Louisiana Has Its Snyder Case

The most atrocious crime Louisiana has known to years was revealed
by the confession of Mrs. Ada Bonner Leboeuf (left) that she con-
spired with Dr. Thomas Dreher in the murder of her husband, James
J. Leboeuf (right). Leboeuf's bullet-riddled body was slushed with
a hunting knife to prevent floating and thrown into Lake Palourde,
near Morgan City, La. An alleged hired assassin shot the husband to
death. The conspiracy grew out of a lavo affair between Mrs. Leboeuf
and Dreher, paralleling the recent Snyder case.

TARPONS ARE HUMBBLED BY LEFTY MYERS

ONLY 27 MEN OF SARASOTA NINE FACE HILL ACE

Star Portsider Is In Rare Form Allowing Two Hits With Only 3 Men Reaching 1st

Fast Double Plays Features Of Game

Frisbie, Bailey Are Responsible For Unassisted Double Plays

Lefty Myers held Sarasota to two hits yesterday afternoon as Sanford won the second game of the series from the Tarpons by the score of 1 to 0. It was one of the best games ever seen in Sanford with Bonner of Sarasota also pitching great ball and holding the Cubs to five hits. Not a single extra-base hit was recorded and only one error was made, Bonner receiving credit for that. Myers pitched a remarkable game, only 27 men facing him in the nine innings. Not a single man was left on base, three fast double plays ripping off the three men who managed to reach first safely. Only one Tarpon managed to get as far as second during the game and Frisbie took care of him.

Sanford scored its lone tally in the fifth when Bailey led off with a single to right. Hiddle and Hogan did not return to first in time to beat Hiddle's quick throw to Bailey, doubling him off. In the fifth Manush singled to center for the first hit of the game for the Tarps. Ceriat then crashed one on the line but Bailey leaped high in the air to spear it with his gloved hand and step on first to double Manush. It was a beautiful play and brought tremendous applause from the stand.

In the second Hogan walked but Manush popped up to Hiddle and Hogan did not return to first in time to beat Hiddle's quick throw to Bailey, doubling him off. In the fifth Manush singled to center for the first hit of the game for the Tarps. Ceriat then crashed one on the line but Bailey leaped high in the air to spear it with his gloved hand and step on first to double Manush. It was a beautiful play and brought tremendous applause from the stand.

Bill Meyers and Frank Bailey also played good games. Meyers making a great catch of Hogan's bid for a Texas leaguer over first in the fifth and Bailey made several good plays.

Hornick played a great game in the field for Sarasota, handling nine chances without error, several of them were rather hard tries but Hornick was fast enough to make them look easy.

Les Crowe led the hitters with two hits out of three tries. Crowe also stole second for the only theft of the day.

Former Champion Is Being Pointed For Complete Bout By His Trainer, Leo Flynn

By DAVIS J. WALSH International News Service Sports Editor

SARATOGA, N. Y., July 12.—In the face of the fact that there is not more than one chance in three that his fight will go the limit, it was evident today that Jack Dempsey was being pointed for 15 rounds with Jack Sharkey, and no less, on the night of July 21. The average man having been tossed into a footrace with Nurni, would give everything he had in the first 300 yards in the perfectly legitimate belief that whatever happened after that would be in the lap of destiny.

But Dempsey, ordinarily one of these all or nothing birds if ever there was one, apparently is not to gamble this time. He, it seems is to do something he never feared to do when he was great. He is to go in there imbued with the idea that the winner of his fight may have to be determined by the vote of a referee and two judges instead of by a left and right to the goatee.

It all sounds like a lot of bread crumbs to me but the evidence of Dempsey's present style goes as nothing more than a wisp of high fast air, right through the middle. The Dempsey shift is gone, because a man who stands on the flat of his left foot cannot shift anymore than a corner stone of a skyscraper.

