2 Youths Arrested For Obscene Calls

By BILL SCOTT

Sanford police have arrested two youths, including a 16-year-old juvenile, for making harassing and obscene telephone calls to a Sanford funeral home.

Detective William Lykens announced today that Jessie D. Mitchell, 17, 508 Myrtle Avenue, and the juvenile had been charged after a tracer had been placed on phone calls coming into Brisson Funeral Home, 905 Laurel Avenue.

Lykens said Brisson had been receiving harassing type calls and a tracer had been connected to the line so authorities could catch the caller.

A recording of the calls, taped as they were made and containing the voices of two youths is among the evidence gathered by Lykens and Detective Ralph Russell in the investigation.

Mitchell has been released after posting \$202 bond and the juvenile was remanded to county juvenile authorities, the detective said.

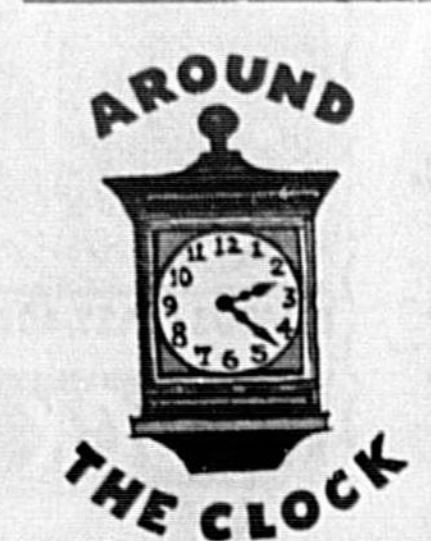

In another case, Detective Tom Deppen has arrested a 34-year-old roofer on a robbery charge.

Eugene Scott Greenleaf, 507 W. 7th Street, Sanford, was arrested Sunday in connection with the Thursday night robbery of C. C. Flowers, 303 Holly Avenue.

Greenleaf was jailed in lieu of \$1,000 bond in connection with a robbery and shooting at the Flowers home.

Flowers told investigators two men forced their way into his home after posing as salesmen and took \$10 cash, a gold watch and a revolver from him in a Thursday night incident.

He said one of the men fired his revolver into the floor and threatened to "blow his head off."

AROUND THE CLOCK

By JOHN SPOLSKI

Bill Warden, PR man for FTU has apparently been over-coming by all the publicity given events going on in his area this weekend. When he called this morning on the phone he identified his office as being "Econ Ranch West."

Something for everyone? One of the local bistros was advertising this week not only "Go-Go Girls" but a "Go-Go Boy" as well. Topples?

When is the city going to remove those "coffins" from the "backfront" most depressing sight in Sanford, especially for visiting tourists.

How about that trailer park which was sold this past week... for a quarter million dollars. Tentative plans call for the construction of these mobile homes in the same location, too.

Just knew that "that day" was right around the proverbial corner, or is this the end of the rainbow? Plumbers down in Miami making a slight demand for a slight increase in the green stuff... like doubling their present salary and give them a six-hour work day!

That's fine... except I won't be able to afford them nor their services at \$14.12 an hour.

Didja get the message... that Florida drivers will switch to mail-order purchases of computer-written drivers licenses July 1, or so says the Department Safety and Motor Vehicles.

From the mallbag: Probably one of the most prolific letter-writers to the Editor-writer is Delia's Walter Baybel, who opines: "Re Wildcat Strike—One must admire how Uncle Sap and his stooges in light of their recent pay raise avoid the real issue junk mail which also includes newspapers."

And to that all I can add is I thank you for reading ours... and keep those cards and letters coming, folks.

From the mallbag: Stephanie Cornett, a 10th grade student at Seminole High School, was one of 34 Florida teenagers selected to go to an international institute at Estes Park, Colo., July 30-24. That's all the info in the note and the office at SHE knew nothing about it. We're interested... what kind of an institute?

One can never pay in gratitude, one can only pay "in kind" somewhere else in life.

Dear Abby... Anne Morrow Lindbergh

1 Plant Closes, 2nd Eyes Base

By BILL SCOTT

Future Sanford Airport operation of a modular home Everglades division of Manley Construction Company, visited the airport facility Thursday to look over the Vintage properties and the result was an agreement to take over the mobile home manufacturing industry for conversion into a modular type home manufacturing operation, Carden advised.

Vintage blamed the present economic conditions of the state for the decision to cease Sanford operations and stressed that no person or group was at fault for the unsuccessful airport situation.

Carden said he was happy that an arrangement had been made whereby the Vintage employees might be retained on whether the SIC will grant our successor a satisfactory lease, so Manley can begin the re-hiring of the 80 persons formerly employed by our company," Carden advised.

The official explained that Manley would not want to move \$100,000 worth of equipment to Sanford just for a six-month lease, which has been offered by the SIC, Carden said.

Robert McQuady with the Everglades division of Manley Construction Company, visited the airport facility Thursday to look over the Vintage properties and the result was an agreement to take over the mobile home manufacturing industry for conversion into a modular type home manufacturing operation, Carden advised.

Vintage blamed the present economic conditions of the state for the decision to cease Sanford operations and stressed that no person or group was at fault for the unsuccessful airport situation.

Carden said he was happy that an arrangement had been made whereby the Vintage employees might be retained on whether the SIC will grant our successor a satisfactory lease, so Manley can begin the re-hiring of the 80 persons formerly employed by our company," Carden advised.

The official explained that Manley would not want to move \$100,000 worth of equipment to Sanford just for a six-month lease, which has been offered by the SIC, Carden said.

Car Theft Suspect Drowns In Lake

By TOM ALEXANDER

One of two men believed sought for car theft in Casseberry was discovered this morning floating in Lake Marie, just off Seminola Boulevard, in the Quintpet chain of lakes in Casseberry.

The body was identified by Casseberry Police Chief Donald Brumley as Alvin R. Smith, 26, of 644 Summerlin Avenue, Orlando. The floating body was discovered at 7:49 a.m. today by a lakeside resident.

According to Brumley, Smith and another man were being sought in the theft of two cars last weekend. Brumley told The Herald that a car was stolen in Winter Park on Sunday morning, March 22.

The men apparently drove the stolen car to Casseberry where it became bogged down in mud in the Lake Howell area. The Casseberry police department received a prowl call at 4:09 a.m. to the Lake Howell area and upon arrival of police units the two men, were seen taking another car from 263 Wiltshire Boulevard Casseberry police officers John Hendy and Robert Hammell proceeded to chase the car down Winter Park Drive and then east on Seminola Boulevard.

The men apparently turned into a dead-end driveway and hit a pine tree. Both men jumped from the car and ran in separate directions.

Moments after abandoning the auto, a cry for help was heard by a Lake Marie resident but no trace of anyone could be found. Sheriff's divers, and the Casseberry Fire Department searched Lake Marie without success.

Justice of the Peace Thomas Lovett pronounced Smith dead and his body was taken to Seminole Funeral Home.

Casseberry police are continuing to search for the other man involved in the thefts.

Cable TV Pact Pondered

Sanford City Commission will meet in an adjourned meeting at 7:30 p.m. tonight at the city hall to hear from four firms making proposals for community antenna television installation in the city.

Commission, at 30 minute intervals, will meet with representatives of Teleprompter Corporation, Seminole Cablevision, Sanford Community Television and Times-Mirror.

After hearing from each firm, a decision is expected to be made and one company selected for the service.

Also scheduled on the short agenda are reports from the city manager on C&TV and bids for a tractor and mower for the airport.

Next regular commission meeting is scheduled for April 12.

Visit Boot Camp

Visit Camp Lejeune and the U.S. Marine Corps with Associate Editor John A. Spolski in tomorrow's Sanford Herald.

This state-wide exclusive story and pictorial review will present interesting comments from "grunts" and the generals.

A helicopter-pilot hero will describe his feelings at being shot at by the VC's... and also remind the taxpayers that depreciation on a chopper is \$650 per day!

Is it the military which keeps on getting us into wars? Not so says the commanding staff of generals at Camp Lejeune.

Read about the horrible booby traps which account for most of our casualties, and how this country does not permit its troops to react in a similar manner.

