is Given Report By Dr. F.L. Quillman

Opposition Voiced To Reduction In Funds For Health

Children lost many school days during April due to such diseases as mumps, chickenpox, whooping cough and measles, it was reported by County Health Unit director Dr. Frank L. Quillman in a statement read by the Seminole County Board of Public Instruction at its meeting yesterday.

The board authorized the advertising of bids on two or more school buses to be submitted by the time the next meeting takes place on June 12, according to T. W. Lawton, county school superintendent.

The Board of Public Instruction has telegraphed the State Board of Health that it does not want any reduction in funds allotted for school health purposes, said M. Lawton.

This action is in line with the recent telegram sent by the County Commission to Representatives M. (Continued on Page Two)

Chilly Weather Is Reported In North

CHICAGO, May 9.—Chilly weather prevailed today over the central and eastern section of the country with frost and snow in some places.

At some points in the Midwest, temperatures went as low as 15 degrees above zero. Snow flurries occurred in New York state, Pennsylvania and northern New England. The federal weather Bureau in Chicago reported two inches of snow at Syracuse, N. Y. The cool belt extended from Minnesota southward into Tennessee and eastward to the Atlantic Coast. At Traverse City, Mich., yesterday the temperature remained below freezing with a high of only 31 degrees for the day.

Scattered showers occurred in the southern plains states and in the Pacific northwest. The weather was mild in the Rocky Mountain region.

More frost is predicted for the North Central states again tonight, but there are indications that temperatures will start climbing back toward normal tomorrow.

MOTHER HONORED

KOBE, Japan, May 9.—Eighty-four-year-old Mrs. Laura Jean Alexander of Ellsworth, Me. is to be honored Sunday in Kobe, Japan as one of the oldest American mothers in the Far East. Mrs. Alexander is the mother of Lieut. Col. Ralph Alexander, who is executive officer of the third quartermaster group in Kobe. Despite her age, Mrs. Alexander has done some mountain climbing in the vicinity of her home in Kobe.

BOAT SERVICE JACKSONVILLE

The first vessel constructed for the Gulf and Atlantic Transportation Company's ferry service between Florida and Cuba will arrive in Jacksonville this weekend for outfitting. The SS Caribbean Queen will maintain ferry service between Key West and Havana. Eventually, the company plans ferry links between Cuba and the Yucatan Peninsula, Jamaica and Puerto Rico.

WASHINGTON, May 9.—The Navy disclosed today that the target ships in the Bikini atom bomb tests still are unsafe for permanent occupancy ten months after the experiment in the West Pacific.

The Navy Department announcement said that most of the big vessels that survived the two atomic explosions will be towed without crews to Hawaii and the West Coast.

Officials emphasized that the heavy radioactive contamination will not endanger the populations of either Pearl Harbor, San Francisco or Bremerton, Wash. Studies are to be made on methods of neutralizing the contamination. The studies are one of the Navy's most important projects in preparing against atomic warfare.

The announcement said that while the ships will be unsafe for permanent occupancy until the radioactive materials are removed, men can work on board the vessels for limited periods if safety precautions are taken.

The light aircraft carrier Independence will be towed to San Francisco where a radiation laboratory has been established.

The heavy cruiser Salt Lake City and the destroyer Hughes will go to Bremerton.

The orange-painted "Bullseye" ship, the battleship Nevada, will join the battleship New York at Pearl Harbor. The Nevada was designated as the aiming point in the first atomic experiment when the bomb was dropped from a plane. The bomb missed the ship by a wide margin and the Nevada suffered little damage.

Local Hospital To Observe National Hospital Day

The public is invited to visit Fernald Laughton Memorial Hospital during afternoon visiting hours on Monday, May 12, in connection with the observance of National Hospital Day. Donald Chase, chairman of the hospital executive committee, announced today. The hospital, located at the Municipal Airport, is still operating under the temporary permit of the War Assets Administration.

Facilities and hospital equipment are reported to be as good or better than in the institutions of comparable size. This is especially true of orthopedic equipment which was donated by the Winn-Lovett company and of surgical and X-ray equipment. Friends of the late H. C. DuBose have recently contributed a fund to buy orthopedic equipment to supplement that already donated.

Some of this new material has already started to arrive, according to A. B. Peterson, chairman of the hospital fund drive, and when all here, the hospital will be second to none in Florida in respect to this kind of equipment.

Mr. Chase reported that the acting superintendent of nurses, Mrs. Peterson, and the nursing staff, and greatly increased the efficiency of the organization.

Considerable new equipment is on order and though delivery is slow, will be of great help when it does arrive. Present needs include linen, towels and sheets. Voluntary nursing aides are also needed.

The nursing staff has done a great job, said Mr. Chase, and are responding beautifully to the new location and leadership. They are giving care of more patients than the entire capacity of the old hospital.

"The colored people," Mr. Chase declared, "have been most liberal in their support of the hospital drive. Dr. George Starke, particularly, has been very helpful and cooperative in this respect."