So has the Dempsey weave, because no longer does he glide forward at his man on the heels of his feet. With a flat foot he naturally leans back and that has taken something out of his right counter, too. A modern and equally unromantic Mr. Van Winkle, having come to sleep in Atlantic City in 1921, might wake up at White Sulphur Springs today in some doubt as to whether the man he saw in the training ring here wasn't a colossal masquerader.

He would recognize the left leg, foreshadowing aowl, the ringy sway shake of hair, the tell-tale sword of the knees that marks the hitter and that left hook to the body and jaw. The latter still is a great punch, not what it was six years ago naturally, but a weapon that very well might end everything like a home run over the fence.

It was just good enough yesterday that I ever saw a landing on Sharkey's jaw and had a mental photograph of the boy orator sitting suddenly down and trying to alter that embarrassing circumstance to the best of his ability. Dempsey is impressive as he lashes out with his leg and no mistake.

He is impressive, also, in the self evident matter of physical condition. This is a big factor in the Tunney fight, is of secondary importance here.

In fact, he looks great. But so would any other man who had spent the last three months in the open, indulging in the proper amount of physical exercise and watching his diet. Even a consumptive begins to look like a matinee idol after he has spent a large portion of his time in the Arizona desert. They are talking Dempsey down here and, frankly, it isn't a bad lunch. That pitiful exhibition against Tunney can't be laughed off with a yawn and there is no reason to suspect that the young man should be a great deal better for having added another year to his life. It is the general understanding that a man doesn't get better as he grows older and doesn't Jack is growing that way with every tick of the clock.

Yet I can't slough the thought that Dempsey has a real chance of the championship of the world in the club who shoots the works on a single roll. However, I would think better of that chance if he was being sent to the post with just that notion and not that of a man who expects to come out with a four and then outstay the situation.

Woodruff Pitches Presbyterians To Win In 1st Game

Harry Woodruff, star Presbyterian left hander, held the Methodists to four hits as the Presbyterians won the first game of the post season series by a 4 to 3 score. Woodruff also received credit for scoring the winning run in the last inning.

The Methodists, who were relying on "Pop" Lambkin to stop the Presbyterians could do little with Woodruff's delivery, while the Presbyterians managed to hit Lambkin enough to win. Lambkin put the winning runs on base with walks and scored one man with a wild pitch.

After threatening for several innings the Presbyterians overcame the one run lead of the Methodists in the fifth inning by scoring three runs. Duffose walked and stole second going to third as Markwood was safe at first. Markwood stole second and Markwood and Duffose scored as Barber hit one.

The Methodists came back in the sixth to score two runs and tie the score as Epps was hit by a pitched ball stole second going to third as Lambkin was being thrown out and scored as Babe McCall hit safely. McCall then stole second and scored as Kelsey went out short to first.

In the last of the sixth Woodruff was safe on McCall's error and stole second. Paterson walked and Woodruff went to third to score as Bach hid down a pretty sacrifice.

Babe Ruth of Sally League Is Bill "Jumbo" Barrett

Have a care, Babe Ruth, for Bill "Jumbo" Barrett, catcher for Knoxville in the Sally League, is trying to smash your mark and all other home-run records. He bagged 23 in the first 50 games of the season. The Tennessee backstopper is not only the leading home-run swatter of his circuit, but is also the best hitter in the league. His mark seems stationary around .432.

Will He Stick?

Here's George Grant, a former member of the St. Louis Browns who is with Cleveland now. Grant says he is in the majors to attack this time and went out and won his first game against the White Sox as a proof of his contentions.

With the Chicago Cubs and Pittsburgh Pirates fighting grimly for first place, and the Cardinals and Giants "carrying on" within a respectable distance back of them, the National League race has developed into a pretty affair but the American League Marathon, with the Yankees away out in front, and alone, is beginning to resemble a farce.