DIDJA GET YOURS, SATURDAY? Census crew leaders from Seminole and North Orange Counties were hard at work this morning at Casseberry City Hall receiving instructions for their task of taking the 1970 census in these areas from Bert Palmer, supervising crew leader. (Jane Casseberry Photo)

Key Census Personnel Appointed For County

The appointment of key personnel in the 1970 Census of Population and Housing in Orange and Seminole Counties was announced today by District Manager, Miss Ellen Brumback.

Mr. Ted Yale, Field Supervisor, will have George McLean, Orlando and Burdette A. Palmer, Jr., Winter Park assisting him as Supervising Crew Leaders.

McLean and Palmer will train the 27 Crew Leaders. Their training will be a three-day course beginning March 30. Training locations will be the South Orlando First National Bank and Casseberry City Hall.

Each crew leader will supervise eight to 16 enumerators in the big nationwide census that begins April 1. Topics being covered in the training sessions include procedures for canvassing methods, preparation and submission of reports, and supervision of enumerators to insure a complete and accurate count.

If your household has not received a 1970 census form the mail, the Census Bureau wants you to call this number — 299-1930.

If you did receive a form and after studying the yellow instruction sheet that came with it, are still puzzled about how to mark the answers to the questions, call this number and a trained census worker will help you.

The crew leader is one of the key people in the field operations of the 1970 Census. It is his responsibility to train the enumerators; to assign each one to an enumeration district; to review the work of each and see that it is correct; and to handle problems of difficult enumeration.

Names and addresses of crew leaders follow:

Tim L. Adams, Orlando; Leonard H. Andrews, Altamonte Springs; Herbert J. Ben-

son, Orlando; Ruth Bostwell, Sanford; Robert C. Brown, Orlando; Charles E. Busch, Orlando; Dorothy Deans, Sanford; Delmar M. Drake, Orlando; Col. Carl Duff, Winter Park; Hazel J. Dunlap, Orlando; Mrs. Jesse Fortenberry, Orlando; Betty Garrard, Orlando; George R. Hand, Winter Park; Alice W. Jones, Orlando; Eugene Kuhn, Winter Park.

Also Arthur N. Lago, Casseberry; Francis Luis LeMay, Orlando; Donald E. McMahon, Orlando; Gordon C. Mellish, Orlando; Mary E. Reeves, Orlando; William Sawyer, Orlando; Thomas James Sheridan, Lochloosa; Nina Mae Spence, Orlando; Patricia Barry Squires, Winter Park; Beverly L. Taylor, Orlando; Ronald Wehrheim, Orlando; James M. Palmer, Chuluota.

County Aide To Be Discussed

By MARION BETHA

Seminole County Commission face a relatively light agenda at tomorrow's meeting.

It was pointed out that the position would be a benefit to the county in services rendered and that the assistant would not detract from the work and responsibilities of the commissioner, but would do time consuming "leg work" in investigating and appraising various situations.

The road superintendent will make a report regarding Oakland Road in Altamonte Springs, and the Oakland Hills Association will be represented relative to a special lighting district.

The public hearings will see the continuation of the petition to rezone property north of SR 436 and west of Palm Springs Road from A-1 to C-2. The developers of the cross-country shopping center are requesting additional rezoning of 30 acres to 60 acres presently rezoned. Additional space will be utilized for parking and a third department store.

A public hearing will also be held on a request for a special exception to park a trailer in a C-2 commercial zone on property west of Highway 441 at McNeil's Villa.

Careers For Future Outlined To Students

By **LIZ MATHEUX**
 Oviedo High School was host to 15 businessmen in a Career Day Program.
 A luncheon prepared by the Home Economics II class, under the supervision of Mrs. Janet Conley, teacher, was served to those present.

The stated purpose of a Career Day was to acquaint students with the various opportunities which exist in the 15 areas where there is the greatest amount of student interest. The Cooperative Education Club assisted in conducting and tabulating a survey of the student body to ascertain the areas of greatest occupational interest.

Representing agriculture was Frank Jass, Seminole County Agriculture agent; airlines industry, Chuck Cooper of Eastern Airlines; automobile industry, Bill Baker, owner of Bill Baker Volkswagen; banking and investment, L. H. Webb, Citizens Bank of Oviedo; barbering, Jack Carter, of Orlando Barber College; beautician, Mrs. Morgan, Orange County vocational school; data processing, Randall Johns, Volusia County data processing center; and electronics and engineering, Mrs. Vera Aloisi, Dymatronics training coordinator.

The fields of fashion design, commercial art, and modeling were presented by Mrs. Deanna Callison, of Wendy Ward Churn Center, Montgomery Ward, food service, David Walker, Frisch's; industrial occupations, Allen

It cleans itself...
 aren't you glad you switched?
 Remember the messy chore of oven-cleaning? Turn a dial and the newest electric ranges clean their own ovens. That's a work saving. And everything they do, they do electrically. That's a money saving. You see, electric ranges are the biggest bargain in your budget. While other ranges have soared, electric service has gone down in cost. The average price paid per kilowatt hour by HPL-served families today is one-cent less than it was in 1957. How's that for a switch in these inflationary times?

President Flying To Washington

By **FRANK CORNER**
KEY BISCAYNE, Fla. (AP) - President Nixon was flying back to Washington today for an evening conference with Postmaster General William F. Ryan and other officials. The president is expected to return to Washington today for an evening conference with Postmaster General William F. Ryan and other officials. The president is expected to return to Washington today for an evening conference with Postmaster General William F. Ryan and other officials.

Faircloth Asks New Powers

TALLAHASSEE, Fla. (AP) - Atty. Gen. Earl Faircloth has asked the Legislature to amend Florida's 1968 "anti-Mafia law" and grant his office power to issue subpoenas before filing suits against a business believed infiltrated by organized crime. Faircloth says he needs the subpoena power to "compel the attendance and testimony of witnesses and the production of books, records and other business documents."

Would-Be Rock Fete Dies; 50,000 Quit

ORLANDO, Fla. (AP) - The Winter's End rock music festival came to an end today with a beginning. Facing an order to disperse by noon, would-be festival goers scattered by the thousands during the night - leaving only a remnant of the crowd once estimated by Orange County sheriff's officers at 50,000. Gates to the muddy field on Eon Ranch, a "dude" tourist attraction near Orlando, were closed to newcomers at 9:30 p.m. Sunday. Music-makers playing without a permit were told to silence their beat by sunrise.

Postal Negotiations Start Tonight

WASHINGTON, D.C. (AP) - Postal negotiators and union leaders are expected to begin a series of telephone conferences with Postmaster General William F. Ryan today. The negotiations are expected to begin tonight. The negotiations are expected to begin tonight.

Editorial Comment

Legislative Audit: Well Worth Remembering!

Next week the 1970 regular session of the Florida State Legislature will convene. Before then there will be successive blasts of political charges and countercharges. Partisanship will color much of what the voters will see, hear and read.

The other is that the economic climate of 1970 where inflation is eating up the consumers' dollars, higher wages are cutting into normal profits, the readjustment of the economy under the Nixon administration have made everyone "pocket-book" conscious.