Passenger Waves Gun At His Driver

LOWELL, Mass., May 9.—A taxi cab driver from Roxbury, a part of Boston, told police of Lowell early today about his harrowing experience with a pistol-carrying passenger from Boston.

The driver, 33-year-old James Cheney, said he started for the Boston suburb of Somerville with his fare, but the passenger changed his mind en route and charged him by striking a pistol in the driver's face. For an hour during the drive to Lowell, Cheney said he was threatened with death by his gun-waving fare.

Finally in desperation, the driver said he grappled with the man at the outskirts of Lowell but the man ran away and fled through an alley. A hour's search by police cruiser cars failed to locate the gunman.

Legislature Asks Congress To Pass Bills

Universal Military Training And Better Pension System Urged By Floridians

TALLAHASSEE, May 9.—The Florida legislature today asked Congress to pass a law today without the Governor's approval.

TALLAHASSEE, May 9.—Florida's lawmakers turned to national affairs this morning when the House adopted a resolution calling on Congress to pass a Universal Military Training bill, and the Senate called for a nationwide pension system.

An hour-long debate preceded adoption of the military training resolution. At one point, House Speaker Beasley criticized representatives for taking up \$7,000 worth of time debating.

The resolution was sponsored by Representative Wilson of Columbia. Wilson urged adoption of the resolution because "Our armistice forces are being allowed to slide back into a state of ineffectiveness."

On the other side of the fence Representative Branch of Hillsborough spoke against the resolution. Branch declared that while he believed in preparedness, he also believed that the best kind of preparedness was development of scientific warfare. He said he felt that military forces could do little to maintain security in the age of the atomic bomb.

The Senate adopted a resolution calling on the Legislature to ask Congress to set up a uniform system (Continued on Page Six)

Plans Are Made To Take Lions Junior League On Outing

Final plans for the big outing of the 50 members of the Lions Club's Junior League at San Jose Springs on Saturday, May 17, were today announced by Jack Morrison, program chairman, to be held at their luncheon meeting at the Tourist Center.

King Lion Henry Witter, Tom Schirrad, Fred Gans and Harold Hambe and Al Skinner were announced as assistants in the program. The tickets for the All Star Baseball game in which the All Stars will clash with the present winning Cubs captained by Jimmy Poinnington at the Lakewood Park, were distributed to members by Harry Robson. Persons desiring to attend the game on the evening of May 16, may secure a ticket from any member of the Lions Club. Proceeds will be returned to the Junior League.

King Lion Witter said his experience at the recent State convention of Lions at Sarasota, took three big hotels to house the 970 delegates, he said. Dick Eberly, club "tail twister," Secretary Hamilton Hambe, and W. A. Livingston were the other Sanford delegates at the convention.

Witter reported that Hoke Johnson of Daytona Beach had been elected district governor of District 35 North, and Bob Halgrin of South Florida as district governor of District 35 South. C. H. McNally was named as an international committeeman. More than \$2,000 was donated to Texas City relief. The beauty contest and other entertainment was enjoyed, said Witter.

Engineer Declares Personality Factor Causes Accidents

CHICAGO, May 9.—A safety engineer said today that personality factors have been demonstrated to be the causes of many industrial accidents.

The comment was made by Byron Hill of the Bausch and Lomb Company, Rochester, N. Y., in an address before the Midway Safety Council in Chicago. Hill said a survey in his plant showed that in 79 percent of the accidents, unsafe condition was present.

"The real cause of accidents," Hill said, "is within the personality of the injured person and safety programs should thus be aimed at the elimination of the cause of poor behavior patterns."

"The slugs, the show-offs, the high strung, the thinker," he continued, "are the more common varieties in behavior which have been demonstrated to be linked to accidents in a causal relation."

Admiral Opposes Services Merger

Federal Trade Commission Studies Cosmetics Models

WASHINGTON, May 9.—The Federal Trade Commission is a pretty solemn and sedate organization. But something has happened to the good old FTC like the like of which never has happened before. Light luscious models sit around looking very luscious.

A girl in a green hat explained to the Federal Trade Commission what goes on inside a beauty salon. Another girl peered into a large mirror and pined on clean, gleaming cream. And on the tables in front where delectable ladybugs really rest, was spread \$4,000 worth of bright cosmetics.

All this happened yesterday at a Federal Trade Commission hearing on the activities of a cosmetics firm. The FTC lawyers maintained that the firm is unfair in the way it uses its demonstrators.

These demonstrators go into the big department stores and try to persuade your wife to buy more cosmetics. And the FTC says this is unfair to the little fellow who doesn't get these demonstrators. But says the firm, this is not the case. It argues that because of these demonstrators, everybody — and that (Continued on Page Two)

U.S. Miners Are Reported Growing Conservative

BETHLEHEM, Penn., May 9.—The umpire of the anthracite board of conciliation, Thomas Larkin, said today the United Mine Workers Union has grown more conservative in demands upon hard coal mine owners.

In a speech prepared for delivery at the fifth annual anthracite conference Larkin said the John L. Lewis-led union has shown a tendency to hold onto the gains it has already won. As for the operators, Larkin said by and large, they accept the working of the closed shop and the lock-out union dues.