All four leading National League clubs whipped their second division competitors yesterday. The Giants, who finally are pulling away steadily from the 500 mark and getting into the thick of the race, nipped the Reds, 3 to 2. Hornshy's homer and single accounted for all of New York's runs. It was Hornshy's sixteenth home run of the season. The third place Cardinals broke a 4 to 4 tie in the eighth by scoring four runs against the Phillies and

put the game on ice, the final score being 9 to 6.

The Pirates beat Brooklyn, 2 to 1, getting to Dazy Vance for a run in the eighth and another in the ninth after he had pitched sensational ball. Vance fanned 11 Pirates but Carmen Hill, the Pittsburgh pitcher, was stinger with hits if less spectacular. The league leading Cubs took a 6 to 2 victory from the floundering Beavers with neatness and dispatch.

Only six points separate the Cubs and Pirates in the battle for first place. Chicago's percentage being .638 as against .530 for Pittsburgh.

Babe Ruth smashed his thirtieth home run of the season, and incidentally, the Yankees won another game, beating Cleveland, 7 to 0, and strengthening New York's already commanding lead. Shocker

allowed the Indians only seven scattered hits.

Washington continues to play winning ball, downing Detroit 9 to 6, but the Senators can hardly be regarded as a threat to the Yankees as they are 112 points behind. The third place White Sox went on a batting spree, driving Rommel and Pate off the mound and winning from the Athletics, 8 to 5. The Red Sox surprised no one by losing again, St. Louis taking them 6 to 5. Sisler's home run in the ninth with two on spelled bad news for Boston.

What does ROUGH CUT mean to you?

THIS rich full-flavored old Burley is a particularly cool-smoking tobacco to begin with... Wellman's Method makes it cooler—but the "rough cut" supplies the finishing touch.

For remember, this is PIPE tobacco, hence it is cut in the one way pipe tobacco should be cut—in large, coarse, shaggy flakes that burn slower, smoke cooler, and last nearly twice as long. Smokers tell us it's the coolest cut of all!

Polish Spy Sentenced To Death in Moscow

MOSCOW, July 12. — (INS) — Serge Denisovskii was sentenced to death today without the right of appeal on charges of having acted as a spy for Poland. In a final plea against the imposition of the death penalty, Denisovskii declared he had turned down a chance to earn big money in the United States because he did not want to be an hypocrite. He declared he had been approached regarding a trip to the United States to offer testimony in a sensational case. His testimony was that the plaintiff in the case was a dangerous communist.

Paulino Will Meet Harry Wills Tonight

NEW YORK, July 12. — (INS) — At Ebbets Field tonight the 1927 Wills model of a fly cranked up by Senor Paulino Uzcudun for a head split which may possibly develop into a non-stop flight of 15 rounds.

There is some doubt as to whether the old engine is still firing evenly. If the old spark is still there, it may be a surprise, and knock Senor Uzcudun back into the recesses of the Pyrenees. Observers see in the bout a chance for Harry Wills to stage a come-back. He tried once before when Jack Sharkey dropped him in the eighth. Wills has not fought since the Sharkey affair.

Shaking Hands

A despatch from Berlin gives an interesting account of a recent experience of President Von Hindenburg. The former German war lord, who is a powerfully built man and appears to have a grip of steel himself, suffered some embarrassment when an American, fresh from America, rushed up to him and shook his hand.

This is an unfortunate complex which many persons of this country seem to have. They think that to grab a man's hand near the finger tips and squeeze it until the blood oozes out under the nails is strongly indicative of their great muscular development and manhood.

Perhaps the impression is sometimes put across, when a man displays an iron grip, that he is a modern Sandow, but it is equally true that he is liked none the better for it.

But speaking of handshakes, how much can be told of a man's character by the way he shakes hands! There is the man of the soft clammy type; his personality is as obvious as his handshake.

Watch your handshakes. They are an indication of your character.

Help Save "Old Ironsides"

The good ship Constitution, proud and undaunted by her battle scars though she be, now rides the seas imminently in danger of destruction.