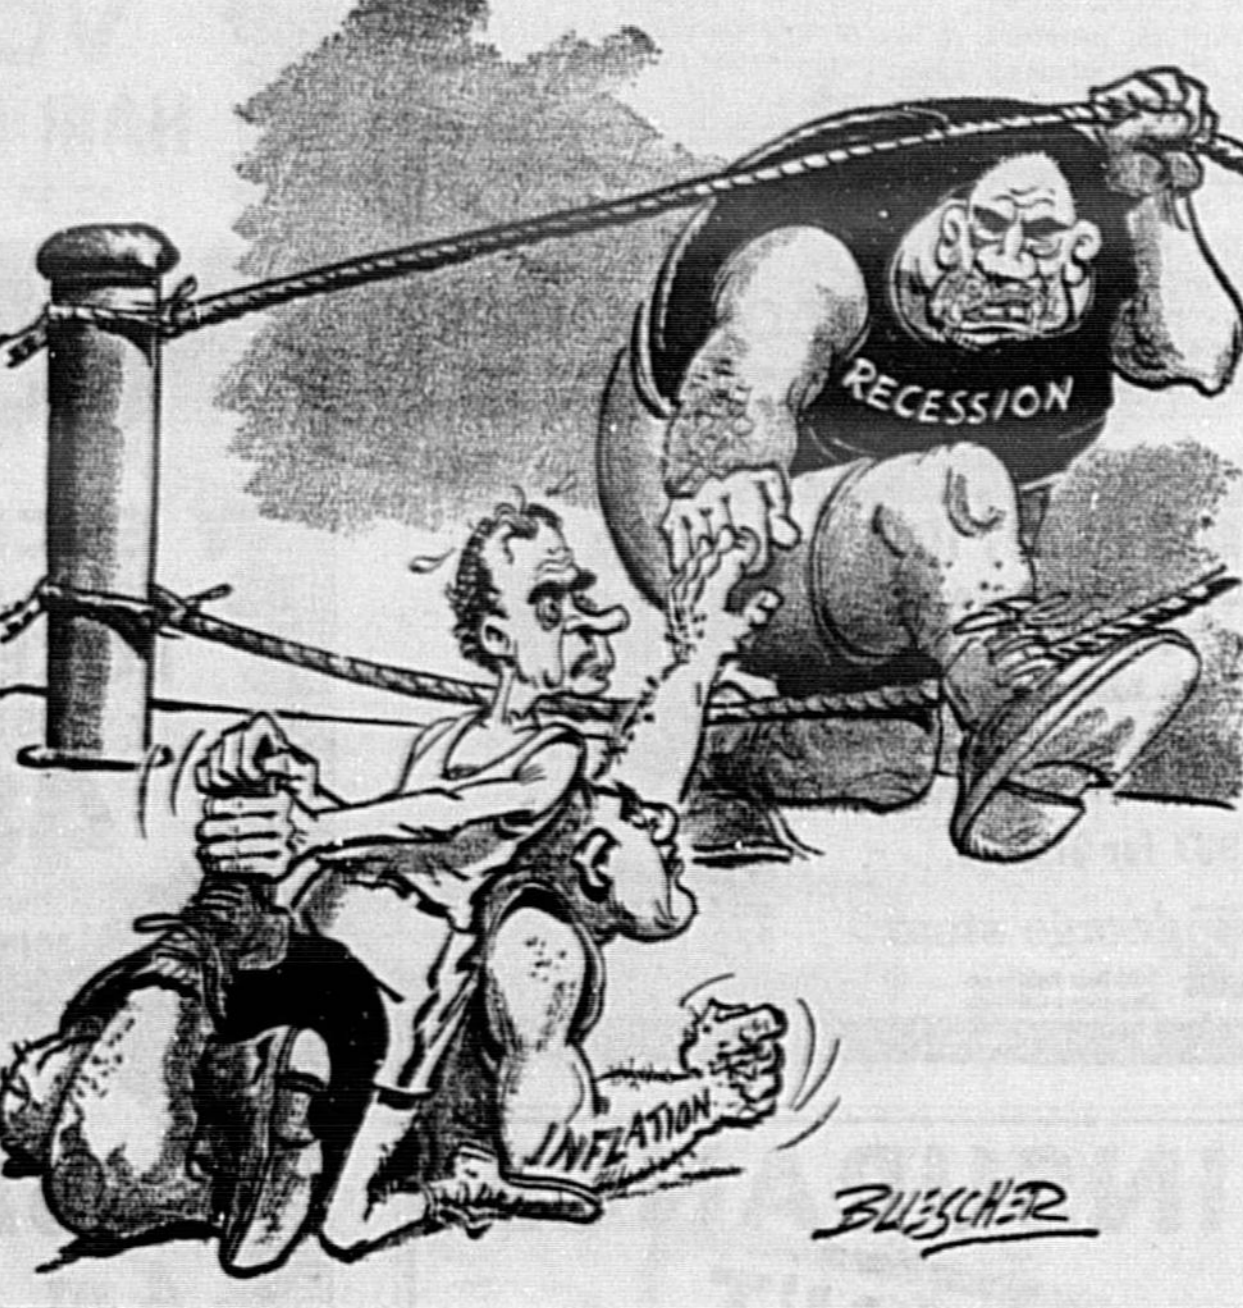

attitude regarding the spending of taxpayers money which was so much remembering. It was during the opening days of the 1969 regular session that the legislators, in an eye-opening display of poor management, enacted and passed over Gov. Claude R. Kirk, Jr. (R) veto a salary adjustment which allowed a wave of criticism to mount to proportions which never have been reached.

reputation of Florida itself. We need with some satisfaction the expression of willingness by both Senator John Mathews (D) President of the Senate who seeks the Democratic gubernatorial nomination and House Speaker Fred Shultz (D) who wants the Democratic U.S. Senatorial nomination, to pay heed to the message of the audit.

Real Good News

Better communication is the name of the game so far as real progress is concerned. For communication provides a base of broad understanding on which actions stemming from sound decisions can be logically supported.

ANNA LEA HERMAN HEARD, daughter of MRS. BESSIE P. HERMAN, is among the 37 seniors who completed requirements for the bachelor or arts degree at LaGrange College (Georgia).

A 1966 graduate of Seminole High School, Anna Lea was married to Foreman Heard, also an LC graduate, last winter.

The County Club Road home of Mrs. J. M. Steakley was the relaxed setting of an after-dinner coffee, March 21, honoring Miss Donna Galt Routh, bride-elect of Daniel Hubert Smith.

Sharing the hostess honors with Mrs. Steakley were Miss Jim Steakley, Miss Carol Ross and Miss Marilyn Penner.

Miss Routh greeted the guests wearing a textured white frock, fashioned along the A-line silhouette.

Complimenting her ensemble was a white variation, topped with yellow, a gift from the hostesses.

The bride's chosen colors of yellow and white were carried out in the decor and refreshments.

Centering the serving table in the living room was a unique Easter egg tree.

It Was A 'White Easter' For Northeastern States

By United Press International
The storm that brought a snowy, windy Easter to many parts of the Atlantic Coast and as far inland as Western Michigan moved further east today, according to the Empire State's capital.

The storm split six to 12 inches of snow from Central Pennsylvania to Southern New England.

The heaviest snowfall during the storm was in New York State's capital, Albany, N.Y.—five inches of the fluffy white stuff—scattered at the Empire State's capital.

The snow in New York City marked the first on Easter Sunday of any quantity since 1915 with up to three inches in the city itself and as much as eight inches in the suburbs.

The snow also canceled shuttle flights between New York airports and Boston and Washington.

Pittsburgh received its heaviest Easter snowfall in 70 years with 4.2 inches at the airport and 4.4 downtown. Six inches of snow was reported to eight inches of snow was reported in the suburbs.

Travelers in New England Sunday reported it took more than five hours to drive from Hartford, Conn., to Boston, which is normally about a two-hour trip.

Numerous accidents were reported in Southern New England as holiday travelers tried to get home.

Maryland recorded up to nine inches of snow Sunday at Frostburg, and depths up to 12 inches were recorded in West Virginia.

The snow ended in the East, but travelers' warnings remain in effect for parts of New York, Eastern Pennsylvania, New Jersey and Connecticut early today.

Gale warnings were displayed today on the Massachusetts and Rhode Island coast, with small craft warnings elsewhere from Maine to the Carolinas.

Cold air funneled down behind the Easter snow storm. The temperature dropped to 18 at Youngstown, Ohio, Sunday night, equaling the record low there for March 20.

Meanwhile, cold weather with occasional snow flurries occurred from Idaho and North-western Nevada to Michigan and Northwestern Texas.

Temperatures at 2 a.m. EST today ranged from 4 above at Philadelphia, Pa., to 77 at Key West, Fla.

First Florida only recently moved its corporate offices to the Marine Bank Building from Haines City, where it still maintains its branch office. Marine Bank is one of thirteen Florida banks belonging to the holding company.

United States Bank of Seminole and Florida State Bank of Florida are members of First Florida.

Disclosure May Help Close Loophole Some Funk Anti-Pollution Tests

By DONALD M. ROTHBERG
Associated Press Writer
WASHINGTON (AP) — With some reluctance, federal officials have finally made public what they've known for a long time: A lot of cars of the assembly line flunk the air pollution test that hand-crafted prototypes passed easily.

