H. B. Pope prepared the pretablishment and then turned this drawing over to Elliot B. Hadley of Jacksonville for architectural velopment. Arthur Perry, Jr., Jacksonville was the general miractor and the complete op-ration was under the personal pervision of Mr. Pope, who is civil engineer by training and the has had some 20 years of construction experience before coming to Sanford.

The building is erected on lots fronting 107 feet on Park Avenue and 115 feet on Second Street, and is in accordance with plans designed for a service station the public and with a store room adequate dimensions for properdisplaying tires, batteries,

In front of the main building en the Park Avenue and the Second Street sides is a drive covered by an ornamental canopy 25 feet wide. Immediately south of the main building on the Park Avenue side are the wash and inbrication racks. And at the extreme south end facing Park Avemue is the office of the Florida Motor Lines. Homestead ToPay Tax For Settling Debt, Says Court Late Opinion Clarified In Decision Just Handed Down

TALLAHASSEE, Dec. 12, A)-Municipal officials were placed on notice yesterday by a Supreme Court decision that the burden of debt service is not to be shifted to property left subject to taxation after the Homestead Tax Exemption Amendment was placed in the Constitu

The decision was in explanation of a recent opinion in which the court said exempt homesteads must bear their share of bond debts unless "some other adequate fund" is provided for that purpose. The later opinion explained what was meant by an adequate fund. Only moneys actually on hand