In the present campaign it is planned to sell three million pictures of the old ship at twenty-five cents each. With this money the vessel can be put in first class condition for the proposed voyage to the various seaboard cities of this country.

So Sanford people must do their bit. "We must buy a picture, "Old Ironsides" has to be saved even if from sheer starvation our own sides cave in on us.

THE AMERICAN DELEGATES at Geneva have not emphasized this country's power to build. They have offered a treaty limitation plan which would hold cruiser strength within moderate limits, although involving much new construction on our part.

A SLAP ON THE BACK

At the critical point in the final match of the mixed doubles championship at Wimbledon, the male member of the victorious American tennis team is described as having walked across the court and having encouraged his tired but plucky partner, Miss Ryan, who had played two previous matches the same day.

What would have happened back in the "gay nineties" if some earnest youth in full sight of the gallery, including her fond mamma and other relatives, had endeavored to "back up" his partner in similar fashion?

UNENFORCEABLE LAW

The state road department is preparing to play its role in connection with the "Stop, Look and Listen" law written into the statutes by the late unlamented legislature for the benefit of the railroads of Florida.

The engineering division of the department has been instructed to make a survey of the state with the view of ascertaining where the stop, look, and listen signs are to be erected.

These signs may do some good in calling the motorists attention to the proximity of a railroad crossing, but, probably, not one in a thousand will obey the law by stopping. At least, this has been the experience in other states where similar statutes have been enacted.

Speaker Davis, of the house, who bitterly fought the measure, succeeded in amending it making the penalty for violation a fine of two dollars and costs not to exceed amount of the fine.

The law was sponsored by the railroad lobby, not a humanitarian measure, but one to relieve the carriers of liability in case of accident.

Mrs. Howard Long Is Hostess At Bridge In Honor Of Mrs. Parker

A pretty compliment to Mrs. Paul Parker of Hammond, Ind., the guest of Mrs. Howard Long, was the bridge party given Wednesday morning by Mrs. Long at her home on Park Avenue.

A colorful background was arranged with a variety of cut flowers, with roses and zinnias predominating.

Tallies in the forms of roses and other cut flowers were used in keeping scores for the game, and at the conclusion of the usual number of progressions, scores were counted and the prize for the highest score, an embroidered guest towel was given Mrs. Lee Peck.

For cutting the lucky card, Mrs. Henry Purdon received a pin cushion designed as a Colonial Dame. Miss Ellen Mahoney was consoled with a bottle of bath crystals for having made low score.

Mrs. Parker the guest of honor was presented an exquisite handkerchief as a gift from her bestess.

After the prizes had been awarded, the hostess served tasty refreshments consisting of a salad and an ice course.

Those enjoying the cordial hospitality of Mrs. Long, were: Mrs. Paul Parker, Miss Ellen Mahoney, Miss Margaret Cowan, Mrs. L. P. Hagan, Mrs. Lee Peck, Mrs. Henry Purdon, Mrs. Jack Hewitt, and Mrs. James F. Hawkins.

Mrs. Herbert Spier Is Hostess Wednesday To Jenny Spaulding Circle

A most interesting meeting of the Jennie Spaulding circle of the First Baptist Church was held Wednesday afternoon at the home of Mrs. Herbert Spier on Palm-to-Avenue.

The circle chairman, Mrs. J. Ashley Kelley, led the devotional exercises and also presided over the business session. The mission study class which include the "Crusade of Compassion", was conducted by Mrs. E. M. Carroll, and the lesson for this meeting was taken from First Samuel.

The circle was invited to meet Wednesday at Coronado Beach as the guest of Mrs. Hester Fellows. All members are requested to meet at nine o'clock at the home of Mrs. Herbert Spier, and go to the Beach in a body.

After the business had been transacted the social hour was enjoyed, during which time the hostess served ice cream and cake. The Spier home was attractively decorated for this occasion with bowls of daisies and ferns.