That disclosure may help speed closing of a huge loophole in the auto pollution cleanup act—a drive that after seems as hazy as a summer afternoon in Los Angeles.

Less than three weeks after a House subcommittee heard about the sad state of government antipollution testing, a General Motors vice president told two Senate subcommittee members that it is ready to start widespread testing of assembly line vehicles.

Less than a year ago, auto makers refused a New Jersey request that they guarantee each 1970 car bought by the state would meet pollution control standards.

At the time, the companies said such a guarantee was impossible because in assembly line production, testing each individual engine to determine if it is within pollution control standards was impractical.

Some engines might pollute heavily, but others would operate so cleanly, the companies contended, that the average pollution of the fleet would be within pollution control standards.

Now, even that sort of claim is being disputed.

"We have found that between 70 and 80 per cent of the cars that come under the standards are not meeting them," says Rep. Paul Rogers, D-Fla., whose Public Health and Welfare subcommittee was holding hearings about auto pollution.

"And what's more amazing," says Rogers, "is that the National Air Pollution Control Administration knows this and has known it for years."

Yet, these same cars carry government certification that the particular model and engine were tested and met pollution control standards.

"How come?"

Because the hand-tooled prototype vehicles used in the certification tests perform better than the mass produced production versions that turn up in dealers' showrooms.

"We had one failure of a prototype vehicle used in the certification tests, but it was because the mass produced production versions that turn up in dealers' showrooms."

John T. Middleton, head of the Air Pollution Control Administration, says that while "We have never had a failure in the vehicle finally passing the test," Middleton replied.

The Middleton replied: "The success of prototypes is unusual."

"In view of the fact that the cars in the hands of the public don't meet the standards, it would seem unusual," he told the subcommittee.

Tunney Kin Held In Death

AMERSHAM, England (UPI) — Gene Tunney is being charged with murdering her husband, heavy-weight boxing champion who was found dead here Sunday in their century-old brick cottage.

The 71-year-old former boxing champion's 26-year-old daughter, Joan Tunney Wilkison, 30, was arrested and ordered to appear Tuesday morning in Chesham Magistrate's Court.

Her husband, Lynn Carter Wilkison, 31, was described by neighbors as having the appearance of a hippie.

Neighbors said his mother, Ruth B. Wilkison of Milwaukee, was seen leaving the cottage in suburban Chesham near Amersham, 23 miles northwest of London, early Sunday and that the two Wilkison children were with her.

They said she called from a telephone booth and within minutes, police arrived. The elder Mrs. Wilkison had recently arrived on vacation.

The Wilkisons had lived in Chesham about six months. They arrived a short time after Mrs. Wilkison was released from a Marshfield, France, hospital where she was treated for pneumonia following a six-week disappearance last summer.

Neighbors said the couple lived a quiet, contemplative life and often stayed up late at night playing Indian-style music on a phonograph.

In Los Angeles, a spokesman for the 72-year-old former boxing champion said Tunney and his family were shocked and saddened at the death.

"We share the anguish and grief of the Wilkison family and Carter's friends," the statement said. "Like all parents at a moment like this, we have deep feelings of compassion and sorrow for our daughter, Joan, and a great desire to help her."

Tunney, who defeated Jack Dempsey in 1926 for the world heavyweight title, was recovering from surgery at an undisclosed location south of Istanbul and devastated other towns and villages for miles around.

Survivors wandered in a daze through the smoldering rain-soaked ruins. Some wept for their lost families. Others were still numb, their faces pale and blank.

Housing Minister Hayrettin Nakipoglu surveyed the area and estimated that 1,000 people had died in Gediz and surrounding villages.

By Sunday night, 800 bodies had been found, and there were 400 injured scattered about.

Despite a steady rain, a whole that a letter telling her of his death could reach her because of the postal strike.

Then, he said, he wasn't sure that he could fly to join her because of the "stick-in."

"I finally decided to 'drive down,'" Kemper said. "That was Thursday and I got stuck in a snowstorm before I could get out of Chicago."

Another Robbery

By PHIL PASTORE

A Sanford service station attendant was struck in the head and his car stolen last night by a man wielding a pipe wrench.

Gary McCalvin, Windy City Trailer Co., was taken to Seminole Memorial Hospital around midnight to be treated for a head wound inflicted by a large man, who took McCalvin's 1967 Chevrolet after striking the man while he worked at Highway Oil Company Station on French Avenue.

McCalvin, after treatment, described his assailant as being about 6'2" tall and weighing 150 pounds.

Jerry Holtbrook, all station manager, said the firm had offered a \$1,000 reward for information leading to the arrest and conviction of the person responsible for the attack.

Communist Raids Claim 13 Yanks In Clash Along Cambodian Border

By WALTER WHITEHEAD
SAIGON (UPI)—Battle communitues listed 19 American and South Vietnamese soldiers killed and 204 wounded Sunday and today in Communist attacks along the Cambodian border, one of them a 300-round rocket and mortar barrage.

A separate report said U.S. troop strength in Vietnam has dropped to 448,000, its lowest level since early May, 1967, with 14,000 men yet to be withdrawn by April 15.

President Nixon is to meet his deadline for pulling out 30,000 more troops.

Thirteen of the dead in the border fights were Americans slain Sunday in a rocket and mortar attack on five outposts along the base of the Cambodian border, one of them a 300-round rocket and mortar barrage.

The Chi Lang defenders at night and today, dropping 900 tons of bombs onto what were described as troop concentrations and supply dumps.

More fighting was expected in the Cambodian border region, where Viet Cong and North Vietnamese troops are being pressured from both sides of the line, by Cambodian troops from Cambodia and allied troops from Vietnam.

Military spokesmen reported two terrorist actions Sunday. The first a road mine that killed nine civilians 12 miles west of Saigon, the second a bombing of a movie theater in My Tho that wounded nine South Vietnamese.

Chief Foe Switches, Favors 18 Vote Age

By JOHN BECKLER
Associated Press Writer
WASHINGTON (AP) — Strong support among House Democrats for lowering the voting age to 18 has overcome the resistance of Rep. J. William Celler, D-N.Y., the proposal's chief foe.

Celler is now prepared to seek a compromise on accepting both the 18-year-old vote and an extension of the 1963 Voting Rights Act, earlier passed as a package by the Senate.

The 47-year-old chairman of the Judiciary Committee has not shifted in his opposition to teen-age voting, but a 3-1 margin among his Democratic colleagues in favor of it has persuaded him to drop his effort to raise the age to 21.

The administration not only favors its own version of the voting rights act, but opposes lowering the voting age by federal statute. It believes a constitutional amendment is required to set a voting age limit for all the states.

The Constitution gives the states the right to set voter qualifications as long as they are not discriminatory. Only four states permit persons under 21 to vote.

Although a poll of House Democrats shows top-heavy support for the package, the Republican vote is much more evenly divided, with most of them declining to say how they will vote.

The administration not only favors its own version of the measure, but opposes lowering the voting age by federal statute. It believes a constitutional amendment is required to set a voting age limit for all the states.

The Constitution gives the states the right to set voter qualifications as long as they are not discriminatory. Only four states permit persons under 21 to vote.

NEW HEAD OF THE U.S. Military Academy at West Point is Maj. Gen. William A. Knowlton, 49. Knowlton became a World War II hero when he led a reconnaissance mission behind German lines to make contact with Soviet forces north of Berlin.

New Tremors Shake 'Quake Area

By NICHOLAS S. LUDINGTON
Associated Press Writer
GEDIZ, Turkey (AP) — Fires continued to burn in shattered Gediz today despite rain that pelted the agricultural area devastated by an earthquake that claimed possibly 1,000 lives over the weekend.

Archeologists, troops and high water workers combed through the rubble for victims. New tremors shook the area, spreading pain among survivors.

The quake rumbled along the dangerous Anatolian fault in western Turkey Saturday night. It flattened half of this town of 5,000 people and south of Istanbul and devastated other towns and villages for miles around.

Survivors wandered in a daze through the smoldering rain-soaked ruins. Some wept for their lost families. Others were still numb, their faces pale and blank.