Larkin described the hard coal conciliation board as possibly the oldest continuous set-up for grievance adjustments in the United States. Its success, he said, has been due to a spirit of conciliation and arbitration.

Russians Celebrate Victory Day Late

MOSCOW, May 9.—The United Soviet Socialist Republics celebrated Victory Day today with sports, bazaars and dancing in the streets day and night. There was a formal salute to the heroic Soviet armed forces—a 30-gun salute roared out in all 10 USSR capital cities.

Public officials and Soviet newspapers chorused praise of the might of Russian arms. Armed Forces Minister Nikolai Bulganin, in his order of the day, declared the Soviet forces had won the war and saved Europe, including the Germans, from Fascist oppression. The army's newspaper, Red Star, claimed that Russia not only could have occupied all Germany with her armies but could also have liberated France.

Even the celebration date is different in Russia. The surrender was signed May 7 two years ago. The official announcement was made May 8, Russia, for reasons of her own, celebrates it on May 9.

SHIPBUILDING

TAMPA, May 9.—The second of two huge tin mining dredges built by the Tampa Shipbuilding Company for the Dutch East Indies will leave for Java today. The dredger, The Roosevelt, will be towed 20,000 miles to Batavia. It weighs about 4,000 tons and is the largest ship of its kind in the world.

Emergency Arises In Greece Cabinet On Amnesty Plan

UN Commission Asks All Political Prisoners Be Pardoned

ATHENS, May 9.—The Greek cabinet was called into emergency session today to consider a proposal that amnesty be granted to all guerrillas under the supervision of the Greek Navy. A formal vote was taken in the cabinet and the proposal was virtually created a crisis in the Greek government.

The background of the amnesty suggestion is not too clear in some respects, but the gravity of the situation appears to be in the disjunction within the Greek government against any interference with Greek internal affairs by the U. N. or the United States.

A high Greek official told newsmen that the amnesty suggestion was transmitted to the government by Mark Ethridge, the American member of the UN Commission investigating the recently won in Greece. Greek leaders said they don't quite understand — after all, they have a standing amnesty offer for guerrillas — if they surrender and if they have committed no "common crimes." But an American spokesman in Athens said the United States is concerned over how the amnesty would be executed.

The reaction in Washington has not helped to clarify the situation. Diplomatic officials here said the United States has issued no call for an amnesty. If it had, it would have carried it through, rather than Ethridge, who works for the United Nations. The same Washington official said and they have no information about any Greek cabinet crisis or any amnesty demand by the UN commission.

General Moore said that in the past 15 months a total of 145 persons were killed in the United States. About 100 were killed by the actions of guerrillas and three civil servants were included. But, said the General, the percentage of Army property in declining. He said losses at \$24,000 were estimated at \$24,000 in March. That does not include losses by the Air Force, the Navy, or the Foreign Liaison Commission.

Blackmarkets In American Army Shown In Manila

MANILA, May 9.—There was an official summing up today of the blackmarketing and robbery that's been going on in the Philippines by Major General George F. Moore, who commands the Philippine and Ryukyu Island area.

General Moore said that in the past 15 months a total of 145 persons were killed in the United States. About 100 were killed by the actions of guerrillas and three civil servants were included. But, said the General, the percentage of Army property in declining. He said losses at \$24,000 were estimated at \$24,000 in March. That does not include losses by the Air Force, the Navy, or the Foreign Liaison Commission.

Mayor Gut Buys First Jaycee Membership

MAYOR H. JAMES GUT bought his first membership in the Junior Chamber of Commerce for the coming year. It was announced today by President Jack Hattig.

Active membership is appreciable from young men between the ages of 21 to 35. These members automatically make Jaycees membership part of the state and national organizations. These memberships cost \$10.00 per year. A regular member's dues are paid to all men who have reached 21 and over. These dues form the active membership only in that an associate member cannot hold an office in the Jaycees. The fee is the same as for an active member.

Lottery Promoters Warned By P. O.

WASHINGTON, May 9.—The Post Office Department, saying there has been a "decided increase" in violations since the war, issued a reminder today that it is against the law to use the mails to promote lotteries.

A department statement said this applied to bingo games, raffles and similar enterprises, as well as larger lotteries such as sweepstakes.

Polish Murderer Is Captured In France

TOULOUSE, France, May 9.—The search for an escaped murderer in southwestern France is over. French authorities said police have found and killed the condemned man, ending a search since last Saturday by several thousand gendarmes and troops.

The dead convict was a 22-year-old Pole Stanislaw Wozniak, who escaped from Montauban Prison after wounding a guard with an iron bar. He had been sentenced in his for three crimes. He was said to have confessed to 19 murders after he was convicted.

CHINESE PAY BOOST

NANKING, May 9.—The Chiang Kai Shek government decided today to raise the pay of its employees, and of the Army. The increases are to be effective from May 1. The boost was supported by Premier Chang Chun, who is also urging rationing of essential items.