Members attending this meeting were: Mrs. John D. Abrahams Mrs. E. M. Carroll, Mrs. Brancy Beck, Mrs. James Cunningham, Mrs. J. D. Cochran, Mrs. A. B. Lovejoy, Mrs. J. VIEWS OF LAKE, MEISCH DIFFER ON BOND SALES

(Continued from page one) county bonds have brought a better price than the city bonds because the bonded indebtedness of the county is not as great in proportion to its assessed valuation as that of the city.

The mayor continued as follows: "The assessed valuation of the county is about \$12,000,000 and its bonded indebtedness is about \$2,000,000 while the city's assessed valuation is \$19,000,000 and its bonded indebtedness is over \$5,000,000. These two figures always influence bond houses in their bids and the fact that the county had a lower ratio of indebtedness than the city is the reason the county board received a larger price for its bonds than the city."

The mayor insisted that had the city an assessed valuation of \$28,000,000 to \$30,000,000 as he declared it should have, the municipal bonds would have brought a premium, instead of 95, the figure which he announced the bonds brought.

Mayor Lake further stated that the two utility plants, the golf course and 50-odd miles of paved streets, usually classed by the city as assets against its indebtedness, are not considered by the bond houses and have no effect upon their bids.

According to Vance E. Douglas, clerk of the circuit court, the assessed valuation of the county is \$10,828,486 and the bonded indebtedness is \$2,237,000. City Clerk L. R. Phillips submitted figures showing that the city's assessed valuation is \$19,450,748 and the total bonded debt is \$5,375,000 including straight bonds in the amount of \$2,176,000 and special assessment and utility bonds totaling \$3,179,000.

PAULINO KNOCKS OUT HARRY WILLS IN FOURTH ROUND

Veteran Negro Heavyweight Is Sent Into Oblivion After Attempted Comeback; Fight One Of Worst Seen In Gotham

NEW YORK, July 14.—Harry Wills, the late "black menace" of the prize ring, today went into pugilistic oblivion. He is through, positively, this time.

Equipped with a ferocious scowl and a pair of long, gorilla-like arms and handicapped by a pair of leaden feet, Wills faced Paulino Uzcudun, the colorful Spanish heavyweight, in the ring at Ebbets Field last night. For three rounds he was unquestionably the worst heavyweight fight seen here in years but in the fourth the Bouncing Basque slipped under the giant negro's left arm and whacked him a right hook to the chin. Wills fell like a log.

It was the first real blow that the short-armed Paulino landed. Wills lay on his back, the whites of his eyes rolling. As the referee began to toll the count, Wills squirmed to a half-sitting position and regarded Paulino with a sickly, bewildered look. At the count of nine he arose, groggy, and weakly extended his long left for protection.

Paulino rushed headlong at the giant negro. He shot a flurry of rights and lefts at Wills' head, a left hook finally clipping him on the point of the chin. Wills went back against the ropes, limp and spent, reeled and fell.

This time Wills did not hear the count. He was out.

Paulino promptly turned a flip-flop in the ring and otherwise, in his inimitable manner, exuded his delight.

Sitting at the ringside was Jack Sharkey, world's heavyweight championship contender, who whipped Wills in thirteen

WORKS OF ART FINDING WAY TO THIS COUNTRY

American Millionaires Making Many Purchases Abroad Of Art Gems And Antiques At Cost Of Many Millions

Europeans Fearing For Their Galleries

New Regulations Are Issued By Customs Commissioner Governing These Imports

By ROBERT S. THORNBURG International News Service Staff Correspondent

WASHINGTON, July 14.—Unless a halt is called by Europe, the United States soon will have an imposing monopoly of the world's best art, it was disclosed at the treasury and commerce departments today.

Lured by the gigantic flow of foreign gold to the United States, art works, many of them dating in origin back to the beginning of civilization, are finding their way into American galleries and private homes of connoisseurs in ever increasing numbers.