Housing Minister Hayrettin Nakipoglu surveyed the area and estimated that 1,000 people had died in Gediz and surrounding villages.

By Sunday night, 800 bodies had been found, and there were 400 injured scattered about.

Despite a steady rain, a whole that a letter telling her of his death could reach her because of the postal strike.

Then, he said, he wasn't sure that he could fly to join her because of the "stick-in."

"I finally decided to 'drive down,'" Kemper said. "That was Thursday and I got stuck in a snowstorm before I could get out of Chicago."

Love Finds Way; Always Does

CARROLLTON, Ga. (UPI) — A 23-year-old young man, he is going to get his message through to Agnes despite a postal strike, the air controller "stick-in" and a nasty Chicago snowstorm.

Charlie's message is simple: "I miss you Agnes. Love Charlie."

Kemper, a 25-year-old business student at Northwestern University, said he has been trying to get to Miami for 10 days to join Agnes for the spring holidays while en route from Chicago to Miami, said

had hired an airplane to fly over Hanover Beach at North Miami Beach with the sign. Agnes will be on the beach, sunning and read the sign, he said.

Kemper, a 25-year-old business student at Northwestern University, said he has been trying to get to Miami for 10 days to join Agnes for the spring holidays while en route from Chicago to Miami, said

Easter With 2 Delinquents

PORT PIERCE, Fla. (AP) — Two teen age boys plucked from the life of a man-sized prison by Florida's governor who they will prove the rescue was not in vain.

"I'm going to finish high school and then continue studying to become a lawyer," 16-year-old Richard Copas said Sunday as he and a 14-year-old "Delinquent" Days" were completing an Easter visit home with their families.

Three months ago Donald sat in a receiving station for adult prisoners and wrote his mother, Agnes Douglas.

"Mom, I hope you will forgive me for what I have done. I know I will be a better boy when I come home."

Gov. Claude Kirk, acting after a public uproar when the boys were sentenced to three years in prison, intervened and personally installed them in the Citrus Halfway House in Tallahassee. They've been there since December, working, living and learning with youths coming from or going to reform schools.

Both youths had been involved in a series of minor offenses and shortly before their sentencing were declared "incorrigible" by a judge.

Burglars Take \$100,000 From Titusville Bank

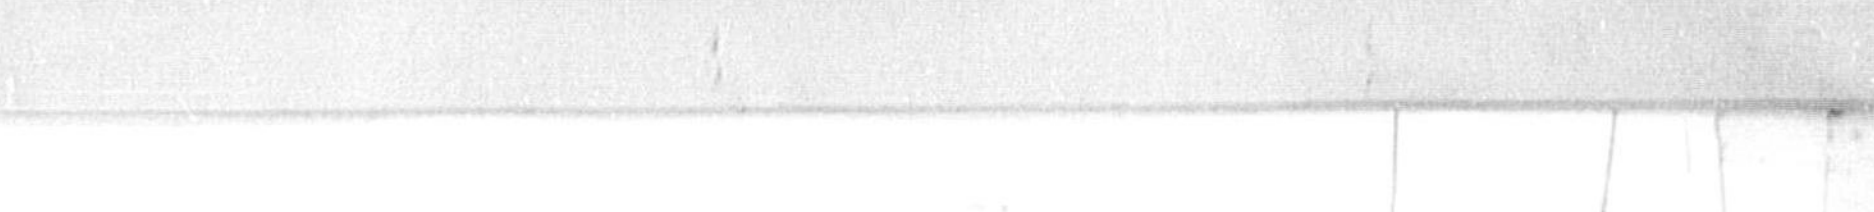

TITUSVILLE, Fla. (AP) — Burglars took more than \$100,000 from the First Citizens Bank and Trust Co. of Titusville during the weekend, Police Chief Clarence Kirkland announced today.

Yeggs dropped through a skylight in the roof of the bank and the bank's vault was looted. The loss would be at least \$100,000 and might run as high as \$300,000.

Kirkland said the burglars apparently were professionals. He said they knew the layout of the bank and had knowledge of the alarm system.

Federal Bureau of Investigation agents were ordered to the case.

First Citizens borrowed money from other Titusville banks and operated as usual today, Bank President Jim Buckley said the loss was insured.

THE OFFICERS FOR THE SENIOR CLASS at Seminole High School recently been selected by their classmates. Susan Cahn (from left, seated) has been selected vice president; Anna May Thornell, secretary; Debbie Moody, representative; and Donna Sawyers, captain; (back row, from left) Tommy Stokolen, treasurer; Hank Dunn, president; and Ron Addington, representative. Seminole LL Opens Up Marathon Slate

Somebody was watching out for the Seminole Little League Saturday. The clouds came, they stayed, but they didn't produce, as the League kicked off the 1970 season with a big 24-game slate.

Besides the games, there was an Easter egg hunt, hard-boiled chicken and a drawing for a color TV. The day started with 9 a.m. opening day ceremonies and ended with the last Pony League game coming to an end at 11 p.m.

Longwood took individual city honors. There were five teams from Longwood in competition and they collected four wins for Longwood. The lone Longwood loss came when two Longwood teams tangled. Sunland was the only community not represented with a win as they fell in two contests. Sunland suffered one of the three shutouts.

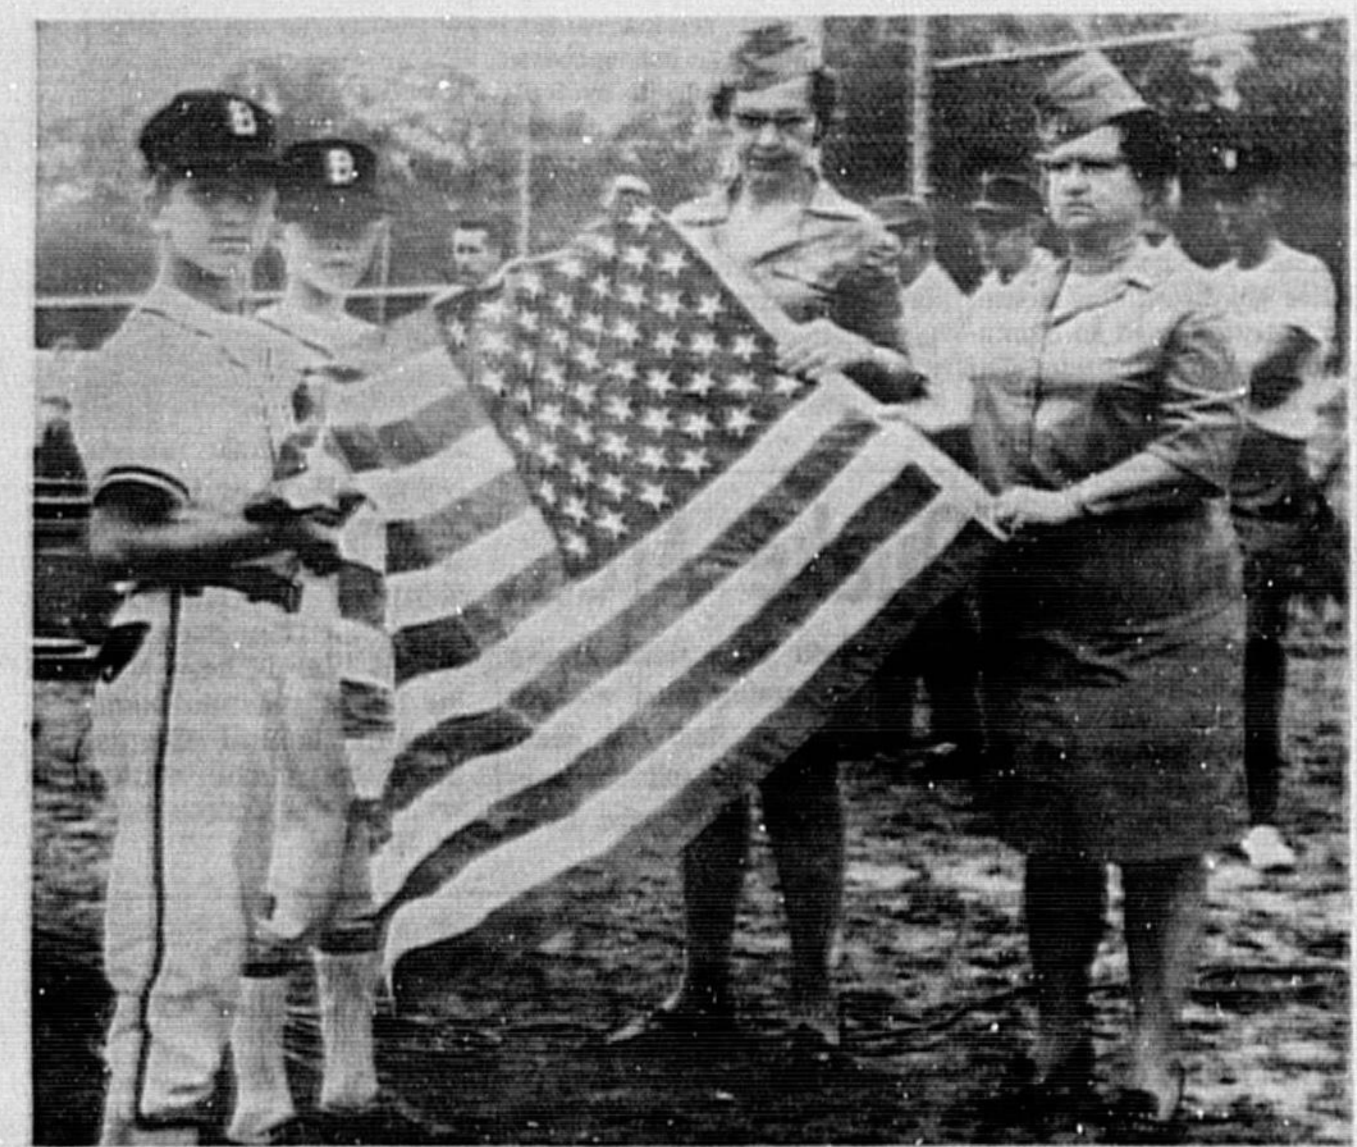

The day saw only three games won by a one-run margin. The widest margin of victory was 28 runs. Two teams won by 23-run margins, both times in Pee Wee Competition, as the Longwood Braves trounced the Longwood Falcons 23-1 and the North Orlando Cardinals stopped the Forest City Pirates 26-6. The Altamonte Twins dropped the Casselberry Cubs 28-1 in Pony League action.

The featured game of the day was a Major League contest between two old rivals, the Longwood Braves and the Altamonte Panthers. The showdown came at 12 Noon and Earl Leftwich's Braves came out on top 4-1.

During pre-game activities, Mrs. Merle Harris and Mrs. Robert March, representing the Ladies' Auxiliary of Longwood VFW Post 8284, presented the Seminole Little League with an American Flag. Buster Letfwich and Larry Mason, players from Longwood, accepted the flag on behalf of the League. At this time C. L. Cooper, president of the League presented John Brewer with a plaque recognizing his continued service to the League.

Saturday was just a beginning. For the next several weeks the action will be continuous as each of the 46 teams play two to three games per week. All games are played at the Seminole Little League Park located near Five Points.

Over \$1,500 in raffle tickets were sold on the color TV valued at \$200. In addition to the sales on the bar-b-que chicken and at the concession stand were the best ever, according to Cooper. All in all it was a very successful day for the League.

AT SEMINOLE LITTLE LEAGUE OPENER

A NEW FLAG flies over the Seminole Little League Park through the courtesy of the Ladies' Auxiliary of Longwood VFW Post 8287. The flag was presented at the opening day ceremonies Saturday. Larry Mason and Buster Letfwich (l. to r.) receive the flag on behalf of the league from Mrs. Merle Harris (second from right) and Mrs. Robert March.

Tribe On Warpath

Seminole 9 Captures Pair

By ROBERT SMITH
Herald Sports Staff

Seminole High's diamond squad rode to two more victories over the weekend, picking up their record to 6-2. The two wins were over Lake Weir 10-2 and Colonial 5-3.

On Friday afternoon the Warriors traveled to Lake Weir to capture their second win of the season from this nine. The game was never in doubt. The Tribe scored four runs in the third inning to put the game away. Pitcher Nick Bradley struck out to leadoff the inning. Dale Wagner lined a shot that was too hot for the short stop to handle and he reached first. Wagner stole second and Richard Harris received a base-

on-balls. Lake Weir catcher Sam Love missed a pickoff attempt on a bad throw, advancing both base runners. A long single by Tommy Greeny knocked out Wagner in an Harris side into third. A passed ball allowed Harris to score and another Greeny came in on another wild pickoff attempt. Bonnie Nohles, the cleanup batter, walked and scored from third on Ronnie Howell's sacrifice fly to round out the inning. This was Bradley's second start. First complete game and third win against no loss.

The fighting Seminoles had a harder time of it Saturday as they picked off their fourth and fifth extra-inning games. The very first inning of play, Tommy Gracy hit his fifth extra-

LA Gets McMillan

INGLEWOOD, Calif. (UPI)—The Los Angeles Lakers signed their No. 1 draft choice, forward Jim McMillan of Columbia University, to a three-year NBA contract Sunday night.

McMillan, a 6-foot-5 1/2, 230-pounder who was the all-time scoring leader in Columbia history, also had been sought by the New York Nets of the ABA.

Laker General Manager Fred Scherer declined to disclose the financial terms of the contract. But informed sources believed the 33-year-old forward was signed for \$200,000 for the three years.

McMillan said he didn't have his heart set at first on playing in the NBA until "I came out to Los Angeles and met the Lakers officials."

He said that the offers from both leagues were "comparable" but that money was not the determining factor.

1969-70 SEMINOLE HIGH SCHOOL THINCLADS

SANFORD HERALD

Sets the Seminole Co. Pace

STC Entry Details Outlined

CASSELLBERRY, Fla. — The Seminole Turf Club has announced the details of its entry procedure for the 1970 season which opens April 20 and closes August 1. Many entries are expected from the Ocala area and other Central Florida farms.

Entries will be accepted by the racing secretary's office 48 hours prior to the running of the daily cards. Scratch time will be 8 a.m. the day of the race.

Every 10 days during the season, new condition books will be available to owners and trainers both on the grounds and on the track's mailing list. Those interested in being placed on the mailing list for condition books or stall applications should write the office of the racing secretary, Seminole Turf Club, P. O. Box 67, Casselberry, Florida 32707.

There have already been over 1,200 stall applications, according to Gary Smith, president and general manager. There are now 200 thoroughbreds conditioning on the premises, and this number will swell rapidly at the end of the month when Florida Downs ends its current racing season. A new barn is under construction on the grounds that will bring the number of stalls available at the track to 1,000.

Track officials are securing additional stabling in the nearby area for horses that cannot be stabled at Seminole.

Allison Caps Atlanta 500 While Setting New Time

ATLANTA (UPI)— Bobby Allison figured all he needed was a break.

The 21-year-old racer from the season in the final of things happening in him when he raced here. But, this time something went for him instead of against him. He got his break and because of it, Bobby Allison is the 1970 champion of the Atlanta 500 stock car classic.

Allison ruined Cale Yarborough's bid to win his fourth straight Atlanta 500 when he charged into the lead with six laps to go and ended on to beat the defending champ by 20 yards and half a second.

"This has to be my greatest day in racing," Allison said after spraying his 1969 Dodge Charger to a track record of 138.254 miles an hour. "I knew I was beginning to close in on Cale. I just kept telling myself all I needed was a break."

The break came when both men pitted while a caution flag was out. On the restart, Allison was right behind Yarborough. The only man on the same lap with Cale, Allison, had to get by on the second turn, churned ahead on the short back straightaway and took a lead Yarborough could never close.

Daytona 500 winner, Pete Hamilton, in a Plymouth was first, while Lee Roy Yarborough, in a Ford, was fourth and Richard Petty, in another Plymouth, was fifth.

Charlie Glotzbach and Buddy Baker, who were 2-3 in qualifying in their shark-nosed Dodges, both fell out to 29th round with ignition troubles and

Streaking SJC Raider Nine Sees Rough Diamond Week

The Seminole Junior College Raiders have a lot to look forward to this week's seven games. Whether that is good or bad is up to them. Today, the Raiders meet New York Community College at 3 p.m. They meet the same New York team in a double-header tomorrow.