The rapid export of art gems from Europe already has attracted attention on the continent with a rising fear that the predominance of the great galleries of London, Paris and Rome may be jeopardized by the magnificent collections valued at many millions of dollars, while the galleries in this country are steadily increasing their possession of art works of rare worth.

Since the war, art-treasures valued at about \$250,000,000 have been imported, most of them from Europe. The importation this year is estimated at over \$80,000,000, about \$50,000,000 of which consists of art works produced more than 100 years ago.

Because of the rapidly increasing buying, E. W. Camp, customs commissioner, today issued new regulations governing this class of imports.

Duty free entrance is granted to "artistic antiques", excepting rugs and carpets, produced 100 years prior to the date of importation. In the exempt class are bronzes, statuettes, vases, pottery and porcelain and ornaments of educational or ornamental value, according to Camp's order.

Regulations also were issued bringing from duty free entrance terra cotta statues of religious character for use in cemeteries or outside of churches. The tariff laws provide no duty on religious statues or paraphernalia, but Camp ruled that to meet the requirements of the act, articles of this character must be for use within churches or religious institutions.

CHICAGO, July 14.—(INS)—Miss Mildred A. Doran, school teacher of Flint, Mich., hopped off from Checkerboard Field here today on the second leg of her proposed flight from California to Hawaii. The plane was piloted by Augie Pedlar. The destination was Tulsa, Okla. William F. Malloska, wealthy business man, who is backing the trans-Pacific hop, was a third passenger. Miss Doran completed hopping off for Honolulu August 11.

POISONED BY GASOLINE JOHNSON CITY, Tenn., July 14.—(INS)—Winston Shupe, 17, died late yesterday as the result of poisoning from gasoline inhaled while attempting to siphon gasoline from the tank of a truck. Young Shupe was getting gasoline to aid a stalled motorist at his home near here by the use of a small hose and accidentally swallowed some of the gasoline.

rounds last September. "Wills certainly wasn't that terrible when I fought him," said Sharkey.

"How about Paulino—he's a real contender now," Sharkey was asked.

Sharkey regarded the flip-flopping Spaniard with derision. "I only hope," he said, "that I get a shot at that Paulino, before some one else does. He is awful."

LURE OF PARIS OUSTS RENO AS DIVORCE MECCA

Joy Of European Trip With Gay Life Is Winning Over Appeals Of The Nevada City

NEW YORK, July 14.—(INS)—Reno is losing its prestige as the divorce mecca of wealthy and socially prominent Americans. The lure of Paris and the Seine Tribunal, where marital misfits are "undone" with a minimum of inconvenience and discomfort, are making serious inroads into the heretofore prosperous industry of the Nevada desert metropolis.

First, there is the trip itself. Which is more pleasant than the pleasure of an ocean voyage on a comfortable and commodious trans-Atlantic liner, equipped with every luxury, landing one at Havre or Cherbourg, with a short boat-train trip to Paris, all within week, to five days across the American continent abroad a cramped and stuffy train to Reno?

A Short Wait And then the wait of a few months to establish a residence and get a separation decree. How much pleasanter that time can be spent in Paris with its operas, revues, cabarets, night clubs, boulevard cafes, dance palaces and what not, than in Reno with its scant 12,000 population, and virtually nothing to do but wait there on the fringe of a desert and mountain waste.

The answer is clear, Paris wins. And to prove it the United States census bureau which delves into all kinds of statistics, is just out with figures showing how Reno's divorce industry is on the decline.

In 1925 courts in the State of Nevada granted a total of 1,082 divorces of which 798 were awarded at Reno. In 1926 the State's total had slumped to 1,021, with Reno's quota down to 756, a loss for the State of 61 and for Reno of 42 in the year.

Reno Loses Ground It may be a bit surprising to discover that as Reno is losing ground in divorces it is gaining in marriages at a rate that within a few years promises to elevate the marrying person to a higher pinnacle than the divorcing judge.

In 1925 Nevada had 1,122 marriages, which in 1926 jumped to 1,228, a gain of 106. Reno's share in 1925 was 513, which had increased in 1926 to 558, a gain of 45, a bigger gain in marriages than loss in divorces.

The last year was no exception. The trend has been about the same for several years since Americans began flocking to Paris to do their

Shrine Is Established To President Monroe

FREDERICKSBURG, July 14.—(INS)—A shrine to President James Monroe was established here today through the purchase by Laurence G. Hoes, of Washington, a great-grandson, of the old building used by the former president as a law office.

The property will be restored by Hoes to its original state and in it will be kept a permanent collection of souvenirs and relics owned by Monroe and his descendants. Included are the court costumes worn by Monroe while ambassador of the Court of Napoleon, a duelling pistol, a desk used by Monroe in the White House, a lock of Monroe's hair, the dress worn by Mrs. Monroe at the court of St. James while her husband was ambassador to England, and a number of pieces of furniture and letters and documents of historic value.

Whoopin' It Up For Cal and Ma

When a cowboy band from Terry, Mont., came clattering down the trail to the Black Hills game lodge where President Coolidge is vacationing, they brought along a nice cowboy suit with Cal's nickname worked on either side of the chaps. The president donned the picturesque dress of th old wild west and the boys whopped it up for him.

Blue Blood Lived Up to Her Name Now We Have Pirates of the Air

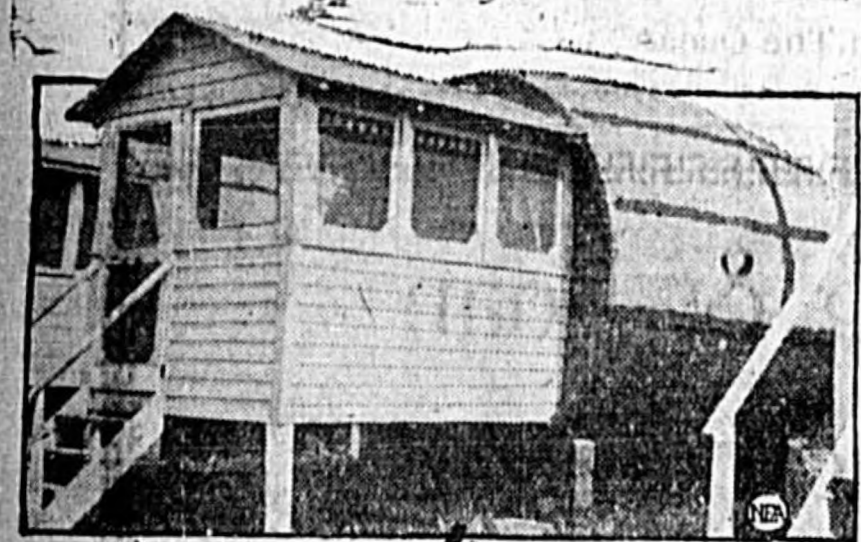

Here's one filly whose name is not a misleader. She is Blue Blood whose winning of a race at Homewood paid backers \$365. \$10 for a \$2 pari-mutuel ticket. L. C. Everett, owner is shown congratulating Jockey L. Hardy on his splendid ride. By the way, he had \$20 bet on Blue Blood.

C. C. Julian, Los Angeles promoter who owns station KMTR, started out one night recently to broadcast the "inside facts" of the collapse of the Julian Petroleum Company, with which he formerly was connected. Immediately shrieks and howls rent the air. Julian's voice was drowned out whenever he tried to broadcast that night. Julian has asked the federal radio control body to investigate. Experts say another station interfered.

"Rum Row" Ready for Summer

How 'Bout Pa 'n' Ma Vanderbilt?