The Raiders are just back from Brunswick, Georgia, where they were slated to play a three-game set. But rain dominated the day Saturday and the Raiders had to leave with just one game under the belt, a Friday night 8-1 win.

Bob Sherman fired a two-hitter as the Raiders came from behind for the win. Brunswick jumped off to an early 1-0 lead in the first inning. It was their last run. The inning was sparked by a single by Dick Untermyer. When Untermyer singled in the third, it was the Bucks' last hit. They had only five base runners the entire game, with one of them reaching on a base-on-balls. Sherman struck out 12.

Seminole struck with six runs in the sixth to clinch the win. Steve Shumaker started the rally with a double and then came back to single in the last score of the inning. The Raiders' two runs in the seventh crossed the plate on a Mike Nolan double. Nolan, in 21 official at-bats, has six hits; five of them are doubles.

Shumaker and pitcher Sherman led the offensive attack with two hits and an RBI each. Mike Ferrell, Nolan and Joe Turnball each had two RBIs on one hit.

The Raiders now have five regulars batting over .300. In addition, Sherman is having a cool .400 in ten at-bats. Tommy Anast is leading the regulars with a .318 average. He has

Trevino's King Of Weekend

By MARTIN LADER
By LES KJOS

MIAMI (UPI)—It was one of those weekends for Les Trevino that he didn't want to lose. He won the \$40,000 first prize in the National Airlines Open golf tournament when young Bob Menne finally folded under pressure and missed a four-foot putt in the second hole of a sudden-death playoff, but that wasn't all. He also picked up \$100 at Miami's perpetual windows.

A trip to the horse track Thursday netted him \$50 and another trip to the Miami Jai Alai Fronton got him another \$50.

"And I only bet \$5 a race," he grinned.

Bob Stanton came within a stroke of Trevino during the day and the Australian pet wound up within a shot of the leaders' 274 by shooting a blazing five-under-par 67.

Oreville Moody, the 1962 U.S. Open champion, also charged to within a stroke but then fell to a par 72 and a 279 for the tournament with two bogys and a double bogey.

Dick Lotz wound up three strokes back at 277. He opened Sunday's play, two strokes behind the lead and a shot ahead of Chi Chi Rodriguez.

Rodriguez also fell to a par 72 and wound up at 281, seven strokes behind the then-leader.

Gary Player shot a 70 Sunday and wound up at 281, seven strokes behind the then-leader.

Bombers Roll At DeLand

By FRED COXON
Herald Racing Editor

DELAND — After a slight delay that lasted only 10 minutes the skies cleared above DeLand Raceway as though promoter "Big Jim" Trickey had magic powers and again the drivers were ready, and "Big Jim" was ready to the race program got under way at the new race time of 8:30.

The Late Model feature consisted of one half-racing battle between Jimmy Strood and Larry Flynn. The pair showed their championship style of racing with nine lead changes between them in the 25 lap event.

Jimmy shot out of the fourth turn and across the finish line to win by a car length over Larry.

The Late Model heats were won by Carl Tyler in his brand new Purple and White Chevrolet No. 916 and Randy Callen taking the second heat in his 289 powered 1965 Ford.

Bob Hopping took up where he left off in '69 by winning the Mini Stock feature race sporting a new red metal-fake paint job on the old No. 33X Volvo. Taking second in the main event was Guy Callen in the Yellow and White 7 plus 7 Volvo. Guy also won the Mini Stock Heat race. Finishing third was old reliable himself Jimmy Hefner in the No. 8 English Ford.

BOARERS: Heat One—Scrub Yonem, Bill Peavey; Heat Two—Scrub Yonem, Doni, Peavey, Rogers, Dean, Albert, AMH; STOCKS: 1—Evo-Colon, Jay Thompson, Fred Washburn, Dean, Albert, Hopping, Callen, Hefner; MINI STOCKS: Heat One—Tyler, Strood, Jack Clark; Heat Two—Connell, Bob Washburn, J. P. Penick; Feature—Strood, Flynn, Connell.

Braves Hit O's

WEST PALM BEACH, Fla. (UPI)—Bob Priddy and Gary Nelbauer won skirmishes Sunday in the Atlanta Braves 2-1 victory over Baltimore, but the intrasquad pitching war is still raging.

At stake are four spots on the Braves' major league club, but Priddy, an American League catcher who is having a good spring, pitched the first five innings of Sunday's game, limiting the hard-hitting Orioles to five hits and no runs. Nelbauer worked the final four innings, giving up three hits and the only Baltimore run, coming in the ninth inning and giving the Orioles a 1-0 lead.

But Atlanta charged back with two runs of its own, the clincher coming on Bob Aspromonte's single in the bottom of the inning.

Seattle Moving?

SEATTLE (UPI)—If all goes as expected today, the Seattle Pilots will be transferred into the Milwaukee Brewers' ballpark.

The only legal hangup slowing the transformation was today's bankruptcy hearing, where Pilot owners pleaded to have the financially barren team stripped from Seattle.

Principal owners of the expansion club claimed they were losing \$12,500 a day and that they wanted to sell the club to Milwaukee interests for \$10.8 million.

Florida Relay Results

By F. T. MACFELY
Associated Press Writer

GAINESVILLE, Fla. (AP)—Jimmy Carter threw a 4-0 shutout, assembling the strongest field of collegiate and high school athletes ever brought together in Florida. Ten million dollars of uninvited raindrops came and spoiled the fun.

Despite the rain, the 27th annual Florida Relays met almost Saturday morning with a 47.5 time on the anchor leg of the mile relay.

Bond, slender and slight in build, was the state's top sprinter, said the weather was no major problem to him.

"I ran in rain like this last year," Bond said. "It's the way Tennessee is."

Carter, director of the relays athletic club, and in the state meet last Saturday, hopes it is never like it again for the Florida Relays in the 120-yard high hurdles relay.

When the Cubs came to bat in the bottom of the sixth, Salto made several attempts to leap over the box seat railing to reach his brother, but was restrained by teammates.

Robert Jenkins is a history major at FTL. But he didn't put his books aside and picked up a baseball instead. Jenkins took the mound for the O'Connell Blackhawk team and struck out five batters, giving up one run, three hits and five base-on-balls. The lone run came in the first inning, as the Valosta head batter, James Gray, slammed a round-tripper.

Jenkins not only paced the team on the mound, he was the key factor at the plate. He went two for four. Dennis had the only other hit.

Air Controller Sick-Out Cuts Further Into Travel

By JOHN LENDEK
 Associated Press Writer
 WASHINGTON (AP) — The air controller sick-out, now in its sixth day, has cut further into air travel with the dispute deepening into legal moves, accusation, and apprehension over flight safety.
 Eastern weekend departures were delayed up to five-and-a-half hours in the Northeast and Midwest, the areas hardest hit by the members of the Professional Air Traffic Controllers organization—PATCO—calling in sick. Bad weather added to the trouble on the northeastern runways and slowed buses, a popular alternative for the embattled air traveler.
 New York's Kennedy International and surrounding metropolitan airport traffic was off 60 per cent. All major airlines, represented by the Air Transport Pilot Association of America, said the number of flight cancellations in general was rising with some 200 to 300 of 1,000 departures already scrubbed.
 The Federal Aviation Administration had sent telegrams to controllers saying they would be suspended in 30 days if they did not return to work. Edward Williams, president of New York PATCO said his controllers "are ignoring to a man any telegrams sent to them."
 In Philadelphia, chief controller Leo Marshall sketched further punitive action saying "actions to remove from service"—he did not elaborate further—were being taken against ten controllers involved in the slowdown there.
 Pilots employed by Trans World Airlines sent a telegram to President Nixon Sunday asking for immediate mediation of the dispute. They said, "pilot reports indicate air traffic control problems have reached a critical level... our lives and the lives entrusted to us are being jeopardized."
 But there still were no signs Wednesday that began last Tuesday, PATCO is protesting FAA positions on training rules, equipment and workloads.
 Transportation Secretary John A. Volpe Sunday accused leaders of the PATCO sick-out of spreading false and misleading reports about air travel hazards.
 President Nixon expressed appreciation to those controllers staying on the job at 200 airport control towers and 27 FAA flight radar operation centers.
 John Shaffer, FAA administrator, said Sunday night the slowdown was a "poor, struggle fought by PATCO to gain control of all six labor groups representing controllers."

Seven Places Hit By Thieves

Sanford and adjacent county areas were struck last night by at least seven burglaries or attempted break-ins, according to records at the sheriff's department and city police.
 The reclassification, if approved by the board, would transfer the vocational school on the same campus with new SJC facilities, to the junior college in more than the appraisal value of the property.
 Present operation of the vocational school has been by school board, since control of school facilities was removed and placed under direct operation of the state's Board of Regents.
 Since plans had been drawn previous to the separation placing both the college and vocational facilities on the same campus to be operated jointly, the county was ahead with plans to construct the school with SJC.
 SJC trustees will discuss with school board the effects of placing the vocational school under college control at today's meeting.
 A break-in at Southern Air Conditioning, 199 North Maple Avenue, resulted in the opening of another safe and the loss of two blank checks drawn on the Sanford Atlantic National Bank.
 According to police reports, entry was gained through a window. An attempt to open the safe at York Sports Products.
 A break-in at Southern Air Conditioning, 199 North Maple Avenue, resulted in the opening of another safe and the loss of two blank checks drawn on the Sanford Atlantic National Bank.

Seminole Schools Face \$\$ Crisis, Solon Says

By FRED VAN PELT
 Seminole County schools are much closer to a serious financial crisis than many persons realize, in the opinion of T. Terrell Sossams, Speaker pro tem of the State House of Representatives.
 In Florida the system of free public schools (kindergarten through 12th grade) receives approximately 60 per cent of its financial support from the state, 31 per cent from local taxes (local property taxes and some race track revenue) and nine per cent from federal funds.
 "Unfortunately," says Sossams, "the amount and percentage of these funds vary from county to county and the counties with the greatest need for better schools end up with least amount of money (on a per pupil basis). The main reason is because there are substantial differences in each county's ability to pay local property taxes to support public schools. The difference is seen in the local property tax yield per pupil per mill."
 "Gadsden, \$6.95; Seminole \$15.38; Duval, \$16.04; Orange, \$17.65; Dade, \$30.74; Broward, \$33.32; Glades, \$78.71."
 Sossams continued: "The difference in the tax yield per pupil per mill is amplified when you realize that most counties levy the maximum 10 mills allowed by law to operate their schools."
 "Palm Beach, \$44.74 times 10 mills equals \$447.40 total per pupil. Seminole, \$15.38 times 10 mills equals \$153.80 total per pupil. These differences are further amplified when multiplied by the number of students in each instructional unit."
 "Palm Beach, 27 students times \$447.40 equals \$12,079.80 per unit. Seminole, 27 students times \$153.80 equals \$4,152.60 per unit. Thus Palm Beach County has \$7,927.20 more local property tax dollars per instructional unit than Seminole County."
 Sossams concluded: "Legislative correction of these deficiencies must, in my opinion, have top priority over any other matter. Sound public policy and equity permit no loss. This problem cannot be corrected by repeal of the 10-mill ceiling on local property taxes for public school operation."
 The Tampa Democrat said a token support for the most needy counties would cost \$30-\$40 million per year, and really adequate help would cost \$90-\$120 million per year.

County Refuse Law 'Fattened'

By MARIAN BETHA
 County Commissioners could not seem to get off the ground at this morning's meeting. They sent more than a half hour discussing approval of the minutes and finally tabled them for later in the meeting. They also were not able to reach a decision on the garbage and rubbish ordinance nor the regulation of sanitary landfill.
 The garbage and rubbish ordinance has been placed on next week's agenda. This ordinance is designed to regulate and improve commercial garbage collection services and also will make it unlawful to accumulate on private property and set strict regulations for burning of rubbish on private property.
 No garbage containers shall be left to accumulate for more than one week if the residence does not subscribe to garbage service.
 The ordinance further states that when garbage is transported on county roads that the containers must be tightly secured and covered making any spilling unlawful. County attorney Harold Johnson pointed out there is already a state law to this effect which Commission Chairman John Alexander replied "Well, we're just going to fatten up the law."
 Under the ordinance, refuse collectors will be required to obtain a certificate of convenience and necessity and periodic inspection will be made of the vehicles.
 Stipulations as to collections and rubbish collections, once weekly.
 The ordinance further sets forth that refuse firms shall maintain an office where rest- (Continued on Page 3 Col. 1)

RESULTS OF A FIERY TORCH
 Drive. Acetylene torch was used to burn open the door to enable yeggs to take \$150, according to B. D. Baggs, store manager. (Staff Photo)

Burglars Break Loose Here

Professional safe crackers used acetylene torches to open the company safe at Smitty's Snapping Turtle Lawn Mower Service, 2417 Orlando Drive. B. D. Baggs, Smitty's manager, reported a loss of \$150 in cash which was in the safe.
 Deputy Roy Rice said the yeggs used Smitty's own acetylene torches to burn open the safe. The entry was made by jimmying a door and was discovered by Deputy Roy Hughey making a routine check just before midnight.
 A break-in at Southern Air Conditioning, 199 North Maple Avenue, resulted in the opening of another safe and the loss of two blank checks drawn on the Sanford Atlantic National Bank.
 According to police reports, entry was gained through a window. An attempt to open the safe at York Sports Products.

Councilman Succumbs

Albert Marshall, 62, North Orlando councilman, died at 1 a.m. Monday in the emergency room of Seminole Memorial Hospital as a result of a heart attack.
 Born in St. Augustine, he came to North Orlando two years ago and was elected to a two-year term on the village council in 1969. He served as commissioner of roads and bridges. He served in the U. S. Army Air Corps in World War II.
 Survivors include his wife, Evelyn; son, Lawrence McMath; grandson, Lawrence McMath Jr.; Boca Raton; brother, Carl; and two sisters, Mrs. Mildred Becker, Gainesville, and Mrs. Harry Brown, South Bend, Ind.
 Funeral services will be held at 2:30 p.m. Thursday at Fairchild Northside Chapel in Casselberry with Rev. Delmas M. Copeland, of Community United Methodist Church officiating.

Editor Visits Training Camp

Respect For 'Charley' Learned From Marines

By JOHN A. SPOLSKI
 Time has a way of lulling your memory. But there are certain thoughts, phrases and "old friends" who just never fade away.
 As 15 of us from Florida prepared to visit Camp Lejeune in North Carolina for a four-day visit as guests of the U.S. Marines, some of the old service days came back to haunt us again.
 We were scheduled to depart from Orlando's Herndon airport at 12:50, only to be told, "It'll be a little late in arriving." At 3 p.m., and a couple glasses of soft smelter, another message arrived saying that the "birds" had finally landed in Miami to pick up the southernmost visitors and "would be a little later" getting to Orlando for our departure.
 When the old "gooney bird" touched down, only then did we get the message... SNAPU... Situation Normal, All Foulled Up! Now, on to Jacksonville to pick up the rest of the "crew" and we'd finally be on our way to see the Marines.
 Another "goat" popped up in Jacksonville when the reloading crew didn't show, and here again, another opportunity to guzzle the hours.
 So, it was 9 p.m. when the riveted pre-WW-II C-117 departed from New River... Marine Air Corps Station, and we boarded a bus for an approximate 90-mile ride to Camp Lejeune.
 Click of Clock
 From that moment on, the click of the clock was as meaningful as the itinerary for the visit of the civilian dignitaries on this 6th Marine Corps District.
 We were quick to learn that Camp Lejeune is one of the largest "industries" in North Carolina, contributing 250 million dollars annually into the economic stream. It houses three Marine Corps commands: Marine Corps Base, the Second Marine Division, and Force Troops, Fleet Marine Force, Atlantic.
 Normal military strength is approximately 30,000, not including another 10,000 Reservists who are involved in the summer training periods.
 The camp has a 64-mile perimeter, and on our first day, (Continued on Page 5, Col. 1)