Grace Vanderbilt, 27, one of the world's richest heiresses, reported engaged at one time or another to half a dozen titled Europeans, has just settled the marriage matter definitely by becoming Mrs. Henry Gassaway Davis Jr. Henry is 25. He is pictured above with his bride. Grace didn't consult the wishes of her parents, General and Mrs. Cornelius Vanderbilt, about the ceremony. She just hurried to the New York City Hall with Henry for a civil wedding witnessed by a policeman. Father and Mother Vanderbilt were pleased, 'tis said.

Miami Beach Finance Officer Believed To Have Stolen \$24,000

MIAMI, Fla., July 14—(INS)—State, county, and city officers were today seeking W. A. Means, of Miami Beach, an employee of the city finance department, following the discovery late yesterday of a shortage in municipal funds estimated at \$24,000. According to C. L. Huddleson, city finance director, the missing cash is largely money received in a last minute rush to pay taxes and which means is alleged to have been handled under a surety bond of \$5,000. The missing clerk is reported to have gone to Atlanta, his former home, for the Fourth of July vacation, but he failed to return. He has not been heard of since. EX-EMPEROR OF CHINA IS NOW A COMMON CITIZEN

Henry Pu-Yi Lives Quietly At Tientsin With His Two Wives Prefers His Present Life To That As Emperor

PEKING, July 11—(INS)—Henry Pu-yi, common Chinese citizen of today, but once occupant of the Dragon Throne, may have little political acumen, but he has a number of other little tricks with which to amuse himself and two wives in their Tientsin retreat. The Manchu Emperor Hsuan Tung as he really should be called, has just passed his 21st birthday and although he personally is very anxious to travel abroad, the Imperial family blocks his desires. Therefore he lives in the Japanese Concession Tientsin in a foreign style house. Outstanding among the tricks of Hsuan Tung is that of changing spectacles with one hand. Bad eyes make it necessary for him to wear two kinds of glasses and when he wishes to change he fascinates his wife by deftly picking up a pair from the table and switching them into place of the removed pair in the twinkling of an eye. There is not the slightest expectation in the mind of anyone, much less of Henry Pu-yi that he or anyone else will ever ascend a Chinese throne again, hence his contentment at being a plain citizen. In fact, he much prefers his quiet life in Tientsin to his earlier days in the Forbidden City in Peking with its mock ceremonies and hundreds of watchful retainers. Practicing the time honored art of writing beautiful Chinese characters, enjoying American moving pictures, and reading, Henry Pu-yi and his wives lead an easy life in comparison to the precarious and wearing existence of those who strive to rule the Chinese nation today.

Ford Officials Won't Talk On Pipp Charge

DETROIT, Mich., July 14.—(INS)—Officials of the Ford Motor Company and the editorial staff of the Dearborn Independent today refused to comment on the charges made by E. G. Pipp, former editor of the Independent, that Henry Ford personally ordered the publication of every anti-semitic article appearing in the Dearborn Independent. Pipp's charges are to be published July 15 in the American Hebrew. "You fellows are afraid to print those attacks on the Jews. Now, I want them printed and I will take full responsibility," Pipp quotes Ford as saying in 1920. Ford disclaimed all responsibility for the articles in his public apology to the Jews last week.

and otherwise attempt to improve and relieve the public. F. H. Seeley, of Chicago and Philadelphia, the noted expert will personally be at the Angelika hotel and will remain in Orlando Friday only July 15th from 9 a. m. till 5 p. m. Mr. Seeley says:

"The Spinal Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. Being a vast advancement over all former methods—exemplifying instantaneous effects immediately appreciable and withstanding any strain or position no matter the size or location. Large or difficult cases, or incisional rupture, following operations, specially solicited. This Shield and its Spinal, produces results without surgery. Includes those medical treatments or prescriptions."

CAUTION

All cases should be cautioned against the use of any elastic or web truss with under straps, as same tend to increase the rupture and not where the opening is producing complications necessitating surgical operations. Mr. Seeley has documents from the United States Government, Washington, D. C. for inspection. He will be glad to demonstrate without charge or fill them if desired.
